WHEREAS, the County of Passaic (County) previously passed Resolution R2014-0905 on November 25, 2014 authorizing the Purchasing Agent to enter into an agreement with third-party energy suppliers obtained through the means of an approved online bid pursuant to the Local Unit Electronic Technology Pilot Program and Study Act, (P.L. 2001, c.30) in order to purchase energy supply; and

WHEREAS, the contract for the bulk purchase of natural gas is expiring and it is necessary to go out to bid and give the Purchasing Agent this authority once again for this public solicitation; and

WHEREAS, as a result of the volatile nature of the energy procurement process, upon the conclusion of the reverse auction the County will need to expeditiously approve and enter into a contract with the lowest responsible bidder or bidders to supply the County with its natural gas supply needs in response to the request for bids solicited by the County on October 12, 2018; and

WHEREAS, Concord Engineering is an approved on-line provider with the Department of Community Affairs E-Prourement Pilot Program (authorized under P.L. 2001, c.30) for both Online Receipt of Bids and Reverse Auctions; and

WHEREAS, the County reserves the right to award a contract to a single bidder or contracts to multiple bidders, if it is deemed to be in the County’s best interest to do so, price and other factors considered; and

WHEREAS, given the need to promptly enter into such contract upon the conclusion of the online auction scheduled for October 12, 2018, the County desires to have its Purchasing Agent, upon consultation and recommendation from Concord, approve and enter into a contract with the selected vendor(s); and

WHEREAS, participation in the program is facilitated by submission of contract documentation to determine responsibility and eligibility to participate in the process prior to the date of auction; and

WHEREAS, the Freeholder Finance Committee has reviewed this matter at its meeting of September 26, 2018 and recommends this resolution for the full board for adoption; and
NOW THEREFORE, BE IT RESOLVED, that the County hereby authorizes its Purchasing Agent, upon consultation with Concord Energy, to determine the responsible bidders(s) eligible to participate in the process and, upon completion of the auction to select and enter into the contract with the responsible bidder(s) submitting the most advantageous bids to the County, price and other factors considered; and

BE IT FURTHER RESOLVED, the determination will be subject to the condition that the County will not proceed with any bidder or bidders if the bid pricing received does not result in a savings utilizing the respective utility benchmark; and

1- The Purchasing Agent is hereby authorized and directed to execute any documents necessary to carry out the purpose of the Resolution.

2- All Resolutions and parts of Resolutions inconsistent herewith are hereby repealed.

Hello Michael,

The PCERCPS received favorable electricity supply pricing today via an Online Bid Auction. Bid pricing was received for both a 12 month and a 24 month term. Bid pricing received for the 24m terms were the lowest of the bid pricing received for all bid groups. After analysis of the bid pricing received, we are recommending the 24 month term for Bid Groups 1A and 1B in lieu of Bid Group 1 as well as award of Bid Groups 2, 3, 5, 6, 7, & 8. We are not recommending award of Bid Group 4 for PSE&G Lighting Accounts as pricing received did not meet the minimum of the 5% projected savings. We are recommending a rebid of Bid Group 4 with a new start date of March 2019 to end coterminous to the other bid groups. The new contract will start at the end of the current contract in December 2018 through November 30, 2020.

The Projected Savings of each Bid Group ranges from 6% - 20% for an average of $3,550,860.00 over the 24m term. A copy of the Bid Results is attached for your review and consideration of our recommendation.

Sincerely,

Concord Energy Services

Participants will be required to complete a Walgreens vaccine administration record and consent form before receiving an immunization.

1.2 Professional Judgment. Walgreens may withhold Covered Services to a Participant for good cause, including but not necessarily limited to, Clinics or Participants (where applicable) failure to pay for Covered Services rendered; requests for services inconsistent with the legal and regulatory requirements; or where, in the professional judgment of the health care professional, the services should not be rendered.

1.3 Provisions of Healthcare Professionals. Any requests for additional personnel will be subject to mutual agreement by the Parties and may require additional agreed-upon fees to be paid by Client to Walgreens in accordance with this Agreement.

II. CLIENT'S RESPONSIBILITIES

2.1 Vouchers. If the Parties agree in writing that Walgreens will provide Covered Services upon receipt of a voucher, Client will provide Participants with a voucher (in a format agreeable to both Parties), which Participants may redeem at a participating Walgreens store location. Once the voucher is approved by both Parties it may not be modified. Client may retain, return, reduce, or deny payment owed to Walgreens for claims where Covered Services have been provided to its Participants, even if Client no longer considers the individual redeeming the voucher to be a Participant.

2.2 Off-Site Locations. *IMPORTANT* If the Parties agree in writing that Walgreens will provide Covered Services at off-site locations, Participant will provide Participants with a list of dates, times and locations for such off-site locations and provide Walgreens with room location, tables and chairs for Participants to use during immunizations. Additionally, Client guarantees that an average minimum of 25 immunizations will be administered to Participants at each of Client's off-site locations per influenza season (August - April) *site

IV. TERM AND TERMINATION

Upon expiration of the initial term, this Agreement will automatically renew for successive one-year terms. Either Party may terminate this Agreement at any time without cause by giving at least thirty (30) days' prior written notice to the other Party.

4.2 Effect of Termination. Termination will have no effect upon the rights or obligations of the Parties arising out of any transactions occurring prior to the effective date of such termination.

4.3 Waiver. No waiver by either Party with respect to any breach or default of any right or remedy no course of dealing may be deemed to constitute a continuous waiver of any other breach or default or of any other right or remedy unless such waiver is expressed in writing by the Party to be bound.

V. INSURANCE AND INDEMNIFICATION

5.1 Insurance. Each Party will self-insure or maintain at its sole expense, and in amounts consistent with industry standards, such insurance as may be necessary to insure each respective Party, its employees, and agents against any claim or claims for damages arising out of or in connection with its duties and obligations under this Agreement. Walgreens will automatically name Client as Additional Insured under its applicable insurance policies. Evidence of such Insurance can be downloaded from Walgreens' website. Client will provide a memorandum or certificate of insurance coverage to Walgreens upon request.

5.3 Indemnification. To the extent permitted by law, each Party will indemnify, defend, and hold harmless the other Party, including its employees and agents, from and against any and all third-party claims or liabilities arising from the negligence or wrongful act of the Indemnifying Party, its employees, or agents in carrying out its duties and obligations under the terms of this Agreement. This Section will survive the termination of this Agreement.

