COUNTY OF PASSAIC, NEW JERSEY

By: ____________________________

Freeholder-Director,
Deputy Freeholder-Director
or Director of Finance

The Freeholder-Director, Deputy Freeholder-Director or Director of Finance is hereby further authorized to execute such other certificates or agreements relating to this guaranty that may be required by the Authority to comply with the terms of the financing documents relating to the Obligations, including, without limitation, (i) any agreements or certificates detailing the time and method that payment under this guaranty shall be made by the County, (ii) any letters of representations or similar undertakings to be executed in connection with the sale of the Obligations, setting forth certain representations, warranties and covenants of the County as an inducement to the purchase of the Obligations, (iii) any certificates deeming “final” (for the purposes of Rule 15c2-12 of the U.S. Securities and Exchange Commission) any Preliminary or final Official Statements of the Authority in connection with the Obligations, and (iv) any bond purchase agreement or continuing disclosure agreement executed in connection with the sale of
the Obligations. Such further agreements or certificates shall not abrogate the County’s responsibilities hereunder.

The Freeholder-Director, Deputy Freeholder-Director or Director of Finance is hereby further authorized to execute one or more continuing disclosure agreement(s) or other instrument(s) undertaking the secondary disclosure obligations of the County required by Rule 15c2-12 of the United States Securities and Exchange Commission in connection with the issuance of any Obligations by the Authority.

Section 4. It is hereby found, determined and declared by the governing body of the County that:

(a) This guaranty may be adopted notwithstanding any statutory debt or other limitations, including particularly any limitation or requirement under or pursuant to the Local Bond Law, but the aggregate principal amount of the Obligations that shall be entitled to the benefits of this guaranty, being an amount not to exceed $37,000,000 outstanding at any time, shall after their issuance be included in the gross debt of the County for the purpose of determining the indebtedness of the County under or pursuant to the Local Bond Law.

(b) The principal amount of Obligations entitled to the benefits of this guaranty and included in the gross debt of the County shall be deducted, and is hereby declared to be and to constitute a deduction, from such gross debt under and for all the purposes of the Local Bond Law (i) from and after the time of issuance of the Obligations until the end of the fiscal year beginning next after the completion of the acquisition or construction of the project to be financed from the proceeds of the Obligations, and (ii) in any annual debt statement filed pursuant to the Local Bond Law as of the end of said fiscal year or any subsequent fiscal year, if the revenues or other receipts or moneys of the Authority in such fiscal year are sufficient to pay its expenses of operation and maintenance in such fiscal year and all amounts payable in such fiscal year on account of the principal of and interest on all such guaranteed Obligations, all Obligations of the County issued as provided in Section 36 of the Act (N.J.S.A. 40:37A-79), and all Obligations of the Authority issued under the Act.

Section 5. The following matters are hereby determined, declared, recited and stated:

(a) The maximum outstanding principal amount of Obligations of the Authority that are hereby and hereunder guaranteed as to the punctual payment of the principal thereof and interest thereon at any time is $37,000,000.

(b) The purpose described in this guaranty is not a current expense of the County, and no part of the cost thereof has been or shall be assessed on property specially benefited thereby.

(c) A supplemental debt statement of the County has been duly made and filed in the office of the Clerk of the Board, and a complete executed duplicate thereof has been filed in the office of the Director of the Division of Local Government Services in the Department of Community Affairs of the State, and such debt statement shows that while the gross debt of the County, as defined in the Local Bond Law, is increased by this guaranty by $37,000,000, in accordance with the provisions of the Act, the net debt of the County is not
increased, and the obligation of the County authorized by or incurred pursuant to the terms of this guaranty is permitted by an exception to the debt limitations of the Local Bond Law, which exception is contained in the Act.

(d) All other items to be contained in a bond ordinance adopted pursuant to the Local Bond Law are hereby determined to be inapplicable to the County's guaranty of the Obligations hereby.

Section 6. This guaranty shall take effect at the time and in the manner provided by law.

RE: PROPOSAL FOR ENERGY ADVISORY AND COMMODITY PROCUREMENT
CONSULTING FOR THE COUNTY OF PASSAIC, NEW JERSEY

PROPOSAL NO. TP20295.00

Dear Ms. Arvanitakis,

INTRODUCTION
In accordance with your request, Concord Engineering Group, Inc., dba Concord Energy Services (CES), is pleased to submit this proposal to provide Electricity and/or Natural Gas Energy Procurement/Consulting Services.

ENERGY PROCUREMENT PROGRAM DEVELOPMENT
CES proposes to assist the County with the development and implementation of an energy procurement program for the County and its Cooperative Participants to effectively navigate the deregulated electric and/or natural gas energy markets and to purchase energy at the lowest cost possible for facilities operated by the County and the Cooperative Participants. Specifically, CES will provide the County as the Lead Agent, with the scope of services identified below.

SCOPE OF SERVICES

Phase I

Program Design
- We will collect, assemble and analyze a minimum of twelve (12) months of historical electricity and natural gas usage data. We have the ability to obtain historical usage and utility data quickly and efficiently. Through our electronic data interchange (EDI) service provider DataTrans Solutions, Inc. (DTS), we have the ability to utilize DTS’ web-based platform and software to connect directly to the utility’s mainframe for the purposes of gathering historical usage and other relevant utility data in a fast and efficient manner.
Evaluation of historical usage patterns, perform load profile analysis, existing rate(s) and/or rate tariffs and existing pricing structures.

Assessment of available product structures and market pricing with a focus on risk tolerance and maximum measured savings for BGS and CIEP tariff rates. In energy contracting as with any endeavor, accepting certain calculated risks can yield significant rewards. Concord will advise the risks and rewards in detail and assist in making an informed decision on the adoption of the best suited sourcing strategy.

Provide recommendations for Bid Lots that include the aggregation of facilities and single source facilities where appropriate based on current load profile, LDC and rate tariff.

Provide commodity expertise of current and future market commodity conditions.

Provide expertise on the procurement of renewable energy strategies.

Development of strategic sourcing strategies and recommendations will be based upon reasonable, sound and defensible approaches to the commodity market with a focus on cost reduction and savings, safe and reliable supply, minimizing commodity market risk and exposure and maximizing Third Party Supplier (TPS) participation. Strategic sourcing strategies implemented will only be in your best interest.

