Dated: May 11, 2016
WHEREAS a significant number of puppies and kittens sold at pet shops come from large-scale, commercial breeding facilities where the health and welfare of the animals are not adequately provided for ("puppy mills" and "kitten mills", respectively). According to The Humane Society of the United States, it is estimated that 10,000 puppy mills produce more than 2,400,000 puppies a year in the United States and that most pet shop dogs and cats come from puppy mills and kitten mills; and

WHEREAS the documented abuses endemic to puppy and kitten mills include overbreeding, inbreeding, minimal to non-existent veterinary care, lack of adequate and nutritious food, water and shelter, lack of socialization, lack of adequate space, and lack of adequate exercise; and

WHEREAS the inhumane conditions in puppy and kitten mill facilities lead to health and behavioral issues in the animals bred in those facilities, which many consumers are unaware of when purchasing animals from pet shops due to both a lack of education on the issue and misleading tactics of pet shops in some cases. These health and behavioral issues, which may not present themselves until sometime after the purchase of the animals, can impose exorbitant financial and emotional costs on consumers; and

WHEREAS current Federal and State regulations do not adequately address the sale of puppy and kitten mill dogs and cats in pet shops; and
WHEREAS restricting the retail sale of puppies and kittens to only those that are sourced from shelters or rescue organizations and not purchased from brokers, puppy mills, hobby breeders with violations, or any profit organizations other than hobby breeders in good standing is likely to decrease the demand for puppies and kittens bred in puppy and kitten mills and is likely to increase demand for animals from animal shelters and rescue organizations; and

WHEREAS according to the New Jersey Department of Health 2014 Animal Intake and Disposition Survey, due in large part to pet overpopulation, more than 20,000 dogs and cats are euthanized in New Jersey animal shelters annually. Restricting the retail sale of puppies and kittens to only those that are sourced from animal shelters and rescue organizations will likely reduce pet overpopulation and thus the burden on such agencies and financial costs on local taxpayers; and

WHEREAS across the country, thousands of independent pet shops as well as large chains operate profitably with a business model focused on the sale of pet services and supplies and not on the sale of dogs and cats. Many of these shops collaborate with local animal shelters and rescue organizations to offer space and support for showcasing adoptable homeless pets on their premises; and

WHEREAS the Passaic County Board of Chosen Freeholders does not want to affect a consumer's ability to obtain a dog or cat of his or her choice directly from a breed-specific rescue organization or a shelter, or from a hobby breeder within the State of New Jersey where the consumer can see directly the conditions in which the
dogs or cats are bred, or can confer directly with the hobby breeder concerning those conditions; and

WHEREAS the said Board, however, does believe that it would be in the best interest of the citizens of Passaic County and all New Jersey residents for municipal and local health boards to adopt reasonable regulations to reduce costs to Passaic County residents and at the same time protect those residents who may purchase cats or dogs from pet shops and other establishments, help prevent inhumane breeding conditions and treatment, promote community awareness of animal welfare and foster a more humane environment for treatment of all pets in this County; and

WHEREAS this matter was reviewed by the Freeholder Committee for Finance & Administration at its April 27, 2016 meeting at which time this Resolution was recommended to the full Board.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby urges the Governor and the New Jersey Legislature to adopt legislation that would allow local health agencies to take the necessary steps to ban the sale of dogs and cats that come from large-scale commercial breeding facilities (puppy and kitten mills).

BE IT FURTHER RESOLVED that the said Board hereby joins with other New Jersey counties and municipalities in calling on elected officials serving New Jersey at all levels of government to work in concert to regulate sales of animals from puppy and kitten mills.
BE IT FURTHER RESOLVED that the Clerk to the Board shall forward a certified copy of this Resolution to Governor Chris Christie, President of the New Jersey State Senate, the Speaker of the General Assembly, New Jersey’s United Senators, Passaic County Legislative Delegation, all Passaic County municipalities, the New Jersey Association of Counties, the New Jersey League of Municipalities, the Attorney General of the State of New Jersey and all other Boards of Chosen Freeholders.

April 20, 2016

Honorable Freeholders:

On behalf of the Humane Society of the United States (HSUS), the nation’s largest and most effective animal protection organization, I am writing in support of a potential Passaic County puppy mill sales resolution.

We have worked directly with many of the 140 localities across the country that have enacted pet shop ordinances and are willing and eager to work with you.

As of date, pet shop ordinances have been upheld on constitutional grounds 6 times in 5 federal district courts (in Rhode Island, Florida, Arizona, New York and twice in Illinois) and once in Florida state court, and have never been struck down.

Pet stores ordinances protect consumers

The HSUS has conducted numerous hidden-camera investigations which consistently reveal that pet stores supply unsuspecting consumers with puppies from inhumane large-scale commercial breeders, despite claims by pet stores that they would “never obtain dogs from puppy mills.”

Across the board, pet stores claim that they obtain animals from small-scale, humane breeders. The reality is that pet stores do not have the option to obtain dogs from responsible breeders because responsible breeders do not sell puppies to pet stores. The HSUS reviewed Codes of Ethics for the National Breed Clubs representing all 178 dog breeds recognized by the AKC, and found that 96% of those National Clubs include statements to the effect that their breeders should not and/or do not sell to pet stores.

