Re: Steven J. Edmond, P.E., County Engineer
Retirement from Passaic County

Dear Mr. De Nova:

After a long and thoughtful deliberation, I have decided to retire. The decision to leave has not been an easy one. I will be resigning my appointed position as Passaic County Engineer on May 31, 2018.

My time at Passaic County has been professionally and personally rewarding. It has been an amazing journey working for Passaic County for 33 years and serving as County Engineer for the past 27 years.

During the next several months I am willing to help in any way to make the transition as smooth as possible.

I once again wish to express my gratitude to having the opportunity to work for Passaic County and I feel blessed to have been part of what is a great County team.

Very truly yours,

Steven J. Edmond, P.E.

**Management:** All 4 vendors did meet all requirements for this area and all received a total of 20 points.

**Technical:** Westwood, Diamond, and Correct met all requirements for this area. CPS did not respond to the question on IV pumps and received a 2 point deduction. Westwood, Diamond, and Correct Rx all received 20 points, CPS received 18 points.

**Cost:** All vendor responses to costs were evaluated based on five categories. Prices of top 50 meds accounted for 80% while Name Brand Discount, Generic Discount, Vivitrol, and Narcan all accounted for 5% each.

**While CPS totaled the lowest cost, the response to the RFP was not in the format requested and in 4 areas, CPS submitted costs in the wrong unit quantity forcing the committee to assume calculations to determine the actual cost proposal. The committee had to consider the pricing discrepancies while reviewing their response. CPS and Correct Rx received 54 points; Westwood and Diamond received 52 points.

Based on a review of all RFP responses, the committee recommends awarding a contract to Correct Rx Pharmacy Services for Pharmaceutical Services for the Passaic County Jail for a contract period of April 1, 2018 thru March 31, 2021 with two one-year options. Westwood, Diamond and Correct Rx are qualified for purchases on an as-needed basis. The anticipated expenditure is $700,000.00 per year for a total award of $2,100,000.00. The expected budget account to be used is 8-01-25-157-003-M01.

Terms of PARITY

Each electronic proposal must be submitted via PARITY. No bidder will see any other bidder’s bid, nor will any bidder see the status of its bid relative to other bids (e.g., whether its bid is a leading bid). To the extent any instructions or directions set forth on PARITY conflict with this Notice of Sale, the terms of this Notice of Sale shall control. For further information about PARITY, potential bidders may contact PARITY at I-Deal at (212) 404-8102. The County may, but is not obligated to, acknowledge its acceptance in writing of any bid submitted electronically via PARITY. If a bid submitted electronically via PARITY is accepted by the County, the terms of the official “Proposal for Bonds” and this Notice of Sale and the information that is electronically transmitted via PARITY shall form a contract, and the successful bidder shall be bound by the terms of such contract.

PARITY is not an agent of the County, and the County shall have no liability whatsoever based on any bidder’s use of PARITY, including but not limited to any failure by PARITY to correctly or timely transmit information provided by the County or information provided by the bidder.

The County may choose to discontinue use of electronic bidding via PARITY by issuing a notification to such effect via TM3 News Services, or by other available means, no later than 3:00 p.m., Eastern Time, on the last business day prior to the Sale Date.

Once the bids are communicated electronically via PARITY to the County, each bid will constitute an official “Proposal for Bonds” and shall be deemed to be an irrevocable offer to purchase the Bonds on the terms provided in this Notice of Sale. For purposes of submitting all “Proposals for Bonds,” whether electronically or sealed, the time as maintained on PARITY shall constitute the official time.

Each bidder shall be solely responsible to make necessary arrangements to access PARITY for purposes of submitting its bid in a timely manner and in compliance with the requirements of this Notice of Sale. Neither the County nor I-Deal shall have any duty or obligation to provide or assure to any bidder, and neither the County nor I-Deal shall be responsible for the proper operation of, or have any liability for any delays or interruptions of, or any damages caused by, PARITY. The County is using PARITY as a communication mechanism, and not as the County’s agent, to conduct the electronic bidding for the Bonds. Definitions

"Bid" any confirmed purchase offer received by PARITY on or before the proposal submission deadline.

"Bidder" any firm registered and approved for participation in sale.

"True Interest Cost (TIC)" True interest cost shall be computed in each instance by determining the interest rate, compounded semi-annually, necessary to discount the debt service payments to the date of the bonds and to the price bid, excluding interest accrued to the delivery date. The TIC serves as the basis for awarding bonds to the winning Bidder.

"Winning Bid" any purchase offer made by a Bidder and received by PARITY that, at the end of the bidding time period, results in the lowest TIC that is acceptable to the County.

Bid Procedure and Basis of Award

Subject to the right reserved by the County to reject any or all Bids, the Bonds will be sold to the Bidder whose Bid produces the lowest TIC for the County and otherwise complies with the Notice of Sale.

Bids must remain valid until at least 2:00 p.m., prevailing time, on the Sale Date, and if accepted by the County, prior to such time, shall be irrevocable except as otherwise provided in the Notice of Sale. Upon selection of the winning Bidder, the County will execute an award certificate to award the Bonds and will promptly communicate with the winning Bidder by telephone, e-mail or fax.
Bid Security and Method of Payment for Bonds

A Good Faith Deposit ("Deposit") in the form of a certified or cashier’s check, wire transfer (wiring instructions can be obtained from the County’s Bond Counsel) or a Financial Surety Bond in the amount of $64,000, payable to the order of the County, is required for each bid to be considered. If a check is used, it must be a certified treasurer’s or cashier’s check and must be provided to the County prior to 10:00 a.m. on the Sale Date for bids to be submitted. If a wire transfer is used, such wire must be received by the County prior to 10:00 a.m. on the Sale Date. Each bidder accepts responsibility for delivering such check or wire on time and the County is not responsible for any check or wire that is not received on time. If a Financial Surety Bond is used, it must be from an insurance company licensed to issue such a bond in the State of New Jersey and approved by the Director of the Division of Government Services of New Jersey (the "Director") and such bond must be submitted to the County prior to 10:00 a.m. on the Sale Date at the address referred to above. At present, the Director has approved the use of Sure-Bid, a division of Financial Security Assurance Inc. Use of any other Financial Surety Bond must be approved by the Director prior to the bid and will not be accepted by the County unless evidence of such approval is provided prior to the bid. The Financial Surety Bond must identify the bidder whose Deposit is guaranteed by such Financial Surety Bond. If the Bonds are awarded to a bidder utilizing a Financial Surety Bond, then that purchaser (the "Purchaser") is required to submit its Deposit to the County by wire transfer as instructed by the County not later than 3:30 p.m. on the next business day following the Sale Date. If such Deposit is not received by that time, the Financial Surety Bond may be drawn by the County to satisfy the Deposit requirement. No interest on the Deposit will accrue to the Purchaser. The Deposit will be applied to the purchase price of the Bonds. In the event the Purchaser fails to honor its accepted bid, the Deposit will be retained by the County. Award of the Bonds to the successful Bidder or rejection of all Bids is expected to be made within two hours after opening of the bids, but such successful Bidder may not withdraw its proposal until after 2:00 p.m. on the Sale Date and then only if such award has not been made prior to the withdrawal. The balance of the purchase price shall be paid in Federal Funds by wire transfer to the County on or about the delivery date.

