General Notes

1. Projects exceeding 1,000 linear feet of total length or work in the travel way while under moratorium (7 years from last resurfacing) will require review by the Freeholder Public Works, Buildings and Grounds Committee at its next scheduled meeting.
2. Any application for work in the travel way or sidewalk must be accompanied by a Traffic Control Plan, developed in accordance with the current Manual for Uniform Traffic Control Devices (MUTCD). This plan must be reviewed and approved by the County Traffic Engineer prior to issuance of any permit.
3. All applications must be accompanied by a dimensioned drawing showing the location of work to be done, the centerline of the road, curb or edge of the road, sidewalk if any, other utilities in the road, and the size and location of the work in reference at least two permanent structures.
4. The Applicant will have five (5) working days from issuance of the permit or permits to start work or the permit(s) will be deemed void.
5. If the project exceeds 30 calendar days, the applicant/contractor shall be required to renew the permit.
6. The applicant or contractor must notify the Supervisor of Roads prior to any work stoppage exceeding 5 consecutive working days or the permit will expire.
7. Lane closures shall only occur between 9:00 AM and 3:00 PM.
8. Any work on weekends or County holidays must be approved by the Supervisor of Roads.
9. No work shall take place on County Highways on any General Election day.
10. No work other than valid emergencies shall take place on County Highways from November 15th to April 1st of each year.
