RE: Resolution Request for $17,790 for MXI

I am requesting a resolution in order to make full payment for the County’s last Household Hazardous Waste Collection event of 2017, as the funds originally certified for the first two years of the program’s formal bid have been exceeded by $17,790 due to the success of the program and the increased number of participants.

Passaic County went out for formal bid for its Household Hazardous Waste Collection Program at the end of 2015, awarding this competitive bid to MXI Environmental Services, LLC (also known as Maumee Express) on January 26, 2016 (R20160029). Funds certified at that time were in the amount of $148,205.75 but were an estimate, based on the cost of the several previous years’ programs. It is only after a collection event has been completed that the number of participants and thus the dollar amount of the program can be determined. As such, with this increase in participants, Passaic County exceeded the originally certified amount for the first two years of the contract ($148,205.75) by $17,790, for a total cost of $165,995.75.

Please see the attached requisition to the Resolution Request Form seeking to pay $46,804.23 for October, 2017’s Household Hazardous Waste Collection event to MXI (the last event of the first 2 years of the contract.) Of that dollar amount, $29,014.23 has been certified as it falls within the original $148,205.75 allotted for the first two years of the program. The additional dollar amount however, $17,790, exceeds the originally certified dollar amount, hence the request for a resolution authorizing the certification of this additional amount ($17,790) so that MXI can be compensated for the total amount of $46,804.23 for October, 2017’s event.

Project Title for this Innovation Proposal

Passaic County Youth and Family Enrichment Program

Requested Amount for this Innovation Proposal

$55,000
Purpose
Provide a brief overview of the innovation for which the funds will be used.
Passaic County will utilize innovations funding to create a multi-faceted community based enrichment program for youth on probation between the ages 12 and 19 who reside in Passaic County with an emphasis on youth who reside outside of the cities of Paterson and Passaic. The program will focus on youth who are high risk/high need on probation and are at risk of or have a history of violations. In addition the program will target youth who (1) violate probation; or (2) are at risk of a violation due to non-compliance. The program will utilize a coordinator to engage youth and their families with local service providers and community supports. The coordinator will collaborate with and work closely with community organizations to address systemic issues within the family that may cause violations of probation. The program will reduce the number of youth detained for VOP's by addressing issues affecting not just the youth, but also the home environment. For the purposes of this proposal, a family member is anyone that has a significant emotional tie to the youth. The program will focus on youth in the northern part of Passaic County. The majority of programs are held in the cities of Paterson and Passaic which makes it hard for youth who live in the northern part of Passaic County to travel down to Paterson or Passaic. This program will focus on youth who live in towns of Ridgefield, Wayne, Pompton Lakes, Bloomingdale, West Milford, and Wanaque. This will also allow for community development for those youth to increase success and family support. The goal of this program is help support youth outside of Paterson and Passaic and create services that meet their needs and location to increase success.

The role of the coordinator is to function as a liaison between probation and the community. The coordinator will develop and maintain relationships with community resources and link youth on probation to these resources to prevent future violations. Additionally, the coordinator will have extensive knowledge of Passaic County and community networks. Referrals will be received from probation or through a review hearing in which probation is present. A process to receive these referrals will be developed through collaboration between probation and the coordinator.

The program coordinator will collaborate with Passaic County Probation, Passaic County community providers, family court and family support services to build relationships and link families with local resources and support services. In addition, the coordinator will link the families/guardians to agencies/services that will assist in preventing future violations and promote a healthy living environment. An integral part of the program involves fostering relationships with community support networks and organizations located in towns outside of Paterson and Passaic. The coordinator will link youth to positive activities and resources in their community and explore healthy coping skills to overcome drug use and abuse, toxic family dynamics, trauma and financial issues. The coordinator, probation, and service providers will collaborate to analyze the reasons youth are violating probation. This information will be utilized to develop strategies to promote the importance of compliance and strong family ties. An exit assessment from both parent/guardian and youth will be utilized to determine the strengths and weaknesses of the program. Outside of referrals the coordinator will:

- Link families with community based services in the youth's town or neighboring town
- Conduct a strength and needs determination after the initial visit to develop plans to help youth become more successful and help families work on generational issues that are contribute to noncompliance
- Hold a minimum of 8 hour long family sessions per week. A family may require more than one session per week. This will be determined by the Coordinator.
- Offer advocacy and support by meeting with families for at least one hour a week to discuss current or lingering family issues that are contributing to youth behavior or issues the family is facing
- Meet with probation monthly to discuss family progress
- Plan a minimum of 4 community or family engagement events to develop a community network for families and help develop healthy relationships between youth and their families
• Meet with families to discuss potential community based programs and activities for both youth and families

In addition, the coordinator will work with families, as needed, to develop individual action plans or case plans that will address specific risky behavior for identified youth. To complete this, the coordinator will collaborate with the youth, their family and probation on a continuous basis. Additionally, the coordinator will be available to meet with probation to discuss any issues or successes that arise while dealing with the youth. The Coordinator will draft reports outlining the progress of the youth and family to provide to Probation.