VI. GENERAL TERMS

6.1 Confidentiality of PHI. Both Parties warrant that they will maintain and protect the confidentiality of all individually identifiable health information specifically relating to Participants ("Protected Health Information") in accordance with the Health Insurance Portability and Accountability Act of 1996 and all applicable federal and state laws and regulations. However, nothing herein will limit either Party's use of any aggregated Participant information that does not contain PHI. This Section will survive the termination of this Agreement.
Minimum). If Walgreens determines that the Site Minimum is not achieved for the influenza season (determined by the total number of immunizations administered at all off-site locations divided by the number of off-site locations in such influenza season ("Site Average"), at Walgreens’ discretion, it will invoice Client for the difference between the Site Minimum and Site Average multiplied by the number of off-site events. The sum of which will be multiplied by the lowest reimbursement rate set forth in table in Attachment A and Client shall pay such amount within 30 days of being invoiced by Walgreens.

III. PAYMENT AND BILLING

If such evidence is not provided at the time of service, Walgreens will either, as agreed to by the Parties, assign from the Participant or invoice Client monthly at the lesser of the prices stated herein or the Usual and Customary Charge. If a claim for reimbursement is later denied, the Parties agree that Walgreens can seek reimbursement from the Participant. As used in this Agreement, "Usual and Customary Charge" shall refer to the amount charged to a cash customer for an immunization by the administering pharmacy at the time of administration, exclusive of: (i) sales tax, (ii) discounts claimed, and (iii) discounts provided for prescription drug savings card or other similar discounts. Client will reimburse Walgreens within 30 days from receipt of the monthly invoice and must be sent to the remittance address stated on the invoice. At the time of payment, Client will provide Walgreens with a written explanation of the specific claims for which payment is made.

3.2 Late Payments. All sums owed by Client to Walgreens will bear interest of 1.5% per month from the date payment is due until paid; however, in no event will any such interest rate be greater than the rate permitted by law. Client shall be solely responsible for any and all costs incurred by Walgreens in seeking collection of any delinquent sums owed by Client.            Contract Modification #1

Members of the Board:

Attached for your approval is Contract Modification #1 to a professional engineering services contract with Louis Berger Group of Morristown, NJ for the purpose of modifying a contract for the design of the Paterson-Hamburg Turnpike & Alps Road Intersection Improvements.

Louis Berger was originally contracted in April 2008 to perform these services. Due to delays involving negotiations with nearby businesses and the Township of Wayne and scope changes, the cost for design have escalated.

- The limits of the project were extended approximately 400 feet in all directions.
- Sidewalks were incorporated on all sides of the roadway in keeping with the Passaic County Complete Streets Policy
- 2 traffic signals were added to the project
- The Preakness Center driveway off of Hamburg Turnpike was relocated
- The northern jug handle through the shopping center was revised subsequent to negotiations with the property owner
- The southern jug handle was modified as new business site plans were developed
- Additional right-of-way and easement documents were required
- Two public meetings will be required

The Public Works and Buildings and Grounds Committee approved this recommendation at their meeting of September 26, 2018.
We respectfully request that the Board of Chosen Freeholders ADOPT a RESOLUTION approving Contract Modification #1 in the amount of $444,207.28. This will result in a revised contract in the amount of $939,207.28.

Very truly yours,

RE: Revised Scope Modification incorporating comments: Reconstruction of Paterson-Hamburg Turnpike & Alps Road Intersection, Wayne Township, Passaic County, New Jersey

Dear Mr. Pera:

The County of Passaic selected The Louis Berger Group, Inc. in April, 2008 to provide consulting services for Reconstruction of Paterson-Hamburg Turnpike & Alps Road Intersection, Wayne Township, Passaic County, New Jersey. At the Intersection Paterson-Hamburg Turnpike is oriented in an east-west direction and Alps Road in a north-south direction. Two-lane jug handles to accommodate turning movements at the intersection were proposed in the northeast quadrant thru the Preakness Shopping center and in the southeast quadrant around several commercial properties. During 2009, several conceptual plans for the jughandle alignments were developed for discussion with the property owners. After submission of the 30% Plans in August, 2013 the project further delayed. The County directed Louis Berger not to proceed with the design until drawings for the jughandles were received from the developers. The jughandle drawings were received on May 27, 2014 and incorporated into the project design.

Additional submissions of the project design included Progress Plans in July, 2015 and a 60% Submission in December, 2015. Review comments on the 60% Submission resulted in substantial changes to the project typical sections that necessitated redesign of completed work. Review comments on additional scope of work submitted on June 15, 2017 resulted in substantial changes to the project typical sections along the southern jug handle (adding sidewalk along the state building) and northern jughandle (reduce the beam to 5 feet to reduce footprint) that necessitated redesign of completed work.

On September 12, 2018 we submitted our revised modification which was revised based on the review meeting held on November 28, 2017 on previously submitted modification dated June 15, 2017 and review comments received subsequent to meeting on April 18, 2018.

This modification is revised based on the review comments received by email on September 19, on our previous submission date September 12, 2018.

This modification includes revision of total additional cost to $455k from $455K. Additionally we added 2 public meeting as suggested. Total addition cost is now $ 454 2K.

This modification also includes design changes as directed for addition of sidewalk on the both
side of the Paterson Hamburg Turnpike, Alps Road on for the entire project length and along the southern jughandle. It includes additional length added to the project, additional signal study and design, additional survey and additional ROW documents required for the additional impacted parcels.

The following are itemized scope modifications:

**ADDITIONAL SCOPE OF SERVICES**

**Task A:** Review of Plan and Studies

No additional effort is anticipated.

**Task B:** Field Survey

The Length of project has been increased at the tie in points and there are areas of the project in which the existing plometry does not match the aerial photographs in Google Earth. This will lead to inaccuracy at the roadway tie-in points in order to have the design plans correct for construction. The Southern Jughandle was added to the project after the field survey was completed. Northern Tie in to the PH Turnpike was added after the survey was completed. Therefore additional survey is required at the following locations.

**Paterson Hamburg Turnpike Station 101+50 to 106+50:** Needed for exiting topo, ground model and profile match to constructed portion.

**Paterson Hamburg Turnpike Station 112+00 to 117+00 (Eastbound):** Area of major discrepancy in driveway locations between the existing topographic mapping and the 2013Base.dgn. Need topographic mapping of the existing driveways in this area. Paterson Hamburg Turnpike Station 122+00 to 123+50:** Needed for profile match and dtm modeling.

