WALGREENS COMMUNITY OFF-SITE CLINIC AGREEMENT
TERMS AND CONDITIONS

I. WALGREENS' RESPONSIBILITIES

1.1 Covered Services. Subject to the limitations or restrictions imposed by federal and state contracts, laws, and regulations, and the availability of the appropriate Immunization, Walgreens will provide the Covered Services to Participants. With respect to such Covered Services, the Parties will comply with the procedures set forth herein. When required by state law, Walgreens will require Participants to provide a valid prescription from their physician or allow the health care professional to contact their physician to obtain a valid prescription; however, for influenza Immunizations, Walgreens will be responsible for obtaining standing orders from physicians. Participants will be required to complete a Walgreens’ vaccine administration record and consent form before receiving an Immunization.

1.2 Professional Judgment. Walgreens may withhold Covered Services to a Participant for good cause, including but not necessarily limited to, Client's or Participant's (where applicable) failure to pay for Covered Services rendered; requests by Participant for services inconsistent with the legal and regulatory requirements; or where, in the professional judgment of the health care professional, the services should not be rendered.

1.3 Provision of Healthcare Professional. If the Parties agree in writing that Walgreens will provide Covered Services at off-site locations, Walgreens will provide Client with the appropriate number of qualified health care professionals and technicians to provide Covered Services at such off-site locations. Any requests for additional personnel will be subject to mutual agreement by the Parties and may require additional agreed-upon fees to be paid by Client to Walgreens in accordance with this Agreement.

II. CLIENT’S RESPONSIBILITIES

2.1 Vouchers. If the Parties agree in writing that Walgreens will provide Covered Services upon receipt of a voucher, Client will provide Participants with a voucher (in a format agreeable to both Parties) from which Participants may redeem at a participating Walgreens store location. Once the voucher is approved by both Parties it may not be modified. Client may not rescind, retract, reduce or deny payment owed to Walgreens for claims where Covered Services have been provided to its Participants, even if Client no longer considers the individual redeeming the voucher to be a Participant.

2.2 Off-Site Locations. If the Parties agree in writing that Walgreens will provide Covered Services at off-site locations, Client will provide Participants with notice of the dates, times and locations for such off-site locations and provide a private, clean room location, tables and chairs for Walgreens’ personnel and Participants. Additionally, Client guarantees that an average minimum of 25 Immunizations will be administered to Participants at each of Client’s off-site locations per influenza season (August – April) (“Site Minimum”). If Walgreens determines that the Site Minimum is not achieved for the influenza season (determined by taking the total number of Immunizations administered at all off-site locations divided by the number of off-site locations in such influenza season (“Site Average”)), at Walgreens’ discretion, it will invoice Client for the difference between the Site Minimum and Site Average multiplied by the number of off-site events. The sum of which will be multiplied by the lowest reimbursement rate set forth in table in Attachment A and Client shall pay such amount within 30 days of being invoiced by Walgreens.

III. PAYMENT AND BILLING

3.1 Payment. For Covered Services where: (i) Participant provides evidence of coverage under third-party insurance or a government funded program (e.g., Medicare) prior to the provision of Covered Services; (ii) and Walgreens is contracted such third-party insurance or government funded program, Walgreens will submit the claim for that Participant and any copayment, coinsurance, deductible owed by the Participant will be collected at the time of service or billed at a later date. If such evidence is not provided at the time
of service, Walgreens will either, as agreed to by the Parties, collect from the Participant or invoice the Client monthly at the lesser of the prices stated herein or the Usual and Customary Charge. If a claim for reimbursement is later denied, the Parties agree that Walgreens can seek reimbursement from the Participant. As used in this Agreement, "Usual and Customary Charge" shall refer to the amount charged to a cash customer for an immunization by the administering pharmacy at the time of administration, exclusive of: (i) sales tax; (ii) discounts claimed; and (iii) discounts provided for prescription drug savings card or other similar discounts. Client will reimburse Walgreens within 30 days from receipt of the monthly invoice and must be sent to the remittance address stated on the invoice. The invoice will contain the following data elements, and no further information will be provided: Group ID, store number, prescription number, patient name, recipient number, physician name, cost, service fee, copayment amount, sales tax, total charge, date of service, and drug name/NDC. At the time of payment, Client will provide Walgreens with a written explanation of the specific claims for which payment is made.

3.2 Late Payment. All sums owed by Client to Walgreens will bear interest of 1.5% per month from the date payment is due until paid; however, in no event will such interest rate be greater than the rate permitted by law. Client shall be solely responsible for any and all costs incurred by Walgreens in seeking collection of any delinquent amounts owed by Client. Walgreens may invoke Section on a monthly basis and payment will be due within 30 days from receipt.

IV. TERM AND TERMINATION

4.1 Term and Termination. This Agreement will become effective on the Effective Date and shall continue in full force and effect for an initial term of one year. Upon expiration of the initial term, this Agreement will automatically renew for successive one-year terms. Either Party may terminate this Agreement at any time without cause by giving at least thirty (30) days’ prior written notice to the other Party.

4.2 Effect of Termination. Termination will have no effect upon the rights or obligations of the Parties arising out of any transactions occurring prior to the effective date of such termination.

4.3 Waiver. No waiver by either Party with respect to any breach or default of any right or remedy and no course of dealing may be deemed to constitute a continuous waiver of any other breach or default or of any other right or remedy unless such waiver is expressed in writing by the Party to be bound.

V. INSURANCE AND INDEMNIFICATION

5.1 Insurance. Each Party will self-insure or maintain at its sole expense, and in amounts consistent with industry standards, such insurance as may be necessary to insure each respective Party, its employees, and agents against any claim or claims for damages arising out of or in connection with its duties and obligations under this Agreement. Walgreens will automatically name Client as Additional Insured under its applicable insurance policy(ies). Evidence of such insurance can be downloaded from Walgreens' website. Client will provide a memorandum or certificate of insurance coverage to Walgreens upon request.

5.2 Indemnification. To the extent permitted by law, each Party will indemnify, defend, and hold harmless the other Party, including its employees and agents, from and against any and all third-party claims or liabilities arising from the negligence or wrongful act of the indemnifying Party, its employees, or agents in carrying out its duties and obligations under the terms of this Agreement. This Section will survive the termination of this Agreement.

VI. GENERAL TERMS

6.1 Confidentiality of PHI. Both Parties warrant that they will maintain and protect the confidentiality of all individually identifiable health information specifically relating to Participants ("Protected Health Information" or "PHI") in accordance with the Health Insurance Portability and Accountability Act of 1996 and all applicable federal and state laws and regulations. However, nothing herein will limit either Party’s
use of any aggregated Participant information that does not contain PHI. This Section will survive the termination of this Agreement.

6.2 Advertising. Neither Party may advertise or use any trademarks, service marks, or symbols of the other Party without first receiving the written consent of the Party owning the mark and/or symbol with the following exceptions: Client may use the name and the addresses of Walgreens' locations in materials to inform Participants that Walgreens provides Covered Services. Any other reference to Walgreens in any Client materials must be pre-approved, in writing, by Walgreens.

6.3 Force Majeure. The performance by either Party hereunder will be excused to the extent of circumstances beyond such Party's reasonable control, such as flood, tornado, earthquake, or other natural disaster, epidemic, war, material destruction of facilities, fire, acts of terrorism, acts of God, etc. In such event, the Parties will use their best efforts to resume performance as soon as reasonably possible under the circumstances.

6.4 Compliance. The Parties will comply with all applicable laws, rules, and regulations for each jurisdiction in which Covered Services are provided under this Agreement. Each Party will cooperate with reasonable requests by the other Party for information that is needed for its compliance with applicable laws, rules, and/or regulations.

6.5 Assignment. Neither Party may assign this Agreement to a third-party without the prior written consent of the other Party, except that either Party will have the right to assign this Agreement to any direct or indirect parent, subsidiary or affiliated company or to a successor company without such consent. Any permitted assignee will assume all obligations of its assignor under this Agreement. No assignment will relieve any Party of responsibility for the performance of any obligations which have already occurred. This Agreement will inure to the benefit of and be binding upon each Party, its respective successors and permitted assignees.

6.6 Notices. All notices provided for herein must be in writing, sent by U.S. certified mail, return receipt requested, postage prepaid, or by overnight delivery service providing proof of receipt to the address set forth following the signature blocks. Notices will be deemed delivered upon receipt or upon refusal to accept delivery.

6.7 Entire Agreement. This Agreement, which includes any and all attachments, exhibits, riders, and other documents referenced herein, constitutes the entire and full agreement between the Parties relating to the subject matter herein and supersedes any previous contract, for which the signatories are authorized to sign for, and no changes, amendments, or alterations will be effective unless reduced to a writing signed by a representative of each Party. Any prior agreements, documents, understandings, or representations relating to the subject matter of this Agreement not expressly set forth herein or referred to or incorporated herein by reference are of no force or effect.

6.8 Counterparts. This Agreement may be executed in two or more counterparts, each of which together shall be deemed an original, but all of which together shall constitute one and the same instrument, provided that each Party has received the other Party's executed instruments. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a "*.pdf" format data file (or similar format however designated), such signature shall create a valid and binding obligation of the Party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or "*.pdf" signature page were an original thereof.

II. INTRODUCTION AND EXECUTIVE SUMMARY

In New Jersey, local health departments are the boots on the ground for public health services. Through the statutory authority granted to municipalities, local boards of health are responsible for providing essential services in areas such as emergency response and disaster resiliency, communicable disease investigation and outbreak response, environmental and sanitation inspections, chronic disease prevention and health promotion. There are currently 94 LHDs in New Jersey, serving diverse populations and ensuring swift and comprehensive public health response to the numerous communicable diseases that threaten the health and safety of the State’s nearly nine (9) million residents. These LHDs have varied infrastructures, where some agencies may provide services to an entire county, some to a single city or municipality, and some to a group of municipalities. When the statutorily-required, formula-based Public Health Priority Funding was discontinued in 2011, many LHDs were forced to reduce their workforce and curtail services available to residents.

This competitive grant opportunity will allow 21 LHDs to strengthen their communicable disease preparedness and response capacity through enhancing an existing program or developing an innovative initiative to address a communicable disease-related need (i.e., infrastructure, investigation, outreach) as defined by the applicant LHD. Successful awardees will demonstrate organizational capacity and readiness; define a communicable disease-related need and proposed program; demonstrate collaborative efforts in their jurisdiction; list evaluation metrics; and describe how they will sustain efforts beyond this funding cycle.

III. GOAL

NJDOH will provide funding to local health departments to strengthen local public health capacity in any area of communicable disease outbreak preparedness and response. There are two programs by which NJDOH will provide funding: Strengthening Local Public Health Capacity Program – Operations Grants (to be awarded through this RFA) and Strengthening Local Public Health Capacity Program – Training Scholarships (to be awarded and distributed by the New Jersey Association for County and City Health Officials). The Strengthening Local Public Health Capacity Program – Operations Grants will provide grants to a maximum of 21 local health departments to enhance an existing program or implement an innovative initiative in any area of communicable disease outbreak preparedness and response. For local health departments that do not qualify, apply or receive an operational grant, the Strengthening Local Public Health Capacity Program – Training Scholarships will provide training scholarships to a maximum of 73 local health departments to support workforce development in any area related to communicable disease outbreak preparedness and response. These combined programs were designed to provide statewide coverage by ensuring all 94 local health departments in New Jersey have an opportunity to apply for funding, if interested.
IV. ELIGIBILITY

This is a competitive grant for State Fiscal Year 2020. There is a maximum of 21 awards available. If less than 21 applications are received, or if a LHD does not submit an application following the eligibility criteria and directions in this RFA, less than 21 awards will be issued.

Eligible applicants include LHDs in New Jersey that serve a population of at least 25,000 residents OR provide communicable disease-related services to a LHD that serves a population of at least 25,000 residents AND demonstrate compliance with N.J.A.C. 8:52-3.3 and N.J.A.C. 8:52-4.1 (a). Note: LHDs with fewer than 25,000 residents are encouraged to collaborate with neighboring LHDs.

