WHEREAS, the COUNTY OF PASSAIC, New Jersey (the "County"), pursuant to the Improvement Authorities Law of the State of New Jersey (the "State"), constituting Chapter 183 of the Pamphlet Laws of the State of 1960, as amended and supplemented (N.J.S.A. 40:37A-44 et seq.) (the "Act"), has heretofore duly created a body corporate and politic known as The Passaic County Improvement Authority (the "Authority"); and

WHEREAS, pursuant to Section 80 of the Act, the County is authorized to guaranty unconditionally the punctual payment of the principal of and interest on any obligations of the Authority; and

WHEREAS, the County, in order to assist the Authority with the financing of a proposed governmental loan program to be undertaken on behalf of the City of Paterson, New Jersey in order to finance or refinance various projects (the "Project"), has determined to provide for the guaranty of Governmental Loan Revenue Bond Anticipation Notes, Series 2017 (Passaic County Guaranteed) (City of Paterson Project) of the Authority (the "Obligations") under the resolution of the Authority entitled "2017 Governmental Loan Revenue Note Resolution (City of Paterson Project)" (the "Note Resolution");

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF CHOSEN FREEHOLDERS OF THE COUNTY OF PASSAIC, NEW JERSEY, (not less than two-thirds of all members thereof affirmatively concurring), AS FOLLOWS:

Section 1. This guaranty shall be adopted by the governing body of the County in the manner provided for adoption of a bond ordinance as provided in the Local Bond Law, constituting Chapter 169 of the Pamphlet Laws of 1960 of the State, as amended and supplemented (the "Local Bond Law").

Section 2. Pursuant to and in accordance with the terms of the Act, specifically Section 37 of the Act (N.J.S.A. 40:37A-80), the County is hereby authorized to and hereby shall fully, unconditionally and irrevocably guaranty the punctual payment of the principal of and interest on the Obligations in an aggregate principal amount not exceeding at any time $12,496,448, which Obligations are to be issued to finance and/or refinance the Project, on such terms and conditions as may be agreed to by and between the County and the Authority and as are reflected in this guaranty and in the guaranty certificate on the face of each Obligation. Upon the endorsement of the Obligations referred to in Section 3 below, the County shall be fully, unconditionally and irrevocably obligated to pay the principal of and interest on the Obligations.
in the same manner and to the same extent as in the case of Obligations issued by the County, and, accordingly, the County shall be unconditionally and irrevocably obligated to levy ad valorem taxes upon all the taxable property within the County for the payment thereof, without limitation as to rate or amount, when required under the provisions of applicable law. This full, unconditional and irrevocable guaranty of the County effected hereby to pay the principal of and interest on the Obligations when due, in accordance with the terms hereof, shall not be abrogated for any reason. Any Obligations which are no longer considered outstanding under the Note Resolution shall not be counted for the purpose of $12,496,448 limitation contained in this guaranty.

Section 3. The Freeholder-Director, Deputy Freeholder-Director or Director of Finance of the County shall, by manual or facsimile signature, execute an endorsement on each of the Obligations evidencing this guaranty by the County as to the punctual payment of the principal thereof and interest thereon. The endorsement on each Obligation shall be in substantially the following form, and absent the fully executed endorsement in such form on any such Obligation, such Obligation shall not be entitled to the benefits of this guaranty:

GUARANTY BY THE COUNTY OF PASSAIC, NEW JERSEY

The payment of the principal of and interest on the within note according to its terms is hereby fully and unconditionally guaranteed by the County of Passaic, New Jersey for as long as such note is outstanding under The Passaic County Improvement Authority’s 2017 Governmental Loan Revenue Note Resolution (City of Paterson Project).

IN WITNESS WHEREOF, the County of Passaic, New Jersey, has caused this guaranty to be executed by the signature of its Freeholder-Director, Deputy Freeholder-Director or Director of Finance.

COUNTY OF PASSAIC, NEW JERSEY

By: ____________________________
Freeholder-Director,
Deputy Freeholder-Director
or Director of Finance

The Freeholder-Director, Deputy Freeholder-Director or Director of Finance is hereby further authorized to execute such other certificates or agreements relating to this guaranty that may be required by the Authority to comply with the terms of the financing documents relating to the Obligations, including, without limitation, (i) any agreements or certificates detailing the time and method that payment under this guaranty shall be made by the County, (ii) any letters of representations or similar undertakings to be executed in connection with the sale of the Obligations, setting forth certain representations, warranties and covenants of the County as an inducement to the purchase of the Obligations, (iii) any certificates deeming “final” (for the purposes of Rule 15c2-12 of the U.S. Securities and Exchange Commission) any Preliminary or final Official Statements of the Authority in connection with the Obligations, and (iv) any note purchase agreement or continuing disclosure agreement executed in connection with the sale of
the Obligations. Such further agreements or certificates shall not abrogate the County's responsibilities hereunder.

The Freeholder-Director, Deputy Freeholder-Director or Director of Finance is hereby further authorized to execute one or more continuing disclosure agreement(s) or other instrument(s) undertaking the secondary disclosure obligations of the County required by Rule 15c2-12 of the United States Securities and Exchange Commission in connection with the issuance of any Obligations by the Authority.

Section 4. It is hereby found, determined and declared by the governing body of the County that:

(a) This guaranty may be adopted notwithstanding any statutory debt or other limitations, including particularly any limitation or requirement under or pursuant to the Local Bond Law, but the aggregate principal amount of the Obligations that shall be entitled to the benefits of this guaranty, being an amount not to exceed $12,496,448 outstanding at any time, shall after their issuance be included in the gross debt of the County for the purpose of determining the indebtedness of the County under or pursuant to the Local Bond Law.

(b) The principal amount of Obligations entitled to the benefits of this guaranty and included in the gross debt of the County shall be deducted, and is hereby declared to be and to constitute a deduction, from such gross debt under and for all the purposes of the Local Bond Law (i) from and after the time of issuance of the Obligations until the end of the fiscal year beginning next after the completion of the acquisition or construction of the project to be financed from the proceeds of the Obligations, and (ii) in any annual debt statement filed pursuant to the Local Bond Law as of the end of said fiscal year or any subsequent fiscal year, if the revenues or other receipts or moneys of the Authority in such fiscal year are sufficient to pay its expenses of operation and maintenance in such fiscal year and all amounts payable in such fiscal year on account of the principal of and interest on all such guaranteed Obligations, all Obligations of the County issued as provided in Section 36 of the Act (N.J.S.A. 40:37A-79), and all Obligations of the Authority issued under the Act.

Section 5. The following matters are hereby determined, declared, recited and stated:

(a) The maximum outstanding principal amount of Obligations of the Authority that are hereby and hereunder guaranteed as to the punctual payment of the principal thereof and interest thereon at any time is $12,496,448.

(b) The purpose described in this guaranty is not a current expense of the County, and no part of the cost thereof has been or shall be assessed on property specially benefited thereby.

(c) A supplemental debt statement of the County has been duly made and filed in the office of the Clerk of the Board, and a complete executed duplicate thereof has been filed in the office of the Director of the Division of Local Government Services in the Department of Community Affairs of the State, and such debt statement shows that while the gross debt of the County, as defined in the Local Bond Law, is increased by this guaranty by $12,496,448, in accordance with the provisions of the Act, the net debt of the County is not
increased, and the obligation of the County authorized by or incurred pursuant to the terms of this guaranty is permitted by an exception to the debt limitations of the Local Bond Law, which exception is contained in the Act.

(d) All other items to be contained in a bond ordinance adopted pursuant to the Local Bond Law are hereby determined to be inapplicable to the County's guaranty of the Obligations hereby.

Section 6. This guaranty shall take effect at the time and in the manner provided by law.

AMENDED
RESOLUTION AUTHORIZING THE PREPARATION AND IMPLEMENTATION OF A LAYOFF PLAN RELATIVE TO THE POSITION OF ASSISTANT MANAGER GOLF FACILITY IN THE PASSAIC COUNTY PARKS DEPARTMENT FOR REASONS OF ECONOMY AND EFFICIENCY

WHEREAS the Board of Chosen Freeholders of the County of Passaic (the "Board") is vested with all the executive and legislative powers of the County of Passaic (the "County"), pursuant to N.J.S.A. 40:20-1, et seq.; and

WHEREAS the Board is committed to delivering services to the residents of the County in the most efficient and cost-effective manner practicable; and

WHEREAS in furtherance of this goal, the Board has reviewed staffing needs in the Passaic County Parks Department and determined that the position of Assistant Manager Golf Facility is no longer necessary for the efficient operation of that Department, in that the duties associated with that position may be performed by a new golf professional at Preakness Valley Golf Course; and

WHEREAS under the circumstances, it is necessary for the Board to authorize the County Administrator and the Director of Human Resources to take the appropriate steps, in conjunction with other necessary officers and employees to develop and effectuate a Layoff Plan, as well as to issue all appropriate notices as to same in accordance with the requirements of N.J.A.C. 4A:8-1, et seq.; and
WHEREAS the Administration, Finance and Personnel Committee considered this matter at its meeting of December 14, 2016 and recommended this resolution to the full Board for adoption;

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that the County Administrator and Director of Human Resources be and hereby are authorized and directed to take the appropriate steps in conjunction with other necessary officers and employees to develop and effectuate a Layoff Plan regarding the position of Assistant Manager Golf Facility in the Passaic County Parks Department on behalf of the County of Passaic, as well as to issue all appropriate notices to said employees; and

RESOLUTION TO FORMALLY RESCIND AND WITHDRAW RESOLUTION R-12-330 DATED APRIL 24, 2012 ENTITLED "RESOLUTION TO ESTABLISH AND ADOPT A RESPONSIBLE CONTRACTOR POLICY" UNTIL SUCH TIME AS THE LAW NOT PERMITTING THIS POLICY IS AMENDED

WHEREAS in 2012 the then Board of Chosen Freeholders of the County of Passaic adopted Resolution R-12-330 entitled “Resolution to Establish and Adopt a Responsible Contractor Policy”, which attempted to place certain pre-conditions on firms submitting public bids for construction in place as a condition precedent to being permitted to submit bids; and

WHEREAS under the Local Public Contract Law, N.J.S.A. 40A:11-1 et seq., which governs how public entities in New Jersey can procure goods and services, the adoption of prequalification requirements is only permitted if approved by the Director of Local Government Services in the New Jersey Department of Community Affairs based upon strict criteria after a public hearing is held; and

WHEREAS due to legal concerns based on that criteria, the Board held off on holding the required public hearing in 2012; and

WHEREAS this past summer, the said Department of Community Affairs issued a Local Finance Notice (LFN 2016-12) in which the Division of the Local Government Services offered to conduct an informal review and provide input on any outstanding prequalification to bidding such as the “Responsible Contractor Policy” adopted by the said Freeholder Board in 2012; and

WHEREAS as a consequence of LFN-2016-12, the Office of the Passaic County Counsel did submit R-12-330 to the Division of Local Government Services and requested the informal review offered; and
WHEREAS the Director of Local Government Services recently responded to that request and expressed “significant concerns about the legality....” of the County’s Proposed Responsible Contractor Policy and all but said that it would not satisfy the requirements of the Local Public Contractors Law; specifically, N.J.S.A. 40A:11-25; and

WHEREAS after reviewing this determination, it was the recommendation of the Freeholder Committee for Finance & Administration at its December 14, 2016 meeting that the Board formally rescind and withdraw the Responsible Contractor Policy until such time as the law not permitting this policy is amended.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby formally rescinds Resolution R-12-330 dated April 24, 2012 entitled “Resolution to Establish and Adopt a Responsible Contractor Policy”.

