Re: Proposal To Provide Legal Services Relative To Potential Public Health Synergies Between The County Of Passaic And The City Of Paterson

Dear County Administrator DeNova:

Thank you for the invitation to submit a proposal to perform legal services for the County of Passaic (the “County”). Having previously been qualified by the County to serve as Outside Special Legal Counsel for Shared Services Agreements, this proposal sets forth a specific scope of services relative to a potential cost-saving opportunity identified by the County.

As discussed, Archer & Greiner would be retained by the County to conduct a review of the public health services currently provided by the County and City of Paterson (“City”) and determine whether taxpayer savings can be achieved through consolidation, shared service or other contractual arrangement. Our legal representation would be limited to the County in this regard.

To complete this review, my colleague Michael L. Collins and I would propose to visit the County and meet with relevant parties. We would undertake a review of New Jersey statutes and regulations as well as the current operations of the County/City operations before presenting a report outlining potential areas of cost savings and legal mechanisms for achieving same. We will further engage consulting resources necessary to complete a portion of the analysis, as outlined in the attached proposal from Government Strategy Group, and bill these costs as disbursements through our invoicing.

Should the County decide to move forward with a shared services arrangement, we would represent the County in negotiating and drafting a shared services agreement with the City. We would further represent the County in preparing any necessary resolutions and internal memoranda necessary to obtain the approval of same.

Finally, we would assist the County in pursuing potential reimbursement of study costs, through grants offered by the Division of Local Government Services ("DLGS") within the New Jersey Department of Community Affairs. This would include arranging and participating in meetings with DLGS that present the cost-savings to be realized by a shared services agreement and the steps taken to implement same. We must disclaim that any potential grant is conditioned upon the County's eligibility for same, including that DLGS may condition award upon actual approval and implementation of a shared services agreement.

Attached please find a draft contract that sets forth the scope of this engagement in greater detail. Our engagement is based upon hourly billing with defined consulting resources billed as set forth above and in the attached contract. We estimate that the total cost for this engagement – to include consulting support – will not exceed $30,000.00. This amount may vary should the County choose to eliminate certain proposed steps or expand the nature of the engagement to include others.

Please contact me when you have had an opportunity to review. I thank you, again, for the opportunity to submit this proposal and look forward to hearing from you.

Very truly yours,

ARCHER & GREINER

Anthony DeNova, County Administrator

Dear Mr. DeNova:

Fairview Agency and the Passaic County’s Self Insurance Committee’s recommendation is for the County to move the Health Benefits Third Party Administration from Horizon Blue Cross & Blue Shield of New Jersey to Meritain Health effective January 1, 2020.

Fairview Agency along with the County started the Third Part Administration review in April and we received proposals from the following firms:

1. Insurance Administrator of America (IAA)
2. Insurance Design Administrators (IDA)
3. Meritain Health
4. Horizon Blue Cross and Blue Shield

After several meetings with the TPA’s above we based our decision to move to Meritain Health on the following factors:

1. Meritain will match current plan designs on a equal to or better basis
2. Superior Claims Management
3. The County & Broker has web access to run online reports & update eligibility
4. Network Access – Aetna Choice POS II – Equal to or better than the current Horizon Network
5. Personal Service and Member Customer Service
6. Out of Network Claim Negotiations
7. Meritain ability to Cash Advance the Large Claimant Payments
8. Monthly Billing Services for Retirees & Reinsurance Premium
9. No upfront Working Capital Claim Deposit
10. Meritain has Performance Guarantees for Administering the plan accurately at 15% of Administration Fee for the plan year
11. Meritain has Network Discount Guarantee of 65.2% for In-Network and risking 10% of Administration Fee for the plan year
12. CVS/Caremark – Prescription Drug integration & reporting
13. CVS /Aetna Merger looking towards the future – CVS/Minute Clinic S0-member co-pay
Fairview Insurance Agency has existing municipal clients with Meritain Health and we are very confident in their abilities to service the County of Passaic and all its enrolled participants. If you have any questions, please give me a call to discuss.

Sincerely,

Anthony DeNova
County Administrator
Passaic County
495 River Street – 2nd Floor
Paterson, NJ 07524

Dear Mr. DeNova,

Based on the information submitted regarding the County of Passaic’s current self-funded medical programs, Meritain Health/Aetna agrees to provide benefit levels (i.e. copayments, coinsurance, deductibles, plan limits and maximums) that are equal to or better than the current plans with Horizon.

To highlight our ability to provide competitive and, in some instances, better coverage, enclosed is a detailed review of benefits with the corresponding Meritain Health/Aetna plan information. The determination that the benefits we will offer to County of Passaic are equal to or better than the benefits currently offered is based on a comparison of the benefit summary from the current plan (provided by you) to the benefits in the selected Meritain Health/Aetna plan. Specifically, we compared the current benefit-level amounts, member cost sharing responsibilities (including co-payments, coinsurance, and deductibles), plan limitations and annual and lifetime maximums. Please note that we did not compare provider networks, payment methodologies for participating and non-participating providers, reimbursement policies (including but not limited to coding and bundling of claims), benefit utilization, exceptions or administrative and medical policies/practices (including but not limited to prior authorization, medical necessity, utilization review and management).

All benefits provided by Meritain Health/Aetna will be administered in accordance with our plan contracts and certificates, provider networks, payment and reimbursement methodologies/policies and other administrative and medical policies as noted above. While our goal is to provide County of Passaic with the most accurate information possible for purposes of this benefit comparison, our administration of the plan may affect the ultimate benefit levels. If that happens, we will work with you to determine the best course of action for us and County of Passaic.

Meritain Health and Aetna are committed to ensuring a smooth transition for the employees and families of County of Passaic. As such, we look forward to our implementation meeting and assisting you with any questions.

Yours in good health,

DATE: September 17, 2019

TO: Shirley Force, Director of Senior Services

FROM: Anthony J. DeNova, County Administrator

RE: Authorization of immediate award of contract to Gerber Auto Center, Inc., for automotive emergency repair of the Passaic County Para-Transit bus-RV toilet style, in the amount of $12,139.86

In connection with the above-referenced matter, this is to advise that in my capacity as Chief Executive Officer of the County of Passaic, I hereby deem it necessary to authorize immediate award of a contract to Gerber Auto Center, Inc., for auto emergency repair of the Passaic County Para-Transit bus-RV toilet style, in the amount of $12,139.86. The aforesaid RV toilet is in need of immediate restoration due to leaking waste, debris and odor- the situation is one which could affect the health, safety, and welfare of the general public and employees using/driving this Passaic County owned vehicle.

