Re: Uniform Bid SB-15-002

Dear Mr. Marinello,

On Wednesday February 4th, 2015 the bid entitled SB-15-002, Uniforms for Several P.C. Departments and Institutions was received and opened to which only one bidder responded. The bidder, American Wear, is also our current vendor. Because of the various departments involved in reviewing the technical and pricing information, I coordinated the process to facilitate the review in a timely manner.

During the review each department confirmed that American Wear did not deviate in the specifications requested or scope of work in any major item, furthermore their pricing was deemed to be in line with the various departmental price estimates.

Therefore, I am happy to recommend a contract for American Wear for all line items in the bid, for the term as specified in the bid, American Wear is the lowest responsive responsible bidder for SB-15-002.

Sincerely,

Gerald T. Reiner Jr.

WHEREAS the voting system was to be comprised of 650 AVC Advantage Voting Machines together with associated proprietary software and related goods and services from Sequoia, including specified support services for a period of one (1) year, as more fully described in the Agreement between the parties; and

WHEREAS the Board was advised in August, 2010 that Dominion Voting Systems, Inc. (“Dominion”) had acquired substantially all the assets of Sequoia; and

WHEREAS the local Public Contracts Law, N.J.S.A. 40A:11-1 et seq., requires that the resolution authorizing the award of contract for exempt services and the contracts themselves must be available for public inspection; and

WHEREAS the Administration and Finance Committee reviewed this matter at its meeting of February 25, 2015 and recommends that this agreement be awarded as an exempt service with the understanding that the recipient has not made or will make political contributions as set forth under the Campaign Contributions and Expenditures Reporting Act (N.J.S.A. 19:44A-1); and
WHEREAS a certification is attached which indicates that funds are available for the within contemplated expenditure;

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that the Passaic County Board of Elections be and hereby is authorized to purchase two (2) ImageCast® Cast Central (ICC) Desktop Scanners from Dominion Voting Systems, Inc. for use in the reading and tabulation of mail-in ballots, at a total price of $119,000.00, as more fully described in the attached quote; and

FY2016 LETTER OF INTENT

November 3, 2014

Francine Vince
Passaic County Division of Mental Health and Addiction Services
401 Grand Street
5th Floor
Paterson, NJ 07505

Dear Ms. Vince:

The Governor’s Council on Alcoholism and Drug Abuse (GCADA) is announcing its intention to provide a grant to Passaic County for the Fiscal Year 2016 Alliance to Prevent Alcoholism and Drug Abuse Program. The allocation for Fiscal Year 2016 per formula from the Drug Enforcement Demand Reduction (DEDR) Fund, including coordination funds, is $512,024.

The grant period will begin July 1, 2015 and continue through June 30, 2016. This letter of intent is contingent upon the availability of funds and is subject to the rules of the New Jersey Department of Treasury.

County coordination funds are included in your funding formula award. Counties may take up to 15 percent of their DEDR award with a minimum of $60,000. The total amount of coordination funds available for your county for FY 2016 is $76,804. County spending plans will be approved by the GCADA in accordance with established grant guidelines.

Up to five percent (5%) of DEDR funds up to a maximum of $20,000, may be used for countywide activities. These activities should focus on training for the Municipal Alliances and community partners. The trainings and activities chosen must benefit the county-at-large.
Counties will only be permitted to contract with Municipal Alliances that attended the required GCADA trainings on the needs assessment and strategic planning process. Refer to the enclosed “Guidelines for Distributing Funds from Non-Participating Municipalities” for assistance with reallocateing funds from municipalities that are not participating for FY 2016.

All funds will be reimbursed to the counties after receipt and acceptance of the required expenditure reports, programmatic reports and vouchers.

The submission and approval of the County Alliance Plan, including a detailed budget for county coordination and countwide activities, will be required to access these funds. Plans must be submitted to GCADA by March 2, 2015. Plans received past the due date will not be assured of approval by July 2015.

Please be advised that no County Alliance Plan will be reviewed or presented to the full Council for approval if the County is not up to date with its expenditure and programmatic reports for the prior grant term.

The County’s continued cooperation and support are appreciated.

