RESOLUTION AUTHORIZING SUPPORT FOR THE GATEWAY PROJECT

WHEREAS the Northeast Corridor is the busiest rail line in the Western Hemisphere, playing an essential role in the regional economy as a vital link for millions of residents, workers and visitors; and

WHEREAS the Northeast Corridor is crucial to transporting New Jersey residents, business people and tourists between Washington, D.C., and Boston via key regional stations at Philadelphia 30th Street Station, Trenton Transit Center, Newark Airport, Newark Penn Station and New York Penn Station; and

WHEREAS the Hudson River tunnels carry 200,000 Amtrak and NJ Transit rail passengers in and out of New York City each weekday, representing a tripling of ridership since 1990; and

WHEREAS current and projected demand for both Amtrak and NJ exceed the capacity of the existing infrastructure between Newark and New York City, including aging bridges and 100-year old tunnels under the Hudson River; and

WHEREAS Northeast Corridor requires very significant repairs and upgrades along the two-track stretch between Newark and New York City, including aging bridges and 100-year old tunnels under the Hudson River; and

WHEREAS outmoded infrastructure, particularly the Hudson River tunnels and the Portal Bridge over the Hackensack River, is causing frequent, extensive delays along the Northeast Corridor; and

WHEREAS the Hudson River tunnels flooded for the first time in their 100-year history during Superstorm Sandy, leaving behind...
salt that is eating away at the reinforcing steel and concrete along with the electrical and signal systems. Amtrak has announced that each of the Hudson River tunnel tubes will need to be closed for a year or more at a time within the next 15 to 20 years to conduct extensive repairs; and

**WHEREAS** if new tunnels are not yet in place, the closures of the existing tunnels will reduce train traffic by an estimated 75% at peak times, forcing tens of thousands of riders to find alternatives means of travel in and out of Manhattan, and causing huge disruptions for all who cross the Hudson, whether by train, bus, ferry or car; and

**WHEREAS** preserving and expanding rail capacity is critical to giving the metropolitan region’s trillion dollar economy a chance to grow and keep pace with global cities that are investing far more in their transit infrastructure; and

**WHEREAS** the Gateway program proposed by Amtrak, estimated to cost $20 billion, would build two new Hudson River tunnel tubes and several bridges, expand Penn Station, and add two new tracks between Newark and New York, thus doubling trans-Hudson rail capacity; and

**WHEREAS** this matter was reviewed and approved by the Administration and Finance Committee at its September 30, 2015 meeting;

**NOW THEREFORE IT BE RESOLVED** that the governments of the United States of New Jersey and New York must work together with the federal government to assign a lead entity to shepherd the Gateway Trans-Hudson Tunnel project, and determine the funding
strategy to design and build the project with all haste and expediency; and

BE IT FURTHER RESOLVED that the County of Passaic does urge the governments of the United States, New York and New Jersey to agree on a plan to fund the design, engineering and construction of the Gateway Project.

RESOLUTION IN SUPPORT OF SENATE PRESIDENT SWEENEY’S BI-PARTISAN SUPPORTED BILLS FOR COUNTIES

WHEREAS The Board of Chosen Freeholders for the County of Passaic believes the State of New Jersey has an obligation to the 21 Counties within this State to fiscally support and encourage economic strength, and

WHEREAS Senate President Sweeney has successfully garnered bi-partisan support for a number of Bills which shall further support the fiscal stability of the Counties of this great State; and

WHEREAS These Bills include but are not limited to The Cap on County Entity Budget; Class Two Special Police Officers; Long Term Property Tax Abatements; County Administrative Code, County Security Funding, and the Hotel Tax Bill; and

WHEREAS the Board of Chosen Freeholders of the County of Passaic support these Bills as they reflect great strides toward comprehensive change and progress and further unify the counties and provide confidence in County Governments’ ability to continue providing quality and affordable services to its citizens;

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby supports Senate President Sweeney’s Bi-Partisan supported Bills; and
BE IT FURTHER RESOLVED that this resolution with a
synopsis of the relevant Bills, attached hereto, be distributed to
all 21 Counties within the State as well as the Legislators who
serve in the districts representing the County of Passaic.