Pet store puppies are often sick and have behavioral problems

At the HSUS, we receive a constant stream of complaints from consumers who have spent thousands of dollars in veterinary bills caring for their sick pet store puppies. Puppies in pet stores are often sick because they are born into deplorable conditions, taken from their mothers very early, exposed to a wide range of diseases, and very susceptible to genetic disorders. Yet, repeatedly, customers report that pet shops claim all their animals are healthy and come from only the highest quality breeders.

A 2013 study published in the Journal of American Veterinary Medicine, entitled “Differences in behavioral characteristics between dogs obtained as puppies from pet stores and those obtained from noncommercial breeders,” concluded that obtaining dogs from pet stores versus noncommercial breeders represented a significant risk.

factor for the development of a wide range of undesirable behavioral characteristics, especially aggressive behavior and biting. Due to the results of the study, the authors stated that they cannot recommend that puppies be obtained from pet stores.

Pet shop ordinances are business friendly

Pet shop ordinances are designed to require pet shops to obtain animals from humane sources, not to put pet stores out of business. In fact, the largest and most successful pet store chains in the country (PetMart and PetCo) do not sell puppies. The HSUS works directly with pet shops willing to switch to the humane model, where they only acquire dogs from shelters and rescues. We have seen many pet shops thrive on this new model. In fact, initial successes have led us to create specifically designed programs to assist pet store owners seeking transition to the humane model.5

Pets Plus Natural, with 10 stores throughout NJ and PA, used to sell commercially-raised puppies but switched to the humane model after learning of the high kill rates in some shelters. The owners decided to become part of the pet overpopulation solution rather than continuing to add to the problem. As of date, they have adopted out nearly 2,000 rescue animals and business is thriving. The owners credit their success to having a much better reputation in the community.

Similarly, in the Los Angeles area, Pet Rush is thriving and expanding to new locations. The owner, Rene Karapedian explains: “Dogs sold in pet stores come from puppy mills. We should not support puppy mills….I switched over to what I call the “humane model”—animal adoption instead of animal sales…Most of these shelters that I go pick up dogs from, they are putting down anywhere from 50 to 70 dogs a day. So this is one way to stop that from happening.”

Pet shop ordinances support responsible breeders

Pet shop ordinances prohibit the sale of pet shop dogs acquired from puppy mills. Ordinances do not affect responsible breeders. We find that across the country responsible breeders are in favor of pet shop ordinances because they understand better than anyone how horrible the pet shop and puppy mill industries are for dogs and consumers. Responsible breeders would never sell their puppies to pet shops because responsible breeders want to know where their puppies will end up.

The HSUS established a Breeder Advisory and Resource Council (BARC)6, comprised of responsible dog breeders from around the nation who share an interest in curbing the mistreatment of dogs in puppy mills. Even the AKC, who is funded by the puppy mill industry, agrees with the HSUS and responsible breeders everywhere, that “the best way for a person to obtain a new pet is through personal interaction with the pet’s breeder and the pet under consideration.” When purchasing a puppy from a pet store, this is simply not possible.

Pet shop ordinances support shelters and rescues

Pet shop ordinances support shelters by encouraging consumers to adopt and requiring pet stores to obtain dogs from shelters and rescues, rather than from puppy mills. Also, ordinances lessen the burden on shelters that take in pet store dogs. Many pet store dogs end up in shelters because they come with a wide range of behavioral problems—a result of a lack of necessary socialization. Data shows that shelter intake and euthanasia rates decline in cities that prohibit the sale of puppy mill dogs. In some cities, such as Albuquerque, NM and Los Angeles, CA these declines are dramatic.
Federal and state laws do not protect consumers or dogs. Pet stores often claim that they do not obtain dogs from puppy mills because they only source from USDA certified facilities. But, as the USDA explains on its website's FAQ page, "we do not "certify" establishments... a USDA license is not a "seal of approval" but rather a legal designation that a facility has successfully passed its pre-license inspection and is legally entitled to use regulated animals for regulated activities." The USDA has repeatedly asserted that their regulations and standards are minimum requirements that should be built upon by the states and that regulated businesses should exceed.

Moreover, the last time the USDA audited itself, the Inspector General reported that the USDA does a horrible job of enforcing these minimum standards. The USDA "was not aggressively pursuing enforcement actions against violators" and "assessed minimal monetary penalties" against violators.

USDA standards allow commercial breeders to keep dogs in cramped, stacked, wire cages for their entire lives. The USDA does not require that dogs be regularly let outside of their cages for exercise, nor does it mandate socialization. Dogs can be kept in extreme temperatures for prolonged periods of time. Females are bred as early and often as possible and personnel without veterinary training often perform surgical births. Breeders are not required to vaccinate dogs from many highly infectious deadly diseases or to provide regular veterinary care. When dogs are no longer able to reproduce, breeders often abandon or inhumane euthanize them. Thus, even if a breeder complies with all USDA requirements, a breeder can keep animals in extremely inhumane conditions.

A USDA license does not make a puppy mill something other than a puppy mill.

In September 2015, The HSUS, along with the Humane Society Veterinary Medical Association and the American Society for Prevention of Cruelty to Animals, submitted a petition to the USDA, asking the agency to promulgate new rules to address all of the aforementioned welfare concerns. Unfortunately, the pet store industry has failed to endorse these much needed improvements.