**Southern Jughandle Station 400+25 to 405+00:** Need exiting ground survey and pavement elevations of the constructed portion of the jughandle.

**Southern Jughandle Station 405+00 to 407+20:** Need exiting ground survey for grades against retaining wall that has been constructed.

**Alps Road Station 216+00 to 218+00:** Need existing pavement elevation to design vertical curve at low point in roadway.

**Alps Road at Grand View Drive:** Need existing pavement elevations to design vertical curve at Grandview Drive and keep construction work within the existing ROW. Also signal change at this intersection to be combined with Southern Jughandle.

A pdf of the additional topographic survey locations is attached.

Louis Berger will coordinate with our sub consultant, Amercom Corporation, for additional survey, provide information, maps where additional survey is needed. We will verify the survey data and create maps for further use in design.

Refer to attached scope of services from Amercom for more details.
Task C: Drainage Analysis
Louis Berger will perform a drainage study and analysis for additional length of the project as well as the additional storm water runoff from the proposed sidewalk on the eastbound side of the Paterson-Hamburg Turnpike. Due to restricted ROW on Alps Road, sidewalk grades and cross slopes have been reversed in certain locations which will require analysis for drainage capacity.

Task D: Geotechnical Engineering
No additional effort is anticipated.

Task E: Structures
No additional effort is anticipated.

Task F: Cost Estimates
Additional effort is anticipated from adding additional landscape walls, additional length of project and providing additional sidewalk thereby extending project limits.

Task G: Utility Engineering
Due to time letter no.1 and beginning Utility Coordination has to be started again. Substantial additional efforts will be required to prepare relocation plans for the additional utilities impacted by adding sidewalk for the entire project. Also additional length of road require additional effort for coordination and preparation for the utility relocation documents.

Task H: Right-of-Way Documents
Refer to attached scope of services from Amercom Corporation for more details.

Task I: Permits
No additional effort is anticipated.

Task J: Construction Contract Documents
Substantial additional effort will be required to develop the contract documents due to the following:

Extended Project Limits:
As per the original scope of work the total length of the project was 1700 feet along Paterson-Hamburg Turnpike and 1400 feet along Alps Road. However, as per direction from the County, the length has been increased to 2300 feet along Paterson-Hamburg Turnpike and to 1750 feet along Alps Road. The revised project limits represent 32% increase in roadway design scope of work. Because of this additional length the revised tie-in points must be surveyed and designed for the extended project limits.

Additional Sidewalk Design
At the direction of the County, Louis Berger revised the design of the Paterson-Hamburg Turnpike typical section twice. The first revision was based on comments and direction given.
during the May 19, 2015 review meeting of the 30% Plan Submission. The Typical Section berms width along the westbound lanes was increased from 10' to 15', the sidewalk width increased from 4' to 5' and grass strip increased from 3' to 4'. The berm width along the eastbound lanes remained at 8' without a sidewalk. The Alps Road Typical Sections had 8' berms without sidewalks. The second revision was based on direction given at the October 6, 2016 review meeting of the December, 2015 60% plan submission, to provide sidewalks along both sides of Paterson-Hamburg Turnpike and Alps Road for the entire project length. The project design was revised 2 times and plan sets prepared 4 times; 30% in August 2013, progress plans on July, 2015, 60% plans on December, 2015 and 75% set on January, 2017. Review comments on additional scope of work submitted on June 15, 2017 resulted in adding sidewalk along the state building along the southern jug handle.

Every time we updated design template, the entire corridor required remodeling to develop the correct footprint for the project. The addition of sidewalks impacted roadway grading plans, typical sections, detail cross sections, vertical designs to optimize cut and fill and minimize ROW impacts, construction plans, utilities impacts, parking lot impacts, jug handle designs, turning movements, sight distance, tie in points, roadway modeling and analysis, fill and cut slope analysis.

Additional design effort is required at the following locations:

**Paterson-Hamburg Turnpike:**

- Station 104+30 to 107+10, RT - The proposed slopes are outside the existing ROW lines. No new ROW or easements were identified previously, but ROW will now be needed because the proposed sidewalk is outside the existing ROW and the slope easements will be extensive. At Station 104+50, RT the slopes impacts the house corner and the entry steps. We may be able to lessen the 6' berm width behind the sidewalk and/or construct a landscape wall to reduce impacts.

- Station 107+10 to 110+50, RT - The proposed slopes are extending outside the existing ROW lines because of the proposed sidewalk.

- Station 107+50, LT - The driveway requires a 0.4' cut with an 8% commercial driveway grade at the edge of sidewalk (37' LT). No impacts were shown outside proposed ROW previously, but a small driveway easement will now be needed.

- Station 108+50, LT - The driveway requires up to 2.7' of cut in parking lot with an 8% commercial driveway grade at the edge of sidewalk (37' LT). Additional design effort needed.

- Station 109+00, LT - The slopes are impacting the parking lot slightly. May be able to lessen berms to eliminate impact. Landscape wall proposed.

- Station 109+28, LT - The slope will impact the existing brick retaining wall at the property line. Landscape wall proposed.

- Station 109+50, LT - The driveway requires up to 2.4' of cut in parking lot with 8% commercial driveway grade at the edge of sidewalk (37' LT).

- Station 109+65 to 110+35, LT - The slopes are impacting the adjacent parking lot. Will need landscape wall to eliminate impacts.

- Station E 118+50 to E 119+20, RT - The slopes are impacting the adjacent parking lot. No new ROW or easements were shown previously, but will now be needed.
**Alps Road:**

- **Station 204+00 to 205+00, RT:** The slopes are impacting the adjacent parking lot. Will need landscape wall and revision in profile to eliminate impacts or revise the layout.
- **Station 207+50, LT:** The driveway requires up to 1.7' of fill in parking lot with an 8% commercial driveway at the edge of sidewalk (32' LT), and the impacts extend onto the concrete slab of the gas station. Reverse slope on sidewalk will be needed and redesign required.
- **Station 207+00 to 208+50, RT:** The slope extends to the edge of the parking lot impacting the light poles and parking lot guardrail. A small landscape wall or back curb may be needed. Redesign required.
- **Station 210+00 to 216+00, RT:** The impacts are outside the existing ROW due in part to the excessive existing cross slope of 6%-8% along Alps Road in this area. Using a 4" curbing with a 3%-4% cross slope to see if the driveway and retaining wall impacts can remain inside the ROW. Redesign required.