TSC:lc  Dated: October 13, 2015
Cap on County Entity Budgets - Senate, No. 3168 (Sweeney) would impose a 2.0% limit on the annual increases in the portion of the budget of a county board of taxation, a county board of election, a county office of register of deeds and mortgages, a county clerk’s office, a county surrogate’s office, and a county sheriff’s department, that is paid for by the county property tax levy. In summary, this bill would require that in the preparation of the portion of a budget request to be raised by property taxation, county entities shall limit any increase in that portion of its budget request to 2.0% of the previous year’s budget request or the cost of living adjustment, whichever is less. Under the bill, a budget request submitted to a county governing body must be separated into two components: the amount to be raised by property taxation, and the amount to be funded entirely through federal or State funds, or fees raised by the county entity. The bill would also require county assignment judges to take the county’s property tax levy cap into consideration upon a request from the county prosecutor for additional funding under N.J.S.A. 2A:158-7, which is the section of statutory law that requires “all necessary expenses incurred by the prosecutor for each county in the detection, arrest, indictment, and conviction of offenders against the laws that, upon being certified to by the prosecutor, and approved, under his hand, by a judge of the Superior Court, be paid by the county treasurer whenever the same shall be approved by the board of chosen freeholders of such county.” S-3168 is currently in the Senate Community and Urban Affairs Committee awaiting consideration.

Class Two Special Police Officers - Senate, No. 2220 (Holzapfel/Barnes) would authorize all county sheriffs to appoint Class Two special law enforcement officers to conduct court security under the direction of the county assignment judge. Under current law, only counties with police departments (Bergen, Camden, and Union) and municipalities may appoint such officers on a part-time basis and without pension or health benefits. S-2220 is currently in the Senate Law and Public Safety Committee awaiting consideration.

Long Term Property Tax Abatements - Senate, No. 3019 (Sweeney D-3) would require the filing of financial agreements for long term tax exemptions with county finance officers and county counsels, and would require quarterly payments to counties for their share of payments in lieu of taxes (PILOT). This legislation would require municipalities to notify counties of financial agreements for long term property tax abatements awarded to redevelopment entities under the “Long Term Tax Exemption Law.” Such financial agreements are executed between a municipality and a redevelopment entity to promote economic growth and development under a designated redevelopment plan, and may include PILOT monies. Although current law requires municipalities to pay counties 5% of the negotiated PILOT amount, the law does not require municipalities to notify counties of these agreements. Consequently, counties are unaware of most PILOT initiatives and have resorted to filing Open Public Records Act (OPRA) requests, relying on municipal audits and newspaper articles, or reviewing municipal budgets to obtain this critical information that should be made readily available. S-3019 is currently in the Senate Budget and Appropriations Committee awaiting consideration.

County Administrative Code - Senate, No. 3170 (Pou) would require the county superintendent of elections to operate pursuant to county’s administrative code under N.J.S.A. 40:20-1.3 for

Introduced on: October 13, 2015
Adopted on: October 13, 2015
Official Resolution #: R20150727
budgeting, accounting, purchasing, personnel and procedures, and data processing controls. S-3170 is currently in the Senate Community and Urban Affairs Committee awaiting consideration.

**COURT SECURITY FUNDING - SENATE, NO. 663 (Pou)** would establish the “Court Security Enhancement Fund,” and would finance the Fund by increasing certain court fees, assessments, and penalties. In summary, this measure would dedicate monies from the Fund to help counties and municipalities operate and maintain safe and secure court facilities. The bill would require that until such time that the Administrative Office of Courts (AOC) determined that all local government units have achieved certain court security standards, counties and municipalities may apply to the AOC on an annual basis for grants to supplemental funding for the procurement of security equipment and security-related structural modifications. Once the AOC determines that court security standards are maintained, monies from the Fund may be used to offset local funding for enhancement and maintenance of security at court facilities including, but not limited to: salaries of armed security officers; salaries of technicians to operate court security equipment; training for local officials and personnel on issues of court security; the development and coordination of emergency and disaster response protocols related to the operation of the court; and other security items as approved by the AOC. S-663 is currently in the Senate Judiciary Committee awaiting consideration.