By way of background, the Passaic County Para-Transit Program maintains a fleet of vehicles, which provide transportation for the county’s senior citizens and disabled residents in need of non-emergency rides to medical appointments, shopping centers, county-run nutrition and adult day care sites, and for the disabled residents to attend group work programs. Special lift vans are available to accommodate non-ambulatory individuals.

The declaration of emergency and immediate award of contract in this matter furthers the intent in purpose of the Passaic County
Para-Transit Program in an effort to provide a needed service to the Passaic County Community at Large.

Therefore, in light of the above and the continued need of these urgent Para-Transit services, I hereby authorize the award of contract to Gerber Auto Center, Inc., with a payment of $12,139.86 commencing immediately.

A total of $12,139.86 is to be paid to Gerber Auto Center, Inc., as an emergency for the above stated reasons.

Thank you for your kind attention to this matter.

Re: County of Passaic
Renovations to Passaic County Courthouse Annex Paterson, NJ

Dear Members of the Board:

LAN Associates (LAN) has provided a proposal for additional architectural and engineering (A/E) services for the Courthouse Annex renovation project. From construction meeting No. 27 on November 25, 2018 to construction meeting No. 46 on July 31, 2019, LAN has spent additional time towards the project. The original contract time elapsed back in October 20, 2018. To date LAN has used up 100% of their construction administration fee. The project is forecasted to be completed by October of 2019 based on the tentative construction extension of time.

In addition LAN has included outside consulting services for (Structural Engineer) for various unforeseen structural issues that needed to be corrected. The proposal from Micucci Engineering P.C. is $5,750.00.

LAN’s proposal for additional A/E services is in the amount of $88,556.25. Copy of the proposal is attached.

This matter was approved at the Public Works Committee meeting on September 11, 2019. An award of contract is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution modifying the contract to LAN Associates for the total amount of $94,306.25 for additional A/E services including structural engineering services and authorize County Counsel and the Director of Purchasing to prepare and execute the necessary subject to the availability of funds.

LAN Job #2.20012.11
Ref: Additional A/E Services

Dear Mr. Thompson:

LAN Associates, Engineering, Planning, Architecture, Surveying, Inc. (LAN) is submitting a request for additional A/E Services regarding the above referenced project. From Construction Meeting No. 27 on November 25, 2018 to Construction Meeting No. 46 on July 31, 2019, LAN has spent additional time towards the project. The original contract time elapsed back in October 20, 2018. To date LAN has used up 100% of our construction administration fee. The project is forecasted to be completed by September of 2019 based on the tentative construction extension of time. LAN is requesting an additional $88,586.25 plus $5,750.00 (Structural Engineer) for a total of $94,336.25 for construction administration services for added time spent on the project.

Should you have further questions and/or comments with regards to this letter, please do not hesitate to contact the undersigned.

Respectfully submitted,

Re: County of Passaic
Renovations to Passaic County Courthouse Annex Paterson, NJ

CONTRACT MODIFICATION- LAN Associates

Dear Members of the Board:

LAN Associates (LAN) has provided a proposal for additional architectural and engineering (A/E) services for the Courthouse Annex renovation project. From construction meeting No. 27 on November 25, 2018 to construction meeting No. 46 on July 31, 2019, LAN has spent additional time towards the project. The original contract time elapsed back in October 20, 2018. To date LAN has used up 100% of their construction administration fee. The project is forecasted to be completed by October of 2019 based on the tentative construction extension of time.

In addition LAN has included outside consulting services for (Structural Engineer) for various unforeseen structural issues that needed to be corrected. The proposal from Micucci Engineering P.C. is $5,750.00.

LAN's proposal for additional A/E services is in the amount of $88,556.25. Copy of the proposal is attached.

This matter was approved at the Public Works Committee meeting on September 11, 2019. An award of contract is recommended to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution modifying the contract to LAN Associates for the total amount of $94,306.25 for additional A/E services including structural engineering services and authorize County Counsel and the Director of Purchasing to prepare and execute the necessary subject to the availability of funds.

Very truly yours,

We have reviewed the email from your Jonathan Pera addressed to our Erik Swensen dated August 15, 2019. It is our understanding that the County is eliminating approximately 1.6 ± miles of the proposal routing surveys. The new survey distance will be 5.4 miles, again according to the County calculations. Based on this modification our new price for the reduced work would be as follows.

REQUEST FOR PROPOSALS
Preliminary & Final Engineering Design Services for
Morris Canal Greenway – Pompton Feeder Phase IV
Township of Little Falls, Borough of Totowa & Township of Wayne, Passaic County, NJ
Transportation Alternatives Program (TAP)

Outline of Consulting Engineering Services Required

Intent
The County of Passaic intends to prepare plans and specifications for bicycle and pedestrian facilities along the proposed route of the Morris Canal Greenway along sections of the former Pompton Feeder and Morris Canal in the Township of Little Falls, Township of Wayne and the Borough of Totowa. Almost all seven miles of proposed trail will be off-road. Approximately six miles are proposed along the North Jersey District Water Supply Commission’s (NJDWSC) Right of Way (ROW) with other segments potentially utilizing Morris County’s planned NYS&W Path. Limited portions of the trail will be on-road, including county and local roads, where required. The improvements will expand travel choice, draw attention to the Greenway and the historic canal, and enhance the safety of pedestrians, bicyclists, and other non-motorized forms of transportation.

Passaic County has been awarded grant funds from the Federal Highway Administration’s Transportation Alternatives Program (TAP) to fund construction of the proposed improvements.

The County is seeking a consultant to provide full Engineering Design Services, including labor, equipment and every other item of expense necessary to complete the following: inspect the proposed route; design, prepare and obtain required permits; prepare required survey documents; complete an ADA accessibility assessment of the proposed route; identify locations for regulatory and wayfinding signs, which will all bear the Morris Canal Greenway logo and comply with the County’s wayfinding standards; identify sensitive infrastructure in coordination with the NJDWSC and other appropriate entities to address safety and security concerns; identify multiple accessible entrances along the length of the proposed route that will connect to neighborhoods, parks, schools and shopping; and prepare final construction plans and specifications for public bidding purposes.

