Dear Mr. Imhof,

Please accept this letter as our request to display a banner and/or post signs on Union Blvd (Passaic County Road 646) to better communicate the annual Food Festival St. Nikola Macedonian Orthodox Church will host on September 09, 10 & 11, 2016. Our congregation is located at 55 Wentick Street, Totowa, NJ 07512 and has been part of the community for over 20 years. Last year, the church wanted to show some of our cultural tradition by hosting a Food Festival. It was great! The menu was delicious and folk dance performance was traditional as ever. This year, St. Nikola will host its seventh Food Festival bringing together families from our congregation, sister churches and community members.

We ask for permission to display the banner between 550 Union Blvd. and the intersection of Wilson Avenue which intersects with our church. Additionally, we ask to display the banner for approximately 4 weeks prior to the event, starting August 15th. Union Blvd. is a highly utilized road and hope to attract more community members so they too can have a taste of the "old world". Lastly we also seek permission to display yard signs in various locations on Union Blvd. to advertise the event.

Last year's event was successful no doubt to the many efforts of our church members' hard work. We hope to continue the tradition of sharing our culture with our community and you sincerely consider our request in great hopes of another successful Food Festival.

Sincerely,

MOC "St. Nikola"

Re: RFP-16-002 IP Security Surveillance System

Mr. Michael Marinello:

After reviewing the bid proposals for the jail IP security surveillance system, we have decided to reject all bid proposals. This decision is based on the fact that all responses to the RFP exceed our cost estimate for the hardware and services by a wide margin.

Dated: June 15, 2016
RESOLUTION DEMANDING THE STATE OF NEW JERSEY TO
DISTRIBUTE OVER $13 MILLION OF TAXPAYERS FUNDS TO
THE COUNTY OF PASSAIC AS REQUIRED BY THE OFFICE OF
INSPECTOR GENERAL AUDIT REPORT AND CONFIRMED BY THE
CENTER FOR MEDICARE & MEDICAID SERVICES

WHEREAS, the Passaic County Board of Chosen Freeholders
("Board") were awarded Medicaid funding under the American
Recovery and Reinvestment Act ("ARRA") in 2009, in an effort by
President Barack Obama to offer relief to local and county
governments in New Jersey recovering from an economic recession
that were, among other functions, operating nursing homes funded
partially by Medicaid reimbursements; and

WHEREAS, under ARRA, political subdivisions of states,
including the County of Passaic ("County"), were prohibited from
having to pay a greater percentage of Medicaid than they had been
paying in the twelve (12) month period prior to September 30, 2009;
and

WHEREAS, based upon the instruction of the Board to the
County Administrator, an investigation was undertaken to determine
if the State of New Jersey Department of Human Services, the agency
in charge of distributing the ARRA Medicaid reimbursements, had
incorrectly calculated its reimbursement amount to the County,
resulting in reduced funding to the County; and

WHEREAS, thereafter, the County retained Pino Consulting
Group, Inc. ("Pino"), experts in the Medicaid and Medicare funding
reimbursement formulas, to conduct a study and determine if the
County had in fact been shorted ARRA reimbursements; and
WHEREAS, based upon the results of Pino's findings, it was determined that the County was in fact shortchanged funding from Medicaid from ARRA earmarked for the Preakness Healthcare Center in Wayne, New Jersey, and an audit was undertaken by the U.S. Department of Health & Human Services, Center for Medicare & Medicaid Services ("CMS"), Office of the Inspector General, to confirm or refute the findings made by Pino, at the Board's urging; and

WHEREAS, that audit concluded that in spite of the State of New Jersey claims to the contrary, the County, and other counties in the State of New Jersey, were shortchanged the sum of Thirty Seven Million, Three Hundred Twenty Thousand, Three Hundred Twenty ($37,320,320.00) Dollars of ARRA Medicaid reimbursements; and

WHEREAS of that total, Pino has estimated that the County of Passaic may be owed approximately twelve and half million dollars ($12,500,000.00) of Medicaid reimbursements, plus an additional amount of approximately two million and nine hundred thousand ($2,900,000.00) for the period of January 1, 2011 to June 30, 2011; and

WHEREAS said CMS recently issued a letter to the State of New Jersey ordering that the State give out or plan to redistribute the sums due to its political subdivisions within thirty (30) days, or face disallowance of the entire amount of this funding on the basis of its failure to comply with that requirement, which is enclosed and made part of this Resolution hereto; and

WHEREAS the Board of Chosen Freeholders of the County of Passaic is, on behalf of the taxpayers of Passaic County, desirous of demanding that the State of New Jersey take immediate action to
return the Medicaid funding due to the Counties for the over-expense for the period of October 1, 2008 to June 30, 2011 since now that both the OIG and CMS have concluded that these claims are valid, and the failure to properly distribute the ARRA Medicaid reimbursements places a great strain on the taxpayers of Passaic County, and the operations of the Preakness Healthcare Center, serving the vulnerable elderly population in the County; and

WHENAS this matter has been reviewed by the Freeholder members of the Freeholder Finance & Administration Committee who are now recommending it to the full Board.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that, in looking out for the taxpayers of Passaic County, hereby demands that the State of New Jersey take immediate steps to reimburse all of its political subdivisions, including the County of Passaic, in the estimated amount of twelve and half million dollars ($12,500,000.00) for the overpayments that they made to New Jersey for its Medicaid-eligible nursing home and psychiatric patients and school districts under the American Recovery and Reinvestment Act.