Dated: January 3, 2017
RESOLUTION APPROVING THE REVISED COUNTY OF PASSAIC INDEMNIFICATION POLICY FOR ALL OF ITS OFFICERS AND EMPLOYEES EFFECTIVE IMMEDIATELY

WHEREAS in conformity with the laws of the State of New Jersey, specifically, the New Jersey Tort Claim Act, the Board of Chosen Freeholders of the County of Passaic has adopted an Indemnification Policy concerning when and under what circumstances its officers and employees will be defended and indemnified when legal action is brought against them in connection with their official duties and responsibilities; and

WHEREAS a situation arose recently involving a legal action against a Passaic County employee who subsequently retired and refused to continue to cooperate in his own defense such that it is now necessary to modify the said Indemnification Policy to provide that officers and employees must continue to cooperate in order to adequately defend both the County of Passaic and themselves; and

WHEREAS the modified Policy, which contains the new proposed language highlighted therein, is attached hereto and made a part hereof; and

WHEREAS both the Passaic County Self Insurance Commission at its December 1, 2016 meeting and the Freeholder Finance & Administration Committee at its December 14, 2016 meeting reviewed these recommended changes and recommend that they be approved by the full Board.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby approves the revised County of Passaic Indemnification Policy for all of its officers and employees as attached hereto.
BE IT FURTHER RESOLVED that this new Revised Policy shall be effective immediately.

III. Persons Covered

The County of Passaic (the "County") recognizes the value and
importance of having its officers and employees diligently and faithfully
execute their respective duties for the benefit of the County and its residents.
Therefore, in order to further the objectives of County government, and in
accordance with applicable law, it is the policy of the County to indemnify and
defend its officers and employees against legal action brought against them in
connection with their official duties and responsibilities to the maximum
extent provided by law. In adopting this indemnification policy (the "Policy"),
the Board of Chosen Freeholders (the "Board") hereby establishes the following
practices and procedures regarding indemnification.

I. Mandatory Indemnification

A. Obligation to Indemnify

The County recognizes that it may be required by Law to
indemnify and defend certain officers and employees against criminal and civil
actions brought against them in the course of their duties. In cases in which
the County is required by Law to provide such indemnification and defense,
the following principles shall apply.

B. Procedures

Any officer or employee of the County seeking indemnification
and/or a defense from the County under the terms of any constitutional
provision, statute, regulation or other applicable law requiring same shall
promptly give the County Counsel written notice of their request. Said
written notice shall include specific information regarding:
1. the nature of the matter for which indemnification is sought;
2. a concise summary of the facts concerning the matter, and
3. copies of any pleadings, complaints, subpoenas, or other legal
documents or process issued to the party requesting
indemnification.

Upon receiving a written request for indemnification in
accordance with this policy, the County Counsel shall investigate the facts
surrounding the request for indemnification. Said investigation shall include,
but shall not be strictly limited to, a request for a certification from the head
of the Department, Division, Office or other entity of County Government to
which the Requesting Party is assigned. Such a certification shall contain a
statement that the matter for which indemnification and/or a defense is
sought arose from the requesting party's official duties. Upon receipt and
review of such a certification, together with such other information as the
County Counsel may in his discretion require, the County Counsel shall
promptly inform the requesting party of the disposition of the request. At
that time, the County Counsel shall determine whether to (1) grant the
request for indemnification and/or a defense in its entirety; (2) deny the
request for indemnification and/or a defense in its entirety; or (3) grant or
deny the request for indemnification and/or a defense in part and reserve the
County's rights as to the balance of the request, to the extent appropriate.

In circumstances where County Counsel has granted a defense and
request for indemnification, either or may be lost if the employee refuses or
otherwise conducts him or herself in a manner uncooperative in his or her own defense.

C. **Choice of Counsel**

(1). **Civil Cases**

(a) Generally

In civil cases in which County employees or officers (the "Defendants") are named as defendants in actions for damages related to personal injury, property damage or other civil actions, the County Counsel shall, upon determining that the case arises within the scope of defendant’s employment, refer the matter to counsel selected by the County. However, nothing in this Policy shall be construed as limiting the discretion of the County Counsel to assign any case to attorney(s) employed by the County in the Department of Law when the County Counsel deems it appropriate.

Regardless, of counsel selected, the County shall have the sole discretion to settle, compromise or otherwise dispose of any claim for which it grants indemnity and/or a defense under this policy.

(b) **Conflict of Interest**

In civil cases in which both the County and the requesting party are named defendants, and in which it is determined that the matter arose within the scope of the official duties of the requesting party in the manner provided above, and the County Counsel or the attorney assigned to defend the matter reasonably believes, pursuant to the Rules of Professional Conduct as adopted by the Court in which the matter is pending, that an actual or
potential conflict of interest exists which warrants that the County and the requesting party be represented by separate counsel, the following procedures shall apply. In all cases to which this subsection applies, the County shall (1) advise the requesting party that a conflict or potential conflict exists and (2) advise the requesting party that the County will provide a defense by approved counsel selected by the County in accordance with the county's established fee schedule, as well as any reporting, billing and budgeting requirements the County may establish or adopt from time to time. In all such cases, the County shall retain the sole discretion to settle, compromise or otherwise dispose of any claim for which it grants indemnity and/or a defense under this policy, including those in which counsel is assigned pursuant to this section.

(2) **Criminal Cases**

County officers and employees seeking statutory indemnification and defense in criminal actions or proceedings directly arising from their official duties shall be entitled to representation by an attorney designated by the County Counsel, in accordance with the County's established fee schedule, as well as any billing and budgeting requirements the County may establish or adopt from time to time. County Officers and employees seeking indemnification in criminal actions shall also have the option of retaining counsel of their choosing. However, nothing in this subsection shall require the County to reimburse an officer or employee for legal fees or expenses at a rate in excess of the County's established fee schedule.
D. **Reservation of Rights**

Nothing in this Policy shall be construed to impose any liability on the County for damages or attorney’s fees incurred by an officer of employee in either of the following situations:

1. Any criminal case in which the requesting party is found guilty of any wrongdoing.

2. Any criminal or civil case in which the requesting party is found to be acting outside the scope of his or her official duties or for any unlawful purpose.

In addition, nothing in this Policy shall be construed to impose any direct liability on the County for punitive damages assessed against any officer or employer.

II. **Permissive Indemnification**

A. **Policy in favor of Indemnification**

It is the policy of the county to provide indemnity to its Officers and employees as permitted by N.J.S.A. 59:10-4, although such indemnification is not strictly required by statute or other applicable law. However, the defense may be withdrawn and or indemnification denied if the defendant employee fails to cooperate in his or her own defense, or the conduct itself is so egregious, as determined by a Judge or Jury that such conduct falls outside the scope of employment. An employee is also required to adhere to the Defense and Indemnification Policy of the County or the defense and/or indemnification may be lost.
This policy in favor of indemnification shall apply only to civil and criminal cases and proceedings which arise directly from an officer or employee's official duties. This policy shall not apply to any situation in which a County officer or employee is subpoenaed, called or otherwise requested to appear before a Federal or State Grand Jury.

The employee shall be required to acknowledge in writing receipt of this policy and consent to the terms and conditions contained herein.

B. Procedures

Officers and employees seeking permissive indemnification and/or a defense under this policy shall submit a written request to the County Counsel in the same manner provided in section I (B) of this policy for mandatory indemnification. The County Counsel shall act on each such request as provided by said section I (B).

C. Choice of Counsel

All provisions regarding choice of counsel contained in section I (C)(1) of this Policy as to mandatory indemnification shall also apply to requests for permissive indemnification.

D. Exceptions/Reservation of Rights

In accordance with N.J.S.A. 59:10-4, nothing in this Policy shall be construed to impose any liability on the County for damages or attorney's fees in the following situations:

1. In any criminal case in which the requesting party is found guilty of any criminal charge.
2. In any criminal or civil case in which the requesting party is found to have acted outside the scope of his or her official duties, or for any unlawful purpose, or

3. In any criminal or civil case in which the Board determines that the officer or employee seeking indemnification and/or a defense committed acts and/or omissions constituting actual fraud, actual malice, willful misconduct or an intentional wrong.

III. Persons Covered

This policy shall apply to all elected, appointed, and civil service employees of the County of Passaic, whether full or part time. Nothing in this policy shall prevent the Board of Chosen Freeholders from extending the provisions of this Policy to individuals performing work or services for the County on a volunteer or other unpaid basis, at the sole discretion of the Board, pursuant to a duly adopted resolution.

Re: Passaic County Green Infrastructure Plan – RFP-16-018

A Consultant Selection Committee (CSC) comprised of members from Administration, Planning, Engineering, and the North Jersey Transportation Planning Authority (NJTPA) reviewed and scored proposals associated with RFP-16-018.

Under the Local Public Contracts Law 40A:11-4.1 the County sought competitive contracting for the procurement of professional services. The following criteria was used to score proposals:

I. Cost – 5%
II. Consultant Team Qualifications – 35%
III. Technical Approach – 50%
IV. Schedule and Deliverables – 10%

The County of Passaic (“County”) received three (3) responses to RFP-16-018. The CSC convened on November 23, 2016 to score the proposals. Based upon the scoring criteria as set forth in the RFP, the CSC recommends awarding the contract to AKRF, Inc. See attached scoring sheets and summary attached.

I. AKRF, Inc.

The proposal came in on budget and consisted of a highly experienced team of professionals. In addition to a team with extensive knowledge of green infrastructure, regulatory support, and public outreach, AKRF provided a technical approach that far exceeded the approach laid out in the RFP. AKRF provided a schedule that was easy to follow and had great detail as to who and when deliverables would be completed.

Proposal Evaluation Guidance

Evaluation Scores

Proposals shall be evaluated based on the weighted evaluation criteria stated in the RFP and on the attached evaluation form. The summary of each reviewer's scores will be the basis for making the final vendor selection. When assessing points for each evaluation criterion, reviewers shall utilize the following 1-10 scale, which will then be multiplied by the assigned weight (i.e., from 5% - 25%) to calculate the total weighted scores (formulas are provided in the Evaluation Scores Summary Table to automatically calculate the weighted scores). Note, only whole numbers should be applied (no fractions).

Comments - Identifying Strengths, Weaknesses & Risks.

Reviewers must identify and document, as part of the evaluation ratings, strengths, weaknesses, and risks for each proposal. Numerical scores and ratings must be supported with specific details as to why the proposal is weak or risky. The strengths, weaknesses, and risks form a large part of the selection rationale. However, that fact that a proposal is deficient, weak or at risk in some areas does not mean that it should be excluded from further consideration.

WHEREAS the County Clerk of the County of Passaic has been using an internet-based Document Summary Management System (DSMS Portal) provided by Sunrise Systems through a Shared Service Agreement with the County of Monmouth that permits documents filed through the system to be recorded by the County Clerk/Register and, in doing so, permits the submitters of those documents efficiencies in the recordation process; and

WHEREAS until now the costs of DSMS Portal service has been absorbed by the County Clerk at no additional cost to the submitter; and

WHEREAS the said County Clerk has studied the costs of the system and concluded that each current and projected transaction costs of the system are approximately $2.00 for each document filed through the system; and

WHEREAS because of budget constraints on all County operations, including that of the County Clerk, the Passaic County Clerk by letter to the Freeholder members of the Finance & Administration Committee is requesting that the Passaic County Board of Chosen Freeholders take advantage of the State law and

Re: Authorizing Resolution for E-Filing Convenience Fee

I am requesting that the Finance Committee approve an authorizing resolution allowing the County Clerk to impose a $2.00 convenience fee on all documents filed through the Document Summary Management System (DSMS Portal) which is also known as our Electronic or E-Filing system. The convenience fee shall be paid by the submitter and will be listed separately on the invoice. Fees collected under this procedure shall be deposited in a dedicated trust fund and shall be used to pay for the costs of the portal. The use of the dedicated trust also requires the approval of the Division of Local Government Services.

I have enclosed two sample resolutions in connection with this request.

The implementation of this convenience fee will cover all annual maintenance costs associated with the Portal as well as future upgrades to the system.

Therefore, I am respectfully requesting that the Finance Committee approve the implementation of the convenience fee.

Re: Authorizing Resolution for the Creation of Microfilm

I am requesting that the Finance Committee approve an authorizing resolution allowing the County Clerk/Registry to do an RFP for the creation of microfilm. The County Clerk's office is required to create microfilm backup for all of the documents recorded in the County Clerk/Registry Office.