Conclusion

The morals and values of Passaic County cannot be represented by allowing the sale of dogs from puppy mills — an industry so intrinsically linked to unnecessary animal suffering. Pet store customers should not be duped into supporting the cruel puppy mill industry and into buying sick and behaviorally challenged puppies. Passaic County residents should not have to accept the importing of puppies from puppy mills while their tax dollars are spent sheltering and euthanizing dogs for which there are no homes.

Thank you for considering such an important ordinance.

Sincerely,

Amy Jesse

RESOLUTION RETAINING INSURANCE CONSULTANT FOR ADMINISTRATION AND BILLING FOR RETIREE AND COBRA PARTICIPANTS

WHEREAS the County of Passaic retains the firm of Brown & Brown Metro, Inc. of Roseland, New Jersey to offer advice and assistance in the operation of the Passaic County self-funded insurance and benefits program under the auspices of the County of Passaic Self Insurance Commission which has been established under N.J.S.A. 40A:10-6 et seq.; and

WHEREAS as a result of discussions at several Insurance Commission meetings last year, Brown & Brown developed proposal specifications and solicited proposals from third party vendors to administer premium billing and collection services from retirees, early retirees, disabled retirees and COBRA participants who are enrolled in the County of Passaic Self-Funded Benefits Program; and

WHEREAS said Brown & Brown solicited proposals from seventeen (17) vendors, received five (5) responses and, by letter dated August 17, 2015, recommended that the County of Passaic, through the said Insurance Commission, retain the services of O.C.A. Benefit Services, LLC of Mercerville, New Jersey for the sum of $39,277.20 to handle billing and administration for retiree and COBRA participants (copy of letter and proposal attached hereto and made a part hereof); and

WHEREAS the purchase of insurance consultant services is an exception under the Local Public Contract Law pursuant to N.J.S.A. 40A:11-5(1)(m) and does not have to be procured in accordance with that Law; and
WHEREAS the said Board, by Resolution 06-97 dated February 14, 2006, established a policy of only awarding contracts in excess of the monetary threshold set forth under the Pay to Play Law only under a fair and open process; and

WHEREAS the Board is desirous of making an exception to that policy because of the unique circumstances of this case; and

WHEREAS the Local Public Contracts Law, N.J.S.A. 40A:11-1 et seq., requires that the resolution authorizing the award of contract for exempt services and the contracts themselves must be available for public inspection; and

WHEREAS the County of Passaic Self-Funded Insurance Commission reviewed this matter at its meeting of May 5, 2016 and recommends that this agreement be awarded as an exempt service with the understanding that the recipient has not made nor will make political contributions as set forth under the Campaign Contributions and Expenditures Reporting Act (N.J.S.A. 19:44A-1); and

WHEREAS a certification is attached which indicates that funds are available for the within contemplated expenditure.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that the Board hereby authorizes an agreement by and between the County of Passaic and O.C.A. Benefit Services, LLC for administration and billing services for retirees and COBRA participants in the County of Passaic health benefits program for a one (1) year period effective immediately through May 9, 2017.

Re: Retiree Billing and Cobra Administration Services

Dear Tony:

As we have discussed at prior Insurance Committee meetings, the complexities of Chapter 78 necessitates that it is in the best interest of the County of Passaic to engage a third party vendor to administer premium billing and collection for regular retirees, early retirees, disabled retirees and Cobra participants.

Brown & Brown developed the necessary proposal specifications and solicited quotations from seventeen (17) vendors of which Five (5) vendors responded with proposals. The proposals were reviewed by our office with particular consideration given for cost of service, capabilities of organization, ease of use, technology and quality account management services.

All quotes provided offered the basic services required for the requested services, however after our review the O.C.A. Benefit Services stood above the rest by offering the most comprehensive and cost effective proposal. The costs for both retiree billing and collection along with cobra administration is projected to come in at an estimated $38,000 annually with services to begin on September 9, 2015.

Should you have any questions or comments or need further detail, please do not hesitate to contact me at 973-549-1935 or email at tfletcher@bbmetro.com.

Sincerely,

Thomas C. Fletcher
Vice President
Passaic County

COBRA-Retiree Billing Proposal

Presented by
Brown & Brown

2015
In 1983 O.C.A. Benefit Services opened its doors with one goal: to help people. Since then O.C.A. has grown to a national TPA, servicing over 100,000 lives across the United States.

O.C.A. Executive Summary

For more than 30 years, O.C.A. Benefit Services, LLC (O.C.A.) has been a leader in the employee benefits arena with a commitment to customer service through creative and cost effective benefit plan designs. We are not just an administration company, but rather an “Employee Benefits Delivery Organization” established to provide employers, agents, brokers, and plan participants with the most cost effective and efficient benefit packages available.

We believe that quality healthcare is actually less expensive to deliver than poor quality healthcare.

While we recognize the very nature of human behavior is to resist change, we also need to embrace the reality that Consumer Empowered Health Plans (CEHP) are the cure to rising healthcare costs and poor quality health care delivery. Our approach is candid, open, and honest. We believe in setting fair and reasonable expectations with all the parties involved.