BE IT FURTHER RESOLVED that a certified copy of this Resolution shall be forwarded to the Governor of the State of New Jersey, all members of the United States Congress and State Legislatures representing any portion of Passaic County, the Mayor of each municipality in Passaic County and the 20 Boards of Chosen Freeholders of the other Counties in the State of New Jersey.

WHEREAS the County received responses to RFQ-16-060 on May 17, 2016; and

Memorandum

TO: Michael Marinello, Purchasing Director
FROM: Michael II. Glovin, Deputy County Counsel
RE: Adding further to the Pool of Qualified Outside/Special Litigation Counsel for the County of Passaic under Pay to Play for 2016
DATE: May 18, 2016

In response to the submission to me of the qualifications for the expansion of the pool, please be advised that I have reviewed all of the eight (8) firms’ proposals received (note that one additional submission was rejected by Purchasing for failure to produce an executed stockholder’s disclosure and Iran activities disclosure form). I can report that all of the eight (8) are qualified to act as outside/special counsel for the County of Passaic, although four (4) of the firms who submitted had originally submitted and were already qualified for calendar year 2016 pursuant to R-2015-0956 dated December 30, 2015. These four firms are:

1. Waters, McPherson, McNeill, 300 Lighting Way, Secaucus, NJ
2. Florio, Kenny, Raval, 5 Marine View Plaza, Suite 103, Hoboken, NJ
4. Roth D’Aquinni, LLC, 150 Morris Avenue, Suite 303, Springfield, NJ

The other four firms who submitted qualifications who were not previously qualified for 2016 are as follows:

1. Weber Dowd Law, LLC, 365 Rifle Camp Road, Woodland Park, NJ 07424
2. Podvey, Meanor, Calenacci, Hildner, Coccoziello & Chattman, P.C., One Riverfront Plaza, Suite 800, Newark, NJ 07102
3. Hung, Hamlin & Ridley, Counsellors-at-Law, Military Park Building, 60 Park Place, 16th Floor, Newark, NJ 07102
4.  Burke & Potenza, P.C., 600 Parsippany Road, Suite 106, Parsippany, NJ 07054. Please note that this firm, although qualified, did not submit a Business Registration Certificate.

All of the above referenced firms have individuals, partners or principal employees that are licensed attorneys in the State of New Jersey with the relevant experience as set forth in our solicitation proposal. In light of the fact that the Fireholder Finance & Administration Committee at its May 11, 2016 meeting authorized that those attorneys who qualified were approved by Resolution, I would appreciate it if you would prepare the appropriate Resolution to qualify and add these four (4) law firms to those qualified for 2016.

Re: Contract No. SH17016
Term: July 1, 2016 – June 30, 2017

Dear Ms. Owen:

You have been awarded a renewal contract for the 2017 Social Services for the Homeless (SSH) program with the Division of Family Development (DFD). The allocations are detailed in the attached charts. The contract ceiling is $1,477,780 and includes allocations from multiple grant funding sources including Intensive Care Management (ICM) Prevention Services to the eligible clients as detailed in the Division of Family Development Instruction (DFDI). The agreed upon vendor to provide the ICM service in your county is Catholic Family - Hispanic Family Services. Each funding source will require a separate budget details, Report of Expenditures (ROE), and Level of Service reports (LOS), as indicated in the contract.

The contract award allocation chart provides details for the client services and administrative funding. On the Annex B budget, use separate columns for each funding source and separate columns for program components (client services and administrative expenses). As a reminder, the ROE must be submitted with details for each funding source and program components.

The documents necessary to complete the contract renewal can be accessed and downloaded from the DFD Website at http://www.state.nj.us/humanservices/dfd/info/. Please click on the link DFD Third Party Contracts, and then click the link for Social Services to the Homeless (SSH) for the required documents.

Please return the contract renewal package and all required documents to your Contract Administrator no later than July 15, 2016. Signed subcontracts must be submitted to DFD within 30 calendar days of the start of the contract. Delays in submitting the contract renewal package or signed subcontracts may result in an unsatisfactory contract status and require a greater level of monitoring and oversight. Additionally, failure to submit the signed subcontract agreements will result in the loss of administrative funding.