Our office has been doing an RFP for the creation of the microfilm every three years. It appears that an authorizing resolution was never issued by the Freeholder Board. My office has been informed that until an authorizing resolution is adopted, the Clerk's office will not be permitted to have the Microfilm RFP issued. The current contract expired on September 30, 2016.

Therefore, I am respectfully requesting that the Finance Committee approve the authorizing resolution for the creation of microfilm RFP.

If you should have any additional questions or concerns, please do not hesitate to contact me.

Re: Recommendation Letter for RFQ

Dear Mr. Marinello:

After careful review of the responses to RFQ -17-007 the Workforce Development Board (WDB) has selected the Kairos Development Group of Elizabeth, NJ to serve as the consultant on this project. The selection committee reviewed the responses from the two parties that submitted and it was determined that Thomas P. RE: Proposal for Professional Consulting Services
Rifle Camp Park Improvement Project

Dear Mr. DeNova:

REMINGTON, VERNICK & ARANGO ENGINEERS, INC. has assembled a skilled, experienced and versatile Team to provide Passaic County (County) with responsive Professional Consulting Services for the on-time, under-budget delivery of the Rifle Camp Park Improvement Project. This revised proposal responds to the County's Phase I Improvements Scope, dated September 14, 2016 and subsequent information obtained from the County.

The County has extensive site plans on file which will be made available to us during design. This information will allow us to eliminate the aerial survey, since the existing base plans can be used to support conceptual design. Field survey will still be performed in the areas of proposed recreational improvements. Additionally, the County has clarified the scope of the various improvement alternatives under consideration.

RVA is offering the County the following strengths:

✓ **Strong County and Park Project Experience:** Our firm has served the County on dozens of projects, giving us a comprehensive understanding of your expectations, procedures, and personnel. We can hit the ground running from Notice to Proceed with virtually no learning curve, providing the County with maximum start-up efficiency. In addition, RVA has successfully conducted hundreds of parks and recreation projects, including several in the County.

✓ **Focus on Quality Management:** Quality Assurance and Quality Control (QA/QC) are integral to the success of all projects and a foundation of RVA's culture. We are assigning Donald J. Maner, Jr., PE, PP, who has more than 35 years of construction experience, to serve as QA/QC Manager for this assignment.

To best serve the County, RVA will be joined by Lammeo + Giorgio, an architectural firm with a diverse portfolio of projects, including restroom renovations.

RVA's Team, which will perform this project from our office in nearby Secaucus, is excited about this opportunity and the chance to again serve the County. Please find our revised Scope of Services and Fee Proposal enclosed. If you have any questions regarding this submission or require additional information, please contact Richard G. Arango, PE, CME, Executive Vice President, at 201-624-2137. Thank you for considering RVA for this important assignment.

Sincerely,

REMINGTON, VERNICK & ARANGO ENGINEERS, INC.

WHEREAS the Board of Chosen Freeholders of the County of Passaic (the “Board”) is vested with all of the executive and legislative powers of the County of Passaic pursuant to N.J.S.A. 40:20-1, et seq.; and

WHEREAS the Director of the Parks Department recognizes there is a need for a comprehensive and supplemental fee schedule to encompass all Parks within the County’s domain; and

WHEREAS said fee schedule sets forth all permit fees, schedules, deadlines, insurance requirements (if any) and any and all costs associated with other County Departments assisting with Park events; and

WHEREAS effective January 1, 2016, a new Parks Permit Schedule was adopted by Resolution R-2015-0985 and dated December 30, 2015; and

WHEREAS on June 20, 2016, representatives from the Passaic County Coaches Association (PCCA) addressed the Public Works and Building & Grounds Committee regarding the new permit fee schedule and this year’s Cross Country State Meets which are held at Garrett Mountain; and

WHEREAS the PCCA advised the Board that their annual budget, prepared the prior year, did not anticipate the new permit fees and thus funds were not raised to cover this new expense; and

WHEREAS pursuant to Resolution R-2016-613 dated July 19, 2016 permit fees were waived for the 2016 season; and
WHEREAS in order to reestablish permit fees for the 2017 Cross Country State Meets, the Parks Department met with various cross country representatives from those schools who participate in said meets to establish fair and reasonable fees; and

WHEREAS taking into consideration the input provided, the Parks Department proposed the establishment of a Twenty ($20.00) Dollar fee, per participating school, per event; and

WHEREAS the Parks Department also recommended that the previously-adopted Forty-Five ($45.00) Dollar fee per each practice session be changed to an annual fee of Twenty-Five ($25.00) Dollars for unlimited practice sessions; and

WHEREAS, in addition to the above-mentioned changes, it was decided that previously-adopted fees for traffic control and security provided by the Passaic County Sheriff's Department would remain unchanged; and

WHEREAS the Parks Department also proposed charging a portable sanitation unit fee whereby the Parks Department would purchase the portable sanitation units as needed, and the cost would be passed on to the permit applicant; in this way the Passaic County Parks Department would have control over ordering the portable sanitation units and making sure they are removed from the Park in a timely manner; and

WHEREAS these recommendations were presented and reviewed by the Freeholder Committee for Public Works and Buildings & Grounds at its December 12, 2016 meeting, at which time it was recommended to the full Board for approval.

NOW THEREFORE BE IT RESOLVED by the Board of

RE: Cross Country Fees for 2017

On June 20, 2016, the Passaic County Coaches Association addressed the Public Works and Building & Grounds Committee regarding the permit fee schedule for Cross Country Meets. The association stated that their annual budget did not anticipate the new cross country permit fees established by the Parks Department and therefore did not budget enough money to cover the permit fees for the 2016 season. The Parks Department, with the approval of the Committee, waived all permit fees, for all schools wishing to obtain a cross country permit for all practices and/or meets for the 2016 season.

In order to reestablish fees, The Parks Department met with various cross country representatives from schools participating in the Cross Country Meets. The purpose of the meeting was to discuss establishing fair and reasonable fees for cross country. It was agreed to charge a per event fee according to the number of schools participating in the event. Taking the input that was provided into consideration our Office proposed a $20 fee, per school, per event. We also recommended that the previously adopted $45 fee per each practice session be changed to an annual fee of $25 for unlimited practice sessions. In addition to these changes it was also decided that previously adopted fees for traffic control and security provided by the Passaic County Sheriff’s Department would remain unchanged.

In addition to the permit fees, our Office also proposed a porta john fee. Our Office would purchase the porta johns as needed and the cost would be passed on to the permit applicant. This will give us control over ordering the units and making sure they are removed in a timely manner.

This matter was discussed and the new established fees were approved during the Public Works and Buildings & Grounds Committee meeting held on December 12, 2016.

Based on this information, this Office recommends that the Board of Chosen Freeholders adopt a resolution allowing the update of the permit fee schedule for the Cross Country Meets and all other schools wishing to obtain a cross country permit for all practices and/or meets.

Description of the Easement Takings

The County of Passaic is acquiring a utility easement on the subject property, along Weasel Brook at the northwest corner of the property, as well as a construction and maintenance easement along a portion of the property’s Grove Street frontage. Parcel UE-4 comprises an area of 757+/- square feet, and is located along the southerly side of Weasel Brook. Parcel UE-4 is irregular in shape, with a length along the brook of 37.35+/- feet and widths ranging from 21.68+/- feet to 15.50+/- feet. This easement is being acquired for the installation of a new underground sewer line. A new, above-ground manhole will also be installed, just east of the culvert under Grove Street. The construction and maintenance easement on the property, which is Parcel E-4, is located at the northwest corner of the site, extending southward along Grove Street. This easement comprises an area of 358+/- square feet and is rectangular in shape, with 37.73+/- feet of length and a width of 10.00+/- feet. This easement is being acquired for the purpose of constructing a wing wall and appurtenances, for the replacement of the culvert under Grove Street.

Legal descriptions for the easement takings can be found in the Addenda of this report. The residence on the subject property is removed from and not affected by these easements. The area where the easements are located has some grass cover and dense vegetation, and will include some portions of the stone and concrete walls of Weasel Brook. It is assumed that the walls and the bed of the brook will not be damaged by the easement, or will be restored by the County of Passaic to a condition comparable to what existed before the taking. The construction and maintenance easement touches the edge of the property’s asphalt driveway. There is also an existing underground sewer line on the subject property that runs through both easements. It is assumed that this sewer line, as well as any grass cover and the asphalt driveway, will not be damaged by the easement, or will be restored by the County of Passaic to a condition comparable to what existed before the taking. It is assumed that there will be no material change in the elevation of that area where the taking is located, and no structural alteration or damage to that portion of the lot. There are several trees located within both easements. These include approximately 8 deciduous trees with 12 inch trunks; one deciduous tree with an 18 inch trunk; two evergreens with 6 inch trunks, and two dead trees. It is assumed that these trees will have to be removed to allow access to the easements. These trees provide a buffer from the traffic and noise along Grove Street, as well as a buffer from the brook, and the property owner must be compensated for the loss of these trees.

Passaic County, New Jersey

In accordance with your request, we have prepared an appraisal of the referenced property. The property under appraisal comprises a residentially zoned lot, which encompasses 8,712 +/- square feet, or .20 +/- acres. The lot is improved with a 2,691 +/- square foot single family residence. However, this is a land only valuation; the improvement was not inspected and is not valued. The property is located along the northerly side of Catania Drive, at its intersection with Grove Street, in the City of Clifton.

The purpose of this report is to estimate the just compensation due the property owner, arising out of an acquisition of two permanent utility easements and a permanent construction and maintenance easement on the property by the County of Passaic. These are designated as Parcels UE-2A, UE-2B and E-2 in the Grove Street Culvert over Weasel Brook replacement project. A before and after methodology has been utilized, estimating the fee simple "as is" market value of the subject land, before the easement takings and after the easement takings. The property was inspected on October 13, 2016, and this is set as the date of valuation.

Description of the Easement Takings

The County of Passaic is acquiring two utility easements on the subject property, along either side of Weasel Brook at the rear of the property, as well as a construction and maintenance easement along a portion of the property's Grove Street frontage. Parcel UE-2A comprises an area of 661+/- square feet, and is located along the southerly side of Weasel Brook. Parcel UE-2B comprises an area of 86+/- square feet, and is located along the northerly side of Weasel Brook. The total encumbered area by the utility easements will be 747+/- square feet. Parcel UE-2A is a slightly irregular rectangle in shape, with a length of 52.01+/- feet and widths ranging from 11.29+/- feet to 14.55+/- feet. Parcel UE-2B is triangulated in shape, with a length of 49.31+/- feet and a maximum width of 3.59+/- feet. These easements are being acquired for the installation of a new underground sewer line. A new, above-ground manhole will also be installed, just west of the culvert under Grove Street. The construction and maintenance easement on the property, which is Parcel E-2, is located at the northeast corner of the site, extending southward along Grove Street. This easement is rectangular in shape, with 50.35+/- feet of length and a width of 12.40+/- feet. This easement is being acquired for the purpose of constructing or reconstructing a temporary pedestrian bridge and a wing wall and appurtenances, for the replacement of the culvert under Grove Street.