**Landscape Walls**

To minimize ROW impacts to properties fronting along Paterson Hamburz Turnpike and Alps Road, it is anticipated that landscape walls, having a maximum height of 4 feet, will be constructed in cut sections to eliminate or minimize slope impacts. Presently, it is anticipated there would be eight (8) locations were landscape walls are warranted to reduce ROW acquisition costs to contigious properties. Approximately 800 linear feet of proposed landscape wall will be designed for inclusion in the project construction. The design would include a plan, elevation and section view of each wall with proposed contours on the Grading Plans.

The table below summarizes the number and type of contract plan sheets estimated in the Original January 30, 2008 Proposal and the number anticipated for the present project scope of work. Overall there is a 128% increase in the quantity of contract plan sheets.

**Public Sidewalk Curb Ramps**

The required construction contract plan presentation for handicap curb ramps stipulated by the NJDOT for compliance with the 1990 American with Disabilities Act (ADA), has been significantly expanded since our 2008 Proposal for Consulting Engineering Services was prepared. At the time of the Proposal, the design process was to depict the location of the ramps and designate a Curb Ramp Type shown on the 2007 NJDOT Standard Roadway Construction Details for Public Sidewalk Curb Ramps. Today the 2015 NJDOT Roadway Design Manual, 2016 Standard Construction Details and 2016 Sample Plans stipulate requirements for Curb Ramp Layout Details drawn to scale, typically at scale 1" = 5', to provide additional detail and information to ensure accuracy of the curb ramp construction. It is estimated that five (5) Curb Ramp Layout Details sheets will be necessary to depict the handicap ramps at the four (4) signalized intersections within the project limits.

Task P: Traffic Analysis and Signal Warrant Analysis Report

The following presents the traffic related extra work that has either been performed or is going to be performed in excess of the original project scope outlined in the Proposal dated January 30, 2008.

The original scope of work consisted of one (1) new replacement traffic signal at the Paterson Hamburg Turnpike/Alps Road intersection, one (1) new traffic signal at the intersection of the Northern Jug handle and Alps Road Extension and a Signal Warrant Analysis for the Southern Jug handle intersection with Alps Road that indicated the intersection warranted signalization. However, a new signalized intersection was added to the project at the Northern/Southern Jug handle intersection with Paterson Hamburg Turnpike requiring a third Signal Warrant Analysis that also indicated the intersection warranted signalization. The extra work included traffic counts, traffic modeling and Traffic Signal Warrant Analysis for one (1) additional proposed intersection and traffic signal designs for two (2) additional intersections, the Southern Jug handle intersection with Alps Road and the Northern/Southern Jug handle intersection with Paterson Hamburg Turnpike.

The original proposal included a limited traffic count program consisting of manual turning movement intersection counts and Automatic Traffic Recorder (ATR) counts. However, to adequately collect the existing network traffic volumes, more data collection points were required. The following presents the traffic data collected by Louis Berger.

In the Original proposal, it was stated regarding traffic analysis; “No traffic models or origin and destination studies are assumed to be performed as part of this project”. However, significant traffic modeling was required to support the design of the intersections and roadways by determining the location and extent of capacity constraints and to identify the specific needs.
A Traffic Analysis Report, dated October 2013, was developed to determine if additional lane/capacity was needed on the existing roadways and to determine if the lane configurations at each intersection properly accommodate all vehicles in the future conditions. Traffic modeling is required to ensure future traffic will operate efficiently in the proposed layout. A detailed Level of Service (LOS) analysis was performed using HCM criteria via Synchro software. This included the twelve (12) traffic models consisting of the AM, PM and Saturday peak hours for the 2013 Existing, 2035 Future No-Build, 2035 Future Build Alternative 1, and 2035 Future Build Alternative 2. The results of this analysis is contained in the Traffic Analysis Report.

Task Q: Public Meeting

2 public meetings are anticipated.

Extended schedule and submissions:

**Original Schedule Work starts in April 2008**

- Phase 1- 90 days - Survey, Geometrics
- Phase 2- 180 days - Preliminary Plans and Reports
- Phase 3- 180 days - Final Plans and Specs
- Phase 4- 60 days - Final Plan and Specs revisions

We have made 4 submissions already

- 30% Plans – August 2013
- Progress Plans – July, 2015
- 60% Plans – December, 2015
- 75% Plans – January, 2017

At least 2 more submissions are anticipated - 100% draft and 100% final. Separately Utility relocation plan submissions are anticipated to the Utility companies.

Escalation:

After submission of 30% Plan in August, and the project was delayed, Berger was directed by the County not to proceed with the design until we received the Jughandle drawings. We received Jughandle drawings to review the design on May 27, 2014. To account for the delay, a 3% escalation has been added on 70% total proposal value for 10 months.

The cost estimate to complete the additional effort herein is summarized on the attached table.

Re: Reconstruction of the Paterson Hamburg Tnpk. & Alps Road Intersection
   Township of Wayne, Passaic County
   AmerCom # 2736
   Additional Scope of Work to Complete Final Design

Dear Mr. Mishra:

Introduction
AmerCom originally worked on this project from 2008-2009. During this time AmerCom completed mapping, establishment of existing controls and layout of existing ROW based on tax map data. The project regarding AmerCom’s work has been dormant since this time. It is our understanding the project will be activated again. In order to prepare contract documents for construction existing controls must be reestablished, base mapping updated, deeds reflecting all property encumbrances must be found and reviewed, and ROW documents as per current standards must be prepared.

This scope of work and fee is for additional work to complete final design services based on the current status of the project. Work will be carried out in accordance with the current NJDOT Final Design Activity Descriptions and as per Passaic County Requirements. Following are the activities required along with the specific additional work items that are included under this scope:

Conduct Supplemental Surveys (4215)
Amercom will conduct additional supplemental survey for any areas not addressed in previous surveys. Supplemental survey information obtained will be added to the base maps. The following items have been estimated for inclusion under this task:

- Reestablish Project Controls – Since over ten years have passed since original controls were established, we will reestablish the survey control network so it can be used for final design and construction.

AmerCom is an Equal Opportunity Employer
• **ROW & Property Monument Survey** – Data identified through the title search regarding property monumentation or other pertinent data identified in the records will be field surveyed. It is estimated approximately 16 properties will require additional data to be surveyed as a result of the title search information obtained.

• **Update ROW & Property Lines** – We will update the existing ROW and property lines through the project limits based on the title search data obtained and field monumentation surveyed.

• **Supplemental Survey** – We will obtain supplemental survey of the specific areas detailed on the attached plan. Base Mapping will be updated with the additional data.