RE: Grant #: 2016-05235-0199-00

Dear Ms. Hanrahan,

Passaic County will receive a FY16 non-discretionary Community Services Block Grant (CSBG) for approximately level funding of your FY15 allocation. Your allocation to date totals $252,410. This amount reflects the initial allocation of $97,277 and the second and third allocation totaling $155,133.

The CSBG grant funds are available from 10/01/2015 through 09/30/2017. Your grant cycle will be 10/01/2015; however, the term of your contract will be January 1, 2016 through December 31, 2016. The Department is trying to eliminate overlapping contracts. Please ensure that the agencies you subcontract with are aware of the time-period, since this may differ from past years. If any sub grantee should require additional time to utilize funds, a grant revision would be necessary.

If you have any questions, please do not hesitate to contact me at (609) 633-7256.

Sincerely,

Stephanie Dillahunty

CONTRACT MODIFICATION- LAN Associates

Dear Members of the Board:

As part of the Design of the above referenced project, the consultant was required to perform extra work outside the original work. This work consisted of additional site meetings outside the original scope of work. Additional meeting minutes were also prepared. LAN Associates has provided a proposal in the amount of $4,400.00. Copy of the proposal is attached.

This matter was approved at the Public Works Committee meeting on June 6, 2016. An award of contract is recommended to the full Board.

Subject: County of Passaic/Fee Proposal for
Additional Construction Administration
Engineering Services – Domestic Hot Water System Replacement at the
Passaic County Jail, Paterson, NJ
LAN Ref. #2.20012.10 - #7119

Dear Mr. Edmond:

With reference to our original proposal (LAN Ref. #2.20012.0 - # 6012b dated July 19, 2013), our proposal (LAN Ref. #2.20012.10 - #6294 dated December 17, 2013) and further revised proposal (LAN Ref. #2.20012.10 - #6294a dated December 19, 2013), LAN Associates, Engineering, Planning, Architecture, Surveying, Inc. (LAN) is requesting this additional fee proposal for the above referenced project.

Our original proposal during the construction phase was to provide four (4) site visits during construction phase of this project which was revised on December 19, 2013 to include no site visits during construction phase, as the County of Passaic was going to administer the construction phase of this project in-house. The only involvement required from LAN was for a kick-off construction meeting and one (1) punch list site visit at the end of installation.

However, as you are aware that due to the construction issues associated with the low bid contractor, C. Dougherty and Co., Inc. as well as the subsequent water quality issues and associated failure of the newly installed Lochinvar domestic hot water boilers, LAN has spent an extensive amount of time attending site meetings, making site visits as well as troubleshooting the water quality issue at the Passaic County Jail. This is in addition to the normal progress construction site visits which were requested by the County of Passaic during construction phase.

LAN is requesting this additional fee proposal for the following scope of services which have already been rendered:

1. LAN has made a total of nine (9) site visits/attended site meetings during the construction phase of the project between September 26, 2014 and December 14, 2015. Some of
LAN ASSOCIATES

which were normal construction progress phase site visits and some of them were meetings to address the water quality issue and subsequent failure of the domestic hot water boilers.

2. LAN also independently contacted several water treatment contractors in order to obtain recommendations on how to control the higher elevated levels of chloride, sulfates, copper and iron mentioned in the Lochinvar report, which they say contributed to the premature failure of the stainless steel heat exchangers for the new domestic hot water boilers.

This has necessitated additional work for LAN including making several site visits, attending several site meetings, contacting the contractor, the manufacturer and chemical treatment companies to address these issues.

Thus, we respectfully request that an additional fee in the amount $4,400 be provided.

We look forward to a confirmation for contract amendment so that we can submit our invoice for the same.

Respectfully submitted,

LAN Associates, Engineering, Planning, Architecture, Surveying, Inc. (LAN)

From: Anthony J. De Nova, County Administrator

Date: June 9, 2016

Re: Request that the Passaic County Board of Chosen Freeholders, Review and Approve Change Order #2 (Add) exceeding 20% of the Contract for River Boulevard Drainage in the Township of Little Falls

In my capacity as Chief Executive Officer of the County of Passaic, I am hereby requesting that the Board of Chosen Freeholders adopt a Change Order for the above-referenced contract above the 20% increase in contract, which is permitted under the Local Public Contract Law N.J.A.C. 5:30-11.9. By way of background to the request, I received a letter on June 7, 2016 from Assistant County Engineer, Timothy R. Mettlen, P.E., and was reviewed and recommended for approval by the Public Works Committee. This change was necessary for the additional work immediately necessary, as mentioned in the attached memorandum from Steven J. Edmond, P.E., County Engineer.

Under the above-mentioned circumstances, I respectfully join in the recommendations of both the County Engineer and Freeholders of the Public Works Committee, that this change order in excess of 20% of the original contract be awarded and adjusted by the total of $19,200.00.

