PLANNING BOARD
CITY OF PATERSON
RESOLUTION

WHEREAS, the Planning Board of the City of Paterson (hereinafter referred to as the (“Board”) is empowered to hear and determine applications for development pursuant to the Municipal Land Use Law, N.J.S.A. 40:55D-1 et seq. and the Zoning and Land Development Ordinance of the City of Paterson, Section 100 et seq. (hereinafter referred to as the (“Ordinance”)); and

WHEREAS, Paramount Assets, LLC (hereinafter referred to as the “applicant” and as the “owner”) of real estate property located 162-166 Main Street, Block 4502, Lot 4; and

WHEREAS, the property is located in the B-4 Central Business District; Downtown Commercial Historic District Overlay. This proposal is in the Central Business District of the City. The surrounding neighborhood is composed of many older buildings first built as commercial structures with commercial uses on the first floor and offices and/or retail above. Although the first floor uses are still commercial, many of the upper floors are now used for storage or are vacant. The Land Development and Zoning Ordinance encourages the adaptive re-use of the upper floors of buildings in the Central Business District for urban residential living in order to create a more active 24-hour downtown and additional commercial activities as a result. The applicant estimates the cost of this proposal at approximately seven-hundred and fifty thousand dollars. The applicant previously proposed and was approved to develop a total of eighteen (18) new apartments on the second through fourth floors of an existing commercial building on the northwest corner of Main Street and Van Houten Street with retail to remain on the first floor. The

upper floors previously were used for office and/or storage. This proposal was heard before the Planning Board on June 19, 2013, and was approved and construction has been completed; and

WHEREAS, the Board considered this matter at its July 20, 2016 meeting, at which time the applicant was represented by Alan J. Mariconda, Esq., as well as, Matthew Evans, of Evans Architect, and Richard Dunn, V.P. of Operations of Paramount Assets., testified on behalf of the applicant, and in support of the application; and

WHEREAS, the applicant proposes to develop a total of twelve (12) new apartments on the second through fourth floors of an existing commercial building with retail to remain on the first floor. The units include three (3) studio units, six (6) one-bedroom units and three (3) two-bedroom units. The upper floors previously were used for office and/or storage. This proposal is located on the southwest corner of Main Street and Van Houten Street. This proposal is within the B-4 Central Business District Requires Site Plan Approval and Bulk Variances.

WHEREAS, neither lay nor expert witness testimony was offered in opposition to the application, there being no public opposition to the said application; and

WHEREAS, after considering the testimony given and reviewing the plans filed herein, the Board makes the following findings of fact and based upon evidence adduced at the public hearing held herein and based upon the report of Michael Deutsch, Principal Planner of the City of Paterson, said report being as follows:

1. Property Taxes and Sewer Charges are paid to date.

2. Mr. Maurice Levy, providing an address of P.O. Box 728, Elizabeth, N.J. 07208 is the 100% owner of Paramount Assets, LLC.

3. William Held Associates, Inc. has prepared a survey dated August 5, 2014. The building is four-stories at the southwest corner of Main Street and Van Houten Street. The parcel has frontage of fifty (50) on Main Street and 81.16 feet on Van
Houten Street. The building covers one-hundred (100) percent of the lot. The parcel has total area of 4,091 square feet, or 0.9 percent of an acre.

4. Evans Architect has prepared a two-page site plan dated March 21, 2016. Drawing S-1 is the site plan and indicates the tax map, the zoning ordinance data, the zoning map, the survey, notes and the apartment schedule.

5. Drawing A-1 indicates the existing first floor plan and the proposed second, third & fourth floor plans. The first floor plan indicates three (3) access points into the building on the Main Street side and one (1) access point on the Van Houten Street side of the building. The access door furthest from the intersection leads to a stairway down to the basement and to the upper floors. The entrance next furthest from the intersection provides access into a retail space containing 1,913 square feet of space that includes a storage room, a rest room and a janitor's closet. The entrance closest to the intersection indicates an additional retail space of 1,726 square feet and another staircase to the basement. The primary entrance for the proposed upper floor apartments is indicated on Van Houten Street. An access doorway on Van Houten Street leads to stairs that either proceed to the upper floors or down three steps to the elevator. There is also an interior door that provides secondary access to the 1,913 square foot first floor retail space.

6. Drawing A-1 indicates the proposed second, third, and fourth floor plans. Each floor contains four (4) dwelling units. Each of the three upper floors will contain one studio unit, 2 one-bedroom units, and 1 two-bedroom unit. Each of the studio units on the second, third and fourth floor, of which there are a total of three (3) contain 674 square feet. These studio units overlook Van Houten Street and in addition to a study, provide a full bathroom, a kitchen and sleeping area.

7. Three (3) of the 1-bedroom units contain 601 square feet and three (3) of the 1-bedroom units contain 795 square feet. The 602 square foot units overlook Main Street and the 795 square foot unit overlook Van Houten Street. Each one-bedroom unit has a full bathroom, a kitchen and a dining and living area.

8. There are a total of three (3) two-bedroom units. Each two bedroom unit is located at the buildings corner and overlooks both Main Street and Van Houten Street. Each unit has a full bathroom, a kitchen and a living and dining area. The two-bedroom units have 941 square feet of area.

9. All of the studio, one-bedroom and two-bedroom units exceed the minimum square feet required, which is 300 square feet for an efficiency unit; 600 square feet for a one-bedroom and 900 square feet for a two-bedroom unit.

10. Each of the residential floors provides two means of interior staircase access into and out of the building.

11. The Downtown Central Historic District is an overlay zone within the B-4 Zone. The Paterson Master Plan encourages, and the Zoning Ordinance has been amended to reflect that residential units are a permitted use in the B-4 Zone of the City.