Provide alternative energy usage analyses and reports as requested.

Program Development

Concord will recommend a procurement strategy which includes bid timing, contract duration, contract structure, pricing products to include pricing alternatives and account classifications for electricity and natural gas in accordance with the strategic sourcing and risk management strategy.

We will prepare and organize energy usage data, participating facility profiles, and develop formal bid specifications to include technical specifications and scope, Master Supply Agreements, and all necessary related bid documents required and in accordance with NJ Local Procurement Law and Administrative Code.

The RFP may include agreed upon aggregations of sites and/or single source sites.

Bid pricing will be requested and aggregated by Utility and then by utility/rate tariff to alleviate any subsidization of accounts i.e.: Large accounts or accounts with favorable load profiles from subsidizing the smaller accounts.

Identify all NUBPU licensed retail suppliers.

Assist in the development of energy budgets.

Assist and advise on other energy related services.

Assist with the advertisement of the RFB Notice of Intent as well as the issuance of the RFB either through the traditional bid process, online bid receipt or via an approved online platform pursuant to the Local Unit Electronic Technology Pilot Program.

Bidding Practices and Processes

Different bid processes and methodologies can create different objectives, but transparency is always a primary goal. Closed bid competitive purchase RFBs, online bid receipt or state-of-the-art online reverse auctions can be utilized. Concord's online bidding and reverse auction process and methodology are approved by New Jersey Division of Local Government Services pursuant to the Local Unit Electronic Technology Program, (P.L.2001, c. 30). Our Online Auction Platform complies with the new rules N.J.A.C. 5:34-5.1 through 5.15, which establish the regulatory framework for electronic procurement. Over the last decade, Concord has been involved with numerous approaches to bidding including the Traditional Sealed Bid format and Online Reverse Auction methods. Concord will work with the Client to determine a bidding practice that will yield optimum results and create a robust competitive environment. Many factors will come into consideration to determine whether the Online Bidding and/or Reverse Auction method is appropriate. Factors such as annual consumption, number and complexity of
accounts and bid lots, potential supplier participation, as well as rate tariffs will be taken into consideration.

Once data collection and load profiling has been completed, we will meet and discuss the benefits and considerations of each available approach, helping to decide which process is best to proceed.

Phase II

Program Execution
We will administer the bid process and ensure all NJBPU licensed suppliers receive the bid per appropriate channels and respond to all requests for information (RFI) from potential bidders as appropriate and make the Client aware of such requests and responses. Concord will attend all bid openings, review all bid responses, analyze all bid results and provide recommendations for award of contracts.

Concord will provide a complete audit trail to include all supplier communications to include the Q&A stage of the RFB with prospective and/or actual bidders. Concord will prepare the bid specifications and all addendum required and ensure receipt from all bidders. Concord will provide pre-bid meetings to review the bid specifications and allow for questions to be submitted and answered. This process has been very successful in ensuring that all required bid documents are received in order to ensure all parties are provided with the same information at the same time.

Continued Monitoring and Ongoing Support
We believe the services provided in this stage are most important and extremely valuable to our Clients. As part of our energy consulting service, Concord provides ongoing post award and Energy Advisory Account services and support as needed and requested throughout the duration of the term.

After finalization of supplier contracts, Concord will fully manage the utility supplier relations to include coordination of the enrollment of all accounts with the supplier and utility and assist as necessary with periodic supplier billing review and all Supplier billing issues and dispute resolution.

Concord will also provide assistance on local utility issues to include LDC tariffs, service account classifications, metering and billing issues. Concord will also monitor regulatory changes that may affect future bids and be available to answer questions about the process and results. Concord will also continually monitor third party energy supplier’s credit rating, ability to perform, standing and services. In addition, we will be available at any time for expert advice and provide continuous support for all programs.

Continuous Program Refinement
Concord will continue to provide superior customer service and program refinement services. We will continually monitor the market for future buying opportunities and communicate material events or changes including future savings opportunities. This dynamic approach will be incorporated to ensure sourcing of future commodity requirements are as market opportunities dictate, not as contracts expire. We will monitor the competitive environment and work to develop and implement appropriate cutting-edge sourcing strategies that ensure minimum risk, budget stability and ongoing maximum savings.

COMPENSATION
In recognition of Concord’s services provided under this Agreement, Concord proposes that our fees be structured as an Energy Agent Consulting Fee that will be incorporated into the electricity supply and or natural gas supply bid specifications as a $/KWh or $/therm fee. This fee will be included in the Third-
Party Supplier (TPS) bid pricing received and incorporated into each awarded energy supply contract to be paid to Concord based upon actual monthly usage for the duration of the contract term. Concord will not require any upfront fees for the Consultant/Administration of the County’s Cooperative Program.

The specific all-inclusive Fee Concord proposes for its services.

Concord’s services as the energy consultant to the County of Passaic for all services shall commence on the date of this proposal and such services shall continue for a period of one (1) year, the remainder of this calendar year (2020), or for the duration of the Third Party Supplier agreement, whichever is longer.

We trust you will find the terms and conditions described above satisfactory. If so, please indicate your acceptance by issuing the necessary resolution and returning one signed copy of this confirming proposal to our office. We look forward to assisting you in this project. Paterson, NJ 07505

Dear Ms. Browne:

Due to a significant decrease in Drug Enforcement Demand Reduction (DEDR) Fund collections in Fiscal Year 2020, the Governor's Council on Alcoholism and Drug Abuse (GCADA) is announcing a reduction to the previously awarded county grants for Fiscal Year 2021. The Governor has extended the state budget for Fiscal Year 2020 to include five fiscal quarters ending on 9/30/2020 and shortened Fiscal Year 2021 to have three fiscal quarters beginning on 10/1/2020 and ending on 6/30/2021.

The Governor's Council on Alcoholism and Drug Abuse (GCADA) is announcing its intention to provide a revised grant to Passaic County for the Fiscal Year 2021 Alliance to Prevent Alcoholism and Drug Abuse Program. The revised allocation for Fiscal Year 2021 per formula from the Drug Enforcement Demand Reduction (DEDR) Fund, including coordination is $181,571.