Right to Reject Bids; Waive Irregularities

The County reserves the right to reject any and all Bids and to the extent permitted by law to waive any irregularity or informality in any Bid.

Information Required from the Winning Bidder

By making a bid for the Bonds, the winning bidder(s) agrees: (a) to provide to the County, in writing, immediately upon being unofficially awarded the Bonds, a written confirmation of the bid, which shall include the purchase price, reoffering yield(s), and other related information necessary for completion of the final Official Statement, and by Bond Counsel; (b) to disseminate to all members of the underwriting syndicate copies of the Official Statement; (c) to promptly file a copy of the final Official Statement with the Municipal Securities Rulemaking Board; and (d) to take any and all other actions necessary to comply with applicable Securities and Exchange Commission and Municipal Securities Rulemaking Board rules governing the offering, sale and delivery of the Bonds to alternate purchasers.

Delivery of the Bonds

The Bonds will be delivered on or about the Delivery Date (UNLESS A NOTICE OF A CHANGE IN THE DELIVERY DATE IS PUBLISHED ON MUNIAUCTION NOT LATER THAN 2 HOURS PRIOR TO ANY ANNOUNCED DATE FOR RECEIPT OF BIDS) in New York City at DTC.
against payment of the purchase price therefor (less the amount of the good faith deposit) in Federal funds.

There will also be furnished the usual closing papers, including (1) a certificate signed by the officials who signed the Bonds stating that no litigation of any kind is now pending or, to their knowledge, threatened to restrain or enjoin the issuance or delivery of the Bonds, or in any manner questioning the proceedings and authorization under which the Bonds are issued or affecting the validity of the Bonds and (2) a certificate signed by the County relating to the official statement.

CUSIP Numbers

CUSIP numbers will be applied for with respect to the Bonds, but the County will assume no obligation for the assignment or printing of such numbers on the Bonds or for the correctness of such numbers, and neither the failure to print such numbers on any bond nor any error with respect thereto shall constitute cause for a failure or refusal by the purchasers thereof to accept delivery of and make payment for the Bonds. The CUSIP Service Bureau charge for the assignment of the numbers shall be the responsibility of and shall be paid for by the winning Bidder.

Legal Opinions

The approving opinions of McManimon, Scotland & Baumann, LLC, Bond Counsel to the County, will be furnished without cost to the winning Bidder.

Postponement

The County reserves the right to postpone, from time to time, the date and time established for receipt of Bids. ANY SUCH POSTPONEMENT WILL BE PUBLISHED OR POSTED BEFORE 9:00 A.M. ON THE SALE DATE. If any date fixed for the receipt of Bids and the sale of the Bonds is postponed, an alternative sale date will be announced via MuniAuction at least forty-eight (48) hours prior to such alternative sale date. On any such alternative sale date, any Bidder may submit a Bid for the purchase of the Bonds in conformity in all respects with the provisions of the Notice of Sale, except for the date of sale and except for the changes announced on MuniAuction at the time the sale date and time are announced.

Official Resolution #: R20180357
Redemption Provisions

The Bonds of this issue are not subject to redemption prior to their stated maturities.

Term Bond Option

Bidders may elect to structure the issue to include term bonds (the “Term Bond Option”), which term bonds, if selected by the bidder, will be subject to mandatory redemption prior to maturity, in the years and amounts shown above as serial maturities, upon payment of one hundred percent (100%) of the principal amount of the Bonds to be redeemed, together with accrued interest to the date fixed for such mandatory redemption of such amounts. If the Bonds are awarded and no term bonds are designated in the Winning Bid (as defined herein), the Bonds will mature serially as shown in the preceding schedule.

Terms of PARITY

Each electronic proposal must be submitted via PARITY. No bidder will see any other bidder's bid, nor will any bidder see the status of its bid relative to other bids (e.g., whether its bid is a leading bid). To the extent any instructions or directions set forth on PARITY conflict with this Notice of Sale, the terms of this Notice of Sale shall control. For further information about PARITY, potential bidders may contact PARITY at I-Deal at (212) 404-8102. The County may, but is not obligated to, acknowledge its acceptance in writing of any bid submitted electronically via PARITY. In the event that a bid for the Bonds is submitted via PARITY, the bidder further agrees that: The County may regard the electronic transmission of the bid via PARITY (including information about the purchase price of the Bonds, the interest rate or rates to be borne by the various maturities of the Bonds specified, the initial public offering price of each maturity of the Bonds and any other information included in such transmission) as though the same information were submitted on the official “Proposal for Bonds” provided by the County and executed by a duly authorized signatory of the bidder. If a bid submitted electronically via PARITY is accepted by the County, the terms of the official “Proposal for Bonds” and this Notice of Sale and the information that is electronically transmitted via PARITY shall form a contract, and the successful bidder shall be bound by the terms of such contract.

PARITY is not an agent of the County, and the County shall have no liability whatsoever based on any bidder’s use of PARITY, including but not limited to any failure by PARITY to correctly or timely transmit information provided by the County or information provided by the bidder.

The County may choose to discontinue use of electronic bidding via PARITY by issuing a notification to such effect via TM3 News Services, or by other available means, no later than 3:00 p.m., Eastern Time, on the last business date prior to the Sale Date.

Once the bids are communicated electronically via PARITY to the County, each bid will constitute an official “Proposal for Bonds” and shall be deemed to be an irrevocable offer to purchase the Bonds on the terms provided in this Notice of Sale. For purposes of submitting all “Proposals for Bonds,” whether electronically or sealed, the time as maintained on PARITY shall constitute the official time.

Each bidder shall be solely responsible to make necessary arrangements to access PARITY for purposes of submitting its bid in a timely manner and in compliance with the requirements of this Notice of Sale. Neither the County nor i-Deal shall have any duty or obligation to provide or assure to any bidder, and neither the County nor i-Deal shall be responsible for the proper operation of, or have any liability for any delays or interruptions of, or any damages caused by, PARITY. The
County is using PARITY as a communication mechanism, and not as the County’s agent, to conduct the electronic bidding for the Bonds. By using PARITY, each bidder agrees to hold the County harmless for any harm or damages caused to such bidder in connection with its use of PARITY for bidding on the Bonds.

