Background Information

This agreement can be used when Google is loaning equipment (for example its Trekker device) to a third party who is collecting imagery for potential use in Google products and services.

Agreement

IMAGERY COLLECTION AGREEMENT

This Imagery Collection Agreement ("Agreement") is entered into by and between Google Inc. ("Google") and the entity accepting the terms of this Agreement ("Collector") as of the "Effective Date" (the date Collector clicks the "Accept and Sign Up" button below). This Agreement sets forth the terms governing Collector's provision of services to Google as further set forth below.

1. Definitions.

a. "Confidential Information" means information that one party (or an affiliate) discloses to the other party under this Agreement, and that is marked as confidential or would normally be considered confidential information under the circumstances. It does not include information that the recipient already knew, that becomes public through no fault of the recipient, that was independently developed by the recipient, or that was lawfully given to the recipient by a third party.

b. "Imagery" means the photographs, geolocated descriptions, and geospatial data associated with various points of interest at the Location(s) collected by the Collector using the Camera Equipment.

c. "Location(s)" means the location(s) specified in writing by Google where Collector will visit to collect imagery.

d. "Camera Equipment" means the photographic equipment loaned to Collector, which may include the Street View "Trekker" backpack mounted camera kit (and accompanying storage media), a DSLR camera, fisheye lens, pano-head or tripod.

e. "Tax(es)" means all applicable government-imposed taxes and similar obligations, except for taxes based on Collector's net income, net worth, employment, and assets (including personal and real property).

2. Collector Responsibilities.

a. Collection of Imagery. Collector will use the Camera Equipment to collect the Imagery in the Location(s) and during the mutually agreed-upon dates specified in writing by Google.

b. Trainings. Collector will attend or complete any Google-provided trainings prior to capturing any Imagery.

c. Return of Imagery and Camera Equipment. On completion of all collections, or at Google's earlier request (at any time, for any reason), Collector will return the Camera Equipment (through its associated storage media) and Imagery by shipping both to an address by the dates specified by Google.

d. Reports. Collector will provide Google with reports of its progress (including a log of the Locations, the names of the equipment operators for that collection and the dates of the collections) on a weekly basis (unless otherwise specified in writing by Google).

e. Testing. At mutually agreed-upon times, Collector will assist with remotely accessing the Camera Equipment for testing and maintenance (for example, by turning the equipment on in locations that meet-May 30, 2017-connection requirements).

f. Property Access.
   i. No Acceptance of Payment from Property Owner. Collector will not request or accept any
      payment from the property owner or its affiliates for Collector’s access to or collection on
      a property.
   ii. Public Roads. Unless otherwise specified in writing by Google, Collector will not collect on
       public roads.
   iii. Permissions. Prior to its collection, Collector must: a) obtain any required permits, licenses or
       other documented permissions to collect all imagery; or b) inform Google if no permit is
       required to collect in an area. In addition, Collector must:

           1. ensure property owner has notified any persons who may be included in the imagery
              of the collection (e.g. has posted a sign);
           2. use a format of permission documentation that complies with Google’s requirements,
              Google will provide Collector an example permission agreement or letter if requested; and
           3. provide such documented permission to Google prior to a photo shoot.

3. Ownership.
   a. Ownership of Imagery. Google will own the imagery and any reports submitted to Google by
      Collector (as described in Section 2(d)). The imagery will be a work-made-for-hire to the extent
      permitted under applicable law, and Google will retain all copyright, patent, trade secret, trademark
      and any other intellectual property or proprietary rights in the imagery.
   b. Ownership of Camera Equipment. Collector will not acquire any ownership or other rights in the
      Camera Equipment, except the right to possess and use the Camera Equipment subject to the terms
      of this Agreement. If Collector fails to return the Camera Equipment within 21 days of the date notified
      to Collector under Section 2.3, then Collector may be subject to a $250 fee per day after the 21-day period.

4. Payment.
   a. Payment. Following return of the Camera Equipment and Google’s acceptance of the Imagery
      under Section 8, Google will pay Collector a fee of USD$500 (unless otherwise agreed upon in writing).
   b. Expenses. Google will not reimburse Collector’s expenses under this Agreement unless otherwise
      specified in writing. If Google at its sole discretion elects to reimburse expenses (not to exceed
      USD$1000 unless approved in writing by a Google Director), it will not approve them unless such
      expenses are (i) approved in writing by the Google project manager in advance of incurring such
      expenses, (ii) reasonable, actual, and necessary (without mark-ups or commissions), and (iii)
      accompanied by a written request for reimbursement that details the type, date, amount, payment and
      purpose for each expense.

5. Taxes.
   a. Fees Not Inclusive of Tax. Fees do not include any applicable Taxes. If Collector is legally
      obligated to collect applicable Taxes, Collector must state each applicable Tax as a separate line item
      on its invoice to Google.
   b. Tax Payment. Google will pay Taxes separately stated on correct, undisputed, and timely invoices
      for the applicable Product or Service, unless Google provides Collector with a valid tax exemption
      certificate.
   c. Tax Withholding. If Google is obligated to withhold any taxes from its payments to Collector,
      Google will make the payments net of the withheld amounts. Google will provide Collector with
      sufficient evidence of such tax payments.

6. Warranties. Collector warrants that:
   a. it will conduct any Imagery collection professionally with reasonable care and skill;
   b. it will use best efforts to not damage the Camera Equipment;
   c. there exists no actual or potential conflict of interest concerning this Agreement;
d. Collector's performance under this Agreement does not require the breach of any agreement or obligation to keep in confidence the proprietary information of another party. Collector will not bring to Google or use in completion of its obligations under this Agreement any materials or documents of another party considered confidential or proprietary without the written authorization of such party and Google; and

e. it will comply with all applicable laws and regulations.

7. Anti-Bribery.

a. Compliance with Law. In performing this Agreement, Collector will comply with all applicable commercial and public anti-bribery laws ("Anti-Bribery Laws"), including the U.S. Foreign Corrupt Practices Act of 1977 and the UK Bribery Act of 2010, which prohibit corrupt offers of anything of value, either directly or indirectly to anyone, including government officials, to obtain or keep business or to secure any other improper commercial advantage. Furthermore, Collector will not make any facilitation payments, which are payments to induce officials to perform routine functions they are otherwise obligated to perform. "Government officials" include any government employee; candidate for public office; and employee of government-owned or government-controlled companies, public international organizations, and political parties.

b. Anti-Bribery Due Diligence. Collector will make commercially reasonable and good faith efforts to comply with Google's anti-bribery due diligence process, including providing requested information.

c. Records and Audit Rights. Collector will keep complete and accurate records relating to this Agreement for a period of one year after it expires, and Google may audit Collector's relevant records to confirm Collector's compliance with this Agreement (Google will only have access to those books and records of Collector which are reasonably necessary to confirm such compliance).

8. Acceptance of Imagery. Google will perform quality checks of all Imagery to ensure it meets Google's quality requirements. Detailed acceptance procedures are as follows:

a. the Google Project Manager will either accept or reject the Imagery within ninety (90) days following receipt of the Imagery.

b. If Google rejects the Imagery, the Google Project Manager's rejection will include a written statement of reasons for the rejection.

c. For any rejected Imagery, the parties may agree upon a new timeline for Collector to recollect the Imagery.

d. If the parties agree, Collector will recollect the Imagery at its expense (unless otherwise agreed upon by the parties) and will submit another request for acceptance before the agreed upon timeline pursuant to the procedure in this Section 8.

9. Indemnification. Collector will indemnify Google and its affiliates, directors, officers, employees, and users against all liabilities, damages, losses, costs, fees (including legal fees), and expenses relating to any allegation or third-party legal proceeding to the extent arising from an allegation that Google's use of the Imagery violates or infringes the third party's intellectual property or other rights.

