WHEREAS the Board of Chosen Freeholders of the County of Passaic (the “Board”) is committed to exploring appropriate means of reducing the expenses associated with employee health benefits; and

WHEREAS the County previously entered into a contract with Horizon Blue Cross Blue Shield of New Jersey for administrative services relative to the County’s self-insured health benefits plan, which is currently up for renewal; and

WHEREAS the County of Passaic’s insurance broker, Fairview Insurance Associates, Inc., in late 2018, secured a quotation for renewal from said Horizon Blue Cross Blue Shield of New Jersey for calendar year 2019 and the said Freeholder Board, by Resolution R-2018-1063 dated December 27, 2018 authorized that these services be renewed for a period of six (6) months; from January 1, 2019 to June 30, 2019; and

WHEREAS during the six-month period, said Fairview and County staff were to develop a new Request for Qualifications for these claims and administrative services; and

WHEREAS due to a misunderstanding, the necessary Request for Qualifications has not been completed, and it is necessary to extend the services of Horizon Blue Cross Blue Shield for an additional two (2)-month period, from July 1, 2019 to August 31, 2019, in order for the Request for
Qualifications to be circulated, received back and evaluated.

WHEREAS said Horizon Blue Cross Blue Shield had agreed that they would provide the needed claim administrative services for the health benefit program provided that those services are charged in accordance with the quotation they gave the County of Passaic for the entire year pro rated on a monthly basis (copy of Schedule A-Financial Terms attached hereto and made part hereof); and

WHEREAS it has been estimated that these administrative services for an additional two (2) months will be approximately Four Hundred Thousand ($400,000.00) Dollars; and

WHEREAS the said Board, by Resolution R-06-97 dated February 14, 2006, established a policy of only awarding contracts in excess of the monetary threshold set forth under the Pay to Play Law only under a fair and open process; and

WHEREAS in this case, the Board will make an exception to make sure that the County of Passaic’s health benefit program is administered in both the best and economical manner; and

WHEREAS the Committee for Finance & Administration at its June 12, 2019 meeting has reviewed this matter and are recommending that it be agreed to by the full Board; and

WHEREAS a certification is attached that indicates the availability of funds for said expenditure.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby
awards a non-fair and non-open contract to perform necessary administrative claim services to the County of Passaic for its Self-Insured health benefit plan to Horizon Blue Cross Blue Shield of New Jersey for a period of two (2) months, beginning July 1, 2019 through August 31, 2019 for the approximate sum of Four Hundred Thousand ($400,000.00) Dollars, as more fully described in the attached proposal.

**BE IT FURTHER RESOLVED** that the Director and Clerk to the said Board are hereby authorized to execute the necessary documents on behalf of the County of Passaic; and

**BE IT FURTHER RESOLVED** that this contract is awarded without competitive bidding as one for “Extraordinary Unspecifiable Services” in accordance with the Local Public Contracts Law, specifically N.J.S.A. 40A:11-5(l)(m), which applies to insurance and insurance-related services; and

**BE IT FURTHER RESOLVED** that the award of this contract is being made as an exception to the policy of the Board as set forth in its Resolution 06-97 dated February 14, 2006 because of the special circumstances of this situation and the policy of the Board as set forth in this Resolution and shall remain in full force and effect.

**BE IT FURTHER RESOLVED** that a Notice of this action be published in the NORTH JERSEY HERALD & NEWS.

A-1.3 External Appeals. To the extent that Contract Holder's Plan is grandfathered, as that term is defined in the Patient Protection and Affordable Care Act ("Affordable Care Act"), Horizon BCBSNJ understands that the Plan is not subject to that Affordable Care Act's provisions with respect to required external appeals for as long as the Plan's grandfathered status is maintained.

A-2.2 Billing of Administrative Fees and Other Fees. Horizon BCBSNJ will invoice Contract Holder monthly for the applicable Administrative Fees based on the Plan’s enrollment as of the fifteenth (15th) calendar day of the corresponding month together with all other charges, including Network Access Fees and Other Fees as applicable under this Agreement. However, in accepting this arrangement, Contract Holder understands and acknowledges that since the rates charged by participating pharmacies and pharmacy chains may vary, the amounts paid by the Pharmacy Benefits Manager to them may not be equal to the amounts billed to Horizon BCBSNJ and back to Contract Holder.

A-3.3 Pharmacy Rebate Credits: Certain pharmacy rebates shall apply to benefits obtained through Horizon BCBSNJ’s Pharmacy Network. Horizon BCBSNJ shall credit Contract Holder’s Claims Due during the eighth month after the end of the quarter in which the Claim is Paid. AFFILIATION AND TRANSFER AGREEMENT FOR
SUB-ACUTE AND LONG-TERM CARE PATIENTS
BETWEEN
ST. JOSEPH’S UNIVERSITY MEDICAL CENTER
AND
PREAKNESS HEALTHCARE CENTER

AGREEMENT made this 29th day of May, 2019, by and between ST. JOSEPH’S
UNIVERSITY MEDICAL CENTER, having principal locations at 703 Main Street, Paterson,
New Jersey 07503 and 224 Hamburg Turnpike, Wayne, New Jersey 07470 (hereinafter “St.
Joseph’s”) and PREAKNESS HEALTHCARE CENTER located at 305 Oldham Road,
Wayne, New Jersey 07470 (hereinafter “Transferring Institution”).

WHEREAS, the parties desire to enter into this Affiliation and Transfer Agreement to facilitate
the care and transfer of patients receiving care at Transferring Institution who may require
tertiary services not available at Transferring Institution pursuant to sound medical practice and
New Jersey State requirements; and

WHEREAS, St. Joseph’s is an acute care hospital licensed by the State of New Jersey and has
the staff and equipment necessary to provide emergency care and hospital services; and

WHEREAS, the parties wish to insure continuity of care and treatment appropriate to the needs
of patients;

NOW, THEREFORE, in consideration of the mutual covenants contained herein and intending
to be legally bound, the parties do hereby enter into this Agreement and agree as follows:

1. TRANSFERS
When the transfer of a patient is desired because of the lack of availability of tertiary services
and resources at Transferring Institution, the parties agree that the patient may be transferred
between the two facilities pursuant to the following guidelines:

a. Process for Initiating Transfer for: Sub-Acute and Long-Term Care Patients

Emergency Patients - When it is determined by a clinician at Transferring Institution
that a patient may have an emergency medical condition that requires transfer to St. Joseph’s,
Transferring Institution shall contact the St. Joseph’s Transfer Center by dialing 1-855-
SIADMIT (1-855-752-3648). All calls made to the St. Joseph’s Transfer Center are recorded.
The Transfer Center RN will contact the caller’s physician of choice; if the caller does not have a
preference, the Transfer Center RN will contact the specialist ON CALL. The Transfer Center
RN will connect the referring clinician to the St. Joseph’s attending physician. The St. Joseph’s
attending physician determines whether the patient can or cannot be accepted onto his/her
service and informs the Transferring Institution of the decision. The St. Joseph’s attending
physician notifies the Transfer Center of the disposition request and particulars regarding the
patient. St. Joseph’s shall determine whether or not it has the capacity and availability to accept
the patient for transfer and so notifies the accepting physician and Transferring Institution. If St.
Joseph’s does not have the capacity and availability to accept the patient, the patient shall be transferred
pursuant to this Agreement. If St. Joseph’s does not have the capacity and availability to accept
the patient at that time, it shall so notify the accepting physician and Transferring Institution of such. All transfers shall be in accordance with St. Joseph’s Policy (attached) regarding Transfers of Patients from Other Facilities. If the emergency medical condition is life threatening, Transferring Institution must dial 911 to initiate emergency response. Subsequently, Transferring Institution is to notify St Joseph’s Emergency Department that patient is in transit.

b. Patient Consent to Transfer - Patients shall not be transferred without the prior written consent of the patient (or if not legally able to consent, a person with legal authority to consent for the patient), provided however, that in the event of a medical emergency, the transfer shall nevertheless be effected even if Transferring Institution is unable, after reasonable efforts under the circumstances, to obtain the consent of the parent or other legal guardian in a timely fashion. Responsibility for obtaining the consent to transfer lies with the Transferring Institution and the written consent form shall be faxed to the Transfer Center at (973) 754-2208. A copy shall also accompany the patient upon transfer. In instances in which consent cannot be obtained in advance of transfer, the Transferring Institution shall follow its own internal procedures for obtaining administrative approval for transfer, shall accept responsibility for the transfer, and shall document the circumstances in the medical record. The institution providing treatment should obtain separate consents to treatment from the patient (or if not legally able to consent, the patient’s parent or other person legally able to consent for the patient).

In addition, other than with patients with an emergency medical condition, the Transferring Institution shall obtain prior to transfer the acknowledgement of the patient (or if not legally able to consent, the patient’s parent or other person legally able to consent for the patient) of the patient’s (parent’s or legal representative’s) financial responsibility for services that are determined by the patient’s insurance company or payer not to be medically necessary or for which payment is denied or reduced.

c. Transport - It shall be the responsibility of the institution transferring the patient to the other institution to coordinate appropriate transportation and personnel to transport the patient to the receiving institution. The institution providing the transport shall bill for all transports it provides. St. Joseph’s assumes no responsibility for the transfer or safety of the patient while in transit and will incur no liability in connection therewith.

d. Records and Information - The Transferring Institution agrees to transmit all pertinent medical and financial information regarding the patient being transferred to the receiving institution, as requested by the receiving institution. Copies of all necessary and appropriate portions of the patient’s medical record shall accompany the patient upon transfer. Such information shall include current medical findings, diagnosis, nutrition and dietary information, ambulatory status, radiological films and any other information appropriate for provision of patient care.

e. Availability of Physicians and Information at Both Institutions - The appropriate physicians at each institution shall be reasonably available to the physicians at the other institution for consultation with respect to the care and treatment of any patient who is referred and/or transferred pursuant to this Agreement. In addition, each of the institutions agrees to provide the other with all available information concerning the patient, as legally permissible.
1. **Personal Property** - Whenever a patient is transferred, any personal property shall be transported safely and shall be the responsibility of the Transferring Institution until received by and signed for by the receiving institution.

