The Honorable Anthony DeNova
Passaic County Administrator
401 Grand St., Room 205
Paterson, NJ 07505

Dear Mr. DeNova,

On behalf of the Greenwood Lake Commission, I am writing to you today to request that the County of Passaic award the Commission with $20,000, for the year 2016. The Commission's sole purpose, having been created by the legislators of New York and New Jersey, is to protect the natural resources of Greenwood Lake for recreational and economic gain. As you are aware, the Commission was never given a means on obtaining revenue, and this investment will aid us in the pursuit of our goals.

Passaic County has been generous in the past, and we greatly appreciate all of your support. I am happy to report that the Commission has held several successful projects, thanks to your support. We have completed a stump reduction project, started applying herbicides to curb invasive species of aquatic plant species, began a partnership with local universities to conduct water testing on Greenwood Lake at no cost, hosted several successful boat licensing courses, and became a mobile office which is able to perform at full capacity while saving more funds for on lake projects. I am also happy to report that Orange County is now matching Passaic County's donations for 2015 and 2016.

Our success is in no small part due to your continued support. Thank you again for your effort to preserve and protect Greenwood Lake.

Sincerely,

Paul Zarrillo
NJ Co-Chair
Greenwood Lake Commission

Dated: March 23, 2016
RESOLUTION URGING THE GATEWAY DEVELOPMENT CORPORATION AND STATE AND FEDERAL OFFICIALS TO INCLUDE THE “BERGEN LOOP” IN THE GATEWAY TUNNEL PROJECT TO ENSURE ONE-SEAT SERVICE FOR PASSAIC COUNTY RESIDENTS INTO NEW YORK CITY

WHEREAS the Gateway Development Corporation was created to administer the Gateway Tunnel Project, a major infrastructure undertaking that will create a new tunnel link between New York and New Jersey, and expand passenger rail service; and

WHEREAS to date, the Gateway Tunnel Project does not include the “Bergen Loop”, a vital component of the Access to the Region’s Core (“ARC”) Project that was cancelled by, that created one-seat train service from the Pascack Valley, Main, and Bergen Lines into New York Penn Station; and

WHEREAS the economic impact of creating one-seat service to Penn Station is heavily documented, including the potential to increase property values by 4.2% in Passaic County, a direct result of more efficient local travel and improved access to high paying jobs in New York City; and

WHEREAS through the North Jersey Rail Coalition, the Passaic County Board of Chosen Freeholders are joining with elected officials at every level of government to lobby the Gateway Development Corporation to include the Bergen Loop in the Gateway Tunnel Project; and

WHEREAS as the Gateway Tunnel Project is a once in a lifetime undertaking, to move forward without the inclusion of the
Bergen Loop would be devastating to the long-term economic vitality of North Jersey; and

WHEREAS this Resolution was discussed and approved at the March 9, 2016 meeting of the Finance and Administration Committee; and

BE IT FURTHER RESOLVED that the Passaic County Board of Chosen Freeholders strongly urge the Gateway Development Corporation to include the Bergen Loop in the Gateway Tunnel Project, and urge the representatives in the New Jersey General Assembly, New Jersey State Senate, United States House of Representatives, and United States Senate, to do the same.

Re: Proposal for Asbestos Survey and Design Services  
45 Mountain Avenue & 675 Goffle Road, Hawthorn, NJ;  
and 768 Paulison Avenue, Clifton, NJ  
Langan Project No.: TBD

Dear Mr. Thompson:

As requested, Langan Engineering & Environmental Services, Inc. (Langan) is providing this proposal for asbestos survey and design services for the proposed for the referenced residential buildings. We understand that the one-story residential structure at 45 Mountain Avenue, Hawthorn, NJ (Block 150, Lot 1) is scheduled to be demolished and the two-story residential structure at 675 Goffle Road, Hawthorn, NJ (Block 145, Lot 1) and the one-story structure at Weasel Brook Park 768 Paulison Avenue, Clifton, NJ (Block 21.01, Lot 1) will be gut renovated. This proposal briefly discusses our scope of work, fees, and schedule.