Legal descriptions for the easement takings can be found in the Addenda of this report. The residence on the subject property is removed from and not affected by these easements. The masonry paver retaining wall is also removed from the takings. The area where the easements are located has dense vegetation, and will include some portions of the stone and concrete walls and bed of Weasel Brook. It is assumed that the walls and the bed of the brook will not be damaged by the easements, or will be restored by the County of Passaic to a condition comparable to what existed before the taking. There are also portions of a metal fence and a vinyl fence on the subject property that fall within the construction and maintenance easement. The property owners also have a vinyl shed in the northeast corner of the site, that falls into the construction and maintenance easement. It is assumed that this fencing and shed, as well as any grass cover, other landscaping, and underground sprinkler system will not be damaged by the easement. It is assumed that, if necessary, these improvements will be temporarily relocated and then restored by the County of Passaic to a condition comparable to what existed before the taking. There is a concrete sidewalk on the property in this area, but this sidewalk is already located within the right of way for Grove Street, as are the trees and grass cover to the east of this sidewalk. It is noted that the northeasterly portion of the lot where the takings are located does not have a retaining wall, so it is assumed that there will be no material change in the elevation of that area, and no structural alteration or damage to that portion of the lot. There are two large trees located in the area where the project is taking place, and it is assumed that these two trees, a cedar with an 18 inch trunk and an ash with a 12 inch trunk, will have to be removed to allow access to the easement. However, it appears that these trees are located within the County right of way for Grove Street, and not on the subject ownership. The County has the right to remove these

and concrete walls of Weasel Brook. It is assumed that the walls and the bed of the brook will
not be damaged by the easement, or will be restored by the County of Passaic to a condition
comparable to what existed before the taking. There is also a portion of a chain link fence on the
subject property that falls within the construction and maintenance easement. It is assumed that
this fencing, as well as any grass cover, will not be damaged by the easement, or will be restored
by the County of Passaic to a condition comparable to what existed before the taking. There is an
asphalt sidewalk on the property in this area, but this sidewalk is already located within the right
of way for Grove Street. It is assumed that there will be no material change in the elevation of
that area where the taking is located, and no structural alteration or damage to that portion of the
lot. There are four large trees located in the area where the project is taking place, and it is
assumed that these trees, two maples with 12 inch trunks and two maples with 5 inch trunks, will
have to be removed to allow access to the easement. However, it appears that these trees are
located within the County right of way for Grove Street, and are not on the subject ownership.
The County has the right to remove these trees at any time.

Description of the Easement Takings

The County of Passaic is acquiring two utility easements on the subject property, along either side of Weasel Brook at the rear of the property. Parcel UE-1A comprises an area of 556+/- square feet, and is located along the southerly side of Weasel Brook. Parcel UE-1B comprises an area of 375+/- square feet, and is located along the northerly side of Weasel Brook. The total encumbered area will be 931+/- square feet. Parcel UE-1A is a slightly irregular rectangle in shape, with a length of 60.76+/- feet and widths ranging from 8.32+/- feet to 11.29+/- feet. Parcel UE-1B is triangulated in shape, with a length of 60.58+/- feet and widths ranging from 7.91+/- feet to 3.59+/- feet. These easements are being acquired for the installation of a new underground sewer line. Legal descriptions for the easement takings can be found in the Addenda of this report. The residence on the subject property is removed from and not affected by these easements. The masonry paver retaining wall and fence are also removed from the takings. The area where the easements are located has dense vegetation, and may include some portions of the stone and concrete walls and bed of Weasel Brook. It is assumed that the walls, bed of the brook, and any larger trees will not be damaged by the utility easements, or will be restored by the County of Passaic to a condition comparable to what existed before the taking. Both easements are entirely located within the existing 25 foot wide "near stream" easement on the subject lot.

Description of the Remainder

The remainder property will comprise 8,712+/- square feet, and will be the same size and shape that it was before the taking. Because the takings comprise permanent easements, they do not change the size or configuration of the fee ownership of the subject lot. Within the easements, the County of Passaic and other assigned entities will have the right to construct, place, maintain and repair an underground 12 inch sanitary sewer pipe and appurtenances. The County will have the permanent right to enter onto this portion of the property for maintenance and repair purposes.

The damage to the areas in the utility easements is estimated at 25%. This considers the limitations of the property owner's rights on that portion of the site. The property owner must allow the County access to this portion of the site at all times; it cannot be improved or permanently altered. Consideration is given that these easement areas are on the rear periphery of the site, along the brook, and within the rear yard setback, where it is unlikely that structures could ever be built. The easement takings are located in an area that is not accessible to the remainder of the lot, due to the presence of a 10 to 15 foot high retaining wall and a metal fence. This area is not utilized by the subject owners.

Description of the Easement Taking

The County of Passaic is acquiring a construction and maintenance easement along a portion of the property's Grove Street frontage. Parcel E-5 comprises an area of 254+/- square feet, and is located at the southwest corner of the site, extending northward along Grove Street. This easement is rectangular in shape, with 25.48+/- feet of length and a width of 10.0+/- feet. This easement is being acquired for the purpose of constructing a wing wall and appurtenances, for the replacement of the culvert under Grove Street.

A legal description for the easement taking can be found in the Addenda of this report. The residence on the subject property is removed from and not affected by this easement. The area where the easement is located has some landscaping and dense vegetation, and will include some portions of the stone and concrete walls of Weasel Brook. It is assumed that the walls and the bed of the brook will not be damaged by the easement, or will be restored by the County of Passaic to a condition comparable to what existed before the taking. There is also a portion of an existing underground sewer line on the subject property that is touched by a corner of the construction and maintenance easement. It is assumed that this sewer line, as well as any grass cover, will not be damaged by the easement, or will be restored by the County of Passaic to a condition comparable to what existed before the taking. There is a concrete sidewalk on the property in this area, but this sidewalk is already located within the right of way for Grove Street. It is assumed that there will be no material change in the elevation of that area where the taking is located, and no structural alteration or damage to that portion of the lot. There are landscape shrubs, ground cover, masonry paver stones and some smaller trees located within the construction and maintenance easement. It is assumed that the shrubs and trees will have to be removed to allow access to the easement. The paver stones can be relocated elsewhere on the lot. This shrubbery and trees provide a buffer from the brook, and the property owner must be compensated for the loss of these items.

PERMIT, OR OTHER REGULATED ACTIVITY, MAY BE UNDERTAKEN UNTIL THE
APPLICANT HAS SATISFIED ALL PRE-CONSTRUCTION CONDITIONS AS SET
FORTH HEREIN.

Adopted by:
Official Resolution: 12016-110

December 23, 2016

This permit is not valid unless authorizing signature appears on the last page.
PRE-CONSTRUCTION CONDITIONS:

1. **Timing:** If this permit contains a condition that must be satisfied prior to the commencement of construction, the permittee must comply with such condition(s) within the time required by the permit or, if no time specific requirement is imposed, then within six months of the effective date of the permit, or provide evidence satisfactory to the Division that such condition(s) cannot be satisfied.

2. The permittee must notify the NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, Mail Code 401-04C, 401 East State Street, PO Box 420, Trenton, NJ 08625-0420 at least seven working days prior to beginning any construction on the site or any site preparation.

SPECIAL CONDITIONS:

3. In order to protect the *wetwater fisheries* of the Passaic and Pompton Rivers and their tributaries, no grading, construction or clearing is permitted within any watercourse between May 1 and June 30 of each year. Furthermore, any activity outside a watercourse, which would likely introduce sediment into the watercourse and/or increase its turbidity, is also prohibited during this period. The Department reserves the right to suspend all regulated activities onsite should it be determined that the applicant has not taken proper precautions to ensure continuous compliance with this condition.

4. If cofferdams are in place prior to the timing restriction, construction may proceed during the timing restriction. De-watering of cofferdams must include properly sized temporary sediment basins or other filtering methods to reduce turbidity. The stream area to receive return water discharged from cofferdams must be encompassed by a turbidity barrier. The turbidity barrier must be located parallel to the stream banks and anchored to the shoreline to maintain free flow of the stream center. In order to avoid obstruction of stream flows or fish passage, turbidity barriers must not be placed across the entire stream channel. The cofferdams must also be removed outside of the timing restriction window.

5. In order to prevent adverse impacts to blue-spotted salamander, the following conditions shall apply for work within regulated areas west of the Pompton River:
   
   a. The authorized activities within freshwater wetlands, transition areas and riparian zones may not occur between January 1 through June 30 of the calendar year.
   
   b. Prior to the commencement of site preparation, disturbance, grading, clearing or construction activity the permittee shall erect a silt/debris fence around the footprint of all proposed activities (temporary and permanent) sufficient to exclude small wildlife species, specifically blue-spotted salamander, from entering the proposed construction area.
   
   c. The proposed work area must be inspected by a qualified herpetologist. Any salamanders found must be reported to the NJDEP, Division of Fish and Wildlife, Endangered and Nongame Species Program (http://www.state.nj.us/dep/fgw/evsp/prfform.htm), and relocated outside of the proposed work area.
   
   d. The fence must be monitored weekly and maintained until project completion.
   
   e. The permittee shall construct two "wildlife crossings" under the new Two Bridges Road for blue-spotted salamanders and other terrestrial species as shown on the plans.
6. This permit authorizes the disturbance of 1.741 acres of riparian zone vegetation.

7. Vegetation within 150 feet of top of bank of the Passaic River and its tributaries and within 50 feet of the top of bank of the Pompton River and its eastern tributaries shall only be disturbed in the areas specifically shown on the approved drawings. No other riparian zone vegetation on-site shall be disturbed for any reason. This condition applies to all channels onsite regardless of the contributory drainage area.

8. Upon completion of the project, all temporarily disturbed areas within 150 feet of the top of bank of the Passaic River and its tributaries and within 50 feet of the top of bank of the Pompton River and its eastern tributaries shall be restored to original topography and replanted with indigenous, non-invasive vegetation in accordance with N.J.A.C. 10:2(u).

9. **Limit of Authorized Disturbance** – The authorized activity involves the permanent disturbance of 2.932 acres of freshwater wetlands, the temporary disturbance of 0.010 acres of freshwater wetlands, the permanent disturbance of 6.113 acres of transition areas, the temporary disturbance of 0.284 acres of transition areas and the disturbance of 0.056 acres of State open waters under a Freshwater Wetlands Individual Permit. Any additional disturbance of freshwater wetlands, wetland transition areas and/or State open waters shall be considered a violation of the Freshwater Wetlands Protection Act unless a permit is obtained prior to the start of the disturbances from the Division of Land Use Regulation.

10. **Water Quality Certificate** - This permit to conduct a regulated activity in a wetland or open water includes the Division’s approval of a Water Quality Certificate for these activities.

11. Construction equipment shall not be stored, staged or driven within any channel, freshwater wetland or transition area, unless expressly approved by this permit and/or described on the approved plans.

12. Raw or unset concrete shall not come in contact with any surface waters onsite, since such contact can be toxic to aquatic biota.

13. All excavated material and dredge material shall be disposed of in a lawful manner. The material shall be placed outside of any flood hazard area, riparian zone, regulated water, freshwater/coastal wetlands and adjacent transition area, and in such a way as to not interfere with the positive drainage of the receiving area.

14. The permittee shall adhere to the guidelines enumerated in the January 6, 2009 Consultation Memo from the State Historic Preservation Office to Mr. John McQuillan, Section Chief, New Jersey Department of Transportation.

15. Prior to construction, the permittee is required to submit to the Department, for review and approval a hydraulic analysis for the unnamed tributary to the Pompton River. The said analysis shall accurately reflect the existing and proposed conditions and their corresponding water surface elevations. Furthermore, the proposed analysis shall demonstrate that the proposed road and culvert replacement
associated with said tributary shall not result in additional flooding in any storm event up to and including the Flood Hazard Area Design Storm.

16. Any future expansion or alteration of the approved stormwater management systems, which would affect water quality, increase the rate or volume of stormwater leaving the site, affect the infiltration capacity on the site, or alter the approved low impact site design, shall be reviewed and approved by the Department prior to construction. This includes any proposed changes to the discharge characteristics of any basin, the construction of new inlets or pipes that tie into the storm sewer network and/or the replacement of existing inlets or pipes with structures of different capacity.

17. The permittee shall make specific arrangements to ensure the continuous maintenance and efficient operation of all proposed stormwater management measures onsite. This includes the inspection (and cleaning where necessary) of any and all constructed swales, basins, inlets at least four times per year and after every major storm totaling 1 inch of rainfall or more, the inspection and cleaning of all manufactured treatment devices per Department certification letters as found on www.njstormwater.org/treatment.html, and the use of appropriate soil conservation practices onsite, and any other reasonable effort required to maintain the stormwater management system in good working order.