Eligible LHDs that would like to submit an application for this competitive funding opportunity must send a Letter of Intent (LOI) to OLPH at Public.Health@doh.nj.gov by 5:00 PM (EST) on Friday, September 13, 2019. If a LOI is not received, a LHD will not be permitted to apply for this funding opportunity.

V. FUNDING

This funding opportunity is intended to strengthen local public health capacity in any area of communicable disease outbreak preparedness and response by enhancing an existing program or implementing an innovative initiative.

OLPH will award a maximum of 21 grants, for up to $95,000 per award,* for LHDs to strengthen LHD capacity in any area of communicable disease preparedness and response by enhancing an existing program or implementing an innovative initiative. *The amount per award may vary based on the number of applications received and the total score per application. The maximum amount reserved for awards is $1,995,000.

If a LHD will be providing communicable disease-related services outside of its jurisdiction, the LOI must also specify the name(s) and jurisdiction(s) that will be covered outside of its jurisdiction. Although submitting a LOI does not obligate a LHD to complete an application for this funding opportunity, an application will only be accepted if a LOI is submitted.

LHDs may submit questions about the RFA within the LOI. Questions will not be accepted in any other format, such as via email or by phone, or at any other time. All LHDs that submitted a LOI will receive written responses to these questions in a Q&A format by 5:00 PM (EST) on Friday, September 20, 2019.

VII. HOW TO ACCESS AN APPLICATION

NJDOH requires all grant applications to be submitted electronically through SAGE at www.sage.gov. If your agency does not have an existing account in SAGE, an account will need to be created to apply for this grant.

If you are a first time NJDOH applicant whose organization has never registered in the NJDOH SAGE system, you must contact the SAGE System Administrator, Cynthia Satchell-Gore at Cynthia.Satchell-Gore@doh.nj.gov or at (609) 633-8009. A new agency form must be completed and submitted to NJDOH. The submitted documents will be reviewed to ensure that applicants have satisfied all applicable requirements. When approved, the organization’s status will be activated in SAGE. The SAGE System Administrator will inform the organization’s Authorized Official via email or by phone of their authorized access to the grant application in SAGE. Organizations will not have access to any application in SAGE until all documents are received and all procedures are satisfied.

Paper submission of the application or any attachments will not be accepted. SAGE will automatically reject applications after the closing date and time listed in the RFA. No extensions will be granted.

Log into SAGE (www.sage.nj.gov) and search for the “Strengthening Local Public Health Capacity Program 2020” application and complete as directed.

SECTION 2 - PROJECT BUDGET (Section Value = 10 points):

The applicant LHD must complete both Schedule A (salary-related costs) and Schedule B (all other costs) in SAGE.

Funding restrictions:

- NJDOH must review and approve all consultant service agreements before contracts are executed. All consultants used for the sole purpose of auditing compliance with the grant/or expenditures funded by the grant are exempt from this restriction.
- Awardees may not make purchases until NJDOH approval is granted.
- Reimbursement of pre-award staff salaries is not permitted.

Funding exclusions:

- Awardees may not use funds to purchase clothing.
- Awardees may not use funds for construction or major renovations.
- Awardees cannot use funds to purchase or lease vehicles.

Recipient use / financial participation:
Applicants must demonstrate sufficient organizational and policy commitment to support personnel, services, activities and allowable purchases/expenses through this grant.

Indirect Cost Rates:
Applicant may apply for indirect costs. If indirect costs are requested, a current Indirect cost Health & Human Services (HHS) agreement must be uploaded in SAGE under the Cost Summary page. Indirect costs are capped at 10%.

If a current indirect cost agreement does not exist, applicants may request a flat de minimis rate of 10% of Modified Total Direct Costs (MTDC). MTDC comprises all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first $25,000 of each subaward (regardless of the period of performance of the subawards under the award).
MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs, and the portion of each subaward in excess of $25,000. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs. (2 C.F.R. §200.68)

If certain costs are excluded from the indirect cost agreement (i.e. facility, equipment, etc.), applicant may request those as direct costs, provided that these costs can be directly associated to the grant award and its related activities.

Official Resolution#: R20190881
Eligible Applicants: The following entities are eligible to apply for funding through this program

- Municipalities
- Counties
- Health care organizations
- K-12 public schools
- School districts
- Institutions of higher education
- Non-profit 501(c)(3) organizations

Please note: Applicants must identify two partners, with an optional third, that will play a specific, active role in the project. Partners can be from any sector necessary to help the project succeed—local business, municipal departments, the parent-teachers' association, a county Freeholder, advocacy groups, faith-based organizations, and others.

Overview: Through its 2020-2021 Grants Program, the NJHCN is providing funding support to organizations to implement changes to policy, systems, and the built environment to promote healthy eating and active living and help prevent obesity and chronic disease. The program aims to increase access to healthy foods and beverages and promote opportunities for daily physical activity for all New Jersey residents through policy, systems, and environmental changes. Funds are to be used to support direct expenses essential to the implementation of selected strategies. A breakdown of the four main funding categories is below:

- Healthy Eating (HE)
  - Conduct a healthy eating audit and build a plan and partnership to increase access to healthy foods (year one audit followed by year two implementation);
  - Expand access to affordable produce through fruit and vegetable incentive programs;
  - Increase the number of convenient outlets for affordable produce through farmers' markets, farm stands and/or mobile markets; and
  - Increase participation in federal child nutrition programs among low-income children, including school breakfast (in particular, Breakfast after the Bell), summer food (SFSP) and/or after-school meals.
- Active Living (AL)
  - Conduct an active living audit and build a plan and partnership to increase opportunities for physical activity (year one audit followed by year two implementation);
  - Enhancing access to places for physical activity; and
  - Design streets to encourage walking, biking and rolling (“Complete Streets”).
- Social Determinants of Health
  - NJHCN has not pre-selected strategies for social determinants of health. Applicants must identify an evidence-based strategy through research, as well as the policy, systems or environmental change needed.
- Strategies by Setting (early care and education centers, K-12 schools, worksites, etc.)
  - Early care and education
    - HE: Improve access to healthy foods through changes in organizational policy, menu planning, food procurement, and/or staff training; and
    - AL: Improve access to physical activity through changes in organizational policy, increased time for physical activity, changes to play environment or equipment, and/or staff training.
  - K-12 Schools
    - HE: Increase participation in federal child nutrition programs, including school breakfast (especially Breakfast after the Bell), summer food (SFSP) and/or after-school meals.
    - HE: School gardens
    - AL: Support physical activity outside of physical education
    - AL: Walking and Biking to School
NIHCN has not pre-selected strategies for worksite but does include general guidelines for strategies implemented. Grantees are required to convene a worksite wellness committee to guide the project that must include both employers and employees. Grantees are required to address both access to healthy foods and opportunities for physical activity during the workday.

Please note that municipal and county-level applicants must pursue both an HE and AL strategy in their application, or apply under the Social Determinants of Health or one of the Strategies by Setting categories listed above.

Please note priority consideration will be given to programs targeting service to the following populations:

- Low-income communities (i.e., in a census tract where 50 percent or more of residents are at 185 percent of the federal poverty line or below);
- Schools where 50 percent or more of the students are eligible to receive free or reduced-price meals;
- Sites/Sponsors participating in the Summer Food Service Program;
- Food pantries;
- Federally qualified health centers (FQHCs) and/or their satellites;
- Early childhood education centers serving low-income children (e.g., a Head Start or Early Head Start center, a center where 50 percent or more of the students are receiving child care subsidies, or a center where 50 percent or more of the students are receiving Medicaid);
- Affordable housing developments; and
- Organizations working to create inclusive communities for individuals with physical disabilities.

Past Recipients: The following entities have previously received funding through this program

- Manasquan Public School District (Manasquan, NJ): Improve access to healthy foods and opportunities to be physically active in workplaces.
- EZ RiDE (Long Branch, NJ): Healthy eating healthy menu initiatives at restaurants.
- Community Food Bank Of New Jersey (CFBNJ) (Woodbine, NJ): Comprehensive school wellness policies with clear implementation plans (led by school wellness committee)

Official Resolution #: R20190882
September 5, 2019

Dear Health Officer:

The New Jersey Department of Health is pleased to announce that funds are available from the Hepatitis Inoculation Fund for the reimbursement of costs of hepatitis B inoculations for certain emergency medical technicians, firefighters and police officers. The funds are a continuation of monies already distributed for this purpose between 1996 and 2018 in accordance with N.J.A.C. 8:57B.

Each municipality may receive up to $5,000 in reimbursement for the cost of protecting its emergency medical technicians, firefighters and police officers against hepatitis B. Payments of funds to municipalities will be based on the collection of state forfeiture recoveries from confiscated property that had been involved in illegal activity. Under the adopted rules, first preference will be given to municipalities with volunteer EMTs and volunteer firefighters. Second priority will be given to municipalities with a combined total of fewer than 100 EMTs, firefighters and police officers. Finally, municipalities with more than 100 emergency services workers will receive funding.

To ensure equal access to the available money, the Department may assign applicants a number and hold a lottery to determine in what order municipalities receive funding. All first priority municipalities will receive money before second and third priority municipalities can be reimbursed. If funds are depleted at any point, distributions will stop until more money is available. Reimbursements will then continue in the order established by the lottery. Reimbursements cannot be made if the individual has already been reimbursed under this program. Additionally, a municipality shall not claim expense reimbursement for a covered individual whose medical insurance pays for the full cost of the hepatitis inoculation, but may claim expense reimbursement for any portion of the cost disallowed by such medical insurance.

Each interested applicant municipality shall appoint a liaison who will be responsible for preparing and submitting an application to the Division of Epidemiology, Environmental and Occupational Health on behalf of all emergency services personnel within its jurisdiction. Applications received by the Division directly from individual first aid and rescue squads, fire companies, departments and districts, and police departments or their members and/or staff shall be disallowed. The actual reimbursable costs allowed, not to exceed $5,000 per municipality, will be based on the cost of the hepatitis B vaccine and the fees of professional medical services for administration of the vaccine.
If your municipality is interested in applying for the reimbursable costs for hepatitis B vaccinations, the following will be required in a letter format:

1) The name of the municipality, along with address, contact person and phone number on municipal stationery.

2) The total amount expended for the inoculations in each of the individuals specified below (Number #3).

3) The total composition of the municipality's emergency services personnel including:
   a. Number of volunteer emergency medical technicians - ambulance.
   b. Number of volunteer firefighters.
   c. Number of paid EMTs - ambulance.
   d. Number of paid firefighters.
   e. Number of police officers.

4) The total amount sought for reimbursement including actual costs incurred for inoculations of each individual specified in number 3, and the cost of fees for professional medical services for administration of the vaccine.

5) A statement certifying that the reimbursement applied for represents actual costs incurred and that such costs are not eligible for coverage and have not been covered through any other source, nor has the cost for each individual been reimbursed by these funds in the past.