Sincerely,

Selina Gray

RESOLUTION AUTHORIZING AGREEMENT BY & BETWEEN THE COUNTY OF PASSAIC AND EUGENE PAROCZAY FOR PROPERTY ANTICIPATED TO BE ACQUIRED BY THE COUNTY OF PASSAIC AS IT RELATES TO THE PROJECT KNOWN AS THE REPLACEMENT OF TWO BRIDGES ROAD OVER THE POMPTON RIVER & WEST BELT EXTENSION IN THE TOWNSHIPS OF WAYNE AND FAIRFIELD AND THE BOROUGH OF LINCOLN PARK, NJ

WHEREAS the County of Passaic is undertaking a Project known as the Replacement of the Two Bridges Road Bridge over the Pompton River and West Belt Extension in the Townships of Wayne (Passaic County) and Fairfield (Essex County) and the Borough of Lincoln Park (Morris County); and

WHEREAS this project, which involves a bridge owned jointly by the County of Morris and County of Passaic, has qualified for Federal Aid through the New Jersey Department of Transportation; and

WHEREAS the Passaic County Engineer has identified that one of the properties that is going to be needed in connection with the Project is the parcel at 29 and 33 Lincoln Boulevard in the Borough of Lincoln Park in Morris County; and

WHEREAS the owner of the property, Eugene Paroczay, who learned during the appraisal process of the need for his property, recently had the tenant who leased the house on the parcel move out; and

WHEREAS Mr. Paroczay, believing that the purchase of his property was imminent, offered to refrain from releasing the house as long as the County of Passaic agreed to pay the prior
rental at the rate of $1,500 per month plus the cost of utilities; and

WHEREAS since the County of Passaic would have to do a relocation plan if a tenant was in residence at the home at 29 and 33 Lincoln Boulevard in Lincoln Park, the Office of the Passaic County Counsel is recommending that the County of Passaic, as part of the Project, pay the requested rent plus the actual costs of utilities for the months of January, February, March and April 2015 after which, hopefully, the County will be in a position to make an offer to purchase the entire property; and

WHEREAS this matter was reviewed by the Freeholder Committee for Public Works and Buildings & Grounds at its February 23, 2015 meeting at which time it was recommended that it be approved by the entire Board.

WHEREAS a certification is attached hereto that indicates the availability of funds for said expenditure.

NOW THEREFORE BE IT FURTHER RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby authorizes an Agreement by and between the County of Passaic and Eugene Paroczay, the owner of the home at 29 and 33 Lincoln Boulevard in Lincoln Park, New Jersey, to pay the rent for the months of January, February, March and April at the rate of $1,500 per month plus the actual costs of utilities in consideration for his not renting the home which is anticipated to be acquired by the County of Passaic for the Project known as the Replacement of Two Bridges Road over the Pompton River & West
Belt Extension in the Township of Wayne, Fairfield and Borough of Lincoln Park, New Jersey.

**BE IT FURTHER RESOLVED** that the Director and Clerk to the Board as well as the County Counsel be authorized to execute the said Agreement on behalf of the County of Passaic.

The Passaic County Planning Board issued a review letter on the site plan No. SP 14-018 on October 7, 2014; one of the comments being that the applicant receive an encroachment permit. This request and the accompanying encroachment plan have been reviewed and recommended for approval by the Public Works Committee at its meeting of February 23, 2015.

Therefore, I recommend that the Board of Chosen Freeholders adopt the necessary Resolution authorizing the establishment of an encroachment as described above at this location, with any restrictions as stipulated above and contained within the Conditions of Approval as noted on the Encroachment Permit Application, and that the Office of County Counsel prepare any necessary Agreements between the County of Passaic and the Owner for these encroachments.

Change Order #11 (Add - County)

Members of the Board:

Attached for your approval is Change Order #11 (Add - County) to be issued to the Contractor, reflecting an increase in the contract amount due to the following:

- Subsequent to issuing the contract, the County elected to move the slope in front of the North Jersey Country Club back in anticipation of adding a sidewalk at a later time. This required the slope protection to be upgraded to Type 4 matting.
- As a result of the condemnation hearing and subsequent negotiations with the Ramapo Shopping Center, the County agreed to reconstruct portions of the Wayne Car Wash parking area as part of the settlement.

The total amount of the increase is $52,578.99, resulting in a new contract amount of $9,017,101.24.

This matter was discussed with the Public Works and Buildings and Grounds Committee at its meeting of February 23, 2015.