The grant period will begin October 1, 2020 and continue through June 30, 2021. This letter of intent is contingent upon the availability of funds and is subject to the rules of the New Jersey Department of Treasury.
County coordination funds are included in your funding formula award. Counties may take a maximum of $52,500 toward County Coordination in Fiscal Year 2021. In Fiscal Year 2022, the county coordination maximum funding will restored to $70,000 for those four quarters. County spending plans will be approved by the GCADA in accordance with established grant guidelines.

In Fiscal Year 2021, up to 5% of DEDR funds up to a maximum of $15,000, may be used for countywide activities. These activities should focus on training for the Municipal Alliances and community partners. The trainings and activities chosen must benefit the county-at-large and are held at the County’s discretion.

Counties will only be permitted to contract with Municipal Alliances that attended the required GCADA trainings on the needs assessment and strategic planning process. Refer to the enclosed “Guidelines for Distributing Funds from Non-Participating Municipalities” for assistance with reallocating funds from municipalities that are not participating for FY 2021.

All funds will be reimbursed to the counties after receipt and acceptance of the required expenditure reports, programmatic reports and vouchers including supporting backup documentation.

The submission and approval of the revised County Alliance Plan, including a detailed budget for county coordination and countywide activities, will be required to access these funds. Plans must be submitted to GCADA by August 3, 2020. Plans received post the due date will not be assured of approval by October 2020.

Please be advised that no County Alliance Plan will be reviewed or presented to the full Council for approval if the County is not up to date with its expenditure and programmatic reports for the prior grant term.

The County’s continued cooperation and support are appreciated.

Sincerely,

The grant period will begin July 1, 2020 and continue through June 30, 2021. This letter of intent is contingent upon the availability of funds and is subject to the rules of the New Jersey Department of Treasury.

County coordination funds are included in your funding formula award. Counties may take up to 15% of their DEDR award with a minimum of $70,000. The total amount of coordination funds available for your county for FY 2021 is $82,250.75. County spending plans will be approved by the GCADA in accordance with established grant guidelines.

Up to 5% of DEDR funds up to a maximum of $20,000, may be used for countywide activities. These activities should focus on training for the Municipal Alliances and community partners. The trainings and activities chosen must benefit the county-at-large and are held at the County’s discretion.

Res-Pg:n.8-10
Res-Pg:k.31-5
Counties will only be permitted to contract with Municipal Alliances that attended the required GCADA trainings on the needs assessment and strategic planning process. Refer to the enclosed “Guidelines for Distributing Funds from Non-Participating Municipalities” for assistance with reallocating funds from municipalities that are not participating for FY 2021.

All funds will be reimbursed to the counties after receipt and acceptance of the required expenditure reports, programmatic reports and vouchers including supporting backup documentation.

The submission and approval of the County Alliance Plan, including a detailed budget for county coordination and countywide activities, will be required to access these funds. Plans must be submitted to GCADA by February 1, 2020. Plans received past the due date will not be assured of approval by July 2020.

Please be advised that no County Alliance Plan will be reviewed or presented to the full Council for approval if the County is not up to date with its expenditure and programmatic reports for the prior grant term.

The County's continued cooperation and support are appreciated.

Sincerely,

Celina Levy
Acting Executive Director

C: Donna Huber, Passaic County Alliance Coordinator
Guidelines for Distributing Funds from Non-Participating Municipalities

When determining the county's Municipal Alliance funding distribution, every municipality in the county must be allocated with funding. Although not every municipality in the county may be participating in the Municipal Alliance Program, it is important to allocate funding to each municipality in the event that the choice is made to reestablish the Municipal Alliance in the middle of a grant cycle. The funds set aside to the non-participating municipalities must then be reallocated utilizing one or more of the following options:

1. Allocate the funds into a supplemental category for the Municipal Alliances

Supplemental funds may be added to the base funding amount allocated by formula if a county is certain that there are municipalities that are not participating for the next grant year and before the Alliances are notified of their allocation. Supplemental funds may be added to participating municipalities based on criteria set by the County Alliance Steering Subcommittee. Criteria that should be considered are an Alliance’s ability to utilize the funds appropriately as well as its history of meeting reporting requirements in a timely and efficient manner.

Example: Anytown is a municipality that is not participating in the Municipal Alliance Program and is allocated $3,000 based on the county funding formula. The funding for Anytown may be reallocated to Town 1, Town 2, Town 3 and Town 4 since they have shown to provide exceptional programming and meet all the reporting deadlines with efficiency as shown here:

2. *Place the funds into countywide activities*

As long as the county allocation for countywide activities falls under 5% of the DEDR allocation up to a maximum of $20,000, then the county may choose to place the funding allocated to the nonparticipating municipality towards countywide activities. The countywide activity form must be completed and approved by GCADA prior to program implementation.

3. *Develop a Special Project RFP*

The county may develop a Request for Proposal (RFP) process to distribute the funds allocated to non-participating municipalities. This is considered a special project application with the terms and criteria determined by the County Alliance Steering Subcommittee. GCADA forms must be used in the application process. All RFPs must be approved by the CASS and GCADA prior to program implementation.

Official Resolution#: R20200557
1. **Description of the Applicant, Qualifications and Experience in Providing Proposed Services:**

FC Cares Inc. was formed in response to the ongoing and increasing mental health crisis facing today’s youth. Suicide rates have increased by almost 60% among New Jersey’s youth aged 15 to 24. Mr. Steven Fiedeldey, has been employed by the Ringwood Public Schools for the past 11 years, first as a school psychologist and then as the Director of Special Services. Mr. Fiedeldey has obtained a BA in psychology, MA in Educational Psychology, MA in Educational Leadership, while also holding certificates from the New Jersey Department of Education as School Psychologist and Principal. Mr. Fiedeldey is also currently enrolled at the International Institute for Restorative Practices to obtain his MA in Restorative Practices. FC Cares Inc. was formed at the encouragement of Mr. Fiedeldey’s superintendent of schools with the primary purpose of helping to support neighboring towns’ target population of students, staff, and families struggling with our mental health crisis.