Please send your application to:

WHEREAS pursuant to Resolution R-2017-1003 dated December 12, 2017 the Board of Chosen Freeholders of the County of Passaic passed a Resolution authorizing an award of contract to Big Belly Solar, Inc., of Needham, MA, for big belly solar compactors related software and accessories or equivalent for the Passaic County Solid Waste and Recycling Program; and

WHEREAS the Freeholder Board is desirous of passing a resolution for expenditure of funds for Big Belly Solar, Inc., for an upgrade to the 4G system for all units, for the maintenance of several units and for the replacement of several batteries, in the amount of $19,005.00; and

WHEREAS the proposed contract is one for goods or services for the support and maintenance of the proprietary items and is therefore exempt from public bidding pursuant to the Local Public Contracts Law, specifically N.J.S.A. 40A:11-5(l)(dd); and

WHEREAS the Board, by Resolution 06-97 dated February 14, 2006, established a policy of only awarding contract for exempt services in excess of the monetary threshold set forth under the Pay to Play Law only under a fair and open process; and

WHEREAS the Board is desirous of making an exemption to that policy because of the unique circumstances of this case; and
WHEREAS the Local Public Contracts Law, N.J.S.A. 40A:11-1 et seq., requires that the resolution authorizing the award of contract for exempt services and the contract itself must be available for public inspection; and

WHEREAS the Freeholder Health Committee reviewed this matter at its October 2, 2019 meeting, and recommends that this agreement be awarded as an exempt service with the understanding that the recipient has not made or will make political contributions as set forth under the Campaign Contribution Expenditure Recording Act (NJSA19:44A-1) and

WHEREAS a certification is attached hereto indicating that funds are available for the within contemplated expenditure;

NOW THEREFORE BE IT RESOLVED that the Board of Chosen Freeholders of the County of Passaic authorizes a non fair and open contract with Big Belly Solar, Inc., for an upgrade to the 4G system for all units, for the maintenance of several units, and for the replacement of several batteries, in the amount of $19,005.00; and

BE IT FURTHER RESOLVED that this contract is being awarded as an exemption to the policy of the Board as set forth in its resolution R-06-97 dated February 14, 2006 because of the special circumstances of this situation and the policy of the Board as set forth in this resolution shall remain in full force and effect; and
BE IT FURTHER RESOLVED that the Director and Clerk are hereby authorized to execute any necessary agreement to effectuate the above; and

BE IT FURTHER RESOLVED that this contract is awarded without competitive bidding as one for goods or services for the maintenance of proprietary items, in accordance with the Local Public Contract Law, specifically NJSA:40A:11-5(1)(dd); and

- Document and provide your agencies local match. In your initial Section 5310 application, you identified County funds as your source of local match for Operating and/or Mobility Management.
- Prior to your purchase NJ TRANSIT staff is required to review and approve all third party specifications whether for operations, planning, equipment or software to ensure all purchases follow FTA procurement procedures. This is a reimbursement program; we will not reimburse Section 5310 expenditures that are not compliant with FTA procurement requirements. (No local match requirement for equipment purchases.)

While we congratulate you on the above award(s), please note that we are unable to approve all requests. The selection of your application represents a continued expression of the Governor's support for programs that enhance mobility of senior citizens and people with disabilities. Since the Section 5310 Program began in 1973, more than 1,650 vehicles have been purchased and delivered to eligible private non-profit organizations, county and municipalities across New Jersey.

If you have any questions about the review and evaluation of your application, please call 973-491-8767 and you will be redirected to your assigned regional administrator. Again, congratulations and thank you for your continued participation in community transportation.

For information requested below, you can submit responses on a separate sheet.

1. Provide a description of the stigma-free efforts, planned or already in place, in the target municipality:

   The objective of Paterson Stigma-Free Day is to present informative workshops, outreach efforts, and initiatives to bring awareness about the feelings of shame, embarrassment, distress, and hopelessness that may be experienced when individuals with mental illness or addiction consider seeking professional help. Additionally, we want to encourage the community at large to break down barriers and to engage in the care of others by being mindful of what they say and do to those that may be suffering.

2. Provide a summary of stigma-free activities to be conducted:

   Paterson Stigma-Free Day is an event planned to provide practical resources to the community pursuant to its mission to serve families, caregivers and those affected by mental illness issues and addiction. We plan to offer workshops on grief, recovery, and understanding money and its relationship to mental health. The event concludes with an Oktoberfest for the whole family. The theme for our 2019 Paterson-Stigma-Free Day is "Family & Mental Health Matter". We want to be an encouragement to the many individuals and families that face the challenges of coping with mental illness and addiction.

1. Provide a description of the stigma-free efforts, planned or already in place, in the target municipality:
   a. Clifton has established a Stigma-free Taskforce to advance the Stigma-free initiative of building strong self-worth and speaking up about mental illness.
   b. Mental Health First Aid classes were hosted for local first responders, health professionals and community members.
   c. The Municipal Alliance (CASA) participates in the Stigma-free taskforce
2. Provide a summary of stigma-free activities to be conducted  
   a. The message we expect to convey with Mallory's Army presentation is to build strong self-worth in each student as well as remind parents the importance of teaching their children about speaking up about mental illness and incidents that may lead to depression and suicide.
3. Describe other funding sources to support this initiative: Local fundraising
4. Describe what the funding will be used for (attach budget): The funding will assist with paying for the program while additional funding will be raised through fundraising efforts.
   a. The program costs $1200, which includes wrist bands.
   b. There is an additional parent program for $500 as well
5. Brief Program Summary:
   Assembly & Community Event Program Information
   Due to the sensitive nature of our story, we feel it is ideal for 4th graders through High School, parents and school administrators.
   Presented by: Dianne Grossman, Mallory's Mother, the 1-hour assembly covers
   • A presentation explaining intention for good, gone bad
   • A message for teachers
   • Mallory's life at school and how being excluded & bullied hurt her
   • Mallory's mantra of living a bracelet KIND of life and what that means
   • Each student receives the effective blue band EMPOWERING the children to be the 'up standers.'
   By bringing a program such as this to the community, children and parents will have the opportunity to learn about the effects of building a strong self-esteem, teaching coping skills and most importantly, asking for help for anxiety, fear and depression.
Additional information A:

Many thanks for the opportunity to provide this additional information.

In speaking with Mallory's Mom we covered the fact that bullying comes in many forms with a wide variety of causes, reactions and solutions.

We're finding that children today are in crisis without the coping skills necessary to recognize solutions on their own which can lead to the misuse of alcohol, legal and illegal drugs.

The more time they spend on social media, the more likelihood that anxiety will heighten, which can lead to fear and frustration followed by self-medication and/or self-harm.

The program helps adults understand their place in educating their children in the proper use of social media. She covers how to recognize that stigma can prevent children and young adults from showing behavioral signs of their struggles leading them to turn to the misuse of substances and the possibility of self-harm in their own quest to cope.

The audience is given activities to reduce stigma and help in changing the behavior of the bullied 'receiver' so that they may better cope with the anxiety and avoid substance misuse.

In speaking with our Alliance Chairperson, Tom Whittles, there is good community support that would assist with funding for the additional program cost should we be a recipient of this grant.
Additional Information B:

1. CASA works very closely with the schools. Our president has recently met with the NEW Superintendent to discuss CASA programs. He was clear and adamant in his support of our collaboration. The two middle schools have over 2000 students.

2. Stigma-free information will be shared at the event before and after the presentation. This will give the opportunity to increase the reach of the Taskforce and solidify a working relationship between the 2 teams. CASA can support the Stigma-free taskforce by preparing literature to distribute at the event. Through GCACA / CASA Community Awareness funding we can work with the Taskforce to share the Stigma-free message.

3. Successful events have had over 100 attendees. This will be an excellent opportunity to share the Stigma-free message and how we must remove stigma in order to prevent substance abuse. Children need to learn how their value comes from within themselves. The objective is to raise self-esteem and alleviate the effects of peer pressure.

4. The assembly costs $1200.00. The vendor expects to Grant the additional $200.

What does the budget for the 1-hour assembly cover?
- A presentation explaining intention for good, gone bad
- A message for teachers/parents
- Mallory's life at school and how being excluded & bullied hurt her
- Mallory's mantra of living a bracelet KIND of life and what that means
- Each student receives the effective blue band
  EMPOWERING the children to be the up standers
- Q & A session for Dianne Grossman, Mallory's mom, to answer questions from the audience.

Official Resolution#: R20190892
Preliminary Proposal for the provision of Trauma Informed Care services to the Passaic County mental health and juvenile justice systems.

Agency Experience:

The Jewish Family Service & Children’s Center of Clifton/Passaic (JFS) has a long history of providing trauma informed care to the clients from Passaic County. In 2012 some of the agency services were consolidated and enhanced under the Sandy Rappaport Trauma Center for Children and Families, with the stated mission of “providing trauma informed care with a range of evidence informed services and interventions that address trauma related difficulties provided by knowledgeable, skilled and culturally respectful staff. Services are confidential. Most insurances accepted. No one is turned away because of inability to pay.”

Under the umbrella of the Rappaport Center, JFS provides P.A.L.S. (Peace, A Learned Solution) an intensive treatment program for children between the ages of 2 and 12 who have witnessed domestic violence. The program is a collaboration with the Passaic County Women’s Center and is fully funded by DCP&P. The staff is all trauma trained and with bilingual capacity. The treatment modalities in this program include family based trauma care, play therapy designed to increase parent child attachment, and art and movement therapies designed to increase the children’s ability to master overwhelming emotions. Intensive case management is a key element of the program. We recognize that it is critical to healing that basic human needs are met.

JFS has also offered a domestic violence and sexual abuse program called Project S.A.R.A.H. for the last twenty years that has included trauma informed treatment for victims based on empowerment, relationship development with the treating therapists, affect and behavioral regulation techniques based on the principles of Dialectical Behavior Therapy, and peer support. Conscious efforts to insure client safety and anonymity are essential elements, as are case management and vocational support services. A great deal of community education and child sexual abuse prevention programming is built into the program. Agency has demonstrated ability to do community education and large and small group skills building activities.

The JFS clinical team is comprised of licensed social workers and professional counselors. An advanced practice psychiatric NP and Geriatric psychiatrist are on staff to provide medication evaluations and follow up. In addition, the agency is a training site for many local masters programs including Montclair University, Rutgers, Columbia, Wurzweiler, and Touro. The agency is actively engaged in staff development and teaching new clinicians the tools required to provide trauma informed care to any client coming into the agency.

JFS has several funders who continue to believe in and sustain our vision of supporting and strengthening family life by ensuring access to high-quality, affordable mental health services; helping individuals reach their full potential; educating the community; and providing a safety net for persons at risk.

Funding Sources

Our top funding sources come from both government and private funders:
Government Funders (top 3)

- Victims Assistance Grant 2nd year continuation (through August 30, 2019)-$300,000.00
- Division of Women/Domestic Violence Funding- $150,000.00
- FVPSA Funding through Division on Women - $100,000.00

Foundations

- Conference on Material Claims Against Germany $350,000
- Horizon $50,000

Need:

Current research on Adverse Childhood Experiences (ACES) spoke compellingly to our agency staff. The evidence that 4 or more ACES were highly predictive of long terms physical, social and mental health challenges matched our agency experience with the clients in our care. This tool could potentially prove to be a resource in developing and expanding the potential impact of our trauma informed work.

The Adverse Childhood Experiences (ACE) Study is a longitudinal study conducted in 1995 that explores the long-lasting impact of childhood trauma into adulthood. The ACE Study included over 17,000 participants ranging in age from 19 to 90. Their conclusion was that traumatic experiences in childhood have been linked to increased medical conditions throughout the individuals' lives. Researchers gathered medical histories over time while also collecting data on the subjects’ childhood exposure to abuse, violence, and impaired caregivers. Results indicated that nearly 64% of participants experienced at least one exposure, and of those, 69% reported two or more incidents of childhood trauma. Results demonstrated the connection between childhood trauma exposure, high-risk behaviors (e.g., smoking, unprotected sex), chronic illness such as heart disease and cancer, and early death.

A basic analysis of the demographics of Passaic County indicates a high probability that many members of the community have experienced high numbers of ACES. Poverty, child abuse, and incarceration statistics published in the latest KIDS Count for Passaic County are as follows:

- In 2016, 28 percent of Passaic County’s roughly 123,000 children lived in poverty.
- The unemployment rate, at 5.7 percent, was higher than the state’s rate of 4.6 percent.
- Rental costs proved to be a burden to many Passaic County households with 53 percent spending 30 percent or more of their income on rent.
- The percentage of teens not in school and not working, (sometimes referred to as idle or disconnected youth), was 8 percent, exceeding the state’s average of 6 percent.
- Substantiated or established cases of child abuse and neglect rate is 8.1%
- Juvenile Arrest Rate (Per 1,000 Children under 18) 14.7.
- Hispanic women are at the highest risk for living in poverty with 17% of the total Passaic County population at or below the national poverty line.

Without completing a formal ACES study, these numbers alone suggest multiple risk factors for Adverse Childhood Experiences are prevalent within the County.
"If you have never felt safe or remember safety, how will you know when it is present?"

The National Child Traumatic Stress Network describes the elements of trauma informed systems:

A trauma-informed child and family service system is one in which all parties involved recognize and respond to the impact of traumatic stress on those who have contact with the system including children, caregivers, and service providers. Programs and agencies within such a system infuse and sustain trauma awareness, knowledge, and skills into their organizational cultures, practices, and policies. They act in collaboration with all those who are involved with the child, using the best available science, to maximize physical and psychological safety, facilitate the recovery of the child and family, and support their ability to thrive.