Project Description and Limits

Please review the attached mapping that illustrates the project limits and Initially Preferred Alignment (IPA).

The project will span approximately seven miles of bicycle and pedestrian safety improvements of which almost all will be off-road, a majority of which is located on the NJDWSC ROW. Other portions of the route include county and local roads to facilitate crossings and where major obstacles force the trail alignment to the road. About one mile of the proposed route will utilize the planned Morris County NYS&W Path in order to overcome a freight railroad crossing and other environmental issues. Engineering tasks will take into consideration alternative routing options due to challenges with constructability, access, environmental conditions, and value engineering.

The IPA includes four sections described below from north to south.

- **Section 1** begins at Pompton Plains Cross Road and ends at Newark Pompton Turnpike. This segment is 1.8 miles long and is entirely located along NJDWSC ROW.
  - Access points and trailheads may include, but are not limited to:
    - Farmingdale Road and Deerfield Road
- Everett J. Faber Memorial Park near Wendt Lane
- El Dorado Drive
- Newark Pompton Turnpike

- **Section 2** begins at Newark Pompton Turnpike and ends after crossing under the Route 202 underpass in the Mountain View section of Wayne. Approximately one mile of this 2.2 mile segment will utilize the planned NYS&W Path.
  - *Access points* and trailheads may include, but are not limited to:
    - Haul Road
    - Stylon Road
    - Ryerson Avenue
    - Mountain View Boulevard

- **Section 3** travels along the NJDWSC ROW from where the NYS&W Path ends to West End Road in Totowa. It is 1.6 miles long.
  - *Access points* and trailheads may include, but are not limited to:
    - Taylor Drive
    - North Cove Park
    - West Belt Parkway
    - West End Road

- **Section 4** begins south of Route 46 in Wayne and will connect to the existing greenway in Wilmore Park off Main Street in Little Falls. This 1.6 mile segment will utilize NJDWSC ROW with other on- and off-road segments.
  - *Access points* and trailheads may include, but are not limited to:
    - Willis Road
    - Union Avenue
    - Morris Canal Park, Main Street
    - Wilmore Park, E. Main Street

**Scope of Services**

5. Copies of the base maps will be forwarded to NJDWSC so that they may verify the location and sizes of their facilities. The consultant will inquire about any shared utilities located on any property that are maintained or owned by a separate entity. The consultant will also inquire whether utility companies have plans for future relocation or expansion to be included on the basemapping.

B. Pre-design Concept Development

1. The consultant will coordinate and attend a project kickoff meeting with County Officials and NJDWSC to review the scope of work, obtain any existing information and establish a project schedule. The consultant will prepare and distribute meeting minutes.

2. The consultant will review the Initial Preferred Alignment (IPA) including crossings and access points with the field survey data collected, site reconnaissance information, and any other relevant data received from the County and utility companies and prepare a preliminary layout plan for the improvements. Any design constraints/impacts will be identified. Identification of access points that will be able to accommodate parking areas will be part of the assessment.

3. The consultant will prepare an Alternatives Analysis Memorandum produced through a value engineering process. The memo will highlight alternatives that address issues of constructability, ADA accessibility and bicycle compliance including trail width and surface material, excessive environmental impacts, or construction and maintenance costs. The alternative analysis memo will outline the merits for various alternatives, permit requirements, impacts to construction costs, compliance with the project intent, supplemental information required, and impact to the design schedule. An area of concern to be addressed in the analysis is Union Avenue. Consultant will develop options for accessing the Union Avenue bridge for County review.

4. The IPA Plan and Alternatives Analysis Memorandum will be reviewed with the County and project partners and a design memo of understanding will be prepared identifying the proposed alignment, roadway crossing and access points. This memo of understanding will serve as the basis of the preliminary design.

5. The consultant will prepare for and present the findings of the Alternatives Analysis Memorandum at two (2) public information meetings.

C. Permit Identification

Re: Rich Tree Service

The Passaic County Parks Department received bids for tree removal and awarded the bid to Rich Tree Service (333 Bergen Street, South Plainfield NJ 07080) in April of 2019.

The original resolution for tree removals by Rich Tree Service was for $20,000 and this money was placed in a blanket purchase order to be used on an as needed basis. This original $20,000 was used and the blanket was increased by an additional $20,000 of which there is currently $9,290.00 remaining. The Parks Department would like to increase this blanket by an additional $9,591.12 to cover the cost of existing invoices in the amount of $10,665.00 and additional tree work for the remainder of 2019.

This resolution request was presented and approved at the Public Works meeting held on September 11, 2019.

Re: Rich Tree Service

The Passaic County Parks Department received bids for tree removal and awarded the bid to Rich Tree Service (333 Bergen Street, South Plainfield NJ 07080) in April of 2019.

The original resolution for tree removals by Rich Tree Service was for $20,000 and this money was placed in a blanket purchase order to be used on an as needed basis. This original $20,000 was used and the blanket was increased by an additional $20,000 of which there is currently $9,290.00 remaining. The Parks Department would like to increase this blanket by an additional $9,591.12 to cover the cost of existing invoices in the amount of $10,665.00 and additional tree work for the remainder of 2019.

This resolution request was presented and approved at the Public Works meeting held on September 11, 2019.

The Passaic County Parks Department would therefore like to request that the Board of Chosen Freeholders adopt the necessary resolution authorizing the blanket for Rich Tree Service to be increased by $9,591.12.

Dear Ms. Ruffel:

The New Jersey Historical Commission has completed its review of FY 2020 General Operating Support proposals, and I am pleased to inform you that the Commission has approved a grant of $18,445 in support of your organization. Grant funding for this program has remained flat for the past ten years, while demand continues to increase. As a result, Passaic County is to be highly congratulated on this success. For your information, a digest of the reviewers' comments is attached along with a listing of any conditions associated with the grant.