STANDARD CONDITIONS:

18. Responsibilities:
   a. The permittee, its contractors and subcontractors shall comply with all conditions of this permit, authorizing and/or supporting documents and approved plans and drawings.

   b. A copy of this permit, other authorizing documents, records and information including all approved plans and drawings shall be maintained at the authorized site at all times and made available to Department representatives or their designated agents upon request.

19. Permit modification: Plans and specifications in the application and conditions imposed by this permit shall remain in full force and effect so long as the proposed development or any portion thereof is in existence, unless modified by the Department. No change in plans or specifications upon which this permit is issued shall be made except with the prior written permission of the Department. The filing of a request to modify an issued permit by the permittee, or a notification of planned changes or anticipated noncompliance does not stay any condition of this permit.

20. Duty to minimize environmental impacts: The permittee shall take all reasonable steps to prevent, minimize or correct any adverse impact on the environment resulting from activities conducted pursuant to the permit, or from noncompliance with the permit. The permittee shall immediately inform the Department of any unanticipated adverse effects on the environment not described in the application or in the conditions of this permit. The Department may, upon discovery of such unanticipated adverse effects, and upon the failure of the permittee to submit a report thereon, notify the permittee of its intent to suspend the permit.

21. Proper site maintenance: While the regulated activities are being undertaken, neither the permittee, its contractors nor subcontractors shall cause or permit any unreasonable interference with the free flow of a regulated feature by placing or dumping any materials, equipment, debris or structures within or adjacent to the regulated area. Upon completion or abandonment of the work, the permittee, its contractors or subcontractors shall remove and dispose of in a lawful manner all excess materials,
debris, equipment, silt fences and other temporary soil erosion and sediment control devices from all regulated areas. Only clean non-toxic fill shall be used where necessary.

23. Rights of the State:
   a. This permit does not convey any property rights of any sort, or any exclusive privilege.
   
b. Upon notification and presentation of credentials, the permittee shall allow Department representatives or their designated agents, to enter upon the project site and/or where records must be kept under the conditions of this permit, inspect at reasonable times any facilities, equipment, practices or operations regulated or required under the permit, and sample or monitor for the purposes of determining compliance. Failure to allow reasonable access shall be considered a violation of this permit and subject the permittee to enforcement action.
   
c. The issuance of this permit shall in no way expose the State of New Jersey or the Department to liability for the sufficiency or correctness of the design of any construction, structure or structures. Neither the State nor the Department shall, in any way, be liable for the loss of life or property which may occur by virtue of the activity of development resulting from any permit.

24. Duty to Reapply: If the permittee wishes to continue an activity covered by the permit after the expiration date of the permit authorization, the permittee must apply for and obtain a new permit authorization.

25. Transfer of Permit: This permit may not be transferable to any person unless the transfer is approved by the Department. Please refer to the applicable rules for more information.

26. Other Approvals: The permittee must obtain any and all other Federal, State and/or Local approvals. Authorization to undertake a regulated activity under this permit does not indicate that the activity also meets the requirements of any other rule, plan or ordinance.

27. Noncompliance:
   a. Any noncompliance with this permit constitutes a violation, and is grounds for enforcement action, as well as modification, suspension and/or termination of the permit.
   
b. The permittee shall immediately report to the Department by telephone at (877) 927-6337 any noncompliance that may endanger health or the environment. In addition, the permittee shall report all noncompliance to Bureau of Coastal and Land Use Compliance and Enforcement, 401 E. State Street, 4th Floor, P.O. Box 420, Mail Code: 401-04C, Trenton, NJ 08625, in writing within five business days of the time the permittee becomes aware of the noncompliance. The written notice shall include: a description of the noncompliance and its cause; the period of noncompliance, including exact dates and times, and, if the noncompliance has not been corrected, the anticipated length of time it is expected to continue; and steps taken or planned to reduce, eliminate and prevent...
recurrence of the noncompliance. Such notice shall not, however, serve as a defense to enforcement action if the project is found to be in violation of this chapter.

28. Appeal of Permit: In accordance with the applicable regulations, any person who is aggrieved by this decision or any of the conditions of this permit may request a hearing within 30 days after notice of the decision is published in the DEP Bulletin. This request must include a completed copy of the Administrative Hearing Request Checklist. The DEP Bulletin is available through the Department’s website at http://www.nj.gov/dep/bulletin and the Checklist is available through the Division’s website at http://www.nj.gov/dep/landuse/download/lur_024.pdf. In addition to your hearing request, you may file a request with the Office of Dispute Resolution to engage in alternative dispute resolution. Please see the website www.nj.gov/dep/odr for more information about this process.

MITIGATION CONDITIONS:

Freshwater Wetland Mitigation Conditions for Credit Purchase and Temporary Restoration

Conditions Relative to Credit Purchase:

1. Within 30 days of the issuance of this permit, the permittee shall mitigate for the loss of 2.932 acres of emergent, scrub/shrub, and forested wetlands in addition to 0.056 acres of State open waters through the purchase of 3.168 mitigation credits from an approved wetland mitigation bank.

At this time, the following bank(s) are approved to serve the project area; additional banks may be approved at any time, so please contact the Mitigation unit for the most up to date service area information if you would like additional options.

Pio Costa Wetland Mitigation Bank – Contact Anthony Pio Costa at (973) 575-1706

Troy Meadows Wetlands Mitigation Bank - Contact Len Pariello at (973)539-5355 or Len@WildlifePreserves.org This bank is currently not able to sell credits but will be receiving a credit release soon.

2. Within 60 days and prior to initiation of regulated activities, the permittee shall submit proof of purchase for the amount of mitigation credits listed above to the attention of the Mitigation Unit Supervisor, NJDEP, Division of Land Use Regulation at Mail Code 501-02A, P.O. Box 420, Trenton, NJ 08625-0420.

3. In the event that mitigation credits are no longer available from the above referenced mitigation bank, the permittee shall contact the Division of Land Use Regulation, Mitigation Unit to arrange for an alternative mitigation option prior to the initiation of regulated activities.

Conditions Relative to Restoration of Temporary Disturbance:

4. The permittee shall mitigate for the temporary disturbance of 0.010 acres of State open waters, scrub/shrub and forested wetlands and the temporary disturbance of 0.274 acres of transition areas through an on-site restoration project as shown on the plans entitled:
“Wetland Plan Two Bridges Road Bridge Over Pompton River and West Belt Extension” sheets 1 through 4 of 4, dated September 2016, last revised October 6, 2016 and prepared by Michael T Dunn P.E. of Louis Berger.

“Mitigation Planting Notes and Details Two Bridges Road Bridge Over Pompton River and West Belt Extension” sheet 9 of 9, dated October 2015, last revised October 4, 2016 and prepared by Michael T Dunn P.E. of Louis Berger.

5. All mitigation shall be conducted immediately following completion of the activity that cause the disturbance, and shall be continued to completion within six months after the end of the activity that caused the disturbance.

6. If the permittee fails to perform mitigation within the applicable time period the activity shall be considered permanent and mitigation shall be required to replace the affected resource.

7. The permittee shall notify the Mitigation Unit at the Division of Land Use Regulation in writing at least 30 days prior to the start of construction of the wetland mitigation project to arrange an on-site pre-construction meeting among the permittee, the contractor, the consultant and the Division.

8. To ensure the intent of the mitigation design and its predicted wetland hydrology is realized in the landscape, the mitigation designer shall be present on-site during all critical stages of mitigation construction and during the restoration of any temporarily impacted areas. Critical stages of construction include but are not limited to herbicide applications, earthmoving activities, planting, and inspections.

9. The permittee shall be responsible for ensuring that best management practices are used throughout construction to control the spread and colonization of highly invasive plants. Specifically, all equipment, especially tracks and tires, must be thoroughly cleaned every time equipment or vehicles move from an area containing invasive plants or from off-site to the mitigation area. In addition, soil containing root fragments and above-ground vegetative material from invasive plants shall be carefully managed during earthmoving activities and disposed of at a suitable off-site location rather than mulched and reused or stockpiled elsewhere on the site. For information on the specific species that are considered to be invasive, please refer to the Invasive Plant Atlas at http://www.invasiveplantatlas.org/index.html.

10. In the event that changes to the mitigation design are necessary to ensure success of the project as a result of on-site conditions, the mitigation designer shall immediately notify the Division in writing and submit an alternative plan which achieves the proposed wetland conditions. The Division shall review the plan in accordance with N.J.A.C. 7:7A-15.15. Any modifications to the plan that are reviewed and approved by the Division must be shown on a signed and sealed revised plan. The As-Built plans required as a part of the Construction Completion Report may serve as the signed and sealed revised plan required to be submitted as part of the construction modification process described above if time constraints warrant such action and have been approved by the Division in writing.

11. Within 30 days of final grading of the mitigation site and prior to planting, the permittee shall notify the Mitigation Unit at the Division of Land Use Regulation in writing to arrange a post-grading construction meeting among the permittee, contractor, consultant and the Division.
12. Within 30 days following the final planting of the mitigation project, the permittee shall submit a Construction Completion Report to the Division detailing as-built conditions (see below) and any changes to the approved mitigation plan that were made during construction (N.J.A.C. 7:7A-15.16). The Construction Completion Report shall contain, at a minimum, the following information:

   i. A completed Wetland Mitigation Project Completion of Construction Form. This form is located at [http://www.nj.gov/dep/landuse/forms/index.html](http://www.nj.gov/dep/landuse/forms/index.html) and certifies that the mitigation project has been constructed as designed and that the proposed area of wetland creation, restoration or enhancement has been accomplished;

   ii. As-Built plans which depict final grade elevations at one foot contours and include a table of the species and quantities of vegetation that were planted including any grasses that may have been used for soil stabilization purposes; and

   iii. Photos of the constructed wetland mitigation project with a photo location map as well as the GPS waypoints in NJ state plane coordinates NAD 1983.

13. Within 30 days following final planting of the mitigation project, the permittee shall post the mitigation area with permanent signs which identify the site as a wetland mitigation project and that all-terrain vehicle use, motorbike use, mowing, dumping, draining, cutting and/or removal of plant materials is prohibited and that violators shall be prosecuted and fined to the fullest extent under the law. The signs must also state the name of the permittee, a contact name and phone number, and the Department’s permit number.

14. The permittee shall monitor (forested and/or shrub scrub wetland mitigation projects for 5 full growing seasons and emergent wetland or State open water mitigation projects for 3 full growing seasons) beginning the year after the mitigation project has been completed. The permittee shall submit monitoring reports to the Division of Land Use Regulation no later than December 31st of each full monitoring year (N.J.A.C. 7:7A-15.16(c)). All monitoring reports must include the standard items identified in the checklist entitled, “Wetland Mitigation Monitoring Project Checklist”, which can be found at [http://www.nj.gov/dep/landuse/forms/index.html](http://www.nj.gov/dep/landuse/forms/index.html).

15. Once the required monitoring period has expired and the permittee has submitted the final monitoring report, the Division will make the finding that the mitigation project is either a success or a failure. This mitigation project will be considered successful if the permittee demonstrates all of the following:

   i. That the goals of the wetland mitigation project, including acreage and the required transition area, as stated in the approved wetland mitigation proposal and the permit have been satisfied. The permittee shall submit a field wetland delineation of the wetland mitigation project based on the Federal Manual for Identifying and Delineating Jurisdictional Wetlands (1989) which shows the exact acreage of State open waters, emergent, shrub/shrub and/or forested wetlands in the mitigation area;

   ii. The site has an 85 percent survival and 85 percent area coverage of the mitigation plantings or target hydrophytes, which are species native to the area and similar to ones identified on the mitigation planting plan. All plant species
in the mitigation area must be healthy and thriving and all trees must be at least five feet in height;

iii. The site has less than 10 percent coverage by invasive or noxious species.

iv. The site contains hydric soils or there is evidence of reduction occurring in the soil; and,

v. The proposed hydrologic regime as specified in the mitigation proposal has been satisfied.