SCOPE OF SERVICES

Task 1 - Asbestos Survey and Report

Upon receipt of authorization to proceed, an asbestos evaluation of the buildings will be performed which will include the review of the original design documents and existing asbestos related reports that may be on file and available to us.

After gathering all information and architects plans, we will survey the buildings for the presence of asbestos-containing materials (ACM). Langan's asbestos professional, who is certified under the United States Environmental Protection Agency (USEPA) Asbestos Hazard Emergency Response Act (AHERA) as an asbestos inspector will perform the survey. The survey will include documenting quantities and conditions of materials.

We will collect bulk samples of suspect ACM utilizing precautionary health and safety procedures. Sampled ACM locations will be properly patched with putty or duct tape. The samples will be transported to a laboratory with proper chain-of-custody documentation. The samples will be analyzed for the presence/absence of asbestos using Polarized Light Microscopy (PLM). Depending on the received results, several random materials may also be re-analyzed by Transmission Electron Microscopy (TEM) for confirmatory purposes. As required by the Federal and State regulations, each distinguished layer of a sample will be analyzed separately as an individual sample. The samples will be analyzed by a certified laboratory.

The number of samples to be collected will depend upon the type and quantities of suspect materials identified in each building.
After completion of the field survey and receipt of laboratory test results, separate report of findings will be prepared describing asbestos related issues and recommendations for required remedial actions. The report will include the sampling protocol and analytical methods used; the type, condition, location, and approximate quantity of ACM. The report will include drawings, which will be utilized to identify sampling locations. The laboratory analytical results of samples collected during the survey will provided as the complete laboratory data package.

Task 3 – Preparation of Abatement Design Documents

Following our site evaluation and review of the architectural, mechanical and plumbing plans, we will prepare abatement design documents which will include the following:

- Prepare plans and drawings appropriate for construction. For the purpose of this proposal, the base drawings, provided by your office will be used to develop asbestos removal plans. The project will be coordinated with the architect’s office and rest of the design team.

- Prepare technical specifications for asbestos removal. The asbestos abatement technical specifications would include initial set-up procedures, instructions to the contractor with regard to asbestos removal, safety, and other necessary information and directives such that the work will satisfy current N.J.A.C. 5:23, Subchapter 8 requirements.

Task 4 – Preparation and Filing Variance Petition (If Applicable)

The buildings which are scheduled to be renovated may require filing a variance petition. Langan will file necessary variance application including fees, and coordinate with the New Jersey Department of Community Affairs (NJDOCA) to obtain approval of the variance petition. One visit to the site or DCA’s office is anticipated during the variance petition and approval.

COST OF SERVICES

The estimated cost for the scope of work described herein is provided below. We will invoice you monthly for our services in accordance with our schedule of fees and general terms and conditions.

Notes:

At this time, we estimate collection and analysis of 130 PLM and 50 TEM bulk samples would be necessary to...
complete our survey. The unit cost for the analyses of bulk and air samples is estimated based on turnaround time as follows:

To: All Passaic County Board of Chosen Freeholders

From: Anthony J. De Nova, County Administrator

Date: March 14, 2016

Re: Request that the Passaic County Board of Chosen Freeholders, Review and Approve Change Order #2 for the Passaic County Courthouse Security System Upgrades (Exceeding 20% of the Contract to United Federated Services, Inc.

In my capacity as Chief Executive Officer of the County of Passaic, I am hereby requesting that the Board of Chosen Freeholders adopt a Change Order for the above-referenced contract above the 20% increase in contract, which is permitted under the Local Public Contract Law N.J.A.C. 5:30-11.9. By way of background to the request, I received a letter on today's date, from Assistant County Engineer, Timothy R. Mettlen, P.E., and was reviewed and recommended for approval by the Administration & Finance Committee. This change is allowed since it was not reasonably possible to issue a new contract for the additional work, as mentioned in the attached letter from the Assistant County Engineer.