We understand that keeping the process easy is critical to the implementation of the program, but we also understand that sacrificing compliance will eventually catch up with a client in direct or hidden costs. Our role is more than just a Third Party Administrator, but as a portal of reliable information and education. The Plan Participant will once again be engaged as a consumer of health care.

We thank you for your interest in learning more about our administrative services. Please do not hesitate to contact us with any questions.

Sincerely,

Stephen Honig
President, O.C.A. Benefit Services
O.C.A. administrative services. In 1986 began offering FSAs. In 2004 we wrote our first HRA case. In 2007 we began offering COBRA, Wellness, & Parking/Transit administration.

The Services We Offer...

O.C.A. Benefit Services offers a complete suite of Administrative Services including: Plan Design Consultation, HRA Administration, Cafeteria Plan Administration (POP/FSA/DCAP), HSA Administration, COBRA/Retiree Billing Administration, Parking/Transit Administration, and Wellness. With any employee benefit program, plan design is the first, and probably the most important step in creating an effective program. Each worksite situation is unique, so the key is to design a plan to achieve your specific goals.

In the United States, the cost of health insurance is not with the cost of health insurance. The problem is with the cost of health care. Until we control the cost of care, we will never gain control over the cost of the program.
Congress passed Consolidated Omnibus Budget Reconciliation Act (COBRA) health benefit provisions in 1986. The law amends the Employee Retirement Income Security Act, the Internal Revenue Code and the Public Health Service Act to provide continuation of group health coverage that otherwise might be terminated.

What does O.C.A. Stand for...

Organize \[ \rightarrow \] Cooperate \[ \rightarrow \] Act

What is COBRA...

The Consolidated Omnibus Budget Reconciliation Act (COBRA) gives workers and their families who lose their health benefits the right to choose to continue group health benefits provided by their group health plan for limited periods of time under certain circumstances such as voluntary or involuntary job loss, reduction in the hours worked, transition between jobs, death, divorce, and other life events.

Why Choose O.C.A.?

As we learn more about the Patient Protection and Affordable Card Act (PPACA), compliance with COBRA and state laws continues to be a challenging task, and errors or omissions may result in fines, tax penalties and lawsuits. Therefore, many employers are following the trend and are turning to professional administrators for their COBRA continuation services. O.C.A. currently provides Federal COBRA administration as well as State Continuation Coverage for NJ, NY, & CT. Administration through O.C.A. Benefit Services can save your organization time, money, in-house training and potential costly errors.

Our billing solution is an acknowledged leader in the administrative world. After listening to the real-world needs, we created a system with costless functionality that provides our client base with a reliable administrative solution.
Did you know that to be eligible for COBRA coverage, the employee must have been enrolled (at the time of the QE) in the employer's health plan when the employee worked and the health plan must continue to be in effect for active employees.

O.C.A.'s COBRA/Retiree Billing Administration...

O.C.A. Benefit Services offers employers complete administration and management services for benefits mandated under Federal COBRA laws as well as State Continuation for NJ, NY, & CT. If your organization had 20 or more employees on at least half of your regular business days in the last calendar year AND you currently provide a group health plan, then your organization is subject to COBRA. Keep in mind that both full and part-time employees are considered to determine State of Federal qualifications.

*Group health plans include the following benefits:

- Medical insurance
- Dental insurance
- Vision insurance
- Medical reimbursement flexible spending accounts
- Employee Assistance Program (EAP) that provides more than referrals
- Prescription drug plan
- Wellness
- HRAs/FSAs

(*Under State Continuation only Medical Insurance needs to be offered)

O.C.A.'s COBRA and Retiree Billing Administration Services include...

- Transfer of liability from your organization
- Full internet-based service capabilities through 24/7 secure online portal
- Initial Notices
- Qualifying Event notification to Qualified Beneficiaries and their Qualifying Dependents
- COBRA election processing
- COBRA payment invoicing and collection by issuing payment coupons to participants
- COBRA premium reimbursements to employers
- Conversion & Termination Letters
- Rate Change Notices & Open enrollment support
- Standard monthly reporting for ARRA Subsidy premium reduction reimbursement
- Handling of all employer and ex-employee questions related to COBRA

With O.C.A.'s Retiree Billing solution, we can handle any payment structure, benefit structure, billing structure and election structure. Our versatile billing platform adapts to a wide variety of specifications.
As the employer, the IRS requires that you must demonstrate that you follow procedures that ensure compliance with the COBRA law. Let O.C.A. handle that responsibility for you.

This matter was discussed at the Public Works Committee meeting on April 25, 2016, and an award of contract to Boswell Engineering is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution awarding a contract to Boswell Engineering in the amount of $10,800.00 for the DPW – Nike Base NJDEP Letter of Interpretation (LOI) subject to the availability of funds.

1310 Route 23 North  
Block 1400, Lot 28  
Township of Wayne  
Passaic County, New Jersey  
Our File No. PR-16-7223

Dear Mr. Edmond:

Boswell Engineering (Boswell) is pleased to provide this proposal for the necessary environmental services at the above referenced site.