I respectfully request that the Board of Chosen Freeholders ADOPT a RESOLUTION approving Change Order #11 in the amount of +$52,578.99.

Dear Mr. Silverstein,

On behalf of the Wayne YMCA, a branch of the Metropolitan YMCA of the Oranges, we are requesting permission to install directional signs to our location from five locations indicated on the simple map enclosed.

Over the past several years, through outreach assessment evaluations, it has been communicated by our neighbors that our YMCA's location is not readily known in our community. Our facility address is 1 Pike Drive, but our building is tucked away from the main traffic flows of Wayne. Our objective is to install 2x2 ft signs in key locations to allow our community to better locate our YMCA.

The signs would be installed as follows (see attached map):

- 2 signs - East & West bound on Valley Road (at the intersection of Ratzé Road and Valley Road).
- 1 sign - South bound on Ratzé Road (at the intersection of Ratzé Road and Valley Road).
- 2 signs - North & South on Ratzé Road (at the intersection of Ratzé Road and Pike Drive).

The Wayne YMCA is a nonprofit charitable organization that focuses on Youth Development, Healthy Living and Social Responsibility. We humbly request that the fees be waived for this project. Please feel free to contact me if you have any questions. I can be reached via email at jihne@metroymcas.org or via phone 973-595-0100.

PROJECT: PHASE I - Underground Storage Tank (UST) Investigation

Wayne, New Jersey
NJDEP PI #420985 / NJDEP Incident #07-03-21-1529-28
Contract Modification #2 - Initial LNAPL Recovery Stage (5,000 gal. UST)
Langan Engineering and Environmental Services, Inc.

Dear Members of the Board:

Langan Engineering and Environmental Services, Inc. has submitted a request for additional work needed for the UST Investigation for the Preakness Healthcare Center in the Township of Wayne to address a NJDEP compliance notice in the amount of $18,000.00. In December 2014, Langan performed soil and groundwater sampling at the former 5,000 gallon #2 heating oil underground storage tank (UST) location. During the sampling, a layer of free-phase petroleum product (LNAPL - light non-aqueous phase liquid) was discovered floating on the groundwater surface. This contract modification work includes the LNAPL recovery well installation, LNAPL recovery, data evaluation and reporting, and coordination with State and County officials. Copy of this proposal dated January 29, 2015 is attached.

This matter was discussed at the Public Works Committee meeting of February 23, 2015 and a contract modification to Langan Engineering and Environmental Services, Inc. of Elmwood Park, New Jersey is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders ADOPT a RESOLUTION modifying the contract for consulting services to Langan Engineering and Environmental Services, Inc. in the amount of $18,000.00 for additional work for the installation of LNAPL recovery well, LNAPL recovery, data evaluation and reporting and coordination for the UST investigation at Preakness Healthcare Center and authorize County Counsel and the Director of Purchasing to prepare and execute the necessary Agreements subject to the availability of funds.

CONTRACT MODIFICATION FOR ADDITIONAL SERVICES

DATE: 28 January 2015  REVISED: NA

MODIFICATION NO:  #2 – Initial LNAPL Recovery Services (5,000-Gal. UST)

CONTRACT: Proposal dated 24 January 2014
County of Passaic Purchase Order #14-02101 dated 3 March 2014

PROJECT NO.: 100443701

PROJECT TITLE: Phase I UST Investigation Services, Passaic Healthcare Center

ORDERED BY: Steve Edmond, PE

CLIENT: County of Passaic

PROJECT STATUS:
On 1 December 2014, Langan performed soil and groundwater sampling at the former 5,000-gallon #2 heating oil underground storage tank (UST) location. The sampling was performed in accordance with the scope of services listed in Contract Modification #1 for this project. During the sampling event, a layer of free-phase petroleum product was discovered floating on the groundwater surface. This material is referred to by the NJDEP as light non-aqueous phase liquid (LNAPL).

Langan notified the County of the LNAPL presence via email on 2 December 2014. As noted in that email, subsequent emails, and telephone conversations, the discovery of the LNAPL subjects the County to additional environmental investigation and reporting requirements and timeframes pursuant to NJAC 7:26E and NJDEP policy. In particular:

- **On or before 1/29/15** – Submit an LNAPL Reporting Form to the NJDEP. This has been completed at no additional cost to the County.