Under the above-mentioned circumstances, I join in the recommendations of both the County Engineer and Freeholders of the Administration & Finance Committee, that this change order in excess of 20% of the original contract be awarded and adjusted by the total of $19,875.00.

Change Order #2 (Add) exceeding 20% of the contract

Dear Mr. DeNova:

A change order for additional work in the amount of $19,878.00 was reviewed and recommended for approval by the Administration & Finance Committee at its meeting of March 9, 2016. Since this change order increases the contract amount by more than 20%, the procedures at N.J.A.C. 5:30-11.9 are being followed. This change can be allowed since it was not reasonably possible to issue a new contract for the additional work. The scope of work for the Court House Plaza and the subsequent contract award took place subsequent to the award of this project and security requirements were adjusted as a result of the Court House Plaza project.

Very truly yours,

This is to request a change order in excess of 20% of the original contract amount, in accordance with N.J.A.C. 5:30-11.9. I do hereby certify to the following:

1. *Explanation of the Factual Circumstances which necessitate issuance of the change order:*

   This contract was awarded before the scope of work for the Court House Plaza Project was finalized and a construction contract awarded. Security requirements were revised subsequent to that award.

2. *Statement indicating why these circumstance could not have been foreseen:*

   The scope of the Court House Plaza project had not been finalized at the award of this project.

3. *Statement indicating why issuance of the change order would be in the best interests of the contracting unit and would not constitute an abuse of these rules.:

   This change order is due to additional requirements generated by a subsequently awarded Court House Plaza project. Continuity with the originally awarded security contract, the cost of mobilizing another contractor, the costs of advertising for another contractor, and the minimal cost of this addition indicated that it would be in the best interests of the County to award this Change Order.

4. I have reviewed the rules of the Division of Local Government Services pursuant to N.J.A.C. 5:30-11.9 et. Seq., and certify that the proposed change order may be allowed under the aforementioned rules.

Dear Ms. Allessio:

We have recently reviewed your request to participate in the RAP Program. This letter serves as an approval to participate. For your convenience, I have enclosed an additional copy of the RAP Requirements as well as radon informational brochures which can be distributed along with the test kits.

Thank you for joining us in our efforts to promote radon awareness and to increase the number of lives saved from this easily preventable health risk.

Dear Ms. Corrado,

In regard to renewing the Bulk television services at Preakness Healthcare Center, please note that at the request of County Attorney Matthew Jordan, a one (1) year contract has been created to 'lock-in' the monthly rates that reflect the new term.

The enclosed contract is dated February 3, 2016, the first day of this new 12 month period.

The enclosed revised invoice, also reflects the value of twelve months. (The Purchase Order you presented in January 2016 does not cover the entire period). The invoice also includes where you may send an updated Purchase Order for signature. Please include the address where you require it to be returned, as well.

Please review, sign/date and return BOTH copies in the provided pre-paid Fed-Ex envelope. We will then sign both copies and return one for your records.

If possible, use 2/3/16 as the date you signed it. Otherwise use the true date and we'll see if we can back-date to the correct 2/3/16 start date.

Feel free to contact me with any questions.

Thank you for your continued interest in Cablevision's Optimum television and thank you for your business,

Change Order #8 (Deduct)  

Members of the Board:  

Attached for your approval is Change Order #8 (Deduct) to be issued to the Contractor, reflecting a decrease in the contract amount due to:  
- Final as-built quantities  
- Liquidated Damages  

The total amount of the decrease is $35,217.31, resulting in a new contract amount of $2,272,770.74.  

This is a forced Change Order as the contractor refuses to accept the liquidated damages described below.  

In response to Bloomingdale's request to defer work on Glenwild Avenue to a time when traffic to and from the schools would not be affected by the underground drainage work and subsequent paving operations, the Board of Chosen Freeholders approved Change Order 3, extending the June 1, 2013 completion date to September 1, 2013. In spite of continuous urging by the County, the contractor failed to start the project until 1 week before school started and finished on October 15, 2013, 45 calendar days after the start of school.  