**Introduced on:** May 8, 2018  
**Adopted on:** May 8, 2018  
**Official Resolution #:** R201800357
Bidders may bid to purchase Bonds from the County with an original issue premium. Such original premium may not exceed $192,000. No Bid will be considered if the Bid is to purchase Bonds at a price less than 100% of the principal amount thereof.

Each proposal submitted must name the rate or rates of interest per annum to be borne by the Bonds and the rate or rates named must be multiples of 1/8 or 1/20 of 1%. The difference between the highest and lowest interest rates named in the Bid shall not exceed three percent (3%) per annum. Not more than one rate may be named for Bonds of the same maturity. There is no limitation on the number of rates that may be named. Each proposal submitted must state the purchase price, which must be not less than par. The Bonds will be awarded to the bidder on whose bid the total loan may be made at the lowest true interest cost (“TIC”). Such TIC shall be calculated as described below. No proposal shall be considered that offers to pay an amount less than the principal amount of Bonds offered for sale or under which the total loan is made at a TIC higher than the lowest TIC to the County under any legally acceptable proposal. The purchaser must also pay an amount equal to the interest on the Bonds accrued to the date of payment of the purchase price, if applicable.

Bidders are only permitted to submit Bids for the Bonds during the bidding period.

Dear Ms. Owen,

I am writing to welcome you to the Department of Children and Families (DCF) as an employer for the newly implemented Substance Use Navigator positions and to guide you through the process of establishing a new contract with the Children’s System of Care (CSOC). This is a follow-up to the September 20th letter from Allison Blake, Commissioner of CSOC, informing you that your proposal was selected to receive these funds.

**DCF Standard Contract Documents**

We expect that this process will go smoothly as Passaic County works with CSOC through other contracts. To aid you in the assembly of your initial contract packet, I have attached a copy of the “Post Award Documents” checklist, which contains clickable links to the specific documents. Also note that several contract documents require signatures and must be dated.

Please reference the contract number indicated above on all correspondence. All completed documents are to be submitted **in scanned PDF format** to the following email addresses:

- ChildrensSystemofCare.BusinessOffice@def.state.nj.us
- jarrett.quick@def.state.nj.us

Be aware that our server will only accept a total of 10MB of attachments per email. Depending on the quality of your scanner, it may be necessary to send more than one email.

Francine Vince,
Passaic County Division of Mental Health and Addiction Services
401 Grand Street
5th Floor
Paterson, NJ 07505

Dear Ms. Vince:

The Governor’s Council on Alcoholism and Drug Abuse (GCADA) is announcing its intention to provide a grant to Passaic County for the Fiscal Year 2019 Alliance to Prevent Alcoholism and Drug Abuse Program. The allocation for Fiscal Year 2019 per formula from the Drug Enforcement Demand Reduction (DEDR) Fund, including coordination funds, is $512,024.

The grant period will begin July 1, 2018 and continue through June 30, 2019. This letter of Intent is contingent upon the availability of funds and is subject to the rules of the New Jersey Department of Treasury.

County coordination funds are included in your funding formula award. Counties may take up to 15% of their DEDR award with a minimum of $50,000. The total amount of coordination funds available for your county for FY 2019 is $76,804. County spending plans will be approved by the GCADA in accordance with established grant guidelines.

Up to 5% of DEDR funds up to a maximum of $20,000, may be used for countywide activities. These activities should focus on training for the Municipal Alliances and community partners. The training and activities chosen must benefit the county-at-large.
Counties will be permitted to contract with Municipal Alliances that attended the required GCADA training on needs assessment and strategic planning process. Refer to the enclosed “Guidelines for Distributing Funds from Non-Participating Municipalities” for assistance in distributing funds from municipalities that are not participating for FY 2019.

All funds will be released to the counties after receipt and acceptance of the required expenditure and programmatic reports and vouchers.

The submission of approval of the County Alliance Plan, including a detailed budget for county coordination and countywide activities, will be required to access these funds. Plans must be submitted to GCADA by February 28, 2018. Plans received past the due date will not be assured of approval.

Please be advised that County Alliance Plan will be reviewed or presented to the full Council for approval if the County is not up to date with its expenditure and programmatic reports for the prior quarter.

The County’s timely cooperation and support are appreciated.

Sincerely,

Official Resolution #: R20180360
Guidelines for Distributing Funds from Non-Participating Municipalities

When determining the county's Municipal Alliance funding distribution, every municipality in the county must be allocated with funding. Although not every municipality in the county may be participating in the Municipal Alliance Program, it is important to allocate funding to each municipality in the event that the choice is made to reestablish the Municipal Alliance in the middle of a grant cycle. The funds set aside to the non-participating municipalities must be reallocated utilizing one or more of the following options:

1. Allocate funds into a supplemental category for the Municipal Alliances

Supplemental funds may be added to the base funding amount allocated by formula if a county is certain that there are municipalities that are not participating for the next grant year and before the Alliances are notified of their allocation. Supplemental funds may be added to participating municipalities based on criteria set by the County Alliance Steering Subcommittees. Criteria that should be considered are an Alliance's ability to utilize the funds appropriately as well as its history of meeting reporting requirements in a timely and efficient manner.

Example: Anytown is a municipality that is not participating in the Municipal Alliance Program and is allocated $3,000 based on the county funding formula. The funding for Anytown may be reallocated to Town 1, Town 2, Town 3, and Town 4 since they have shown to provide exceptional programming and meet all the reporting deadlines with accuracy as shown here:

<table>
<thead>
<tr>
<th>Participating Municipalities</th>
<th>Base Amount</th>
<th>Supplemental</th>
<th>Grant Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Town 1</td>
<td>$2,000</td>

</tr>
<tr>

<td>$2,600</td>
</tr>
<tr>
<td>Town 5</td>
<td>$3,000</td>
<td>$0</td>
<td>$3,000</td>
</tr>
</tbody>
</table>
2. Place the funds into countywide activities

As long as the county allocation for countywide activities falls under 5% of the DBDR allocation up to a maximum of $26,000, then the county may choose to place the funding allocated to the non-participating municipality towards countywide activities. The countywide activity form must be completed and approved by GCADA prior to program implementation.

3. Develop a Special Project RFP

The county may develop a Request for Proposal (RFP) process to distribute the funds allocated to non-participating municipalities. This is considered a special project application with the terms and criteria determined by the County Alliance Steering Subcommittee. GCADA forms must be used in the application process. All RFPs must be approved by the CASS and GCADA prior to program implementation.