A service system with a trauma-informed perspective is one in which agencies, programs, and service providers:

** Routinely screen for trauma exposure and related symptoms. **

We propose introducing routine use of ACE’s questionnaire as a key element in developing trauma informed systems of care in Passaic County.

1. Use evidence-based, culturally responsive assessment and treatment for traumatic stress and associated mental health symptoms.
2. Make resources available to children, families, and providers on trauma exposure, its impact, and treatment.
3. Engage in efforts to strengthen the resilience and protective factors of children and families impacted by and vulnerable to trauma.
4. Address parent and caregiver trauma and its impact on the family system.
5. Emphasize continuity of care and collaboration across child-service systems.
6. Maintain an environment of care for staff that addresses, minimizes, and treats secondary traumatic stress, and that increases staff wellness.

These activities are rooted in an understanding that trauma-informed agencies, programs, and service providers:

1. Build meaningful partnerships that create mutuality among children, families, caregivers, and professionals at an individual and organizational level.
2. Address the intersections of trauma with culture, history, race, gender, location, and language, acknowledge the compounding impact of structural inequity, and are responsive to the unique needs of diverse communities.

A key ingredient in the early stage of trauma informed care is to establish, confirm, or reestablish a support system, including culturally appropriate activities, as soon as possible. Social supports and relationships can be protective factors against traumatic stress. However, trauma typically affects relationships significantly, regardless of whether the trauma is interpersonal or is of some other type. Relationships require emotional exchanges, which means that others who have close relationships or friendships with the individual who survived
the trauma(s) are often affected as well—either through secondary traumatization or by directly experiencing the survivor's traumatic stress reactions.

"In the context of everyday medical practice, we came to recognize that the earliest years of infancy and childhood are not lost but, like a child's footprints in wet cement, are often life-long," Felitti and Robert Anda, (epidemiologist and ACE Study co-author.)

Frequent or prolonged activation of the stress-response systems in young children, in the absence of a supportive adult who can help them cope, can have particularly severe consequences, researchers say. A group of researchers based at Harvard's Center on the Developing Child dubbed this "toxic stress," and warn that it has the potential to affect parts of the brain involved in learning, memory and perceiving threats, and to set children's stress-response systems to become overly reactive or under-responsive to threats.

When a child has too many experiences with danger or unpredictable threats, "It's almost like their brain decides, 'Well, this is a dangerous world, I'm going to stay on alert,'" said Patricia Wilcox, who leads the Traumatic Stress Institute at Klingberg Family Centers in New Britain. "And they get stuck in that danger activation mode." It's hard to learn when you're living in a heightened state of anxiety, focused on danger, she noted.

Adolescence is a time of great opportunity, but also turmoil. As many as two-thirds of all teens face the additional challenge of coping with traumatic events such as life-threatening accidents, injuries, illness, disaster, or violence or sexual or emotional abuse and exploitation. That figure rises to closer to 100 percent for those who live in families or communities in which violence, poverty, neglect, racism or discrimination based on gender, gender identity or disability are prevalent. We assume that the majority of juveniles who are justice involved in Passaic County will present high ACE scores.

Not surprisingly, 90-plus percent of youths involved in juvenile justice have experienced at least one (and typically several) of these traumatic stressors, and as many as 25 to 33 percent of these youth (compared to 5 percent in community samples) have developed post-traumatic stress disorder (PTSD).

Youth in the juvenile justice system often have been exposed not only to multiple types of interpersonal victimization but also to other childhood adversities (such as separation from or impaired relationships with biological parents and family). In total, this more than doubles the number of traumatized youth in juvenile justice programs (i.e., 67 to 75 percent) who need effective services in order to recover from not only PTSD but also for a wide range of related emotional, developmental, academic and behavioral problems (such as substance use, attention deficit, oppositional-defiant, affective, anxiety, dissociative, sexual, sleep and eating disorders, suicidality self-harm and exploitation [e.g., sexual trafficking]).

The 2012 report of the U.S. Attorney General's Task Force on Children Exposed to Violence identified nine practical steps based on the experience of experts in law enforcement, the judiciary, juvenile justice services, child protective services, racial and ethnic disparities, and traumatic stress. This was done under the leadership of Robert Listenbee, the administrator of the Office of Juvenile Justice and Delinquency Prevention:

1. Make trauma-informed screening, assessment and care the standard in juvenile justice services.
2. Abandon juvenile justice correctional practices that traumatize children and further reduce their opportunities to become productive members of society.

3. Provide juvenile justice services appropriate to children's ethnicultural background that are based on an assessment of each violence-exposed child's individual needs.

4. Provide care and services to address the special circumstances and needs of girls.

5. Provide care and services to address the special circumstances and needs of LGBTQ (lesbian/gay/bisexual/transsexual/questioning) youth.

6. Develop and implement policies in every school system across the country that aim to keep children in school rather than relying on policies that lead to suspension and expulsion and ultimately drive children into the juvenile justice system.

7. Guarantee that all violence-exposed children accused of a crime have legal representation.

9. Whenever possible, prosecute young offenders in the juvenile justice system instead of transferring their cases to adult courts.

The first recommendation speaks to the goal of not letting traumatized youth fall between cracks, instead identifying them and then providing them with services that actually help them to recover from chronic post-traumatic stress problems. Rather than treating traumatized youth as either irredeemably antisocial (and therefore warranting more restrictive sentences and confinement) or mentally deformed (and thus requiring psychiatric behavior management-oriented treatment), a less stigmatizing and potentially more effective approach is to provide evidence-based treatment or services designed to help them to overcome traumatic stress reactions.

This proposal is for 6 months of service, with the longer term goal of ultimately helping the County develop a robust array of trauma informed responses, available at multiple entry points in the systems of care in the County.

1) JFS will begin using the ACES questionnaire as a screening tool for history of trauma. The ACES Inventory will be evaluated for ease of use and utility within the current system. Data will be collected on the use of the questionnaire post-training; trainees will submit aggregate numbers to begin developing a County profile for the ACES scores. This training will help to sensitize first responders and others to the effects of trauma and how it manifests in the lives of children and juveniles. The education of first responders, including court involved personnel, police departments, emergency response teams, doctors and others involved with the care of young adults in the County will be the beginning of shifting the community climate to one of trauma informed care.

2) Train JFS clinical staff in the specific implementation of the TARGET program -- an evidence based program used within the juvenile justice system to provide initial work with juveniles and their care givers within the system (from the website) TARGET (Trauma Affect Regulation: Guide for Education and Therapy), is a multisession gender-specific ethnoculturally adapted intervention for traumatized youth (and adults) that can be done as a one-to-one, group, family or milieu therapy, and/or as a training on emotion regulation skills for juvenile justice staff to use on a 24-hour, seven-day-a-week basis in community or congregate justice programs.

TARGET begins with psychoeducation that explains PTSD as a survival adaptation by the brain’s stress response system that makes sense but becomes a problem when the brain's amygdala (the “alarm”) becomes stuck in survival mode and hijacks the hippocampus (the “memory filing center”) and the prefrontal cortex (“thinking center”) and body.
Overcoming traumatic stress reactions therefore means learning how to reset the brain’s alarm so that it provides helpful alerts but isn’t stuck in survival mode. TARGET then teaches a seven-step sequence of emotion and behavioral self-regulation skills that accomplish the goal of resetting the alarm, summarized by an acronym, F R E D O M.

F - Focusing and Recognizing triggers. This skill enables the youth (or adult) to activate the brain’s thinking and filing centers in order to think before reacting.

E - Emotional Differentiation

E - Evaluate cognitions

D O - Deliberate goals and Options for action, based on whether they are simply alarm messages or a team effort of the thinking, filing and alarm centers.

M - Making a contribution, helps youths (and adults) recognize that being able to handle stress reactions in a self-regulated manner makes them more effective in achieving their personal goals.

By providing practical knowledge that is interesting and useful for adolescents (and for adult staff, administrators, advocates and family members) TARGET provides a basis for truly collaborative and trauma-informed juvenile justice supervisory, rehabilitative and therapeutic services. With TARGET, everyone teams up to take on the challenge of thinking clearly and making choices that reflect their goals and values rather than impulsive or expedient reactions to stress.

This is a crucial paradigm shift that honors both youth’s and adult/system’s perspectives while calling upon all participants to take responsibility for mindfully handling stress reactions. In so doing, it enables the adults to demonstrate good faith by walking the walk (i.e., managing their own stress reactions just as they want the youths to manage theirs) without stigmatizing anyone (youth or adults) for having expectable (albeit not always adaptive) stress reactions.

TARGET is not a panacea, nor a replacement for other empirically supported approaches to traumatic stress treatment (and cognitive and behavioral rehabilitation) for traumatized youth in the juvenile justice system. It is an evidence-based clinical therapy and also a template for making traumatic stress understandable, transparent and manageable for youth and adults. As such it fosters communication and collaboration among law enforcement officers, program staff and administrators, treatment providers and the youth and family.

TARGET’s goal is to enable youth and adults to recognize and responsibly handle stress reactions that may be due to trauma (for youths, and for adults who have trauma histories of their own) or to the expectable challenges of working in correctional/justice programs with youth who are dysregulated and in some cases capable of posing a threat to the adults’ safety. This is the core goal of trauma-informed systems/services, to enable everyone — traumatized youth, their families, adults responsible for public safety and entire communities — to become safer and more effective.

Therefore, it is essential that trauma-informed reforms go beyond simply acknowledging that many justice-involved youth have been traumatized, and provide practical skills that adults and

The Expenditure Report and Reimbursement Request forms contain each project's Operating line item budget in the Project Budget column. The line items containing dollar amounts are the only expense categories that will be reimbursed. The Subrecipient may request line item budget revisions, the budget revision request must be submitted in writing and require NJ TRANSIT approval. If approved NJ TRANSIT send approved revised reimbursement form to the Subrecipient.

REIMBURSEMENT REQUEST
Subrecipient must compile its expense records, subtotal expenses by category line item and record the subtotals on the appropriate reimbursement form. The line items should then be added and the total recorded on the Total Expenses line. Finally, after the required match (and fare and or donation if applicable) is deducted the reimbursable total is entered on the Total Reimbursable line. Reimbursement documentation should be attached for equaling amounts to be reimbursed.

REIMBURSEMENT TO DATE
This column accumulates prior and current period reimbursement requests by line item and will assist the local project manager in monitoring project expenditures against the project budget. Values in the "Reimbursement To Date" column are updated monthly by adding the line item values of the current month's "Reimbursement Request" column to the prior month's "Reimbursement To Date" line item values. The Subrecipient will not be reimbursed for amounts over the total Approved Budget.

MONTHLY SUMMARY REPORT (MSR)

Introduction
The Monthly Summary Report form is used by the Subrecipient to report the transportation services supplied to all funding sources during each month.

In order for NJ TRANSIT to make payment, the Subrecipient must submit monthly properly executed Expenditure Report and Reimbursement Request forms accompanied by supporting documentation of actual expenses incurred. Since NJ TRANSIT is implementing the electronic submittal of Monthly Summary Reports it no longer ask that these accompany the Expenditure Report and Reimbursement Request forms.

The Monthly Summary Report information must be compiled monthly and submitted electronically to NJ TRANSIT no later than twenty (20) days after the close of each month.

The trip data reported for NJ-JARC should be clearly identified and noted as State funded Route Deviation or Demand Response on the Subrecipient's MSR.

General Instructions:
The MSR provides for the reporting of non-financial data which is necessary to fulfill both State and Federal requirements to support coordinated transportation operations. The non-financial data includes the Number of Passengers, Passenger Trip Purposes, and Client/User Characteristics to measure the benefits provided to agency consumers.

The MSR maintains data on the units of service received each month through the Senior Citizen and Disabled Resident Transportation Assistance program and by other funding services, which reimburse the transportation project. The MSR is used to summarize monthly services received by each agency or program on a separate line.

The Service Report is the basic document of accountability of services provided and enables each funding agency to monitor these services on a regular basis.