2. **FINANCIAL RESPONSIBILITY FOR SERVICES PROVIDED**

   a. **Billing and Collection** - Each party shall bill and collect for the services that it provides to the patient. Both parties shall cooperate with the other in providing information necessary for payment.

   b. **Pre-approvals** - It is the responsibility of the Transferring Institution and/or the accepting physician’s office to obtain any approval or pre-certification required by the patient’s payor for admission to, diagnosis, treatment or other care at St. Joseph’s. Should such approval not have been obtained, Transferring Institution shall be responsible for all costs associated with a transferred patient’s care at St. Joseph’s to the extent such are not reimbursed by the patient’s insurance.

   c. **Pending Status** - If a patient who is transferred has applications in progress for Medicaid or Charity Care, the Transferring Institution must follow up on the pending application and communicate all information received to St. Joseph’s promptly upon receipt or as requested by St. Joseph’s Patient Accounts Department.

   d. **Satisfactory Payment Arrangements** - St. Joseph’s has the right to require that satisfactory payment arrangements be made prior to transfer for any elective or non-emergency treatment or procedure. In accordance with N.J.S.A. 26:2H-18.64; N.J.A.C. 43G-4.1(a)(2): “A person who is seeking health care services at a hospital as a patient for a non-emergency or elective procedure who does not furnish proof of health insurance coverage for the services or eligibility for charity care or reduced charge charity care or for any other program of benefits shall be required to provide sworn financial information sufficient to determine eligibility for any such program or benefits.” If the person or the Transferring Institution does not provide the required financial information or St. Joseph’s determines that the person is ineligible for any of the benefits, St. Joseph’s is entitled to require that the person transferred, or the Transferring Institution, make payment for the services to be received prior to, or subsequent to, provision of such services. Should St. Joseph’s not receive payment from the patient, or on behalf of the patient, patient, within 30 days after provision of such elective or non-emergency services, St. Joseph’s may bill, and Transferring Institution shall pay, for such services, in accordance with St. Joseph’s charges. No information in addition to the UB92 or bill shall be required for payment purposes.

   e. **Contact Person at Transferring Institution** – The Transferring Institution shall provide the name and phone number of a person at the Transferring Institution for billing and collection purposes.

3. **TRANSFER BACK OF LONG-TERM CARE PATIENTS**

   When the condition of a transferred patient improves so that the tertiary service capability of the receiving hospital is no longer required, St. Joseph’s may transfer the patient back to the Transferring Institution, and the Transferring Institution shall accept the patient back at the date of the request.
4. DISASTER DECLARATION AND EVACUATIONS
In the event of a disaster affecting one of the parties to this Agreement, a representative of the affected party may contact the CEO or designee of the other party for assistance in effectuating patient transfers. All other provisions of this Agreement will be in full force and effect, unless waived by the CEO of the accepting party for purposes of emergency assistance, so long as such waiver is not in violation of any applicable law. The parties agree to accept transfers of patients in such an event to the extent that the accepting party has the capability and capacity to do so. Patient transfers pursuant to this section will be subject to all provisions of this Agreement.

5. TERM, TERMINATION AND REVIEW
This Agreement shall commence on the date first above written and remain in effect for three years from such date, unless sooner terminated as provided for herein. Thereafter, this Agreement shall automatically renew for one subsequent three-year period, unless sooner terminated as provided for herein. Either party may terminate this Agreement immediately upon the loss of either party's operating certificate, loss of either's insurance or material breach of contract by the other party not cured within 15 days of written notice. Either party may terminate this Agreement, without cause and without liability, upon 30 days' written notice. Finally, the parties may terminate this Agreement immediately upon mutual written consent.

6. INSURANCE
Each of the parties shall maintain, at all times, professional liability insurance in an amount not less than $1 million per occurrence/$3 million in the aggregate and general liability insurance in the amount of not less than $1 million. Such insurance coverage may be with commercial insurers or under a program of self-insurance. Each of the parties shall on a yearly basis provide the other with a certificate of insurance or a copy of its formal trust agreement evidencing the foregoing insurance coverage.

7. INDEPENDENT CONTRACTORS
It is agreed that each of the parties is an independent contractor and neither is the agent of the other. Nothing contained in this Agreement shall be construed to create a joint venture, partnership, or other similar affiliation between the parties.

8. PARTICIPATION IN VENDORMATE VENDOR CREDENTIALING PROGRAM
Transferring Institution acknowledges that St. Joseph's requires all Transferring Institution's employees/agents that visit any St. Joseph's location (including all off-site locations) to participate with the Vendormate Vendor Credentialing Program. Transferring Institution agrees to register itself in St. Joseph's Vendormate System, pay the annual company credentialing fee to Vendormate and ensure it has a confirmed appointment in St. Joseph's Vendormate System for all scheduled on-site visits. All Transferring Institution's representatives entering the premises of any St. Joseph's location will be required to sign in and obtain a badge at one of the Vendormate kiosk locations (to the extent a kiosk is available at such location). Vendormate registration can be completed by Transferring Institution at https://login.vendormate.com.

9. REMOVAL OF TRANSFERRING INSTITUTION'S PERSONNEL FOR DISRUPTIVE BEHAVIOR
Anything herein to the contrary notwithstanding, Transferring Institution shall immediately remove any Transferring Institution(s) placed by Transferring Institution at St. Joseph's premises upon St.
Joseph’s determination, in its sole discretion, that such person(s) has engaged in illegal, immoral, disruptive or disrespectful behavior or any act or practice that, in the sole opinion of St. Joseph’s could jeopardize the safety and/or welfare of any of St. Joseph’s patients, employees, visitors or invitees.

PURPOSE:
To provide a clear process by which patients transferred from other institutions are accepted.

APPLICABILITY:
- St. Joseph’s University Medical Center
- St. Joseph’s Children’s Hospital
- St. Joseph’s Wayne Medical Center

POLICY:
A St. Joseph’s physician with admitting privileges, who is responsible for accepting a transfer request from a physician at another institution, must notify the Transfer Center at ext. 5715 of the intent to accept. Before agreeing to accept the following is understood:

- The patient qualifies for either a tertiary level of service not provided by the sending institution or the request for transfer is a patient/physician request (lateral transfer).
- All transfers to SJWMC are lateral transfers.
- The sending physician understands that the Tertiary Transfer Patient may be returned to the sending institution when his/her level of care no longer requires the tertiary services.
- The physician at SJUMC, with admitting privileges, who is accepting the tertiary transfer, will as necessary and at his discretion, execute a transfer order back to the institution of origin.
- Patients, who request a transfer for hospital or physician preference with or without a tertiary need, must understand that the sending institution will inform the insurance company at the time of the request and attempt to secure an authorization.
- The sending institution may be requested to fax the following documentation from the patient's medical record: including, the face sheet with insurance information, most recent diagnostics, lab values, progress notes, doctor's orders, consultations and any documentation regarding Medicaid or Charity Care applications, to the Transfer Center /Bed Management Department (973-754-2208). These materials serve to support the medical need for the change in level of care and approval of the transfer.
- The sending institution will also supply written verification that they will accept the patient's return post completion of tertiary services by signing the Transfer for Procedure form ESI#118067 and returning this via fax to 973-754-2208. This verification will confirm with the sending institution that they may be billed by SJUMC / SJWMC should they fail to accept the patient's return once tertiary services are completed.
- The Non-Tertiary (lateral) transfer patient does not require the use of form ESI#118067.
- SJUMC accepts patients without regard for ability to pay, however, as we are a tertiary hospital, tertiary transfer patients may return to the sending institution once they return to a lower level of care.

Introduced on: June 25, 2019
Adopted on: June 25, 2019
Official Resolution#: R20190540
- The sending institution is required to secure the necessary pre-certifications from the patient's insurance company and forward them to the Transfer Center prior to transfer. Patients with or without insurance are accepted, providing that they return to the sending institution when their level of care is no longer tertiary.
- The transfer must be appropriately timed and sequenced, so that the patient is transferred on the same day as the procedure unless circumstances indicate otherwise.
- Once a patient is accepted, and form ESI #118067/ Transfer for Procedures form is returned (where applicable) to the Transfer Center, a bed is assigned and receiving unit contact information is given to the sending institution. The transfer form, any applicable discs, CD's or films and a complete chart copy must accompany the patient.
- Sending institution is required to call report to the accepting unit at either the SJUMC or SJWMC prior to the patients discharge from the sending institution.
- The transferring facility is responsible to arrange and to pay for the transportation of Tertiary Transfers in the event it is not covered under the patients insurance.
- The Non Tertiary Transfer transport costs are the responsibility of the patient.

Introduced on: June 25, 2019
Adopted on: June 25, 2019
Official Resolution #: R20190544
DATE: May 28, 2019

TYPE: Policy Memorandum

SUBJECT: MID-YEAR ALLOCATION OF AREA PLAN CONTRACT FUNDS FOR 2019

EFFECTIVE DATE: Immediately

APPLICABILITY: Executive Directors, Area Agencies on Aging

POLICY: Enclosed please find the Midyear Amendments for Area Plan Contract (APC) year 2019. The midyear allocation is detailed on Attachment A.

Attachment A (Pages 1-3)
Attachment A1 – A5 provides the Area Agencies on Aging (AAAs) allocation for APC 2019. These are the amounts each AAA has been allocated based upon the funds currently awarded for APC 2019 through Federal and State appropriations. Carry-over identified on attachment A can be used in APC 2019. The Midyear Amendment Spreadsheet (Attachment A) includes the following:

Title III and Related State Matching Funds

- 100% Allocation of Title III Older Americans Act dollars and related State Matching funds
- Allowed carry-over
- Redistribution of funds from APC year 2018
- Total Authorized Funds - This figure indicates the total amount available for area plan administration and services prior to transfers (AAAs will be notified under a separate PM allowing transfer of funds between B, C1 and CII)
- Excess Funds – This figure indicates the amount that a county was above the allowable 8% limit for carry-over of Title III B, C1, C2, D, E and related State Matching funds.
- Approved Title III Funds – This figure represents total authorized funds less excess funds.
SAGE

In order to incorporate the additional funds into the 2019 APC, a budget revision/amendment request must be initiated in SAGE. The AAA must open up the 2019 APC and change the status to “Grant Amendment/Budget Revision Request Initiated.” To initiate the amendment, fill out the “Grant Amendment/Budget Revision Request” form in the forms section of the grant. This is the red link. If adding or deleting a program in the amendment, be sure to also complete the amendment request for the addition or deletion of a service or service provider if applicable. When completing the grant amendment/budget revision request form, start the title with the date of the request. This will enable DoAS to differentiate between the different amendment requests. The title of the request can be “Current Date - Mid-Year Amendment.” Since this amendment is adding additional funds to the grant, check off the button for “grant amendment.” In the justification, indicate that this amendment is being requested in order to incorporate the balance of federal and state funds for 2019 as well as adding the allowable carry-over from 2018. If completing any additional modifications to the IPS documents, please include a detailed justification of what is being amended. Once the justification is completed, submit it to DoAS by changing the status of the grant to “Grant Amendment/Budget Revision Request Submitted.” The amendment request is due to DoAS by June 7, 2019. If the request is approved, DoAS grants management staff will open up the IPS documents and any additional requested pages to enable the AAA to officially change the grant documents. Please complete all revisions and submit back to DoAS no later than June 28, 2019. Be reminded that no changes can be made to an IPS, or any document in the application, until approved and opened up by DoAS, AAA Administration fiscal and program staff.