As the Director of Special Services for the Ringwood Public Schools, Mr. Fiedeldey has spearheaded his department’s growth, development, and adaptation of comprehensive and robust crisis intervention procedures. These procedures include the adoption and adaptation of evidence-based instruments to screen for suicidality, non-suicidal self-injurious behavior, and threat to others. More recently, Mr. Fiedeldey initiated a universal screening for depression for middle school students. Those students then receive school-based therapy to help alleviate the symptoms of depression interfering with their ability to access their education. All students reported decreased symptoms of depression during this intervention. Mr. Fiedeldey has conducted workshops and trainings on these initiatives and others for Passaic County schools, neighboring counties, and at state level conferences. Given his dedication to the social-emotional well-being of our youth for his entire career and proven results, it is anticipated that FC Cares Inc., will provide exceptional services and a continuum of professional learning for others within Passaic County to help fight our mental health crisis which has only been exacerbated by COVID-19.

2. **Existing and Proposed Relationships with other Agencies and Individuals**

FC Cares Inc’s board members are Steven Fiedeldey, Sarah Fiedeldey, and Victoria Trbuhoich. Steven is employed full-time by the Ringwood Public Schools and Montclair State University where he serves as an adjunct professor. Sarah Fiedeldey works for Gravity Goldberg LLC as a literacy consultant. Victoria Trbuhoich is a retired teacher.

Official Resolution #: R20200557
3. **Target population and Communities to Be Served:**
The target population and communities to be served may include students, families, and educators within Passaic County.

4. **Existing Need Indicators for the Proposed Service:**
Research and reporting from the Center for Disease Control is clear that as a nation we are facing increased deaths by suicide of which many suffer from mental health conditions. In 2016, we lost nearly 45,000 individual to suicide. Along with increase rates of suicide, the National Institute of Mental Health reports rates of anxiety and depression increasing. Currently both the New Jersey State Assembly and Senate have approved legislation that would mandate universal depression screening for students in grades 7 – 12.

5. **Description of Project:**
The overview of the project Addressing Our Mental Health Crisis, is to offer professional consulting services to Passaic County schools, staff, and families. These services will be individualized to meet the need of the school district and may include professional learning around crisis intervention / risk assessment, social-emotional learning, restorative practices, universal screening for depression, suicide gatekeeper training, and other mental health related issues. The specific methodologies and approaches are all evidence-based interventions. For example crisis intervention / risk assessment interventions rely on the Columbia Suicide Severity Rating Scale, Non-Suicidal Self-Injury Assessment Tool (NSSI-AT), Functional Assessment of Self-Mutilation (FASM), and the Virginia Student Threat Assessment Guidelines. The screening for depression utilizes the Columbia DISC Depression Scale, while the suicide gatekeeper training is Question, Persuade, Refer (QPR). In working with the Passaic County schools, FC Cares Inc. will not maintain any client records. All student records will be maintained by the local education agency (LEA), and it is their responsibility to ensure that they are FERPA compliant.

Training will occur during the 2020 calendar year at times identified by local education agencies. The goal is for the targeted population of students, families and/or staff connected with Passaic County schools to increase their professional knowledge / skills through quality training / professional learning on social-emotional issues that may include mental health, suicide gatekeeper training, depression screening, crisis intervention, and/or risk assessments during the 2020 calendar year.

6. **Facilities/Equipment:**
All professional learning will take place at the facilities of Passaic County schools.

7. **Staffing:**
Staffing for the work outlined in this grant will all be completed by Mr. Steven Fiedeldey.
8. **Evaluation:**
   FC Cares Inc. will distribute program evaluation forms at the conclusion of each day of training during the 2020 calendar year. The measureable outcomes will evaluate the effectiveness of intervention outlined by the following outcomes:
   (1) For each day of training, 75% of the population receiving training or participating in professional learning will experience an increase in professional knowledge as indicated on the participant completed program evaluation form.
   (2) For each day a unique population is trained, 75% of participants will rate the training and/or professional learning 3 out of 5 as indicated on the participant completed program evaluation form.
   (3) For each day of training, 80% of targeted population will participate in the professional learning experience.

9. **Budget Requirements**
   The budgeting requirements as outlined in Annex B, requires a daily consulting fee of $2,300 per day along with $200 of supplies for day. This would total $16,100 in consulting fees and $1,400 in supplies. This rate is in keeping with the professional norms of other quotes for consulting work in schools that reach $3500 per day.

To Whom It May Concern:

Our country is facing a national mental health epidemic. FC Cares Inc. hopes to provide the desperately needed expertise and partnership for schools to be proactive in supporting the social-emotional well-being of their students.

**Universal Screening for Depression:**
FC Cares Inc. will share years of experience to help expedite and navigate and educate districts regarding the process of universal screening for depression. We will collaborate with district staff and develop a personalized standard operating procedure. We share our experiences and best practices in the actual deployment of the depression screener and next steps for on-going school-based counseling. Our goal is to form a partnership with Passaic County school districts through every step of this critical process.

**Crisis Intervention / Risk Assessment Protocols and Procedures:**
Another service offered with these monies is professional learning centered around crisis intervention / risk assessment protocols and procedures. When it comes to students making comments about wanting to hurt themselves or others, staff deserve the training and protection of utilizing evidence-based instruments to make their decisions. FC Cares Inc. will work with districts to develop customized standard operating procedures for staff to screen students who may pose a threat to themselves or others. Upon completing this training, staff are able to confidently assign a risk level to a student in need and respond in a measured and appropriate way. A lack of systems and structures results in school staff erring on the side of caution, which often puts an excess number of students through the financial and emotional burden of unnecessarily being medically cleared to return to school. The adoption of a comprehensive package of evidence-based risk assessment instruments and standardized procedures results in districts maximizing resources, while acting from a position of legally defensible best practices to support student mental health.

**Suicide Prevention:**
Staff will be trained in identifying early signs of suicide, ways to offer hope, and how to compassionately persuade them to seek appropriate help. When it comes to suicide prevention training you might ask who should be trained? Teachers, Students, Parents, Paraprofessionals, Administrators, Bus Drivers, Custodians, Cafeteria staff. Anyone. EVERYONE. The warning

Moreover, upon investigation, the Overdose Fatality Review Team may find that the overdoses occurring in Clifton, Wayne, West Milford, etc. have some type of connection or root cause that leads back to Paterson. Assuring continual interaction and data sharing between a County-based Overdose Fatality Review Team and Paterson COAR will be transformative in our jurisdiction, and potentially other counties, in the long run. It will ensure that investigations do not begin and end within one municipality, but have the potential to transcend traditional borders and begin viewing this problem from a region-wide lens, assuring it is more likely to be evaluated and addressed appropriately. This is why all current partners (including the Passaic County Division of Mental Health and Addiction Services) agree that the Overdose Fatality Review Team is best operated at the County level and tapped into municipal-based coalitions, such as Paterson COAR, in order to make a sincere impact on the region as well as specific communities.