RVE will provide all required equipment, labor and material necessary to properly identify, sample, qualify and quantify potential ACMs in the accessible areas within the four (4) subject buildings as identified above.

The sampling survey work includes a visual inspection of all accessible areas within the subject buildings, collection of suspect ACM samples, and report preparation by a licensed and certified environmental specialist, including Level C Personal Protection Equipment (if/as necessary) in accordance with applicable provisions of N.J.A.C. 7:26E and Occupational Safety and Health Administration (OSHA) Asbestos Standards (29 CFR 1910.1001 and 29 CFR 1926.1101).

All sample collection will be conducted in a safe manner in accordance with all applicable local, State, and Federal regulations, and National Emission Standards for Hazardous Air Pollutants (NESHAP) regulations (40 CFR Part 61, Subparts A and M), the Asbestos-Containing Materials Rule (40 CFR 763, Subpart E), and applicable provisions of N.J.A.C. 5:23-8 and N.J.A.C. 7:26E.
All bulk asbestos samples of suspect ACM collected will be submitted under chain-of-custody to an American Industrial Hygiene Association (AIHA) certified laboratory. Bulk asbestos samples will be submitted to the certified laboratory for Polarized Light Microscopy (PLM) analysis (USEPA Method 600/R-93/116). In accordance with NJDEP requirements, a representative sample of each non-organically bound (NOB) homogeneous sampling area (i.e. floor tile, roof shingles, plaster) with analytical results less than 1% asbestos via PLM will be submitted to further laboratory testing by Transmission Electron Microscopy (TEM) analysis (ELAP 198.4 Method).

Upon completion of Evaluation & Testing phase, RVE will prepare a summary report of findings and sample analytical results, as well as recommendations for proper abatement, if required, prior to renovations. The summary report will include Site Plans depicting sample locations and locations of confirmed ACMs observed in all surveyed areas.

**COST PROPOSAL**

Based on the above scope of work our lump sum fee for these services is $6,875.00 and will be invoiced on a percent complete basis under the additional phase Asbestos Survey & Report. Please note that this fee includes laboratory analysis of the collected material. Furthermore, it is assumed that the site owner will assist RVE in accessing all areas within each of the four (4) subject restroom buildings included in this survey.

We look forward to providing these additional engineering services for you. If you have any questions regarding this proposal, please contact Douglas Hopper, P.E., in our Cherry Hill office.

PROJECT DESCRIPTION

Existing
The Passaic Avenue (municipal roadway) culvert (County Structure No. 1600-092) over MacDonald Brook is located in the City of Passaic. The structure is a single span, brick jack arch deck with multiple steel stringers founded on stone masonry abutments. The culvert also has reinforced concrete slab extensions on both sides supported on concrete abutments. The date of construction of the brick jack arch deck section is unknown. The drawing for the reinforced concrete slab extensions is dated 1917.

The clear span between the abutments is approximately 10’. The out to out width of the culvert is approximately 93’. The culvert currently carries two lanes of traffic (one in each direction), two parking lanes, and a center island/median. The southbound curb to curb width is approximately 23’-8”, while the northbound curb to curb width is approximately 23’-9”. The median is 16’-1” wide. The upstream culvert sidewalk is approximately 13’-8” wide; while the downstream culvert sidewalk is approximately 13’-3”. There are sidewalks on both sides of the culvert. Re: Weasel Brook Park Improvements Phase 2
Remedial Investigation Services and LSRP Oversight

Dear Mr. Pera:

The Green Acres Program Memorandum dated January 10, 2018 (Memo) presents a review of the Preliminary Assessment Report prepared by T&M Associates for the referenced project in December 2017 (the 2017 PAR).

The 2018 Memo acknowledges that the 2017 PAR was completed in accordance with the required NJDEP procedure. However, the 2018 Memo required further investigation for the following AOCs.

1. Historically applied pesticides/former agricultural operations: The 2018 review memo requires investigation for historically applied pesticide contamination.

The Site Investigation revealed the presence of arsenic and lead above the most stringent NJDEP Soil Remediation Standard/Soil Screening Level in several of the samples associated with the investigation of historically applied pesticides. These impacts indicate that a discharge to the environment has occurred. At the request of the County, T&M contacted the NJDEP to report the discharge and Communications Tracking Number 18-04-12-1446-58 was assigned.

T&M will perform remedial investigation (RI) activities at the locations of the original soil borings that exhibited elevated concentrations of arsenic in an effort to vertically and horizontally delineate potential “hot spots”. The results of the initial RI sampling event will be used as the basis for additional investigation. For budgeting purposes, T&M has assumed the collection of no more than 50 samples to be analyzed for arsenic and lead. As discussed with Jeff Kozie from our office,

Re: Site Investigation
Former Nike Missile Site
Block 1400, Lot 26
Township of Wayne
Passaic County, New Jersey
Our File No. PR-18-8491

Dear Mr. Edmond:

Boswell Engineering (Boswell) is pleased to provide this proposal for the necessary environmental engineering services to conduct a site investigation (SI) at the above referenced property. The work is necessary in order for the County to ultimately construct their new Department of Public Works (DPW) facility.

INTRODUCTION

The site is located at 1310 Route 23 in the Township of Wayne, Passaic County, New Jersey. The subject property is an irregularly shaped parcel encompassing approximately 32.6-acres. The facility operated as a Three Magazine Nike Missile Base circa 1955-1963. Farleigh Dickinson University later acquired the site which was used as a satellite campus. The County of Passaic currently owns the site which is used for housing County and Township offices and serving as a school bus maintenance facility.
In 1987, the United States Department of Defense (DOD), conducted a confirmation study of the site to investigate potential toxic and hazardous waste contamination. The investigation involved installing and sampling four (4) monitoring wells, sampling surface soil and silo water. Groundwater sampling detected only the heavy metals lead and chromium above their applicable New Jersey Department of Environmental Protection (NJDEP) standards. However, further investigation revealed that metal concentrations were attributed to sample turbidity and not the result of former site operations. Laboratory results of the silo water revealed only lead above the NJDEP Groundwater Quality Criteria (GQC). Lastly, soil sampling revealed the presence of several metals, however their concentrations were attributed to natural background.

It should be noted that these results were obtained over 30-years ago. Moreover, it is our understanding that the DOD is the property’s responsible party (RP) and is ultimately responsible for the property’s investigation and remediation. However, Boswell recommends the site investigation detailed herein to evaluate the potential effects any remaining contamination may have on the construction of the proposed DPW facility. The work can also minimize delays and change orders that could occur during construction, if unexpected contaminants are encountered.