- **On or before 1/29/15** – Initiate an Interim Remedial Measure (IRM) for recovery of the LNAPL. Our recommended approach is described further in the following scope of additional services.

- **On or before 12/1/15** – Investigate and delineate the extent of the LNAPL. This will require additional soil borings and monitoring wells, which we recommend be coordinated with further delineation of soil and groundwater contaminants identified during the recent sampling at the site. A future contract amendment will be provided for these services once the recent sampling data has been evaluated and a plan for further investigation is developed.
SCOPE OF ADDITIONAL SERVICES:

The scope of additional services presented in this contract modification request addresses the requirement for the County to initiate LNAPL recovery efforts by 29 January 2015. The following additional services will be performed pursuant to this contract modification request:

- **LNAPL Recovery Well Installation** - We will install a 4-inch diameter monitoring well at the location where the LNAPL was discovered in December 2014. The well will be installed to a depth of approximately 20 feet below grade by a licensed driller. Soil cuttings and well development water will be placed into 55-gallon steel drums and stored onsite pending future offsite disposal. Disposal of investigation derived wastes will be performed following completion of additional future investigation activities and, therefore, disposal costs are not included in this contract modification request.

- **LNAPL Recovery** - Following installation of the well, Langan will initiate LNAPL recovery efforts. A Langan field engineer will visit the site weekly for the first month, and once every two weeks for the following two months (8 visits in total). On each visit, the engineer will measure the LNAPL thickness in the well and bail the well to remove accumulated LNAPL. Removed product/water will be stored in 55-gallon steel drums onsite pending future offsite disposal. We estimate that a total of two drums of LNAPL/water will be generated. Disposal of the drums will be performed following completion of additional future investigation activities and, therefore, disposal costs are not included in this contract modification request.

- **Data Evaluation and Reporting** - Following completion of three months of LNAPL recovery efforts, the field data will be evaluated to assess the effectiveness of the efforts, the amount of LNAPL present in the well, and the recoverability of the LNAPL. The feasibility and effectiveness of additional LNAPL recovery efforts and technologies will be considered. We will prepare a memorandum for the County documenting the initial LNAPL recovery efforts and providing our conclusions and recommendations for further recovery efforts.

- **Coordination with State and County** - We will coordinate and interact with the NJDEP and Passaic County during the tasks summarized above. We anticipate that all discussions with the NJDEP will be by telephone and/or email. We anticipate attending up to one meeting onsite with the County during the work.

Following completion of the initial LNAPL recovery efforts, Langan will provide a supplemental scope of services for delineation of soil and groundwater contaminants at the site coordinated with NJDEP-required LNAPL delineation efforts. The scope of services will include additional LNAPL recovery services, if needed. After review and discussion with the County, the proposed scope of services will form the basis of future Contract Modification #3.
**SCOPE OF SERVICES AND ESTIMATED FEES**
**INITIAL LNAPL RECOVERY SERVICES (5,000-Gal. UST)**

Each Severity Level defines the actions that will be taken by Seller for Response Time, Target Resolution Time, and Resolution Procedure for reported errors. Because of the urgency involved, Response Times for Severity Levels 1 and 2 are based upon voice contact by Customer, as opposed to written contact by facsimile or letter. Resolution Procedures are based upon Seller's procedures for Service as described below.

1.1 **Reporting a Problem.** Customer shall assign an initial Severity Level for each error reported, either verbally or in writing, based upon the definitions listed above. Because of the urgency involved, Severity Level 1 or 2 problems must be reported verbally to the Seller's call intake center. Seller will notify the Customer if Seller makes any changes in Severity Level (up or down) of any Customer-reported problem.

1.2 **Seller Response.** Seller will use best efforts to provide Customer with a resolution within the appropriate Target Resolution Time and in accordance with the assigned Severity Level when Customer allows timely access to the System and Seller diagnoses indicate that a Residual Error is present in the Software. Target Resolution Times may not apply if an error cannot be reproduced on a regular basis on either Seller's or Customer's Systems. Should Customer report an error that Seller cannot reproduce, Seller may enable a detail error capture/logging process to monitor the System. If Seller is unable to correct the reported Residual Error within the specified Target Resolution Time, Seller will escalate its procedure and assign such personnel or designee to correct such Residual Error promptly. Should Seller, in its sole discretion, determine that such Residual Error is not present in its Release, Seller will verify: (a) the Software operates in conformance to the System Specifications, (b) the
Software is being used in a manner for which it was intended or designed, and (c) the Software is used only with approved hardware or software. The Target Resolution Time shall not commence until such time as the verification procedures are completed.