Non-Title III

This includes 100% of the following funding sources: State Weekend Home Delivered Meals (SWHDM), Safe Housing and Transportation (SHTP), Adult Protective Services (APS), Social Services Block Grant (SSBG), Supplemental Home Delivered Meals (SHDM), Care Management Quality Assurance (CMQA), Community Based Senior Program (CBSF), Medicaid Match and what is now known as Supportive Funds, formerly referred to as the State Cost of Living Adjustment (COLA).

- The second installment of each AAA’s 2019 Nutrition Service Incentive Program (NSIP) allocation, currently 100% of funds received from ACL, is included in this midyear amendment. Midyear allocations are based upon the FFY18 NAPIS meal counts submitted to AoA in February 2019. Any balance of NSIP funds will be included in the final amendment.

- Allowable carry-over balances from the 2018 Area Plan Contract for NSIP and Medicaid Match are included in this mid-year amendment. FY18
Medicaid Match carry-over must be spent by June 30, 2019. NSIP funds follow the same expenditure guidelines as Title III funding (one year to obligate and an additional two years to spend).

- FFP funds received through the quarter ending 9/30/18 are included in this amendment. The next allocation of FFP funds will be in the initial allocation for 2020.

**Reconciliation of Final Expenditure Reports for Contract Year 2018**

Final expenditure data for contract year 2018 was received and reviewed by DoAS and allowed carry-over is included in this midyear amendment. Each AAA has received a 2018 closeout letter detailing the final expenditure and fund balance information. These 2018 closeout letters have been certified by the AAA Executive Directors, therefore no further adjustments will be considered.

Finally, the Division of Local Government Services is aware of these authorizations and will approve corresponding county budget appropriations for those counties receiving funds under this PM.

Questions regarding this Policy Memorandum may be directed to Bruce Sutton at (609) 438-4738.

RE: Notice of Award – State Fiscal Year 2018 – WorkFirst New Jersey Rescission

Dear Mr. Best:

The enclosed Notice of Award (NOA) is to revise your Workforce Development Area funding authority for WorkFirst New Jersey for State Fiscal Year (SFY) 2018 (July 1, 2017 through June 30, 2018). As stated in your previously provided NOAs, all funds allocated were required to be fully obligated by June 30, 2018 and liquidated by December 31, 2018. Upon review of the financial records, your Workforce Development Area has an unexpended balance of $583,557 for SFY 2018. Therefore, these funds are being rescinded. Please incorporate this rescission into the next modification to your Program Year 2018 Workforce Development Area Contract.

If you have any questions regarding the issuance of this NOA, please contact Hugh Bailey,
Assistant Commissioner, Workforce Development, at 609-984-9414.

Sincerely,

Dear Ms. Browne:

Please accept this letter as confirmation that the Substance Use Navigator contract 19AERR is being extended for an additional six-month period ending December 31, 2019. Once the extension period has concluded in December, this contract will not be renewed.

As discussed on the phone call on April 29, 2019 with Assistant Commissioner Mollie Greene, it is DCF's expectation that a Needs Assessment Summary Report for each of the vicinages you cover will be submitted in November 2019. The Needs Assessment Summary will identify observations that have been made regarding SU services in the vicinage during the tenure of the program as well as trends and needs going forward. A template and further direction will be distributed to you by May 31, 2019.

Please find enclosed contract modification documents that will need to be completed to continue funding through the end of CY 2019. When completed, please scan and email these to me directly.

RE: Price Quote of Environmental Services for Continuum of Care Projects

Dear Mr. Featherson:

As a follow-up to your recent conversations with Deb Hoffman from the County Division of Economic Development and Karen Parish from our firm, the purpose of this letter is to provide a proposal to prepare environmental review record (ERR) pursuant to the HUD CoC requirements and the 24 CFR Part 58.5 and 58.35(a)(5) for leasing and rental assistance projects. We will provide HUD ERR clearance for the projects that you have provided to us which is also included to this letter as Attachment 1.

Specifically, M&L will prepare the ERR by performing the following tasks:

1. Prepare, submit, and respond to any required environmental agency consultation correspondence and forms as necessary.
2. Prepare HUD-required forms for all Tenant-Based Leasing projects that are Exempt or Categorically Excluded Not Subject to Section 58.5 pursuant to 24 CFR Part 58.34(a) and 58.35(b)
3. Prepare HUD-required Limited Scope CEST documents for all project-based housing programs and include all forms and documentation, including notices and forms required to secure a release of funds (if necessary).
4. In Year 2, prepare the 58.47 or supplemental resources documentation for continued compliance with ERR requirements for these same projects.

Please note that our proposal does not include the publication costs of any required notices. It also does not include any recordation of historic resources that the State Historic Preservation Office (SHPO) may require. If SHPO requires such recordation, M&L will provide a proposal for performing the required work.

M&L's fee for preparing the above ERR will be a lump sum not to exceed fee of $7,500. We will begin the ERR work once we are in receipt of this fully executed agreement. The ERR documents will be completed within 120 days from the date this letter agreement is fully executed.
If you agree with these terms, please execute an original and return it to my attention in our Pittsburgh office via email. Thank you in advance for your continued support. If you have any questions, please call me at 412-323-1950 or Karen Parish at 610-781-9706.

Sincerely,

William P. Wasielewski, AICP

AWARD OF ASBESTOS MONITORING SERVICES

Dear Members of the Board:

The County of Passaic requested a proposal for Asbestos Management Services for the demolition phase of the New Department of Public Works Facility project in the Township of Wayne. The scope of services is for asbestos management services in connection with the asbestos abatement required for the demolition of the existing buildings located on the subject property, as required by Code.

One proposal was requested and received from T & M Associates, of West Long Branch, New Jersey in the amount of $10,750.00.

This matter was discussed by the Public Works Committee on June 12, 2019 and an award of contract to T & M Associates is recommended to the full Board.

Re: Proposal for Professional Services
Asbestos Management Services Related to Demolition
Nike Base Property – 8 Building Structures
1310 Route 23 North
Wayne, Passaic County, New Jersey
T&M Project No. PASCOH-16002

Dear Mr. Pera:

T&M Associates (T&M) is pleased to submit the following proposal. This proposal encompasses the asbestos management services requested for the above referenced project by the County of Passaic (the “County”) as detailed with discussions with Lehrer Cuming.

INTRODUCTION
We understand that significant redevelopment activities are planned for the subject site, which will include the demolition of the subject eight (8) building structures located on the Nike Base Property located at 1310 Route 23 North in Wayne, New Jersey. Accordingly, the County needs to plan for the handling of certain types of materials that may be present, inclusive of asbestos-containing material (ACM’s), lead-based paint (LBP) and certain refrigerants, and materials currently treated under the USEPA’s “Universal Waste” program (PCB-bearing fluids, mercury fluid and mercury-treated lamps) that will be impacted by the overall project.

We understand that Langan previously completed a Hazardous Materials Survey Report for the subject building structures in the report dated September 27, 2016. We also understand that this report identified asbestos-containing materials to be associated with six (6) building structures. These include:

- Barracks Office/Weight & Measures Building
- Paratransit Office/Garage Building
- Mosquito Control Garage
- Pesticide Storage
- Trailer 1 (Meals on Wheels)
- Trailer 2 (By Abandoned Car Lot)
Please note that the report indicated that there was no asbestos-containing materials identified at the Trailer 3 or Shed near Golf Club.

Please also note that it is our understanding that design documents for the planned overall demolition, including asbestos abatement, have been completed by others and that these will be utilized for the asbestos project monitoring effort being requested herein.

Because the subject building structures may be owned by a New Jersey County government, asbestos abatement activities at the site would also usually be regulated by the New Jersey Asbestos Hazard Abatement Subcode of the New Jersey Uniform Construction Code (NJUCC) otherwise referred to as “Subchapter 8” or the “Subcode” (N.J.A.C. 5:23-8). By virtue of New Jersey Department of Community Affairs Interpretation of NJUCC requirements, the NJUCC (revisions effective June 3, 1993) exempts asbestos abatement activities conducted in unoccupied buildings to be demolished as long as the subject buildings will not be occupied between the completion of the asbestos abatement activities and the subsequent demolition, and the subject buildings are not connected to occupied building space. It is our understanding that the asbestos abatement would be undertaken under these conditions.

Therefore, we understand that a qualified asbestos management consultant is now being solicited to provide part-time project monitoring and the required final clearance air sampling (for interior work areas only) during the overall demolition project.

Please note the final clearance air sampling for exterior abatement (i.e., roofing, caulking, etc.) is not required by applicable Codes.

PROPOSED SCOPE OF SERVICES
In order to assist you in meeting the asbestos management goals for this project, we propose to provide the following specific scope of services:

Item 1: Part-Time Project Monitoring/Final Clearance Air Sampling Only:
T&M will perform the following tasks for asbestos abatement project monitoring:
   A. Interface with all applicable regulatory agencies and review of any Contractor documentation necessary to obtain any applicable permits for the work.

   B. Provide a New Jersey Certified Asbestos Safety Technician to conduct part-time project monitoring/final clearance air sampling upon completion of each phase of the abatement activities. We understand that the work may be completed utilizing up to eight (8) separate work areas and we anticipate up to six (6) separate sampling events during the course of the project.

   C. Conduct air sample analysis by Phase Contrast Microscopy (PCM) and Transmission Electron Microscopy (TEM) as necessary.

   PCM analysis will be conducted in accordance with the National Institute for Occupational Safety and Health (NIOSH) Method 7400 in our laboratory, or at the project site as necessary. Our laboratory has been a proficient participant in the NIOSH Proficiency in Analytical Testing Program since our inception.

Introduced on:   June 25, 2019
Adopted on:      June 25, 2019
Official Resolution#: R20190556
TEM analysis will be conducted by a qualified independent laboratory acting as a sub consultant to T&M. This laboratory will be accredited for air sample analysis by Transmission Electron Microscopy by the National Institute of Standards and Technology, National Voluntary Laboratory Accreditation Program.

D. Provide management and support throughout the execution of our services both on and off site. Prepare a Final Letter Report of Asbestos Abatement Project Monitoring Services in order to document project completion and regulatory compliance. This report will include all TEM air testing results.

Please refer to the Limitations section following below for limitations regarding the Proposed Part-Time Project Monitoring Fee/Final Clearance Air Sampling fee.