10. Limitation of Liability.

a. Limitation. Subject to Section 10(b) (Exceptions to Limitations):

i. neither party will have any liability (whether under contract, tort, or otherwise, including for negligence) arising out of or relating to this Agreement for any special, indirect, incidental, or consequential losses (whether or not foreseeable or contemplated by the parties at the Effective Date); and

ii. each party's total aggregate liability (whether under contract, tort, or otherwise, including for negligence) arising out of or relating to this Agreement is limited to 30,000 USD.

b. Nothing in this Agreement will exclude or limit either party's liability:

i. for death or personal injury resulting from its negligence or the negligence of its employees or agents;

ii. for fraud or fraudulent misrepresentation;
11. Confidentiality.

a. **Confidential Information.** The recipient will not disclose the discloser’s Confidential Information, except to affiliates, employees, agents or professional advisors who need to know it and who have agreed in writing (or in the case of professional advisors are otherwise bound) to keep it confidential. The recipient will ensure that those people and entities use the Confidential Information only to exercise rights and fulfill obligations under this Agreement, and that they keep it confidential. The recipient may also disclose Confidential Information when required by law after giving reasonable notice to the discloser, if permitted by law.

b. **Publicity.** Collector will not make any public statements or issue promotional materials disclosing the existence of terms of this Agreement without Google’s written approval.

12. Term and Termination.

a. **Term.** This Agreement takes effect on the Effective Date and continues unless terminated as specified below.

b. **Termination.** Google may terminate this Agreement at any time, with or without cause, by providing Collector with written notice. Termination is effective immediately unless otherwise specified in the termination notice. Collector may terminate this Agreement at the later of: (a) acceptance by Google of all Imagery or (b) thirty (30) days after Collector provides Google written notice.

13. Injury and Property Damage. Collector will hold Google harmless for all injuries to personnel or damage to third party property sustained during the use and transportation of the Camera Equipment but not for any damage to the Camera Equipment. Collector will make commercially reasonable efforts not to damage the loaned equipment.

14. Miscellaneous

a. **Notices.** All notices of termination or breach must be in writing and addressed to the other party’s Legal Department. All other notices must be in writing and addressed to the other party’s primary contact. Notice will be treated as given on receipt, as verified by written or automated receipt or by electronic log (as applicable).

b. **Assignment.** Neither party may assign any part of this Agreement without the written consent of the other, except to an affiliate where: (a) the assignor has agreed in writing to be bound by the terms of this Agreement; (b) the assigning party remains liable for obligations under the Agreement if the assignee defaults on them; and (c) the assigning party has notified the other party of the assignment. Any other attempt to assign is void.

c. **Subcontracting.** Collector may not subcon contract any of its obligations under this Agreement without Google’s written consent. Collector will remain liable for all subcontracted obligations and all acts or omissions of its subcontractors. Collector will enter into a written agreement with subcontractor that contains terms that are at least as protective of Google as the terms of this Agreement.

d. **Force Majeure.** Neither party will be liable for failure or delay in performance to the extent caused by circumstances beyond its reasonable control.

e. **No Waiver.** Neither party will be treated as having waived any rights by not exercising (or delaying the exercise of) any rights under this Agreement.

f. **No Agency.** This Agreement does not create any agency, partnership, or joint venture between the parties.

g. **No Third-Party Beneficiaries.** This Agreement does not confer any benefits on any third party unless it expressly states that it does.

h. **Counterparts.** The parties may execute this Agreement in counterparts, including facsimile, PDF, and other electronic copies, which taken together will constitute one instrument.

i. **Survival.** The obligations in Sections 1, 3, 6, 7, 9, 10, 11, 13, and 14 will survive any expiration or termination of this Agreement.

j. **Amendments.** Any amendment must be in writing, signed by both parties, and expressly state that it is amending this Agreement.

k. **Entire Agreement.** This Agreement constitutes the entire agreement between the parties and supersedes all previous or contemporaneous agreements between the parties, relating to its subject matter.
m. Governing Law. All claims arising out of or relating to this agreement or any related Google products or services will be governed by California law, excluding California's Conflict of Laws rules, and will be litigated exclusively in the federal or state courts of Santa Clara County, California, USA; the parties consent to personal jurisdiction in those courts.

RESOLUTION AUTHORIZING AWARD OF CONTRACT TO DOMINION VOTING SYSTEMS FOR SUPPORT SERVICES AND SPARE PARTS FOR ELECTIONS TO BE HELD IN 2017, IN AN AMOUNT NOT TO EXCEED $122,161.84

WHEREAS the Board of Chosen Freeholders of the County of Passaic (the "Board") previously adopted a resolution dated September 27, 2005 (R-05-499) authorizing the purchase of an integrated voting system from Sequoia Voting Systems, Inc. ("Sequoia"); and

WHEREAS the voting system was to be comprised of 650 AVC Advantage Voting Machines together with associated proprietary software and related goods and services from Sequoia, including specified support services for a period of one (1) year, as more fully described in the Agreement between the parties; and

WHEREAS the Board has subsequently adopted resolutions awarding contracts to Sequoia for annual license fees, support services and spare parts required after the expiration of the initial contract term, the most recent of which pertained to elections held in 2016; and

WHEREAS the Board was advised in August, 2010 that Dominion Voting Systems, Inc. ("Dominion") had acquired substantially all the assets of Sequoia; and

WHEREAS the Board adopted resolution (R-10-708, 09/28/10) consenting to Sequoia’s assignment to Dominion in connection with the asset acquisition; and

WHEREAS the various election offices have submitted a request to the Board for a contract award to Dominion to provide necessary support services and spare parts for elections to be held in 2017, as well as payment of the annual software licensing fee, in
$50,000.00 for the Board of Elections, $50,000.00 for the Superintendent of Elections and $22,161.84 for the County Clerk; and

WHEREAS said goods and services are necessary to conduct an election, and are therefore exempt from public bidding pursuant to the Local Public Contracts Law, specifically N.J.S.A. 40A:11-5 (l); and

WHEREAS the said Board, by Resolution 06-97 dated February 14, 2006 established a policy of only awarding contracts in excess of the monetary threshold set forth under the Pay to Play Law only under a fair and open process; and

WHEREAS the Board is desirous of making an exception to that policy because of the unique circumstances of this case; and

WHEREAS the local Public Contracts Law, N.J.S.A. 40A:11-1 et seq., requires that the resolution authorizing the award of contract for exempt services and the contracts themselves must be available for public inspection; and

WHEREAS the Finance & Administration Committee reviewed this matter at its meeting of April 26, 2017 and recommends that this agreement be awarded as an exempt service with the understanding that the recipient has not made or will make political contributions as set forth under the Campaign Contributions and Expenditures Reporting Act (N.J.S.A. 19:44A-1); and

WHEREAS a certification is attached which indicates that funds are available for the within contemplated expenditure.

NOW THEREFORE BE IT RESOLVED that the Board hereby authorizes agreements between the various election offices and
Dominion Voting Systems for election support services and parts for 2017 in an amount not to exceed $122,161.84.

BE IT FURTHER RESOLVED that this contract is being awarded as an exception to the policy of the Board as set forth in its Resolution R-06-97 dated February 14, 2006 because of the special circumstances of this situation, and the policy of the Board as set forth in this resolution shall remain in full force and effect.

BE IT FURTHER RESOLVED that the Director and Clerk of the said Board are hereby authorized to execute the necessary contract on behalf of the County of Passaic.

BE IT FURTHER RESOLVED that this contract is awarded without competitive bidding as one for goods and services necessary to conduct an election, in accordance with the Local Public Contracts Law, specifically N.J.S.A. 40A:11-5(1)(l).

BE IT FURTHER RESOLVED that a Notice of this action be published in the NORTH JERSEY HERALD & NEWS.

Change Order #2 (Change in Scope)

Members of the Board:

Attached for your approval is Change Order #2 (Change in Scope) to be issued to the Contractor for the following:

- Delete Milling, Resurfacing and Striping of High Mountain Road in N. Haledon from N. Haledon Ave to Overlook Avenue. Installation of Reflective Pavement Markers (RPMs) on this section will remain.
- Add Milling, Resurfacing, Striping and Handicap Ramp Construction on High Mountain Road in N. Haledon from N. Haledon Avenue to 200’ north of Werner Ave.
- Change in selected quantities to reflect as-built quantities to date and anticipated changes due to the change in scope.