Change Order #2 (Add) exceeding 20% of the contract

Dear Mr. DeNova:

A change order for additional work in the amount of $19,200.00 was reviewed and recommended for approval by the Public Works Committee at its meeting of June 6, 2016. Since this change order increases the contract amount by more than 20%, the procedures at N.J.A.C. 5:30-11.9 are being followed. This change can be allowed since it was not reasonably possible to issue a new contract for the additional work. The original contract amount of $48,300.00 is a "sunk cost" as the specially sized liner has already been fabricated.

Very truly yours,

Timothy K. Meliten, P.E.

Change Order #2 (Add) exceeding 20% of the contract

Members of the Board:

Attached for your approval is Change Order #2 to be issued to the Contractor, reflecting an increase in the contract amount required to complete the project. The Change Order adjusts the quantities to reflect expected effort required to prepare the existing pipes for lining.

The total amount of this additional work is $19,200.00 and causes the contract to exceed the original contract amount more than 20%. Attached is documentation required by N.J.S.A.C 5:30-11.9.

The total amount of the addition is $19,200.00, resulting in a new contract amount of $73,900.00. The original contract amount of $48,300.00 is a "sunk cost" as the specially sized liner has already been fabricated.

This matter was discussed with the Public Works and Buildings and Grounds Committee at its meeting of June 6, 2016.

I respectfully request that the Board of Chosen Freeholders ADOPT a RESOLUTION approving Change Order #2 in the amount of $19,200.00.

Very truly yours,

This is to request a change order in excess of 20% of the original contract amount, in accordance with N.J.A.C. 5:30-11.9. I do hereby certify to the following:

1. **Explanation of the Factual Circumstances which necessitate issuance of the change order:**

   On November 13, 2015, Passaic County entered into a contract with Arolod Construction Company, Inc. to design and install a liner for the twin drainage pipes under River Boulevard. This contract was sought as a cost savings effort over removal and replacement of these pipes, which would have been complicated by the very close proximity of an existing water main. As part of the negotiations for the price of the liner, it was agreed that Passaic County would fill the voids under the pipe. Due to inexperience of the County's crew in working with flowable fill and understanding the nature of the requirement, the voids were significantly overfilled, partially filling the pipes in addition to the voids. The road crew was unable to effect the removal of the excess fill as they were not trained or certified in confined spaces work. The County then executed a Change Order with the contractor to provide workers with confined space training to remove the excess fill. This change order is required as the amount of excess fill was much more than anticipated.

2. **Statement indicating why these circumstance could not have been foreseen:**

   [Introduction, Adoption, Official Resolution details]

   - Introduced on: June 14, 2016
   - Adopted on: June 14, 2016
   - Official Resolution #: R20160466
it was impossible to determine the true quantity of fill to be removed until enough was removed to see and work further down the pipe.

3. Statement indicating why issuance of the change order would be in the best interests of the contracting unit and would not constitute an abuse of these rules.

The specially designed liner for this pipe has already been manufactured and is a "sunk cost" for the County. The total of the contract with this change order is still approximately 50% less than the alternative of supporting the water main and removing and replacing the twin pipes.

4. I have reviewed the rules of the Division of Local Government Services pursuant to N.J.A.C. 5:30-11.9 et. Seq., and certify that the proposed change order may be allowed under the aforementioned rules.

Respectfully,

Steven J. Edmond, P.E.

Re: Horizontal Curve High-friction Surface Treatment (HFST) Project

Dear Mr. Edmond:

We are writing to provide you with our scope and fee for the above-referenced project.

We understand the County desires assistance preparing construction documents for the Horizontal Curve High Friction Surface Treatment (HFST) Project along various horizontal curves along the following roadways as depicted on the enclosed diagrams provided by the County:

- Glenwild Avenue (County Route 700) in Bloomingdale Borough from Hamburg Turnpike to the West Milford Township municipal boundary
- Ringwood Avenue and Greenwood Lake Turnpike (County Route 511) from Pierce Avenue in Wanaque Borough to Lakeside Road in West Milford Township

The construction scope includes the following work:

- HFST application along horizontal curves and along tangent portions of roadway within 150 feet of horizontal curves
- Ancillary work, including traffic control and application of temporary tape to protect manholes and striping

We propose to provide the following engineering services for this project:

- Prepare base plans for the HFST areas based on aerial photography, supplementing existing base plans prepared for segments of these roads for various road resurfacing projects
- Prepare construction plans for the HFST project, indicating limits of work and the required items and quantities, along with a title sheet, distribution of quantities sheet, typical section and traffic control details
- Prepare a construction cost estimate
Mr. Steven J. Edmond, PE, County Engineer
June 3, 2016

We understand the County will prepare construction specifications, and no construction phase services will be required for the HFST project.

We propose to provide these services for a fee of $26,400.00, to be invoiced on a percent-complete basis.