12. Any alteration to the exterior of the building requires approval from the Paterson Division of Historic Preservation. In a letter dated June 15, 2016 from the Division, the Historic Preservation Commission strongly recommends Planning Board approval of the application.
13. A parking variance is required. Studio and one-bedroom units in multi-family buildings require 1.8 parking spaces per unit. Two-bedroom units require 2 parking spaces per unit. As three (3) studio units, six (6) one-bedroom units and three (3) two-bedroom units are proposed, seventeen (17) off-street parking spaces are required. As no off-street parking spaces exist, a parking variance is requested.

14. Any proposed signs shall be in conformance with Section 500-8 of the Land Development Ordinance.

15. Prior to final approval, the applicant shall obtain City Engineering approval.

16. It shall be the responsibility of the applicant and/or the preparer of the plan to obtain a letter from the City Engineer indicating that the plans have been satisfactorily reviewed prior to the plans being released to the Construction Official.

17. Any future development on the block and lots that are the subject of this application shall be submitted for review and approval to the Paterson Planning Board.

18. Any approval would be subject to fire department regulations, building department regulations, the requirements of the engineering department and all applicable laws, codes and regulations.

19. The granting of the subject bulk variance(s) will have no adverse effect upon noise, light, air, traffic, health or safety in the community, nor will it impair the intent and purpose of the Master Plan.

20. These bulk variance(s) requested will have no unusual impact upon the ultimate usage of the land.

21. The granting of the proposed site plan approval will have no adverse effect upon noise, light, air, traffic, health or safety in the community, nor will it impair the intent and purpose of the master plan.

22. The proposed site plan will have no unusual impact upon the ultimate usage of the land.

23. Evidence presented by the Applicant at the aforementioned public hearing shows that the strict application of the city ordinances would present practical difficulties and undue hardship upon the development of this property, said difficulties being peculiar and exceptional to this property.

24. The applicant has further shown that the relief as requested could be granted without substantial detriment to the public good and said variance(s) and site plan approval would not impair the intent and purpose of the zone plan and zoning ordinances of the City of Paterson.

25. All of the applicant's representations and stipulations made to the Planning Board in this application and at the public hearing are regarded as true and accurate. The Planning Board has specifically relied upon the Applicant's stipulations or representations in granting this approval. In the event that any of the Applicant's stipulations or representations are inaccurate, this approval shall be declared null and void.

26. The applicant shall comply with all federal, state, county and local laws, rules and regulations and obtain all other required governmental approvals in the
implementations of this approval. If another governmental agency grants a waiver or variance(s) of a regulation or law affecting this approval or the conditions attached to it, then this Board shall have the right to review that issue as it relates to this approval and these conditions and modify or amend the same.

27. The proposed use will not create a fire, traffic or safety hazard and will not be detrimental to the health, safety and general welfare of the surrounding neighborhood and of the community.

NOW, THEREFORE, BE IT RESOLVED that the above application for Site Plan Approval and Bulk Variances is hereby approved, subject to the applicant's compliance with the requirements of the Principal Planner of the City of Paterson (Michael Deutsch) as contained in the Board’s minutes which are included herein and made a part hereof and further subject to the following:

1. All applicable federal, state, county and local codes and requirements.

2. Said approvals are further contingent upon the adherence of the applicant to the site plans filed herein prepared by Matthew Evans dated, March 21, 2016, consisting of two (2) sheets; and is subject for the Applicant to include a clause on their leases informing Tenants of the availability of parking spaces if needed and the hours for the Paterson Parking Authority; and it is further subject to Applicant securing a lease with the Paterson Parking Authority for six (6) parking spaces to be leased by Tenants directly from the Paterson Parking Authority as needed; and it is further subject to the Applicant obtaining all permits and approvals from all other applicable municipal, county and state agencies having jurisdiction herein, including but not limited to the Paterson Parking Authority Lease, Paterson Division of Historic Preservation and Passaic County Planning Board, if applicable.

PROJECT: On-Call Concrete Testing for
Replacement of Preakness Ave Bridge & Culvert over Singac Brook
Structure No. 1600-136 & No. 1600-137,
Township of Wayne, County of Passaic

AWARD OF CONSULTING ON-CALL TESTING SERVICES

Dear Members of the Board:

As per Resolution R-2015-144, dated February 24, 2015, the County received bids for Construction & Geotechnical On-Call Testing Services for the County of Passaic on an as-needed basis for a period between December 1, 2016 and March 31, 2017. The bids from the various consultants were received on January 29, 2015 for the On-Call Testing Services.

The Replacement of Preakness Ave Bridge & Culvert over Singac Brook Structure No. 1600-136 & No. 1600-137 project requires concrete testing services and laboratory testing services. Based on the anticipated concrete testing services and laboratory services, Key Tech Laboratories was selected to perform the work based on the lowest price of the On-Call Testing Services proposal. The work included coordination, preparation of concrete test cylinders, transportation of concrete cylinders, reports, and preparation of test results for this project. The estimated cost of the work is $6,538.00. These costs were based upon the rates submitted by Key Tech for Resolution R-2015-144 mentioned above.