Subsequent to the award of contract, PSE&G Gas and Manchester Utility Authority were was issued permits to install new gas and water mains, respectively, in the roadway of High Mountain Road. Due to the scope of work, the utilities are required to resurface the entire roadway where they are working. The original scope of work for High Mountain Road in the 2016 Resurfacing program is totally within this permit. The added section of High Mountain Road was originally programmed for resurfacing in 2017.

The total amount of this change order is -$76,799.09 resulting in a new contract amount of $2,447,886.21.

This matter was discussed with the Public Works and Buildings and Grounds Committee at its meeting of April 24, 2017.

I respectfully request that the Board of Chosen Freeholders ADOPT a RESOLUTION approving Change Order #2 changing the scope of the project and reducing the current contract by $76,799.09.

Very truly yours,

Timothy J. Metzen, P.E.
Assistant County Engineer

Dated: May 10, 2017
RESOLUTION AUTHORIZING THE PASSAIC COUNTY PARKS DEPARTMENT TO TRADE IN NINE PIECES OF USED EQUIPMENT TO STORR TRACTOR COMPANY AND APPROVE THE PURCHASE OF TWO USED TRIPLEX MOWERS OF EQUAL VALUE FROM STORR TRACTOR COMPANY FOR USE BY THE PASSAIC COUNTY PARKS DEPARTMENT

WHEREAS there exists a need for lawn mowers for use by the Passaic County Parks Department to mow tees and approaches on the Preakness Valley Golf Course in Wayne, NJ; and

WHEREAS these mowers are additional units and are not replacing older mowers; and

WHEREAS the Passaic County Parks Department obtained quotations for the purchase of two used triplex mowers and trade in values for nine pieces of used equipment currently owned by the Parks Department to be used toward the purchase of the used mowers; and

WHEREAS quotations were received from Storr Tractor Company, Wilfred MacDonald, Inc., and LaCorte Equipment (see proposals attached hereto and made a part hereof); and

WHEREAS Storr Tractor Company of Somerville, NJ provided a quote in the amount of $9,000.00 each for two 2012 Toro Greensmaster 3400 Triflex mowers with a trade in value of $18,000.00 for the currently-owned Passaic County Parks Department equipment; and

WHEREAS Wilfred MacDonald, Inc. did not provide a quote because of the lack of mowers to fit our needs and LaCorte Equipment was not accepting trades due to having a high volume of used equipment already in their inventory; and

WHEREAS the purchase of these two used triplex mowers are over the yearly monetary threshold established under the New Play-to-Play Law (N.J.S.A. 19:44A-20.3) et seq.); and
WHEREAS the Board of Chosen Freeholders for the
Passaic, by Resolution R-06-97 and dated February 14, 2006,
established a policy of awarding contracts in excess of the
monetary threshold set forth under the Pay to Play Law only under
a fair and open process; and

WHEREAS the Board is desirous of making an exception to
that policy in this case because the trade in values for the nine
pieces of used equipment currently owned by the Parks
Department matches the purchase cost and no funds will be
required to make this purchase; and

WHEREAS the Committee for Public Works and Buildings &
Grounds reviewed this matter at its April 24, 2017 meeting and is
recommending approval by the entire Board; and

WHEREAS by memorandum dated April 25, 2017 attached
here-to and made a part hereof, the Passaic County Director of
Parks & Recreation has advised he has reviewed the specifications
of the two 2012 mowers proposed by Storr Tractor Company of
Somerville, NJ and finds them to be satisfactory; and

WHEREAS since the trade in value of these two mowers
matches the purchase cost, no funds will be required to make this
purchase/trade; and

NOW THEREFORE BE IT RESOLVED by the Board of
Chosen Freeholders of the County of Passaic that it hereby
authorizes the trade in of nine pieces of used Passaic County Parks
Department equipment to Storr Tractor Company of Somerville, NJ
at a trade in value of $18,000.00 and approves the purchase of two
2012 Toro Greensmaster 3400 Triflex mowers for $9,000.00 each.

BE IT FURTHER RESOLVED that all necessary County
take such further actions and execute such documents required to effectuate the purposes of this Resolution.

Re: Purchase of mowers

The Passaic County Parks Department has obtained quotations for the purchase of two used triplex mowers and trade in values for nine pieces of used equipment that we currently own and are looking to trade in towards the purchase of the used mowers. Proposals were received from Storr Tractor Company, Wilfred MacDonald Inc, and LaCorte Equipment.

Storr Tractor provided a quote of $9,000 each for two 2012 Toro Greensmaster 3400 Triflex mowers and a trade in value of $18,000 for the currently owned used equipment.

Wilfred MacDonald was not able to provide a proposal because they did not have any mowers that met our needs.

LaCorte Equipment was not able to provide a proposal because they are currently not accepting trades due to having a high volume of used equipment inventory.

My office has reviewed the specifications of the two 2012 mowers that Storr Tractor proposed and we find them to be satisfactory. Since the trade in value matches the purchase cost, no funds will be required to make this purchase.

The above mentioned purchase will be used to mow tees and approaches on the county golf courses. These units are additional units and are not replacing older units. A Non-Fair & Open Resolution request was approved by the public works committee on 4/24/17.

Therefore, I recommend that the Board of Chosen Freeholders adopt the necessary resolution, approving and authorizing the Parks Department to proceed with purchasing these mowers and trading the used equipment.

RESOLUTION AUTHORIZING AWARD OF CONTRACT TO
HISTORIC APPRAISAL SERVICES LLC TO CONDUCT AN ONSITE
APPRAISAL OF THE DEY MANSION IN WAYNE, NJ AND ITS
SURROUNDING STRUCTURES FOR INCLUSION AND UPDATING
OF THE COUNTY’S INSURANCE POLICY

WHEREAS the Dey Mansion is a part of the Passaic County
Park System and is located at 199 Totowa Road Wayne, New Jersey,
County of Passaic; and

WHEREAS Dey Mansion is a historic building listed on the
State and National Registers of Historic Places,

WHEREAS several years ago Dey Mansion was restored and the
replacement cost of the structure has not been updated on the
County’s insurance policy nor has it been insured to its full value;
and

WHEREAS Chubb Insurance has advised that in order to
increase coverage a specialty appraiser would be required to assess
the value of this historic property; and

WHEREAS after much research for specialty appraisers, the
Director of the Department of Cultural & Historic Affairs has
reported by memo to the Public Works Committee dated April 24,
2017, a copy of which is attached hereto and made a part hereof,
that only one firm who focuses strictly on assessments of historic
properties has been found; and

WHEREAS said Director of the Department of Cultural &
Historic Affairs is recommending that a contract be awarded to
Historic Appraisal Services, LLC of Baltimore, Maryland who is
certified by the National Trust for Historic Preservation, for the re-
evaluation and re-appraisal of the Dey Mansion for a flat rate of
$5,500.00; and
WHEREAS this award is not subject to the requirements of Pay to Play Law (N.J.S.A. 19:44A-20.3 et seq.) inasmuch as the value of this contract is below the threshold set forth therein; and

WHEREAS the local Public Contracts Law, N.J.S.A. 40A:11-1, et seq., requires that the resolution authorizing the award of contract for "Professional Services" without competitive bids and the contract itself must be available for public inspection; and

WHEREAS this matter was reviewed by the Public Works and Buildings & Grounds Committee at its April 24, 2017 meeting at which time it was recommended to the full Board; and

WHEREAS a certification is attached hereto which indicates the availability of funds for said expenditure.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby authorizes an award of contract to Historic Appraisal Services, LLC of Baltimore, Maryland in the amount of $5,500.00 to conduct an onsite appraisal of the DeY Mansion in Wayne, NJ and its surrounding structures for inclusion and updating of the County’s insurance policy.

BE IT FURTHER RESOLVED that the Director and Clerk to the Board as well as the County Counsel be authorized to execute an agreement on behalf of the County of Passaic.