**SCOPE OF WORK**

In order to accomplish the project’s investigation and remediation pursuant with the NJDEP’s Technical Requirements and various guidance documents Boswell proposes the following scope of work:

**Task I: Site Investigation**

Boswell proposes the following work at the site’s environmental areas of concern (AOC):

**AOC-1: Former Missile Storage Magazine**

The former missile storage magazine is located on the northeast portion of the site. The potential exists for spilled fuel, solvents, etc. to have contaminated the surrounding area. Additionally, the elevators reportedly utilized 275-gallons of hydraulic fluid in their operation. Three (3) concrete platforms currently remain on the site, which represent the locations of the former elevators. It is unknown how this structure was demolished or if fill material was brought in from off-site to fill the voids. At this AOC, Boswell recommends advancing up to 18 soil borings to determine the area’s subsurface characteristics. Borings will be advanced with an air-rotary drilling rig up to a depth of +20’ below ground surface (bgs) since concrete will likely be encountered. Boswell will collect up to nine (9) soil samples and three (3) groundwater samples for laboratory analysis to determine the presence/absence of contamination.

County Engineer
County of Passaic

Page 3

Our fee for the work detailed at this AOC is approximately $5,500.00.

In addition to the Boswell fee there will be contractor costs as set forth below:

**Drilling Subcontractor:**

The work anticipated for the drilling subcontractor is as follows:

- Mobilization;
- Air rotary soil boring, temporary well point installation; and,
- Backfill holes with bentonite.

The total estimated cost for the drilling subcontractor based upon three (3) days of field work is $7,500.00.

**Subcontracted Laboratory**

All sample analysis will conform to the appropriate United States Environmental Protection Agency (EPA) Method, with results reported in the New Jersey Tier II Reduced Deliverables Format.

An estimated number of samples, including duplicates and blanks required by the NJDEP, with the subcontracted laboratory quoted fees are as follows:

**Soil**

Extractable Petroleum Hydrocarbons (Cat-2)
@ $160 x 9................................................................. $ 1,440.00

Full Target Compound/Analyte List (TCL/TAL)
@ $650 x 9................................................................. $ 5,850.00

Hexavalent Chromium
@ $85 x 9................................................................. $ 765.00

**Groundwater**

Full Target Compound/Analyte List (TCL/TAL) (water)
@ $650 x 3................................................................. $ 1,950.00

The total estimated laboratory cost is $10,100.00.
AOC-2: Former Underground Storage Tanks (UST)

At least two (2) underground storage tanks (UST) were formerly utilized on the property; one (1) at the former Gasoline Pumping Area and a second at the Generator Building. At each of the two (2) tanks, Boswell recommends advancing a limited number of soil borings and collecting one (1) soil and one (1) groundwater sample for laboratory analysis. If the former tank locations are positively identified (i.e. distinct backfill material encountered), we will also collect one (1) sample from the backfill material.

Our fee for the work detailed at this AOC is approximately $1,200.00.

In addition to the Boswell fee there will be contractor costs as set forth below:

Drilling Subcontractor

The work anticipated for the drilling subcontractor based upon 1-day of field work is as follows:

- Mobilization;
- Geoprobe soil boring, temporary well point installation; and,
- Backfill boles with bentonite.

The total estimated cost for the drilling subcontractor based upon 1-day of field work is $1,500.00.

Subcontracted Laboratory

All sample analysis will conform to the appropriate EPA Method, with results reported in the New Jersey Tier II Reduced Deliverables Format.

An estimated number of samples, including duplicates and blanks required by the NJDEP, with the subcontracted laboratory quoted fees are as follows:

Soil

Extractable Petroleum Hydrocarbons (Cat-1)
@ $80 x 2...........................................$160.00

Naphthalene/2-Methylnaphthalene contingent

Groundwater

Volatile Organic Compounds (VOA + TICs)
@ $80 x 2 ...........................................................................................................$160.00

Semi-Volatile Organic Compounds (SVOA + TICs)
@ $200 x 2 .......................................................................................................$400.00

The total estimated laboratory cost is $2,400.00.

AOC-3: Wastewater Disposal System

A review of available records and an onsite inspection revealed that a wastewater disposal system (likely two [2] cesspools) is located at the site's southwest corner, in the vicinity of the former Chlorinator House and Generator Building. The potential exists that at some time in the past hazardous materials may have been released into the system. At this AOC Boswell recommends an investigation in accordance with current NJDEP requirements. This will involve collecting one (1) sample from the water in the system and one (1) from the sludge. Additionally, we will advance one (1) soil boring hydraulically downgradient of each of the pools and collect a soil and groundwater sample.

Our fee for the above referenced work is approximately $2,200.00.

In addition to the Boswell fee there will be contractor costs as set forth below.

Drilling Subcontractor

The work anticipated for the drilling subcontractor is as follows:

- Mobilization;
- Geoprobe soil boring, temporary well point installation; and,
- Backfill holes with bentonite.

The total estimated cost for the drilling subcontractor based upon 1-day of field work is $1,500.00.

Soil

Full Target Compound/Analyte List (TCL/TAL) (water)
@ $650 x 2.................................................................................................$1,300.00

The cost for the laboratory analysis is approximately $5,200.00.

Proposed Underground Storm Water Detention System

In addition to the above AOCs, Boswell also recommends advancing one (1) soil boring at each of the three (3) proposed underground storm water detention systems. At each boring we will collect one (1) soil and one (1) groundwater sample for laboratory analysis.

Our fee for the above referenced work is approximately included in the AOCs above.

In addition to the Boswell fee there will be contractor costs as set forth below.

Drilling Subcontractor

The work anticipated for the drilling subcontractor is as follows:

• Geoprobe soil boring, temporary well point installation; and,
• Backfill holes with bentonite.

The total estimated cost for the drilling subcontractor is included in the AOCs above.

Upon completion of the work we will summarize the investigation’s results in a Site Investigation Report (SIR) that will include:

• Photoionization detector (PID) field screening results;
• Photodocumentation;
• Analytical result summary tables;

F. EQUIPMENT

List non-expendable items that are purchased. Expendable items should be included in the "Supplies" category. Applicants should analyze the cost benefits of purchasing versus leasing equipment, especially high cost items and those subject to rapid technological advances. Rented or leased equipment costs should be listed in the "Purchase or Services" category. The budget narrative must explain how the equipment is necessary for the success of the project, and describe the procurement method to be used.

Your organization may use its own capitalization policy for classification of equipment and supplies, but only when it is less than the Federal policy threshold of $5,000. Equipment means tangible personal property (including information technology systems) having 1) a useful life of more than one year and 2) a per-unit acquisition cost of $5,000 or greater (or your organization's capitalization policy, if it is less than $5,000). If your organization does not have a capitalization policy in place, you must use the Federal policy amount of $5,000.