You will complete your contract and payment voucher on the System for Administering Grants Electronically (SAGE). You will receive an email notifying you when the contract and payment voucher are available. Please complete and submit your contract within 30 days of notification of its availability on SAGE. It is essential that you return these documents quickly. Delay on your part risks the loss of the grant. Also review the contract carefully and be aware of all mandatory reporting dates for FY 2020. While the Commission will send reminders, it is ultimately the responsibility of the grantee to submit required information by each deadline.

The Commission is very pleased to have the opportunity to support your organization and its important work to support New Jersey history. We want to remind you to take a few minutes to contact Governor Phil Murphy, Lieutenant Governor Sheila Oliver, and your legislators to thank them for their support. If you have any questions about our grant process, you may contact me at Sara.Cureton@sos.nj.gov or at (609) 943-3306.

Failure to comply with the laws, rules and regulations shall be grounds for termination of this grant.

III. Bonding and Insurance

Bonding and insurance of the type described in Attachment A, Part VI, shall be provided by the Grantee and proof of bonding and insurance must be retained on file by the Grantee.

IV. Indemnification

The Grantee shall be solely responsible for and shall keep, save, and hold the State of New Jersey harmless from all claims, loss, liability, expense, or damage resulting from all mental or physical injuries or disabilities, including death, to its employees or recipients of the Grantee's services or to any other persons, or from any damage to any property sustained in connection with the delivery of the Grantee's services that results from any acts or omissions, including negligence or malpractice, of any of its officers, directors, employees, agents, servants or independent contractors, or from the Grantee's failure to provide for the safety and protection of its employees, whether or not due to negligence, fault, or default of the Grantee. The Grantee's responsibility shall also include all legal fees and costs that may arise from these actions. The Grantee's liability under this agreement shall continue after the termination of this agreement with respect to any liability, loss, expense or damage resulting from acts occurring prior to termination.

VI. Availability of Funds

The Recipient shall recognize and agree that both the initial provision of funding and the continuation of such funding under the Agreement is expressly dependent upon the availability to the Department of State of funds appropriated by the State Legislature from State and/or Federal revenue or such other funding sources as may be applicable. A failure of the Department of State to make any payment under this Agreement or to observe and perform any condition on its part to be performed under the Agreement as a result of the failure of the Legislature to appropriate shall not in any manner constitute a breach of the Agreement by the Department of State or an event of default under the Agreement and the Department of State shall not be held liable for any breach of the Agreement because of the absence of available funding appropriations. In addition, future funding shall not be anticipated from the Department of State beyond the duration of the award period set forth in the Grant/Loan Agreement and in no event shall the Agreement be construed as a commitment by the Department of State to expend funds beyond the termination date set in the Grant/Loan Agreement.

These records must contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures and income.
   3. Internal Control: Effective internal and accounting controls over all funds, property and other assets. The Grantee shall adequately safeguard all such assets and assure that they are used solely for authorized purposes.

D. A Department may review the adequacy of the financial management system of any applicant for financial assistance as part of a pre-award review or at any time subsequent to the award. If the Department determines that the Grantee's accounting system does not meet the standards described in paragraph B above, additional information to monitor the grant may be required by the Department upon written notice to the Grantee, until such time as the system meets with Department approval.

IX. Method of Payment

A Payment will be made to the Grantee in a manner determined by the Department (see Attachment A, Section IV), upon receipt by the Department of a properly executed copy of this grant.

X. Allowable Costs

A. Limitation on Use of Funds: Grant funds must be used only for allowable costs.

B. Applicable Cost Principles: For each type of organization, there is a set of Federal principals for determining allowable costs. Allowable costs will be determined in accordance with applicable Federal cost principles specific to the organization incurring the costs (Federal OMB Circular 2 CFR, Part 200) and State requirements.

XI. Period of Availability of Funds

Grantees may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.

XII. Matching and Cost Sharing

The Grantee shall be required to account to the satisfaction of the Department for matching and cost sharing requirements of the grant in accordance with Federal and State requirements.

XIII. Program Income

Program income shall be defined as gross income earned by the Grantee from grant-supported activities. Such earnings include, but will not be limited to, income from service fees, sale of commodities, usage or rental fees, and royalties on patents and copyrights.

A. If a Grantee receives interest earned of $250 or more in a fiscal year on advances of grant funds, see Attachment A, Section VIII (B).

B. Unless the grant provides otherwise, the Grantee shall have no obligation to the Department with respect to royalties received as a result of copyrights or patents produced under the grant.

C. All other program income earned during the grant period shall be retained by the Grantee and used in accordance with Attachment A, Section II of this grant.

XIV. Audit Requirements

This grant is covered by the audit requirements of the Department of the Treasury Circular Letter 15-08-OMB, Single Audit Policy for: Recipients of Federal Grants, State Grants and State Aid. Audit requirements are identified in Attachment A, based on information at the time of award, however, these are subject to change based on actual expenditures of State/Federal funds.

XV. Budget Revision and Modification

This Section sets forth criteria and procedures to be followed by the Grantee in reporting deviations from the approved budget and in requesting approvals for budget revisions and modification. Revisions and modifications to this grant must be requested by the Grantee and approved by the Department through the SAGE system.
A. Grantee shall complete the “Grant Amendment/Budget Revision Request” form in the SAGE system to request approval in from the NJHC when there is reason to believe a revision or modification will be necessary for the following reasons:

XVII. Procurement Standards

Procurement of supplies, equipment, and other services with funds provided by this grant shall be accomplished in a manner generally consistent with Federal and State requirements. Adherence to the standards contained in the applicable Federal and State laws and regulations does not relieve the Grantee of the contractual responsibilities arising under its procurements. The Grantee is the responsible authority, without recourse to the Department, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurement entered in support of a grant.

XVIII. Monitoring of Program Performance

A. The Grantee must assure compliance with applicable Federal requirements and that performance goals are being achieved. Grantee monitoring must cover each program, function or activity to monitor performance under grant supported activities to assure time schedules and objectives are being met, projected work units by time periods are being accomplished, and other performance goals are being achieved as applicable.

B. The Grantee shall inform the Department of the following types of conditions which affect program objectives and performance as soon as they become known:

1. Problems, delays, or adverse conditions which will materially impair the ability to attain program objectives, prevent meeting time schedules and goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accompanied by a statement of the action taken, or contemplated, and any Department assistance required to resolve the situation.