This matter was discussed during the Public Works Committee meeting on Nov. 28, 2016, and an initial allowance of $6,538.00 for Key Tech of Keyport, New Jersey is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution awarding an allowance for consulting on-call testing services to Key Tech in the amount of $6,538.00 for the Concrete Testing and laboratory testing for the Replacement of

PROJECT: On-Call Concrete Testing for
Replacement of Preakness Ave Bridge & Culvert over Singac Brook
Structure No. 1600-136 & No. 1600-137,
Township of Wayne, County of Passaic

AWARD OF CONSULTING ON-CALL TESTING SERVICES

Dear Members of the Board:

As per Resolution R-2015-144, dated February 24, 2015, the County received bids for Construction & Geotechnical On-Call Testing Services for the County of Passaic on an as-needed basis for a period between December 1, 2016 and March 31, 2017. The bids from the various consultants were received on January 29, 2015 for the On-Call Testing Services.

The Replacement of Preakness Ave Bridge & Culvert over Singac Brook Structure No. 1600-136 & No. 1600-137 project requires concrete testing services and laboratory testing services. Based on the anticipated concrete testing services and laboratory services, Key Tech Laboratories was selected to perform the work based on the lowest price of the On-Call Testing Services proposal. The work included coordination, preparation of concrete test cylinders, transportation of concrete cylinders, reports, and preparation of test results for this project. The estimated cost of the work is $6,538.00. These costs were based upon the rates submitted by Key Tech for Resolution R-2015-144 mentioned above.

This matter was discussed during the Public Works Committee meeting on Nov. 28, 2016, and an initial allowance of $6,538.00 for Key Tech of Keyport, New Jersey is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution awarding an allowance for consulting on-call testing services to Key Tech in the amount of $6,538.00 for the Concrete Testing and laboratory testing for the Replacement of...

PROJECT: On-Call Concrete Testing for
Replacement of Union Street Culvert
Over Depo Voll Brook, Structure No. 1600-436
Borough of Hawthorne, Passaic County

AWARD OF CONSULTING ON-CALL TESTING SERVICES

Dear Members of the Board:

As per Resolution R-2015-144, dated February 24, 2015, the County received bids for Construction & Geotechnical On-Call Testing Services for the County of Passaic on an as-needed basis for a period between December 15, 2016 and June 30, 2017. The bids from the various consultants were received on January 29, 2015 for the On-Call Testing Services.

The Replacement of Union Street Culvert over Depo Voll Brook Structure No. 1600-436 project requires concrete testing services and laboratory testing services. Based on the anticipated concrete testing services and laboratory services, Key Tech Laboratories was selected to perform the work based on the lowest price of the On-Call Testing Services proposal. The work included coordination, preparation of concrete test cylinders, transportation of concrete cylinders, reports, and preparation of test results for this project. The estimated cost of the work is $6,440.00. These costs were based upon the rates submitted by Key Tech for Resolution R-2015-144 mentioned above.

This matter was discussed during the Public Works Committee meeting on Nov. 28, 2016, and an initial allowance of $6,440.00 for Key Tech of Keyport, New Jersey is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution awarding an allowance for consulting on-call testing services to Key Tech in the amount of $6,440.00 for the Concrete Testing and laboratory testing for the Replacement of

BUILDING IN PATERNON, NEW JERSEY

WHEREAS recently the Passaic County Administrator received a report from the Superintendent of Buildings &
Grounds that during the week of November 28, 2016, two of the four elevators in the Administration Building in Paterson, New
Jersey, failed and required immediate repair; and

WHEREAS as a consequence thereof, the Administrator authorized the County Engineer to contact, Schindler Elevator,

WHEREAS Schindler Elevator has advised that the circuit board failed on one elevator, the sheaves were out of compliance
and ropes were shredding on another elevator thereby creating a dangerous condition; and

WHEREAS the cost to repair the elevators is $45,300.00;
and

WHEREAS since these elevators serve the Passaic County Court System, the Jury System, the Prosecutor’s Office, and the
general public, it is necessary that they be in working order for the administrative functions of the County of Passaic; and

WHEREAS as a consequence thereof, the said Passaic County Administrator by memo dated December 6, 2016
(attached hereto and made a part hereof) determined that this situation is one which could affect the health, safety and welfare
of the general public and employees who work within the
Administration Building and, as such, required the award of an emergency contract to repair the elevators; and

WHEREAS a certification is attached hereto which indicates the availability of funds for said expenditure; and

WHEREAS given the urgency for these repair services, by memo dated December 6, 2016, the Passaic County Administrator is recommending an immediate award of contract to Schindler Elevator in the amount of $45,300.00 for the emergency repair to the elevators in the Passaic County Administration Building.

DATED: December 13, 2016

MEMORANDUM

TO: Michael Marinello, Director of Procurement

FROM: Anthony J. DeNova, County Administrator

DATE: December 6, 2016

RE: Authorization to immediate award a contract to Schindler Elevator for repairs to elevators located at the Passaic County Administration Building.

This is to advise that in my capacity as County Administrator of the County of Passaic, I authorize an immediate award of a contract to Schindler Elevator for the work required to repair elevators at the Passaic County Administration Building. During the week of November 28, 2016, two of the four elevators failed. These elevators serve the Passaic County Court System, Jury System, Prosecutors, and Administrative functions of the County of Passaic. The County did contact the contracted County elevator inspection service – Schindler Elevator who after inspection determined that the circuit board failed on one elevator and the sheaves were out of compliance and ropes were shredding on another elevator. Schindler Elevator was authorized to perform the necessary work as these elevators provide access to the necessary and vital services of the County, and in my opinion affect the health and safety of all users.

In light of the above, and given the urgent need for these services, I hereby authorize the a separate and immediate award of contract to Schindler Elevator in the amount of $45,300.00 for the emergency repair of the elevators at County Administration Building as per Purchase requisition R6-07189.

Thank you for your kind and immediate attention to this matter.