**Conduct Title Search (4600)**
Amercom will hire and coordinate the work of a Title Company to complete the title search. It is estimated approximately 16 properties will require title searches. Tasks included under this activity are the following:

• **Title Search Coordination** – We will hire and coordinate all work with the Title Company to obtain property records extending back to a 60 year search.

• **Review Title Records** – We will review all title documents obtained for the 16 properties to identify current ownership, easements, encumbrances, monumentation and metes and bounds.

**Prepare ROW Plans and Documents**
Amercom will prepare and submit ROW documents involving a maximum of 16 properties with ROW impacts. These 16 properties are included under the original scope which was completed in January 2008. A 2% escalation/year across 10 years has been included in the scope along with adjusted overhead to 115% to cover escalation of these original costs.

Our total cost for this additional work is $51,817.33 which is detailed on the attached cost breakdown sheets. Thank you for this opportunity and please feel free to contact me with any questions.

Very truly yours,
AmerCom Corporation

Members of the Board:

Attached for your approval is Contract Modification #1 to a professional engineering services contract with Louis Berger Group of Morristown, NJ for the purpose of modifying a contract for the design of the Paterson-Hamburg Turnpike & Alps Road Intersection Improvements.

Louis Berger was originally contracted in April 2008 to perform these services. Due to delays involving negotiations with nearby businesses and the Township of Wayne and scope changes, the cost for design have escalated.

- The limits of the project were extended approximately 400 feet in all directions.
- Sidewalks were incorporated on all sides of the roadway in keeping with the Passaic County Complete Streets Policy
- 2 traffic signals were added to the project
- The Preakness Center driveway off of Hamburg Turnpike was relocated
- The northern jug handle through the shopping center was revised subsequent to negotiations with the property owner
- The southern jug handle was modified as new business site plans were developed
- Additional right-of-way and easement documents were required
- Two public meetings will be required

The Public Works and Buildings and Grounds Committee approved this recommendation at their meeting of September 26, 2018.

Dear Members of the Board:

Our office received from the Township of Wayne the final copy of the referenced Ordinance. It changes the speed limit on the western section of Preakness Ave from 35 mph to 25 mph, so that the entire length will now be 25 mph.

Since Preakness Ave is a County road, a consenting Resolution is required. This Ordinance was reviewed and recommended for approval at the August 29, 2018 Public Works Committee meeting. Based upon the above, it is my recommendation that the Board of Chosen Freeholders adopt a consenting Resolution, provided the cost and maintenance of all signs and equipment be borne by the Township of Wayne.

RE:  DEY MANSION GARDEN RESTORATION PROJECT, WAYNE, NJ
CHANGE ORDER NO. 2 - ADDITIONS

Members of the Board:

Attached for your approval is Change Order No. 2 to be issued to the Contractor, reflecting additions of quantities for works items for this project.

During construction of the project, remnants of the Dey Mansion privy were discovered which stopped the project o further assessment and research. To preserve the archeological remnants and make alterations to the walking path affected by the privy, additional work and material are necessary. The total amount of this work is $8,254.25. The Change Order was reviewed and recommended for approval by the Public Works Committee at their meeting of September 26, 2018.

Based upon the above, this office and the Public Works and Buildings & Grounds Committee recommends that the Board of Chosen Freeholders to adopt the necessary resolution to approve and issue Change Order No. 2 to Turco Golf Inc. of Pompton Lakes, New Jersey in the amount of $8,254.25, which results in an increase to the adjusted contract amount.

STATEMENT TO

SENATE, No. 2203

with Senate Floor Amendments

(Proposed By Senator KYRILLOS)

ADOPTED: DECEMBER 13, 1999

These amendments would make various changes to the bill.

First, the amendments change section 1 of the bill to specify that competitive contracting may not be used by local contracting units in lieu of public bidding for the administration of benefits under Work First New Jersey, established under P.L.1997, c.38 (C.44:10-55 et seq.), or under General Assistance.

Second, the amendments change section 8 of the bill, which amends section 4 of the "Local Public Contracts Law," P.L.1971, c.98 (C.40A:11-4), and change section 52 of the bill, which amends N.J.S.18A:18A-4 of the "Public School Contracts Law," to clarify that disqualification of a bidder for prior negative experience cannot be voided or shortened if pursuant to the disqualification a government body is prohibited by law from entering into a contract with a bidder.

Third, the amendments change section 9 of the bill, which amends section 5 of the "Local Public Contracts Law," P.L.1971, c.198 (C.40A:11-5), to restore exemptions from public bidding for the marketing of recyclable materials recovered through a recycling program or the marketing of any product intentionally produced or derived from solid waste received at a resource recovery facility or recovered through a resource recovery program, and for the cooperative marketing of recyclable materials recovered through a recycling program.

Fourth, the amendments add to the types of contracts exempted from public advertising and bidding requirements under section 5 of the "Local Public Contracts Law," P.L.1971, c.198 (C.40A:11-5), contracts for purchases of goods and services at rates set by the Universal Service Fund administered by the Federal Communications Commission. Section 53 of the bill already exempts these contracts from public advertising and bidding requirements under N.J.S.18A:18A-5 of the "Public School Contracts Law."

Fifth, the amendments clarify that the exemption from public advertising and bidding added by the bill to section 5 of the "Local Public Contracts Law," P.L.1971, c.198 (C.40A:11-5) as subsection (5) of that section is for the combined collection and marketing or the combined cooperative collection and marketing of recycled material recovered through a recycling program or any product intentionally produced or derived from solid waste recovered at a resource recovery facility or recovered through a resource recovery program. Amendments to this subsection also make a technical correction to remove extraneous language.
Sixth, the amendments require additional procedures to be followed by local contracting units and boards of education when they utilize provisions under section 5 of the "Local Public Contracts Law," P.L. 1971, c.198 (C.40A:11-5) and N.J.S.18A:18A-5 of the "Public School Contracts Law," to purchase, without public advertising and bidding, materials, supplies or equipment for which a State contract has been issued, if the local contracting unit or board of education has solicited and received at least three quotations and the lowest responsible quotation is at least 10% less than the price under the State contract. The amendments require the local contracting unit or board of education to file with the Director of the Division of Local Government Services in the Department of Community Affairs, within five working days of the award of the contract, a copy of the purchase order relating to the contract, the requisition for purchase order, if applicable, and documentation identifying the price of the materials, supplies or equipment under the State contract and the State contract number. The director will acknowledge receipt of the materials and make the materials available to the State Treasurer. The contracting unit or board of education will make available to the director upon request any other documents relating to the solicitation and award of the contract, including, but not limited to, quotations, requests for quotations, and resolutions.