Re: STOP Violence Against Women Act (VAWA) Grant Program
Project Title: County Office of Victim Witness Advocacy - DV Advocate
Subgrant Number: VAWA-57-16
Extension

Dear Prosecutor Valdes:

Your agency’s current subgrant titled “FY16 VAWA County Office of Victim Witness Advocacy - Domestic Violence Advocate” ends on October 29, 2018. The Office of the Attorney General (OAG) seeks to align all Domestic Violence Advocate subgrants with the State Fiscal Year. This alignment of the subgrant project period and the State Fiscal Year will allow the Violence Against Women Act (VAWA) Domestic Violence Advocate and the Victims of Crime Act (VOCA) Office of Victim Witness Advocacy subgrants to be merged as one subgrant effective July 1, 2019. This will be the final award of funding for this project under VAWA due to the transition to VOCA as the funding source.

In order to accomplish this goal, Subgrant No. VAWA-57-16 will be extended through June 30, 2019. Your revised grant award for the period of October 30, 2017 – June 30, 2019 is $58,881 in federal subaward funds to be matched with $19,627 in cash or in-kind services for a total of $78,508.
Prosecutor Valdes  
April 18, 2018

Your subgrant application was received in the Grants Development Section and processing placed on hold pending the decision and action plan(s) to merge the VOCA County Office of Victim Witness Advocacy and VAWA DV Advocate subgrants into one subgrant effective July 1, 2019. Modifications to your agency’s application are required. In response to this letter, please update the following documents to reflect the extended subgrant period of October 30, 2017–June 30, 2019: (1) Budget Detail Form; (2) budget narrative; (3) Work Plan (action strategy); and (4) project narrative. Please submit these documents, via e-mail to Analyst Guglich, no later than Tuesday, May 22, 2018.

WHEREAS the Passaic County Sheriff's Department has requested that it be permitted to purchase ten (10) computer Info-Cop Licenses at $1,000.00 each from Gold Type Business Machines Inc. (G.T.B.M) of East Rutherford, NJ; and

WHEREAS since these licenses include computer software which is proprietary in nature their purchase is exempt from public bidding pursuant to N.J.S.A.: 40A:11-5(dd); and

WHEREAS the purchase of these licenses though will bring the total amount of purchase above the monetary threshold set forth under the Pay to Play Law (N.J.S.A. 19:44A-20.3 et seq); and

WHEREAS the said Board, by Resolution 06-97 dated February 14, 2006 established a policy of only awarding contracts in excess of the monetary threshold set forth under the Pay to Play Law only under a fair and open process; and

WHEREAS the Board is desirous of making an exception to that policy because of the unique circumstances of this case; and
WHEREAS the Local Public Contracts Law, N.J.S.A. 40A:11-1 et seq., requires that the resolution authorizing the award of contract for exempt services and the contracts themselves must be available for public inspection; and

WHEREAS the members of the Freeholder Committee for Law & Public Safety considered this matter and recommended it to the full Board for approval, with the provision that the contract recipient agrees that it will make no political contributions as set forth in the above referenced Act; and

RE: Corridor Enhancement Request

The following information is meant to supplement the Corridor Enhancement Program request for $2,000.00 to fund the purchase of traffic detection cameras at three locations along Grand Street in Paterson. The cameras are being replaced as part of the County’s annual resurfacing program. This occurs any time the legacy “loop” systems are damaged by the resurfacing and provides cameras to actuate the signal change along County roadways. In this case the replacement was slated for the two traffic controllers that manage three intersections accessing Route 19. These include the on and off-ramp as well as Spruce Street. The County provided previous Corridor Enhancement Funds to install Miovision systems which provide real-time traffic metrics along Grand Street. The new cameras will supplement these systems and allow for automated, 24-hour traffic counts that will allow Paterson and the County to precisely analyze and modify signal timing dynamically through the year. This will provide a test bed for smart technology that may be applicable to the County’s future installation of similar systems funded through a $1.6 million grant received last year for Main Street and the Paterson-Hamburg Turnpike.

Estimated time of completion for phase IV is end of July. Hence, I am formally requesting extension for this project through 7/31/2018.

Should you have any questions, or need additional information, please let me know.

Thank you for your assistance in this matter.

Re: 2018 Innovations Funding Award  

Dear Co-Chairs:  

The Juvenile Justice Commission (JJC) is pleased to advise you that Passaic’s Innovations application, which totals $124,000 and includes proposals for the Probation Detention Alternative Program (PDAP), Passaic County Youth and Family Enrichment Program, and Probation Orientation Program, has been approved. A copy of the award letter sent to your Youth Services Commission Administrator is attached.  

Note that the review process involved evaluating not only each Innovations Proposal, but also the 2016 Annual Implementation & Outcome Reports submitted by Passaic County. The committee supports Passaic’s decision to no longer fund HBAP since the program failed to reach program objectives. We hope to see greater progress achieving measurable outcomes by PDAP, which is aimed at increasing the release of youth admitted to detention from probation supervision. Additionally, the subcommittee looks forward to seeing the outcomes of the Youth and Family Enrichment Program and the Probation Orientation Program.  

You will receive new templates for the 2017 Implementation & Outcome Reports in the early months of 2018. Each JDAI site’s ability to demonstrate clear progress toward fully implementing programs as designed, and achieving identified goals, will continue to be a factor in Innovations Funding decisions.  

Consistent with JDAI core strategies, the County Council continues to be responsible for producing data that reflect the implementation and outcome measures identified in approved...

Purpose

Provide a brief overview of the innovation for which the funds will be used. Passaic County will utilize Innovations funding to create a multi-faceted community based enrichment program for youth on probation between the ages of 12 and 19 who reside in Passaic County with an emphasis on youth who reside outside of the cities of Paterson and Passaic. The program will focus on youth who have a high need on probation and are at risk of or have a history of violations. In addition the program will target youth who (1) violate probation; or (2) are at risk of a violation due to non-compliance. The program will utilize a coordinator to engage youth and their families with local service providers and community supports. The coordinator will collaborate with and work closely with community organizations to address systemic issues within the family that may cause violations of probation. The program will reduce the number of youth detained for VOP's by addressing issues affecting not just the youth, but also the home environment. For the purposes of this proposal, a family member is anyone that has a significant emotional tie to the youth. The program will focus on youth in the northern part of Passaic County. The majority of programs are held in the cities of Paterson and Passaic which makes it hard for youth who live in the northern part of Passaic County to travel down to Paterson or Passaic. The program will focus on youth who live in towns of Ridgefield, Wayne, Pompton Lakes, Bloomingdale, West Milford, and Wanaque. This will also allow for community development for those youth to increase success and family support. The goal of this program is help support youth outside of Paterson and Passaic and create services that meet their needs and location to increase success.