BE IT FURTHER RESOLVED that this contract is awarded without competitive bidding as a “Professional Services” contract in accordance with N.J.S.A. 40A:11-5(1)(a) of the Local Public Contracts Law because:

(1) The consulting firm is authorized and regulated by the law to provide the aforementioned services;
(2) The performance of the services are special in nature and require knowledge of an advanced type training, which said consulting firm possesses; and

**BE IT FURTHER RESOLVED** that a Notice of this action be Published in the NORTH JERSEY HERALD & NEWS.

RE: AUTHORIZE CONTRACT WITH HISTORIC APPRAISAL SERVICES, LLC. FOR RE-APPRAISAL OF DEY MANSION

Members of the Board:

Since the Dey Mansion was restored, the replacement cost of the structure has not been updated on the County’s insurance policy. Chubb Insurance has informed us that they will be glad to increase our coverage but since it is a historic building listed on the State and National Registers of Historic Places, their appraiser does not have the expertise to adequately put a number on the replacement cost. It was their recommendation that the County pursue to have an appraisal done by an “expert.”

After much research for specialty appraisers, we only found one firm who focuses strictly on assessments of historic properties. Historic Appraisal Services, LLC certified by the National Trust for Historic Preservation, can prepare a Historic Property Appraisal Report with a one-day on site appraisal that focuses on the historic reconstruction cost vs. a standard replacement. This reconstruction cost estimate contemplates rebuilding the structure with same or equal materials, workmanship and architectural features without deduction for depreciation. The estimate further contemplates that the structure will be used for the same purpose and that the materials and workmanship are reasonably available. They consider their process to be the most efficient and superior for historic buildings while determining proper insurance valuation. The fee for the evaluation of the site and preparation of the report is a flat rate of $5,500.00.

We are seeking a resolution authorizing a contract with Historic Appraisal Services, LLC for the re-evaluation and re-appraisal of the Dey Mansion. The Public Works and Building & Grounds Committee at their meeting of April 24, 2017, recommended that the full Board authorize this appraisal. For reference, I have attached a memorandum to the Committee dated April 24, 2017 regarding the project illustrating the services and detailed report that the County would receive.

I encourage you to consider adopting this resolution to authorize and support the creation of the Dey Mansion Foundation. If you have any questions, please do not hesitate to contact me.

Sincerely,

RE: AUTHORIZE CONTRACT WITH HISTORIC APPRAISAL SERVICES, LLC.
FOR RE-APPRAISAL OF DEY MANSION

Members of the Board:

Since the Dey Mansion was restored, the replacement cost of the structure has not been updated on the County’s insurance policy. Chubb Insurance has informed us that they will be glad to increase our coverage but since it is a historic building listed on the State and National Registers of Historic Places, their appraiser does not have the expertise to adequately put a number on the replacement cost. It was their recommendation that the County pursue to have an appraisal done by an “expert.”

Project: Appraisal Review & Forensic Critique of appraisal prepared for the property owner by:
Appraiser: Robert McNerney, MAI
Property Appraised: Two Bridges Road Project, Wayne, NJ;
Parcels 10A, 10B, X10C, 10D, 10E & 11
Intended Use: To assist the County in preparing for eminent domain proceedings.
Intended User: The County of Passaic and its representatives.

Purpose:
Provide an appraisal review and forensic critique of the appraisal report prepared for the property owner. The owner's appraisal will be used for eminent domain proceedings. My review and critique will assist the County in evaluating the credibility of the appraisal.

Scope of Work: Appraisal review will be performed in order to determine if the owner's appraisal follows accepted appraisal guidelines for partial acquisitions as well as appraisal guidelines of the State of New Jersey Department of Transportation Right of Way Acquisition Manual. My work will include the following:
1) Determine compliance with the Scope of Work as stated in the report.
2) Conformance with traditional eminent domain appraisal guidelines such as those provided by the New Jersey Department of Transportation.
3) Check the completeness, adequacy and relevancy of the data utilized and the appropriateness of any adjustments applied to the data. Check for typos, math errors, etc.
4) Evaluate the soundness of the appraisal methodology used, as well as the soundness of the analysis, opinions and conclusions of the appraiser.

The forensic critique will involve a thorough verification and critique of the data used in the appraiser's report including reviewing the deeds and verification of all comparable data, reviewing engineering reports and site plan application information, as well as any other information relied upon by the appraiser. Note that the appraiser used data from multiple municipalities in various counties which adds to the amount of field work required. The report will explain and critique the appraiser's methodology and theory regarding damages to the remainder.

After evaluating all of the above information, I will provide the client with a consultation report that contains the review as well as the critique indicating my findings.

This Scope of Work does not include my own valuation analysis or estimate of value.

Fees: $3,000.

Other Fees: Any work other than the review appraisal report outlined in the Scope of Work above will be billed at the contracted hourly rate. Examples of "other work" include review of any additional expert reports, review of updated appraisals, as well as meetings, conferences, etc.

Delivery: Approximately 30 days from authorization to proceed & receipt of purchase order or voucher.

Re: Replacement of Two Bridges Road Bridge and West Belt Extension
Township of Wayne and Borough of Lincoln Park
Passaic and Morris County
Contract Modification No.2 - Extra Work
Lois Berger

Members of the Board:

As part of the design of the above referenced project the Consultant had to apply for NJDEP Flood Hazard Area Permit and Fresh Water and Wetlands Individual Permit. During the coordination with the NJDEP the Consultant had to make modifications to the project scope as requested by NJDEP in order to complete the final design.

As part of the ROW acquisition for the proposed project, the building on the property located at 29-33 Lincoln Boulevard has to be acquired in order to build the realigned Two Bridges Road. The Consultant had to survey the building for hazardous materials and this work was not part of the original scope of work.

The additional work is described in the attached Louis Berger’s letter and the negotiated cost proposal for this extra work is in amount of $250,346.21. This amount includes also the reimbursement for the NJDEP and Soil Erosion and Sediment Control Permit fees. The New Jersey Department of Transportation is funding this extra work.

This modification to the contract was discussed at the Public Works Committee meeting of April 24, 2017 and recommended to the full Board.

Based upon the above, I recommend that the Board of Chosen Freeholders adopt a Resolution amending the contract with Louis Berger to include the extra work in the amount of $250,346.21.
and authorize County Counsel to prepare the necessary Agreements subject to the availability of funds.

RE: Scope Modification: Two Bridges Road Bridge Over the Pompton River and West Belt Highway Extension, Borough of Lincoln Park and Wayne Township Morris and Passaic Counties

Dear Mr. Edmond

The County of Passaic, in conjunction with the North Jersey Transportation Planning Authority (NJTPA) selected The Louis Berger Group, Inc. to perform Final Design for the replacement/rehabilitation of Two Bridges Road over the Pompton River and the extension of the West Belt Highway to Two Bridges Road and Passaic Avenue, located in Passaic, Morris and Essex Counties. The project is currently approximately 95% complete.

As a part of the extended effort required to coordinate with NJDEP for approval of the Freshwater Wetland Individual Permit (FWIP) and Flood Hazard Area (FHA) Permit Applications for the subject permit, the following modifications to the project scope are required to complete the Final Design Phase. The modification also includes the NJDEP Permit fee of $43,250, which was paid for by Louis Berger at the direction of the County and was not included in the previous scope of work and fee. This modification also includes design changes needed for future addition of sidewalk on the proposed bridge.