It is our understanding that the County is interested in determining the upland/wetland boundary of a 34-acre former NIKE Missile Base (NIKE Battery NY-88) currently utilized by various County services. The site consists of various parking areas/access roads, one (1) 9,000 sf. brick office building, one (1) 8,000 s.f. metal building, several smaller structures (sheds and garages) and 25+ acres of undeveloped forested land. The County is proposing to redevelop the site with new facilities to better realize the parcel’s highest and best use.

A Letter of Interpretation Line Verification (LOI) from the New Jersey Department of Environmental Protection (NJDEP) is required before any other steps can be taken towards the development of this property. This legal document will verify the exact limits of the existing freshwater wetland systems and State open water present throughout the property, as well as establishing a resource value classification, which determines
the necessary buffer requirements or associated transition and riparian buffers. Once an LOI is obtained from the NJDEP it can be utilized for future planning and site development.

Scope of Work

Boswell will provide all labor and materials required to prepare a New Jersey Department of Environmental Protection (NJDEP) Letter of Interpretation (LOI) Line Verification application to the NJDEP Division of Land Use Regulation. The major components of the LOI will include the following:

- Identify and delineate freshwater wetlands within the site’s limits and 150-feet from the property boundaries.

- Prepare the required wetland reports and documentation for submission to the NJDEP.

- Acquire a NJDEP LOI confirming the full extent of property’s freshwater wetlands and transition areas.

We will conduct the wetlands investigation within the project limits in order to characterize the site’s existing conditions.

Task No. 1: Freshwater Wetlands and State Open Waters Identification and Delineation

Wetland delineation field inspections are typically performed during the months of March to November for accurate vegetation and hydrology analysis. We will identify and delineate regulated freshwater wetlands and State Open Waters within the project limits. We will also identify and delineate freshwater wetlands on adjacent properties within 150-feet of the site’s boundary. We will follow the protocol dictated by the Federal Manual for Identifying and Delineating Jurisdictional Wetlands, 1989 (Federal Manual). The NJDEP considers the Federal Manual appropriate for delineating wetlands in New Jersey.

The Federal Manual requires a review of three (3) mandatory technical criteria for wetlands identification:

1. The presence of hydrophytic vegetation;
2. The presence of hydric soils; and,

3. The presence of wetlands hydrology.

Wetlands boundary determination will, in part, be based on the change of one (1) or more of these three (3) factors existing in a given area.

Since no standard manual has been issued for the identification and delineation of State Open Waters, we will identify and delineate these areas by approximating the water feature limits. Typically, identifying a high water line is a generally accepted practice for delineating State Open Waters.

In order to determine the possible location of transitional areas on the subject property, we will also investigate an area extending 150-feet into adjacent properties from the subject site. We will collect and document all field information on data forms in accordance with regulatory agency requirements.

Our estimated fee for the work referenced under Task 1 is $1,800.00.

Task No. 2: Wetland Flag Location

Under Task 2 we will survey the wetland flag locations and input the information into a computer aided drafting (CAD) program. This data will be integrated into an existing Boundary & Topographic Survey recently prepared by Boswell in order to prepare a Wetland Delineation Survey for submission to the NJDEP.

Our estimated fee for the work referenced under Task 2 is $2,000.00.

Task No. 3: Wetlands Delineation Report

Under Task 3 we will prepare a Wetlands Delineation Report documenting the procedures and data collected to identify wetlands and State Open Waters. The report will comply with the requirements of N.J.A.C. 7:7-8.2(c) 2, 5, 6, 7, 8 and 9.

The report will include, but not be limited to, the following:

1. Description and a location map of the subject site.
2. Description of the methodologies used to identify and delineate wetlands in the study area.

3. A discussion of the study area map information.

4. Data forms from the Federal Manual and other information collected.

5. Vegetation species observed and their indicator status, soil borings, and hydrology of the local area.

6. The identification (type of wetlands delineated and their general characteristics) and an assessment of the resource value classification for subject wetlands.

7. Color photographs of the wetlands areas showing typical upland and wetland locations.

8. Names and qualifications of the report's preparers.

Our estimated fee for the work referenced under Task 3 is $4,000.00.

Task No. 4: NJDEP Letter of Interpretation Application

Upon completion of the wetlands and/or State Open Waters delineation we will prepare a NJDEP LOI application pursuant to the Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A-8). The NJDEP LOI will verify the wetlands and State Open Waters boundaries on the property. The application will comply with the submittal regulations set forth in N.J.A.C. 7:7A-8(c), as well as the NJDEP LOI application guidance materials.

Major components of the LOI application include:

1. DLUR Application Form.

2. Cover letter noting application contents, property owner's name, as well as the property's lot and block designation.

3. Wetlands Delineation Report as previously described.

4. Proof of notification of appropriate individuals and agencies.

5. Application fee calculated pursuant to N.J.A.C. 7:7A-16.
5. Wetlands resource value classification discussion.

7. Written authorization from the property owner to allow access to their property by NJDEP representatives.

8. Certified list of names and addresses of landowners within 200-feet of the subject property.

9. List of figures including environmental constraints, bedrock, land use and location maps.

As part of the LOI application, we will also request a search of the NJDEP Natural Heritage Data Base. We will review the search results for any records of threatened or endangered species on or in the vicinity of the property. The information will be used to support a resource classification evaluation of the identified wetlands features on the site as well as the adjacent property for a transition area width determination.