16. The permittee is responsible for assuming all liability for any corrective work necessary to meet the success criteria established above (N.J.A.C. 7:7A-15.16(f)). The Division will notify the permittee in writing if the mitigation project is considered to be a failure. Within 30 days of notification, the permittee shall submit a revised mitigation plan to meet the success criteria identified above for Division review and approval. The financial surety, if required, will not be released by the Division until such time that the permittee satisfies the success criteria as stipulated above.

RIPARIAN ZONE MITIGATION CONDITIONS

1. The permittee shall compensate for the temporary disturbance of 0.46 acres of grassed riparian zone as well as the permanent loss of 0.99 acres of forested and scrub shrub riparian zone through an on-site project as shown on the plans entitled:

"Flood Hazard Permit Plan" sheets 1 through 9 of 9, dated September 2016, last revised October 6, 2016 and prepared by Michael T Dunn P.E. of Louis Berger.

"Mitigation Planting Notes and Details Two Bridges Road Bridge Over Pompton River and West Belt Extension" sheet 9 of 9, dated October 2015, last revised October 4, 2016 and prepared by Michael T Dunn P.E. of Louis Berger.

2. The mitigation project must be conducted prior to or concurrent with the construction of the approved project. Concurrent means that at any given time, the mitigation must track at the same or greater percentage of completion as the project as a whole.

3. Prior to the initiation of regulated activities authorized by this permit, the permittee shall sign a Department approved conservation restriction to protect the mitigation area from future development that would remove the vegetation planted. (N.J.A.C. 7:13-13(g)) The conservation restriction shall conform to the format and content of the rules at N.J.A.C. 7:13-14 and the Riparian Zone Mitigation Area model located at http://www.nj.gov/dep/landuse/forms/index.html. The restriction shall be included on the deed and recorded in the office of the County Clerk (the Registrar of Deeds and Mortgages in some counties) in the county wherein the lands of the mitigation project are located. A metes and bounds description shown on a map must be included within the recorded conservation restriction. Within 10 days of filing the conservation restriction, the permittee must send a copy of the conservation restriction to the attention of the Mitigation Unit Supervisor, NJDEP, Division of Land Use Regulation at Mail Code 501-02A, P.O. Box 420, Trenton, NJ 08625-0420.
4. The permittee shall monitor the riparian project for at least 5 years beginning the year after the riparian zone mitigation project has been completed (N.J.A.C. 7:13-13.11(c)). The permittee shall submit monitoring reports to the Division of Land Use Regulation, no later than December 31st of each full monitoring year.

a. All monitoring reports except the final one should include the requirements and goals of the mitigation proposal and a detailed explanation of the ways in which the mitigation has or has not achieved progress toward those goals. If mitigation has not achieved progress, the report shall also include a list of corrective actions to be implemented and a timeline for completion.

b. The final monitoring report must include documentation and data demonstrating that:

i. The goals of the riparian zone mitigation as stated in the approved riparian zone mitigation proposal and the permit conditions have been satisfied.

ii. At least 85 percent of the mitigation plantings have survived and that at least 85 percent of the mitigation area is established with native species similar to ones identified on the mitigation planting plan. All plant species in the mitigation area must be healthy and thriving. All trees must be at least 5 feet in height; and

iii. The site is less than 10 percent occupied by invasive or noxious species; and

iv. The conservation restriction for the mitigation site has been executed and recorded.

5. If the riparian mitigation project does not meet the success criteria established above the project shall be considered a failure and the permittee shall submit a revised riparian mitigation plan. The revised plan shall be submitted within 60 days of receipt of notification from the Division indicating the riparian mitigation project was a failure.

6. If the Division determines that the riparian zone mitigation project is not constructed in conformance with the approved plan, the permittee will be notified in writing by the Department and will have 60 days to submit a proposal to indicate how the project will be corrected.

Purchase of Wetland and Riparian Mitigation Credits

Dear Members of the Board:

As part of the design of the replacement of the Two Bridges Road Bridge over the Pompton River and West Belt Extension the County applied for New Jersey Department of Environmental of Environmental Protection Division of Land Use Regulation Flood Hazard Area Individual Permit and Freshwater Wetlands Individual Permit. The permits were received on October 6, 2016. One of the conditions listed in the permit is to mitigate for the loss of 2.932 acres of emergent, scrub/shrub, and forested wetlands and 0.056 acres of State open waters through the purchase of 3.168 mitigation credits from an approved wetland mitigation bank. The NJDEP approved mitigation banks are Pio Costa Wetland Mitigation Bank and Troy Meadows Wetlands Mitigation Bank.

The County contacted the two wetland mitigation banks and requested and received price quote for the purchase of these credits and the costs are as follows.

AGREEMENT FOR INSTALLATION AND MAINTENANCE OF A GAGING STATION
AT EAST MAIN STREET AND FRANCISCO AVENUE BRIDGES OVER PECKMAN RIVER
IN THE TOWNSHIP OF LITTLE FALLS

Between The Board of Chosen Freeholders of the County of Passaic
And Township of Little Falls

The County of Passaic agrees that the Township of Little Falls may install and maintain a gaging station on the County's owned bridges located on East Main Street and Francisco Avenue over the Peckman River to monitor the stream flows of this waterbody.

The description and the locations of the gaging stations are shown on the attached map and photographs.

Upon proper notice from the County of Passaic, the Township of Little Falls agrees to remove all or any attachments to the bridges at its own expenses when it becomes necessary for the County to modify, alter or change the bridge for maintenance, repair or reconstruction.

Township of Little Falls agrees to waive any claims against the County for any damages which may occur to its gaging station due from the impact or vibration resulting from traffic using said bridges.

The Township of Little Falls agrees to hold the County of Passaic and its agents and employees, harmless for any damages incurred as a result of granted bridge attachment.

Township of Little Falls shall provide the County with a Public Liability Insurance Policy or a Certificate of Insurance in the minimum amounts of at least $100,000.00 to $300,000.00 for bodily injuries or death, and $25,000.00 for property damage, issued by an authorized insurance company authorized to conduct business in the State of New Jersey and indemnifying and protecting the County of Passaic from all liability by reason of property damage or personal injuries or death which may result or may be a claim as a result of the presence of said gaging station during installation, maintenance or length of time the gaging station is attached to the bridges.

Should the Township modify or abandon the need for these gaging stations, the portion(s) containing the attachments to the bridges or other features shall be removed by the Township at its own expense; and thus said attachment permission to the two bridges shall cease to exist.

The pressure transducer will be housed in a 2" (Sch 40) diameter NPT threaded aluminum pipe with 0.15" wall thickness where the bottom of the housing pipe will be left open. The housing pipe will be affixed to the concrete bridge abutment with a pipe grip tie of 12 ga galvanized steel which includes a tightening nut to adjust pipe grip pressure and a flange on each side to allow fasteners. Ramset™ 1" fasteners with washers or Tapcon™ 2.25" concrete anchoring screws will be used to affix the housing pipe to the bridge abutment as shown in Figure 1. One pipe grip tie every 4' will be used to affix the housing pipe to the bridge abutment. A Control Box and a 2" aluminum type C conduit body will be installed for maintenance and servicing. The Gotham Analytics control box is battery and solar powered, and transmits data wirelessly.

PROJECT: Request For Proposals
On-Call Fiber Optic Line Design and Installation

AWARD OF ON-CALL FIBER OPTIC DESIGN AND INSTALLATION SERVICES

Dear Members of the Board:

A Review Committee was convened for the purpose of evaluating requests for proposals submitted to the Purchasing Department on June 11, 2013 RFP FIBER OPTIC LINE DESIGN AND INSTALLATION.

The Committee met on June 20 2013. Each proposal was evaluated utilizing the following criteria: Technical (20%), Management (30%) and Cost (40%). Below are the Committee's results.

The vendors that that submitted proposals and a summary of their evaluation:

Millennium Communications: Met all technical and management requirements with only minor deductions. We believe them to be qualified to perform the work contained within the RFP.

Verizon Enterprise Solutions: Met most requirements specified in the RFP, with some deductions due to incomplete warranty information, potential high cost, and some missing certifications. Overall we believe them to be qualified to perform the work contained within the RFP. Their bid response was taken subject to review with a determination still pending.

Celerity Integrated Services: Met most requirements specified in the RFP. Deductions were given for missing warranty information, missing certifications, and potential high cost. Overall we believe this vendor to be qualified to perform the work contained within the RFP.
The committee established that a minimum score of 70 must be achieved. Based upon the above rankings, the committee recommends that as-needed basis contracts be awarded to Millennium Communications and Celerity Integrated Services. Only upon positive determination of their bid response, will Verizon Enterprise Solutions be formally qualified. The term as set forth in the RFP document is July 1, 2013 to June 30, 2016 with one two-year option to renew (Passaic County’s option) from July 1, 2016 to June 30, 2018.

Based upon the above, this Office recommends that the Board of Chosen Freeholders amend the two year option from July 1, 2016 to June 30, 2018.

WHEREAS the Board of Chosen Freeholders of the County of Passaic (the "Board") is vested with all of the executive and legislative powers of the County of Passaic pursuant to N.J.S.A. 40:20-1, et seq.; and

WHEREAS the said Board recognizes that in order to properly maintain and continue to improve the Passaic County Park system it is important that when groups, either large or small, want to have picnic area(s) designated for their use they have been required to apply and receive permit(s); and

WHEREAS in order to permit that this be done in a consistent and orderly manner, the said Board by Resolution R-2014-186 dated March 11, 2014 put in place a modest permit fee schedule effective April 1, 2014; and

WHEREAS thereafter, the Passaic County Park Director reported that the Passaic County Parks Department received several requests for events in excess of 100 participants and in some cases for events so large that to agree to same would result in the closure of the County Park involved; and

WHEREAS in order to possibly accommodate requests of this type the said Board, by Resolution R-2015-0693 dated September 29, 2015, set forth a limited permit fee schedule to accommodate larger groups; and

WHEREAS the Director of the Parks Department recognized the need for a comprehensive and supplemental fee schedule to encompass all Parks within the County’s domain; and
WHEREAS by Resolution R-2015-0985 dated December 30, 2015, a revised fee schedule setting forth all permit fees, schedules, deadlines, insurance requirements (if any) and any and all costs associated with other County Departments assisting with Park events was put in place; and

WHEREAS even though admission rates were raised for the Dey Mansion in Wayne, NJ, future programming and potential fundraising events were not taken into account; and

WHEREAS in an effort to bring more funding to support the Dey Mansion and the County, the Department of Cultural & Historic Affairs is seeking a resolution to change and add fees for special events, programs and site rental; and

WHEREAS a memorandum from the Department of Cultural & Historic Affairs dated December 12, 2016 proposing said changes is attached hereto and made a part hereof; and

December 29, 2016
MEMORANDUM

TO: Public Works Committee
FROM: Kelly Ruffel, Director
        Department of Cultural and Historic Affairs
RE: Dey Mansion Site & Program Fees
DATE: December 12, 2016

Background

In effort to raise funding to maintain the County Park System, the Board of Chosen Freeholders updated its fee schedules for park users in December 2015. Under this action, admission rates for the Dey Mansion was increased from $1.00 per person to: $5.00 per adults, $4.00 for seniors and $3.00 for children. This request did not take into account future programming at Dey Mansion or potential fundraising events and opportunities.

Action Requested

Since the change in admission rate, the Dey Mansion has brought in $6,140 through admissions. Therefore, and in an effort to bring more funding to support the Dey Mansion and the County, the Department of Cultural & Historic Affairs is seeking a resolution to change and add fees for special events, programs and site rental.

Establishing these fees will assist the County in generating funds to support a wide variety of preservation projects including restoration and rehabilitation of the County’s other historic structures, which could include architectural assessments, designation and interpretation of historic places, and preservation planning studies. In addition, the fees can support further education and training programs that we can offer to schools and youth organizations across the County.

See attached fee proposal for further details.

2. Prohibition Against Personal Enrichment: The Subrecipient agrees that it will establish safeguards to prohibit employees from using their positions for a purpose that is or gives the appearance of being motivated by a desire for private gain for themselves or others, particularly those with whom they have family, business, or other ties.  