Methods: The Passaic County Department of Health Services plans to hire one Coordinator to support the Overdose Fatality Review Team. The Coordinator will be responsible for overseeing the team’s operations on behalf of the County of Passaic. The Coordinator will have primary responsibilities:

1. Establish a working-group of agencies that either has the potential to come into professional contact with a person suffering from opioid addiction or has the means to assist such a person in overcoming/managing that addiction.
2. Research and select opioid-related fatality cases for review and prepare cases for review by the Overdose Fatality Review Team.
3. Facilitate and coordinate Overdose Fatality Review Team meetings.
4. Oversee the collection of statistical data from various partners of and on behalf of the Overdose Fatality Review Team.
5. Establish and implement a mechanism by which opioid-related fatalities are reviewed with these agencies on a periodic basis, for the purposes of identifying policy changes that might benefit the system that is in place to help those who suffer from this addiction overcome/manage it.
6. Take policy recommendations from local and regional working-groups and seek to implement recommendations as appropriate feasible.

Short-term deliverables from the Overdose Fatality Review Team will include identification of (1) systems and agencies that the decedent interacted with, (2) reasons for system disengagement (i.e. if additional supports could have helped the individual stay engaged with treatment), (3) system gaps (i.e. the individual was not appropriately followed up with or provided a helpful referral), and (4) scenario-specific details that can support our understanding of overdose trends overall.

Long-term deliverables from the Overdose Fatality Review Team will include (1) stratagizing how to fill system gaps, (2) identifying trends, (3) addressing trends with long-term solutions in order to reduce future opioid overdoses, (4) conducting an ongoing evaluation of system performance over time, and (5) conducting an ongoing evaluation of team performance over time.

Overdose Fatality Review Teams – Letter of Intent (LOI) for the County of Passaic

Program Contact: Charlene Gongil, 973-881-4396

SAGE Contact: Andrea M. Ramalho, 973-998-1920

Aim: The Passaic County Department of Health Services plans to form and implement an Overdose Fatality Review Team that involves support from the Regional Medical Examiner’s Office that services Passaic County cases through the Passaic County Prosecutor’s Office. The goal of this group is to better examine and understand local causes and circumstances surrounding opioid overdoses, and to identify trends regarding the victim’s extent of engagement with the local system of care prior to overdosing through a comprehensive social autopsy. This team will include community services, local government agencies (including municipal-level local Health Departments), hospitals, treatment providers, police, EMS, corrections, and any other first response or service provider who may have interacted with the decedent.

Significance: When compared with statewide drug treatment admissions data, the New Jersey Substance Abuse Monitoring System shows that Passaic County is disproportionately impacted by the opioid epidemic and drugs than other areas of the state. For example, while Passaic County is the 9th-most populous county of New Jersey’s 21 counties, it accounts for the 7th-highest concentration of opioid treatment admissions statewide. Trend data shows that Passaic County residents admitted to substance use treatment for heroin or other opioid addictions are more likely to be: older (age 45+); male; of a minority background (Hispanic or Black/African American); and entering drug treatment by way of the criminal justice system. This is an overall trend seen in data spanning from 2017 into 2020. More concretely, drug statistics at the County level show that Passaic County’s data is primarily reflective of that of the City of Paterson, specifically, as the City is home to a disproportionate concentration of all heroin, opioid, and drug admissions countywide. Passaic County’s 2018 New Jersey Drug and Alcohol Abuse Treatment Report shows that while Paterson City only comprises 29% of the County’s population, it accounts for 51.6% of all drug treatment admissions and 55.3% of all heroin and opioid treatment admissions countywide. Among Paterson’s drug admissions, 49% were specific to a heroin or opiate addiction. The next-highest percentage comes from Passaic City, which accounts for 10% of all drug treatment admissions and 5.2% of all heroin and opioid treatment admissions countywide. The City of Clifton accounts for 7.8% of its opioid treatment admissions while the Township of Wayne accounts for 6.8% of opioid treatment admissions countywide.

Recently, the County has been working with the City of Paterson and its Comprehensive Opioid Response Assessment (COAR) Coalition in order to address the City’s significant, disproportionate opioid issue. This team has watched other counties begin developing their own Overdose Fatality Review Team and has been hopeful for such a resource to arrive in Passaic County. Thus, the significance of this team is that it will have major implications in an overdose hot-bed such as Paterson, wherein the City’s opioid overdose data is largely reflective of the County’s own opioid epidemic, and where resources are aligning to tackle this issue head-on. However, and very importantly, the team will also be regionally significant because it will address and evaluate overdoses that occur in other/suburban municipalities that are just as equally important to understanding the County’s opioid epidemic, its social support systems, and trends overall.

RE: Notice of Award - Program Year 2020 - Workforce Innovation and Opportunity Act Youth Allotments

Dear Ms. Cassandra Lazzara,

I am pleased to announce that the U.S. Department of Labor (USDOL) has provided Workforce Innovation and Opportunity Act (WIOA) allotments for Program Year 2020 (July 1, 2020 through June 30, 2021). The enclosed Notice of Award (NOA) reflects the allocation of the Youth funds for your Workforce Development Area. Final determination of the allocation for Youth funding is contingent upon authorization and availability from the USDOL.

Please incorporate these funds into your Program Year 2020 Workforce Development Area Contract. As WIOA legislation allows a portion of these funds to be used for administrative purposes, including the activities of the Workforce Development Area, we recommend setting aside a proportionate amount of your allocation for this purpose.

Program Year 2020 funds must be 80 percent obligated by June 30, 2021 and fully expended by June 30, 2022 or returned to the state. The period of availability of funds is April 1, 2020 through June 30, 2022.

If you have any questions regarding the issuance of this NOA, please contact Hugh Bailey, Assistant Commissioner, Workforce Development, at 609-984-9444.