2. Favorable developments or events which enable meeting time schedules and goals sooner than anticipated, at a lower than anticipated cost, or produces a greater benefit than originally planned.

C. The Department may, at its discretion, make site visits to:

1. Review program accomplishments and management control systems.

2. Provide such technical assistance as may be required.

3. Perform fiscal reviews to ensure grant funds are being properly expended in a timely manner.

XIX. Financial and Performance Reporting

A. The grant budget as used in this Section means the approved financial plan to carry out the purpose of the grant. This plan is the financial representation of the project or program as approved during the grant application and award process. The Approved Budget is contained in Attachment B2.

B. The Grantee is required to submit an interim and final report identified in Attachment A, Section V.

C. Extensions to reporting due dates must be requested by completing the “Grant Amendment/Budget Revision Request” form in the SAGE system for review/approval from the NJHC. This must be received at least one week in advance of the due date by the Department of State/NJ Historical Commission.
D. If reports are not submitted as required, the Department may, at its discretion, suspend payments on this grant. The State of New Jersey may, at its discretion, take such action to withhold payments to the Grantee on this or any grant with other State agencies until the required reports have been submitted.

XX. Access to Records
A. The Grantee in accepting this grant agrees to make available to the Department, any Federal agency whose funds are expended in the course of this grant, or any of their duly authorized representatives, pertinent accounting records, books, documents and papers as may be necessary to monitor and audit Grantee's operations.
B. All visitations, inspections and audits, including visits and requests for documentation in discharge of the Department's responsibilities, shall as a general rule provide for prior notice when reasonable and practical to do so.
C. However, the Department retains the right to make unannounced visitations, inspections, and audits as deemed necessary.
D. The Department reserves the right to have access to records of any Subgrantees and requires the Grantee to provide for Department access to such records in any grant with the Subgrantee.
E. The Department reserves the right to have access to all work papers produced in connection with audits made by the Grantee or independent certified public accountants, registered municipal accountants or licensed public accountants hired by the Grantee to perform such audits.

XXI. Record Retention
A. Except as otherwise provided, financial and programmatic records, supporting documents, statistical records and all other records pertinent to the grant shall be retained for a period of seven years, unless Federal or State funding Department statutes require longer periods or unless directed to extend the retention by the Department.

1. If any litigation, claim, negotiation, action or audit involving the records is started before the expiration of the seven year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular seven year period, whichever is later unless otherwise directed by the Department.

2. Records for nonexpendable property acquired with Department funds shall be retained for seven years after its final disposition, unless otherwise provided or directed by the Department.

B. For Federal and State purposes (unless otherwise provided):

1. General - The retention period starts from the date of submission of the final expenditure report, or for grants that are renewed annually, from the date of submission of the annual financial report.

2. Real Property and Equipment - The retention period for real property and equipment records starts from the date of the disposition, replacement or transfer at the direction of the awarding Department.

C. The Department may request transfer of certain records to its custody from the Grantee when it determines that the records possess long-term retention value and will make arrangements with the Grantee to retain any records that are continuously needed for joint use.

XXII. Enforcement
A. Remedies for Noncompliance

If a Grantee materially fails to comply with the terms of an award, whether stated in a State or Federal statute or regulation, an assurance, in a State plan or application, a notice of award, or elsewhere, the Department may take one or more of the following actions, as appropriate in the circumstances:

1. Temporarily withhold cash payments pending correction of the deficiency by the Grantee or take more severe enforcement action.

2. Disallow all or part of the cost of the activity or action not in compliance.

3. Wholly or partly suspend or terminate the current award for the Grantee's program.

4. Withhold payments for the program,
5. Request the balance of grant funds to be returned and/or seek reimbursement for funds expended that were not in compliance with the terms and conditions of the grant agreement.

6. Take other remedies that may be legally available.

B. Hearings, Appeals

In taking an enforcement action, the Department may provide the Grantee an opportunity for such hearing, appeal or other administrative proceeding to which the Grantee is entitled under any statute or regulation applicable to the action involved.

C. Effects of Suspension and Termination

Costs incurred by the Grantee, resulting from obligations incurred by the Grantee during a suspension or after termination of an award, are not allowable to be applied against the grant unless the Department expressly authorizes them in the notice of suspension or termination or subsequently. Other Grantee costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if the costs result from obligations which were properly incurred by the Grantee before the effective date of suspension or termination, and are noncancellable.

D. Relationship to Debarment and Suspension

The enforcement remedies identified in this Section, including suspension and termination, do not preclude the Grantee from being subject to State and Federal debarment and suspension procedures.

XXIII. Termination and Suspension

A. The following definitions shall apply for the purposes of this Section:

1. Termination: The termination of a grant means the cancellation of assistance, in whole or in part, under a grant at any time prior to the date of completion.

2. Suspension: The suspension of a grant is an action by the Department which temporarily suspends assistance under the grant pending corrective action by the Grantee or pending a decision to terminate the grant by the Department.

B. When the Grantee has failed to comply with grant award stipulations, standards, or conditions, the Department may suspend the grant and withhold further payments; prohibit the Grantee from incurring additional obligations of grant funds pending corrective action by the Grantee; or decide to terminate the grant in accordance with paragraph C below. The Department shall allow all necessary and proper costs, which the Grantee could not reasonably avoid during the period of suspension, provided they meet Federal and State requirements.

C. The Department may terminate the grant in whole or in part whenever it is determined that the Grantee has failed to comply with the conditions of the grant. The Department shall promptly notify the Grantee in writing of the determination and the reasons for the termination together with the effective date. Payments made to the Grantee or recoveries by the Department under the grant terminated for cause shall be in accord with the legal right and liability of the parties.

D. The Department and the Grantee may terminate the grant in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds.

E. The two parties shall agree upon the termination conditions, including the effective date and in case of partial terminations, the portion to be terminated. The Grantee shall not incur new obligations for the terminated portion after the effective date and shall cancel as many outstanding obligations as possible.

