January 27, 2015
Mr. Gerald Reiner, QPA
County of Passaic
495 River Street
Paterson, NJ 07524

Dear Mr. Reiner:

This is in response to your January 6, 2015 letter, in which you requested on behalf of the County of Passaic, authorization to use the competitive contracting process, pursuant to N.J.S.A. 40A:11-4.1k, to secure proposals for Grant Writing and Communication Services.

Based on your written submission we reviewed your request by considering the level and characteristics of the service and the competition in the marketplace. We concluded the subject matter is consistent with the intent of the statutory provisions encouraging competitive contracting. Therefore, the Director approves your request to use competitive contracting for only this particular project.

In your development and implementation of a competitive contracting process, we call your attention to compliance with the statutory (N.J.S.A. 40A:11-4 et seq.) and regulatory (N.J.A.C. 5:34-4.1 et seq.) provisions of the process. While we will not review the actual application of the evaluation criteria or how a contractor was selected based on such criteria, we rely on the County's ability to apply the criteria in a non-discriminatory manner. Further, the term of the contract may be for a term not to exceed five years.

If you have any questions regarding this letter or concerns with competitive contracting procedures, please do not hesitate to contact me for further assistance.

Sincerely,

Gordon H. Ball, Procurement Specialist

WHEREAS the local Public Contracts Law, N.J.S.A. 40A:11-1 et seq., requires that the resolution authorizing the award of contract for exempt services and the contracts themselves must be available for public inspection; and

WHEREAS the Administration and Finance Committee reviewed this matter at its meeting of January 14, 2015 and recommends that this agreement be awarded as an exempt service with the understanding that the recipient has not made or will make political contributions as set forth under the Campaign Contributions and Expenditures Reporting Act (N.J.S.A. 19:44A-1); and

WHEREAS a certification is attached which indicates that funds are available for the within contemplated expenditure;

NOW THEREFORE BE IT RESOLVED that the Board hereby authorizes agreements between the County of Passaic and Edmunds & Associates, Inc. for (1) software maintenance services for 2015 in an amount not to exceed $19,635.00, and (2) the licensing fee required for the software update known as “Pervasive SQL Database 11.31,” in the amount of $3,427.60; and

BE IT FURTHER RESOLVED that the Director and Clerk of
the said Board are hereby authorized to execute the necessary
contract on behalf of the County of Passaic; and

BE IT FURTHER RESOLVED that this contract is awarded

Dear Client:

Thank you for selecting Edmunds & Associates, the industry leader in commitment to innovation, support services, R&D investment and client/staff education.

Regardless of whether you are a calendar or fiscal year entity, all support agreements are due January 5, 2015, and cover the period of January 1, 2015 through December 31, 2015.

* All attached agreements must be signed and returned prior to December 31, 2014 to avoid delays in providing support.

* If you purchased your system sometime in calendar year 2014, your support agreements have been pro-rated to the date of purchase to account for your one year of free support. If your system was purchased in 2013, and this year there is an increase, it’s because your 2014 support agreement was pro-rated.

* The software support agreement is mandatory and must be entered into for you to receive software support, system enhancements, mandated changes and updates.

Please forward a purchase order in the amount of the enclosed invoice(s) with a signed copy of the enclosed agreements. Edmunds & Associates greatly appreciates the opportunity to serve your organization.

Best regards,

_Edmunds & Associates, Inc._
2015 Minimum Recommended Back-up Procedures

Edmunds & Associates strongly recommends the installation of a tape back up in the fileserver, utilizing third party back up software in addition to any cloud back up. The fileserver should have a high speed Internet connection. If this is not possible, a pc on the network with a high-speed connection will suffice.

If you do not install as recommended we will not be able to view the tape status or restore files remotely. This would result in an unnecessary delay restoring files if we do not have remote access. All on site visits and phone consultations will be billable at our current hourly rate of $150 per hour regardless of hardware maintenance coverage.

As a reminder we would like to review the minimum suggested back up procedures.

✓ Daily back up of data files. Five different tapes should be used, one for each day of the week.
✓ Tapes should be rotated and stored off site on a daily basis.
✓ Complete MCSR/VA system back up should be done at least weekly.
✓ Monthly back up tapes should be archived for at least 3 months.

The MCSR applications verify that Edmunds data files have been successfully backed up every 3 days. It is the responsibility of each client to insure other files/databases, such as pdf’s and word processing are being properly backed up.