**HOTEL TAX - SENATE, NO. 3169 (Weinberg)** would authorize counties to impose a hotel tax of 1.0% on room occupancy by adopting a resolution or ordinance as necessary. The tax imposed by county resolution or ordinance would be in addition to any other tax or fee imposed by statute or municipal ordinance or resolution. The bill would require that revenue generated by a county hotel tax must be used exclusively by the county for the purposes of reducing the amount the county is required to raise by the property tax levy. S-3169 is currently in the Senate Community and Urban Affairs Committee awaiting consideration.

RE: Notice of Obligation - State Fiscal Year 2016 - Supplemental Workforce Development Benefits (SmartSTEPS) Program

Dear Mr. Loza:

I am pleased to announce that a total of $16,050 in SmartSTEPS funds has been awarded to the Passaic Workforce Development Area for State Fiscal Year 2016 (July 1, 2015 through June 30, 2016). The enclosed Notice of Obligation (NOO) reflects the allocation of these funds. Final determination for funding is contingent upon authorization and availability from the state.

These funds should be incorporated into your Program Year 2015 Workforce Development Area Contract. These funds must be fully expended by June 30, 2016. A counseling fee of $750.00 will be reimbursed one time for each participant who is enrolled in SmartSTEPS for at least 30 days, including those participants who replace vacant positions up to the current slot allocation. The New Jersey Department of Labor and Workforce Development reserves the right to adjust a Workforce Development Area’s slot allocation based on usage. An additional seven percent, totaling $52.50 per participant, is included for administrative costs. A list of the participants must be included with each request for reimbursement.

Within 30 days after the close of each college semester, SmartSTEPS participant outcomes must be data entered into the comments section of America’s One-Stop Operating System (AOSOS). AOSOS funded services must be data entered with at least $1.00. Reimbursement for counseling fees will not occur unless the participant information is data entered into AOSOS.
For details, please refer to One-Stop Career Center Directive 2006-14: SmartSteps Financial Reporting. One-Stop Career Center Directive 2011-03: Supplemental Workforce Development Benefits Program (SmartSteps) is under review and will be provided under separate cover when finalized.

Please note that effective July 1, 2012, the General Appropriations Act prohibits the issuance of General Assistance benefits to college students; thus, General Assistance customers are not eligible for the SmartSteps program.

If you have any questions regarding the issuance of this NOO, please contact Executive Director Patricia Moran, Ph.D., Workforce Development and Economic Opportunity, at 609-984-9414.

Road Opening Resurfaced within Last Five (5) Years

Dear Mr. Glovin:

At the September 28, 2015 meeting of the Public Works and Buildings & Grounds Committee, a request was heard from Montana Construction Corp. Inc. for the installation of a sanitary sewer pipe and manhole on Passaic Avenue, from Allwood Road to #743 Passaic Avenue, Clifton. The total length of the entire project is 1,555 feet. The length of the proposed road opening for this segment of work is 675 feet. The roadway was last resurfaced on May 16, 2013.

The Committee directed that a resolution be made granting the request with the following conditions:

1. The road opening must be restored in accordance with the Passaic County Trench Restoration Detail on file in the Passaic County Road Department office.

2. The roadway must be milled and resurfaced from curb to curb for the entire length of the road opening.

3. The centerline, bike lane and all other pavement markings must be restored with a long lasting material.

Powertech, Inc.
0-02 Fair Lawn Avenue, TM Block 6601, Lots 1-8
Borough of Fair Lawn, Bergen County, New Jersey

Dear Mr. Edmond:

Pursuant to your request, I am pleased to submit this proposal for the professional appraisal services of Lesser Sussman Associates, LLC to prepare an appraisal of the above-captioned property in connection with its anticipated acquisition through eminent domain for the replacement of the Fair Lawn Avenue bridge over the Passaic River.

It is my understanding this property consists of a ±1.34 acre site improved with a two-story commercial/office building located on the southerly side of Fair Lawn Avenue at the Passaic River in Fair Lawn. The acquisition will be a Permanent Construction and Maintenance Easement of ±366 sq. ft. (0.008 ac.), and a Temporary Construction Easement of ±1,203 sq. ft. (0.028 ac.). The easements are along the Fair Lawn Avenue frontage, away from the area of the existing building, and it appears there will be no damages to the remainder. The appraisal will be made as of a current date, typically the date of our property inspection, unless instructed otherwise. If any of this information is incorrect, please advise immediately.