Contract Modification #2 – Remington & Vernick Engineers

Members of the Board:

Attached for your approval is Contract Modification #2 to a professional engineering services contract with Remington & Vernick Engineers of Haddonfield, NJ for the purpose of modifying a contract for the design of the 2016 Road Resurfacing Program.

Subsequent to the award of contract, Passaic County it was determined that the amount of disturbance exceeded the minimum amount established by the Hudson Essex Passaic Soil Conservation District requiring a permit. This requires modification to the plans and preparation of the application.

Our File No.: 1600X019

Dear Mr. Edmond:

We are writing to provide you with our additional scope and fee for the above-referenced project.

As you know, during design it was determined the areas of soil disturbance proposed along Grand Street, Union Street and High Mountain Road each exceed the maximum disturbance permitted by the Hudson Essex Passaic Soil Conservation District (SCD) without certification. Accordingly, the scope of this project has been increased to include an application for SCD Certification of the plans for each of these roadways.

We propose to provide the following additional engineering services for these roadways:

- Update the construction plans for the resurfacing of these roadways to indicate the required Soil Erosion and Sediment Control (SESC) items and quantities
- Prepare an Application for SESC Plan Certification
- Estimate the additional quantities of work and update the construction estimate accordingly

We understand the County will pay the SCD for the fees associated with the SESC Plan Certification.

Accordingly, we respectfully request an increase to the project fee lump-sum in the amount of $5,700.00, which will be invoiced on a percent-complete basis.

WHEREAS bids were received by the County of Passaic on April 5, 2016 for the West Milford Salt Storage Project in the Township of West Milford, NJ; and

WHEREAS the Passaic County Engineer has requested the rejection of this solicitation in accordance with the provisions of N.J.S.A. 40A:11-13.2(a), in light of the fact that all bids exceeded the engineer’s estimate and the budget for this project (see correspondence attached hereto and made a part hereof); and

PROJECT: West Milford Salt Storage Project
Township of West Milford, Passaic County
Receipt of Construction Bids
Reject Bids, Revise Specifications & Plans, Authorize Re-bid

Members of the Board:

On April 5, 2016, the County received bids for the West Milford Salt Storage Project. A total of five (5) contractors submitted bids. For the Base Bid (Bid #1), the bids initially ranged from $1,335,780 to $2,360,496; while the Bid #2 initially ranged from $1,837,035 to $3,398,552 (refer to attached bid summary sheet). However, the contractor with the lowest bid read at the bid opening (Thomas & Sons Builders, LLC) withdrew their bid. Therefore, the current lowest Bid #1 is $1,902,758 and Bid #2 is $2,442,024 by Simpson and Brown, Inc. All bids exceeded the engineer’s estimate of $985,980 (Bid #1) and $1,335,780 (Bid #2) and the budget for the project. It is recommended that the County reject the bids, revise the specifications and plans and authorize a re-bid. West Milford Township is providing partial funding for this project. The Township concurs that the bids should be rejected (refer to attached May 20, 2016 letter).

This matter was discussed with the Public Works Committee during the June 6, 2016 meeting, and a rejection of bids, revision to the plans and specifications and authorization of a rebid is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution rejecting the bids received on April 5, 2016 and authorizing revisions to the plans and specifications and authorizing the re-bidding of the West Milford Salt Storage Project.

Re: West Milford Salt Storage Project

Dear Mr. Pera:

I am in receipt of your letter of May 6, 2016 regarding the above referenced subject matter. I thank you for delineating the four potential options in your letter.

Please be advised that I have discussed the subject of the salt storage project with the township engineer and members of his staff. The Township concurs that the County Board of Chosen Freeholders should reject all bids because the bids submitted exceed the combined budget allocation of West Milford Township and Passaic County.

Mr. Ferriero and I both agree that it would be advantageous for us to meet with you to discuss options and feasible alternatives. However, before scheduling the meeting, the engineer will do some research. As such, when he has completed his work, we will contact you to schedule a meeting.

Many thanks for you continued attention to this matter.

Sincerely,

Antoinette Battaglia
West Milford Administrator/Clerk

Dated: June 15, 2016
RESOLUTION AUTHORIZING TILCON NY TO RESURFACE AND RESET MANHOLES AT VARIOUS LOCATIONS IN PASSAIC COUNTY IN CONFORMITY WITH THE TERMS AND CONDITIONS SET FORTH WITH THE MORRIS COUNTY COOPERATIVE PRICING COUNCIL

WHEREAS Public Service Electric & Gas (PSE&G) has retained Tilcon NY to resurface portions of certain Passaic County-owned roadways; namely, Haledon Avenue and Hopper Street in Paterson and Prospect Park, and West Broadway in Paterson, NJ; and

WHEREAS the County of Passaic is a member of the Morris County Cooperative Pricing Council (MCCPC) who is authorized under the Local Public Contracts Law to receive bids for items on behalf of its members; and