1. **GPS Tracking Device**: The tracking device must be a single-piece device that attaches to an offender’s ankle, integrates a CPU, GPS technology, and GPRS/GSM cellular (voice & data) technology. The device must communicate with the vendor’s live monitoring software system to track and capture offender location information. The device must also allow real-time voice communications between the Agency, monitoring center personnel and the offender.

- One award will be made for a twelve-month (12) period beginning January 1, 2015 and terminating December 31, 2015 in the amount of $100,000.00. Proposals will be reviewed and funds awarded under the competitive contracting methodology required by the Local Public Contracts Law (P.L. 1999, C.440). All awards will be subject to actual appropriation and availability from the State and the amount listed as available for this project is subject to change accordingly.

- Subject to findings from the annual performance and needs review by County Department of Human Services, the Youth Services Commission, and the Board of Chosen Freeholders, one successful applicant will be awarded a contract which will be renewable on a year to year basis for up to two years, providing that the following specifications/requirements are met.

2. **(A) Background**: On November 10, 2014 the County Purchasing Department issued a notice and made applications available for the 2015 GPS Electronic Monitoring RFP. Proposals were due no later than 10:30AM (prevailing time) Tuesday, December 16, 2014, at the Passaic County Procurement Center, 495 River Street, Paterson, NJ.

   **(B) Potential Vendors**: Only one vendor successfully responded to the RFP; Track Group.

   **(C) Recommendation**: The review process was non-competitive since there was only one applicant. The Review Committee still met and reviewed and scored the sole applicant’s proposal. The Review Committee was composed of Stacy Haynes (HSAC Chair), Francine Vince (Addictions & Mental Health Director), John Givens (Juvenile Administrator), Chris Irving (WIB Director) and Charles Featherston (Family Services & Community Outreach Director). Track Group was recommended for funding with a total score of 90.

WHEREAS the said PVSC, as part of the project, is proposing that it be permitted to close the eastbound lane of Fifth Avenue, a Passaic County roadway, between Wait Street and East 12th Street while maintaining the westbound lane beginning on March 16, 2015 for a period of seven months while the said sewer main is being rehabilitated by its contractor; and

WHEREAS this proposal was presented by the PVSC to the Freeholder Committee for Public Works and Buildings & Grounds at its November 17, 2014 meeting at which time the Committee raised several concerns about the proposal to close Fifth (5th) Avenue during this construction; and

WHEREAS the Passaic County Engineer who was directed by the said Freeholder Committee to address the concerns raised at that meeting is now recommending by letter dated January 14, 2015 that the said Board authorize the closure of Fifth (5th) Avenue in Paterson as referenced above and authorize the issuance of the necessary road opening permits as long as the conditions set forth are adhered to by the PVSC and its contractor.
(copy of letter attached hereto and made a part hereof along with letter from PVSC); and

WHEREAS the Board of Chosen Freeholders adopted a resolution on the date of September 12, 1991 with respect to requirements concerning road opening permits relative to construction and reconstruction of County roadways.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby grants permission to the Passaic Valley Sewage Commission to close the eastbound lane of Fifth (5th) Avenue between Wait Street and East 12th Street in the City of Paterson beginning on or about March 16, 2015 for a period of seven months to rehabilitate their main interceptor sewers and to open up that section of Fifth (5th) Avenue along with curb and sidewalk construction including the resetting of storm drain inlets pursuant to the terms and conditions set forth above and to the adherence of the pavement trench requirements of Passaic County.

BE IT FURTHER RESOLVED that the above referenced approval shall be subject to the condition precedent that said PVSC to post the required bond and to agree in writing to the other condition set forth in the attached letter from the Passaic County Engineer dated January 14, 2015.

Re: Passaic Valley Sewerage Commission — 5th Ave Closure

Dear Members of the Board:

Passaic Valley Sewerage Commission (PVSC) has awarded Contract No. A-315, to rehabilitate their main interceptor sewers built 100 years ago. The sewer main is in Paterson and runs under 5th Avenue (County Road), East 12th Street, and 4th Avenue. PVSC proposes to close the eastbound lane of 5th Avenue, while maintaining westbound traffic. This traffic pattern is proposed to begin on March 16, 2015, and continue for seven months.

Our office has reviewed the traffic control plans, and after several revisions based on our comments, they are now acceptable. This matter was discussed at the November 17, 2014 Public Works Committee meeting. The committee had concerns, which are being addressed as follows:

- Due to the delays experienced by the PVSC work recently on Route 20, the County does not want a similar experience. PVSC has agreed that its contractor will utilize longer shifts and/or multiple crews to meet the seven-month construction duration (see attached letter from PVSC).