Program:
This column lists the various funding sources that you receive, and then following the columns to the right is where the Subrecipient inputs the data per each funding source. At a minimum the Subrecipient must list all the funding sources they receive that are administered by NJ TRANSIT and the Subrecipient contribution. NJ TRANSIT administered funding programs include the following: SCDRTAP (on the report this appears as Casino), CMAQ, Community Shuttle, Rural Transportation (5311), New Freedom (5317) and Urbanized Area (5307) and NJ TRANSIT operating (NJ-JARC, SCOOT).

The Subrecipient may choose to list their other funding sources individually or combine them into one as an "other" category.

For Federally funded programs that require a match are to report the data as if fully funded by the Federal program. The Subrecipient may however break out a Subrecipient contribution if the cost of the service is above and beyond the cost of the Federal funding being provided.
EXHIBIT C – MONTHLY SUMMARY REPORT (MSR)  
(Continued)

Mode of Service Headings:
This section is split into two areas Demand Response and Route Deviation as defined below. By funding source complete the requested data in each of the columns below these headings.

Demand Response – Shared ride service operating in response to calls from passengers or their agents to the transit operator who schedules a vehicle to pick up the passengers to transport them to their destinations. Demand Response mode of service consists of Regular Passenger Trips and Subscription Trips as defined below.

Route Deviation – Transit service that operates along a fixed alignment or path at generally fixed times, but may deviate from the route alignment to collect or drop off passengers who have requested the deviation.

The following definitions correspond with each column’s heading:

Demand Response and Route Deviation

Demand Response Passenger Trip – In order for a customer to take this trip, they must have requested transportation from origin to a destination on a specified date and time. A unit of service equals one passenger traveling in one direction from an origin to a destination; also referred to as a “one-way trip” or "unlinked passenger trip". For example two people are traveling in one direction equal two one-way trips; two people making a round trip equal four one-way trips. Personal care attendants and companions of a passenger are counted; however, they should be included in the “Other” category. For the purpose of this report you are to count your regular Passenger Trips separately from your Subscription Trips.

Demand Response Subscription Trips – Trips that customers take on a regular basis, usually 3-5 days a week. Unlike regular demand response trips once given a subscription trip these customers do not have to call daily to arrange their trip, instead these trips are scheduled to meet the travel needs of customers who sign up for the service in advance. For the purpose of this report the Subrecipient is to count its Subscription Trips separately from their regular Passenger Trips.

Demand Response Fares – The amount of money collected in fares from the Demand Response Services during the reporting period.

Total Trips for Demand Response = This number is automatically calculated by the system as a sum of your regular Passenger Trips and Subscription Trips.

Route Deviation Passenger Trips – In order for a customer to take this trip, they either board the vehicle as it operates along its fixed alignment or path, or they call to request a deviation of that route for their pick-up or drop-off. A unit of service equals one passenger traveling in one direction from an origin to a destination; also referred to as a “one-way trip” or "unlinked passenger trip". For example two people are traveling in one direction equal two one-way trips; two people making a round trip equal four one-way trips. Personal care attendants and companions of a passenger are counted; however, they should be included in the "Other" category.
EXHIBIT C – MONTHLY SUMMARY REPORT (MSR)  
(Continued)

Number of actual deviations – This is the actual number of times your vehicle deviate from its original route to pick up a passenger.

% of actual deviations - The system will calculate this for you.

Route Deviation Fares – The amount of money collected in fares from the Route Deviation Services during the reporting period.

Total Trips for Demand Response & Route Deviation = This number is automatically calculated by the system as the sum of each mode of service’s trips. Total Trips = Demand Response Passenger Trips + Demand Response Subscription Trips + Route Deviation Passenger Trips.

Customer Trip Purpose:
Medical – trips taken for medical appointments such as dialysis, doctor’s offices, physical therapy, chemotherapy, etc.

Non Competitive Employment – trips to places of employment of a non-competitive nature (i.e. sheltered workshop or extended employment center).
Competitive Employment – trips to places of gainful employment.

Recreation – trips to senior centers, sporting events, concerts, plays or community sponsored special events as well as planned social outings.

Education & Training – trips to school’s or vocational training centers, full-time or part-time, day or evening, credited or non-credited.

Nutrition – trips exclusively to/from designated nutrition sites and centers with the primary purpose of obtaining a meal.

Shopping & Personal – trips to any shopping area or store, or for individual recreation purposes.

Other – Any trip that does not fit in any of the above trip purpose categories, for example personal care attendants, companions or for a deviated route service (open door policy) where you do not collect this data.

Total Trips - This number is automatically calculated by the system as the sum of each Trip Purpose.

Customer Characteristics:
Senior Ambulatory – A trip taken by a customer who is 60 years of age or older, who can walk with or without a mobility device such as a cane or walker.

Senior Non-Ambulatory – A trip taken by a customer who is 60 years of age or older who uses a mobility device such as a wheelchair or scooter.

Disabled Ambulatory – A trip taken by an individual who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment who can walk with or without a mobility device such as a cane or walker.
EXHIBIT C – MONTHLY SUMMARY REPORT (MSR)  
(Continued)

Disabled Non-Ambulatory – A trip taken by an individual who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment who uses a mobility device such as a wheelchair or scooter.

Other – Any customer trip that does not fit in any of the above Customer Characteristic categories such as personal care attendants, companions or for a deviated route service (open door policy) where you do not collect this data.

Total Trips - This number is automatically calculated by the system as the sum of each Customer Characteristic.

Demand Response Only and Route Deviation Only Headings (for all programs):
This section is also split into the two areas Demand Response Only and Route Deviation Only. This section is a total for all funding sources combined. The heading will indicate for all programs, please enter total in each of the columns below these headings.

VOMMS (Vehicles Operated in Monthly Maximum Service) – The number of vehicles operating to meet the maximum service requirement (exclude atypical days such as holiday celebrations or one-time special events), or how many vehicles you operate during your peak hours of service.

Number of Days Operated – The number of days the vehicle operated to meet the maximum service provided for the reporting month (exclude atypical days such as holidays but include weekends if you offer service during that time).

Number of Days Not Operated - The number of days the vehicle did not operate to meet the maximum service provided for the reporting month (exclude atypical days such as holidays but include weekends if you offer service during that time).

Days Not Operated Due to Emergency – The number of days that service did not operate due to emergencies, such as floods, snowstorms, or tornadoes. A person in authority (usually the mayor, Subrecipient head or governor) must officially declare an emergency.

Monthly Ridership (for all programs):
Passenger Miles – This box must be completed by everyone receiving funding from any of the following funding sources: CMAQ, 5309/Community Shuttle, 5309/ Earmarks, 5307/Urban, 5316/JARC, 5317/New Freedom. This number shall be the cumulative sum of passenger miles for all of your funding sources including those not listed above. Passenger miles are the cumulative sum of distances ridden by each customer. A unit of service equals one customer traveling in a vehicle per one mile; example: ten customers travelling one mile equals ten passenger miles. Your passenger miles shall be inclusive of all Subrecipient’s funding sources supporting all demand response service that you operate. This definition also applies to Route Deviation Service.

Actual Miles – The actual miles a vehicle travels; the sum of vehicle service and non-service miles. This definition also applies to Route Deviation Service.

Revenue Miles – The number of miles a vehicle travels in service from the time of the first passenger pickup and the last passenger drop off. It does not include deadhead miles, those miles between the garage to the first passenger pickup and between the last passenger drop off and garage. This definition also applies to Route Deviation Service.
Actual Hours – The actual hours a vehicle is in service; the sum of vehicle service and non-service hours. This definition also applies to Route Deviation Service.

Revenue Hours - The total number of hours driven from the time of the first passenger pickup to the last passenger drop off. It does not include the time between the garage to the first passenger pickup and between the last passenger drop off and the garage. This definition also applies to Route Deviation Service.

Monthly Cancellations (for all programs):
Provider Cancelled Trips - A trip that the provider/operator cannot provide as scheduled. The customer is expecting service and the transportation provider cancelled the trip.

Customer Cancelled Trips – A trip that the customer cancelled within the prescribed timeframe allowed for cancellations.

Customer No Shows – A trip in which the vehicle arrives at the pick up point of the customer but the customer requesting the trip is not available or present. In many cases a NO SHOW is also defined as when a passenger gives less than a prescribed notice of cancellation. (For example: less than 30 minutes before a scheduled trip).

Denials – A trip request, which was not accepted because the service provider, for a variety of reasons, cannot accommodate the trip for the day and/or time requested; the provider is not able to offer an alternative acceptable to the passenger.

NJ TRANSIT Code of Ethics

IMPORTANT NOTICE TO ALL SUBRECIPIENTS AND CONSULTANTS/VENDORS

NJ Transit is an instrumentality of the State of New Jersey and its employees and officers, including members of the NJ Transit Board of Directors, are public servants. NJ Transit, its employees and officers are governed by a number of civil and criminal laws, which control how NJ Transit and its personnel do business with contractors and consultants. These provisions include the Conflicts of Interest Law, NJSA 52:13D-12; and various criminal laws prohibiting bribery (N.J.S.A. 2C:27-2), and prohibiting offers of unlawful benefits to public servants for official behavior (N.J.S.A. 2C:27-10 & -11). These provisions contain unequivocal and stringent restrictions relating to gifts and gratuities.

Be advised that the law prohibits the receipt of gifts and gratuities by any NJ Transit employee or officer from any person, company or entity doing business – or wanting to do business – with NJ Transit. You are prohibited from offering, and NJ Transit Board members, officers or employees are prohibited from accepting, gifts, gratuities, benefits and other items of value.

The term “gift” is broadly and widely defined. It includes all things and objects, tangible or intangible, including services, gratuities, meals, entertainment, tickets to events, access to membership clubs, travel costs and lodging. Simply put, a “gift” is anything of value.

Do not, under any circumstance, tempt or put a NJ Transit employee in an awkward position of having to refuse a gift or return a gift, no matter how well intentioned or innocuous the gift may be in your eyes.

The bright line rule for you and your staff in doing business with NJ Transit is simple: Offer nothing and give nothing to any NJ Transit employee or officer. It is your responsibility to circulate this Notice in your company and educate accordingly all personnel who do business with NJ Transit.

RE: Grant #: 2020-05235-XXXX

Dear Mr. Feathersan,

Passaic County will receive a FFY20 non-discretionary Community Service Block Grant (CSBG) for approximately level funding of your FY19 allocation. The award amount will be determined once the FFY20 budget is passed. Your first allocation for the FY20 award is $77,984.

The CSBG grant funds are available from 01/01/2020 through 12/31/2020. Your grant cycle will begin 01/01/2019. The Department is trying to eliminate overlapping contracts. Please ensure that the agencies you subcontract with are aware of the timeframe, since this may differ from past years. If any should require additional time to utilize funds a grant revision would be necessary.

If you have any questions, please do not hesitate to contact me at (609) 777-2971.

Sincerely,

Contract Modification #2

Members of the Board:

Attached for your approval is Contract Modification #2 to a professional engineering services contract with Louis Berger Group of Morristown, NJ for the purpose of modifying a contract for the design of the Paterson-Hamburg Turnpike & Alps Road intersection improvements.

Louis Berger was originally contracted in April 2008 to perform these services. Contract Modification #1 was authorized October 9, 2018 and increased the contract amount to $939,207.28.

Due to anticipated utility conflicts identified in the 80% plans, the consultant has determined the requirement for test pits at 7 locations prior to final plans. The consultant has proposed to do the test pits for $23,429.50.

The Public Works and Buildings and Grounds Committee approved this recommendation at their meeting of September 25, 2019.

We respectfully request that the Board of Chosen Freeholders ADOPT a RESOLUTION approving Contract Modification #2 in the amount of $23,429.50. This will result in a revised contract in the amount of $962,636.78.

Very truly yours,

Deputy County Engineer

RE: Revised Scope Modification incorporating comments: Reconstruction of Paterson-Hamburg Turnpike & Alps Road Intersection, Wayne Township, Passaic County, New Jersey

Dear Mr. Mettlen:

The County of Passaic selected The Louis Berger Group, Inc. in April 2008 to provide consulting services for Reconstruction of Paterson-Hamburg Turnpike & Alps Road Intersection, Wayne Township, Passaic County, New Jersey. At the Intersection Paterson Hamburg Turnpike is oriented in an east-west direction and Alps Road in a north-south direction. Two-lane jug handles to accommodate turning movements at the intersection were proposed in the northeast quadrant thru the Preakness Shopping center and in the southeast quadrant around several commercial properties.