In the case of local contracting units, the director periodically will review the material to determine the impact of the contracts on local contracting and will consult with the State Treasurer on the impact of the contracts on the State procurement process. The director, after consultation with the State Treasurer, may adopt rules to limit the use of this exemption after considering the impact of the exemption on State and local contracting or after considering the extent to which the award of contracts pursuant to this exemption is consistent with and in furtherance of the purposes of the public contracting laws.

Seventh, the amendments change section 18 of the bill, which amends section 12 of the "Local Public Contracts Law," P.L. 1971, c.198 (C.40A:11-12), section 58 of the bill, which amends N.J.S.18A:18A-10 of the "Public School Contracts Law," and section 107 of the bill, which amends section 2 of P.L. 1996, c.16 (C.52:34-6.3), to require additional conditions to be met when local contracting units, boards of education, and certain State authorities make purchases from the Federal Supply Schedules of the General Services Administration without advertising for bids or having rejected all bids obtained pursuant to advertising. In order for such purchases to be made, the price of the goods or services being procured can be no greater than the price of the same or equivalent goods or services under the State contract, unless the contracting unit, board of education or authority determines that because of factors other than price, selection of a vendor from the Federal Supply Schedules would be more advantageous. Also, a copy of the purchase order relating to any such contract, the requisition or request for purchase order, if applicable, and documentation identifying the price of the goods or services under the Federal Supply Schedules must be filed with the Director of the Division of Local Government Services in the Department of Community Affairs, or, in the case of authorities, with the State Treasurer, within five working days of the award of the contract. The director will acknowledge receipt of the materials and make them available to the State Treasurer. The local contracting unit, board of education or authority will make available to the director or State Treasurer upon request any other documents relating to the solicitation and award of the contract.

The amendments also amend section 106 of the bill, which amends section 1 of P.L. 1996, c.16 (C.52:34-6.1), to require an additional condition to be met when State agencies make purchases from the Federal Supply Schedules. In order for such purchases to be made, the price of the goods or services can be no greater than the price of the same or equivalent goods or services under the State contract, unless the State determines that because of factors other than price, selection of a vendor from the Federal Supply Schedules would be more advantageous to the State.

Eighth, the amendments change section 104 of the bill, which amends section 11 of P.L. 1970, c.73 (C.56:9-11) to clarify that certain activities constitute a crime, rather than a crime of the fourth degree. The degree of the crime is determined pursuant to subsection b. of that section.

Finally, the amendments make technical changes to the bill to conform the text of a statute being amended to current format and to make other words used in different parts of the bill consistent with each other.

New Jersey Historic Trust Announces Preserve New Jersey Preservation Grant  
Award Recommendations  
More Than $1 Million Awarded for Preservation Planning Projects

TRENTON, NJ - The New Jersey Historic Trust, an affiliate of the New Jersey Department of Community Affairs (DCA), today approved $1,037,621 in grant recommendations from the Preserve New Jersey Historic Preservation Fund for 33 preservation planning projects to save and promote historic sites throughout the state. The grant recommendations, approved by the New Jersey Historic Trust Board, will be presented to the Garden State Preservation Trust at its next meeting and require a legislative appropriations bill and the Governor's approval before funds are available.

"Historic preservation is an integral part of community and economic revitalization and I am excited to see a diverse list of grant recipients this year," said Lieutenant Governor Sheila Y. Oliver, Commissioner of the Department of Community Affairs. "From historic homes, farms, libraries, train stations, and villages, the work that will be accomplished with the preservation grants will help to secure the future of our most treasured historic places in the Garden State."

Twenty-nine of the grants will help fund preservation planning projects such as condition assessments, historic structure reports, archaeological investigations, and construction documents. The remaining four grants will help fund projects to improve visitors' experience at historic sites by assessing heritage tourism potential and creating interpretive plans and signage. All the grants, awarded to nonprofit organizations or entities of municipal, county and state government, require a match from the recipient.

"We are pleased to recommend funding for preservation planning to so many worthy projects in this grant round, and particularly to support sites that wish to develop heritage tourism and improve the visitor experience," said Historic Trust Executive Director Dorothy P. Guzzo. "By saving our historic buildings, we can benefit from their impact on the tourism economy as well as encourage local pride."

Funding for the current grant round is dedicated from a voter-approved constitutional amendment that created the Preserve New Jersey Historic Preservation Fund, which is supported by income from the corporate business tax and will receive an annual allocation in support of historic preservation. The Preserve New Jersey Fund continues the work of the Garden State Historic Preservation Trust Fund and
voter-supported referendums that have committed $145 million to more than 800 historic preservation projects since 1990. All funded resources are listed or eligible to be listed in the New Jersey and National Register of Historic Places, either individually or within designated historic districts.

Established in 1987, the New Jersey Historic Trust is the only nonprofit historic preservation organization in New Jersey created by state law. The Trust became a DCA affiliate in 2002 in an effort to better realign the state’s smart growth initiatives with historic revitalization. Its mission is to advance historic preservation in New Jersey for the benefit of future generations through education, stewardship and financial investment programs that save our heritage and strengthen our communities.

RE: AMENDMENT OF CONTRACT WITH CLARK CATON HINTZ FOR PROFESSIONAL SERVICES FOR LAMBERT CASTLE IN PATerson, NJ.

Members of the Board:

The County of Passaic has received a grant from the New Jersey Historic Trust (NJHT) and will continue to work with the NJHT to obtain further funding for the restoration of Lambert Castle and the renovation of the Carriage House. In obtaining these funds, the Carriage House will need to be included on the New Jersey and National Register of Historic Places. Lambert Castle is currently listed, however, the nomination would need to be amended to include the Carriage House, the tower and portions of the grounds containing the circular drive, fountain and the area of the former gardens. Clarke Caton Hintz, through their subconsultant Margaret Newman, proposes to prepare the amendment to the nomination for the lump sum fee of $6,000.00

Based upon the above, this office recommends that the Board of Chosen Freeholders adopt a Resolution amending the current contract with Clark Caton Hintz in the amount of $6,000.00 for professional architectural services in connection with Lambert Castle, subject to the availability of funds. In addition, the Public Works and Building & Grounds Committee reviewed and recommended at its meeting of September 26, 2018, that the full Board authorize amending this contract in effort to continue to preserve one of the County’s historic structures.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Proposal #33 rev. 1

During the course of the project, insofar as the sprinkler work is concerned, various issues arose relative to existing conditions that precluded and compromised the originally intended ways and means of the installation on the fourth floor of Marshall and Main Streets. In addition, the area of the Mental Health Offices on the fourth floor Main St. was not shown on the Contract drawings to receive sprinklers at all.

