SECTION III
AUDIT SCOPE

The scope of our audit will include the financial statements of the County of Passaic on the State required Comprehensive Basis of Accounting.

Our audit will be performed in accordance with generally accepted auditing standards, Governmental Auditing Standards, and audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey and will include such tests of the accounting procedures and such other procedures as we deem necessary in the circumstances.

As part of our audit, we will review the County’s system of internal accounting controls, as necessary, to enable us to form an opinion on the financial statements. We will then issue a letter of recommendation, if appropriate, with respect to these systems.

Under generally accepted auditing standards, the independent auditor has the responsibility, within the inherent limitations of the auditing process, to plan the examination and to search for errors or irregularities (as defined in authoritative professional literature) that would have a material effect on the financial statements. Our search for material errors or irregularities ordinarily is accomplished by performing those auditing procedures that in our judgment are appropriate in the circumstances to form opinions on the financial statements as a whole.

In conducting our examination, we will be aware of the possibility that illegal acts (as defined in authoritative professional literature) may have occurred and may have a material effect on the financial statements.

Examinations, conducted in accordance with generally accepted auditing standards, are of limited effectiveness in discovering possible illegal acts and cannot be expected to provide assurance that illegal acts will be detected, although procedures that are performed primarily for the purpose of forming an opinion of the financial statements as a whole may also bring possible illegal acts to the auditor’s attention.

An efficient audit

To facilitate the timely and cost-effective completion of our examination, our overall audit work plan is organized according to four distinct phases. The following section outlines the major procedures we typically perform during each phase of the engagement:
Phase I - Audit preparation stage

- Meet with key personnel to discuss our approach to the engagement so that it can be conducted in the most effective and efficient manner.
- Review changes, if any, in applicable statutes and regulations.
- Develop the preliminary auditing programs we will employ in the various areas, such as programs to be updated in Phase II.

Phase II - Accounting systems and evaluation of internal accounting controls

- Review the existing accounting systems. Such review would include updating of our documentation of system flowcharts, analysis of system strengths and weaknesses and formulation of a preliminary evaluation of the adequacy of internal controls in the system.
- Perform tests of transactions to the extent necessary in the circumstances. The results of such test will either confirm or reject our evaluation of the internal control system.
- Update the audit program (if necessary) for our audit of year-end account balances.
- Bring all significant findings in our observations on internal control and other matters to the attention of the administration for timely action.
- Review interim financial information as available.
- Identify, to the extent possible, all potential accounting and auditing problems; review them with key personnel and develop proposed solutions.
- Prepare requests for confirmation of cash balances, receivables and debt obligations.

Phase III - Examination of year-end account balances

- Mail confirmation requests, summarize and evaluate responses.
- Perform various audit procedures, including examination of supporting documentation to verify reasonableness of assets, liabilities, revenues, expenses and fund balances.
- Obtain representation regarding completeness of disclosure and integrity of accounting records.
Phase IV - Reporting

- Review draft financial statements with appropriate personnel.
- Present audit report to the County's governing body.

While we will be in communication with you as necessary, we anticipate that our greatest requirement of management's time will be at the inception of our work and then, again, as the audit reaches its final stages. We will always strive to deal with the person who is directly responsible for a given area, thereby minimizing the time required of management.

In addition, to ensure the highest standards of service both now and in the years ahead, we will base our audit approach on locating authority and decision-making capability in the Partner; top-down planning and control; close communication with management; and the use of advanced audit technology on your engagement.
SECTION IV