3. Prohibition Against Conflicts of Interests: The Subrecipient will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

Failure to comply with these laws, regulations and State circulars will be grounds for termination of this grant.  

5. Anti-Discrimination/Affirmative Action: The Subrecipient assures that it will comply, and all of its contractors will comply with the requirements of the State's
anti-discrimination and affirmative action laws and regulations, including N.J.A.C. 17:27, applicable provisions of N.J.S.A. 10:5-1, et al., as amended, and all implementing regulations. Failure to comply with these laws, rules, regulations, and State Circular Letters will be grounds for termination of this award.

6. **Findings of Discrimination:** The Subrecipient assures that in the event a Federal or State court or Federal or State administrative agency makes a finding of discrimination on the grounds of race, color, religion, national origin, sex or disability against a recipient of funds, the Subrecipient will forward a copy of the finding to DCJ.

7. **Time and Attendance Records:** Grantee must maintain a timekeeping system which provides, at a minimum, records for all personnel charged to the grant as follows: positions (filled with grant funds); rank/title; employee's name; date hired; annual salary; total daily hours worked, and the signatures of the employee and supervisor.

8. **Debarments and Suspensions:** The Subrecipient understands and agrees to comply with state Executive Order No. 34 (March 17, 1976), and State Circular Letter regarding Debarments, Suspensions & Disqualifications, OMB 93-13-GSA. Subrecipient will not conduct business with ineligible firms or individuals who are considered debarred, suspended or disqualified.

10. **Financial Management System:** The Subrecipient agrees to maintain an adequate financial management system in accordance with generally accepted principles of accounting. The Subrecipient shall maintain accurate and current financial reports, accounting records, internal controls, budget controls, and cash management procedures for receiving, holding and expending grant funds. The Subrecipient shall maintain accurate and complete disclosure of financial results of each grant in the Detailed Cost Statements (DCS), have procedures to determine allowable costs, and provide adequate source documentation for financial records.

11. **Accounting Records:** The Subrecipient agrees to enter, maintain and record all grant funds received by the State for this program in accounting records separate from all other fund accounts, including funds derived from other grant awards. Disbursed grant funds shall be available for expenditure by the Subrecipient in accordance with the provisions of the grant subject to such conditions as DCJ may prescribe.

12. **Audit Requirements:** The Subrecipient agrees to comply with State Circular Letter Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, 15-08-OMB. The Subrecipient agrees to submit to DCJ any copies of any exceptions
and/or findings regarding this project as a result of a single audit. The Subrecipient immediately will report to DCJ any changes in its fiscal year.

13. **Data Collection and Reporting Requirements:** The Subrecipient agrees to provide information required for any reporting, data collection, and evaluation conducted by L&PS, DCJ and the State of New Jersey. The Subrecipient also agrees that it will submit timely reports, including programmatic and financial reports, as L&PS may require. If reports are not submitted as required, L&PS may, at its discretion, suspend payments on this grant. The State of New Jersey may, at its discretion, withhold payments to the Subrecipient on this or any grant with other State agencies until the required reports have been submitted.

14. **Budget Revisions/Grant Extensions:** The Subrecipient agrees to report any Budget Revisions as follows:

   a. Deviations in excess of $200 from the approved budget in the grant period require prior approval via DCJ Grant Adjustment Request Form. Subrecipient should be aware that approved budget revisions may result in the imposition of additional special conditions.

   b. L&PS may request changes in the scope of services of the Subrecipient to be performed hereunder. Such changes, which are mutually agreed upon by and between L&PS and the Subrecipient must be incorporated in written amendments to this grant.

   c. If the Subrecipient is making program expenditures or providing grant services at a rate which, in the judgment of L&PS, will result in substantial failure to expend the grant amount or provide grant services, L&PS may so notify the Subrecipient. If, after consultation, the Subrecipient is unable to develop to the satisfaction of L&PS a plan to rectify its low level of program expenditures or grant services, L&PS may upon thirty (30) days’ notice to the Subrecipient, reduce the grant amount by a sum so that the revised grant amount fairly projects program expenditures over the grant period. This reduction shall take into account the Subrecipient’s fixed costs and shall establish the committed level of services for each program element of grant services at the reduced grant amount. If such a determination is made by L&PS subsequent to the awarding of the grant and the funds have already been received by the Subrecipient, the reduced amount will be remitted to L&PS.

   d. The Subrecipient agrees that should circumstances affecting the grant-funded project change it will immediately contact DCJ in writing and advise of such changes; and prior to (or not timely) expending any grant funds other than as contained on the approved budget, it will request and receive prior written approval from DCJ via a DCJ Grant Adjustment Request Form.

15. **Program Income:** The Subrecipient agrees that all income earned by the Subrecipient from grant-supported activities is deemed program income. The Subrecipient agrees to add program income to funds committed to the program to further eligible program objectives. State Circular Letter Standard Grant Agreement
Form, 07-05-OMB, defines program income to include any interest earned of $250 or more in a fiscal year on advances of grant funds. The use of program income must be shown on the detailed cost statements.

16. Licensing and Publishing: The Subrecipient agrees that L&PS and DCJ reserve a royalty-free, non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and authorize others to use: the copyright in any work developed from activities supported by this grant, and any rights of copyright to which a Subrecipient purchases ownership with support. The Subrecipient agrees that L&PS reserves the right to require the Subrecipient not to publish any work, which right shall not be exercised unreasonably. The Subrecipient assures that any publication by the Subrecipient shall include, on the title page, a standard disclaimer of responsibility by L&PS for any opinions or conclusions contained therein.

17. Access to Records: The Subrecipient agrees to give the New Jersey Attorney General, L&PS and DCJ through any authorized representative, access to and the right to examine all paper and electronic records, books, papers, and documents related to the grant including pertinent accounting records, books, documents, and papers as may be necessary to monitor and audit the Subrecipient’s operations. L&PS reserves the right to have access to all work papers produced in connection with audits made by the Subrecipient or independent certified public accountants, registered municipal accountants or licensed public accountants hired by the Subrecipient to perform such audits.

18. Records Retention: Unless otherwise directed by DCJ, state or federal statute, all grant records shall be retained for a period of seven years. This period is extended until otherwise directed if there is any litigation, claim, negotiation, action, or audit in progress and/or audit finding involving grant records started before the end of the seven year period.

19. Grant Fund Availability: Subrecipient recognizes and agrees that both the initial provision of funding and the continuation of such funding under this grant is expressly dependent upon the availability to L&PS of funds appropriated by the State Legislature from State and/or Federal revenue or such other funding sources as may be applicable. A failure of L&PS to make any payment under this grant or to observe and perform any condition on its part to be performed under the grant as a result of the failure of the Legislature to appropriate shall not in any manner constitute a breach of the agreement by L&PS or an event of default under the agreement and L&PS shall not be held liable for any breach of the agreement because of the absence of available funding appropriations. In addition, future funding shall not be anticipated from L&PS beyond the duration of the award period set forth in the grant agreement and in no event shall the grant agreement be construed as a commitment by L&PS to expend funds beyond the termination date set in the grant agreement.

20. Subcontracts and Assignments: The Subrecipient shall not subcontract any of the work or services covered by this grant, nor shall any interest be assigned or
transferred except as may be provided for in this grant or with the express written approval of L&PS. No rights or obligations of the Subrecipient under this subgrant, in whole or part, may be assigned or subcontracted to another entity for any reason without the prior written approval of DCI and L&PS. The Subrecipient may not transfer any rights or obligations under this grant pursuant to an acquisition, affiliation, consolidation, merger or other synergy with another entity.

21. **Trust Account:** If the Subrecipient receives an advance of grant funds, the Subrecipient must establish a trust fund to deposit the funds. The trust fund may or may not be an interest bearing account.

22. **Failure to Comply with Award Conditions:** If the Subrecipient materially fails to comply with the terms of an award, whether stated in a State or Federal statute or regulation, an assurance, general condition, special condition, in a State plan or application, a notice of award, or elsewhere, the Subrecipient agrees that L&PS may take one or more of the following actions, as appropriate in the circumstances:
   a. Temporarily withhold cash payments pending correction of the deficiency by the Subrecipient or take more severe enforcement action.
   b. Disallow all or part of the cost of the activity or action not in compliance.
   c. Wholly or partly suspend or terminate the current award for the Subrecipient’s program.
   d. Withhold further awards for the program.
   c. Request the balance of grant funds to be returned and/or seek reimbursement for funds expended that were not in compliance with the terms and conditions of the grant agreement.
   f. Take other remedies that may be legally available.

23. **Grant Termination:** When the Subrecipient has failed to comply with grant award requirements, stipulations, standards, or conditions, the Subrecipient agrees that L&PS may suspend the grant and withhold further payments; prohibit the Subrecipient from incurring additional obligations of grant funds pending corrective action by the Subrecipient; or decide to terminate the grant in accordance with the below paragraph. L&PS shall allow all necessary and proper costs, which the Subrecipient could not reasonably avoid during the period of suspension, provided they meet State requirements.

24. **Grant Termination – Notification and Due Process:** The Subrecipient agrees that L&PS may terminate the grant in whole or in part whenever it is determined that the Subrecipient has failed to comply with the conditions of the grant. L&PS shall notify the Subrecipient in writing of the determination and the reasons for the termination together with the effective date. Payments made to the Subrecipient or recoveries by L&PS under the grant terminated shall be in accord with the legal right and liability of the parties. In taking an enforcement action, L&PS may provide the Subrecipient an opportunity for such hearing, appeal, or other administrative proceeding to which the Subrecipient is entitled under any statute or regulation applicable to the action involved.
25. **Mutual Termination of the Grant:** L&PS and the Subrecipient may terminate the grant in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and in case of partial terminations, the portion to be terminated. The Subrecipient shall not incur new obligations for the terminated portion after the effective date and shall cancel as many outstanding obligations as possible.

26. **Termination of the Grant for Convenience:** L&PS may terminate this grant for convenience, upon 60 days written advance notice to the Subrecipient, for any reason whatsoever, including lack of funding available to L&PS. Upon receipt of a notice of termination for convenience, the Subrecipient shall cease incurring additional obligations of grant funds. However, L&PS shall allow the Subrecipient to incur all necessary and proper costs which the Subrecipient cannot reasonably avoid during the termination process, as long as these costs comply with all program requirements.

27. **High Risk Subrecipients:** The Subrecipient agrees that under certain instances it may be considered “High Risk”:

   a. If L&PS determines that a Subrecipient:
      
      i. Has a history of unsatisfactory performance.
      ii. Has not filed its financial reports (Detailed Cost Statements) or Final Grant Narrative in a timely manner.
      iii. Is not financially stable.
      iv. Has a financial management system which does not appear adequate according to the General Conditions, or meet the standards expressed according to State Circular Letter, Standard Grant Agreement Form, VIII Financial Management System, 07-05-OMB.
      v. Has not conformed to terms and conditions of previous awards.
      vi. Is otherwise not responsible; and L&PS determines that an award will be made; special conditions and/or restrictions shall correspond to the high risk condition and shall be included in the award.

   b. If a Subrecipient is considered “High Risk,” then L&PS may impose additional Special Conditions or restrictions on the Subrecipient at any time including:
      
      i. Issuing payment on a reimbursement basis.
      ii. Withholding authority to proceed to the next phase until receipt or evidence of acceptable performance within a given funding period.
      iii. Requiring additional, more detailed financial reports.
      iv. Requiring additional project monitoring.
      v. Requiring the Subrecipient obtain technical or management assistance.
      vi. Establishing additional prior approvals.
vii. Wholly or partly suspending or terminate the current award for the Subrecipient's program.

viii. Withhold further and future awards for the program.

c. If L&PS decides to impose such special conditions, L&PS will notify the Subrecipient as soon as possible, in writing, of:

i. The nature of the special conditions/restrictions.

ii. The reason(s) for imposing the special conditions.

iii. The corrective actions that must be taken before the special conditions will be removed by the Department and the time allowed for completing the corrective actions.

iv. The method of requesting reconsideration of the conditions/restrictions imposed.