The role of the coordinator is to function as a liaison between probation and the community. The coordinator will develop and maintain relationships with community resources and link youth on probation to these resources to prevent future violations. Additionally, the coordinator will have extensive knowledge of Passaic County and community networks. Referrals will be received from probation or through a review hearing in which probation is present. A process to receive these referrals will be developed through collaboration between probation and the coordinator.

The program coordinator will collaborate with Passaic County Probation, Passaic County community providers, family court and family support services to build relationships and link families with local resources and support services. In addition, the coordinator will link the families/guardians to agencies/services that will assist in preventing future violations and promote a healthy living environment. An integral part of the program involves fostering relationships with community support networks and organizations located in towns outside of Paterson and Passaic. The coordinator will link youth to positive activities and resources in their community and explore healthy coping skills to overcome drug use and abuse, toxic family dynamics, trauma and financial issues. The coordinator, probation, and service providers will collaborate to analyze the reasons youth are violating probation. This information will be utilized to develop strategies to promote the importance of compliance and strong family ties. An assessment from both parent/guardian and youth will be utilized to determine the strengths and weaknesses of the program. Outside of referrals the coordinator will:

- Link families with community based services in the youth’s town or neighboring town
- Conduct a strength and needs determination after the initial visit to develop plans to help youth become more successful and help families work on generational issues that are contribute to noncompliance
- Hold a minimum of 3 hour long family sessions per week. A family may require more than one session per week. This will be determined by the Coordinator.
- Offer advocacy and support by meeting with families for at least one hour a week to discuss current or lingering family issues that are contributing to youth behavior or issues the family is facing
- Meet with probation monthly to discuss family progress
- Plan a minimum of 4 community or family engagement events to develop a community network for families and help develop healthy relationships between youth and their families

• Meet with families to discuss potential community-based programs and activities for both youth and families.

In addition, the coordinator will work with families, as needed, to develop individual action plans or case plans that will address specific risky behavior for identified youth. To complete this, the coordinator will collaborate with the youth, their family and probation on a continuous basis. Additionally, the coordinator will be able to meet with probation to discuss any issues or successes that arise while dealing with the youth. The Coordinator will draft reports outlining the progress of the youth and family to provide to Probation.

Identification of Problem/Systems-Improvement Need
Briefly describe the problem/systems-improvement need the innovation will address within the context of the one or two Davis-Lee strategies most relevant to the proposed use of funds. Briefly describe how this problem affects detention utilization (Admissions, LOS, ADP, etc.).

✓ Problem/Need relates to the Most Relevant Core Strategy(ies)
The Program will address the core strategies #1 and #6. Collaboration and Leadership and Addressing Special Populations, respectively. The program will analyze youth admitted for violations of probation. Although the goal is to reduce violations filed for all youth, the expectation is violations filed for minority youth will be reduced.

✓ Impact of Problem/Need on Detention Utilization
Passaic County judges experience an increase in detention due to VOP's. The 2018 Annual Data indicates that of 9815 9.9%, or 24 juveniles, were detained as a result of a VOP. In 2018, 18.3%, or 41 juveniles, were detained as a result of VOP’s. Furthermore, during 2018, 20.8% of juveniles admitted to violation only had a violation as their most serious underlying offense, 13.2% had a DPP as the most serious underlying offense, and 15.4% had a 4th degree charge as the most serious underlying offense.

Youth in both Paterson and Passaic have access to multiple programs and community support networks. Youth in the surrounding towns have a longer travel time and less access to the services due to location. Of the youth who were detained on a VOP in 2018, 12% were from towns in Passaic County outside of the large cities of Paterson and Passaic. Although this number is small, the data indicates that youth in cities outside of Paterson and Passaic represent most of youth that violate due to higher level drug use. Additionally, these youths and their families have trouble accessing the same workshops, increased violations due to probation conditions and need additional supervision and support for family networks.

Specific Nature of Problem
Identify the primary factors contributing to the problem in this site. Briefly describe these factors, how the factors affect detention utilization, and the data used to assess each factor’s presence in the site.

✓ Contributing Factor(s)
Passaic has the highest caseload in the state of NJ. The overall violation rate of youth on probation has increased over a one year period. In 2018, there were 183 VOP's filed. So far in 2017, there have been 154 VOP's filed. At this rate, the VOP rate for 2017 will outnumber the 2016 VOP rate.

Introduced on: May 5, 2018
Adopted on: May 5, 2018
Official Resolution#: R20180397
Form 2011 April 5, 2017
Description & Data Regarding Factor #1

In 2015, there were 169 VOP’s filed in Passaic County, which increased to 183 in 2016. The majority of these violations were due to technical and program violations.

Contributing Factor #2
Youth who receive a violation of probation for reasons outside of leaving a treatment program have increased.

Description & Data Regarding Factor #3
In 2015, 52% of youth detained on a violation had a combination of violations outside of leaving a treatment program. In 2015, of the VOP’s filed, 28.5% were due to drug use, and increase from 19% in 2015.

Contributing Factor #3
Passaic County is experiencing an increase in the number of youth being detained for violation with the most serious adjudication being a 4th degree or less.

Description & Data Regarding Factor #4
Overall, 44% of youth detained on a VOP had a MSUO of a 4th degree or less in 2016. This is an increase of 7% youth from 2015.

Contributing Factor #4
Passaic County continues to experience a disproportionate number of minority youth in detention.

Description & Data Regarding Factor #5
Pre-JDAI, 95.5% of youth in detention were minorities. Post-JDAI, 96.0% of youth in detention are minorities. In 2015, 83.3% of youth detained on a VOP were minority youth.

Proposed Solution Identified Problem

Proposed Solution
Passaic County seeks to implement a multi-faceted program that will address increased probation violations and detention. The program will target youth on probation with a history of violations or a risk of violations. The coordinator will work with as few as 5 youth up to a maximum of 15 at any given time, with a total of 30 youth during the year. The coordinator will meet with youth and families for a minimum of 3-4 times a month with at least one meeting outside of the home at a family engagement event. In addition, the coordinator will hold at least six family sessions per week. Each family session will be one hour long. A individual family may require more than one weekly session. During each meeting, the coordinator will discuss progress with the families, issues that have developed or subsided since the last meeting and discuss next steps and program decisions. The program will range from four to six months, allowing time for the coordinator to meet and engage families as well as link with local mental health services. The coordinator will develop strategies to collaboratively work with the probation division, family court, county, and local service providers to develop support networks that address systemic issues such as housing, health, and family. The program coordinator will work with the juvenile and family to
determine the specific needs of the youth and family and link them with the appropriate resources/agencies in their community. The Coordinator will also locate educational programs and resources for family members who are struggling to address risky behavior, enforce positive family relationships, and deal with health concerns such as drug abuse and overdose. Through community engagement, youth will be linked to educational and enrichment activities and workshops that address topics such as finances, drug use and violence, and harmful behaviors. The coordinator will determine the specific needs of the family at the initial session. Using the results of the initial session, the coordinator will connect youth and families with local resources and networks that can assist each family. The coordinator will draft reports outlining the progress of the youth and family. The reports will be provided to Probation.