Sincerely,

Robert Asare-Angelo

RE: Emergency Contract Award to JA Food Service pursuant to N.J.S.A. 40A:11-6

Dear Ms. Arvanitakis:

On March 9, 2020, New Jersey Governor Philip D. Murphy issued Executive Order No. 103 declaring a Public Health Emergency and State of Emergency exists in the State of New Jersey in response to the Coronavirus disease 2019 (hereafter “COVID-19”). As may know, the Passaic County Department of Senior, Disability Services & Veterans’ Affairs operates senior congregate food sites throughout Passaic County, as well as the Meals on Wheels Program delivering meals to homebound seniors. In some instances, these are the only meals available to Passaic County seniors on a daily basis. It is vital to public health, safety, and welfare of those seniors that these meals continue to be offered throughout the Public Health Emergency declared by Governor Murphy.

Consequently, and pursuant to the authority vested in the County Administrator pursuant to N.J.S.A. 40A:11-6, I am authorizing an award of contract to JA Food Service in the amount of twenty three thousand two hundred thirty seven dollars and fifty cents ($23,237.50) for the purchase of food and meals necessary to continue the operation of these programs. Likewise, the County Counsel, Chief Financial Officer, and Purchasing Agent are authorized to take all necessary action to ensure performance of the contract with JA Food Service, and specifically, pursuant to N.J.S.A. 40A:11-6(o), once the goods are received, the Chief Financial Officer is authorized to render payment for same.

Thank-you for your anticipated cooperation.

Sincerely,

Anthony J. DeNova, III

Legal Provisions Related to Use of Emergencies

40A:11-6 Emergency contracts

6. Emergency contracts. Any contract may be negotiated or awarded for a contracting unit without public advertising for bids and bidding thereof, notwithstanding that the contract price will exceed the bid threshold, when an emergency affecting the public health, safety or welfare requires the immediate delivery of goods or the performance of services, provided that the awarding of such contracts is made in the following manner:

a. The official in charge of the agency wherein the emergency occurred, or such other officer or employee as may be authorized to act in place of that official, shall notify the purchasing agent, a supervisor of the purchasing agent, or a designated representative of the governing body, as may be appropriate to the form of government, of the need for the performance of a contract, the nature of the emergency, the time of its occurrence and the need for invoking this section. If that person is satisfied that an emergency exists, that person shall be authorized to award a contract or contracts for such purposes as may be necessary to respond to the emergent needs. Such notification shall be reduced to writing and filed with the purchasing agent as soon as practicable.

b. Upon the furnishing of such goods or services, in accordance with the terms of the contract, the contractor furnishing such goods or services shall be entitled to be paid therefor and the contracting unit shall be obligated for said payment. The governing body of the contracting unit shall take such action as shall be required to provide for the payment of the contract price.

c. The Director of the Division of Local Government Services in the Department of Community Affairs shall prescribe rules and procedures to implement the requirements of this section.

d. The governing body of the contracting unit may prescribe additional rules and procedures to implement the requirements of this section.

N.J.A.C. 5:34-6.1 General requirements (edited as to applicability)

(a) The use of emergency purchasing pursuant to N.J.S.A. 40A:11-6 or 18A:18A-7 shall be subject to the following requirements:

1. An actual or imminent emergency must exist requiring the immediate delivery of the goods or the performance of the service;

3. The emergency purchasing procedure may not be used unless the need for the goods or services could not have been reasonably foreseen or the need for such goods or services has arisen notwithstanding a good faith effort on the part of the contracting unit to plan for the purchase of any goods or services required by the contracting unit;

4. The contract shall be of such limited duration as to meet only the immediate needs of the emergency; and

5. Under no circumstances shall the emergency purchasing procedure be used to enter into a multi-year contract.

(b) The governing body of each contracting unit shall adopt rules or regulations as appropriate to the contracting unit to ensure that there is a procedure for determining and confirming the existence of an emergency and that the provisions for emergency purchasing pursuant to N.J.S.A. 40A:11-6 or 18A:18A-7 may be implemented. Such rules or regulations shall include such provisions that ensure that if initially designated individuals are not available, there is a designated chain of command to ensure that there are always appropriate individuals available to make such decisions.

18A:64A-25 Emergency purchases and contracts

6. Any purchase, contract, or agreement may be made, negotiated or awarded by a county college without public advertising for bids and bidding therefore, notwithstanding that the cost or contract price will exceed $25,000* or, commencing January 1, 2003, the amount determined pursuant to subsection b. of section 3 of P.L. 1982, c.189 (C.18A:64A-25.3), when an emergency affecting the health, safety or welfare of occupants of college property requires the immediate delivery of the materials or supplies or the performance of the work, provided that such purchases, contracts or agreements are awarded or made in the following manner:

a. A written requisition for the performance of such work or the furnishing of materials or supplies, certified by the employee in charge of the building, facility or equipment where the emergency occurred, is filed with the contracting agent or his deputy in charge, describing the nature of the emergency, the time of its occurrence, and the need for invoking this section. The contracting agent, or his deputy in charge, being satisfied that the emergency exists, is hereby authorized to award a contract for said work, materials or supplies.

b. Upon the furnishing of such work, materials or supplies in accordance with the terms of the contract or agreement, the contractor furnishing such work, materials or supplies shall be entitled to be paid therefor and the county college shall be obligated for said payment.

c. The board of trustees may prescribe rules and procedures to implement the requirements of this section.

* This provision is superseded by the provisions of N.J.S.A. 19:44A-20.4 threshold of $17,500

EMERGENCY PROCUREMENT REPORT

Procedure

An Emergency Procurement Report is required when municipalities, counties, and their instrumentalities and agencies (public agency) experience an emergency that warrants the immediate delivery of goods or services and in doing so, are unable to comply with the “Pay-to-Play” provisions of N.J.S.A. 19:44A-20.4 et seq. N.J.S.A. 19:44A-20.12 provides in pertinent part that:

“Nothing contained in this act shall be construed as prohibiting the awarding of a contract when the public exigency requires the immediate delivery of goods or performance of emergency services as determined by the State Treasurer.”

The State Treasurer has determined that approval under this provision is automatically granted when:

1. A public agency finds the public’s health, safety or welfare requires the immediate delivery of goods or the performance of services.