RESOLUTION AUTHORIZING THE CREATION OF A PASSAIC COUNTY MARKERS PROGRAM

WHEREAS the Passaic County Board of Chosen Freeholders, in 2010, installed historic site markers at six (6) locations throughout the County which were exact replicas of ones originally installed by the State of New Jersey in 1932 to commemorate local activity by General George Washington during the Revolutionary War; and

WHEREAS, also in 2010, discussions were held that future markers would be planned to encourage better understanding and appreciation of the area history and cultural significance; and

WHEREAS it is important to note that the City of Paterson is the only municipality within Passaic County with a formal historic marker program, which was adopted by the Paterson City Council in May 2014; and

WHEREAS in order to expand upon the Passaic County Freeholders' 2010 endeavor, the Passaic County Department of Cultural and Historic Affairs, by letter dated December 6, 2016, (which is attached hereto and made a part hereof) is recommending the creation of a Passaic County Historic Markers Program in order to further the goals of heritage tourism and to commemorate Passaic County’s rich history, including, but not limited to the history and architecture of houses, commercial and public buildings, religious congregations, military sites, local and state history-changing events, and individuals who made lasting contributions to our state, community organizations and business throughout Passaic County; and
WHEREAS it is the intention that this Marker Program will expand to other agencies and constituents so that the burden of funding for the Program is not solely on the County (see Program Guidelines attached hereto and made a part hereof); and

WHEREAS the Public Works and Buildings & Grounds Committee discussed this matter at the November 28, 2016 meeting and recommends that it be approved by the entire Board.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby authorizes the creation of a Passaic County Historic Markers Program in order to further the goals of heritage tourism and to commemorate the rich history of Passaic County.

BE IT FURTHER RESOLVED that the Clerk of the Board and the Director of the Board of Chosen Freeholders for the County of Passaic are hereby authorized to execute any necessary documents on behalf of the County of Passaic in order to effectuate the creation of this Program.

RE: CREATION OF PASSAIC COUNTY HISTORIC MARKER PROGRAM

Members of the Board:

We are seeking a resolution authorizing the creation of the Passaic County Historic Marker Program that could further the goals of heritage tourism and to commemorate Passaic County’s rich history.

The Public Works and Building & Grounds Committee (“Committee”), at their meeting of November 28, 2016 recommended that the full Board support this endeavor, in order for the County to expand our implementation of history and heritage programs by connecting events, people, and sites through markers. Whilst encouraging a unified design and theme for each marker, this program will allow other agencies and constituents to participate so that the burden of funding is not solely on the County. In the future, we can utilize the marker program for the development of trails, County wide tours, etc.

For reference, I have attached a memorandum to the Committee dated November 28, 2016 regarding the creation of the program and the Freeholders’ previous work regarding historic markers. Both illustrate the intended use and success we can have through exhibiting Passaic County’s unique historic assets, both on a private and public level.

I encourage you to consider adopting this resolution to support the creation of the Passaic County Historic Marker Program. If you have any questions, please do not hesitate to contact me.

Sincerely

Kelly C. Ruffel

Passaic County Historic Marker Program Guidelines

[Resolution] authorizes the County of Passaic to erect, at suitable historic sites, bronze markers denoting and describing locations, events and occasions of historic significance within the County of Passaic, New Jersey. These markers shall conform to a standard size and design prepared by the Department of Cultural & Historic Affairs (DCHA) and Department of Planning and Economic Development, and shall be maintained by the County of Passaic. The language of legend thereon shall be submitted to and approved by the DCHA. When sponsored and furnished by authentic historic organizations, the markers may carry the sponsor’s organization name along the bottom edge thereof, but otherwise shall conform in all respects to the standard design and method of erection as provided in this [Resolution]. The placing of the name of any living person upon these markers is expressly prohibited.

Historical Marker Criteria

The Passaic County Historic Marker Program commemorates persons, events, historic landmarks and districts prominently identified with the history of the Nation, State, or County of Passaic. Each proposed marker and location shall be reviewed and edited by the Historic Marker Committee of the Department of Cultural & Historic Affairs (DCHA) and verified by the Director of the DCHA.

Historic markers can be privately sponsored, funded by sponsors and/or grants.

No marker shall be erected to commemorate a living person.

In order for an historic event to be eligible for commemoration with a marker, the event must have occurred at least fifty years ago. Likewise, a person must have attained their historic significance at least fifty years ago within the County of Passaic. There are exceptions if the event or person is of extraordinary historical significance.

Markers shall be erected in a safe location, at or close to the places being commemorated, and where they will be visible to the traveling public.

Any individual or group may nominate a location or occasion of historic interest for historic marker commemoration.

Criteria for Marker Placement

To ensure that historic markers are accessible to and can most effectively educate the traveling public, the DCHA assumes the responsibility of approving the location for nominated historic markers. The final location of the marker is based on the following criteria:

Safety: To the extent that drivers will need to park on street to read the marker, and then reenter the flow of traffic, they must be able to do so conveniently and safely. Historic markers must be placed so that they do not block drivers’ lines of sight when making turns or create traffic hazards when drivers or pedestrians stop to read the marker.
Visibility: The historic marker should be placed in a safe but relatively high traffic area, so that it can be read by the largest possible number of travelers.

Location: Ideally, the marker should be placed as close as possible to the site it commemorates. Sometimes, however, because of traffic conditions, the remoteness of the site, or other reasons, the marker must be placed a distance away.

Placement on private property: Historic markers can be placed on public right-of-ways or on public property in the County of Passaic. However, they may be placed on private property if the property owner gives the sponsor written permission.