As further elaborated under the Overview section below, Louis Berger anticipated that the submitted permit applications would require some comments to be addressed upon review, typically one (1) round of comments based on our experience. However, as has been demonstrated to you at our coordination meetings, the subsequent comments were not given to Louis Berger based on application deficiencies, but because the NJDEP did not properly review and refer to the previously approved Environmental Assessment documents, did not agree with their previous approval of the Project Purpose and Need, and other mitigating circumstances at NJDEP. As was discussed at previous coordination meetings, the events at the NJDEP, such as the death of the Lead Reviewer, the change in Lead Reviewer, the change in the Engineering Reviewer, all played a part in the Extraordinary Comments and the extremely long review times by the NJDEP. In addition, the NJDEP expressed at our last meeting that they had received unfavorable feedback from nearby property owners concerning the project, which may have triggered NJDEP to review previously approved receives hostile comments, it complicates the review of the project as each comment has to be addressed and shown to not have any relevance to the project.
OVERVIEW:

A pre-application meeting was held on March 2, 2015 to discuss the requirements of the Freshwater Wetland Individual Permit (FWW IP) and Flood Hazard Area (FHA) Permit for the Two Bridges Road Bridge and West Belt Highway Extension Project. The subject permit applications were submitted to NJDEP on May 27, 2015. An initial round of application review comments was received on July 15, 2015 from NJDEP (Reviewer: Gabriel Mahon). Following communication with the NJDEP reviewer via phone and emails and inputs from the project team, Louis Berger provided the requested information, which required extensive effort, and submitted that information to NJDEP on September 3, 2015 as Addendum 1. The primary focus of these comments and corresponding responses was hydraulic analysis. A second round of comments from a different reviewer at NJDEP (Reviewer: Becky Mazzoc) was received on November 10, 2015. These comments were primarily focused on the alternative analysis as it pertained to the project purpose and need and were contradictory to the previously approved EA and NJDEP/SHPO documents. The comments also made further inquiries concerning the performed hydraulic analysis. A meeting was held on December 3, 2015 to get clarification from the NJDEP and corresponding responses were provided on February 3, 2016 as Addendum 2. Throughout the process, continued correspondence with NJDEP and the project team was carried out in order to provide clear and complete responses. While Addendum 2 had clearly provided responses to all previously received comments, on March 28, 2016 a third round of 16 new comments was received from NJDEP. Louis Berger provided additional information and extended explanation in response to these comments as Addendum 3 and provided a presentation of the information to NJDEP at a meeting held on April 19, 2016. Louis Berger continued to field additional questions and provide clarification to individual concerns during and after that meeting. Upon request from the NJDEP (Reviewers: Peter Demko and Steve Olivera) and in line with additional meetings and phone calls pertaining to the purpose and need of the project and the hydraulic and hydrologic information, Louis Berger provided supplemental information to the Addendum 3 responses on June 7, 2016. An additional round of comments was received from NJDEP (Steve Olivera) on July 20, 2016 and a response letter and modified mitigation plans were provided to NJDEP on August 3, 2016. Throughout August through October of 2016, NJDEP requested additional changes to the hydraulic analysis and hydrologic design and to the wetlands plans, to which Louis Berger provided swift and thorough responses and revised models and plans. In addition to meetings with NJDEP, continued communication including coordination meetings were required with the County and the project team to discuss NJDEP comments. Reference below some of the timeline for the extensive process that took place to attain permit application approval.

The following modifications to the scope of services include the additional effort required to provide all requested information to NJDEP and to communicate sufficiently with them in order to attain approval of the FWW IP and FHA Permit Applications.

Modifications to the scope of services are also included for anticipation of the effort required to put sidewalks on the proposed bridge.
The following are itemized scope modifications:

**ADDITIONAL SCOPE OF SERVICES**

Task A: Review of Plans and Studies

NJDEP comments requested extensive information about the alternative analysis process especially as it pertained to the purpose and need of the project which was completed and approved during feasibility phase from 2002 to 2005 and EA phase from 2006 to 2009. This request required Louis Berger to review the previously prepared plans and studies related to the project in order to compile responses with complete and thorough informational backup.

Task B: Structural Inspection

No change

Task C: Field Survey and Mapping

No changes

Task D: Drainage Analysis & Design

No changes

Task E: Geotechnical Engineering

No Changes

Task E-1 Subsurface Exploration Program

No Changes

Task E-2 Laboratory Testing

No Changes

Task E-3 Reporting

No Changes

Task F: Cost Estimates:

In the second and third rounds of comments received from NJDEP concerning the FWW IP and FHA Permit Applications, NJDEP requested extensive information about the alternative analysis process especially as it pertained to the purpose and need of the project. This request required Louis Berger to reevaluate the costs for multiple alternatives, which had been eliminated upon approval of the preferred alternative back in 2005 and 2009. Since further evaluation of those alternatives did not proceed following that approval, the cost estimates needed to be updated for the requested comparison. Upon request, Berger also
evaluated the cost of widening or replacing the adjacent Passaic River Bridge.

**Task G: Utility Engineering**

PSE&G and Verizon has requested to support conduits on the bridge to cross their facilities. Utilities and Bridge Plans will be modified to account for this request. Additional efforts to coordinate with TBSA, PVWC and Wayne Township for accommodation of their utility facilities.

**Task H: Right-of-Way Documents**

No Changes

**Task I: Permits**

**Hazardous Materials Survey (Asbestos and Lead)**

As part of the ROW acquisition for the proposed Two Bridges Road project, buildings at 31 and 33 Lincoln Blvd will be acquired. This modification to the scope of work will include provision for hazardous material survey for those buildings. Asbestos and lead-based paint surveys will be conducted to evaluate potential hazardous materials at four structures at properties located at 31 and 33 Lincoln Blvd in Lincoln Park. The findings of the surveys will be used to develop contract specifications. Structures at these properties include two 29 x 50 one story houses, a 2 stall garage and a 10x10 shed. Berger will perform the appropriate asbestos survey as is required by federal, state, and local regulations for renovation/demolition projects. The asbestos survey will be based on current NJDOL guidelines, AHERA guidelines as well as USEPA “Guidance for Controlling Asbestos-Containing Materials in Buildings.” For the lead-based paint survey, Berger will utilize the HUD/USEPA standard for Lead-Based Paint of 1.0 mg/cm2, as defined by Title X of the 1992 Housing and Community Development Act, utilizing an XRF Paint Analyzer to perform a surface to surface lead based paint evaluation. Berger will prepare a brief letter report that shall include a discussion of the services performed, a written description of where Lead and Asbestos samples were collected, where Asbestos and Lead are located, approximate quantities and condition of the materials, and the laboratory reports. Bulk sample location, as well as asbestos location drawings will be provided. Berger will complete contract specifications for the removal of hazardous materials identified during the survey. Louis Berger assumes that the County will provide access and entry to all pertinent structures. The proposed asbestos sample collection is destructive, as a result it is assume that all of the structures are unoccupied.

**Task I-1: NJDEP Letter of Interpretation (LOI)**

No Changes
Task 1-2: Flood Hazard Area Permit

Per the contract scope, we prepared the Flood Hazard Area Permit following the State Adopted Study for the Pompton River. The Permit application was submitted in May, 2015. The NJDEP comments received in July, 2015 did not question the use of State Model, but requested other changes in the analysis. These revisions were submitted to NJDEP under the assumption that the application was completed and that there would be no further comments requiring revisions to the hydraulic analysis. However, in November 2015, a second round of comments was received from NJDEP requesting that the hydraulic analysis be changed from the State model to the FEMA model. As instructed by the County and the project team, Berger revised the hydraulic analysis. This required starting the hydraulic analysis over from scratch, which resulted in significant effort. Ultimately, using the FEMA model provided the same results as were derived from using the state model, showing that the 10-year, 25-year, 50-year, 100-year, Flood Hazard Area Flood, and 500-year flood water surface elevations. Additionally, in the Original Scope of Work, it was anticipated that the Pompton River, an unnamed tributary to the Passaic, and an unnamed tributary to the Pompton should all be modeled. The NJDEP then asked that the Passaic River also be modeled, inserting the fill along Two Bridges Road. NJDEP requested that Louis Berger use the FEMA model instead of the State Model for the Passaic River. Modeling the Passaic River was not included in the original scope of work. These revisions were submitted to NJDEP as a part of the Addendum, under the assumption that no further revisions would be required and that NJDEP would not have any further comments. A third round of comments was received in March, 2016, from NJDEP. In these comments, NJDEP stated that information in the models was missing. We spent a significant amount of time showing to the NJDEP reviewers that the information was not only included in the submitted Addendum, but was also included in the electronic submission (All HEC-RAS models were included on a CD). In the coordination meeting, NJDEP acknowledged that there was no information missing, but indicated that they were unhappy with the use of the FEMA model. NJDEP stated that the State Model should again be used with some sections modified per the FEMA model, essentially making it a hybrid model. This request required additional effort than what was anticipated during the scoping of the project. The revised hydraulic models were submitted to NJDEP. On August 18, 2016, NJDEP again commented on the Pompton River Model. After addressing their comments, we submitted the revised Pompton River Model on August 26, 2016. Lastly, to verify the revised cross-sections, NJDEP asked for a roll plot of the contours to be included with the revised submission. We then prepared a detailed topographic plan of the entire floodplain using the USGS DEMs. This effort required significant clean-up of the topo as the area shown by the USGS DEM did not merge well with our more accurate land survey. All modifications to the Hydraulic models noted above did NOT result in ANY changes to
the project.