Please be advised the report will be prepared under the Appraisal Report option, and made in accordance with all report writing requirements and Standards of Professional Appraisal Practice of the Appraisal Institute, the Uniform Standards of Professional Appraisal Practice (USPAP) of the Appraisal Foundation, and any applicable State guidelines. (See attached for an explanation of the appraisal development process and reporting options).

The fee for the fieldwork, analysis and preparation of the appraisal report will be $2,800. I anticipate the report can be completed within approximately three weeks from our receipt of written authorization to proceed and any necessary and/or pertinent documentation/information.

The fee quoted is for preparation of the appraisal report only. If required, the additional fee for attending any meetings, court hearings or trials, depositions and pretrial conferences, whether or not testimony is actually given, and the review of any materials submitted by opposing litigants, will be based on our fee schedule at the time of performance on a portal-to-portal basis. The hourly rates applicable for this assignment are as follows:

Mark W. Sussman, MAI, CRE, FRICS, SCGREA  
$225.00  
Daniel C. Webb, SCGREA  
$100.00

If the foregoing proposal is acceptable and meets with your approval, please forward a Contract/Notification to Proceed for execution, together with any additional pertinent documentation/information, indicating your authorization to proceed with this assignment.

Once again, thank you for the opportunity to be of service in this matter.

Very truly yours,

APPRAISAL DEVELOPMENT PROCESS AND REPORTING OPTIONS

Real Estate Appraisal Development Process

The 2014-2015 edition of the Uniform Standards of Professional Appraisal Practice (USPAP), effective January 1, 2014, continues to address the importance of problem identification and scope of work determination in the appraisal process under the Scope of Work Rule. The appropriate scope of work (type and extent of research and analyses) is based on what is required to produce credible assignment results in the context of the intended use of the appraisal.

The Scope of Work Rule was introduced in the 2006 edition of USPAP (effective July 1, 2006), and the Departure Rule and associated defined terms (Complete Appraisal, Limited Appraisal, Binding Requirement and Specific Requirement) were removed. Therefore, the requirement to identify an appraisal as either a Complete Appraisal or a Limited Appraisal was eliminated and is no longer applicable.

The scope of work decision drives the full range of activities in the appraisal development process. The Scope of Work Rule acknowledges that appraisers have broad flexibility and significant responsibility in determining the appropriate scope of work. The Rule also recognizes that communication with the client is required to establish most of the information necessary for problem identification. The requirement to develop credible assignment results, in the context of the intended use, links the appropriate scope of work to the use or uses of the assignment results as identified by the client.

The real estate appraisal development process typically includes defining the appraisal problem, inspecting the subject property and its environs, considering the subject’s highest and best use, conducting a survey of relevant market activity, applying the appropriate approaches to value (Cost, Sales Comparison and/or Income Approach), and reconciling the indicated values into a final value estimate. The intent is for the appraiser to develop credible assignment results in the context of the intended use or uses of the assignment results as identified by the client.

Real Estate Appraisal Reporting Options

The main differences between the two written report options are in three areas:

1. An Appraisal Report may have the client as the only intended user but may also have other intended users, while a Restricted Appraisal Report must have the client as the only intended user.

2. In an Appraisal Report, specified parts of the research and development must be summarized, while in a Restricted Appraisal Report, those same parts need only be stated.
APPRAISAL DEVELOPMENT PROCESS AND REPORTING OPTIONS (continued)

3. An Appraisal Report requires the appraiser to summarize the information analyzed and the reasoning that supports the analyses, opinions, and conclusions, while a Restricted Appraisal Report does not have this requirement.

Accordingly, a Restricted Appraisal Report must include a prominent use restriction that limits the use of the report to the client and warns that the rationale for how the appraiser arrived at the opinions and conclusions set forth in the report may not be understood properly without additional information in the appraiser's workfile.

The minimum level of information required in a Restricted Appraisal Report is not designed to address the needs of any third-party users. As such, the Restricted Appraisal Report may be useful when:

- the client is the only intended user of the appraiser's opinions and conclusions set forth in the report;
- the client understands the limited utility of this option;
- the intended use of the appraisal warrants restricted disclosure about the appraisal process steps completed in the assignment; and
- the client (the only intended user) does not need the level of information required in an Appraisal Report.