COMPENSATION
We will provide the scope of services described above at a fixed fee of $10,750.00 for Item 1 as detailed in the table below in accordance with the attached T&M Standard Terms and Conditions.

Provided below is a summary of the scope of services to be provided by T&M Associates (T&M) and the respective professional fees:

The Client acknowledges that neither T&M nor the Client has control over the cost of labor, materials or methods by which contractors determine prices for construction, competitive bidding, markets, or negotiation conditions.

7. **Responsibility During Construction.**

T&M's Services during the construction phase are intended to provide the Client a greater degree of confidence that the completed work of contractor(s) will conform in general to the approved plans and related documents. T&M will endeavor to observe the progress and quality of the executed work of contractor(s) and determine in general if such work is proceeding in accordance with the requirements of the Project. The Parties agree that interpretations of subsurface conditions by T&M and / or its subcontractors may be based on limited field observations including, without limitation, from widely spaced sampling locations at the site of the Project. The Client acknowledges that site exploration by T&M and / or its subcontractors will only identify subsurface conditions at those points where subsurface tests are conducted or samples are taken. The Parties agree that T&M and / or its subcontractors may review field and laboratory data and then apply professional judgment to render an opinion about subsurface conditions at the site of the Project and that the actual subsurface conditions may differ, sometimes significantly, from those indicated by T&M and / or its subcontractors. The Client agrees that any report, conclusions or interpretations will not be construed as a warranty of the subsurface conditions by T&M and / or its subcontractors. The Parties further agree that no warranty or representation, express or implied, is included or intended in any reports, conclusions, or Interpretations prepared by or on behalf of T&M pertaining to the site conditions.

9. UNANTICIPATED CONDITIONS.

If during the performance of T&M’s services, any unanticipated conditions are observed, which in T&M’s judgment may affect the Proposal / Scope of Services, T&M will notify the Client. The Client agrees that the discovery of such unanticipated conditions constitutes a significant change in the Proposal / Scope of Services. Based on T&M’s evaluation of unanticipated conditions, T&M is authorized to take any of the following actions: (a) Complete the original Scope of Services in accordance with the procedures originally intended in the Proposal; or (b) Stop Work pending written agreement with the Client to modify the Scope of Services and Fees as required by the previously unanticipated conditions; or (c) Terminate the Services effective on the date specified by T&M in writing. The Client shall waive any claim against T&M and agrees to indemnify, defend and hold T&M harmless from any claim of liability for injury or loss arising from the encountering of unanticipated conditions.

10. HAZARDOUS CONDITIONS.

It is acknowledged by both parties that T&M’s Scope of Services does not include any services related to asbestos or hazardous or toxic materials. T&M shall have no responsibility for the discovery, presence, handling, removal or disposal of, or exposure of persons to hazardous materials or toxic substances in any form at the Project site. In the event T&M or any other party encounters asbestos or hazardous or toxic materials at the site of the Project, or should it become known in any way that such materials may be present at the site of the Project or any adjacent areas that may affect the performance of T&M Services, T&M may, at its sole option and without liability for consequential or any other damages, suspend performance of Services on the project until the Client takes steps to identify, abate and/or remove the asbestos or hazardous or toxic materials, and to warrant that the site of the Project is in full compliance with applicable laws. If, in T&M’s sole opinion, site conditions represent a threat to the public health or an environmental hazard, T&M will so advise the Client, so the Client may notify appropriate authorities. If the Client fails to act in a responsible manner, T&M may notify the appropriate authorities. The Client waives any claim against T&M and agrees to defend, indemnify and save T&M harmless from any claim or liability arising from the conditions or notifications of conditions at the site.

11. FORCE MAJEURE.

T&M is not responsible for delays caused by factors beyond T&M’s reasonable control, including, but not limited to,
delays due to strikes, lockouts, work slowdowns or stoppages, accidents, acts of God, failure of any governmental or other regulatory authority to act in a timely manner, failure of the Client or owner of the Project to furnish timely Information or to provide review comments promptly; or delays caused by faulty performance by the Client, consultants or contractors at any level.

12. CONSEQUENTIAL DAMAGES.
In no event shall T&M be liable in contract, tort, strict liability or otherwise for any incidental, special, indirect, consequential, punitive or exemplary damages, including but not limited to loss caused by delay, commercial loss, or lost profits or revenues or opportunities resulting from any service furnished by T&M under this Agreement.

13. INSURANCE.

a. LIMITS. T&M shall maintain for the term of this project the following types of insurance and minimum limits: (i) Worker’s Compensation and Employer’s Liability Insurance, per statutory limits; (ii) Comprehensive General Liability Insurance, a total of $1,000,000 each occurrence and $2,000,000 in aggregate; (iii) Comprehensive Automobile Liability Insurance, a total of $1,000,000 each occurrence and $2,000,000 in aggregate; and (iv) Professional Errors and Omissions insurance with a per claim limit of not less than $3,000,000. Certificates for policies of Insurance will be provided to the PROJECT OWNER upon request.

b. WAIVER OF SUBROGATION. Both Parties waive all rights against each other and their respective subconsultants, subcontractors, employees, and agents for any and all damages caused by fire or other causes of loss to the extent covered by insurance set forth herein, except such rights as they may to the proceeds of insurance. The waiver shall be effective as to a person or entity (a) even though that person or entity otherwise have a duty of indemnification, contractual or other, (b) even though that person or entity did not pay the insurance premium directly or indirectly, or (c) whether or not the person or entity had an insurable interest in the damaged property.

14. INDEMNIFICATION.
T&M agrees, subject to the provisions contained herein, to indemnify the Client, and the Client’s officers, directors and employees, from and against any losses, damages and judgments arising from claims by third parties but only to the extent they are found to be caused solely by T&M’s negligent acts, errors or omissions in the performance of professional services under this Agreement. T&M’s obligation to indemnify and hold harmless the Client and its officers, directors, and employees does not include a duty to defend. This indemnification provision is subject to and limited by the provisions agreed to by the Client and T&M in the “Limitations of Liability” section of these Standard Terms and Conditions.

The Client agrees, subject to the provisions contained herein, to indemnify T&M, and T&M’s officers, directors and employees, from and against any losses, damages and judgments caused by the Client’s acts, errors or omissions and by any of Client’s contractors, subcontractors or consultants or anyone for whom the Client is legally liable.

15. LIMITATION OF LIABILITY.
The Client and T&M agree that T&M’s total liability for any and all losses, judgments, injuries, claims, expenses and damages arising out of, resulting from or in any way relating to this Agreement or T&M’s Services, shall be limited to the total sum of $50,000.00 or T&M’s total fee for Services rendered on this Project, whichever is less. The Client hereby releases T&M from any liability above such amount. The Client waives such claims and causes including, but not limited to, negligence, professional errors or omissions, direct or indirect damages, delays, consequential damages, lost profits, strict liability, and breach of contract or breach of warranty.

16. GOVERNING LAW.
The laws of the State within which the Project is located will govern the validity of this Agreement, its interpretation and performance.

17. INDEPENDENT CONTRACTOR.
Unless otherwise provided in our proposal, T&M is and shall be an independent contractor in the performance of services under the Agreement, maintaining complete control of its employees and operations and neither T&M nor anyone employed by T&M shall be the agent, representative, employee or servant of the Client in the performance of services under this Agreement.

AWARD OF ASBESTOS MONITORING SERVICES

Dear Members of the Board:

The County of Passaic requested a proposal for Asbestos Management Services for the demolition phase of the New Department of Public Works Facility project in the Township of Wayne. PROJECT APPROACH

GENERAL:

The goal of this project is to provide new recreational amenities and improvements to the Auto Overlook project area that are sensitively incorporated into the original Olmsted design for the park. The improvements are intended to take advantage of the spectacular view and dramatic topography to develop a unique and beautiful public open space for the County of Passaic.

Our design for the Auto Overlook project area will include the elements described in the RFP including:

A. Improved access and circulation that successfully integrates vehicular and pedestrian connections between new and improved park features within the project area, and including Benson Drive and nearby trail connections
   * New paths with a range of challenge levels between the parking area and the higher open space area to the south, including ADA access
   * Resurfacing and resetting of existing paths and curbing within the project area
   * Rehabilitation of existing parking lot and drives
B. Improvements and/or new features that enhance the scenic overlook
   * A stone amphitheater set into the slope near the parking area
   * Repair of eroded slopes between the yellow trail trailhead and the winding stone wall
C. Restoration of existing park features, subject to structural analysis but not limited to:
   * Graffiti removal, resetting, and repointing of winding stone wall;
   * Resetting large boulders
   * Cleaning of Benson Monument
D. A new fitness area
   * Equipment to challenge a range of abilities
   * Circuit training, distance markers along paths
   * Open space for outdoor classes
E. A new shelter for warming and concessions
   [Possible future project]
F. A new playground
   * Exciting opportunity to integrate topography into a multi-level play equipment
   * Slides built into steep slopes
   * Assess opportunities for limited zip lines
G. Landscape and Tree Planting
   * Utilize native plants to restore and expand bird habitats
H. Rain Gardens and Green infrastructure elements
   * Contingent on soil conditions; exposed bedrock and thin soils may limit the site’s ability to support green infrastructure
I. Sun shelters
   * Will utilize County standard structure and focus on strategically locating them within the project area to take advantage of views and/or proximity to recreational amenities
J. Bird-watching amenities in support of the Reservation's status as an Audubon Important Bird Area
   * This might include bird-blinds, viewing platforms, interpretive signage of local and
     migrating birds; also, native plantings mentioned above to provide habitat
K. ADA improvements for increased accessibility
   * ADA requirements are the baseline for providing access to park amenities; will also review
     universal design standards for enhanced accessibility
L. Monuments and other historic elements to highlight the history of Passaic County and Garret
   Mountain Reservation
   * Site Markers, commemorative art and/or interpretive signage
M. Other Features
   * Improvements to existing water supply service to two comfort stations that are currently
     fed by Passaic Valley Water Connection (PVWC)
   * Corrections to water pressure or volume to make toilet facilities fully functional at the two
     comfort stations
   * Increased water supply capacity to meet future demand

Public outreach and involvement of community stakeholders is a critical component of the Auto Overlook
design process. We will work with the County of Passaic to schedule a series of public meetings/
presentations. We will use these opportunities to familiarize ourselves with the community’s needs and
desires, and then to fully illustrate and present how we translate those needs and desires into a final design.
We are skilled at guiding major projects through a public participatory review process, where helping
community residents visualize the positive potential represented by the proposed design. From the smallest
to the largest projects, we respect the community as an important participant.

We will prepare a regular schedule of meetings with a core group of stakeholders designated by the County
that outline the timeline for the design process and include a timetable for review by the various
governmental agencies that provide oversight. The combination of core client group and dedicated design
team management will ensure adherence to schedule and budget.