The goal of the program is to reduce the number of VOP’s filed for non-new charge violations and reduce the number of youth detained for violating probation and failing to appear in court. In lieu of detaining a youth on bail, probation, or filing a non-compliance VOP probation may refer youth to the program. Referrals to the program can also be added as a recommendation to the summary for required/mandatory treatment. Additionally, probation officers can refer youth to the program rather than file a VOP. After formal and/or family are referred to the program, the Coordinator will conduct a risk/needs assessment and link the youth/family with needed services/agencies. The coordinator will assist the youth with addressing issues within the home that are contributing to non-compliance as well as linking the youth with services and agencies that will address the environment and culture within the home. The coordinator also connect youth with job and educational fairs, local community events that serve as an outlet for youth behavior, and activities that allow youth to travel outside of their neighborhood and experience different cultures.

- **Objective #1**: The program will refer the juvenile and his/her family with needed services that will address reasons leading to probation violations and/or problems within the home post-disposition.

- **Objective #2**: The Coordinator will work with probation staff to identify youth who have a history of violations and grant risk of violating and identify gaps in services such as inaccessibility to programs. An attempt will be placed on youth who reside outside of the cities of Paterson and Passaic.

- **Objective #3**: Reduce number of VOP’s filed and the number of youth detained on a VOP.

- **Objective #4**: Referral assist with engaging families and youth with positive activities and local community programs to promote family engagement and a healthy family environment.

- **Objective #5**: Collaborate with local community stakeholders and agencies to develop and maintain networks and workshops and support groups for youth who violate Probation and their families.

- **Objective #6**: Provide needs and incentives to youth as they demonstrate success in their programs and comply with programs they are linked through with the coordinator.

- **Objective #7**: Affirm environment, culture and behavior within the youth’s homes that place them at risk of violation.

- Overall workshops and potential activities will include but are not limited to drug use and abuse, youth and family empowerment, self-destructive behaviors, community and cultural difference, education and career paths, and the impact of family engagement on youth involved in the system.
- The coordinator will work to develop positive partnerships and relationships with stakeholders.
- The coordinator will communicate with families weekly to discuss progress and any issues that arise.
- The coordinator will attend JDAI meetings as scheduled and report progress.

Tracking Implementation of the Solution/Process Measures

Describe the various measures that will be used to track the implementation of the solution and how information is collected/maintained. (These are the "process" or "output" measures, and should
reflect the steps taken to actually implement the project and its components. As general examples, process measures include things like: number of youth served, number/type of service hours provided, number/type of incentives awarded, mentors/employers recruited, beds/units acquired, reports produced, etc.

✓ Process/Output/Implementation Measures

- Number of referrals received
- Number of families on probation served
- Number of VOP’s filed
- Number of linked interventions
- Number of workshops conducted
- Number of community activities targeted and the number of youth attending each program
- Number of youth participating in workshops and community activities
- Number of strengths and needs determinations conducted
- Number of families attending workshops
- Number of workshops and events held including sign-in sheets
- Number of community stakeholders facilitating workshops
- Number of surveys collected

✓ Methods for Measuring/Collecting Data Regarding Process/Output/Implementation Measures

- Survey results
- VOP’s filed and detained
- Passaic County Detention Data
- Passaic County Detention Alternative Data

The coordinator will track the level of service and attendance and report out at the Passaic County CJJSI on the progress, barriers and successes. A master list of both youth and families served, number of referrals as well as community organizations, activities and workshops held will be created. Additionally, identification of the types of service provided will be tracked and provided. Findings and feedback from surveys and probation will also be reported. Specific workshops, events and other groups will be developed in advance.

Impact of Proposed Solution & Outcome Measures

Briefly state the anticipated impact of the proposed solution in terms of the contributing factors described earlier and their effect on the detention system (action words include reduce, increase, etc.). Describe the various measures that will be used to evaluate these anticipated outcomes. Then, briefly describe the potential unintended consequences of the solution, and the measures/methods that will be used to monitor the occurrence of these unintended outcomes. Finally, describe how the data needed to report all of these outcome measures will be maintained/collection.

✓ Expected Impact

The expected impact is a reduction in the number of VOP’s filed over the course of the next year and a reduction in the number of youth detained as a result of a VOP. Overall the program seeks to increase the success rate of youth on probation and give youth and their families healthy living tips and ways to work together for success.

✓ Outcome Measures to Gauge Expected Impact

Introduced on: May 9, 2018
Adopted on: May 9, 2018
Official Resolution #: R20180397
Form 2017 April 3, 2017
• Number of families served on probation
• Number of interactions developed
• The number of family strength and needs determinations completed
• The number of family case plans developed
• Number of family workshops and family engagement activities and the number of families attended
• Number of programs completed
• Number of services developed and completed
• Number of participants and youth attended, measured monthly
• Number of potential community stakeholders becoming members of the local CJJSI
• Increase the number of successful releases from probation
• Decrease the number of VOP's filed, with an emphasis on youth outside of Paterson and Passaic.
• Decrease the number of youth detained in a VOP in Passaic County
• Number of youth detained due to a violation

✓ Potential Unintended Consequences

Unintended consequences include net-widening and behavior of youth and families that cannot be changed or impacted by the coordinator or additional services. Participation from families may be limited due to the program being voluntary. Participation may also be limited to cultural barriers, language barriers, and location barriers.

✓ Outcome Measures to Monitor Unintended Consequences

• The number of family strength and needs determinations completed
• Number of participants and youth attended, measured monthly
• Number of surveys completed

✓ Maintaining/Collecting Data Needed to Report on All of the Above Outcomes

The data needed to report on the above outcomes will be maintained by the coordinator for the program. The coordinator will keep all strengths and needs determinations and surveys conducted and provide copies of them to the JJC Liaison on a monthly basis. In addition, the coordinator will maintain a spreadsheet that indicates the different seminars/workshops held and the number of attendees at each. The coordinator will also maintain a spreadsheet indicating the youth that have been placed in a paid or non-paid internship, the location, and if the result of the internship. This information will also be provided to the JJC liaison on a monthly basis and reported out at the County Youth Services Commission Meeting and Local JJSI Council Meetings.