The attached Change Orders, produced by our sub-contractor Seaboard Fire & Safety, represent the changes that had to be implemented due to the existing unforeseen conditions, obstructions and new work necessary to perform the work. Additionally, inherent with these changes, is the associated engineering necessary as a result. The engineering costs have been included within each of the respective change orders that required such.

Proposal #40

At the request of the County, the following proposal is to provide for the replacement of 2 - 8 inch OS&Y Control Valves for the water shut-off to isolate the Fire Pump from the street supply.

The existing valves are not functioning properly and do not close completely, allowing water to pass. This work is necessary to allow for the replacement of the new Fire Pump.

This proposal is to furnish materials and labor to remove the existing valves and replace them with new along with associated hardware. In order to perform this work, the water company will have to be notified to turn the water off from the street.

The existing flow switches that are presently on the old valves will be removed to accommodate the replacement of the valves however re-installation of the flow switches will be the responsibility of the Fire Alarm Contractor and/or the County and the cost for such is not included in this proposal.

RE: Change Order 13 – Replacement of (2) 8” OS&Y Fire Control Valves for Pump - Fire Sprinkler Protection

Atttn: Dennis Kapsaskis

As per our recent conversation and work being performed, it has been determined that the original OS&Y control valves that isolate the fire pump from the street supply and the rest of the building are nonfunctional and allow water to pass. It is our recommendation that both isolation valves and associated hardware be replaced as fire pump cannot be replaced until such time.

The above listed fire sprinkler system changes to original contract can be furnished and installed to include a one-year material and labor warranty for the sum of $7,316.34

Proposal #48

In the process of removing existing acoustical ceiling tiles for the removal of the existing ductwork and old AC unit in the SLAP area, it was discovered that the existing acoustical ceiling grid system was suspended from the ductwork and associated supports. As a result of this condition, and in order to facilitate the new work, the complete removal of the existing suspended ceiling is imperative. In addition, an existing sprinkler branch line under the old AC unit to be removed had to be removed and re-installed.

This proposal reflects the work needed and necessary for the removal of the existing ceiling grid and tiles and re-installation of the same with the grid now being properly supported from the structure.

RE: FFY18 State Homeland Security Program (SHSP-Local Share)
(CFDA #97.067, Award #EMW-2018-SS-00028)
(DUNS #063148811, EIN #22-600-2466)

Dear County Administrator DeNova:

The New Jersey Office of Homeland Security and Preparedness (OHSP) is pleased to advise you that Passaic County is awarded $330,858.07 for approved projects from the federal FFY18 SHSP Local Share Grant Program. The main purpose of this funding is to enhance your agency’s ability to build, maintain and sustain national preparedness capabilities.

These funds will be available to reimburse your agency for allowable program expenditures upon the completion of the requirements listed below:

1.) Return of a signed FFY18 Grant Agreement and required attachments (A through F) by October 12, 2018, to Kathleen Wynn, Grants Management Bureau, OHSP, at the above address.

2.) The awarding of these funds is conditioned upon your agency’s full participation with the OHSP Grant Management System (GMS). Your grant coordinator will be contacted by our grant liaison once the system is ready to accept entries for your approved projects.

Once these requirements are satisfied, spending authority will be granted and a fully executed Grant Agreement will be returned for your records. Failure to complete these requirements within the prescribed time frames may cause this award to be rescinded and any expenditures will be ineligible for reimbursement.

The attached Grant Agreement sets forth the certifications, terms, conditions and assurances required of your agency before OHSP will authorize the agency to make program expenditures eligible for reimbursement. Please review the Grant Agreement carefully. It is important that the Grant Agreement and required federal certifications are signed and returned to OHSP by October 12, 2018. It is extremely important to implement the activities in the approved Project Proposal(s) in a timely manner to avoid reprogramming of any awarded funds.
The FFY18 SHSP grant program has a thirty-six (36) month period of performance (September 1, 2018 to August 31, 2021). On or about February 1, 2020, OHSP will conduct a mid-term financial and programmatic review to determine progress in meeting stated objectives/goals and expenditure activity (at least 50% of these funds should be legally/contractually obligated). As referenced within the Grant Agreement, please note that 100% of these funds shall be legally/contractually obligated by February 1, 2021. Final reimbursement packages are to be completed and forwarded to OHSP by July 31, 2021. In addition, reimbursement request packages are to be submitted to OHSP on a quarterly basis, reference Section IX, A in the attached Grant Agreement.

OHSP recognizes there may be extraordinary circumstances that necessitate an extension on a case-by-case basis. FEMA has informed us, however, that they will only approve extensions based upon compelling legal, policy or operational challenges. Therefore, it is critical to observe the above provided performance dates.

During the period of performance for this grant, any intended programmatic changes must be submitted to OHSP within the Grants Management System (GMS). Once the revised Spending Plan(s) have been reviewed and approved, spending authority for the documented changes will be granted. All programmatic changes must be approved by the County Working Group (CWG) from where the project was funded.

If you have any questions regarding this agreement, please contact Lisa Conte, UASI Grant Coordinator, at 609 584-5091. Thank you for your support as we continue working collectively to ensure the safety of our citizens.

Sincerely,

Jared M. Maples, Director
Office of Homeland Security and Preparedness

Re: Availability of Funding for the County Prosecutor Insurance Fraud Reimbursement Program (January 1, 2019 to December 31, 2019 - Cycle 19)

Dear Prosecutor:

The Office of the Insurance Fraud Prosecutor (OIFP) is accepting applications for funding for anti-insurance fraud efforts under the County Prosecutor Insurance Fraud Reimbursement Program. See N.J.S.A. 17:33A-28. The next program cycle will run from January 1, 2019 through December 31, 2019. Funds will be awarded to continue existing programs as well as to support new initiatives.

As in prior years, the 2019 projected maximum allocation for each County is $250,000. Primary consideration will be given to salaries/wages and fringe benefits. Due to budgetary constraints, the rates for fringe benefits are capped at the existing State of New Jersey rates, charged to Federal, dedicated and Non-State Programs, which is 50.65% for staff enrolled in the Public Employees’ Retirement System (PERS) and 63.45% for staff enrolled in the Police and Firemen’s Retirement System (PFRS).