On August 1st, 2019, a gas utility verification meeting held with PSE&G and county engineer.
Review comments from PSE&G on the utility relocation plan resulted in additional scope of work. The need of test pits has been addressed for the locations with conflicts between existing gas mains and proposed full depth pavement. There are seven (7) location identified for test pits. Location plan is attached.

This modification is based on the discussion on the utility verification meeting

This modification includes an additional cost of the test pits.

THE FOLLOWING ARE ITEMIZED SCOPE MODIFICATIONS:

Due to the discussion on the utility verification meeting, additional efforts will be required to prepare required test pit location plans for the additional excavation of test pits. Efforts will be needed to put out Bid for SUE, select SUE subcontractor and prepare subcontractor agreement. Also, conflicts may be determined by the test
Additionally, it will require additional effort for coordination and preparation for the utility relocation plans and documents. A field trip will be required for the inspection of the test pit work.

At least one more submission is anticipated—100% final in September 2019. Separately, utility relocation plan submissions are anticipated to the utility companies.

The cost estimate to complete the additional effort herein is summarized on the attached table.

Should you have any questions or comments regarding this proposal or require additional clarification, please feel free to contact me at (973) 407-1091.

Sincerely,

2020 and 2021 County Roadway Resurfacing Projects

Overview

The 2020/2021 County Aid Resurfacing Project will entail the resurfacing of approximately 9.3 miles of County roadways within various municipalities in Passaic County. In addition to the resurfacing scope of services, RVE will investigate and design upgrades to the drainage system at selected locations along Totowa Road, Berdan Avenue and Black Oak Ridge Road in Wayne Township and Ringwood Avenue in Pompton Lakes Township, as identified by the County.

As required in the scope of services, RVE will inspect the entire length of all roadways included in this Resurfacing Program and specifically identify the:

- Condition, ownership, size and location of all manholes within the project limits.
- Manholes that need to be reset, repaired or reconstructed, including replacement of castings and frames.
- Condition, exact type, and location of all inlets with the project limits.
- Inlets that need to be reset, repaired or reconstructed, including replacement of castings and frames.
- Condition of all existing curb ramps at all intersections and mid-block locations within the project limits, including assessment for Americans with Disabilities (ADA) compliance. Determine if additional ADA compliant curb ramps are required within the project limits.
- Locations where road failures indicate adverse subsurface or surface water conditions
- Locations where shoulder repair is required on sections of roadway without curbs
- Locations of all existing street warning signs “W” and “S” signs, and the locations of all existing County route signs
- Locations that may require new, repair of, or reseting of, guide rail

The plan limits will extend 100 feet past the project limits of each roadway and 25 feet along each of the intersecting local side streets from the existing gutter line.

All necessary traffic control for RVE’s field surveys will be in accordance with the current edition of the MUTCD and the Passaic County Sheriff’s Office.

Additionally, drainage improvements will be designed along Totowa Road in Wayne Township. Drainage improvements along Bordan Avenue and Black Oak Ridge Road in Wayne Township and Ringwood Avenue in Pompton Lakes Township will be designed as directed by the County. We acknowledge the potential presence of a broken drainage pipe on Bordan Avenue in Wayne Township. If the County wishes to have this pipe or any other pipe within the project limits videoed to determine condition, RVE will provide this service to the County at an additional cost. The County’s standard construction details for roadway resurfacing programs will be utilized as part of the construction documents and revised as necessary for any of the project particulars.

RVE will prepare construction documents and assist the County during the bidding and construction phase of the project.

Scope of Services
RVE’s extensive experience with the County’s road resurfacing projects since 2011, as well as major resurfacing road programs with other agencies for county, municipal, and toll roads, will aid the County in completing a high-quality effort within time and budget constraints. The scope of work is detailed below.
Phase I: Preliminary Plans

Gather Existing Information - Our initial task will be to obtain any existing information, such as funding applications, available GIS information, existing plans of the roadway, signals, intersections and/or utilities. This information will be used to aid in the overall design and document preparation for the project. Included in this effort will be an onsite field review, inventory and photo log of all elements of the project. The results of this information effort will be incorporated into a report that identifies the existing condition and a recommendation for improvements to the fixed asset.

Preparation of Base Plans - Utilizing existing aerial mapping, we will create base plans for the roadways. The plans will be prepared at a scale of 1"=30' or larger and be based in AutoCAD 2019 format. The plans will show the edge of pavement and cross streets and any other features (manholes, inlets, guardrail, etc.) that may be affected by the road resurfacing. The base plans will be field verified by our engineers and a baseline will be established. RVE’s team will also locate features and pavement markings impacted by the resurfacing.

Utility Coordination - Notification letters will be prepared and sent to the various utility companies within the project area to coordinate any anticipated utility repair work with this project. Base plans for any drainage improvements will be transmitted to the various utility companies to obtain utility location information. Approximate location of utilities will be obtained from the companies and added to our base plans to support the drainage facility design.

Preparation of Preliminary Construction Plans, Specifications, and an Engineer’s Estimate - This task will consist of utilizing the base plans and designing the road resurfacing. Plans will be prepared at a 1"=30' scale or larger, consisting of the following:

- Title Sheet with Key Map and Index of Sheets
- Legend and Notes
- Estimate and Distribution of Quantities & Details and
- Typical Sections
- Construction Plans
- Construction Details, including accessible curb ramp details.

All designs will be in accordance with NJDOT and County standards. A review of the construction plans will be performed with the County to ensure the final plan and product of the project. Any items requiring design exceptions will be noted and documented accordingly. Specifications will be prepared in coordination with the County following NJDOT 2019 Road and Bridge Construction Standard Specifications. Additionally, a preliminary engineer’s estimate of the proposed construction will be prepared. The contract documents will be forwarded to the County for review and approval.

Based on previous communication with Hudson-Essex-Passaic Soil Conservation District (HEPSCD), we understand HEPSCD will require certification only for those roads within the resurfacing program along which 5,000 square feet of soil disturbance are anticipated, on a per-road basis. Therefore, Soil Erosion and Sediment Control (SESC) plans will be prepared only for certain roads within the program. We will prepare an application for SESC plan certification for County signature and submit the application to HEPSCD. Since the amount of soil disturbance is unknown at this time, the fees for certification cannot yet be determined and are not included in this proposal. We understand the County will issue separate payment for HEPSCD.
fees, or we will prepare a proposal for RVE payment and County reimbursement of these fees above our contract amount with the County.

Phase II: Final Design and Specification

Upon receipt of comments from the County and NJDOT, RVE will finalize the construction documents for public bidding. A final Engineers’ Design Certification will be provided and the estimate will be finalized for comparison to the bids received. We will provide the County with reproducible contract drawings and specifications for reproduction and distribution to the prospective bidders.

Phase III: Bidding Support

Work under this task will consist of coordinating with the County to advertise the project for construction bids, answering bidder questions, and opening the bids in public. A bid tabulation will be prepared, bids reviewed and an award recommendation will be made.

Phase IV: Construction

Pre-Construction and Progress Meetings - RVE will attend the pre-construction meeting for the project with the contractor and County under this task. Additional progress meetings will be attended, as requested by the County, to facilitate construction.

Submittal and Payment Application Review - This task will consist of reviewing required submittals, material certifications, and any contractor payment application as requested by the County. Recommendations will be made to the County.

Design Services During Construction - This task will consist of performing periodic site inspections on an as-needed basis to verify contractor’s work, payment requests, and compliance to the overall contract documents. We will also answer the contractor’s questions and interpret the documents, as requested. Construction inspection and construction management services are not included in this contract.

Fees

Our lump-sum fees are as follows, based on the four phases detailed above and in accordance with the County’s Method of Payment as outlined in the RFP. We will invoice on a percentage-complete basis at a 30-day period with no payment request exceeding 50% of the phase, unless it is completed. We will utilize each of the phases during the two design periods for the separate resurfacing projects.

RESOLUTION AUTHORIZING THE PURCHASE OF PARTS AND/OR REPAIRS AND SUBSEQUENT AWARD OF CONTRACT TO GROFF TRACTOR NEW JERSEY, LLC FOR PASSAIC COUNTY-OWNED HEAVY EQUIPMENT VEHICLES FOR CALENDAR YEAR 2019

WHEREAS the Supervisor of Passaic County Roads recently reported that he needed to purchase parts and/or repairs needed for various vehicles and/or heavy equipment operated by the Passaic County Road Department for the loading of salt during snow emergencies and for various road projects over the year from Groff Tractor New Jersey of Vineland, New Jersey (formerly Trico Equipment) in the amount of $40,000.00 for calendar year 2019; and

WHEREAS the said Supervisor is reporting that Groff Tractor New Jersey is the only local vendor who is able to repair and supply needed parts for existing equipment owned by Passaic County; and

WHEREAS other vendors were contacted, as noted in letter attached dated September 26, 2019, but were either unable to perform major repairs to said equipment and vehicles or are located over 100 miles from either the Pompton Lakes Garage or Paterson Garage; and

WHEREAS the said Board by Resolution R-06-97 dated February 14, 2006 established a policy of only awarding contracts in excess of the monetary threshold set forth under the Pay to Play Law only under a fair and open process; and

WHEREAS the Board is desirous of making an exception to that policy in this case because of this vendor’s familiarity with vehicles and equipment currently used by the Passaic County Road Department; and
WHEREAS the Committee for Public Works and Buildings & Grounds reviewed this matter at its September 25, 2019 meeting and is recommending approval by the entire Board; and

WHEREAS a certification is attached hereto that indicates the availability of funds for said expenditure.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby authorizes an award of contract to Groff Tractor New Jersey of Vineland, New Jersey in the amount of $40,000.00 to authorize the purchase of parts and/or repairs for Passaic County-owned heavy equipment vehicles through the end of calendar year 2019 in conformity with the attached request.

BE IT FURTHER RESOLVED that this contract is being awarded as an exception to the policy of the Board as set forth in its Resolution R-06-97 dated February 14, 2006 because of the special circumstances of this situation and the policy of the Board as set forth in this Resolution shall remain in full force and effect.

BE IT FURTHER RESOLVED that the Director and Clerk of the said Board are hereby authorized to execute any necessary agreement on behalf of the County of Passaic.

Dated: October 10, 2019
RESOLUTION FOR CHANGE ORDER #26 FOR H & S CONSTRUCTION & MECHANICAL, INC. AS IT PERTAINS TO RENOVATIONS TO THE PASSAIC COUNTY COURT HOUSE ANNEX IN PATERSON, NEW JERSEY

WHEREAS the County of Passaic did, on the date of June 12, 2017, adopt Resolution R-2017-0478 awarding a contract to H & S Construction & Mechanical, Inc. for the project known as the Renovations to the Passaic County Court House Annex; and

WHEREAS this Change Order addresses additional work for the restored Hamilton Street entrance doors that required additional hinges not anticipated upon fabrication, the relocation of the electrical panel in the mechanical room due to revised layout of the boiler breeching pipe, additional structural support due to an HVAC design change and re-route, and urgent repairs required for the structurally-deficient existing Hamilton Street exterior stairs resulting in the total Change Order amount of $63,381.06 and the total contract amount including Change Order #26 is $10,113,708.12; and

WHEREAS this proposed Change Order #26 will result in the net sum of change orders for this project to be in excess of the 20% limit for change orders which is allowed under the Local Public Contracts Law N.J.S.A. 40A:11-1; and

WHEREAS the regulations (N.J.A.C. 5:30-11.9) of the State of New Jersey Department of Community Affairs permits change orders in excess of 20% as long as the following is
1) a written certification by the contractor containing the following:

   i) an explanation of the factual circumstances which necessitate issuance of the change order;

   ii) a statement indicating why these circumstances could not have been foreseen;

   iii) a statement indicating why issuance of the change order would be in the best interests of the County and would not constitute an abuse of these rules;

   iv) if the nature of the change order is technical, the certification shall include a certified statement from contractor’s appropriate expert, explaining in detail the factual circumstances which necessitate the issuance of the change order;

2) a request from the chief executive officer, in this case the County Administrator, or his designee, to the governing body requesting the change order and explaining why this change order may be allowed pursuant to this provision; and

WHEREAS the County of Passaic is in receipt of a certification from the County Engineer dated September 30, 2019, see copy attached hereto; and
WHEREAS the Office of the County Engineer has also submitted a letter to the Board dated September 30, 2019 requesting the adoption of Change Order #26, a copy of which is attached hereto and made a part hereof; and

WHEREAS the Passaic County Administrator has filed a letter with the Board of Chosen Freeholders dated October 1, 2019 requesting that the Board review this matter and consider adopting this Change Order (see copy attached); and

WHEREAS this proposed change order will bring the contract above the 20% threshold generally permitted under the Local Public Contracts Law (N.J.S.A. 40A:11-1 et seq.) but is being considered because it would be impractical to award a new contract for this additional work; and

WHEREAS this matter was discussed and approved at the Public Works and Buildings & Grounds Committee meeting of September 25, 2019 at which time said Committee specifically authorized this amendment; and

WHEREAS a certification is attached hereto to reflect the availability of funds.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby approves Change Order #26 of the contract awarded to H & S Construction & Mechanical, Inc. for the project known as the Renovations to the Passaic County Court House Annex, which was recommended for approval by the Office of the Passaic County Engineer by letter dated September 30, 2019 and attached hereto, be and the same is hereby approved:

          Change Order #26- H&S Mechanical Inc.