Procedure for Developing and Submitting a Marker Topic and the Approval Process

Research and Write the Marker Script:

The person or group wishing to sponsor the marker must do the research necessary to substantiate the facts to be included in the script of the marker. Research the topic by consulting multiple primary and secondary sources. Sponsors are encouraged to seek assistance from the County historian, local historic societies, preservation commissions, libraries, and governmental entities in researching and crafting the proposed script.

Suggest a Suitable Marker Location:

The most appropriate location would be where the person made an impact, where the event took place, or at the historic site being commemorated. The historic marker preferably should be placed on public right-of-way so that it can be read by the largest possible number of travelers and pedestrians. If the marker will be installed on private property, the sponsor must receive the owner's written consent.

Submit Your Application Packet to the Department of Cultural & Historic Affairs for Review:

All applications will be reviewed by the Historic Marker Committee of the DCHA. After reviewing a nomination, the Historic Marker Committee will make a final determination of whether the nomination meets the historic marker criteria and complies with the resolution pertaining to the Historic Marker Program. The Director of the DCHA shall verify the accuracy of the sponsor's proposed script and, if necessary, propose revisions or edits. The Director shall also make a recommendation to the Historic Marker Committee on whether the nominated location or occasion of historic interest meets the requirements of the Historic Marker Program. Pending possible further revisions to the script, the Historic Marker Committee will formally present the marker nomination to the County of Passaic Board of Chosen Freeholders for final approval at its regular meeting.

Work with the DCHA in Revising or Refining the Marker Text:
Before submitting a nominated marker to the DCHA for approval, the Historic Marker Committee and the Director will review the text. The script must not be over the number of lines and spaces specified from the letter size that is offered. Any major questions about the script that may arise will be discussed with the sponsor, including further documentation, if necessary, to support the marker script. If changes are warranted, the Historic Marker Committee will work closely with the sponsor - or the sponsor’s author - to produce a mutually agreed upon script, which the sponsor must approve in writing. The sponsor shall be responsible for all script content including any mistakes made on the nominated marker.

Await the Final Decision of the Historic Marker Committee and Department of Cultural & Historic Affairs:

The DCHA has final authority for the nomination of all historic markers. A decision will be given to a sponsor, in writing, no later than 60 days from the date the nomination was received.

Procedure for Historic Marker Vendor and Payment

Vendor:

The Historic Marker Committee will provide the name and contact information Sewah Studios, the County’s marker manufacturer. A sponsor may select an outside vendor, however they must conform to the standard size and design of the historic marker as prepared by the County of Passaic and be reviewed by the Historic Marker Committee in advance.

Payment for the Manufacturing:

The Historic Marker Committee will provide the designated vendor the final approved script. Markers typically ship within 8 – 10 weeks of the order being placed. The vendor will bill the sponsor directly upon shipment of the marker. The sponsor shall submit a copy of the historic marker shop drawings to the Historic Marker Committee and DCHA.

Procedure for Installation of Historic Marker and Unveiling Ceremony

Installation:

The sponsor shall be responsible for paying all cost associated with the manufacture of the historic marker. The Department of Public Works shall install all historic markers located on public right-of-ways. Upon installation, the County of Passaic shall assume ownership of the historic marker and shall be responsible for maintaining it.

Hold an Unveiling Ceremony:
The sponsor shall also be responsible for arranging and providing funding for the unveiling or dedication ceremonies of the installed marker. A ceremony shall take place within at least two months of marker installation. The DCHA will provide a press release and advertisements of the ceremony on behalf of the County of Passaic.

Other Requirements:

The Historic Marker Committee and DCHA requests that the sponsor submit pictures of the installed historic marker to be kept on file.

Re: Morris Canal Greenway Browertown Road Project
Township of Little Falls and Borough of Woodland Park
Construction Engineering and Inspection Services

Members of the Board:

Passaic County has received competitive Quality Based proposals for Construction Engineering and Inspection Services for the Morris Canal Greenway Browertown Road Project in the Township of Little Falls and Borough of Woodland Park.

Under the Federal Process for selecting professional engineering consultants, a multi-agency evaluation of the proposals was conducted and Pennoni Associates, Inc. of Edison, NJ, was selected as having the best qualitative proposal.

Upon selection of the best proposal, the Cost Proposal was evaluated by this office and negotiations conducted with the consultant. The final fee negotiated and submitted to NJDOT for approval was $99,772.88.

As this project is federally funded, final approval has been requested from NJDOT Division of Local Aid for award of contract.

The above-mentioned Project was discussed and recommended for approval at the Public Works Committee and Buildings & Grounds Committee Meeting of November 28, 2016.

Therefore, I recommend that the Board of Chosen Freeholders ADOPT the necessary RESOLUTION, approving the Award of Contract to Pennoni Associates upon receipt of Approval from NJDOT.

Very truly yours,

Re: Application for State Approval of a Community Forestry Management Plan

Date: December 6, 2016

The State of New Jersey has adopted the Shade Tree and Community Forestry Assistance Act (P.L. 1996, Chapter 135) which provides that properly planned and implemented local community forestry programs can provide the necessary basis for local government to reduce or eliminate liability associated with local tree care programs and shade tree commissions.

The act requires submittal of and approval by the State of New Jersey of a plan outlining the programs, policies, and procedures by which shade tree resources within Passaic County will be managed. The plan, once approved, shall be effective for a five (5) year period (2017-2021) and renewable every five (5) years thereafter. The Parks department has obtained the services of Farr Forestry Services who has prepared the plan to submit to the State. As synopsis of the Plan is attached hereto for your review.