DETAILED SCOPE OF CONSULTANT SERVICES

Task 1 Site Inspection:
The design team will review and become thoroughly familiar with all existing data concerning the
project, including all record drawings, building plans, surveys, previous contract documents, utility
plans, studies, and program documents previously prepared.

Analysis of Existing Water Supply: The design team will investigate the existing water supply service
from the connection to the PVWC main on Mountain Avenue to the two existing comfort stations
within the reservation that are currently fed by PVWC. The goal is to determine:

1. Whether all or part of the piping needs to be replaced,
2. To provide a solution that enables all the toilets in the two comfort stations to function under high
demand
3- To enable additional capacity for future winter park uses including an additional warming shelter/rest rooms.

Structural Analysis of the existing stone wall: The design team will inspect the existing stone wall at the Auto Outlook and provide a letter of report with photographs and recommendations for structural repairs if deemed necessary.

Task 2 Field Survey:
To ensure an accurate record of existing conditions, and to provide a new base for all contract documents, the design team will prepare a new topographic and utility survey for the project. Engineers will develop Topographic and Utility mapping of the complete project area. All above-ground and visible physical features will be located along with sufficient elevations to develop one-foot contours of the site. Trees over 6” in diameter within the project area will be located. Inverts of storm and sanitary manholes will be gotten where possible. Elevations will be taken along the top of the concrete bulkhead. Existing City maps, County maps, and Corps of Engineers maps will be reviewed for the park area.

In addition to the existing data research and new survey, a careful and sensitive review of site conditions will be performed. Among the factors to be reviewed will be vegetation, topography, hydrology, soils, erosion, existing structures and their conditions, bulkheads, vehicular and pedestrian circulation, parking, views, special characteristics, surrounding land uses, wind and sun exposures, microclimatic situations, etc. Storm drainage patterns and systems will be reviewed as well.

Task 3 Permits:
Permits that are required to complete the project shall be identified as part of the initial site investigation. It is anticipated that a Soil Erosion Control permit will be necessary, and possibly tree removal permits. It is not anticipated at this time that environmental permitting or mitigation will be required within the project area.

Task 4 Cost Estimate:
Current working estimates/cost analyses will be prepared at the conclusion of each phase of the project including Conceptual, Schematic and during the Contract Documents stages of the process. Particular concern is given to the budget in the development of the Design concept, and a final Engineer’s Estimate will be provided at the conclusion of Contract Documents. This process will ensure that the proposed design is within the budget constraints identified by the County.

Task 4 Concept and Schematic Design:
Conceptual Design will be based on the review of existing data and record drawings, site investigation and analysis, and the development of a well detailed program. Programming is the process by which criteria are developed for the design of the site, environment and buildings. A strong designer-client relationship is invaluable in the development of a good program and the ultimate facility. Conceptual designs will be developed to test program assumptions and further refine the county’s goals, needs, desires and aspirations. A final Design Concept will be selected for further development in the Schematic Design phase.
The design team will then develop a comprehensive schematic design for the Auto Overlook Project Area. Design options for the park will be developed at a suitable scale that will illustrate the following elements:

- Overall park layout
- Vehicular and pedestrian circulation and parking
- Viewing Area / Amphitheater layout and configuration
- Site elements and structures to be preserved and restored
- Park paths and walkways
- Recreational amenities – play equipment, fitness area, sun shelters, warming shelter
- Park lighting
- Site elements -- pavements, curbs, walls, benches, railings, fencing, etc.
- Landscape treatments

While discussions and review of concepts will take place throughout the process, a formal presentation to the County will occur at this point. Oral and graphic presentations will be prepared to fully illustrate and explain the Schematic Designs, and to allow for an in-depth response and comment period. Following the project review, all comments and responses will be incorporated, and the schematic design will be refined and finalized. The final design shall be illustrated by the use of the following:

- Overall plans of the park
- Enlargement of key areas
- Site cross sections
- 3-D renderings
- Site vocabulary details -- illustrating materials, pavements, furnishings, railings, light poles and fixtures, benches, bollards, drinking fountains, trash receptacles, etc.
- Schematic cost estimates

Through a series of meetings with the County, we will refine our designs for presentation to the local community, public agencies and other groups as directed. Presentation drawings for the design will include design vocabulary, sections, renderings, elevations, illustrative plans, and other graphic representations necessary to illustrate the design intent.

Task 5 Construction Contract Documents:
Utilizing the approved Schematic Design described in Project Task 1, we will refine and further develop the design for the Auto Overlook Project Area. The design concept shall be enlarged, dimensional information tested and applied, preliminary grading indicated and material selections begun.

The Topographical Survey shall form the basis of the Contract Drawings, which shall include engineering drawings as required to document the engineering scope, as well as Demolition and Removals Plans, Layout and Materials Plans, Grading and Drainage Plans, Landscape and Planting Plans, Site Utilities Plans (water supply, irrigation, and electrical service), Site Details, etc.

In addition, Outline Specifications and Preliminary Cost Estimates shall be prepared by the project team.

Township of Wayne, Passaic County
AWARD OF FUEL TANK CLEAN OUT SERVICES

Dear Members of the Board:

The County of Passaic requested a proposal for cleaning out the existing fuel tanks in connection with the New Department of Public Works Facility project in the Township of Wayne. The scope of services is for full cleanout and removal of remnant fuel from the existing fuel tanks and all components within the subject property, after the tanks are taken out of service for the construction project.

One proposal was requested and received from T. Slack Environmental Services, of Kenilworth, New Jersey, in the amount of $7,297.00. (NJ State Contract #A42266).

This matter was discussed by the Public Works Committee on June 12, 2019 and an award of contract to T. Slack Environmental Services is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution awarding a contract to T. Slack Environmental Services, in the amount of $7,297.00 for cleaning out the existing fuel tanks in connection with the New Department of Public Works Facility project in the Township of Wayne, subject to the availability of funds.

Memorandum

TO: Sherry Arvanitakis, Acting Purchasing Director
FROM: Anthony J. DeNova County Administrator
RE: Authorization to Award of Contract to OnLine Contracting for Emergency Storm Sewer Repair at the Intersection of W. Broadway and Doremus Street, Paterson, NJ

DATE: June 13, 2019

This is to advise that in my capacity as County Administrator of the County of Passaic, I authorized the immediate award of a contract to OnLine Contracting Inc. for emergency repairs due to the storm drain breakage, resulting in sewage back up and flooding at the intersection of W. Broadway and Doremus Street, Paterson, New Jersey. The drain breakage in this intersection, in my opinion, was certainly a situation that would affect the health, safety, and welfare of the motoring public.

On Friday, May 17, 2019 OnLine Contracting responded to the site and determined, in addition to the storm sewer break, there was a sanitary sewer break at the same location. This matter was discussed on June 12, 2019 with the Public Works and Building & Grounds Committee. The County Engineer verified that following services were provided by On-Line Contracting, Inc. for the emergency contract:

a. Emergency mobilization
b. Remove existing catch basin grate
c. Pump water from basin
d. Saw cut and remove existing asphalt
e. Saw cut and jack hammer concrete road base remove and dispose
f. Excavate down to pipe
g. Remove and replace pipe or repair existing pipe
h. Encase repair in concrete
i. Reconstruct inlet
j. Back fill and compact
k. Install concrete road base
l. Provide road plates

WHEREAS this proposed Change Order No. 23 will result in the net sum of change orders for this project to be in excess of the 20% limit for change orders which is allowed under the Local Public Contracts Law N.J.S.A. 40A:11-1; and

WHEREAS the regulations (N.J.A.C. 5:30-11.9) of the State of New Jersey Department of Community Affairs permits change orders in excess of 20% as long as the following is present:

iv) if the nature of the change order is technical, the certification shall include a certified statement from contractor's appropriate expert, explaining in detail the factual circumstances which necessitate the issuance of the change order;

2) a request from the chief executive officer, in this case the County Administrator, or his designee, to the governing body requesting the change order and explaining why this change order may be allowed pursuant to this provision; and

WHEREAS the County of Passaic is in receipt of a certification from the County Engineer dated June 17, 2019, see copy attached hereto; and

WHEREAS the Passaic County Administrator has filed a

with the Board of Chosen Freeholders dated June 18,

Re: Revised Proposal of Architectural Services for the  
Passaic County DPW, Consolidation and Relocation, and  
Addition / Alteration to the Passaic County Police Academy  
Wayne, New Jersey  

Dear Mr. DeNova  

Subsequent to our recent initial meeting in your office, during which a general scope and  
breadth of the above captioned project was discussed, we visited each of the existing County  
owned and occupied sites, as discussed. With assistance from, Mr. Jack Nigro, we were also  
able to obtain some inventories of vehicles and personnel, from the facilities located at  
Pennsylvania Avenue, and Columbia Avenue, Paterson, as well as the DPW in Pompton Lakes.  

Field visits and observations of existing site and building conditions were made of the, PC  
Police Academy, Wayne, with assistance from Mr. Robert Lyons, Director. At that same  
meeting, programming of the needs for the addition to the Academy and the relocation of the  
PC Department of Weights and Measures / Consumer Protection, were discussed.  

PC DPW, Including, the Road Department, Buildings and Grounds, Garages and  
Mechanics Bays, along with Tool Rooms and parts storage, Sign Department, Health  
Department, Rutgers Cooperative Extension and the 4H Offices and Food Pantry, the  
Outdoor Equipment Yard and Salt Bin, which also includes the fueling station for the  
Road Department vehicles, all of which is located on the Pennsylvania Avenue and  
Columbia Avenue sites, in Paterson, was also visited and site inventoried.  

The site contemplated for the relocation of the above listed departments, and the re-design of  
the existing site, hence to be referred to as the, "NIKE Base" in Wayne, was also visited and  
inventoried, including the PC Para-Transit / Meals on Wheels, Mosquito Control, Rutgers  
Cooperative, Recycling, and the existing Weights and Measures / Consumer Protection.  
Finally, the PC Sheriff’s Department Motor Pool, Including the Bomb Squad garages and  
Motorcycle garage, located on Garrett Mountain, were also visited and inventoried in the same  
degree as the above listed departments.
We understand that the inventories of space and equipment are not 100% complete at this time, but the intention was to get a general scope and extent of the proposed relocation and consolidation as it would be accommodated on the, "NIKE" site in Wayne.

PC Engineering Department also supplied us with a recent survey and topographic map, which includes wetlands and flood plain delineations, to assist us with the initial preliminary studies, as outlined here-in.