On August 26, 2016, NJDEP requested a 30-day extension for the review of the permit application. On September 19, 2016, NJDEP again called to comment on the tributary to the Pompton River requesting revisions to the starting water surface elevations and the some flow areas. By addressing their comments, the 48" RCP culvert under Fairfield Road had to be replaced by two 30" RCPs. This required modification of the hydrology to account for the two 30" RCPs due to the revised flows through the tributary. We submitted the revision to NJDEP on September 20, 2016. On October 3, 2016, NJDEP again called with comments on the hydrologic model. Revisions to either the HEC-RAS or the Hydro-CAD model required many iterations to balance out the flows with the hydraulic impacts. Upon addressing their question, the 48" RCP culvert under Fairfield Road was replaced by a 36" RCP and a 30" RCP. The hydrologic and hydraulic models were submitted to NJDEP on October 4, 2016. With the exception of the changed culvert size, this did not cause any other changes to the project. Upon receipt of the permit, comment 15 under special conditions asked for submission of the analysis for the tributary to the Pompton River again for review and approval. No comments were given. A meeting with NJDEP has been scheduled for November 2, 2016, to discuss their comments.

During EA, the net fill was always addressed following the FHAC 7:13-10.4(d)3, which indicates that net fill does not apply to roadway improvement projects. However, during the Permit review, NJDEP changed their minds stating that they now require calculation of and mitigation for net fill. In addition, they said that since the area was in the Central Passaic Basin, they only required the net fill outside the Floodway. Louis Berger recalculated all the net fill outside the floodway so that the total amount would be considered as part of the fill credits required by NJDEP.

In addition to the significant number of comments received by NJDEP, the length of the review time was considerably longer than that of a typical review. The Permit Application was submitted on May of 2015. A typical review time, with a 30-day extension is 120 days. Therefore the review should have been completed by September 2015. The permit was not received until October 2016, more than a year past the anticipated task completion date. There were a number of changes in staff at the NJDEP that occurred on this project contributing to the extended review time. The NJDEP project manager and engineering reviewer were each changed once, which would involve the new reviewer and project manager to start the process over and begin reviewing the project from the start. Also, since the project took this long for NJDEP to review, the public notices for the Flood Hazard Area Permit had to be re-issued two additional times. In addition, in the original scope of work, only 1 pre-application meeting was anticipated. Louis Berger attended 4 meetings with NJDEP to discuss the comments. In addition to the meetings held with the NJDEP, Berger attended 3 meetings with the County and several online communications including phone and e-mail review of the documents with the project team to discuss the NJDEP comments.
The above modifications and re-runs of analysis and attendance of additional meetings constituted significant additional effort not anticipated in the original scope of Work.

Task 1-3: Freshwater Wetland's Individual Permit

The FWW IP application was submitted to NJDEP in May, 2015. During the review of the permit application, the NJDEP Division of Fish and Wildlife stated it would not be prudent to install any form of fencing or guidewall in the vicinity of the blue-spotted salamander habitat located west of the Pompton River. Wetland Plans were revised to include one wildlife crossing in response to NJDEP comments and signed and sealed sets of the revised Wetland Plans were submitted to NJDEP. In August, 2016 NJDEP requested that the proposed location of the wildlife crossing be revised and an additional crossing be installed at a location they recommended. Wetland plans were again revised and signed and sealed sets of the revised Wetland Plans were resubmitted to NJDEP. In late August, NJDEP requested that guidewalls be installed to funnel wildlife to the wildlife crossings against their previous decision. Wetland Plans were again revised and signed and sealed sets of the revised Wetland Plans were resubmitted to NJDEP after NJDEP review and acceptance of draft plans sent via email. Following receipt of the revised Wetland Plans, NJDEP once again requested edits which involved incorporating a cross-section of the proposed wildlife guidewall and the addition of a detail for the guidewall with additional requirements. Once again, revised signed and sealed sets of the Wetland Plans were resubmitted to NJDEP.

Finally, on the day before permit issuance, the NJDEP mitigation unit reviewer called and requested revision to the Wetland Plans. Revised signed and sealed sets of the Wetland Plans were resubmitted to NJDEP. In our extensive permitting experience, NJDEP review of the permit plans involves one round of comments. In this case, the NJDEP required an additional 5 rounds of response to comments and five re-submissions of five signed and sealed sets of Wetland Plans to the NJDEP due to their incomplete piecemeal review and comment process.

Additional effort for the FWW IP was also required due to several additional meetings. This included the preparation for these meetings, attendance at the meetings, and follow-up needed after each meeting. Specifically, Louis Berger anticipated 1 pre-application meeting with NJDEP in the original scope of work. Louis Berger staff attended 2 additional meetings with NJDEP to discuss these comments and attended 3 additional meetings with the County to discuss the NJDEP comments and the approach to the responses. The meeting with NJDEP Commissioner KopKash required extensive preparation. It was also necessary for cultural resource specialists to review the project file, attend the NJDEP meeting, and address the concerns of SHPO. Throughout these meetings, nothing was noted to be wrong with Louis Berger's plans of design.

Also, as previously stated, our original scope of work included obtaining the FWW IP for Alternative B-1. As part of the permit application for the FWW IP, we used the purpose
and need and alternatives analysis from the NEPA EA that had already been prepared and accepted by NJDEP. NJDEP comments required additional evaluation of Alternative C-1 and other Alternatives, which were previously eliminated prior to the execution of this contract. In order to address NJDEP comments regarding environmental impacts of Alternative C-1, we provided GIS analysis to quantify wetland and open water impacts, landscape project impacts, vernal pool and buffer impacts, riparian impacts, and forest impacts for comparison to Alternative B-1. At the request of NJDEP, figures supporting these analyses were also created and submitted to NJDEP. It was also necessary to analyze noise and environmental justice for these alternatives and compare the results to Alternative B-1. As part of the NJDEP required notification process, it was also necessary to conduct outreach to obtain a list of residents from Finn’s mobile home park. This additional analysis did not change the PFA.

Task I-4  
NJDEP Stormwater Management Rules  
No Changes

Task I-5:  
SESC Soil Erosion and Sediment Control Certification

No Changes

Task I-6  
Riparian Zone Mitigation

No Changes

Task K:  
Construction Contract Documents

Task K-1  
Roadway / Grading

NJDEP comments requested extensive information about the alternative analysis process especially as it pertained to the purpose and need of the project. Louis Berger evaluated different alignment and profile scenarios for Alternative C-1 for the West Belt Extension, Fairfield Road and Two Bridges Road with respect to intersection safety, sight distance and environmental impacts. The Alternative C-1 was originally eliminated during feasibility and EA preparation and now scoped for this contract.

Task K-2  
Design Exceptions

No change anticipated

Task K-3  
Structural Design

NJDEP comments requested extensive information about the alternative analysis process especially as it pertained to the purpose and need of the project. Louis Berger evaluated different scenarios for Alternative C-1 for the West Belt Extension, Fairfield Road and Two Bridges Road with respect to bridge constructability, modification or widening of existing bridges and cost comparisons with respect to traffic and environmental impacts.
Alternative C-1 was originally eliminated during feasibility and EA preparation and not scoped for this contract.

NJDEP requested changes to the design of the wildlife crossings that Louis Berger designed the wildlife crossings under specific dimensions and based on fabrication, grading, and condition requirements related to ease of wildlife movement and incorporation of natural elements and a cross section detail for the 3-sided culvert.

Per the county’s request, the design needs to be amended to include possibility of future sidewalks on the proposed Two Bridges Road Bridge over the Pompton River. The addition of sidewalks will require additional structural design effort including changes to the Girder Design and Plans, Abutment and Wingwall Design and Plans, Pier Design and Plans, and the Bar List.