This matter was discussed during the Public Works and Building & Grounds Committee meeting held on November 28, 2016, and approval to submit the plan to the State of New Jersey was recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution authoring the submission of a formal application to the State of New Jersey Forest Service for approval of a Community Forestry Management Plan.
Passaic County Community Forestry Management Plan

The Passaic County Community Forestry Management Plan was prepared by Ron Farr of Farr Forestry Services. The plan was approved by the public works committee and is now in need of approval by the full freeholder board. Once approved by the board it will be sent to the New Jersey Community Forestry Committee for final approval at which time it will become effective. As is the case with all county assets, trees require maintenance and it is inevitable that potentially hazardous conditions will emerge. Nevertheless, a complete, comprehensive and proactive shade tree program striving to prevent, anticipate, and correct such problems will maximize the benefits while minimizing the threats. All elements of this plan are designed to optimize the balance between tree benefits and risks.

The plan outlines the programs, policies, and procedures by which shade tree resources within the county will be managed during the period of January 2017 – December 2021. The objectives in this first five-year plan address street trees, park trees, and other trees and forests on county owned public lands. Future plans will build on the successes of this plan and follow up on goals not attained during this planning period.

The first goal of the plan is to continue to manage our tree resources while working to implement the Community Forestry Program laid out under this plan. The county will refine if necessary the structure for oversight of the community forestry committee that was previously formed and the interaction with the public and county employees. Additional committee members will need to be added to fill the open positions that have resulted due to turnover. Passaic County will continue to continuously evaluate the condition of potential hazard trees within the Passaic County Parks system and along county maintained roadways. The county will improve or establish proactive maintenance programs and seek to improve the existing tree population. The last component of this first goal is to develop stewardship plans to improve wildlife habitat, invasive species control, and a course of action for dealing with the impending Emerald Ash Borer infestation. Stewardship will also include establishing and working with various partners to assist in accomplishing the goals.

The second goal involves making County residents aware of the value provided by the community forest including street trees and forest parcels. This will be accomplished through a proactive education and outreach program. The county will continue to ensure that committee members, employees and volunteers involved in forestry activities will receive ongoing educational training so that they will have sufficient knowledge to make effective decisions and fulfill the approval requirements of the New Jersey Shade Tree and Community Forestry Assistance Act.

The third goal is to continue to improve the maintenance, stewardship, and protection of the community forest by ensuring that all tree planting, inspection, and maintenance activities are planned and completed in accordance with the latest scientific knowledge and current industry standards in order to improve the health and safety of the community forest. To accomplish this the county will work to provide accurate baseline information upon which sound shade tree management and decisions can be made. This information will include an inventory of the counties community forest. All efforts
will aim to improve and maintain species and age diversity, improve aesthetic appeal, seasonal variation, wildlife habitat, and physical benefits to adjacent properties and the county overall.

Every December the County Parks Department, Roads Division, Community Forestry Committee, and the Consulting Forester will evaluate the success of the past year’s activities and accomplishments relative to the goals and objectives laid out in this plan. Programs will then be adjusted as necessary based on this evaluation. The county will prepare and submit the Annual Accomplishment Report to the New Jersey Forest Service in accordance with the requirements of the New Jersey Shade Tree and Community Forestry Assistance Act. Upon the completion of this five year plan a new plan will be created for the next five year period. This new plan shall be written and submitted to the state for approval by the New Jersey Community Forestry Committee by January 1st 2021.

WHEREAS various departments and agencies of County government have the need to purchase and maintain certain legal research materials; and

WHEREAS although the procurement of library and education goods and services is exempt from public bidding pursuant to N.J.S.A. 40A:11-5 (1) (q), the aggregate cost of said goods and services required by the County exceeds $17,500.00 and is therefore subject to the requirements of the “Pay-to-Play” law; and

WHEREAS the County has procured in the past and will continue to require books published by Gann Law Books and Thompson West, which are typically the only products available that meet the County’s needs; and

WHEREAS the said Board, by Resolution 06-97 dated February 14, 2006 established a policy of only awarding contracts in excess of the monetary threshold set forth under the “Pay to Play” Law only under a “Fair and Open” process; and

WHEREAS the Board is desirous of making an exception to that policy because of the unique circumstances of this case; and
WHEREAS the local Public Contracts Law, N.J.S.A. 40A:11-1 et seq., requires that the resolution authorizing the award of contract for exempt goods and/or services and the contracts themselves must be available for public inspection; and

WHEREAS the Freeholder Law and Public Safety Committee reviewed this matter at its meeting of December 6, 2016 and recommended that this agreement be awarded as an exempt service with the understanding that the recipient has not made or will make political contributions as set forth under the Campaign Contributions and Expenditures Reporting Act (N.J.S.A. 19:44A-1); and

WHEREAS a certification is attached which indicates that funds are available for the within contemplated expenditure;

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby authorizes the purchase of law books from Gann Law Books and Thompson West for various County departments and agencies for calendar year 2017, for an amount not to exceed $95,000.00; and

BE IT FURTHER RESOLVED that this contract is being awarded as an exception to the policy of the Board as set forth in its Resolution R-06-97 dated February 14, 2006 because of the special circumstances of this situation, and the policy of

**BE IT FURTHER RESOLVED** that all effected officers and employees be and hereby are authorized and directed to take such actions and execute such documents as are necessary to effectuate the purposes of this resolution, including issuance of purchase orders as necessary; and

**BE IT FURTHER RESOLVED** that this contract is awarded without competitive bidding in accordance with N.J.S.A. 40A:11-5(1)(l of the Local Public Contracts Law in that it concerns goods and/or services necessary to conduct an election; and

The City of Paterson is requesting the use of $23,000.00 in Corridor Enhancement Funds for the implementation of an Intelligent Transportation Systems (ITS) project along the Grand Street corridor from Railroad Avenue to the Route 19 interchange. The project has been developed in coordination with the County Planning and Engineering Departments and is an implementation task supported in the Transportation Element of the Passaic County Master Plan. The hardware and software is being provided through a 90 day trial period to test the functionality and compatibility with the City and County’s goal of implementing these types of upgrades. At the conclusion of the test period the City of Paterson will choose to whether to purchase the system for the above mentioned $23,000.00 or return the equipment to the vendor. At this time the City of Paterson is requesting the funds so that they are available in the event they choose to keep the Miovision system.