On behalf of the County, we will then submit the completed application and five (5) copies to the NJDEP. We will also forward a complete copy of the application to the Township of Wayne. Following the application’s submission, we will monitor the progress of the LOI and attend up to two (2) field visits to the project site with the NJDEP to verify accuracy of wetlands/State Open Waters delineated.

The completion of the LOI application will depend on the receipt of several items, including the application fee, receipt of authorization to access adjacent properties and other items noted within the proposal. Naturally, we will remain in frequent contact with the NJDEP review staff in an effort to expedite scheduling of the site inspection and issuance of the LOI.

Our estimated fee for the work referenced under Task 4 is $2,000.00.

Task No. 5: Reimbursable Expenses

As part of this contract, postage (certified mail and FedEx) and reproduction costs will be invoiced as direct expenses to the County and are estimated to be $1,000.00. We based our certified mail cost estimate upon a cursory review of the property’s boundary on the NJDEP
GIS database system. The exact cost is predicated upon the actual number of properties located within 200' of the site.

NJDEP Review Fee

Additionally, please note that due to the size of the property in question, the NJDEP review fee will be approximately $4,400.00. This fee is calculated according to the overall size of the property as follows:

Base Fee ($1,000) + $100/acre (34 acres x $100 = $3,400) \rightarrow \$4,400.00

Boswell will furnish the review fee to the "Treasurer, State of New Jersey," as part of the final LOI package. The permit review fees will be reimbursed by the County as an out of contract expenses.

ESTIMATED FEE

We shall provide the environmental consulting services set forth in the Scope of Work. The fee is determined on a time and expense basis in accordance with the Boswell standard fee schedule in effect at the time the work is performed.

The estimated fees for the environmental services described above are as follows:

2. REASON FOR CHANGE

Item 14, 24, 26, 28, 32, 38, 47, 48, 49
As-built quantities as per measurements done in the field by inspector and contractor, which pertain to the final measurements and quantities of work done

Item S-1
In order to comply with ADA specs/standards for a Rectangular Rapid Flashing Beacon System. A larger foundation was needed in order to support the larger aluminum pedestrian poles that were necessary. A smaller foundation was initially anticipated, therefore this is the cost difference.

Item S-2
After field inspection it was determined that two existing Type A (Item 20) Inlets originally determined were actually Type B Inlets, therefore this is the price differential between Type A & Type B Inlet Reconstruction.

Item S-3, S-4 & S-5
Do to a delay of work because of a change from the original design where an extra signal was needed. Items S-3, S-4 and S-5 were all caused by this change, therefore contractor is requesting payment for Time and Material do to the design change.

Item S-6
Repair to a damaged/broken Rapid Flashing Beacon system (Reimbursement will be issued by the City of Passaic)

Subject: NJDEP fish tissue sampling on Barbour Pond, Garret Mountain Reservation

To whom it may concern,

The New Jersey Department of Environmental Protection will be conducting sampling on lakes across NJ to collect fish to be analyzed for mercury in fish tissue. Barbour Pond was selected for sampling, all lakes in this study were randomly selected by a computer program and were not targeted for any reason. A total of 5 largemouth bass will be sampled for mercury in their fish tissue via a 8mm biopsy punch. The biopsy punch will remove a small amount of tissue from the fish and then the fish will be released back into the lake alive. The sampling would entail launching a small gas driven motor boat from the bank (location of your choice), that is outfitted with a generator and electrofishing equipment. The boat will be driven around the lake while electrofishing and stunned fish of the selected species will be netted and captured to obtain a mercury sample. The entire sampling should not exceed 4 hours.

At this time we are seeking your approval to conduct sampling on Barbour Pond. We are looking to conduct sampling in July or August 2016. If there is a preferable time that you would like us to sample please let us know (i.e. after Labor Day). If you have any questions feel free to reply to this email or call me at the number below.

Thank you for your cooperation.

RESOLUTION AUTHORIZING AN AGREEMENT BY AND
BETWEEN THE COUNTY OF PASSAIC AND DELUXE
INTERNATIONAL TRUCKS, INC. FOR THE PURCHASE OF
TRUCK PARTS FOR THE PASSAIC COUNTY ROAD
DEPARTMENT FOR CALENDAR YEAR 2016

WHEREAS the County of Passaic owns several older Deluxe
International trucks that often are in need of repair and, in order
to keep them running and operational, it is often necessary to
purchase truck parts from Deluxe International Trucks, Inc.; and

WHEREAS the Passaic County Road Supervisor was
recently notified that purchase of truck parts in the amount of
$37,500.00 from Deluxe International Trucks, Inc. of 600 South
River Street, Hackensack, NJ brought the total amount of
purchases for this year over the monetary threshold established
under the Pay-to-Play Law [N.J.S.A. 19:44A-20.3 et seq.]; and

WHEREAS the Board of Chosen Freeholders of the County
of Passaic by Resolution 06-97 dated February 14, 2006,
established a policy of only awarding contracts in excess of the
monetary threshold set forth under the Pay-to-Play law only
under a fair and open process; and

WHEREAS the Supervisor of Passaic County Roads is
requesting that the said Board make an exception in this case
because of the need for these specific truck parts for the Deluxe
International trucks owned by the County of Passaic [see copy of April 27, 2016 letter attached hereto and made a part hereof]; and

WHEREAS the Freeholder Committee for Public Works and Buildings & Grounds reviewed this matter at its April 25, 2016 meeting and is recommending that the Board make an exception in this case; and

WHEREAS a certification is attached which indicates that funds are available for the within contemplated expenditure.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby authorizes a non-fair and non-open contract to Deluxe International Trucks, Inc. of South Hackensack, New Jersey for the purchase of truck parts for the repair of Deluxe International trucks and vehicles owned by the County of Passaic.