- To maintain one lane of traffic on 5th Avenue, requires temporary pavement widening on the north side of 5th Avenue. The contractor shall post a bond in the amount of $168,367.00 to ensure that the required improvements and traffic control devices are constructed/installed, properly maintained for the duration of the detour, and full restoration performed upon project completion. The bond estimate is enclosed, and is based on plans entitled "REHABILITATION OF THE MAIN INTERCEPTING SEWER AND VARIOUS MANHOLDS", prepared by Charles A. Manganaro, Consulting Engineers, Hawthorne, NY, for the Passaic Valley Sewerage Commission, last revised 9-2-14.

The posting of the bond shall be a prior condition for the issuance of any Right-of-Way Entry Permits by the County, and shall remain in full force for a period of two years after the acceptance of the final restoration by the County.
Based on the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution authorizing PVSC to undertake the closure of eastbound 5th Avenue, between Wait Street and East 12th Street, for a duration of seven months, starting March 16, 2015, subject to the posting of the above bond.

Very truly yours,

RE: Passaic Valley Sewerage Commission
Rehabilitation of the Main Intercepting Sewer and Various Manholes
Contract No. A-315

SUB: Request Passaic County Approval of the Proposed Traffic Control and Detour Plan of 5th Avenue (Passaic County Route 652) between Wait Street and East 12th Street for the Proposed PVSC Rehabilitation Project

Dear Mr. Edmond:

As requested at the November 17, 2014 Passaic County Committee meeting for the referenced project, we are hereby revising our letter of June 16, 2014 and resubmitting our request for approval from the Passaic County Engineering Office for the partial road closure, traffic control, and detour plan of 5th Avenue (County Route 652) in Paterson, NJ, to enable the rehabilitation work of the Passaic Valley Sewerage Commission (PVSC) Main Interceptor Sewer. It is our understanding that our request for approval will be presented at the December 9, 2014 Passaic County Freeholders meeting.

It is also our understanding that the City of Paterson (in conjunction with the Bunker Hill Association) has already approved (via email correspondence dated September 9, 2014) this work.

We are hereby submitting two (2) copies of the following information to support this request:

- Temporary Traffic Control Plan, report prepared by Langan Engineering & Environmental Service, dated February 10, 2014 (Revised March 18, 2014);
- Contract Drawing No. 7E, Revision No. 4, dated 09/02/2014 -- Titled "Manholes MI-214 to MI-218, Traffic Control Plan -- Sheet 1 of 3, Paterson".

Background Information and Condition Assessment

For your information, the PVSC Main Interceptor Sewer along 5th Avenue and part of East 12th Street consists of a 5'-5" Semi-Elliptical (flat-bottom horseshoe section) Unreinforced Cast-In-Place Concrete sewer that was originally constructed in the late 1910s via the Open-Cut type construction method.

The PVSC Main Interceptor Sewer along part of East 12th Street and 4th Avenue also consists of a 5'-8" Diameter Circular Brick Sewer that was originally constructed in the late 1910s via the Tunnel type construction method.

In the early 1980s, PVSC performed repairs on a section of the 5'-8" Diameter Circular Brick Sewer within part of East 12th Street and 4th Avenue. However, additional repairs were identified by Charles A. Manganaro Consulting Engineers (CAMCE) in the late 1990s and early 2000s.

The additional repairs identified by CAMCE have been designed and incorporated into the current construction project documents for PVSC Contract No. A315.

PVSC and CAMCE took into consideration various alternatives for the rehabilitation of the Main Interceptor Sewer during the design process. They are listed below:

- The "No Action" alternative was not considered a viable option as this alternative does not address, rehabilitate, and/or re-established the structural and operational integrity of the Main Interceptor Sewer based on the identifiable deficiencies from the evaluation and condition assessment performed by CAMCE.
- The traditional open-cut excavation construction method was considered as a potential alternative to address, rehabilitate, and/or re-established the structural and operational integrity of the Main Interceptor Sewer. However, it was not considered a viable option as this alternative would require extensive trenching of depths in excess of 30-feet (on 5th Avenue and part of East 12th Street) and 40-feet (on part of East 12th Street and 4th Avenue) over the entire length (1,607-linear feet) of the Main Interceptor Sewer identified for rehabilitation. Additionally, this alternative was not considered a viable option as this alternative would require complete closure of 5th Avenue, East 12th Street, and 4th Avenue for an extensive period of time (potentially in excess of twelve (12) months) as well as required coordination with all of the other utilities impacted by the deep trenching with the notion that several utilities would either have to be temporarily and/or permanently relocated. This alternative was also not considered a viable option as this would severely impact the local residential, commercial, and
industrial businesses within a part of the Bunker Hill section of the City of Paterson. This alternative was also not considered a viable option as the construction costs associated with this alternative would be excessive compared to the "trenchless" construction method.