WHEREAS Tilcon NY was awarded a MCCPC contract for paving and the Passaic County Engineering Department is requesting that Tilcon NY be engaged to do certain items under its MCCPC contract that are outside of the parameters of its PSE&G contract, as more particularly set out in the letter of recommendation dated June 7, 2016 in the amount of $24,600.75 (copy of letter attached hereto and made a part hereof);

WHEREAS this matter was discussed at the June 6, 2016 Public Works and Buildings & Grounds Committee meeting and recommended to the full Board for approval; and

WHEREAS a certification is attached hereto indicating that funds for the within contemplated expenditure are available; and

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby authorizes Tilcon NY to resurface and reset manholes in the amount of $24,600.75 which are outside of the parameters of its
resurfacing contract with PSE&G for locations listed in attached letter and in conformity with the terms and conditions as set forth in their bid with the Morris County Cooperative Pricing Council.

BE IT FURTHER RESOLVED that the Director, Clerk of the Board and County Counsel are authorized to execute all necessary documents on behalf of the County of Passaic.

June 14, 2016
CERTIFICATION OF AVAILABLE FUNDS

THIS IS TO CERTIFY THAT FUNDS ARE AVAILABLE AS FOLLOWS:

AMOUNT: $24,600.75

APPROPRIATION: C-04-55-129-001-913

PURPOSE: Resolution authorizing Tilcon NY to resurface and rest manholes at various locations in Passaic County in conformity with the terms and conditions set forth with the Morris County Cooperative Pricing Council.

OFFICE OF THE COUNTY ENGINEER
ROOM 524

June 7, 2016

Members of the Board:

Tilcon NY, under contract with PSE&G is resurfacing portions of Haledon Ave and Hopper Street in Paterson and Prospect Park and West Broadway in Paterson.

- The Department of Engineering has identified 2 manhole castings in Haledon Ave that must be replaced. The Morris County CO-OP has items for resetting manholes. We request that the TilconNY, under the MCCO-OP, be authorized to set 2 new manholes supplied by the County and or the City of Paterson.

- Under this same contract with PSE&G, TilconNY is milling and resurfacing one block of Hopper Street from curb line to curb line and two blocks from curb line to centerline. This leaves one short block curb line to curb line and 2 blocks from centerline to curb line unfinished. Rather than leaving these “orphan” sections undone, we request that TilconNY, under the MCCO-OP, complete milling and resurfacing the incomplete sections of Hopper Street while the road is under construction.

- The West Broadway paving will stop short of Presidential Avenue and leave approximately 1250 square yards of West Broadway through the intersection with Presidential to the bridge joint in extremely poor condition. We request that TilconNY, under the MCCO-OP, complete this “orphan” section while performing work for PSE&G under their permit.

The total cost of this under the Cooperative agreement is estimated at $24,600.75.

This matter was discussed with the Public Works and Buildings and Grounds Committee at its meeting of June 8, 2016.

Very truly yours,

Re: Proposal for Hazardous Materials Survey  
Nike Base Property ("Subject Property")  
1310 Route 23 North,  
Wayne, New Jersey  
Langan Project No.: TBD

Dear Mr. Nigro:

Langan Engineering & Environmental Services, Inc. (Langan) is pleased to provide you with our proposal to perform a Hazardous Materials survey for the referenced project. The subject property consists of Block 1400, Lot 26, located at 1310 Route 23 North, Wayne, New Jersey is currently improved with two main structures (one-story, 7,000 square feet of garage type building and a one-story, 4,570 square feet office building), various storage sheds, and multiple trailers.

The general scope of services to address hazardous materials concerns associated with this project will include a hazmat survey to better determine the presence/absence of asbestos-containing materials (ACM), lead based paint (LBP), polychlorinated bi-phenyls (PCBs), and other universal waste/miscellaneous hazardous materials in the building(s).

SCOPE OF SERVICES

Task 1 – Hazardous Materials Survey and Report

Asbestos Containing Materials (ACM) Survey

An asbestos survey of the building(s) will be performed which will include the following:

- Review of all available prior asbestos surveys, reports and construction records so as to facilitate the identification of ACM. Following our review, we will coordinate and schedule a site visit to conduct hazmat surveys.

- After gathering all information and site plans, we will perform asbestos survey to identify the presence/absence of ACM. The survey will include documenting quantities...
and assessing the conditions of materials. The asbestos survey will be performed by EPA/ASHRAE accredited asbestos inspectors.

- Suspect materials identified during our site assessment will be sampled as necessary. The samples will be analyzed by a certified laboratory for the presence/absence of asbestos using Polarized Light Microscopy (PLM). Non-friable organically bound materials which test negative via PLM will be re-analyzed using Transmission Electron Microscopy (TEM). The number of samples to be collected will depend upon the type and quantities of suspect materials identified within the building(s).

- We anticipate that an individual who is knowledgeable about the building(s) will accompany us, as necessary, to provide access, unlock doors, etc. to all areas of the building.