Task K-4  Traffic Maintenance
No Changes

Task K-5  Traffic Signal Design
No change anticipated

Task L:  Project Management

Task L-1  Project Management

As a part of the extended effort required to coordinate with NJDEP for approval of the Freshwater Wetland Individual Permit (FWW IP) and Flood Hazard Area (FHA) Permit Applications for the subject permit, Louis Berger attended several meetings with NJDEP and the County including several online communications, phone and e-mail review of the documents with the project team to discuss the NJDEP comments. NJDEP requested extensive information about the alternative analysis process especially as it pertained to the purpose and need of the project. In response to these comments, Berger clarified the timeline and indicated that alternatives had been eliminated based on input from the public, local and county officials, and related organizations such as SHPO, and ultimately the preferred alternative was selected and approved by these relevant entities and organizations. The EA was approved in 2009. The project purpose and need was described in Section 3.0 and a detailed alternative analysis was provided in Section 4.0 of the FWW Individual Permit Application. Still, in the second round of comments, NJDEP requested that Berger again demonstrate that there “is no practical and feasible alternative.” Comment 1 requested that Berger “provide a discussion of the project purpose and need along with an analysis of alternatives considered.” Comment 2 asked Berger for a detailed traffic study and quantification of the proposed traffic improvements. Comment 6 requested that Louis Berger revise the alternative analysis. Per instructions provided by the project team, these requests required that Berger look back into the alternative analysis study, which had been
completed and approved in 2005 and 2009, and reevaluate and even update some of that information. Gathering the information, updating it, and pulling from it the requested details for the purpose of these responses required significant effort. This was effort that had already been completed and approved and was not anticipated to be required for this task over the course of multiple rounds of comments.

Louis Berger provided thorough and clear responses to the NJDEP's concerns about the project purpose and need and the preferred alternative. Still, in the third round of comments, additional concerns were raised. Comment 1 requested clarification of the elimination of alternatives that replaced the existing bridge, requesting that Berger reiterate the correspondence held with SHPO and the approval of preservation received from local and county officials. Comment 2 asked for clarification of the impacts of other alternatives on Finn's Mobile Home Park. Comment 3 asked that Berger demonstrate how other alternatives present unsafe conditions and/or greater accidents. In response to these comments and as per instruction from the project team, Louis Berger was again required to reinvestigate the alternatives explored over 8 years ago. The team spent time collecting correspondence and reexamining how the other alternatives result in impacts detrimental to the surrounding area and/or unsuccessful in meeting the project purpose and need.

Additional comments requested that Louis Berger compare the preferred alternative (B-1) to the eliminated alternative (C-1). Per the scope of contract, we were to design the project following Alternative B-1. Based on the NJDEP comments received through your office and instructions provided by the project team, we were asked to further evaluate Alternative C-1 and other Alternatives that were eliminated prior to execution of this contract and that was based on inputs received and instruction provided by the project team. In order to address NJDEP comments regarding environmental impacts of Alternative C-1, Berger provided GIS analysis to quantify wetland and open water impacts, landscape project impacts, wetland pool and buffer impacts, riparian impacts, forest impacts, for comparison to alternative B-1. At the request of NJDEP, a table and figures supporting this analysis were also created for submittal to NJDEP.

The tasks / effort required to respond fully and clearly to the NJDEP comments are outlined below:

- Reviewed correspondence with SHPO and public officials related to the preservation of the historic bridge - even though preservation was approved as the preferred alternative in 2008
- Reiterated and emphasized the historical significance of the bridge
- Made multiple trips to the Finn's Mobile Home Park
- Reinvestigated impacts to the mobile home park resulting from the C-1 and other alternatives and potential remediation efforts – noise study & evaluation of noise barriers, tree removal, air quality reduction, and displacement of housing units

Re: Replacement of Two Bridges Road Bridge and West Belt Extension Township of Wayne and Borough of Lincoln Park Passaic and Morris County Contract Modification No.2 - Extra Work Lois Berger

Members of the Board:

As part of the design of the above referenced project the Consultant had to apply for NJDEP Flood Hazard Area Permit and Fresh Water and Wetlands Individual Permit. During the coordination with the NJDEP the Consultant had to make modifications to the project scope as requested by NJDEP in order to complete the final design.

As part of the ROW acquisition for the proposed project, the building on the property located at 29-33 Lincoln Boulevard has to be acquired in order to build the realigned Two Bridges Road. The Consultant had to survey the building for hazardous materials and this work was not part of the original scope of work.

The additional work is described in the attached Louis Berger’s letter and the negotiated cost proposal for this extra work is in amount of $250,346.21. This amount includes also the reimbursement for the NJDEP and Soil Erosion and Sediment Control Permit fees. The New Jersey Department of Transportation is funding this extra work.

This modification to the contract was discussed at the Public Works Committee meeting of April 24, 2017 and recommended to the full Board.

Based upon the above, I recommend that the Board of Chosen Freeholders adopt a Resolution amending the contract with Louis Berger to include the extra work in the amount of $250,346.21

Re: Passaic County Park System Ordinance Permitting and Related Fees for Food Concessions

The Passaic County Parks Department is seeking to establish a new park ordinance pursuant to N.J.S.A. 40:37-152 to allow for the permitting of food concessions. The request for permission to do so was approved by the Public Works committee on 4/27/17.

A new Article titled “Food Concessions” shall be drafted to govern the permitting of food concessions for each facility in the Park System, with the Parks and Recreation Department Director empowered to approve food concessions under the following criteria:

1. Permits shall be required in the Passaic County Park System between the months of April and November;
2. Permits will be issued on an annual basis, with a fee of $200.
3. Permits shall clearly indicate the approximate location inside the specific park of the Passaic County Park System where the food concession shall be authorized to conduct business;
4. Proof of Insurance shall be required;
5. Proof of all applicable health code permits or approvals shall be required;
6. Permits are not transferrable;
7. Permit fees shall be paid in full before a permit is released;
8. Any permit granted pursuant to this ordinance may be revoked upon the violation of any of the terms or conditions set forth in the ordinances governing the Passaic County Park System, or any violation of local, State, or federal laws;
9. The permit holder shall be liable for any loss or damage to the Passaic County Park System, or to an injury to a person in the Park System caused by the negligent acts of the permit holder or associated individuals of the permit holder;

We ask that the Board of Chosen Freeholders adopt the necessary resolution, in order to establish a new park ordinance to allow for the permitting of food concessions.

ARTICLE 1

RE: Victims of Crime Act (VOCA) Grant Program  
Project Title: County Office of Victim Witness Advocacy  
Subaward Number: V-80-15

Dear Prosecutor Valdes:

The New Jersey Department of Law and Public Safety is pleased to announce funding to the County Offices of Victim Witness Advocacy under the FFY 2015 Victims of Crime Act (VOCA) Victim Assistance Grant Program. As discussed in prior correspondence, the overall funding for this program has been increased. The allocation to the Counties has been increased to $7.5M from the current level of $5.1M. The increased funding will allow for the continuation of your current program and the salary costs incurred under the supplemental grant, and will allow you to expand services. A portion of this increased funding must be used to support advocacy presence in the municipal courts and other venues, pursuant to your County’s needs.

Your county can apply for a maximum federal award of up to $407,809 which would require a twenty percent (20%) match of $101,952 for a total funding of $509,761. Your County can request less than the maximum amount and should only request funding pursuant to its needs for a twelve month period. A formula has been utilized that provides for a base amount of $150,000 and a proportionate share based on the number of indictments, accusations, and victims served as reported by your County to the Division of Criminal Justice in calendar years 2014 and 2015. The funding amount also includes funding to cover personnel costs for new positions funded through the Supplemental grant for the period of 4/1/18 - 6/30/18. As you are aware, the supplemental grant ends 3/31/18.

All Counties have been moved to a July 1 – June 30 grant funding cycle. The grant period for this
award will be 7/1/17 – 6/30/18. No extensions to the grant period will be permitted.