This matter was discussed with the Public Works and Buildings and Grounds Committee at its meeting of March 7, 2016.  

I respectfully request that the Board of Chosen Freeholders ADOPT a RESOLUTION approving Change Order #6 in the amount of -$35,217.31.  

Very truly yours,

Item S-12

Liquidated Damages are assessed for this project for a total of 45 days at $700 per calendar day as dictated in the project Supplementary Specifications. The Board granted an extension of time to September 1, 2013 in order for the contractor to complete the underground drainage on Glenwild Avenue while school was in summer session as the project would significantly impact access to the local elementary school. The contractor delayed the start of the drainage project until 1 week before school started, negating the purpose of the time delay. School started again on September 2, 2013. The contractor finished Glenwild Avenue on October 15, 2013. This unnecessary delay by the contractor caused significant hardship on the parents and students of Samuel R. Donald School, Bloomingdale.

Re: Encroachment into Existing Passaic County Right-of-Way
City of Paterson, Block: 6710 Lot: 21

Dear Members of the Board:

This Office received the attached Encroachment Permit Application, requesting the continuance of existing encroachments at the property at 907 Main Street in the City of Paterson. The encroachments are detailed below.

The encroaching features consist of the following:

a) Existing Building, Cellar Door, Building Overhang, Fire Escape, Canopy

The Passaic County Planning Board issued a review letter on the site plan No. SP 16-002 on January 21, 2016; one of the comments being that the applicant receive an encroachment permit. This request and the accompanying encroachment plan have been reviewed and recommended for approval by the Public Works Committee at its meeting of March 7, 2016.

Therefore, I recommend that the Board of Chosen Freeholders adopt the necessary Resolution authorizing the establishment of an encroachment as described above at this location, with any restrictions as stipulated above and contained within the Conditions of Approval as noted on the Encroachment Permit Application, and that the Office of County Counsel prepare any necessary Agreements between the County of Passaic and the Owner for these encroachments.

Job Scope: Remediation and Delineation of LNAPL for 5000 gallon #2 Heating Oil UST  
Job Site: Preakness Health Care Center  
Proposal No. TS-20529  

Dear Mr. Edmund;

T. SLACK ENVIRONMENTAL SERVICES, INC. (TSES) is pleased to submit the following proposal for your review. The scope of work is in accordance with existing New Jersey Department of Environmental Protection (NJDEP) and Bureau of Underground Storage Tanks (BUST) Regulations.

SCOPE OF WORK:

1. TSES will mobilize to the Site a Ground Penetrating Radar Service, who in conjunction with several electromagnetic locator tools, will map the underground utilities and sub surface features prior to the installation of any additional monitor wells.

2. TSES will mobilize an air rotary AMS drill rig with a NJ Licensed Driller to install (4) 4-inch monitoring wells to an average depth of (20) feet below surface grade at select locations to delineate and/or recover LNAPL present. All drilling spoils will be drummed and transported off-site for recycling.

3. Each monitor well will be surveyed by a NJ Licensed Surveyor who will provide scaled Form B Well Location Forms. Our LSRP will prepare and complete the Form A Monitor Well As-Built Forms.

4. After two weeks, TSES will return to the Site and collect a discrete ground water sample from each well and test for Volatile Organics (EPA Method 8260) and Base Neutral Organic SIMS (EPA Method 8270). Ground water elevations and LNAPL thickness will be gauged and logged along with all other appropriate field measurements.

5. LNAPL will continue on a bimonthly basis by initiating an EFR (Enhance Fluid Recovery) event for a four hour period. Impacted ground water will be transported off-site same day.

6. Once the LNAPL no longer appears in any of the site wells, TSES will return to the Site and collect second round of discrete ground water from each well and test for Volatile Organics (EPA Method
8260) and Base Neutral Organic SIMS (EPA Method 8270). If the data collected is favorable a second confirmatory round will be collected within 30 days. Ground water elevations and LNAPL thickness will be gauged and logged along with all other appropriate field measurements.