Members of the Board:

This Office is in receipt of Change Order #26 in the amount of $63,381.06.
Change Order #26 addresses additional work for the restored Hamilton Street entrance doors which required additional hinges not anticipated upon fabrication. In the mechanical room the electrical panel needed to be relocated due to revised layout of boiler breaching pipe. Due to an HVAC design change and re-route, additional structural support was needed due to unforeseen conditions for the new location. It was discovered that the existing Hamilton Street exterior stairs were structurally deficient and urgent repairs are needed.

This Change Order was reviewed and discussed at the Public Works Committee meeting of September 25, 2019 and recommended for approval to the full Board.

Based upon the above, this Office recommends that the Board of Chosen Freeholders adopt a Resolution approving said Change Order #26 to the contractor H&S Mechanical Inc. in the amount of $63,381.06 (sixty-three thousand, three hundred and eighty-one dollars and six cents) which results in an increase to the adjusted contract amount. The total contract amount and including Change Order #26 is $10,113,708.12.

Change Order # 26

Dear Mr. DeNova,

A net Change Order for additional work in the amount of $63,381.06 was reviewed and recommended for approval by the Public Works Committee at its meeting of August 28, 2019. Since this change order increases the contract amount by more than 20%, the procedures at N.J.A.C. 5:30-11.9 are being followed. This Change Order can be allowed since it was not reasonably possible to issue a new contract for the additional work. Work causing this contract to exceed 20% was due to additional work needed for the restored Hamilton Street entrance doors which required additional hinges not anticipated upon fabrication. In the mechanical room the electrical panel needed to be relocated due to revised layout of boiler breeching pipe. Due to an HVAC design change and re-route, additional structural support was needed due to unforeseen conditions for the new location. It was discovered that the existing Hamilton Street exterior stairs were structurally deficient and urgent repairs are needed.

Very truly yours,

This is to request a Change Order in excess of 20% of the original contract amount, in accordance with N.J.A.C. 5:30-11/9. I do hereby certify to the following:

1. Explanation of the Factual Circumstances which necessitates issuance of the Change Order:

Additional work for the restored Hamilton Street entrance doors was required as there were additional hinges not anticipated upon fabrication. In the mechanical room the electrical panel needed to be relocated due to revised layout of boiler breeching pipe. Due to an HVAC design change and re-route, additional structural support was needed due to unforeseen conditions for the new location. It was discovered that the existing Hamilton Street exterior stairs were structurally deficient and urgent repairs are needed.
2. Statement indicating why these circumstances could not have been foreseen:
Due to the fact there are many layers of material not documented and the building was constructed in the late 1890's, certain structural components are not discovered until demolition is done that affect these components. In addition there were necessary design changes that had to be made to accommodate functionality of the building.

3. Statement indicating why issuance of the change order would be in the best interests of the contracting unit and would not constitute an abuse of these rules:
As this project was issued to the lowest bidder, and the awarded contractor has been performing the scope of the work on schedule, it would cost significant delay and cost if work was stopped due to non-issuance of the change order.

4. I have reviewed the rules of the Division of Local Government Services pursuant to N.J.A.C. 5:30-11.9 ET, Seq., and certify that the proposed change order may be allowed under the aforementioned rules.

Respectfully,
Jonathan Perl, P.E.

          Change Order #26 – (add) exceeding 20% of the contract

Dear Board of Chosen Freeholders,

In my capacity of Chief Executive Officer of the County of Passaic, I am hereby requesting that the Board of Chosen Freeholders adopt a Change Order pertaining to the above referenced contract, reflecting an increase in the contract in the amount of $63,381.06. RESOLUTION AUTHORIZING THE OFFICE OF THE PASSAIC COUNTY SHERIFF TO ESTABLISH A sUAS PROGRAM IN PASSAIC COUNTY

WHEREAS the use of small unmanned aircraft systems (sUAS) commonly referred to as drones offer strategic and tactical insight and enhanced situational awareness, while minimizing the risk of death or serious bodily injury to both the public and first responders; and

WHEREAS the Passaic County Sheriff’s Office is desirous of instituting a drone program in Passaic County; and

WHEREAS the Passaic County Sheriff’s Office drone program will be conducted in compliance with all of the rules and regulations of the FAA, as well as those adopted by the Passaic County Sheriff’s Office, which are attached to this document; and

WHEREAS the Law & Public Safety Committee considered this matter and recommended this resolution be presented to the full Board for approval.

NOW THEREFORE BE IT RESOLVED by the Board of Chosen Freeholders of the County of Passaic that it hereby authorizes the Passaic County Sheriff Office to institute a drone program in Passaic County; and

BE IT FURTHER RESOLVED that the Passaic County Sheriff and all other officers and employees are hereby authorized to execute the documents necessary to effectuate the purpose of this resolution.

October 8, 2019
The Passaic County Sheriff’s Office is looking to institute the use of small unmanned aircraft systems (sUAS). The use of small unmanned aircraft systems (sUAS), commonly referred to as “drones”, has become more commonplace in the response to emergency situations. These systems offer strategic and tactical insight and enhanced situational awareness to on-going critical incidents. This heightened awareness can assist incident commanders in the response and decision making process. In addition, injury and death to all involved, including the public and first responders can also be reduced.

The intent of the sUAS is to provide an aerial perspective and to provide crucial, otherwise unobtainable situational awareness in responding to emergency situations, for exigent circumstances, and for the following objectives:

1. **SITUATIONAL AWARENESS/VISUAL**: To assist decision makers (e.g., incident command staff, first responders, supervisory personnel, and other government officials) in understanding the nature, scale, and scope of an incident; and for planning and coordinating an effective public safety response.

2. **SEARCH & RESCUE (Land or Water)**: To assist with missing person investigations, AMBER Alerts, Silver Alerts, lost hikers, and other search and rescue missions.

3. **TACTICAL DEPLOYMENT**: To support the tactical deployment of law enforcement personnel and equipment in emergency situations (e.g., incidents involving hostages and barricaded subjects, support for large-scale tactical operations, SWAT operations and other perimeter security situations).

4. **VISUAL PERSPECTIVE**: To provide an aerial visual perspective to assist incident commanders and managers in providing direction for crowd control, traffic incident management, temporary perimeter security and other special operations (e.g. During mass gatherings such as the county fair, large scale emergency incidents and natural disasters).

5. **SCENE DOCUMENTATION**: To document a crime scene, crash scene, or other major incident scene (e.g., disaster management, incident response, large-scale forensic scene investigation).

6. **SITE ASSESSMENTS**: To obtain aerial imagery of critical infrastructure and key resources for risk and vulnerability assessments as part of a homeland security mission.

Any deployment of a sUAS will be authorized by the Passaic County Sheriff’s Office (PCS O) sUAS Coordinator or their designee. The following safeguards will also be put in place:

- The PCSO and its personnel will be required to adhere to all FAA and State of New Jersey regulations and statutes.
2. The PCSO will obtain all applicable authorizations, permissions or certificates required by the FAA. These authorizations, permissions, and certificates shall be maintained and current. A copy of all authorizations, permissions, and certificates shall be kept on file at the Passaic County Sheriff's Office.

3. All sUAS operated by the Passaic County Sheriff's Office shall be registered according to FAA regulations. This registration number shall be affixed to the aircraft, controller, and video display at all times.

4. The sUAS will be operated only by personnel (pilots and crew members) who have been trained and certified in the operation of the sUAS.

5. All deployments of a sUAS and flights will be documented on the appropriate forms, including but not limited to: who authorized the deployment; the exact date(s)/time(s) and location (City, State, Latitude/Longitude) of each flight; the corresponding case/investigation #; the reason for the flight; the staff assigned; and a summary of the activities covered, actions taken, and outcomes from the deployment.

6. In all cases where there are specific and articulable grounds to believe that the sUAS will collect evidence of criminal wrongdoing and/or if the sUAS will be used in a manner that may intrude upon reasonable expectations of privacy, the requesting agency will obtain a search warrant prior to conducting the flight. Exceptions to the warrant requirement shall mirror that of case law and where missions are taking place in which the exigency or the need to protect public safety negates the practicality of obtaining a search warrant.

It is not the intention of this program to utilize a sUAS in any manner which would violate public trust or infringe on the public's right to privacy. A sUAS will only be used as a means of gathering intelligence and/or evidence under a valid court order that specifically grants the permission to utilize a drone in such a manner.

Initially, the Passaic County Sheriff's Office would seek to purchase two (2) sUAS. One would be used for operational purposes. The second would be for training purposes. The PCSO would begin with two (2) "pilots" who would be trained and licensed to operate a sUAS. The primary focus of the UAS unit would be scene documentation through the Passaic County Sheriff's Office-Crime Scene Investigations unit. The sUAS will also be utilized to supplement the PCSO Emergency Response Teams such as Search and Rescue, SCUBA/Swift Water Rescue, Hostage Negotiators, SWAT and Bomb Squad.

(CFDA #97.067, Award #EMW-2019-SS-00022)
(DUNS # 063148811, EIN # 22-6002456)

Dear Mr. DeNova:

The New Jersey Office of Homeland Security and Preparedness (OHSP) is pleased to advise you that Passaic County is awarded $333,176.71 for approved projects from the federal FFY19 SHSP Local Share Grant Program. The main purpose of this funding is to enhance your agency’s ability to build, maintain and sustain national preparedness capabilities.

These funds will be available to reimburse your agency for allowable program expenditures upon the completion of the requirements listed below:

1.) Return of a signed FFY19 Grant Agreement and required attachments (A through F) by October 11, 2019, to the Grants Management Bureau, OHSP, at the above address.

2.) The awarding of these funds is conditioned upon your agency’s full participation with the OHSP Grant Management System (GMS). Your grant coordinator will be contacted by our grant liaison once the system is ready to accept entries for your approved projects.

Once these requirements are satisfied, spending authority will be granted and a fully executed Grant Agreement will be returned for your records. Failure to complete these requirements within the prescribed time frames may cause this award to be rescinded and any expenditures will be ineligible for reimbursement.

The attached Grant Agreement sets forth the certifications, terms, conditions and assurances required of your agency before OHSP will authorize the agency to make program expenditures eligible for reimbursement. Please review the Grant Agreement carefully. It is important that the Grant Agreement and required federal certifications are signed and returned to OHSP by October 11, 2019. It is extremely important to implement the activities in the approved Project Proposal(s) and Annex(es) in a timely manner to avoid reprogramming of any awarded funds.