Freeholder Director, Passaic County
County Administration Building
401 Grand Street, 2nd Floor
Paterson, New Jersey 07505

Dear Freeholder Director Lora:

I am pleased to inform you that Passaic County has been selected to receive $700,000 in Regional Transportation Alternatives Program funding for the Morris Canal Greenway Peckman River Crossing Project.

The Regional Transportation Alternatives Program will be administered by New Jersey Department of Transportation, in partnership with the North Jersey Transportation Planning Authority (NJTPA), the Delaware Valley Regional Planning Commission (DVRPC), and the South Jersey Transportation Planning Organization (SJTPO). The goal of the program is to provide funding opportunities for TAP eligible projects that will have a positive impact on the region and may have difficulty securing funding through other competitive Local Aid programs due to funding constraints.

Eleven projects totaling $12,627,000 will be receiving funding from the 2016 Regional TAP program.

Projects must be authorized for construction by December 31, 2017. In addition, the project must be authorized prior to incurring any project related costs that will be reimbursed under this program. Any costs incurred prior to authorization will be ineligible for reimbursement. As with all federally funded programs, the funds will be disbursed on reimbursement basis.

The award of Regional Transportation Alternatives grants will be contingent upon the recipient’s ability to comply with all applicable federal financial management, project implementation, and oversight regulations. Grant recipient’s capabilities to comply with state and federal requirement for the administration of federal-aid highway grants including 23 CFR-Highways, and OMB requirements related to 2 CFR 200 audit requirements will be assessed prior to the awarding of funding for these projects.

Additionally, all recipients of federal and state grants are required to comply with the provisions of Title II of the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973.

Recipients of the Regional Transportation Alternatives Program must provide a Resolution of Support to Local Aid within 90 days of the date of this letter. The Resolution of Support is required as it demonstrates the local public agency’s commitment to advance the project from the local public agency’s governing body.

Please sign this letter acknowledging your acceptance of the grant for the project identified herein and return to me by August 24, 2016. Both the Resolution of Support and the signed acknowledgement letter should be sent to my attention at NJDOT, Division of Local Aid & Economic Development, 1035 Parkway Avenue, Trenton, New Jersey 08625.

Re: 2016 Regional Transportation Alternatives Program – Peckman River Crossing,
Township of Little Falls

The County of Passaic has been awarded $700,000 from the Regional Transportation Alternatives Program to fund the construction of a pedestrian bridge over the Peckman River in Little Falls, NJ. The 2016 Regional Transportation Alternatives Program (TAP) is funded through the Federal Highway Administration’s Federal Aid Program and is being administered by the New Jersey Department of Transportation (NJDOT), in partnership with the North Jersey Transportation Planning Authority (NJTPA). TAP provides federal funds for community based “non-traditional” projects designed to strengthen the cultural, aesthetic, and environmental aspects of the nation’s intermodal system.

This project would serve to “bridge” a critical missing link by connecting two existing discontinuous sections of the Morris Canal Greenway and would provide safe access to the Peckman Preserve to the large residential area to the East. The project would consist of a 600 foot bikeway extension including a bike/pedestrian bridge and safety improvements to the Cedar Grove Road intersection such as a crosswalk with detectable warning devices and lighting.

RESOLUTION REQUESTING TO THE PORT AUTHORITY OF NEW

WHEREAS, the Trans-Hudson Commuting Capacity Study
(Capacity Study) prepared by the Port Authority of New York and
New Jersey is an analysis of how to minimize the impacts of
projected bus traffic growth on the proposed Port Authority Bus
Terminal planning process; and

WHEREAS, the report does not sufficiently take into account
the prospect of expanded rail service and new riders at existing rail
stations in Passaic County; and

WHEREAS, the Capacity Study lacks a specific reference to
the planned restoration of passenger rail service along the NYS&W
rail corridor as part of the Passaic-Bergen-Hudson Rail Project
promoted through the North Jersey Rail Coalition (NJRC); and

WHEREAS, the Passaic-Bergen-Hudson Rail Project has been
formally supported by resolution by the City of Paterson, the
Borough of Hawthorne, the City of Hackensack, the Borough of
Elmwood Park, and the County of Hudson through the working
relationship fostered through the NJRC; and

WHEREAS, the Capacity Study inadequately assesses the
potential impact of a “one-seat ride” made possible by the Bergen
Loop planned as part of the Gateway Project and promoted by the
NJRC on all existing rail service in Passaic and Bergen Counties by
characterizing the riders of bus-dependent rail corridors
in northeastern New Jersey as having “little reason to change their [travel] behavior” upon the completion of the Gateway project despite the implementation of one-seat-ride service; and

WHEREAS, the Capacity Study only takes into account the immediate needs of the Gateway project to address the North Portal Bridge and the Hudson Tunnel Project and appears to ignore the potential and meaningful diversion of bus riders to rail through the inclusion of the Bergen Loop in the full Gateway project; and