BE IT FURTHER RESOLVED that this contract is being awarded as an exception to the policy of the Board as set forth in its Resolution R-06-97 dated February 14, 2006 because of the special circumstances of this situation and the policy of the Board as set forth in this resolution shall remain in full force and effect; and

BE IT FURTHER RESOLVED that the Director and Clerk of the said Board are hereby authorized to execute the necessary contract on behalf of the County of Passaic if necessary.

Subject: Request for Additional Corridor Enhancement Funds

Freeholders,

I respectfully submit a request for the use of additional corridor enhancement funds for engineering design services for the Paterson Transit Facility Pedestrian Safety Project. You had previously approved $30,000.00 to Boswell Engineering for design services. The design funds are the County's match to a $250,000.00 from an NJDOT Safe Streets to Transit Grant for construction. The final cost proposal from Boswell Engineering came to $38,000.00 due to the complexity of the design and the variety of disciplines needed to meet NJDOT standards. I have attached the proposed cost estimate along with the executed construction grant award. I am asking for formal approval to increase the amount of funding to complete the design from $30,000.00 to $38,000.00. Please respond with your acknowledgment of this information and your approval for advancement to the full Board.

FY 2015 Safe Streets to Transit

Dear Director Lota:

Enclosed is one copy of the executed Agreements approved by the Department of Transportation for the above referenced project in the amount of $250,000.00.

This project will be funded from the New Jersey Transportation Trust Fund Authority Act. State participation in the cost of the project is limited to 100 percent of the cost of the completed construction work including construction supervision, inspection and material testing, or the amount of the allotment, whichever is less.

The construction contract is to be awarded within 24 months from the date of the execution of the Agreement. Failure to make an award by June 24, 2017 or to comply with the requirements of the Municipal Aid Regulations 16:20B and the Terms and Conditions of Grant Agreement for State Aid to Counties and Municipalities will jeopardize the use of State funds on this project.

It is further noted that the project must be in compliance with the Americans with Disabilities Act, ADA, requirements for accessibility. The Municipal Aid Regulations and terms and conditions can be found on the Local Aid Website at www.state.nj.us/transportation/business/legal/program.

Re: Engineering Design Services for the
Paterson Transit Facility Pedestrian Safety Project
FY 2015 Safe Streets to Transit
City of Paterson, Passaic County, New Jersey
Our File No. PR-16-7236

Dear Mr. Edmond:

In accordance with your Request for Proposal (RFP), dated April 4, 2016, Boswell Engineering (Boswell) is pleased to submit the following response. As requested, our office performed a cursory site visit to the project area in order to ascertain the extent of the Scope of Services required. This site visit took place on April 21, 2016.

Our office has successfully implemented numerous projects in urban settings which included modifying curb ramps to meet the Americans with Disabilities Act (ADA) standards, rehabilitating sidewalks, designing curb extensions to enhance pedestrian crossings, and the design of rain gardens and other low impact design elements. Recent projects of similar scope included the City Hall Drainage and Landscape Improvements within the City of Hoboken and the City of Linden Wood Avenue Streetscape Improvements. The Hoboken project included a rain garden, 4 rain cisterns connected to nearby planting areas, and landscaped outdoor seating areas at City Hall. The project also included interpretive signs explaining the function of the rain garden and cisterns. We are currently engaged with the County on another similar project type, the Haledon Avenue Green Street Project in the City of Paterson.

Following is a description of the anticipated Scope of Work and Scope of Services.

**SCOPE OF WORK**

Passaic County proposes to implement a Safe Streets to Transit project which will improve the overall safety and accessibility for mass transit riders walking to and from the Paterson Transit Station located near the intersection of Ward Street and Railroad Avenue in Paterson, NJ. These improvements will encourage mass transit riders to walk to the station rather than drive. This
project will address various elements of the Ward Street Station Transit-Oriented Development Plan (TOD), which was published by the City of Paterson in September 2012.

Passaic County received a 2015 grant from the New Jersey Department of Transportation to complete the intended improvements, including but not limited to:

- Rehabilitating the existing sidewalks,
- Creation of ADA accessible curb ramps,
- Possible curb extensions to enhance pedestrian crossings; and
- Incorporate green infrastructure to mitigate storm water and beautify the area.

**Project Limits**

Proposed improvements will take place along Grand Street between Prince and Railroad; along Railroad between Grand and Ward; and along Ward/Federal Plaza between Railroad and Straight. All work will be conducted within the existing right-of-way in the City of Paterson.

**Scope of Services**

Boswell will provide full Consulting Engineering Services, including all labor, materials, equipment, and every other item of expense necessary to inspect the area and prepare Plans and Specifications for the improvements outlined above.