3. Contracts are issued in response to a formal declaration of an emergency by the Governor.

Emergency Report Required

The Treasurer also requires that when a contracting agency uses these provisions, the agency’s purchasing agent or other appropriate personnel shall file with Director of the Division of Local Government Services an “Emergency Procurement Report,” within 30 days of the date the contract was issued. Contracts relating to a formal declaration of an emergency by the Governor are exempt from the reporting provision.

Certain information is necessary to address situations in which an exigency/emergency affecting the public’s health, safety or welfare requires the immediate delivery of goods or the performance of services.

---

1 This language has been interpreted by the State to include among others, local authorities, fire districts, and county colleges.

The Department of Senior Services requests permission to authorize an emergency contract to conduct emergency provision of a 5 day supply of shelf stable meals to our homebound and congregate participants for the Passaic County Division of Nutrition. This situation is vital to public health, safety and welfare of the seniors that meals continue to be offered throughout the public health emergency.

Thank you for your consideration.

RE: Notice of Award - Program Year 2020 - Workforce Innovation and Opportunity Act  
Adult and Dislocated Worker Allotments  

Dear Ms. Cassandra Lazzara:  

I am pleased to announce that the U.S. Department of Labor (USDOL) has provided Workforce Innovation and Opportunity Act (WIOA) allotments for Program Year 2020 (July 1, 2020 through June 30, 2021). The enclosed Notice of Award (NOA) reflects the allocation of the Adult and Dislocated Worker funds for your Workforce Development Area. Final determination of the allocation for Adult and Dislocated Worker funding is contingent upon authorization and availability from the USDOL.  

Please incorporate these funds into your Program Year 2020 Workforce Development Area Contract. As WIOA legislation allows a portion of these funds to be used for administrative purposes, including the activities of the Workforce Development Area, we recommend setting aside a proportionate amount of your allocation for this purpose.  

Program Year 2020 funds must be 80 percent obligated by June 30, 2021. All funds must be fully expended by June 30, 2022 or returned to the state.  

If you have any questions regarding the issuance of this NOA, please contact Hugh Bailey, Assistant Commissioner, Workforce Development, at 609-984-9414.  

Sincerely,

RE: Project Funds – CSBG ND COVID 19 CARES Act

Dear Mr. Almata:

Passaic County will receive Community Services Block Grant (CSBG) Non-Discretionary (ND) COVID 19 CARES Act funds of approximately $424,806. Your first allocation is approximately $148,507.

As of April 17, 2020, Health and Human Services has not provided the states with a date on which agencies may attribute costs related to this public health emergency, but we anticipate the CSBG ND grant funds will be available from April 1, 2020 through September 30, 2022. Please ensure that the agencies you subcontract with are aware of the timeframe since this differs from past contract years. If you require additional time to utilize funds, a grant revision would be necessary.

If you have any questions, please do not hesitate to contact me at (609) 633-6129.

Sincerely,

Scott Bruno

Good Morning,

Attached you will find a copy of the Public Works and Buildings and Grounds Committee Meeting Agenda for August 28th, 2019. The Agenda includes and was moved on the extensions for Both Stone Industries and Tilcon. There is a letter requesting an extension for Tilcon and one for Stone Industries for Ms. Allwaters, a resolution request two for Tilcon and one for Stone, a requisition for a partial payment purchase order for Stone and two for Tilcon, copies of the original resolutions and supporting letters, requisitions, resolution requests, and contract award brake down for both Stone industries and Tilcon. Perhaps the problem was that Tilcon and Stone both have awards for District II and Tilcon is the sole award for District I.

Subject: SB-18-063, Road Material District II

Good morning,

I am reaching out to you concerning SB-18-063, Road Material District II, awarded bid vendors.

R20180968 (see attached) awarded a contract, from 11/1/18 through 10/31/19 with a one-year option to renew, to two qualified vendors, Tilcon New York (3 items) and Stone Industries (11 items).

R20190795 (see attached) authorized the one-year option to renew the contract with Tilcon New York. Since Stone Industries was left out from the Resolution Request Form (see attached), the contract with Stone Industries ended 10/31/19.

Therefore, please amend R20190795 in order to reinstate the contract with Stone Industries.

Thank you.

Re: Well drilling at Garret Mountain Equestrian Center

The Passaic County Parks Department Equestrian center located at Garret Mountain is in need of a new water well. The existing well was routinely tested for contaminates earlier this year and failed. The well was examined and it was determined that corrective action had already been taken for this issue at some point in the past and was no longer working. Due to this fact, it was determined that a new well will need to be drilled. Proposals were received from 3 well drillers, Slater Well Drilling (1045 Macopin Road West Milford NJ 07480) submitted a quote for $18,012. Whitwar drilling (485 Will Court Oakland NJ 07436) submitted a quote for $18,850. Eastern Well Drilling (PO Box 629 Wanaque NJ) submitted a quote for $19,250.

The Parks Department would like to use Slater Well Drilling for the installation of the new well in the amount of $18,012. This was approved at the public works committee meeting on June 3rd 2020.

The Parks Department is therefore requesting that the Board of Chosen Freeholders adopt the necessary resolution authorizing Slater Well Drilling to drill the new well at the Garret Mountain Equestrian center in the amount of $18,012.

Re:    Well drilling at Garret Mountain Equestrian Center

The Passaic County Parks Department Equestrian center located at Garret Mountain is in need of a new water well. The existing well was routinely tested for contaminates earlier this year and failed. The well was examined and it was determined that corrective action had already been taken for this issue at some point in the past and was no longer working. Due to this fact, it was determined that a new well will need to be drilled. Proposals were received from 3 well drillers. Slater Well Drilling (1045 Macopin Road West Milford NJ 07480) submitted a quote for $18,012. Whitwar drilling (485 Will Court Oakland NJ 07436) submitted a quote for $18,850. Eastern Well Drilling (PO Box 629 Wanaque NJ) submitted a quote for $19,250.

The Parks Department would like to use Slater Well Drilling for the installation of the new well in the amount of $18,012. This was approved at the public works committee meeting on June 3rd 2020.

The Parks Department is therefore requesting that the Board of Chosen Freeholders adopt the necessary resolution authorizing Slater Well Drilling to drill the new well at the Garret Mountain Equestrian center in the amount of $18,012.