WHEREAS, this matter was discussed at the Freeholders Planning and Economic Development Committee, at its December 7, 2016 meeting and is being recommended to the full Board for approval; and

NOW, THEREFORE, BE IT RESOLVED that the Passaic County Board of Chosen Freeholders is hereby requesting to the Port Authority of New York and New Jersey to amend its recently completed Trans-Hudson Commuting Capacity Study to reflect the planned restoration of passenger rail service along the NYS&W rail corridor as part of the Passaic-Bergen-Hudson Rail Project and to acknowledge the potentially meaningful impact on diverting bus passengers through the Bergen Loop element of the full Gateway Project promoted through the North Jersey Rail Coalition; and

BE IT FURTHER RESOLVED that a copy of this resolution will be transmitted to the Office of the Governor of the State of New Jersey, the Port Authority of New York and New Jersey, New Jersey Transit, the North Jersey Transportation Planning Authority, and the Board of Chosen Freeholders of Bergen and Hudson Counties.

RE: Port Authority Trans-Hudson Commuting Capacity Study Amendment

The attached Trans-Hudson Commuting Capacity Study prepared by the Port Authority of New York and New Jersey. This report is an analysis of how to minimize the impacts on proposed Port Authority Bus Terminal which has been the subject of great debate in the news as of late. The report is a major disservice to our planning efforts and must take into account the prospect of expanded rail service and new riders at existing rail station. The amendment should specifically reference the planned restoration of passenger rail service along the NYS&W rail corridor as part of the Passaic-Bergen-Hudson Rail Project promoted through the North Jersey Rail Coalition (NJRC) as well as the impact of a “one-seat ride” made possible by the Bergen Loop Project on all existing North Jersey rail service.

The following are the specific references that are at odds with the efforts of the County and the North Jersey Rail Coalition.

Summary of Findings, pp.5 paragraph 4, line 4

"In most communities with NJ TRANSIT rail stations, rail commutation is high and bus commutation is relatively low. Outside these areas, bus travel often is the only reasonable alternative and the pattern is reversed. The Gateway could as much as double capacity into Manhattan on the NJ TRANSIT rail system, but no new communities would receive rail service. Commuters living in bus dependent areas would see little reason to change their behavior. p.24

Summary of Capacity Study Strategies
Planning Staff Comments: This statement and assumption completely ignores new rail service that is being planned along the Passaic-Bergen-Hudson Rail Line as well as other rail projects advocated for by the North Jersey Rail Coalition and other entities. This also ignores the impact on bus riders that could use existing bus service as a “first mile” connection to new rail stations and the incentive for these riders to use stations that provide a one-seat ride.

Page 6 – Paragraph 5, Line 2

[After addressing potential expansion of trans-Hudson rail service into Manhattan,] the Report continues... “However, the current focus for the corridor investment is securing the approvals and funding necessary to implement the Portal Bridge South replacement and the Hudson Tunnel Project, infrastructure projects essential to maintaining the existing level of service on the Northeast Corridor...”

Planning Staff Comments: This statement gives no consideration to the impact of the Bergen Loop as part of the Gateway Project and the connections it would provide to rail commuters outside the Northeast Corridor. This is a short-sighted assessment that only takes into account the immediate needs of the Gateway project to address the Portal Bridge. The addition of the Bergen Loop as part of the Gateway Project will provide connectivity for existing NJ Transit rail service in North Jersey and the service planned along the Passaic-Bergen-Hudson Rail Line

RE: Request for Emergency CDBG funding
   Replace of Elevator - Wanaque Public Library

Dear Ms. Hoffman,

On behalf of the Wanaque Public Library, the Borough of Wanaque is requesting funding under
the Community Development Block Grant program for the replacement of the elevator at the Wanaque
Public Library in the amount of $60,000. The fifteen year old elevator is at the end of its useful life, and
can no longer be certified for use. This elevator is crucial to our elderly and disabled residents to access
the building.

If there are any excess funds available under the Community Development Block Grant program
for this project, it will be greatly appreciated. The Library has a limited budget, and this cost will take
money away from other needed programs. Should this project be approved, we will be out to bid within
60 days.

Thank you for your consideration.

Very truly yours,

Thomas F. Carroll
Borough Administrator

Re: Passaic County CDBG-DR (Irene)
G.A. # 2013-0277-07

Dear Ms. Hoffman:

I am in receipt of Freeholder Director Best’s recent letter requesting an extension of time for three sub-grantee housing buyout projects within the County’s above referenced CDBG-Disaster Recovery award. The municipalities seeking the time extensions are Little Falls Township, Wayne Township and the City of Paterson. I have been apprised of the numerous impediments the County has faced in completing its projects and I applaud the progress made by the County to date in relocating many residents from flood-prone areas.

Despite the accomplishments made by the County, the Department must ensure that the remaining grant funds are drawn down as quickly as possible. Last year, the Department agreed to the County’s request to extend the grant term an additional year to December 31, 2016. We were assured in writing by both the County and its sub-grantees that the additional year was sufficient to complete the remaining projects and zero out the grant balance. Unfortunately, this deadline will not be met.

Since several home buy-out projects are underway and may not be completed by the December 31, 2016 contract ending date, I will agree to allow an extension through February 28, 2017 to allow the County to complete those projects under contract and submit the required documentation to DCA. All balances that remain from the home buy-out programs after February 28, 2017 will be transferred to the public facility project in Passaic City. This project is anticipated to be completed by September 30, 2017.

Should you have any questions concerning this decision, please contact Janel Winter, Director of the Division of Housing and Community Resources, at 609-633-6153.

Sincerely,

Charles A. Richman