3.0 **PRE-PROPOSAL MEETING/WALKTHROUGH ON FEBRUARY 11, 2015**

We refer to the site meeting/walkthrough of Mr. Yogeesh A. Shah, PE on Wednesday, February 11, 2015 at 10:00 a.m. The writer met with Mr. Jason Figueras, Ms. Abby Diverio, Mr. Guellano, the building superintendent and Mr. Oscar, maintenance person at the site. The following is a summary of the discussions/walkthrough:

1. This is a Section 8 HUD housing residential building for senior citizens. The building was built in 1954 and restored in 1963. The building comprises of basement, lobby floor and three (3) upper floors. There are four (4) apartments in the basement, eighteen (18) apartments on the lobby floor, twenty-eight (28), twenty-four (24) and twenty-two (22) apartments respectively on the second, third and fourth floors for a total of 98 apartments. The apartments are one (1) bedroom and studio type. There are approximately 120 residents in the building.

2. Mr. Figueras stated that the scope of this project is limited to replacement of existing three (3) steam boilers and associated equipment with new energy efficient system. Replacement of existing domestic hot water system or any other HVAC system is not a part of this project. Mr. Figueras stated that this building has steam heating in the common areas and hot water heating in the apartments.

3. First reviewed was Apartment 210 which is a one (1) bedroom unit. There is a "Trane" make vertical fan coil unit in the living room and one (1) similar unit in the bedroom with one (1) supply air register and bottom return air register. These units comprise of chilled water cooling and hot water heating coils. These units are 100% recirculation air type and no ventilation air is being brought in. The kitchen and bathroom are interior spaces and there is no fin tube radiation in either the bathroom or the kitchen.

Ms. Diverio stated that the building has a two-pipe system meaning the piping system circulates chilled water supply and chilled water return piping during the summer time and hot water supply and hot water return piping during the winter time. Simultaneous cooling and heating is not possible with this system.

4. There are steam convectors in the corridor, community room, offices, etc.

5. There is an existing chiller, cooling tower, and condenser water pumps on the roof.

6. Each floor has a different layout.

7. The stairwell also has steam convectors.

8. Next reviewed was the community room which has steam convectors along the exterior walls. There are no controls for the steam convectors, just shutoff valves. In addition, there is "Trane" make two-pipe vertical air handling unit for cooling and heating.

9. Next reviewed was the boiler room.

   a. There are three (3) gas fired low pressure steam boilers. These are H.B. Smith Company make, Series 44milsi water tube boilers. The boilers are original to the building construction and were installed in 1957. The burners are Industrial Combustion make and the burners for Boilers B-1 and B-2 were replaced three (3) years ago. The burner for Boiler B-3 is much older. Boiler B-3 has been offline for the last three (3) years and only Boilers B-1 and B-2 are currently
LAN ASSOCIATES

operational. The model for IG Burner is MMG-34S, Serial #C5141. There are old Heat Timer controls in the boiler room which is currently operational.

b. There are fixed screen louvres for combustion make-up air.

c. There is Dunham Bush make vacuum condensate receiver unit. There is no boiler feed unit. Condensate from the vacuum condensate receiver unit is pumped directly to the boilers.

d. There are two (2) 2-pipe chilled water/hot water building distribution pumps which are each rated for 7.5 HP. One is a standby.

a. The maintenance person stated that the chiller, cooling tower, and the pumps are on the rooftop. However, this is not a part of this project as this project is confined just to the steam boilers and immediately associated equipment like the boiler feed unit, etc.

f. There is a shell and tube heat exchanger, approximately 16" diameter and 8' long which provides hot water for the apartment HVAC units.

g. There is one (1) Lochinvar make domestic hot water heater and two (2) domestic hot water storage tanks, which is not a part of this project.

h. There is no blowdown tank nor is there a chemical feed tank. Chemicals are directly poured into a funnel near the vacuum condensate receiver unit.

10. Mr. Figueroa stated that the timeline is very critical as the installation needs to be completed by May 31, 2015.

This concluded the discussions and site walkthrough.