F. The Grant Closeout procedures in Section XXV of the grant shall apply in all cases of termination of the grant.

XXIV. Publicity

A. Credit must be given to the Department of State/New Jersey Historical Commission (NJHC) in all printed materials, releases and announcements of the grantee regarding all activities to which NJHC funds contribute. This
applies to all promotional appearances on television and radio by representatives of the grantee organization and any internet-based marketing or promotional material produced by the Grantee as well. In the case of electronic media, verbal credit must be given at least once during a broadcast to acknowledge the support the grantee has received from NJHC to its overall operation.

B. Credit must be given to the NJHC in all print advertising and broadcast advertising placed by a grantee. Billboard advertising must also include NJHC credit. Any advertising, regardless of size or length, place by a grantee that credits a specific funding source must also credit NJHC.

The organization should not imply that it received funds directly from the NJHC, but rather from a grant administered by its officially designated county agency.

2. Date of Completion: The date when all activities under the grant are completed or the expiration date in the award document, or any supplement or amendment thereto.

B. The Grantee shall submit final expenditure and performance reports as prescribed by the Department and in the timeframes set forth in Attachment A, Part V upon completion of the grant period or termination of the grant. The Department may permit extensions when requested in writing.

C. The Grantee will, together with the submission of the final report, refund to the Department any unexpended funds or unobligated (unencumbered) cash advanced, except such sums that have been otherwise authorized in writing by the Department to be retained.

RE: AUTHORIZATION TO SUBMIT AN APPLICATION TO THE NEW JERSEY COUNCIL FOR THE HUMANITIES – INCUBATION GRANT 2020

Members of the Board:

We are seeking a resolution authorizing applying to the New Jersey Council for the Humanities (NJCH)—Incubation Grant for the Department of Cultural & Historic Affairs to continue the development and implementation of our program Expanding the Narrative: The untold stories of those in servitude at the Dey Mansion.

We will continue to develop the exhibition and subsequent programming at the Dey Mansion to highlight the African and enslaved experience during the American Revolution. The Dey Mansion, a stately manor home, served as General George Washington’s Headquarters during July, October and November of 1780. Through the documents related to Col. Theunis Dey we are aware that there were enslaved people on the property and their perspective of the events occurring during the Fight for Independence is an important one that is currently lacking in the narrative and interpretation of this historic site. An Incubation Grant from the NJCH will allow the County to finalize its design and content for a permanent exhibit and expand both public and school programming to highlight the important, yet seldom explored, stories of those enslaved and living in servitude in Colonial New Jersey. The significance of this project is critical, as it will help to re-imagine what local history means for all Passaic County and northern New Jersey residents, making history more relatable and engaging for our County’s diverse population.

The County is already entrenched in the planning stages of this project and with resources from the NJCH can better implement its vision to exhibit original content, conduct a series of lectures, public and school programming, and, ultimately, incorporate this important perspective into its permanent narrative.
The grant has a maximum award of $20,000. The application will be submitted by the County of Passaic providing the 1:1. The in-kind match will come from the Department of Cultural & Historic Affairs operating and salary budget for FY 2029. The Public Works and Building & Grounds Committee at their meeting of September 11, 2019 recommended that the full Board authorize applying for this grant.

I encourage you to consider adopting this resolution to authorize our application to the NJHC. If you have any questions, please do not hesitate to contact me.

Sincerely,

Kelly C. Ruffel

Re: NJDEP Freshwater Wetlands GP Nos. 11 and 17 Application and Flood Hazard Area General Permit Nos. 12 and 13 Application
Passaic Highlands Trail Project

Dear Ms. Cluelow,

On behalf of Passaic County Planning Department, T&M Associates is submitting an application for a Freshwater Wetlands General Permit Nos. 11 and 17 and Flood Hazard Area General Permits Nos. 12 and 13 for the construction of a 3,015-foot-long and 10 foot-wide porous pavement pedestrian trail in the Borough of Wanaque. The majority of the trail is situated along a former railway and existing watermain easement. The northern terminus of the trail is located north of Orchard Avenue and the trail runs south terminating at Union Avenue. The trail is owned by North Jersey Water Supply Commission and Passaic County has an easement for the trail.

It is important to note that a pre-application meeting was held on April 13, 2018 to present the proposed project to Valda Opata and Faraz Kahn. In addition, Vince Mazzal has attended a field meeting to discuss the proposed project with the project team. So, there are a few Department personnel that are aware of the proposed project. In addition, the County held a public Information Center at the Wanaque Borough Hall on June 24, 2019. As such, the public is aware and in support of the project.

As per applicable regulations, the following information is included for Department review:

1. Completed DLUR Application Form with original signatures.

Mr. Michael Lysicatos, AICP, PP, Director
Passaic County Department of Planning
Totowa Business Center
930 Riverview Drive - Suite 250
Totowa, New Jersey 07512

SUBJECT: FY 2019 Action Plan Approval
Passaic County, New Jersey

Dear Mr. Lysicatos:

I am pleased to transmit to you the approval of your Fiscal Year 2019 Action Plan. The grant assistance being approved with the Plan is as follows:

Community Development Block Grant (CDBG) Program $860,233

Enclosed is the funding approval document, the CDBG Funding Approval Agreement (HUD 7082). This document constitutes the contract between the Department of Housing and Urban Development (HUD) and the County of Passaic.

Please sign both copies of the agreement. Retain one copy for your records and return the other copy to the address above within 5 days. Failure to execute and return the grant agreement within 30 days of the date of this letter may be deemed rejection of the grant and cause for HUD to determine that the funds are available for reallocation to other grantees.

Please note that approval of your Consolidated Plan/Action Plan does not constitute approval of the proposed activities within the Plan. The County should review and document that each activity, funded with the aforementioned resources, complies with applicable requirements and HUD regulations.

The Office of Community Planning and Development has developed a website that provides the current regulations for each of your entitlement grant programs. I recommend that you use this resource as your guide for the implementation of your programs and all reporting requirements.

Introduced on: September 24, 2019
Adopted on: September 24, 2019
Official Resolution #: R201900860
Please be reminded that before committing HUD assistance to any activity or project you must complete an environmental review per 24 CFR Part 58. Specifically, 24 CFR §58.22(a) states that neither a recipient nor any participant in the development process may commit HUD assistance on an activity or project until HUD has approved the recipient's Request for Release of Funds (RROF) and the related certification from the responsible entity. Additionally, until the RROF is approved and notification of the release of funds is received, non-HUD funds may not be committed, nor may any activities or projects be undertaken, if the activity or project would have an adverse environmental impact or limit the choice of reasonable alternatives. If the project or activity is exempt per §58.34 or categorically excluded (except in extraordinary circumstances) per §58.35(b), no request for release of funds (RROF) is required, but such determination must be documented in the environmental review record before committing HUD or non-HUD funds.