**Sampling Strategy and Laboratory Analyses**

Bulk samples of suspect ACM will be typically collected from areas that are not easily visible. Representative samples of ACM normally include cored 1½ to 1 square inch pieces of ceiling tile, drywall materials, pipe and HVAC insulation material, ceramic floor and wall tile chips, etc. Sampled ACM locations will be properly patched using appropriate patching materials. Langan will core and subsequently patch opening materials; however, it should be noted that we cannot guarantee or warrant the effectiveness of this repair.

Bulk material sampling will be conducted such that the following sampling strategy is reliably achieved:

Friable Surfacing Materials: Friable surfacing materials, where encountered, are sampled based on the recommendations found in the EPA "Pink Book" entitled "Asbestos in Buildings: Simplified Scheme for Friable Surfacing Materials" (EPA document 560/5-85-030a). The number of samples collected is based on the total square footage of the homogenous area of the material.

Thermal System Insulation (TSI): If present, at least three samples are collected in a randomly distributed manner from each homogenous area of TSI not assumed to be ACM. At least two samples are collected from each homogenous area of patched TSI. Where cement or plaster is used on fittings such as tees, elbows, or valves, samples will be collected in a manner sufficient to determine whether the material is ACM or not ACM.

Miscellaneous Materials: This includes materials such as acoustical ceiling tiles, floor tiles and linoleum, wall board, wire insulation, caulking and sealants, laboratory equipment, draperies, etc. (basically, anything that does not fall into the first two categories). The number of samples collected of a given miscellaneous material is left to the discretion of the inspector; however, a minimum of two samples will be collected.

**Lead-Based Paint (LBP) Screening Survey**

Langan will perform a field screening of painted surfaces to verify the presence or absence of lead-based paint (LBP). The screening will include survey of easily accessible painted surfaces
using an x-ray fluorescence (XRF) direct reading spectrum analyzer. To eliminate the need for additional site visits and to expedite the survey process, the LBP survey will be performed simultaneously with the asbestos survey.

**Miscellaneous Hazmat Survey**

Current Federal regulations require that Polychlorinated Biphenyls (PCB) and mercury containing materials be properly disposed. As part of the building survey, we will conduct universal and miscellaneous hazmat survey which will include preparing an inventory of universal and miscellaneous hazardous materials including but not limited to the following: PCB-containing fluorescent light fixtures such as light ballasts; stained surfaces that may have been impacted by oils or PCB-containing material; Mercury switches; Thermostats; meters; valves; and other mercury containing instruments; Oil-filled electric machines (motors, pumps, etc.); Fluorescent and other universal waste lamps; Storage tanks for oil or chemicals, CFC and any other refrigerant-containing appliances; Batteries such as Lead-Acid, Nickel Cadmium, Lithium and Silver Oxide Batteries; Fire extinguishers and fire suppression chemicals; Water treatment chemicals associated with heating/cooling; Containers (e.g., drums) with fluids or articles; Waste materials and other similar items that warrant special handling, Tritium containing Exit signs, Smoke detectors, etc. Sampling of this material will not be conducted as part of the proposed scope.

**Task 2 – Evaluation, Report of Findings and Hazmat Identification Plans**

After completion of the field surveys and receipt of laboratory test results, a report of findings will be prepared describing Hazmat related issues and recommendations for required remedial actions. The report will include the sampling protocol and analytical methods used; the type, condition, location, and approximate quantity of ACM, LBP and universal and miscellaneous hazardous materials identified in the surveyed structures and recommendations for remedial actions. The report will include drawings, which will be utilized to identify sampling locations. The laboratory analytical results of samples collected during the investigation will be provided as the complete laboratory data package. We will prepare plans and drawings appropriate for abatement of hazardous materials. If drawings are not available, we will prepare field sketches to be used for the construction documents.

**COST OF SERVICES**

The estimated cost for the scope of work described herein is provided below.

Notes:

1. At this time, we have budgeted for the collection and analysis of 140 PLM, 80 TEM asbestos and 10 PCBs samples. The cost for analytical testing of the collected samples and XRF rental will be billed on a per unit basis as reimbursable expenses and are included in the above cost estimate. The samples will be analyzed by an independent certified laboratory. For budget purposes, $4,500 should be estimated for laboratory testing of samples and reimbursable expenses. Samples will be billed at cost plus 15% mark-up. The unit cost for the analyses of bulk samples is estimated as follows:

- PLM Analysis $6/sample – 48 Hours TAT
- TEM Analysis $35/sample – 48 Hours TAT
- XRF Instrument Rental $500/day

CLOSURE

We thank you for the work opportunity and look forward to continue to work with you. If you find this proposal acceptable, please provide proceed order for the above scope of work. Please call if you have any questions.