Identification of Problem/Systems-Improvement Need
Briefly describe the problem/systems-improvement need the innovation will address within the context of the one or two JDAI core strategies most relevant to the proposed use of funds. Briefly describe how this problem affects detention utilization (Admissions, LOS, ADP, etc.).

✓ **Problem/Need as it Relates to the Most Relevant Core Strategy(ies)**
The Program will address the core strategies #1 and #6: Collaboration and Leadership and Addressing Special Populations, respectively. The program will analyze youth admitted for violations of probation. Although the goal is to reduce violations filed for all youth, the expectation is violations filed for minority youth will be reduced.

✓ **Impact of Problem/Need on Detention Utilization**
Passaic County continues to experience an increase in detention due to VOP’s. The 2016 Annual Data indicates that in 2015 9.9%, or 24 juveniles, were detained as a result of a VOP. In 2016, 16.3%, or 41 juveniles, were detained as a result of VOP’s. Furthermore, during 2016, 20.9% of juveniles admitted on a violation only had a violation as their most serious underlying offense, 13.2% had a DP/PDP as the most serious underlying offense, and 15.4% had a 4th degree charge as the most serious underlying offense.

Youth in both Paterson and Passaic have access to multiple programs and community support networks. Youth in the surrounding towns have a longer travel time and less access to the services due to location. Of the youth who were detained on a VOP in 2016, 12% were from towns in Passaic County outside of the large cities of Paterson and Passaic. Although this number is small, the data indicates that youth in cities outside of Paterson and Passaic represent most of youth that violate due to higher level drug use. Additionally, these youths and their families have trouble accesses life skills workshops, increased violations due to probation conditions and need additional supervision and support for family networks.

Specific Nature of Problem
Identify the primary factors contributing to the problem in this site. Briefly describe these factors, how they affect detention utilization, and the data used to assess each factor’s presence in the site.

✓ **Contributing Factor #1**
Passaic has the third highest caseload in the state of NJ. The overall violation rate of youth on probation has increased over a one year period. In 2016, there were 183 VOP’s filed. So far in 2017, there have been 154 VOP’s filed. At this rate, the VOP rate for 2017 will outnumber the 2016 VOP rate.
✓ **Description & Data Regarding Factor #1**

In 2015, there were 166 VOP's filed in Passaic County, which increased to 183 in 2016. The majority of these violations were due to technical and program violations.

✓ **Contributing Factor #2**

Youth who receive a violation of probation for reasons outside of leaving a treatment program have increased.

✓ **Description & Data Regarding Factor #2**

In 2016, 52% of youth detained on a violation had a combination of violations outside of leaving a treatment program. Additionally, in 2016 of the VOP's filed, 29.5% were due to drug use, and increase from 19% in 2015.

✓ **Contributing Factor #3**

Passaic County is experiencing an increase in the number of youth being detained for violation with the most serious prior adjudication being a 4th degree or less.

✓ **Description & Data Regarding Factor #3**

Overall, 44% of youth detained on a VOP had a MSUO of a 4th degree or less in 2016. This is an increase of 17 youth from 2015.

✓ **Contributing Factor #4**

Passaic County continues to experience a disproportionate number of minority youth in detention.

✓ **Description & Data Regarding Factor #4**

Pre-JDAI, 95.6% of youth in detention were minorities. Post-JDAI, 96.0% of youth in detention are minorities. In 2016, 85.3% of youth detained on a VOP were minority youth.

**Proposed Solution To Identified Problem**

(If action words for this section might include create, establish, serve, implement, etc.) Describe the solution to the identified problem and how the requested funds will be used to implement this solution. List the specific objectives this solution seeks to achieve, and where possible, describe these objectives in terms of the JDAI core strategies and the contributing factors described earlier. Describe the specific elements/components of the solution.