7. The project goal is the submission of a Remedial Investigation – Remedial Action Report accompanied by an Unrestricted Use – Response Action Outcome.

8. All wells will be abandoned by a NJ Licensed Driller at the end of the project. Well abandonment costs have been included as a separate line item.

COST ESTIMATE:

- Underground Utility Location and Mapping Services: $1,500.00/event
- Installation of (4) 4" Monitor Wells: $14,495.00
- Monitor Well Survey and Completion of Form A&B: $1,600.00
- Ground Water Sampling (3 wells, 3 events): $7,500.00
- Remedial Investigation/Remedial Action Report with LSRP Forms: $3,500.00
- Well Abandonment: $600.00/well

TOTAL: $32,095.00

SCHEDULING: Project can be initiated within five (5) working days.

PAYMENT TERMS: Partial Invoicing at completing of each task against County issued purchase Order

REVIEW FEE: Pursuant to the Site Remediation Reform Act (SRRA) and Licensed Site Remediation Professional Program, N.J.A.C. 58:10C which will become effective May 7, 2012, all environmental work must be conducted by a LSRP and reviewed by the NJDEP. In association with the removal of USTs in which no discharge (Site Investigation Report) of a Hazardous substance has occurred the review fee will be determined upon tank(s) removal and site investigation. If a discharge of a hazardous substance has occurred (Remedial Investigation Report) the appropriate review fee will be determined upon completion of remedial work and number of areas of concern (AOC). This fee is the responsibility of the client and is to be made payable to "Treasurer, State of New Jersey" and is to be submitted along with your Site Investigation/ Remedial Investigation Report as well as the Response Action Outcome Letter (RAO) prepared by the LSRP.

DISPUTES: Any dispute or disagreement which cannot be resolved by the parties and any controversy, claim or dispute otherwise arising out of or in connection with this agreement, or the breach thereof, or otherwise arising from the project, shall be settled under the rules of the American Arbitration Association. Arbitration proceedings shall be held in Kenilworth, NJ, U.S.A., or such other place as is mutually acceptable to both parties. The award in any arbitration proceeding shall be final and binding upon all parties and judgment thereon may be entered in any court of competent jurisdiction upon application of either of the parties. In the event T. Stack Environmental Services, Inc. shall be required to institute litigation and/or arbitration proceedings to enforce the terms of this agreement, or any such matters are placed in the hands of an attorney,
T. Slack Environmental Services, Inc. shall be entitled to reimbursement of reasonable attorney fees, interest and all costs of suit and/or arbitration proceedings.

MEMORANDUM

TO: Passaic County Open Space Advisory Committee
FROM: Michael Lysicatos AICP, PP - Assistant Director
Cc: Michael La Place AICP, PP - Planning Director
DATE: February 25, 2016
RE: Pompton Lakes Train Station - Supplemental Information

This memo serves as supplemental information regarding possible future plans to acquire the historic Pompton Lakes Train Station, as referenced in previous planning studies involving the Passaic County Department of Planning and Economic Development.

The Pompton Lakes Transit Access Study highlights transit demand and explores the scale and types of potential transit services and facilities that would support the short-, medium- and long-term development needs in the Pompton Lakes Downtown Redevelopment Area. The study was completed in March 2015 as part of the Together North Jersey effort to develop a Regional Plan for Sustainable Development for North Jersey through a partnership between Passaic County, Pompton Lakes, NJ Transit and the North Jersey Transportation Planning Authority. One of the specific recommendations of the study was to consider development of a bus/train terminal. (Page 64 of the plan). The implementation and next steps of the plan made the following recommendation: "A bus terminal can provide a location for several types of passenger amenities. Ticketing machines and seating would be available in such a scenario, in a weather protected setting. In addition, since a layover location for buses is often needed, a bus depot would provide a safe and convenient place for buses to park. The historic train station along Wanaque Avenue could provide a location as a bus terminal where there would be ample space for weather-protected ticketing machines, monitors with schedules posted and racks of timetables. The historic use as a train station would reinforce the association of the new transit use with potential commuters and provide a hub for a potential transit feeder loop. This location could also serve as a logical commuter connection if passenger rail service is restored in the future."