HUD has updated the Integrated Disbursement and Information System (IDIS) to begin phasing out the first-in-first-out (FIFO) accounting methodology. These changes ensure that IDIS both commits and disburses funds on a grant-specific basis, instead of using the FIFO (oldest money disbursed first) method that has been used for the CDBG Program to date. Grant-specific accounting began with FY 2015 formula allocations. With these changes, grantees tied activity funding/commitment and draws to a specific grant in IDIS. Funds from pre-2015 grants continue to be committed and disbursed using the FIFO method.

For specific information and guidance concerning your grants and compliance with grant-based accounting requirements, please refer to the HUDexchange at:

https://www.hudexchange.info/manage-a-program/grant-based-accounting/

Please note that Federal agencies, including HUD, adopted 2 CFR Part 200 as requirements for Federal financial assistance programs by the interim final rule published December 19, 2014. Indirect costs are addressed in 200.414. With 2 CFR Part 200, grantees must accept a federally recognized indirect cost rate between the grantee and HUD or, if no such rate exists, either negotiate a rate between the grantee and HUD or establish a de minimis indirect cost rate (see also §200.331(a)(4)). **Your indirect cost plans must be attached to each 2019 grant agreement and your indirect cost rates must be declared on each 2019 grant agreement.**

Also, please note that:

- If a non-Federal entity has never received a negotiated indirect cost rate, it may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) as defined in §200.68, which may be used indefinitely (§200.414(f)).

- Non-Federal entities that have a federally negotiated indirect cost rate may apply for a one-time extension of the current rate for a period up to four
years, subject to the review and approval of the cognizant agency for indirect costs. At the end of the four-year extension period, the non-Federal entity must negotiate a rate.

Please note the following items concerning future Annual Plan submissions:

1) The Executive Summary (AP-05) should identify the specific efforts made to broaden public participation in the development of the plan.

2) Relative to the County's consultative efforts, it is necessary that these efforts be more specifically discussed, and identified in the appropriate sections and tables, regarding corrections programs and institutions, business and civic leaders, adjacent units of general local government, and the HOPWA Metropolitan Statistical Area. Heightened consultative efforts also appear necessary relative to persons (especially low-income persons) living in areas where CDBG funds are proposed to be used. (Note: These comments were also included in last year's plan approval.)

A primary goal of the Department is to reduce housing discrimination, affirmatively further fair housing through CPD programs and promote diverse, inclusive communities. To that end, we encourage your community to take all measures necessary to ensure compliance with the Fair Housing requirements associated with these funds. A copy of your Annual Action Plan was provided to the Office of Fair Housing and Equal Opportunity for review. Advisory comments from that review are enclosed with this letter:

1) The Recipient failed to include census maps and to address the geographic impact upon low-income and minority areas of their jurisdiction. This is a concern to this Office. The Recipient is reminded that pursuant to 24 CFR §91.220(f) all Annual Action Plan submissions should include census maps or a description of the geographic areas of the jurisdiction (including areas of low-income and minority concentration) to which assistance will be directed during the ensuing program year, giving the rationale for the priorities chosen when allocating investments geographically. This information is essential as it helps FHEO to identify the geographic dispersion of minority and low-income populations within the Recipient’s jurisdiction. This information also enables FHEO to determine what impact the proposed CDBG activities will have on residents of low-income and minority concentrated areas located within Recipient’s jurisdiction. The Recipient is reminded that maps highlighting the above-referenced information must be included in all future AAPs.

2) As a recipient of federal funding the Recipient has a regulatory obligation to affirmatively further fair housing. Therefore, the Recipient is reminded that it must ensure that must all residents, minority organizations, disability advocacy groups, and homeless advocates be engaged in the Recipient’s ConPlan, Annual Action Plan and AI planning processes. According to 2017
5-year estimates for the American Community Survey, the Recipient’s total population is 40.5% Hispanic and 6.1% Asian. The only mentions of any LEP outreach are brief and contain no specific details. The Recipient must continue to maintain a LEP/LAP to conduct targeted outreach to include the Hispanic and other LEP populations in the Recipient’s planning process and ensure that they are fully aware of the available CDBG programs.

3) In addition, all Public Hearing Notices must be advertised in mediums that can be accessed by the Hispanic, other LEP and disabled populations. This will ensure that any disproportionate housing needs of this group are being appropriately addressed by the Recipient. Copies of these translated notices must also be included in future Annual Action Plan and CAPER submissions.

4) The Recipient must increase efforts to outreach to and assist the minority, LEP, disabled, and other special needs populations. This need applies to all relevant aspects of the AAP.

5) Future submissions of the Annual Action Plan must contain a summary of the Recipient’s impediments as identified in its Analysis of Impediments to Fair Housing Choice (AI).

6) Additionally, future CAPER submissions must include a summary which addresses the AI and what actions/strategies were undertaken to overcome impediments during the Program Year. It should also be reported in detail if the Recipient was unable to meet any of its proposed activities. The CAPER must also detail what HUD funds, if any, were expended to accomplish the activities to address impediments. In doing so, the Recipient will be able to meet specific goals in furthering fair housing; conquer the identified obstacles; and move onto other fair housing impediments in future Program Years.

7) Additionally, FHEO recommends that the Recipient include a breakdown of funds used or allocated for the proposed activities. These activities should include specific milestones and timetables, and state how the Recipient plans to measure results. There must also be a rationale as to how the Recipient employed the impediments to determine which populations are to be targeted. In doing so, the Recipient will be able to meet specific goals in furthering fair housing and address its identified impediments each Program Year. The Recipient must submit their new AI to the FHEO Office within 120 days from receipt of the award letter from CPD.