**Proposed Solution**

Passaic County seeks to implement a multi-faceted program that will address increased probation violations and detention. The program will target youth on probation with a history of violations or a risk of violations. The coordinator will work with as few as 5 youth up to a maximum of 15 at any given time, with a total of 30 youth during the year. The coordinator will meet with youth and families for a minimum of 3-4 times a month with at least one meeting outside of the home at a family engagement event. In addition, the coordinator will hold at least six family sessions per week. Each family session will be one hour long. An individual family may require more than one weekly session. During each meeting, the coordinator will discuss progress with the families, issues that have developed or subsided since the last meeting and discuss next steps and program decisions. The program will range from four to six months, allowing time for the coordinator to meet and engage families as well as link with local services. The coordinator will achieve these goals by collaborating with the probation division, family court, county, and local service providers to develop support networks that address systemic issues facing the youth and family. The program coordinator will work with the juvenile and family to
determine the specific needs of the youth and family and link them with the appropriate resources/agencies within their community. The Coordinator will also locate educational programs and resources for families who are struggling to address risky behavior, enforce positive family relationships, and discuss health concerns such as drug abuse and overdose. Through community engagement, youth will be linked to educational and enrichment activities and workshops that address topics such as family dynamics, drug use and violence, and harmful behaviors. The coordinator will determine the strengths and needs of the family at the initial session. Using the results of the initial session, the coordinator will connect youth and families with local resources and networks that can assist each family's needs. The coordinator will draft reports outlining the progress of the youth and family. The reports will be provided to Probation.

The goal of the program is to reduce the number of VOP's filed for non-new charge violations and reduce the number of youth detained for violating probation and failing to appear in court. In lieu of detaining a youth who violates probation or filing a non-compliance VOP probation may refer youth to the program. Referral to the program can also be added as a recommendation to the summary for required/mandatory VOP's. Additionally, probation officers can refer youth to the program rather than file a VOP. After the youth and/or family are referred to the program, the Coordinator will conduct a risk/needs assessment and link the youth/family with needed services/agencies. The coordinator will assist the youth with addressing issues within the home that are contributing to non-compliance as well as linking the youth with services and agencies that will address the environment and culture within the home. The coordinator will also connect youth with job and educational fairs, local community events that serve as an outlet for youth behavior, and activities that allow youth to travel outside of their neighborhood and experience different cultures.

✓ Objective #1- The program will refer the juvenile and his/her family with needed services that will address reasons contributing to probation violations and/or problems within the home post-disposition.

✓ Objective #2. The Coordinator will work with probation staff to identify youth who have a history of violations and or are at risk of violating and identify gaps in services such as inaccessibility to programs. An emphasis will be placed on youth who reside outside of the cities of Paterson and Passaic.

✓ Objective #3 –Reduce the number of VOP’s filed and the number of youth detained on a VOP.

✓ Objective #4. Refer and assist with engaging families and youth with positive activities and local community groups to promote family engagement and a healthy family environment.

✓ Objective #5 Collaborate with local community stakeholders and agencies to develop and maintain networks and create workshops and support groups for youth who violate Probation and their families.

✓ Objective #6 Provide awards and incentives to youth as they demonstrate success in their programs and complete any programs they are linked with through the coordinator.

Objective #7. Address the environment, culture and behavior within the youth's homes that place them at risk of violating probation.

✓ Specific Elements/Components
The coordinator will collaborate with community stakeholders and families to promote and ensure youth compliance with probation requirements. The coordinator will work alongside probation and community stakeholders to promote youth success with referred programs. Upon referral, the coordinator will:

- Conduct a strength and needs determination of the youth and family to determine needed interventions services and programs that exceed the questions asked by probation.
- The coordinator will develop and implement a survey for families and community stakeholders addressing the needs and risks faced by juveniles and their families.
- A strategy to obtain feedback from youth and their families regarding the program and interventions offered to ensure program is meeting the changing needs of families.
- The coordinator will attend probation meetings and sub-committee meetings to understand the youth and their needs, local trends and issues facing youth on probation, increases in specific areas related to violations as well as to give an overview on the progress of the program and the youth involved.
- The coordinator will meet with families to understand the needs as well as develop a healthy relationship allowing families to seek support from the coordinator in addressing concerns they have.
- The coordinator will engage parents and other family members in programs and activities and share information on services and resources that exist within the community as well as incorporate the importance of clear and consistent parental supervision and strong family ties.
- The coordinator will work with a minimum of 5 youth and a maximum of 15 youth at any given time. A total of 30 youth will be referred to coordinator during the year.
- The collaboration between the coordinator and the family will range between four and six months with the possibly of an extended time if agreed by probation, the family and the coordinator.
- The coordinator will hold at least six family sessions per week. Each family session is one hour long.
- The coordinator will assist in connecting families to local community support networks.
- The coordinator will develop a network of community stakeholders to meet quarterly to schedule workshops, community events.
- The coordinator will collaborate with local providers including local substance abuse providers to link youth and families to services and support groups.
- The coordinator will work with local organizations to develop a series of workshops, access educational events and other enrichment activities for families with youth on probation struggling with non-compliance.
- The coordinator will offer advocacy, empowerment, support, recreational activities and a structured life skills curriculum that collaborates with the community in which the youth and family reside.
- Overall workshops and potential activities will include but are not limited to drug use and abuse, youth and family empowerment, self-destructive behaviors, community and cultural difference, education and career paths, and the impact of family engagement on youth involved in the system.
- The coordinator will work to develop positive partnerships and relationships with stakeholders.
- The coordinator will communicate with families weekly to discuss progress and any issues that arise.
- The coordinator will attend JDAI meetings as scheduled and report progress.

Tracking Implementation of the Solution/Process Measures

Describe the various measures that will be used to track the implementation of the solution and how this information will be collected/maintained. (These are the “process” or “output” measures, and should
reflect the steps taken to actually implement the project and its components. As general examples, process measures include things like: number of youth served, number/type of service hours provided, number/type of incentives awarded, mentors/employers recruited, beds/units acquired, reports produced, etc.)

✓ Process/Output/Implementation Measures

- Number of referrals received
- Number of families on probation served
- Number of VOP’s filed
- Number of linked interventions
- Number of workshops conducted
- Number of community activities targeted and the number of youth attending each program
- Number of youth participating in workshops and community activities
- Number of strength and needs determinations conducted
- Number of families attending workshops
- Number of workshops and events held including sign-in sheets
- Number of community stakeholders facilitating workshops
- Number of surveys collected

✓ Methods for Maintaining/Collecting Data Regarding Process/Output/Implementation Measures
  - survey results
  - VOP’s filed and detained
  - Passaic County Detention Data
  - Passaic County Detention Alternative Data

The coordinator will track the level of service and attendance and report out at the Passaic County CJJSI on the progress, barriers and successes. A master list of both youth and families served, number of referrals, as well as community organizations, activities and workshops held will be created. Additionally, identification of the types of service provided will be tracked and provided. Findings and feedback from surveys and probation will also be reported. Specific workshops, events and other groups will be developed in advance.

Impact of Proposed Solution & Outcome Measures

Briefly state the anticipated impact of the proposed solution in terms of the contributing factors described earlier and their effect on the detention system (action words include reduce, increase, etc.). Describe the various measures that will be used to evaluate these anticipated outcomes. Then, briefly describe the potential unintended consequences of the solution, and the measures/methods that will be used to monitor the occurrence of these unintended outcomes. Finally, describe how the data needed to report all of these outcome measures will be maintained/collection.

✓ Expected Impact

The expected impact is a reduction in the number of VOP’s filed over the course of the next year and a reduction in the number of youth detained as a result of a VOP. Overall the program seeks to increase the success rate of youth on probation and give youth and their families healthy living tips and ways to work together for success.

✓ Outcome Measures to Gauge Expected Impact

Introduced on: January 23, 2018
Adopted on: January 23, 2018
Official Adoption: R20180052
• Number of families serviced on probation
• Number of interventions developed
• The number of family strength and needs determinations completed
• The number of family case plans developed
• Number of education workshops and family engagement activities and the number of families attended
• Number of programs completed
• Number of activities developed and completed

Unintended consequences include net-widening and behavior of youth and families that cannot be changed or impacted by the coordinator or additional services. Participation from families may be limited due to the program being voluntary. Participation may also be limited to cultural barriers, language barriers, and location barriers.