BE IT ORDAINED by the Board of Chosen Freeholders of the County of Passaic, State of New Jersey (not less than two-thirds of all members thereof affirmatively concurring), as follows:

Section 2. The sum of $3,000,000 is hereby appropriated to the payment of the cost of making the improvements described in Section 1 hereof (hereinafter collectively referred to as "purpose"). Said appropriation shall be met from the proceeds of the sale of the bonds authorized by this ordinance. No down payment is required pursuant to the provisions of N.J.S.A. 18A:64A-19(2)(b). It is hereby determined and stated that the County has been notified that it will receive debt service aid from the State of New Jersey ("Chapter 12 State Aid") pursuant to Chapter 12 of the Laws of 1971 of New Jersey (N.J.S.A. 18A:64A-22.1 et seq.; the "County College Bond Act") for the improvements. Chapter 12 State Aid received shall be applied to the payment of one-half of the principal and interest on bonds or notes issued by the County for such improvements. Said improvements shall be made as general improvements and no part of the cost thereof shall be assessed against property specially benefited.

Section 3. It is hereby determined and stated that (1) said purpose is not a current expense of said County, and (2) it is necessary to finance said purpose by the issuance of obligations of said County pursuant to the Local Bond Law and
the County College Bond Act, and (3) the total estimated cost of

interest at a rate per annum as may be hereafter determined
within the limitations prescribed by law. All matters with
respect to said bonds not determined by this ordinance shall be
determined by resolutions to be hereafter adopted.

Section 5. To finance said purpose, bond anticipation
notes of said County of an aggregate principal amount not
exceeding $3,000,000 are hereby authorized to be issued pursuant
to the Local Bond Law and the County College Bond Act in
anticipation of the issuance of said bonds. In the event that
bonds are issued pursuant to this ordinance, the aggregate amount of notes hereby authorized to be issued shall be reduced by an amount equal to the principal amount of the bonds so issued. If the aggregate amount of outstanding bonds and notes issued pursuant to this ordinance shall at any time exceed the sum first mentioned in this section, the moneys raised by the issuance of said bonds shall, to not less than the amount of such excess, be applied to the payment of such notes then outstanding.

Section 6. Each bond anticipation note issued pursuant to this ordinance shall be dated on or about the date of its issuance and shall be payable not more than one year from its date, shall bear interest at a rate per annum as may be hereafter determined within the limitations prescribed by law and may be renewed from time to time pursuant to and within limitations prescribed by the Local Bond Law. Section 8. It is hereby determined and stated that the Supplemental Debt Statement required by the Local Bond Law has been duly made and filed in the office of the Clerk of the Board of Chosen Freeholders of said County, and that such statement so filed shows that the gross debt of said County, as defined in Section 43 of the Local Bond Law, is increased by this ordinance by $3,000,000, but $1,500,000 shall be deducted from gross debt and shall not be considered in determining the County's net debt for debt incurring purposes pursuant to N.J.S.A. 18A:64A:22.4, and that the issuance of the bonds and notes authorized by this ordinance will be within all debt limitations prescribed by said Local Bond Law.

Section 9. Any funds received from the State of New Jersey or any of its agencies or any funds received from the United States of America or any of its agencies in aid of such
purpose (except for any Chapter 12 State Aid which shall be applied directly to pay debt service, rather than project costs, and shall not reduce the amount of bonds authorized), shall be applied to the payment of the cost of such purpose, or, if bond anticipation notes have been issued, to the payment of the bond anticipation notes, and the amount of bonds authorized for such purposes shall be reduced accordingly.