- The tunnel construction method was not considered a viable option given the configuration of the original alignment of the Main Interceptor Sewer within the exiting street right-of-way in an area of the City of Paterson that is surrounded and impacted by the local residential, commercial, and industrial businesses within a part of the Bunker Hill section of the City of Paterson.

- The construction of a new parallel interceptor sewer alternative was not considered a viable option for the combined reasons as the traditional open-cut excavation construction method and the tunnel construction method.

- The "trenchless" construction method was considered and chosen as a potential alternative to address, rehabilitate, and/or re-established the structural and operational integrity of the Main Interceptor Sewer. While this alternative is identified as "trenchless," this alternative still requires excavations. However, the excavations are of a much smaller foot-print than the traditional open-cut construction method. Also, with the "trenchless" construction method, the construction duration will be reduced; there will be less impact to the local residential, commercial, and industrial businesses within a part of the Bunker Hill section of the City of Paterson; and the overall construction costs will be less as compared to the traditional open-cut excavation construction method. The "trenchless" construction method also allows additional rehabilitation alternatives to be evaluated and assessed, specifically cured-in-place pipe (CIPP) lining and/or slip-lining.

Finally, based on the various alternatives for the rehabilitation of the Main Interceptor Sewer identified, evaluated, and assessed during the design phase of this project, the "trenchless" construction method of a combination of CIPP and Slip-Lining was ultimately determined to be the most cost-effective and less intrusive to the local residential, commercial, and industrial businesses within a part of the Bunker Hill section of the City of Paterson.

Construction Phase
The rehabilitation work is being performed on the 5'-5" Semi-Elliptical Concrete Sewer which runs beneath 5th Avenue (road which is under the jurisdiction of the Passaic County) and continue on to a 5'-8" Circular Brick Sewer, beneath East 12th Street and 4th Avenue (roads which are under the jurisdiction of the City of Paterson). The planned method for rehabilitation is the less intrusive trenchless technology; CIPP lining which consists of installing a resin impregnated flexible tube by inversion into the conduit via a lining chamber/access pit. Construction of this lining chamber/access pit is proposed on 5th Avenue, between the NJ Transit Railroad and E.11th Street.

Due to the criticality of affecting the traffic on 5th Avenue (County Road), a traffic survey, traffic study, traffic evaluation, and traffic plan was commissioned, which has been reviewed by the Passaic County Engineering Department and the City of Paterson Engineering Department and has been subsequently revised for approval.

While the traffic control and detour plan prepared by CAMCE and Langan and presented herein will not correct the traffic problems that already exist in the area of interest within a part of the Bunker Hill section of the City of Paterson (per representatives of both the Passaic County and the
City of Paterson at the several traffic control and detour plan meetings held for this PVSC project, CAMCE and Langan have prepared a traffic control and detour plan that will promote a safe construction work zone along 5th Avenue for the Contractor as well as the public. In addition, the proposed traffic control and detour plan will inform the public of the appropriate signage to safely migrate around the area of interest within a part of the Bunker Hill section of the City of Paterson.

The traffic control plans associated with the rehabilitation scope of work from PVSC Manhole MI-214 to PVSC Manhole MI-218 have been revised and incorporate the comments highlighted by the Passaic County Engineering Department as well as the City of Paterson’s Engineering Departments during our traffic meeting held on May 7, 2014 at the offices of the Passaic County Engineering Department.

**Coordination with the Passaic Valley Water Commission**
The Passaic Valley Water Commission (PVWC) owns, operates, and maintains their 42-inch water transmission main located on 5th Avenue within the City of Paterson. PVSC, CAMCE, and Cruz have coordinated with the PVWC regarding the relocation of their 42-inch water transmission main on 5th Avenue within the City of Paterson in the vicinity of our construction work zone. The relocation of the water transmission main will allow the PVWC to continue to serve their customers while also allowing the PVSC and our Contractor the access needed for the rehabilitation of the PVSC Main Interceptor Sewer.