28. **Corruption of Public Resources Act:** The Subrecipient understands and agrees that, in compliance with the Corruption of Public Resources Act, N.J.S.A. 2C:27-12, it cannot knowingly misuse state grant funds for an unauthorized purpose, and violations under this act could result in a prison term of up to 20 years, and, under N.J.S.A. 2C:30-8, subject to a fine of up to $500,000. The Subrecipient understands and agrees that misuse of award funds may result in a range of penalties, including suspension of current and future funds, suspension or debarment from state grants, recoupment of monies provided under an award and civil and/or criminal penalties, including under the New Jersey False Claims Act, N.J.S.A. 2A: 32C-3.

29. **Prohibition Against State Employee Status:** Subrecipient understands and agrees that persons performing services in connection with a grant shall not be considered employees of the State of New Jersey for any purpose, including but not limited to, defense and indemnification for liability claims, workers compensation or unemployment.

30. **Indemnification:** The Subrecipient agrees that it shall be solely responsible for and shall defend, keep, save, and hold the State of New Jersey harmless from all claims, loss, liability, expense, or damage resulting from all mental or physical injuries or disabilities, including death, to its employees or recipients of the Subrecipient's services or to any other persons, or from any damage to any property sustained in connection with the delivery of the Subrecipient's services that results from any acts or omissions, including negligence or malpractice, of any of its officers, directors, employees, agents, servants or independent contractors, or from the Subrecipient's failure to provide for the safety and protection of its employees, whether or not due to negligence, fault, or default of the Subrecipient. The Subrecipient's responsibility shall also include all legal fees and costs that may arise from these actions. The Subrecipient's liability under this agreement shall continue after the termination of this agreement with respect to any liability, loss, expense or damage resulting from acts occurring prior to termination.
Program Specific Special Conditions

1. The Subrecipient understands that annual funding for the Law Enforcement Officers Training and Equipment Fund Program is uncertain and that funding for each year's grant depends on the continued collection of sufficient program revenue. The Subrecipient accepts this award on the condition that if sufficient funds are not available, the Subrecipient may not receive its entire state award.

2. The Subrecipient agrees that all grant expenditures will be made only for equipment and resources that are consistent with the provisions of N.J.A.C. 13:1A-1.1 et seq., and for equipment and instructional resources that are approved by the Police Training Commission.

3. The Subrecipient agrees to follow all applicable requirements and procedures as required by the Department of Law and Public Safety (L&PS), the Division of Criminal Justice (DCJ), the State of New Jersey Law Enforcement Officers Training and Equipment Fund Program, and as outlined in the notification, application, award, and other letters sent to the Subrecipient which are hereby incorporated by reference. The Subrecipient also agrees to follow all applicable requirements and procedures as required by statute, N.J.S.A. 52:17B-71q, N.J.S.A. 43:3-3 and regulations, N.J.A.C. 13:1A-1.1 et seq.

Executive Summary

City of Contrasts

Paterson's history and natural resources serve as a platform of great potential and opportunity, yet its demographic makeup, economic decline, and the long-standing adverse impact of traffic, congestion, and highway construction present great challenges to advancement. The Circulation Study reveals a diverse but poor community, with limited English proficiency and scant access to auto ownership.

The Great Falls represent one of New Jersey's most significant untapped natural and cultural resources, and present the opportunity to provide the City with a sustainable base for recreation, tourism, and economic development.

Gateway Vision Plan

The Great Falls Circulation Study advances a five-part Gateway Vision Plan of multimodal transportation and placemaking improvements.

Part 1: Multimodal Urban Boulevard
Re-envision the Spruce Street Corridor as a multimodal urban boulevard more consistent with its role as a gateway to the Great Falls NHP and downtown historic district.

Part 2: Two-way Street Conversions
Implement two-way street conversions for Clanci and Mill Streets to begin the process of restoring Paterson's historic street grid and counteract the long-standing impacts of congestion, through traffic, trucks, and speeding.

Part 3: Local Intersections
Implement local intersection improvements that prioritize traffic calming and pedestrian crossings and enhance multimodal mobility across the City.

Part 4: Enhanced Placemaking
Look beyond the transportation and mobility elements to address the chaos, access and mobility limitations, and diminished built environment that residents and visitors encounter on a daily basis.

Part 5: Long-Term Vision Plan
Work with City, State, regional, and NHP partners to explore and advance roadway and transit projects of regional significance and coordinate plans with development of Great Falls NHP facilities and amenities and restoration of Hinchliffe Stadium.

Vision Statement

The City of Paterson will become Great Falls, a place that is:

1. User-Friendly: Easy to navigate and access.
2. Connectivity: Seamless transportation network.
5. Sustainable: A place that is open, accessible, and inviting.

Gateway Vision Plan

The Great Falls Gateway Vision Plan is driven by examination of study area demographics, deficiencies in infrastructure and pedestrian facilities, and the long standing impacts of traffic and congestion that hamper quality of life every day. Together these factors drive the need to develop a network of multimodal Complete Streets to better serve the needs of Paterson residents, visitors, and business.

The community profile of the Great Falls Circulation Study Area reveals a diverse but poor community:

- Paterson has the 11th lowest median household income in New Jersey
- 55% of households lack access to an automobile, four times the state average
- Many of Paterson's 37,200 students walk to school and are exposed to heavy peak hour traffic and deficient pedestrian conditions

Paterson has a long history of disproportionate impacts caused by traffic and the chaos of peak hour congestion. Exposure to heavy traffic and trucks, creates pedestrian risks, and negative quality of life impacts for residents and visitors of all ages on a daily basis.

The Spruce Street Bridge and Spruce Street Corridor is the gateway to the Great Falls NHP and downtown historic district. The corridor is essential to both school access and as a principal route for through traffic, connecting I-80 and NJ 19 to the areas to the north and west of the Great Falls area. However, the current bridge and roadway design are incompatible with a safe, accessible pedestrian environment and ill-suited to the Gateway function. Origin-destination data indicate heavy flows of peak hour through traffic and few alternatives are available to remove this traffic from Paterson's streets.

Five-Part Gateway Vision Plan

The Great Falls Circulation Study advances a five-part Gateway Vision Plan to implement the study vision and goals. The Vision Plan is a program of multimodal transportation improvements that make Paterson a more welcoming and attractive place for education, tourism, and business and enhances its role as the regional center.

Traffic modeling and capacity analysis demonstrate the effectiveness of the proposed improvements.

Part 1: Re-make Spruce Street Corridor as an Urban Boulevard
- Corridor provides a direct connection between I-80 and NJ 19 highway ramps and areas to the north and west
- Target improvements that enhance pedestrian safety and mobility and access to schools, tourism, business
- Address congested river crossings and the impact of through-traffic
- Use traffic calming to deter speeding and aggressive driving

Part 2: Prioritize Two-way Street Conversions to Mitigate Traffic Impacts
- Begin to restore the historic street grid with prototype two-way street conversions
- Leverage Clanci and Mill Street pairing opportunity to mitigate roadway congestion in ways that are compatible with pedestrian mobility and vibrant street life
- Proposed two-way streets conversions are low cost and low impact to the community
- Promote street design that counteracts the impact of congestion, thru traffic, trucks, speeding

Part 3: Advance Local Intersection Improvements to Enhance Multimodal Mobility City-Wide
- Institute traffic calming as a staple of Paterson traffic engineering practice
- Implement pedestrian crossings improvements at key intersections as prototypes to be replicated across the city
- Shift the balance of roadway design to favor pedestrians instead of through traffic

Part 4: Introduce Streetscaping, Wayfinding, and Placemaking Elements
- Rename streets to create a more consistent and uniform navigational experience
- Preserve downtown and historic district streets as truck-free zones
- Advance City-Wide Safe-Routes-to-Schools travel plan initiative
- Streetscaping, lighting, tree plantings, and other features that meet standards set for the Great Falls NHP and Historic District
- Provide bus shelters that enhance transit access and the built environment
- Develop consistent and intuitive wayfinding
- Improvements should be consistent with Great Falls Historic District design standards

Part 5: Long-Term Vision Plan
- Work with City, State, regional, and NHP partners to explore and advance roadway and transit projects of regional significance, and coordinate plans with development of Great Falls NHP facilities and amenities and restoration of Hinchliffe Stadium
Part 1: Spruce Street Urban Boulevard

The first step re-envision the Spruce Street Corridor as an urban boulevard with a reduced cross section and enhanced pedestrian improvements more consistent with its role as a gateway to the Great Falls NHP and downtown historic district. Passaic County is currently advancing the design phase of the Spruce Street Bridge bridge deck replacement, presenting the opportunity to incorporate a Complete Streets framework into the design project. Traffic microsimulation and capacity analysis indicate no significant detriment to traffic flow and intersection performance under the proposed concept.

Proposed improvements include:

**Spruce Street Bridge Recommendations**
- Front Street to McBride Avenue

**Extension**
- Reconfigure Spruce Street Bridge as a three-lane, traffic calmed Street
- Remove left turn between Wayne Avenue and Front Street to maintain three-lane cross section
- Reinforce bridge crossing as a Safe Route to School
- Widen sidewalks to 8 ft. for pedestrians and scenic overlook
- Implement innovative Green Street stormwater management elements
- Use curb extensions to shorten pedestrian crossings and manage traffic speeds
• Install high visibility crosswalk striping, ADA-compliant curbs at all intersections

Spruce Street at Market Street
• Widen sidewalk adjacent to Dawn Treader School to provide adequate pedestrian way
• Install high visibility crosswalk striping, ADA-compliant curb ramps
• Install diverter and pedestrian refuge at northbound intersection approach
• Narrow existing business driveway and add traffic signal head
• Relocate utilities, signal control box, and sidewalk obstructions adjacent to intersection

Spruce Street at Oliver Street
• Install new traffic signal with exclusive left turn lane and phasing along southbound approach
• Provide separate left- and right-turn lanes at Oliver Street approach to new traffic signal
• Install high visibility crosswalk striping, ADA-compliant curb ramps
• Install diverter and pedestrian refuge at northbound intersection approach to narrow roadway

Spruce Street "Boulevard"
• Narrow through-traffic to 1 lane in each direction to calm traffic consistent with context
• Install high visibility crosswalk striping, ADA-compliant curbs at all intersections
• Provide 5 new parking spaces along southbound approach to Oliver Street
• Provide 6 new flexible parking spaces reserved for peak period school bus access along northbound approach to Oliver Street at Community Charter School
• Use curb extension bulb outs to better define parking areas and narrow street cross sections
• Install high visibility crosswalk striping, ADA-compliant curb ramps at intersections
• Install mid-block crossing between Oliver and Grand Streets to enhance Charter School access
• Upgrade traffic signal at Grand Street with exclusive left turn lane and phasing along southbound approach

Overview: The NJ DOT Bikeways Grant Program provides funding to counties and municipalities to promote bicycling as an alternate mode of transportation in New Jersey. Bikeways are facilities that are physically separated from motorized vehicular traffic by an open space or barrier either within the highway right of way or within an independent right of way. A primary objective of the Bikeways Grant Program is to support the State’s goal of constructing 1,000 new miles of dedicated bike paths in an effort to make regionally connect bicycle networks. Applications will be accepted for local projects that will result in the creation of new independent bicycle facilities that encourage bicycle use (i.e compatible roadways, designated roadway, bicycle routes, bicycle lanes, bicycle paths)

Eligible Activities: The following project related activities are typical for funding:

• Construction including construction inspection and material testing according to the Transportation Trust Fund Authority Act
• New bikeway mileage
• Separation of bikeway from motor vehicle traffic through a barrier or an open space
• Bikeway connecting to an existing local or regional bicycle system
• Bikeway improving access to centers of activities (community centers, parks, libraries, schools, employment and residential areas, central business districts, etc.)
• Continuation of a previously NJDOT-funded bikeway project