Project Scope:

- Re-location and new facilities for the offices and garages to replace all County facilities located on, Pennsylvania Avenue, and Columbia Avenue, Paterson, to the, “NIKE” site in Wayne. It is presently anticipated that the salt dome and fueling station in Paterson, along with associated equipment will remain, and not be relocated to the Wayne site.
- Addition to the PC Police Academy
- Re-location and Addition to the PC Academy site in Wayne, of the PC Department of Weights and Measures / Consumer Protection.
- Re-location and new facilities for the PC DPW / Roads, in Pompton Lakes, to the, “NIKE” site in Wayne.
- Re-location and new facilities for the, PC Sheriffs Department, Motor Pool Garages and Repair Shop, currently located on the Garrett Mountain, Hobart Mansion property, to the, “NIKE” site in Wayne. At this time it is not determined whether the Bomb Squad, currently located at the Garrett Mountain site, will be re-located.
- Feasibility of providing parking and offices for the, Wayne Board of Education, bus and vehicle storage, if all other County facilities are accommodated on the, "NIKE" site.

The following is a proposal of design services recommended to accomplish the project scope as listed above:

Phase I Programming and Schematic Design COMPLETED

1. Programming, of all the Departments listed above will be completed in much greater detail. The inventory started during this proposal process will be used to develop a questionnaire and response document. Each Department Director will be given the questionnaire with the instruction to fill out all required information including but not limited to; number of personnel, number of personal vehicles, number of County Vehicles, office equipment, computer equipment, shop equipment and tools, storage requirements both for interior and exterior use, hours of operation and shift personnel, etc. Schematics will be based upon the existing facilities inventory, and a projection of needs for the next five years.

2. Preparation of the complete programming, showing Department description, personnel, area of each department in square foot areas, parking for equipment and automobiles, and any other space requirements specific to each department.

3. Schematic Design alternatives, minimum three, of the proposed new layout of the, “NIKE” site in Wayne, to determine the feasibility of combining the above listed departments on the site with all required equipment.
4. Schematic Design of the expansion of the PC Police Academy, including Weights and Measures / Consumer Protection.
5. Presentation of the Schematic Design, with a preliminary cost estimate to the Passaic County Administration and Freeholder Board.
6. Presentation will include, site plans, floor plans, building elevations, and required three dimensional renderings to fully explain the schematic designs.

Phase II Design Development

a. Preparation of larger scale drawings, including plans, sections and elevations, building sections, critical details, and schedule of finishes, proposed for the new addition, and the renovation areas.

b. Presentation of the proposed structural and HVAC systems for both the new offices areas and shop / vehicle storage buildings. Exploration as to the applicability and feasibility of pre-engineered structures to house equipment and vehicles. The Police Academy addition will be constructed with similar materials as used on the existing building, but the storage buildings can be considered using pre-engineered metal skin structures.

c. Presentation of the proposed site development at the, "NIKE" site, including the possible location of a link road to the Parkway existing to the south of the site.

d. Design Development budget analysis.

e. At this time, Environmental consulting will be required to identify exact locations of constraints to the site development, at the, "NIKE" site only. Areas that are assumed to be, wetland, flood plain, or flood way, and any other required buffer zones to environmentally sensitive land area will have to be delineated to determine the exact area of land that can be developed. Also, investigation into a sanitary sewer connection, possibly to State Highway 23, will be required.

f. Presentation of completed Design Development documents to the Passaic County Administration, and Freeholders, along with any budget change recommendations.

Phase III Contract Documents

b. All documents will be submitted to the Wayne Township Building Department, for building construction plan review and permitting. Permits required for all NJDEP applications will be made to the appropriate agencies by the Environmental engineers selected.

Phase IV Bidding and Negotiation

a. Preparation of all Bid documents, coordination with Passaic County Department of Engineering, and Passaic County Purchasing Department, for the advertisement for bid.

b. Receipt of questions, and issuance of addenda, if required during the bid period.

c. Attendance and assistance with pre-bid meeting and walk thru, and issuance of security procedures required of all contractors working at the site.

d. Preparation of Bid Analysis Sheet, attendance at the bid opening, recording of the bid proposals, and recommendation of bid to the County of Passaic.
Phase V  Construction Administration
  a. Preparation of pre-construction meeting agenda, safety procedures, required
     submissions, review of initial schedule of values, manning reports, compliance
     with minimum wage, and affirmative action.
  b. Weekly job meetings and minutes of all meetings
  c. Review of Contractor’s Monthly Requisition for Payment
  d. Coordination with Passaic County, for all progress meetings, and required sign
     offs.
  e. Punch list and project close out.
  f. Assistance to the General Contractor for issuance of the Certificate of
     Occupancy.

Compensation

Compensation for Phase I, Programming and Schematic Design is proposed as a stipulated
sum of, $72,000.

Compensation for the remainder of this proposal is proposed as a percentage of the total cost of
construction of 6%.

The current projected cost of construction is as follows:

   DPW Wayne $15,000,000.00
   Police Academy Addition $3,000,000.00
   Total projected project cost $18,000,000.00

Our traditional fee percentage is as follows:

   Schematic Design 15%
   Design Development 20%
   Contract Documents 40%
   Bidding and Negotiation 5%
   Construction Admin 20%

This project required a different fee proposal, as the original Phase I fee was a stipulated sum,
and is pro-rata, credited back to the two projects proportionally.

For the DPW, $52,560, is credited to the overall fee, and for the Police Academy, $19,440, is
credited back to the overall fee. Total, $72,000.

As such we submit the revised fee / phase schedule:
(note: The above stated fee percentages were altered to provide for the bulk of the fee to be
credited toward the, Contract Document Phase, where the majority of the fee is expended, and
includes consultants.)

At this time, Phase III (Contract Documents) and IV (Bidding & Negotiation) for the DPW
Building is complete. The project is entering the Construction Phase as stated in our March 30,
2016 revised proposal. Upon receipt of bids, and acceptance of the project to move into contract
and construction, the Construction Administration will be awarded.

proposal dated June 6, 2019 from Deegan Roofing to re-
shingle the roof using GAF timberline high definition shingles
after ripping the existing roof layers down to the wood surface,

of $45,000; and

Re: Resolution Request- DEEGAN ROOFING
61 TERRILL ROAD
PLAINFIELD, NJ 07082

Dear Mr. DeNova,

The extreme rain over the past week has caused a leak off the roof at the Dining Hall at Camp Hope. The sheathing is soft and starting to disintegrate from its original place. I have witnessed mold on the sheetrock ceiling inside the Dining Hall. Once the roof is opened from the outside, Deegan Roof will assess the extent of the mold and will treat the area. The mold treatment is not expected to be more than a thousand dollars in addition to the original quote which totals forty five thousand dollars ($45,000.00). All repairs must be finalized within two weeks as Camp Hope is expected to open. I went to the location and after reviewing the situation, the job was too big for our in-house staff. I recommend this to be declared as an emergency and allow Deegan Roofing move forward making all necessary repairs towards the roof at the Dining Hall located at Camp Hope.

If you should have any questions or I can be of additional assistance, please feel free to contact me. Thank you for your attention with this matter.

Memorandum

TO: Sherry Arvanitakis, Acting Purchasing Director
FROM: Anthony J. DeNova County Administrator
RE: Authorization to Award of Contract to Deegan Roofing for Repair at Passaic County Camp Hope, Union Valley Road, West Milford, NJ

DATE: June 19, 2019

This is to advise that in my capacity as County Administrator of the County of Passaic, I authorized the immediate award of a contract to Deegan Roofing for emergency roof repairs due to the lifespan, water dripping inside the dining room and the presence of mold at Camp Hope. The water damage and mold, in my opinion, is certainly a situation that would affect the health, safety, and welfare of the public.

This matter was discussed on June 12, 2019 with the Public Works and Building & Grounds Committee. The Superintendent of Buildings & Grounds presented a resolution request to award a contract to Deegan Roofing for the emergency repair:

a. Rip existing roof layers down to wood surface
b. Prep existing decking
c. Install Ice Shield (per building code)
d. Paper using synthetic underlayment (per building code)
e. Replace existing Vent Collars
f. Replace existing Flashing (per building code)
g. Clean and remove all debris

The Public Works Committee authorized a resolution authorizing an emergency award. In light of the above and given the urgent need for these services, I authorized an immediate award of contract to Deegan Roofing in the amount of $45,000.00 for the emergency roof repair located at Camp Hope, 1792 Union Valley Road, West Milford, New Jersey.

Thank you for your kind and immediate attention to this matter.

Re: Replacement of Dining Hall Roof at Camp Hope in West Milford

Scope of Work

1. Remove existing shingles (2 layers) down to deck. Dispose of in a proper manner.

2. Replaced damaged decking at open overhang roof area. Replace with similar decking, which is a T-111 plywood. Prime exposed side that faces ground with a coat of exterior primer. (Note – when we looked at this area, there were no exposed fasteners in the exposed deck from shingles. This is a sign of a double layer of decking possibly and will be covered in this cost.)

3. Once replaced, install ice and water underlayment at all eaves. All eaves will require two rows of ice and water underlayment due to local building codes. All valleys, around fan units, chimneys and skylights will receive a minimum of 18" stripping around.

4. Follow covering all decking with 15 lb. felt.

5. Install new aluminum edging to all perimeter edge.

6. Once covered, install a GAF Timberline shingles to entire area.

7. Install new step flashings at all unit and chimney penetrations. (Note – all unit/skylight penetrations have no metal counter flashings to them. Previous roofing installs just roof cemented shingles into place. Roof cement will crack and fall, and it is the cause of several leaks occurring now. We will fabricate and install new counter flashings at all units of .032 aluminum where it is missing.)

8. All pipe penetrations to receive new pipe flanges.

9. Once roof is complete, install new Cobra ridge vent at both ridges.

10. Finish by capping off vent with new Timbertex hlp and ridge shingles.

11. Remove all debris once complete.

Note: Decking to main roof is hard to determine what the product is due to two layers of shingle on top and possibly a false type of ceiling inside. Once roof is tipped off, if deck deterioration is determined, then we will discuss with owner prior to replacement and come up with a fair cost to replace.

Total Cost: $55,400.00

Re: Resolution Request- DEEGAN ROOFING
61 TERRILL ROAD
PLAINFIELD, NJ 07062

Dear Mr. DeNova,

The extreme rain over the past week has caused a leak off the roof at the Dining Hall at Camp Hope. The sheathing is soft and starting to disintegrate from its original place. I have witnessed mold on the sheetrock ceiling inside the Dining Hall. Once the roof is opened from the outside, Deegan Roof will assess the extent of the mold and will treat the area. The mold treatment is not expected to be more than a thousand dollars in addition to the original quote which totals forty five thousand dollars ($45,000.00). All repairs must be finalized within two weeks as Camp Hope is expected to open. I went to the location and after reviewing the situation, the job was too big for our in-house staff. I recommend this to be declared as an emergency and allow Deegan Roofing move forward making all necessary repairs towards the roof at the Dining Hall located at Camp Hope.