Re: Dey Mansion Restoration
Preakness Valley Park, Wayne New Jersey
Asbestos Abatement, Monitoring & Testing
Revised Award of Consulting Services – Langan Engineering

Members of the Board:

During the construction of the Dey Mansion Restoration, it was necessary for the County to perform a survey of the Mansion asbestos, prepare asbestos abatement documents, obtain permits, review the Contractor’s operations, monitor the asbestos removal, and perform the necessary testing in accordance with State and Local laws. Resolution R-2016-0297 on April 12, 2016 authorized an award to Langan Engineering and Environmental Services to perform these services for $12,368.22. The award amount is incorrect and should have been $11,445.72.

The above referenced matter was discussed at the Public Works Committee meeting of March 28, 2016 and amended award in the correct amount to Langan Engineering is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution amending the Resolution award to Langan Engineering for the Dey Mansion Asbestos Abatement, Monitoring, and Testing to Langan Engineering for $11,445.72 subject to the availability of funds.

Very truly yours,

AWARD OF ON-CALL FIBER OPTIC INSTALLATION SERVICES

Dear Members of the Board:

As per Resolution R-2013-468, dated June 25, 2013, the County awarded a contract for fiber optic design and installation for the County of Passaic on an as-needed basis for a two year period beginning July 1st 2013 through June 30th, 2015. As per Resolution R-2013-468 the contract was authorized for one (1) two year option to renew.

The need for a new exterior camera security system at the Dey Mansion and updated phone systems at the Henry Doremus “Plantation House” requires installation of fiber optic lateral at the Henry Doremus “Plantation House”. Based on labor, equipment & materials needed to perform the above referenced fiber optic installation; Millennium Communications Group was selected to perform the work based on the lowest price for fiber optic maintenance. The estimated cost of the work is $4,828.55.

This matter was discussed during the Public Works Committee meeting on May 9, 2016, and an initial allowance of $4,828.55 for Millennium Communications Group is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution awarding an allowance for fiber optic maintenance services to Millennium Communications Group in the amount of $4,828.55 for the installation of fiber optic lateral at the Henry Doremus “Plantation House” at Preakness Valley Park subject to the availability of funds.

Re: Case/IH Farmall 105U Tractor with Alamo Machete
   Bid No. SB-15-041

Dear Ms. Chacon:

Please be advised that the Road Department wishes to purchase an additional
Case/IH Farmall 105U Tractor with Alamo Machete (Flail Mower) for use at the Passaic
County Road Department Pompton Lakes Garage. Previously, one was purchased for use
at our Paterson Garage under Bid #SB-15-041. I have discussed same with the Public
Works Committee during our meeting of May 9, 2016 and approval was given by the
Committee. I am therefore asking that an additional Case/IH Farmall 105U Tractor with
Alamo Machete be purchased under the terms of the above referenced Bid from the only
responsible bidder who bid on the specified equipment contained in the bid, Storr Tractor
Company, 3191 Route 22, Somerville, New Jersey 08876. Attached you will find the
requisition and resolution request for same.

If you should have any question with respect to this matter, or I can be of
additional assistance, please feel free to contact me.

Re: Resolution Request-Temporarily Suspending County Ordinance Article II Section 28 Prohibiting Alcohol at County Parks for a Wedding Reception at Garret Mountain

Dear Ms. Chacon:

An application for a Wedding Reception/BBQ for June 25, 2016, at Garret Mountain Boat House has been made and approved. All permits, fees and insurance requirements shall be obtained by this office prior to the event. The time for the Wedding/Reception is 1:30 PM to 8:30 PM

A request to allow alcohol during the event has also been made. Pursuant to Article II Section 28 of the Passaic County Park Ordinance “No person shall have in their possession, display, bring or use or be under the influence of intoxicating liquors, barbiturates or narcotics on park premises.”

At the May 9, 2016, Public Works Committee my request was approved to temporarily suspend the Ordinance for the limited purpose of allowing alcoholic beverages to be offered and consumed at this event during the stated date and time on the permit obtained.

The committee also directed that a resolution be made authorizing same and that it be placed before the Board of Chosen Freeholders for approval at their next regularly scheduled meeting of June 14, 2016.

Re: Resolution Request-Publish Park Ordinance for Violation of Permits

Dear Ms. Chacon:

On April 12, 2016, by Resolution No. 2016-0294, the Board of Chosen Freeholders Authorized an Ordinance establishing penalties for the violation of the Parks’ Permit Fee Schedule and enforcement of same. The Resolution requires that enforcement of the Ordinance shall be effective thirty (30) days after publication.

On or about May 9, 2016, by way of email, same was presented to the Public Works & Grounds Committee and approval of the Ordinance and publication was granted.

The committee also directed that a resolution be made authorizing same and that it be placed before the Board of Chosen Freeholders for approval at their next regularly scheduled meeting of June 14, 2016.

If you have any questions please feel free to contact me.

Very truly yours,

Nick Roca