✓ Outcome Measures to Monitor Unintended Consequences

• The number of family strength and needs determinations completed
• Number of participants and youth attended, measured monthly
• Number of surveys completed

✓ Maintaining/Collecting Data Needed to Report on All of the Above Outcomes

The data needed to report on the above outcomes will be maintained by the coordinator for the program. The coordinator will keep all strengths and needs determinations and surveys conducted and provide copies of them to the JJC Liaison on a monthly basis. In addition, the coordinator will maintain a spreadsheet that indicates the different seminars/workshops held and the number of attendees at each. The coordinator will also maintain a spreadsheet indicating the youth that have been placed in a paid or non-paid internship, the location, and if the result of the internship. RE: Encroachment Permit Application
Applicant: Yasar Baker
Address: 1076 Main Street
Municipality: Paterson
Block: 6903 Lot: 3

Dear Members of the Board:

This office has received and reviewed an Encroachment Permit Application for a new storefront canopy at 1076 Main Street, Paterson, NJ. The encroachment poses no adverse effect on vehicular or pedestrian traffic at this location as designed.

The conditions of the permit include:
1. The applicant/owner agrees to hold the County of Passaic and its agents and employees harmless for any damages incurred as a result of the granted encroachment.
2. Upon proper notice from the County of Passaic, the owner agrees to remove all or any of the encroachment at his expense, should Passaic County require the use of the right-of-way for the widening of the County Road or for any other reason as may be required by the County of Passaic in the future.
3. Should the owner modify or abandon the need for the encroachment, the portion(s) containing the encroachment of this structure or other feature shall be removed by the owner at his expense; and thus said encroachment permission within the County's right-of-way shall cease to exist.

I recommend the Encroachment Permit be approved and issued to the applicant. This matter was discussed with the Public Works and Buildings and Grounds Committee at its meeting on January 8, 2018.

Preakness Healthcare, 305 Oldham Road, Wayne

Members of the Board:

The County of Passaic awarded a Contract to United Federated Systems for the
Inspection and Monitoring of County Security, Burglar, Fire, Alarm, and CCTV Systems.
Included in the Contract is the provision to improve/upgrade the systems at a set hourly rate

   Including Burglar, Alarms, Fire and CCTV Systems, SB-16-010,
   AWARD OF IMPROVEMENT/UPGRADE CONTRACT
   Contractor - United Federated Systems
   Preakness Healthcare, 305 Oldham Road, Wayne

Members of the Board:

The County of Passaic awarded a Contract to United Federated Systems for the
Inspection and Monitoring of County Security, Burglar, Fire, Alarm, and CCTV Systems.
Included in the Contract is the provision to improve/upgrade the systems at a set hourly rate
and markup on parts. In accordance with the new fire codes, the County needs to upgrade
the smoke detectors in Unit 4 to combination smoke/carbon monoxide detectors, and upgrade
the zone smoke detectors in the Unit 3 resident’s rooms to addressable smoke detectors for a
total cost of $59,235.67.

This matter was discussed with the Public Works Committee via email on January 11,
2018 and an award of contract to United Federated Systems, Inc., Totowa, New Jersey is
recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders
adopt a Resolution awarding the construction contract for the modifications to the Fire, Alarm,
Security, CCTV Systems in the amount of $59,235.67 to United Federated Systems, Inc. and
authorize County Counsel and the Director of Purchasing to prepare and execute the
necessary Agreements subject to the availability of funds.

Re: 2014 HUNTOON - VAN RENSAIERS UNDERGROUND RAILROAD FOUNDATION County Open Space Trust Fund Grant

Dear Ms. Caren:

The purpose of this letter is to request an extension to this grant, with the anticipated project completion date of May 30, 2018.

The reason for this delay in completion is due to the following circumstances:

The two park benches were ordered February 2017. There was a mix-up in delivery of our park benches by the company (kept sending to California). I finally called the company and straightened it out. The benches were not delivered until October 2017. Then, I had to go through the process of receiving a copy of the later invoice.

Thank you for your consideration of this request.

Sincerely,

D. Van Rensailer

[Docket No. FR-5173-N-15]

Affirmatively Furthering Fair Housing: Extension of Deadline for Submission of Assessment of Fair Housing for Consolidated Plan Participants

AGENCY: Office of the Assistant Secretary for Fair Housing and Equal Opportunity, HUD.

ACTION: Notice.

SUMMARY: This notice advises that HUD is extending the deadline for submission of an Assessment of Fair Housing (AFH) by local government consolidated plan program participants to their next AFH submission date that falls after October 31, 2020. Such program participants will not be required to submit an AFH using the current Office of Management and Budget (OMB)-approved version of the Assessment of Fair Housing Tool for Local Governments (OMB Control No.: 2528-0084), but must continue to comply with existing obligations to affirmatively further fair housing. Local government program participants that have already submitted an AFH that has been accepted by HUD must continue to execute the goals of that AFH.