If you have any questions regarding the above comments, please contact the Newark Fair Housing and Equal Opportunity Center at (973) 776-7307 or (973) 776-7303.
We look forward to working with you during the year to accomplish the goals you have set forth for Passaic County and to further refine and improve the Consolidated Plan development process. In the meantime, if you have any questions or desire assistance concerning this letter or other items related to the community development programs, please contact Mr. Arthur J. D'Amaro, Senior Community Planning & Development Representative at (973) 776-7293, or via email at arthur.j.damaro@hud.gov

Instructions: The Recipient must identify each agency or department of the Recipient that will carry out activities under the grant, the indirect cost rate applicable to each department/agency (including if the de minimis rate is used per 2 CFR §200.414(f)), and the type of direct cost base to which the rate will be applied (for example, Modified Total Direct Costs (MTDC)). Do not include indirect cost rates for subrecipients.

(c) In addition to the conditions contained on form HUD 7082, the grantee shall comply with requirements established by the Office of Management and Budget (OMB) concerning the Dun and Bradstreet Data Universal Numbering System (DUNS); the System for Award Management (SAM.gov.); the Federal Funding Accountability and Transparency Act as provided in 2 CFR part 25, Universal Identifier and General Contractor Registration; and 2 CFR part 170, Reporting Subaward and Executive Compensation Information.

(d) The grantee shall ensure that no CDBG funds are used to support any Federal, State, or local projects that seek to use the power of eminent domain, unless eminent domain is employed only for a public use. For the purposes of this requirement, public use shall not be construed to include economic development that primarily benefits private entities. Any use of funds for mass transit, railroad, airport, seaport or
highway projects as well as utility projects which benefit or serve the general public (including energy-related, communication-related, water-related and wastewater-related infrastructure), other structures designated for use by the general public or which have other common-carrier or public-utility functions that serve the general public and are subject to regulation and oversight by the government, and projects for the removal of an immediate threat to public health and safety or brownfield as defined in the Small Business Liability Relief and Brownfields Revitalization Act (Public Law 107–118) shall be considered a public use for purposes of eminent domain.

(e) The Grantee or unit of general local government that directly or indirectly receives CDBG funds may not sell, trade, or otherwise transfer all or any such portion of such funds to another such entity in exchange for any other funds, credits or non-Federal considerations, but must use such funds for activities eligible under title I of the Act.

(f) E.O. 12372-Special Contract Condition - Notwithstanding any other provision of this agreement, no funds provided under this agreement may be obligated or expended for the planning or construction of water or sewer facilities until receipt of written notification from HUD of the release of funds on completion of the review procedures required under Executive Order (E.O.) 12372, Intergovernmental Review of Federal Programs, and HUD's implementing regulations at 24 CFR Part 52. The recipient shall also complete the review procedures required under E.O. 12372 and 24 CFR Part 52 and receive written notification from HUD of the release of funds before obligating or expending any funds provided under this agreement for any new or revised activity for the planning or construction of water or sewer facilities not previously reviewed under E.O. 12372 and implementing regulations.

(g) CDBG funds may not be provided to a for-profit entity pursuant to section 105(a)(17) of the Act unless such activity or project has been evaluated and selected in accordance with Appendix A to 24 CFR 570-“Guidelines and Objectives for Evaluating Project Costs and Financial Requirements.” (Source - P.L. 113-235, Consolidated and Further Continuing Appropriations Act, 2015, Division K, Title II, Community Development Fund).

Instructions: The Recipient must identify each agency or department of the Recipient that will carry out activities under the grant, the indirect cost rate applicable to each department/agency (including if the de minimis rate is used per 2 CFR §200.414(f)), and the type of direct cost base to which the rate will be applied (for example, Modified Total Direct Costs (MTDC)). Do not include indirect cost rates for subrecipients.

(c) In addition to the conditions contained on form HUD 7082, the grantee shall comply with requirements established by the Office of Management and Budget (OMB) concerning the Dun and Bradstreet Data Universal Numbering System (DUNS); the System for Award Management (SAM.gov.); the Federal Funding Accountability and Transparency Act as provided in 2 CFR part 25, Universal Identifier and General Contractor Registration; and 2 CFR part 170, Reporting Subaward and Executive Compensation Information.

(d) The grantee shall ensure that no CDBG funds are used to support any Federal, State, or local projects that seek to use the power of eminent domain, unless eminent domain is employed only for a public use. For the purposes of this requirement, public use shall not be construed to include economic development that primarily benefits private entities. Any use of funds for mass transit, railroad, airport, seaport or
highway projects as well as utility projects which benefit or serve the
general public (including energy-related, communication-related, water-
related and wastewater-related infrastructure), other structures
designated for use by the general public or which have other common-
carrier or public-utility functions that serve the general public and are
subject to regulation and oversight by the government, and projects for
the removal of an immediate threat to public health and safety or
brownfield as defined in the Small Business Liability Relief and
Brownfields Revitalization Act (Public Law 107–118) shall be
considered a public use for purposes of eminent domain.

c) The Grantee or unit of general local government that directly or
indirectly receives CDBG funds may not sell, trade, or otherwise
transfer all or any such portion of such funds to another such entity in
exchange for any other funds, credits or non-Federal considerations, but
must use such funds for activities eligible under title I of the Act.

(f) E.O. 12372-Special Contract Condition - Notwithstanding any other
provision of this agreement, no funds provided under this agreement
may be obligated or expended for the planning or construction of water
or sewer facilities until receipt of written notification from HUD of the
release of funds on completion of the review procedures required under
Executive Order (E.O.) 12372, Intergovernmental Review of Federal
Programs, and HUD's implementing regulations at 24 CFR Part 52. The
recipient shall also complete the review procedures required under E.O.
12372 and 24 CFR Part 52 and receive written notification from HUD of
the release of funds before obligating or expending any funds provided
under this agreement for any new or revised activity for the planning or
construction of water or sewer facilities not previously reviewed under
E.O. 12372 and implementing regulations.

(g) CDBG funds may not be provided to a for-profit entity pursuant to
section 105(a)(17) of the Act unless such activity or project has been
evaluated and selected in accordance with Appendix A to 24 CFR 570 -
“Guidelines and Objectives for Evaluating Project Costs and Financial
Requirements,” (Source - P.L. 113-235, Consolidated and Further
Continuing Appropriations Act, 2015, Division K, Title II, Community