An application package has been forwarded to Joan Nixon, Victim Witness Coordinator. All items on the application checklist must be completed prior to submitting your application. Please consult our VOCA Program Guidelines and the current VOCA Final Rule at (https://www.federalregister.gov/documents/2016/07/08/2016-16085/victims-of-crime-act-victim-assistance-program) for direction on the appropriate use of funding. Approval for expenditures for the grant cannot be authorized until a fully executed subaward/contract is completed. All required reports for your previous grant must be current and on file with the State Office of Victim Witness Advocacy (SOVWA) prior to the start of your grant.

The completed application should be submitted to the attention of your Program Analyst, Isaac Junius no later than May 26, 2017. If there are any questions or you require further assistance he can be reached at (609) 984-1039.

Sincerely,

J. Peter Traum, Deputy Administrator
Office of the Attorney General

ADA Compliance Requirements & Accessibility Fact Sheet

This questionnaire or an ADA Compliance Plan must be completed for funding evaluation. Those organizations that have already submitted an acceptable ADA Plan are exempt from completing this form, but must attach a copy of their ADA Plan. If you have not completed an ADA Plan, tools to guide you through the process are https://njtheatrealliance.org/ada-planning.

Funding Guidelines: Applications will be evaluated for sensitivity to persons with disabilities and seniors. Ensuring that programming funded by PCCHC is available to the widest possible audience is a priority of PCCHC and NJSCA. Organizations are expected to provide programmatic, as well as physical accessibility. At minimum, organizations should offer large print programs, flyers, etc. and assistive listening devices, available for loan, free of charge, from the NJ Theaters Alliance and public libraries listed in the guidelines.

Please note: Because access for people with disabilities, as directed by federal law, usually requires long-range planning and budgeting, PCCHC encourages applicants to consider access issues in the early planning stages of programs and services. Cost of program accommodation for people with disabilities (for example, audio descriptions of printed material, exhibitions and talks/seminars, staff training, large print labels or programs, and/or direct mail advertising on access services) are generally eligible project costs.

Please Check One:

☐ ADA Plan was submitted in ________ (year) and copy is attached.

**Purpose of the Appraisal**

The purpose of this assignment is to provide the County of Passaic with an estimate of the fee simple market value of the property listed above, to aid the County of Passaic in the acquisition of this property. This valuation assignment will estimate the value of the land, at its Highest and Best Use, in its "as is" condition, as of a date prior to the Borough's April 2017 transfer to Passaic County, and not as of the date of inspection.

**Scope of Work**

By acceptance of this assignment, we are acknowledging that we have the experience and knowledge to complete the assignment competently, in accordance with the competency provision in USPAP.

The value estimate will reflect our opinion of the market value of the subject property. The market value estimate is of the fee simple estate.

Prior to commencement of the assignment, the property owner will be notified in writing by certified mail, return receipt requested, offering them the opportunity to accompany us during the on-site inspection of the property. After an inspection of the subject property and the neighborhood, we will prepare an appraisal of the property and report our estimate of market value using our narrative summary format. The appraisal will consider those approaches to value appropriate for the type of assignment; namely, the Sales Comparison, also referred to as the Market Data Approach, and the Cost Approach. The Income Approach to value may not be appropriate and may not be used in the final valuation for this assignment. This is not considered a departure from recognized valuation methodology according to the Uniform Standards of Professional Appraisal Practice.

The appraisal and report will be prepared in compliance with Standard 2.2(a) of the 2016-2017 Uniform Standards of Professional Appraisal Practice (USPAP) of the Appraisal Foundation and the Appraisal Institute, the Professional Code of Ethics of the Appraisal Institute and the Green Acres appraisal guidelines. The appraisal will adequately identify the real estate and property interests to be appraised. The purpose and the intended use of the appraisal will be considered, as well as the effect on use and value of existing land use regulations and any reasonable and probable modifications of the land use regulations.

The economic demand, physical adaptability of the real estate, the neighborhood trends and the Highest and Best Use will be analyzed and reported. The valuation process will include the collecting, verifying and analyzing of physical, functional and external market factors that may affect the value of the properties under appraisal.

The scope of the work will include, but not be limited to, meeting with the property owner or their representatives to inspect the subject property. The project maps prepared for the County of Passaic will be studied. The neighborhood will be evaluated and data gathered regarding state, county and local demographics and local area data. The Woodland Park Zoning ordinance, master plan and other mapped data, as well as the USGS and NJDEP prepared flood hazard and wetlands data, and the NJ Highlands maps and data, will be analyzed.

May 8, 2017

We will research the local real estate market for comparable data. This involves seeking sales of similar tracts in Woodland Park Borough and other nearby communities. Comparable real property sales will be collected from sources including, but not limited to, the local multiple listing service, Coster comparable data service, First American Corelogic data service, and the County Board of Taxation's SR-1A reports. Sales will be verified adequately and commensurate with the purpose of the assignment and analyzed. All data will be analyzed and conclusions as to market value will be based on our analysis of what might be expected in the local market for the subject property, as of the value date.

If the Cost Approach is used, the Marshall and Swift, the NJ Tax Assessors Manual or similar service will be utilized to estimate the replacement cost of any improvements. The valuation estimate will assume that municipal, county, state and/or federal regulations under which the property or the current use might be governed are in compliance and that there are no environmental problems or issues that affect the value, except, if applicable, the presence and effect of the Highlands Preservation Act, wetlands and transition buffers, soil conditions and flood hazard zones.

Extraordinary Assumptions

An extraordinary assumption is an assumption that is specific to this particular appraisal assignment, which, if found to be false, could alter the appraiser’s opinions or conclusions. Extraordinary assumptions are made so as to bring clarity to the opinion of value and to make the conclusions more meaningful. The appraisal may mention other assumptions, either general or specific to this assignment, throughout the report. For this assignment, the extraordinary assumption will be made that the property was in comparable condition as of the date of value as existed on the date of inspection. No other extraordinary assumptions will be made, unless based on an independent professional NRE report that might be prepared for and provided by the County of Passaic.

May 8, 2017

Hypothetical Conditions

A hypothetical condition is one which is contrary to what actually exists, but is supposed for the purposes of analysis. These conditions could be with regard to physical, legal or economic characteristics of the Subject Property; or about conditions external to the property. Typically a hypothetical condition may be presented to the appraiser by the client for the purposes of specificity of value or may be utilized by the appraiser for illustrative purposes. For this appraisal, no hypothetical conditions will be assumed unless reported by an independent professional whose NRE report will be prepared for and provided by the County of Passaic prior to commencement of the assignment.

Intended User and Intended Use

The appraisal and report will be prepared for the County of Passaic as the intended user and it will be for the County of Passaic's sole and exclusive use in estimating market value for the purposes outlined herein. By acceptance of this proposal, the County of Passaic agrees to obtain written authorization from us before using the analyses or the written report for any other use or purpose other than to aid in establishing the market value of the property for the proposed acquisition, which is the intended use of the appraisal, or before releasing the analyses or report for any other use, or before releasing the analyses or report to any other party or parties, except as required by law, or to parties with an equitable interest in the property, or to municipal, county or state officials, or any Federal and/or State agencies or courts involved with or reviewing this matter. It is specifically understood that the appraisal will not be utilized for sale brochures or marketing, tax assessment appeals or mortgage lending or underwriting purposes.

The possession of the appraisal report, or any copy or portion thereof, by any representative of the client or any third party does not include or confer any rights of publication or redistribution of the report other than to such persons or entities identified in this agreement who shall be advised in writing of Harry L. Schwarz & Co's rights under this agreement prior to their receipt of the appraisal report. All rights, title and interest in any data gathered in the course of preparing the appraisals and reports, excluding any data furnished by or on the client's behalf, and the content of the report prepared pursuant to this agreement shall be vested in Harry L. Schwarz & Co.

Subject to the foregoing, the representatives of the client shall have the right to possess a copy of the report and to disclose the conclusions to the client's attorneys, accountants or other professional advisors as related to the property that is the object of this assignment, provided that such attorneys, accountants or advisors are advised in writing of Harry L. Schwarz & Co's rights under this agreement prior to receipt of the appraisal report.