If you should have any questions or I can be of additional assistance, please feel free to contact me. Thank you for your attention with this matter.

RE: RESOLUTION TO SUPPORT THE LISTING OF THE VANDERHOEF-WESTERVELT HOUSE LOCATED IN WEASEL BROOK PARK, CLIFTON TO THE STATE AND NATIONAL REGISTERS OF HISTORIC PLACES

Members of the Board:

We are seeking a resolution to support the listing of the Vanderhoef-Westervelt House located in Weasel Brook Park to the State and National Register of Historic Places.

The Westervelt-Vanderhoef House is eligible for listing on the National Register of Historic Places: 1) under Criterion A, as a result of its associations with the parks movement of the early 19th Century, the development of the Passaic County Parks system, and the conservation and historic preservation efforts of the Passaic County Park Commission during the 1930s; 2) under Criterion B, as a result of its associations with Gysbert Vanderhoef, owner and operator of Passaic County’s oldest grist mill; and 3) under Criterion C, as an excellent example of later 18th Century/early 19th century vernacular Dutch stone house design from the most highly developed period of that building type constructed in northeastern New Jersey, especially in Bergen County.

Based upon the above, this office recommends that the Board of Chosen Freeholders adopt a Resolution supporting this listing. In addition, the Public Works and Building & Grounds Committee reviewed and recommended at its meeting of June 12, 2019, that the full Board authorize this resolution in effort to continue to preserve one of the County’s historic sites.

If you have any questions, please do not hesitate to contact me.

Dear Mr. Glovin:

Re: The Property of Fair Lawn Riverview, LP
Parcels AE1A, TAE1B & E1C
Replacement of Bridge Struct No. 1600-009
Fair Lawn Avenue over the Passaic River
1-06 Fair Lawn Avenue
Block 6601, Lot 1; Block 5624, Lots 33 - 36
Borough of Fair Lawn
Bergen County, New Jersey

In accordance with your request, we have prepared a letter amendment to our appraisal of the referenced property. This appraisal was submitted to you earlier this year, with a value date of January 29, 2019, which was the date of our last formal inspection. The lots delineated above are contiguous and have continuity of use and ownership, and are considered a single property for this assignment. The property under appraisal comprises a 1.503± acre, commercially zoned site, which was formerly improved with a 13,696± square foot office / industrial building. This structure has been demolished, and the owners are in the process of improving the property with a 43 unit apartment building. However, this was a land only valuation; any value contribution of former improvements or ongoing construction was not considered. The property is located along the southerly side of Fair Lawn Avenue, and along the easterly bank of the Passaic River, in the central westerly portion of Fair Lawn Borough, in Bergen County.

The purpose of our appraisal was to estimate the market value of a proposed 827± square foot, or .019± acre permanent aerial utility easement, designated as Parcel AE1A, to be acquired on the property by the Borough of Passaic, as well as a temporary aerial utility easement, designated as Parcel TAE1B, and a temporary construction easement, known as Parcel E1C, and damages to
the remainder, if any. A before and after methodology was utilized, estimating the fee simple "as is" market value of the subject land only, both before the taking and after the taking. We had previously appraised this property for you, for eminent domain purposes, with value dates of November 28, 2017 and June 12, 2018. The latest amended appraisal was required due to revisions to the proposed takings. That latest assignment was a current valuation. The property was re-inspected on January 29, 2019, which was set as the date of value. This re-inspection was made with Richard LaBarbiera, representing the property owner.

This letter amendment incorporates our previous appraisals, and is made and reported in compliance with Standards 1 and 2.2(b), as defined in the 2018-2019 Uniform Standards of Professional Appraisal Practice (USPAP) of the Appraisal Foundation and the Appraisal Institute's Code of Professional Ethics. It does not contain all the detailed descriptions, analyses and conclusions customarily contained in a more complete appraisal report. For this reason, the usefulness of this report is limited but adequate for your purpose, which is to offer an estimate of the market value of the subject property for proposed easement acquisition purposes. This is defined as the intended use. Because of the restricted nature of this letter, some users of appraisal services and the public might find this format difficult to understand without our work file. We have retained all supporting information in our files, and would be pleased to prepare a more complete appraisal report, should you find it necessary at a later date.

By acceptance of this assignment, we are acknowledging that we have the experience and knowledge to complete the assignment competently, in accordance with the competency provision in USPAP.

This letter has been prepared for you and the County of Passaic, as the intended users. It is for your sole and exclusive use in estimating the market value for the purpose outlined herein. You must obtain written authorization from us before either using the analyses or the written report for any other purpose, or before releasing the report to any other party or parties, except as required by law, or to local, county, state or federal agencies involved with this property. The appraisal shall not be utilized for any other use or purpose other than to aid you in establishing the market value of the property for proposed easement acquisition purposes, which is the intended use of this appraisal. It is specifically understood that this appraisal will not be utilized for sales brochures, marketing, tax appeal, mortgage underwriting or lending collateral purposes.

All rights, title and interest in any data gathered in the course of preparing the appraisal and report, excluding any data furnished by or on your behalf, and the content of the report prepared pursuant to this agreement shall be vested in Harry L. Schwarz & Co. Subject to the foregoing, you have the right to possess a copy of the report and to disclose the conclusions and report to the County of Passaic, the property owners, and other officials or other professional advisors as related to the property that is the object of this assignment, provided that such officials or advisors are advised in writing of Harry L. Schwarz & Co.'s rights under this agreement prior to receipt of this appraisal report.
Harry L. Schwarz & Co.

Michael H. Glovin, Esq.
Deputy County Counsel, County of Passaic

This letter amendment has become necessary due to some new information reported by the subject owners and County of Passaic officials. In our previous appraisals, the assumption was made that the redevelopment of the subject property with a 43 unit apartment building and the County bridge replacement project would be occurring concurrently. However, construction of the apartment building is now underway, and it has been estimated by the owners that occupancy will occur in January of 2020. The County of Passaic does not plan to start their bridge replacement project until later in 2020. We have revised our valuation to reflect this timing differential. The date of value has not changed, and remains as of January 29, 2019.

Scope of Work

The value estimate reflects our opinion of the market value of the proposed easement acquisitions on the subject property, as well as damages to the remainder, if any. The market value estimate is of the fee simple estate. The subject improvement was in the process of being demolished on the date of re-inspection. For this assignment, the fee simple value is estimated. A fee simple estate includes all the rights that may be vested in an individual property owner, subject to the limitations of eminent domain, escheat, police power and taxation, and any restrictions or easements of record noted herein. Definitions of market value may be found in a later section of this report.

A letter was sent to the property owner’s representative, Paul Kaufman, Esq., by certified mail, return receipt requested, offering the owners the opportunity to accompany us for an onsite inspection of the property. Richard LaBarbiera, representing the property owner, accompanied us for our inspection. No representation or consideration has been given to defects that are not visible. We are not professionally knowledgeable regarding environmental contamination. There are reportedly no underground tanks on the property. This property is listed on the NJDEP’s list of known contaminated sites, but is classified as a closed site with a letter of no further action (NFA) and a response action outcome (RAO) in place. For the purposes of this valuation, at the instruction of the client, the property is assumed to be free and clear of all types of contamination, and could receive any necessary releases. Should contamination need to be considered, the value estimate should be reviewed and revised.

The scope of the work included, but was not limited to, inspection of the subject land and of the subject neighborhood. We evaluated the neighborhood and studied the County’s project and individual parcel maps. We gathered state, county and local demographic and area data, and reviewed the Fair Lawn Borough Zoning ordinance and map, as well as the USGS and NJDEP prepared flood hazard and wetlands data, and the NJ Highlands maps and data. We searched the local real estate market for comparable data. This involved seeking sales of similar tracts in Fair Lawn and many other communities. The comparable sales were inspected from the street and confirmed by deed, GSMLS records, the First Real Estate Corelogic, Inc. tax and sales

data service, CoStar Comparable Sales Data Service, sellers or buyers, attorneys, listing or selling agents, commensurate with this assignment. All data has been analyzed and the conclusion as to market value is based on our analysis of what might be expected in the local market for the subject property, as of the value date.

The Sales Comparison Approach has been utilized as an independent approach to value. This is a land only valuation; any value contribution of the subject improvement, which was in the process of being demolished, is not considered. The Cost Approach and the Income Approach are not applicable. This is not considered a departure from standard appraisal practice, according to the Uniform Standards of Professional Appraisal Practice.

Extraordinary Assumptions

An extraordinary assumption is an assumption, directly related to a specific assignment, as of the effective date of the assignment results, which, if found to be false, could alter the appraiser’s opinions or conclusions. Extraordinary assumptions presume as fact otherwise uncertain information about physical, legal or economic characteristics of the subject property, or about conditions external to the property, or about the integrity of the data used in an analysis. Extraordinary assumptions are made so as to bring clarity to the opinion of value and to make the conclusions more meaningful. The appraisal may consider other assumptions, either general or specific to this assignment, which may be mentioned throughout the report. This appraisal makes the extraordinary assumption that there will be no adverse impact on the existing subject improvement, which was being demolished, nor on any proposed improvements, and therefore a land only valuation is appropriate.

Hypothetical Conditions

A hypothetical condition is a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. These conditions are contrary to known facts about physical, legal or economic characteristics of the subject property; or about conditions external to the property, or about the integrity of data used in an analysis. Typically a hypothetical condition may be presented to the appraiser by the client for the purposes of specificity of value or may be utilized by the appraiser for illustrative purposes. This appraisal is made under the hypothetical condition that there is no environmental contamination on the subject property. In reality, the property is an NJDEP known contaminated site, but is classified as a closed site with a letter of no further action and a response action outcome document in place. Additionally, the value after taking into account the hypothetical condition that the proposed easements are in place.

Exposure Time / Marketing Time

Exposure time is the estimated length of time that the property being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value, as of the effective date of the appraisal. It is a retrospective estimate, assuming a competitive and open market. For the subject property, the exposure time is estimated at 15 to 18 months. Marketing time is the time it takes an interest in real property to sell on the market subsequent to the date of an appraisal. It is a reasonable amount of time it might take to sell an interest in real property at its estimated market value during the period immediately after the effective date of the appraisal; the anticipated time required to expose the property to a pool of prospective purchasers, and to allow appropriate time for negotiation, the exercise of due diligence, and the consummation of a sale at a price supportable by concurrent market conditions. For the subject property, the marketing time is estimated at 15 to 18 months.