The work included as a part of the proposed improvement shall include:

**A. Review of Plans**

Obtain and review all existing plans, studies, documents, and other pertinent information.

**B. Field Survey**

Boswell will perform a controlled baseline field survey to locate existing topographic features, historic features, utility information, and drainage structures. Boswell will provide for any additional fieldwork that may be required to complete proposed design work and obtain required permits (e.g., collecting right-of-way information, roadway survey work, locating existing and proposed ADA, bicycle and pedestrian safety improvements).

Plan limits will extend 200 feet past the project’s limits and 25 feet past all affected areas, including all sidewalks and adjacent property. Cross-sections will extend at least 10 feet each side of the improvements or as required to meet existing terrain features.

Boswell is required to arrange for and provide any necessary traffic control for this task, which will be in accordance with the MUTCD and respective local Municipal Police Departments.
C. Handicap Accessibility Improvements/ADA Compliance

The entire project will be designed for current ADA compliance and built to PROWAG standards. Provide detailed documentation and design exception for any facilities that cannot be built to standard.

Boswell will design the repair of curbs and sidewalks, and installation of new ADA Handicap Ramps to PROWAG standards at locations where any of the items are lacking or substandard within the project limits.

D. Bicycle/Pedestrian Safety Improvements

Review all existing stormwater surface drains within the project boundary. Identify those that require bicycle safe grates and eco-friendly curb pieces to be replaced or added by location and type.

Determine the need for crosswalk restriping, curb and sidewalk repair, catch basin/menhole reset or reconstruction, and pedestrian/bicycle signal timing adjustments and indicate on plans.

Determine the highest and best bicycle and pedestrian safety improvements as well as wayfinding and regulatory signage for each roadway in accordance with the NJDOT Bicycle Compatible Roadways and Bikeways Planning and Design Guidelines, Passaic County Complete Streets Design Guidelines, and MUTCD; indicate on plans.

Where bicycle lanes are feasible in the IPA-B, design should include green painted or pigmented bicycle lanes.

All intersections should have the maximum number of crosswalks possible as determined by intersection geometry and approved by the County’s Project Manager.

All signalized intersections within the project will be converted to count-down pedestrian signals. If no pedestrian signals exist at a signal, they will be added.

E. Signage

All wayfinding and regulatory signage should be designed in accordance with MUTCD design guidelines.

F. Construction Plan Preparation

Construction Plans will be prepared to conform to the New Jersey Department of Transportation Format and Style for Standard Plan submissions.

Work associated with the plan preparation shall consist of preparing the following plans for the entire project area:
DESCRIPTION

TITLE SHEET, including:
- KEY MAP
- PUBLIC UTILITIES LISTINGS

RESOLUTION AUTHORIZING A GRANT APPLICATION, FOR
THE NEW JERSEY 2016 RECREATIONAL TRAILS PROGRAM,
IN THE AMOUNT OF $24,000 WITH AN IN-KIND MATCH OF
$4,800, FOR A COUNTY MORRIS CANAL GREENWAY PROJECT

WHEREAS, the New Jersey Recreational Trails program has released the 2016 Grant Application; and

WHEREAS, Applications are due May 15, 2016; and

WHEREAS, the purpose of this project is largely to improve cyclist wayfinding and pedestrian trailblazing along a 12 mile section of the County’s recently established Morris Canal Greenway; and

WHEREAS, the Greenway is routed along County and Municipal roadways in areas where heavy development has made off-road trail routing infeasible. Presently the signage in such areas is inadequate and does not effectively guide trail users through such areas to deliver them to the off-road portions on either end. Therefore, it is proposed to install additional signage so that the trail route can be clearly identified; and

WHEREAS, signage is to be installed at intervals of approximately 250ft along one side of the roadways within the project limits; and

WHEREAS, in addition to this wayfinding and trailblazing signage, the County intends to install kiosks containing informational panels detailing the history of the Morris Canal and the surrounding area. Funding is being sought for both the installation of the kiosks themselves and the development and content of the educational panels; and
WHEREAS, the Planning Department is requesting approval to submit an application on behalf of Passaic County in the amount of $24,000, with an in-kind match of $4,800; and

WHEREAS, the County of Passaic wishes to submit a grant application and execute a grant contract with the New Jersey Department of Transportation, for Morris Canal Greenway, New Jersey Recreational Trail-2016 Program; and

WHEREAS, this matter was discussed at the Freeholders Planning and Economic Development Committee of May 4, 2016 and recommended to the full Board for approval;

NOW, THEREFORE, BE IT RESOLVED, that the Board of Chosen Freeholders of the County of Passaic hereby authorizes the Passaic County Department of Planning and Economic Development to submit a grant application to the New Jersey Department of Transportation, for the Recreational Trails 2016 Grant Program, in the amount of $24,000., with a county in-kind match of $4,800.00; and

gross debt of the County, as defined in the Local Bond Law, is increased by this guaranty by
$14,395,000, in accordance with the provisions of the Act, the net debt of the County is not
increased, and the obligation of the County authorized by or incurred pursuant to the terms of
this guaranty is permitted by an exception to the debt limitations of the Local Bond Law, which