**Coordination with Additional Stakeholders during Construction**
PVSC along with our consulting engineer (CAMCE) and our contractor (Cruz) will make every effort to keep all of the stakeholders (i.e. the Passaic County Engineering Department, the City of Paterson, the Bunker Hill Association, the PVWC, the NJTRANSIT, and the other utility companies) informed of the construction activities during construction, including invitations to our regularly scheduled monthly construction progress meetings.

PVSC will also coordinate the preparation of Construction Advisories for use by the Passaic County Engineering Department and the City of Paterson about informing the public on the construction activities. PVSC will also prepare and post Construction Advisories on our website to inform the public about the ongoing construction activities.

**Construction Duration / Schedule**
The Contractor (Cruz Contractors LLC) has prepared a construction schedule associated with the 5th Avenue construction work activities (copy attached). At the request of the Passaic County Committee members from the November 18, 2014’s committee meeting, the attached construction schedule has been revised to indicate a commencement date of March 16, 2015 to coincide with the end of the winter/snow season. Cruz has identified a 7-month construction duration, which would bring site restoration of 5th Avenue to the end of September 2015.

While PVSC, CAMCE, and Cruz will work together to complete the rehabilitation work in a timely manner, Cruz may have to incorporate longer shifts and/or multiple crews into their construction schedule.
Permission by the Passaic County for the proposed PVSC rehabilitation work within a County Road and approval of the traffic control plan will enable:

1. PVSC to address, rehabilitate, and/or re-established the structural and operational integrity of the Main Interceptor Sewer thus “Protecting Public Health and the Environment”;
2. The Contractor to begin planning and eventual mobilization of the work; and

Therefore, we request the Passaic County approve the necessary Utility Road Opening Permits, based on the enclosed traffic control and detour plan, thereby enabling PVSC and our Construction Contractor to begin and proceed with the soil exploration, surveying, rehabilitation work etc., at 5th Avenue, Paterson.

We trust the information noted herein and attached is sufficient to satisfy the Passaic County and the City of Paterson.

If you have any questions or require additional information, please contact myself or John Rotolo at (973) 817-5962.

Very truly yours,

Re: Law Enforcement Officers Training and Equipment Fund  
SFY 2015 (Part 1—July 1, 2014 to October 31, 2014)

Dear School Director Lyons:

The Police Training Commission is pleased to inform you that the Passaic County Police Academy will be receiving funding under SFY 2015 (Part 1—July 2014 to October 2014) Law Enforcement Officers Training and Equipment Fund (LEOTEF). The allocation for your school is $8,073.00.

Commission Rule N.J.A.C. 13:1A-1.1 et seq., which sets forth the administration of LEOTEF funds, is located on the Police Training Commission website at www.njptc.org, within the tab labeled “PTC Rules/Act.”

In order to receive this funding, the following documents must be received in the office of the PTC by Friday, January 2, 2015:

1) An executed SFY 2015 Allocation Funding Agreement (Revised 12/14 blank agreement enclosed); *
2) A brief description of how the funds will be utilized;
3) A completed State of New Jersey Payment Voucher (enclosed)
4) A copy of the resolution (if required).

* The attached SFY 2015 Funding Agreement may be used for all three distributions of LEOTEF in SFY 2015, unless a School Director or Financial Officer changes.
Please verify the payee name and address on the Payment Voucher, and make any corrections necessary.

Return the items listed above to the Police Training Commission by Friday, January 2, 2015. Failure to do so may result in the cancellation of your allocation.

If you are not able to provide your resolution by January 2, 2015, please forward the remaining materials to secure your funding, and specify an anticipated date for your signed resolution. We understand that having a resolution passed is a time-consuming process. However, all resolutions must be filed with the Police Training Commission by Friday, February 13, 2015 to receive this SFY 2015 (Part I - July-October 2014) LEOTEF allocation. There will be no exceptions.

Enclosed are the Reporting Requirements and Distribution Plans for SFY 2015 LEOTEF, which were approved at the Police Training Commission meeting on December 3, 2014. Please ensure that all members of your staff who are responsible for the preparation of these materials, review and are familiar with the changes in the implementation of SFY 2015 LEOTEF. Distribution will occur three times a year instead of annually, as it had been in the past. The anticipated dates for two future distributions will be after the PTC meetings on April 1, 2015 and August 5, 2015.

If you have any questions about the changes made in the implementation of the program, please contact me at 609-984-0931, or at hamilton-bondp@njdcj.org. For financial issues, contact Terri Ricciello at 609-292-0485, or at terri.ricciello@lps.state.nj.us. Thank you for your attention to this matter.

Very truly yours,