VALUE

After due consideration of all the foregoing, in our opinion, the just compensation due the property owner, based on an "as is" market valuation of the subject property's land only, before and after the takings, as of January 29, 2019, is:

EIGHTY ONE THOUSAND ($81,000) DOLLARS

The value of the proposed temporary aerial easement on the subject property in excess of 24 months is estimated at $1,667.38 per month.

The value of the proposed temporary construction easement on the subject property in excess of 24 months is estimated at $1,347.00 per month.

Re: Emergency Management Agency Assistance (EMAA) Eligibility for Federal Fiscal Year (FFY) 2019

Dear Coordinator Lyons:

It has been determined that the County of Passaic is eligible to submit a Subaward Application for up to $55,000. The FFY2019 EMAA funding for the performance period starts July 1, 2019 and runs through June 30, 2020.

The completed application shall be submitted to the New Jersey Office of Emergency Management (NJOEM) Preparedness Bureau via the NJEMGrants online system by June 21, 2019. Upon completion of the performance period, approved work plan activities, and expenditure certification, reimbursement will be made to the County by the State.

The County is responsible for the required match (the dollar-for-dollar match must be equal to or greater than your Federal award amount), either cash or in-kind, to the federal portion of the award. The source of the match, and the match amount, must be documented in the application and on the required reimbursement forms. Subawards are solely contingent upon the availability of federal funds. NJSP/EMS reserves the right to decline any and all applications for funding and to award grants in amounts different than requested.

If you have any questions or concerns, please contact SFC Deborah Coutts at (609) 963-6796.

Prosecutor Camelia M. Valdes
Passaic County Prosecutor's Office

Dear Prosecutor Valdes,

We are pleased to inform you that the New Jersey Children’s Alliance (NJCA) will be purchasing the Infoshare CAC (Child Advocacy Center) Module on behalf of the Passaic County Prosecutor’s Office Child Advocacy Center (CAC). The New Jersey Children’s Alliance will cover the expenses associated with implementation and training, at a total cost of $45,000.

NJCA supports the development and sustainability of Child Advocacy Centers throughout the state. CACs are required to collect data and submit reports on a bi-annual basis to the National Children’s Alliance in order to maintain accreditation. Currently, the Infoshare system used statewide does not have all of the required data fields for accreditation. The CAC Module pulls relevant data from Infoshare and includes the additional data fields required for the bi-annual reports. The CAC Module will ease the burden of the data collection and reporting requirements.

Please contact me with any questions.

Thank you,

Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

Passaic County receives funding annually from the U.S. Department of Housing and Urban Development under the Community Development Block Grant (CDBG) Program. The Department of Planning and Economic Development is the County's designated department responsible for the federal grant program. One of the requirements for receiving these funds is the development of a five-year Consolidated Plan for Housing and Community Development (CP) to provide policy direction for the next five years of funding decisions. In general, the CP is guided by three overarching goals that are applied according to a community's needs. The goals are:

- To provide decent housing by preserving the affordable housing stock, increasing the availability of affordable housing, reducing discriminatory barriers, increasing the supply of supportive housing for those with special needs and transitioning homeless persons and families into housing.
- To provide a suitable living environment through safer, more livable neighborhoods, greater integration of low- and moderate-income residents throughout the cities, increased housing opportunities and reinvestment in deteriorating neighborhoods.
- To expand economic opportunities through more jobs paying self-sufficient wages, homeownership opportunities, development activities that promote long-term community viability and the empowerment of low- and moderate-income persons to achieve self-sufficiency.

The County prepared a new Five Year Consolidated Plan for FY 2018-2022. This plan is the basis for allocation priorities and actions for FY 2019. The federal funding resource for implementation of the plan is the Community Development Block Grant (CDBG) Program. The main objective of this program is to develop viable urban communities by providing decent housing, a suitable living environment, and economic opportunities, principally for persons of low and moderate-income levels. Funds can be used for a wide array of activities, including: housing rehabilitation, construction or rehabilitation of public facilities and infrastructure, removal of architectural barriers, public services, rehabilitation of commercial or industrial buildings and loans or grants to businesses.
2. **Summarize the objectives and outcomes identified in the Plan**

In 2018, the County prepared a five-year plan for the fiscal years 2018 to 2022. This is the second annual plan that will implement the goals and objectives outlined in that plan.

During FY 2019, the County will use CDBG funds for activities in support of the goals for public facilities, infrastructure, public services and planning and administration.
3. Evaluation of past performance

Passaic County is currently administering the FY 2018 grant program. The program year runs from September 1, 2018 to August 31, 2019. The Comprehensive Annual Performance and Evaluation Report (CAPER) for this year will be available for public review during December, 2019. The last CAPER, for FY 2017, covered the period through August 31, 2018.

During FY 2017, Passaic County received $788,241 in CDBG funds and spent a total of $828,017.23. The County allocated the grant funds to seven public facilities and infrastructure projects, and four public services projects, including a fair housing outreach program. During 2017 there were 9 projects completed that were funded in prior years.

During FY 2018, Passaic County received $849,041 and funded eight municipal and three public service projects. In addition, the County funded several smaller municipal projects from funds remaining from completed projects in older years but no 2017 projects.

The County has been meeting the timeliness standard of no more than 1.5 times its annual allocation at the end of the 10th month of the program year. Municipal projects are often not ready to implement in the first year after funding. This is a situation that the County is seeking to address.

The County’s Continuum of Care (Paterson/Passaic County CoC) utilizes McKinney-Vento funds from HUD to support permanent supportive housing, the Homeless Management Information System and a Rapid Re-housing program. The CoC received $4,557,884 in funding for twelve (12) projects in FY 2018.

4. Summary of Citizen Participation Process and consultation process

The Passaic County CDBG program includes outreach to municipalities and organizations as described in full in the Annual Plan. Such outreach included:

1. Informing the municipalities and organizations of the availability of funds, application deadline, and first public hearing date. Letters and emails were sent out in early December 2018.

2. The first public meeting was held on February 1, 2019. The hearing was advertised in two local newspapers and a blast email reminded interested parties of the hearing.

3. The Action Plan was disseminated by email to all of the participating jurisdictions as well as organizations that represent low- and moderate-income persons and those with limited English proficiency. The second public hearing announcement was included in this communication.
4. A second hearing was held prior to the regularly scheduled meeting of the Passaic County Board of Chosen Freeholders on June 11, 2019 at 5:30 pm. The hearing was advertised with the availability of the Action Plan for display and disseminated through agencies that have contact with low- and moderate-income persons and those with limited English proficiency.
5. Summary of public comments

6. Summary of comments or views not accepted and the reasons for not accepting them

Re: Community Development Block Grant (CDBG)

Dear Ms. Hoffman:

Passaic County awarded a 2015 CDBG grant to the Township of West Milford for the Teen Center’s elevator in the amount of $50,000 which was reallocated in 2017 to the township’s former library, now known as Building 2, for the construction of an ADA accessible bathroom.

At this time, the architect has completed the plans on Building 2 and is working on going out to bid so the project is moving forward. The Township of West Milford, however, is asking for a six-month extension from August 31, 2019 to February 29, 2020.

Since its inception, this program has benefited West Milford residents by the receipt of several allotments that have directly contributed to this community. Thank you for accepting this request and your continued efforts in support of West Milford toward implementation of this successful project.

Very truly yours,

RE: Replacement of West Brook Bridge over Wanaque Reservoir

Dear Mr. Goett:

NRC has demobilized from the Project site and has indicated that they will return to complete the necessary excavation once the water levels in the Wanaque Reservoir fall to approximately elevation 275 ft (as per your letter dated February 6, 2019 to Thomas Aljian, Esq.). NRC’s letter dated April 5, 2019 indicates that NRC is planning to remobilize to the Project site within two weeks following the Wanaque Reservoir reaching levels of 285 ft or on August 15, 2019.

We note that the Project Plans show that the “Normal Pool Elevation” was 302.4 ft. and that in a worst-case flooding scenario, the maximum elevation would be 304.2 ft—less than two feet above “normal pool elevation (See Bid Plan Sheet 63). Note 25 on Plan Page 3 also provides:

NORMAL POOL ELEVATION SHOWN ON THE PLAN REPRESENTS 100 PERCENT RESERVOIR CAPACITY. HOWEVER, WATER SURFACE ON THE WANAQUE RESERVOIR FLUCTUATES DURING THE COURSE OF THE YEAR. DURING PAST MAJOR STORM EVENTS AN INCREASE OF MORE THAN 6’ OVER A 24 HOUR PERIOD HAS BEEN RECORDED. ALSO DURING HEAVY USAGE AND TIMES OF DROUGHT, A DROP OF 35’ IN 3-4 MONTHS ALSO HAS BEEN RECORDED. THE HIGHEST RECORDED ELEVATION ON RECORD IS ELEVATION 304.52’ AND THE LOWEST RECORDED ELEVATION AFTER CONSTRUCTION IS 256.02’. MONITOR WEATHER FORECASTS AND TAKE ALL NECESSARY PRECAUTIONS REQUIRED FOR CHANGES IN WATER SURFACE ELEVATIONS. ADDITIONAL INFORMATION REGARDING WATER SURFACE ELEVATION CAN BE FOUND AT HTTP://WATERDATA.USGS.GOV/NJ/NWIS/
The present elevation of reservoir water is not in any way abnormal or anomalous. NRC was provided this information in advance of its bid and it is expected they would plan their work, means, methods, schedule and price their proposal in accordance with water elevations set forth in the Contract Documents.

The means and methods of performing the excavation work is the Contractor's responsibility. NRC's April 5, 2019 letter states that NRC can perform the work utilizing a 5 yd³ clam bucket. The County has no objections to this method. As the water elevation is within the range shown on the Contract Plans, there is no justification to wait until the water elevation drops to 285 ft or August 15, 2019 to begin the work. This Project must be brought to a conclusion and NRC must complete the Project Scope of Work, including the necessary excavation work in a reasonably timely manner. Each day that this project remains open causes the County of Passaic to incur additional unnecessary expenses.

Passaic County hereby demands that NRC remobilize its forces and finish the remaining work on the contract including the necessary excavation work and collateral drainage work. If NRC should fail to remobilize by June 14, 2019, the County of Passaic will declare NRC to be in breach of the Contract and take all necessary steps to protect its rights and interests pursuant to the contract and under the law.

Very truly yours,

increased, and the obligation of the County authorized by or incurred pursuant to the terms of this guaranty is permitted by an exception to the debt limitations of the Local Bond Law, which exception is contained in the Act.

(d) All other items to be contained in a bond ordinance adopted pursuant to the Local Bond Law are hereby determined to be inapplicable to the County's guaranty of the Obligations hereby.