DATES: Applicability Date: January 5, 2018.

Comment Due Date: March 6, 2018.
ADRESSES: Interested persons are invited to submit comments responsive to this notice to the Office of General Counsel, Regulations Division, Department of Housing and Urban Development, 451 7th Street SW, Room 10290, Washington, DC 20410-0001. All submissions should refer to the above docket number and title. Submission of public comments may be carried out by hand copy or electronic submission.

1. Submission of Hand Copy Comments. Comments may be submitted by mail or hand delivery. Comments submitted electronically through the http://www.regulations.gov website can be reviewed by commenters and interested members of the public. Commenters should follow instructions provided on that site to submit comments electronically.

No Facsimile Comments. Facsimile (fax) comments are not acceptable.

SUPPLEMENTAL INFORMATION:

I. Background

On July 15, 2015, at 80 FR 42359, HUD published in the Federal Register its Affirmatively Furthering Fair Housing (AFFH) final rule. The AFFH final rule provides HUD program participants with a new approach for planning for fair housing outcomes that will assist them in meeting their statutory obligation to affirmatively further fair housing as required by the Fair Housing Act, 42 U.S.C. 3608. To assist HUD program participants in meeting this obligation, the AFFH rule provides that program participants must conduct an Assessment of Fair Housing (AFFH) using an “Assessment Tool.” HUD’s AFFH regulations provide for a staggered AFFH submission deadline for its program participants. (See 24 CFR 5.160.)

On October 24, 2016, at 81 FR 73120, HUD published a notice extending the deadline for submission of an AFFH for local government consolidated plan participants in Fiscal Year (FY) 2015, or receive in a subsequent fiscal year, a CDBG grant of $100,000 or less, or in the case of a HOME consortium, whose members collectively received a CDBG grant of $100,000 or less, from the program year that begins on or after January 1, 2016, to the program year that begins on or after January 1, 2018, for which a new consolidated plan is due. By notice published in the Federal Register on January 13, 2017, at 82 FR 3488, HUD amended the rule by deleting the new consolidated plan is due. By notice published in the Federal Register on January 13, 2017, at 82 FR 3488, HUD renewed the notice of approval of the Assessment Tool for use by local governments that receive Community Development Block Grants (CDBG), HOME Investment Partnerships Program (HOME), Emergency Solutions Grants (ESG), or Housing Opportunities for Persons With AIDS (HOPWA) formula funding from HUD when conducting and submitting their own AFFH, and in some joint and regional collaborations, as explained in that notice. This Assessment Tool is referred to as the Assessment of Fair Housing Tool for Local Governments.

This notice extends the deadline for submission of an Assessment of Fair Housing (AFFH) to all local government consolidated plan program participants until their next AFFH submission deadline falls after October 31, 2020. (See 24 CFR 5.160) for information about how to calculate a program participant’s AFFH submission deadline.) The AFFH rule requires that program participants have no less than 9 months after the publication of the OMB-approved assessment tool to submit their AFFH. Therefore, the Department selected the October 31, 2020 date in anticipation that it will complete the Paperwork Reduction Act requirements and receive OMB approval to renew the Assessment of Fair Housing Tool for Local Governments by January 31, 2020. Local government program participants will not be required to submit an AFFH using the current OMB-approved version of the Assessment of Fair Housing Tool for Local Governments (OMB Control No: 2529-0156), but must continue to comply with existing statutory obligations to affirmatively further fair housing. (See 42 U.S.C. 3608.) Local government program participants who qualified for an extension under the October 24, 2016 notice are also covered by this notice, extending their deadline for submission of an AFFH to their next AFFH submission deadline (See 24 CFR 5.160) that falls after October 31, 2020.

Based on the initial AFFH reviews, HUD believes that program participants need additional time and technical assistance to adjust to the new AFFH process and complete AFFH submissions that can be accepted by HUD. HUD’s decision is informed by the review of AFFH submissions received. Based on the first 48 AFFH initial submissions that received a determination of accept, non-accept, or deemed accepted from HUD, the Department found that many program participants are striving to meet the requirements of the AFFH rule, in 2017, the Department conducted an evaluation of these submissions and found that more than a third (35%) still initially non-accepted.

HUD’s analysis identified several reasons that many a delay of AFFH participants had in delivering program participants’ need for additional technical assistance, HUD determined that many program participants struggled to meet the regulatory requirements of the AFFH rule, such as developing goals that