Also, for Cycle 19, consideration will be given towards White Collar or Insurance Fraud Training. A County may use up to $5,000 of allocated funds for training and travel related expenses. Any training or travel related expenses in excess of $5,000 will be the responsibility of the County. A County’s use of any grant funds under this program for allowable travel is controlled by the current State Travel regulations, State Circular 16-11-OMB, which can be found on the State website: http://www.state.nj.us/infobank/circular/circindx.htm. OIFP reserves the right to deny reimbursement for any training or travel related expenses that do not comply with State Circular 16-11-OMB. Exceptions to this policy may be considered on a case-by-case basis when justified by extenuating circumstances.
OIIFP will evaluate applications based upon the criteria set forth in the Reimbursement Application package, and on the productivity and effectiveness of the county program. OIIFP reserves the right to allocate funds in amounts other than those requested by the applicants. Failure to submit a timely application or the submission of an incomplete application may result in rejection of the application.

By copy of this letter, your designated program representative can find 2019 Application, Program Requirements, and Forms on the OIIFP Website at www.nj.gov/insurancefraud/oifp. Completed applications must be received by 5:00 p.m. on Friday, November 2, 2018. If you have any questions concerning the Reimbursement Program, please contact Program Analyst Tracy A. Abbate at (609) 376-2466 or abbatet@njdcj.org.

Very truly yours,

**TOTAL** $375,000.00

These funds will be available to your agency for allowable program expenditures upon the completion of the requirements listed below:

Introduced on: October 9, 2018
Adopted on: October 9, 2018
Official Resolution#: R20180019
1.) Return of a signed FFY18 Grant Agreement and required attachments (A through F) by October 12, 2018, to Kathleen Wynn, Grants Management Bureau, OHSP, at the above address.

2.) The awarding of these funds is conditioned upon your agency’s full participation with the OHSP Grant Management System (GMS). Your grant coordinator will be contacted by our grant liaison once the system is ready to accept entries for your approved projects.

Once these requirements are satisfied, spending authority will be granted and a fully executed Grant Agreement will be returned for your records. Failure to complete these requirements within the prescribed time frames may cause this award to be rescinded and any expenditures will be ineligible for reimbursement.

The attached Grant Agreement sets forth the certifications, terms, conditions and assurances required of your agency before OHSP will authorize the agency to make program expenditures eligible for reimbursement. Please review the Grant Agreement carefully. It is important that the Grant Agreement and required federal certifications are signed and returned to OHSP by October 12, 2018. It is extremely important to implement the activities in the approved Project Proposal(s) in a timely manner to avoid reprogramming of any awarded funds.

The FFY18 UASI grant program has a thirty-six (36) month period of performance (September 1, 2018 to August 31, 2021). On or about February 1, 2020, OHSP will conduct a mid-term financial and programmatic review to determine progress in meeting stated objectives/goals and expenditure activity (at least 50% of these funds should be legally/contractually obligated). As referenced within the Grant Agreement, please note that 100% of these funds shall be legally/contractually obligated by February 1, 2021. Final reimbursement packages are to be completed and forwarded to OHSP by July 31, 2021. In addition, reimbursement request packages are to be submitted to OHSP on a quarterly basis, reference Section IX, A in the attached Grant Agreement.

OHSP recognizes there may be extraordinary circumstances that necessitate an extension on a case-by-case basis. FEMA has informed us, however, that they will only approve extensions based upon compelling legal, policy or operation challenges. Therefore, it is critical to observe the above provided performance dates.

During the period of performance for this grant, any intended programmatic changes must be submitted to OHSP within the Grants Management System (GMS). Once the revised Spending Plan(s) has been reviewed and approved, spending authority for the documented changes will be granted. All programmatic changes must be approved by the UASI Sub-Committee from where the project was funded and the UASI Executive Committee.

Re: Status Update and Partial Payment Request
   Borough of Wanaque
   2016 Open Space Grant
   Back Beach Park Rehabilitation

Dear Ms. Caren:

As was reported earlier, the Borough of Wanaque twice bid and twice rejected bids for improvements to Back Beach Park. In each instance, the bids received greatly exceeded the Borough’s Project Engineer cost estimate for the work to be done. After the second bid rejection, the Borough contacted the two firms that had submitted bids on the second round of bidding, and offered an opportunity to negotiate the cost of the project (as is permitted under NJ purchasing law). Neither firm responded to the offer to negotiate.

As you and I have discussed in the past, the park improvements bid by the Borough differed in several areas from the work submitted to the County in its 2016 and 2017 Open Space applications (with the differences to be funded by the Borough). In an effort to advance the project in a timely manner the Borough is returning to the work proposed in the County Open Space applications. The Borough will be seeking to utilize various State contracts and/or other cooperative purchasing contracts to move the constituent components of the project forward. We have already purchased and installed ten (10) new picnic tables (including 2 ADA compliant tables) for which we are submitting, as part of this update, a reimbursement request (enclosed) in the amount of $9,562.00. We hope to begin work on several other components of the project this year including the playground surface, timber replacement and split rail fence replacement.

We thank you in advance for your consideration and for your continued assistance. If you have any questions or if you require any additional assistance, please let me know.

Dear Ms. Hoffman:

Per our conversation on Thursday, September 20, 2018, I am writing to confirm that Catholic Family & Community Services will be closing the Project LINC program, a transportation program serving residents of Upper Passaic County, as of October 31, 2018.

As we discussed, we deeply regret that we can no longer continue this service. The funding from CDBG and our other contract provide only a fraction of the cost to deliver these needed services. As a result of a reduction in donations to our agency, and ever increasing costs, CFCS simply does not have the resources to continue to fill in the funding gap.

We discussed the two vehicles that have been funded by CDBG over the years. We are in the process of obtaining the current valuation on those vehicles and will provide that information to you when we have it. In the meantime, CFCS operates intensive case management program that serves both Upper and Lower Passaic County. In Upper Passaic County we work out of the Social Services office on Ringwood Ave in Wanaque. The program helps clients transitioning from TANF/GA to independence and often involves monthly site visits to the funded apartments. Please let me know if this could be an acceptable grant to transfer the Subaru Forester.

Should you have any questions or concerns, please don’t hesitate to contact me at 973-279-7100 x2021.

Sincerely,

Christine L. Barton, MSW, LCSW