All additional market data and analysis relied on by the appraiser but not included in the Restricted Appraisal Report must be maintained in the appraiser's files.

Note: The current Appraisal Report requirements pursuant to Standards Rule 2-2(a) in the 2014-2015 edition of USPAP are similar to the Summary Appraisal Report requirements pursuant to Standards Rule 2-2(b) from the 2012-2013 edition of USPAP.

Approval of Plans and Specifications and Authorization to Bid

October 7, 2015

Dear Members of the Board:

This Office has reviewed the Construction Plans and Specifications for the Replacement of Eighth Street Bridge Structure No. 1600004 located in the City of Passaic and Borough of Wallington as prepared by the County Consultant Dewberry, and found them to be in accordance with the County Engineering Standards.

The existing bridge is structurally deficient due to the condition of the superstructure. The project consists of the demolishing of the existing bridge and replacing it with a new structure on the same alignment.

The above referenced project was discussed with the members of the Public Works and Buildings & Grounds Committee and recommended for approval to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt necessary resolution approving Plans and Specifications and authorizing the Department of Purchasing to advertise and receive bids.

RE: FFY15 State Homeland Security Program (SHSP-Local Share)
(CFDA #97.067, Award #EMW-2015-SS-00039-S01)

Dear County Administrator DeNova:

The New Jersey Office of Homeland Security and Preparedness (OHSP) is pleased to advise you that Passaic County has been awarded $100,000.00 for county projects and $265,351.46 for regional projects from the federal FFY15 SHSP. The main purpose of this funding is to build, maintain and sustain national preparedness capabilities.

This total, $365,351.46, will be available to reimburse the subrecipient for its allowable expenditures upon the completion of the requirements listed below.

1.) Return of a signed FFY15 Grant Agreement and required attachments (A through E) by October 15, 2015, to Mr. Daniel Moroco, Grants Management Bureau Chief, OHSP, at the above address.

2.) Population of budget items in OHSP’s Grant Tracking System (GTS), in accordance with the approved Spending Plan Template and Annex(es). The awarding of these funds is conditioned upon your county’s full participation with the GTS. Your grant coordinator will be contacted by our grant liaison once the system is ready to accept entries for your approved projects.

Once these requirements are satisfied, spending authority will be granted and a fully executed Grant Agreement will be returned for your records. Failure to complete these requirements within the prescribed time frames may cause this award to be rescinded and any expenditure will be ineligible for reimbursement.

The attached Grant Agreement sets forth the certifications, terms, conditions and assurances required of the county before OHSP will authorize the county to make program expenditures eligible for reimbursement. Please review the Grant Agreement carefully. It is important that the Grant Agreement and required federal certifications are completed and returned to OHSP by October 15, 2015. It is extremely important to implement the activities in the approved Spending Plan Template and Annex in a timely manner to avoid reprogramming of any awarded funds.
The FY15 SHSP grant program has a thirty-six (36) month period of performance. On or about February 1, 2017, OHSP will conduct a mid-term financial and programmatic review to determine progress in meeting stated objectives/goals and expenditure activity (at least 50% of these funds should be legally/contractually obligated). As referenced within the Grant Agreement, please note that 100% of these funds shall be legally/contractually obligated by February 1, 2018. Final reimbursement packages are to be completed and forwarded to OHSP by July 31, 2018. Reimbursement request packages are to be submitted to OHSP on a quarterly basis, reference Section IX, A in the attached Grant Agreement.

OHSP recognizes there may be extraordinary circumstances that necessitate an extension on a case-by-case basis. FEMA has informed us, however, that they will only approve extensions based upon compelling legal, policy or operational challenges. Therefore, it is critical to observe the above provided performance dates.

During the period of performance for this grant, any intended changes must be submitted to OHSP using the Spending Plan Template and Annex. Once the revised Spending Plan Template and Annex has been reviewed and approved, spending authority for the documented changes will be granted. All programmatic changes must be approved by the County Working Group (CWG) from where the project was funded and/or the Regional Executive Committee.

If you have any questions regarding this agreement, please contact Brian Doering, Grants Liaison, at 609-584-4827. Thank you for your support as we continue working collectively to ensure the safety of our citizens.

Sincerely,

Chris Rodriguez, Director
Office of Homeland Security and Preparedness