Introduced on: October 8, 2019
Adopted on: October 8, 2019
Official Resolution#: R20190908
The FFY19 SHSP grant program has a thirty-six (36) month period of performance (September 1, 2019 to August 31, 2022). On or about February 1, 2021, OHSP will conduct a mid-term financial and programmatic review to determine progress in meeting stated objectives/goals and expenditure activity (at least 50% of these funds should be legally/contractually obligated). As referenced within the Grant Agreement, please note that 100% of these funds shall be legally/contractually obligated by February 1, 2022. Final reimbursement packages are to be completed and forwarded to OHSP by July 31, 2022. In addition, reimbursement request packages are to be submitted to OHSP on a quarterly basis, reference Section IX, A in the attached Grant Agreement.

OHSP recognizes there may be extraordinary circumstances that necessitate an extension on a case-by-case basis. FEMA has informed us, however, that they will only approve extensions based upon compelling legal, policy or operational challenges. Therefore, it is critical to observe the above provided performance dates.

During the period of performance for this grant, any intended programmatic changes must be submitted to OHSP within the GMS. Once the revised spending plan(s) have been reviewed and approved, spending authority for the documented changes will be granted. All programmatic changes must be approved by the County Working Group (CWG) from where the project was approved.

If you have any questions regarding this agreement, please contact Brian Doering, SHSP Grants Coordinator, at 609-584-4827. Thank you for your support as we continue working collectively to ensure the safety of our citizens.

Sincerely,

Jared M. Maples, Director
Office of Homeland Security and Preparedness

$285,000.00

These funds will be available to your agency for allowable program expenditures upon the completion of the requirements listed below:

Introduced on: October 8, 2019
Adopted on: October 8, 2019
Official Resolution #: R20190910
These funds will be available to your agency for allowable program expenditures upon the completion of the requirements listed below:

1.) Return of a signed FFY19 Grant Agreement and required attachments (A through F) by October 11, 2019, to the Grants Management Bureau, OHSP, at the above address.

2.) The awarding of these funds is conditioned upon your agency’s full participation with the OHSP Grant Management System (GMS). Your grant coordinator will be contacted by our grant liaison once the system is ready to accept entries for your approved projects.

Once these requirements are satisfied, spending authority will be granted and a fully executed Grant Agreement will be returned for your records. Failure to complete these requirements within the prescribed time frames may cause this award to be rescinded and any expenditures will be ineligible for reimbursement.

The attached Grant Agreement sets forth the certifications, terms, conditions and assurances required of your agency before OHSP will authorize the agency to make program expenditures eligible for reimbursement. Please review the Grant Agreement carefully. It is important that the Grant Agreement and required federal certifications are signed and returned to OHSP by October 11, 2019. It is extremely important to implement the activities in the approved Project Proposal(s) and Annex(es) in a timely manner to avoid reprogramming of any awarded funds.

The FFY19 UASI grant program has a thirty-six (36) month period of performance (September 1, 2019 to August 31, 2022). On or about February 1, 2021, OHSP will conduct a mid-term financial and programmatic review to determine progress in meeting stated objectives/goals and expenditure activity (at least 50% of these funds should be legally/contractually obligated). As referenced within the Grant Agreement, please note that 100% of these funds shall be legally/contractually obligated by February 1, 2022. Final reimbursement packages are to be completed and forwarded to OHSP by July 31, 2022. In addition, reimbursement request packages are to be submitted to OHSP on a quarterly basis, reference Section IX, A in the attached Grant Agreement.

OHSP recognizes there may be extraordinary circumstances that necessitate an extension on a case-by-case basis. FEMA has informed us, however, that they will only approve extensions based upon compelling legal, policy or operation challenges. Therefore, it is critical to observe the above provided performance dates.

During the period of performance for this grant, any intended programmatic changes must be submitted to OHSP within GMS. Once the revised spending plan(s) have been reviewed and approved, spending authority for the documented changes will be granted. All programmatic changes must be approved by the UASI Sub-Committee from where the project was funded and the UASI Executive Committee.
if you have any questions regarding this agreement, please contact Lisa Conte, UASI Grants Coordinator, at 609-584-5091. Thank you for your support as we continue working collectively to ensure the safety of our citizens.

Sincerely,

e. The expiration date of the Cooperative Pricing Agreement.

3) Each of the participating contracting units shall indicate, in writing to the Lead Agency, the items to be purchased by the contracting unit, the approximate quantities desired, the location for delivery and other such requirements necessary for the Lead Agency to prepare specifications as provided by law. Although the Lead Agency endeavors to serve the needs of all registered members of the Cooperative Pricing System, the Lead Agency may not be able to prepare specifications and/or solicit bids for all projects and makes no such guarantee.

4) The specifications shall be prepared and approved by the Lead Agency and filed as required by law, and no changes shall thereafter be made except as permitted by law. Nothing herein shall be deemed to prevent changes in specifications for subsequent purchases.

5) A single advertisement for bids/proposals or the solicitation of informal quotations for the work, materials or supplies to be purchased shall be presented by the Lead Agency on behalf of all registered members desiring to purchase any item in the Cooperative Pricing System. All advertisements and solicitations shall be made in compliance with the Public School Contracts Law.

6) The Lead Agency shall receive bids or quotations on behalf of all participating contracting units. The Lead Agency shall review said bids and, on behalf of all registered members, either reject all bids, or award a contract in compliance with the Public School Contract Law and the specifications. This award shall result in the Lead Agency entering into a master contract with the successful bidder(s) providing for two categories of purchases:

   a. The quantities ordered for the Lead Agency's own needs, and
   b. The estimated aggregate quantities to be ordered by other participating contracting units by separate contract, subject to the specifications and prices set forth in the Lead Agency's overall (master) contract.

The Lead Agency shall enter into a formal written contract(s) directly with the successful bidder(s) when required by law and, only after the Lead Agency has certified the funds available only for its own needs.
Each registered member shall: (1) certify that it has the funds available necessary for its own order(s) from the Cooperative Pricing System; (2) enter into a formal written contract directly with the successful bidder(s) when required by law and the project specifications; (3) issue purchase orders in its own name directly to the successful bidder(s) against said contract; (4) accept its own deliveries; (5) be invoiced by and receive statements from the successful bidder(s) and (6) be responsible for any tax liability. No registered member shall be responsible for payment for any items ordered or for performance generally, by or to any other registered member. Each registered member shall accordingly be liable only for its own performance and for items ordered and received by it.

The provisions of this paragraph shall be quoted or referred to and sufficiently described in all advertisements for bids by the Lead Agency so that each bidder shall be on notice as to the respective responsibilities and liabilities of the registered members.

7) Nothing in this Agreement shall prevent any registered member from awarding contracts of purchase, individually and on its own behalf, with or without advertising, except that invitations for such individual bids shall not be advertised nor bids be received during the period in which the Lead Agency is advertising for and receiving bids for the same items or commodities other than, in the case of the registered member’s emergency or hardship.

8) The Lead Agency reserves the right to exclude any item or commodity from within said system if, in its opinion, the pooling of purchasing requirements or needs of the participating contracting units is either not beneficial or not workable as to the Lead Agency or the registered members.

9) The Lead Agency shall appropriate sufficient funds to enable it to perform the administrative responsibilities assumed pursuant to this Agreement. It is understood that all fees for each participating contracting unit are paid to the Lead Agency by the successful bidder(s) with the exception of HCESC in-house order preparation (4%) and the fuel participation. This amount shall be paid forty-five (45) days from the receipt of billing from the Lead Agency.

10) This agreement shall become effective upon approval of the Director of the Division of Local Government Services and shall continue in effect for a period of five (5) years pursuant to N.J.A.C. 5:34-7.5(f), or until a party to this Agreement shall give written notice of its intention to terminate its participation in the Cooperative Pricing System.

11) All records or documents maintained or utilized pursuant to terms of this Agreement shall be identified by the code number assigned by the Director, Division of Local Government Services and such other numbers
as are assigned by the Lead Agency for purposes of identifying each contract and item awarded.

12) Additional local contracting units may from time to time, execute this Agreement by means of a Rider annexed hereto, which addition shall not invalidate this agreement with respect to other signatories. The Lead Agency is authorized to execute the Rider on behalf of the members of the System.

13) This Agreement shall be binding upon and inure to the benefit of the successors and assigns of the respective parties hereto.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed and executed by their authorized corporate officers and their respective seals to be hereto affixed.

RE: North Hudson Community Action Corporation
Service Description / Quote for the Passaic County Jail

STATEMENT OF SERVICES TO BE PROVIDED

The North Hudson Community Action Corporation (NHCAC) will provide specialty infection disease services for inmates in the Passaic County Jail. This will be accomplished through a contract between the County of Passaic and the NHCAC for services to be rendered at its Passaic NJ health Center. The frequency of the health center sessions will vary depending upon the number of patients that require specialty care, as identified by the Jail Medical Director.

It is anticipated that there will be two (2) sessions per month for a total of twelve (12) patients cared for per month or six (6) patients per session.

Cost Per Month for 2 sessions: $2,700

In addition, due to the new technology available to NHCAC, the organization is prepared to offer the County of Passaic the opportunity to have the sessions listed above performed through the use of telemedicine where the patient remains in the Jail and there is established an electronic connection which will allow for the medical professional at the NHCAC to appropriately diagnose and treat the patient.

Introduced on: October 8, 2019
Adopted on: October 8, 2019
Official Resolution #: R20190913
The NHCAC proposes to utilize its best efforts to provide pharmacy services to the inmates at the Passaic County Jail through the use of the 340B program. This program allows NHCAC, as a Federally Qualified Health Center (FQHC), to provide medications at a discounted price for eligible populations.

Based on the history of our service to the Passaic County Jail the NHCAC proposes the following:

Cost of Medication per month:
Anticipated not to exceed $15,000

Cost of Medication per year:
Not to exceed $180,000

As part of the monitoring of costs, NHCAC will provide the monthly invoices and an accounting of how much the County has been charged during the year of the contract.

The NHCAC has not billed the County of Passaic since August, 2017 for the medications or the sessions provided to the inmates at the Passaic County Jail, during this professional relationship. Therefore, the NHCAC proposes that the County reimburse the cost of medications and the cost of the sessions, as follows:

August 2017 to December, 2017:
Medications: $28,368.51
Sessions: $6,750.00
TOTAL: $35,118.5

January 2018 to October 2018:
Medications: $61,829.62
Sessions: $13,500.00
TOTAL: $75,329.62

November 2018 to July 2019:
Medications: $125,753.19
Sessions: $13,500.00
TOTAL: $139,253.19

It is requested that the County of Passaic approve a resolution awarding a contract which will allow for the County to retroactively pay NHCAC for the amounts that are in arrears, totaling $249,701.32.

RE: 2017 & 2018 Open Space Grants

Dear Ms Caren:

The Borough of Haledon currently has two Open Space Grants for work to be completed at the Roe Street Athletic Field. I am requesting a one year extension for the 2017 Grant for construction of a monument and landscaping so I can combine the work with the 2018 Grant (Field Lighting and Safety Netting). A 2020 construction schedule is planned. The idea of combining the projects is to hopefully get better item pricing.

I appreciate your consideration of this request.

Respectfully,

Re: Temporary Suspension of Article II, Section 28, prohibiting the use or sale of alcoholic beverages in all Passaic County Parks.

The Passaic County Parks Department received a permit application from Oshin Castillo of Paterson, New Jersey to celebrate her wedding on Sunday, October 13, 2019 from 9:00 am to 11:45 pm, at the Pasquaile “Pat” DiLanni Boathouse and Picnic Area located within Garret Mountain Reservation.

Ms. Castillo is requesting permission to allow consumption of alcoholic beverages during the wedding. The request was brought to and approved by the Public Works and Buildings & Grounds Committee by way of email communication on October 8, 2019. Ms. Castillo has provided the necessary insurance documents and has signed a hold harmless agreement.

The Passaic County Parks Department therefore requests that the Board of Chosen Freeholders adopt the necessary resolution authorizing a temporary suspension of the Passaic County Park Ordinance (Article II, Section 28), that prohibits the sale, serving and consumption of alcoholic beverages in all Passaic County Parks, in order to permit the consumption of alcoholic beverages during the above noted event to be held at the Garret Mountain Reservation on Sunday, October 13, 2019.