Locations (First year)
- Hawthorne
- Passaic
- West Milford

**Specific Programs and dates/ Times be discussed with Kerry**

Non Compete
ISDS & Passaic of County agree to not have a similar or exact relationship with any other provider, no other soccer Programs outside of this relationship to be able to use the fields for Any Soccer Event. All soccer inquiries to be directed to ISDS to grow the relationship/program

Consideration
As Soccer is an all year round sport, we would need access to the grass fields in Hawthorne in the Spring and Summer, not everyday but certainly to keep up with the demand.

Marketing and Social Media
- Press Release to be published and approved by both parties
- Flyers to be done by ISDS with County logo
- All marketing material to be sent to county then to be streamlined on social media and other outlets, local schools, websites, email lists etc

Summer Consideration
As you know this agreement will not start until the Fall season, however in the summer we would ask to be able to rent more time on the grass & Turf fields at a lower rate to what we usually pay. We feel if we do a good job in the summer through us, it will only have a positive effect on the future relationship in September.

WHEREAS, the Passaic County Board of Chosen Freeholders (hereafter “Board”)
adopted Resolution R2019-0522 on June 11, 2019 a contract was awarded to the lowest bidder
C.J. Vanderbeck and Son, Inc., in the amount of $1,299,550.00.

WHEREAS, the Board adopted Resolution R2019-0905 on October 18, 2019 approving
Change Order #1 for an additional amount of $38,223.00 increasing the contract amount to
$1,337,773.00; and

WHEREAS, subsequently, the Board adopted Resolution R 2020-0136 on February 11,
2020 approving Change Order #2 for an additional amount of $14,994.00 increasing the contract
amount to $1,352,767.00; and

WHEREAS, it is now necessary for Change Order #3 for an additional amount of
$400,900.00 resulting to a net addition which reflects the change from steam to hot water boilers
for 77 Hamilton Street for significantly increased boiler efficiency (approximately 70% vs 96%
efficiency), and lower future annual maintenance costs; and

WHEREAS this proposed Change Order #3 will result in the net sum of change orders
for this project to be in excess of the 20% limit for change orders which is allowed under the
Local Public Contracts Law N.J.S.A. 40A:11-1; and

WHEREAS the regulations (N.J.A.C. 5:30-11.9) of the State of New Jersey Department

present:

1) a written certification by the contractor containing the following:

i) an explanation of the factual circumstances which necessitate issuance of
the change order;

ii) a statement indicating why these circumstances could not have been
foreseen;

iii) a statement indicating why issuance of the change order would be in the
best interests of the County and would not constitute an abuse of these
rules;

iv) if the nature of the change order is technical, the certification shall include
a certified statement from contractor’s appropriate expert, explaining in
detail the factual circumstances which necessitate the issuance of the
change order;

2) a request from the chief executive officer, in this case the County Administrator, or
his designee, to the governing body requesting the change order and explaining why
this change order may be allowed pursuant to this provision; and

WHEREAS the Office of the County Engineer has also submitted a letter to the Board
dated July 7, 2020 requesting the adoption of Change Order #3, a copy of which is attached
hereto and made a part hereof; and
WHEREAS the Passaic County Administrator has filed a letter with the Board of Chosen Freeholders dated July 9, 2020 requesting that the Board review this matter and consider adopting this Change Order (see copy attached); and

WHEREAS this proposed change order will bring the contract above the 20% threshold generally permitted under the Local Public Contracts Law (N.J.S.A. 40A:11-1 et seq.) but is being considered because it would be impractical to award a new contract for this additional work; and

WHEREAS, this matter was discussed at the July 1, 2020 meeting of the Public Works Committee and is being recommended to the Passaic County Board of Chosen Freeholders for approval; and

WHEREAS, a certification is attached hereto to reflect the availability of funds.

This is to request a Change Order in excess of 20% of the original contract amount, in accordance with N.J.A.C. 5:30-11/9. I do hereby certify to the following:

1. Explanation of the Factual Circumstances which necessitates issuance of the Change Order:

The project consists of the replacement of boilers at four County buildings. The bid documents included the replacement of the existing steam boiler at 77 Hamilton Street with a new steam boiler. During the construction of the hot water boilers at the other three buildings, it was determined to replace the existing steam boilers at 77 Hamilton Street with new hot water boilers. The new hot water boilers will be more energy efficient units (70% efficient - steam vs. 96% efficient - hot water), more efficient pipe runs due to having boilers in both the basement level and the mechanical penthouse, and significant reduction in annual maintenance costs.

Introduced on: July 14, 2020
Adopted on: July 14, 2020
Official Resolution #: R20200588
2. **Statement indicating why these circumstances could not have been foreseen:**
The original design was to replace the boilers in kind with same type of system. Thru discussions with the new Superintendent of Buildings and Grounds, the significant reduction in annual maintenance costs became evident, in addition to the increased efficiency of the units.

3. **Statement indicating why issuance of the change order would be in the best interests of the contracting unit and would not constitute an abuse of these rules:**
As indicated above, the change from steam boilers to hot water boilers at 77 Hamilton Street will provide for more energy efficient units (70% efficient vs. 96% efficient), more efficient pipe runs due to having boilers in both the basement and the mechanical penthouse, and significant reduction in annual maintenance costs. As the existing steam boilers are beyond their useful life, it is prudent to have the new hot water boilers installed prior to the upcoming heating season.

4. I have reviewed the rules of the Division of Local Government Services pursuant to N.J.A.C. 5:39-11.9 ET. Seq., and certify that the proposed change order may be allowed under the aforementioned rules.

Respectfully,

Jonathan Pera, P.E.
County Engineer

The eligible activities to use this funding are listed in Attachment A as well as specific activities that are ineligible. All reporting requirements are listed in Attachment C. The sub-grantee (City of Paterson) will abide by all the provisions of the agreement including all required information for reimbursements for eligible activities. The responsible party designated by the sub-grantee will sign this agreement in section five. Formal acceptance of the grant requires signature of the authorized individual in Attachment E.

II. Compliance with Existing Laws

A. The Sub-Grantee, in order to permit Passaic County (hereinafter referred to as "the County") to award this grant, agrees to comply with all Federal, State and municipal laws, rules, and regulations generally applicable to the Activities in which the Sub-Grantee is engaged in the performance of this grant.

B. These laws and regulations include, but are not limited to the following:

1. Federal Office of Management and Budget (OMB) documents:
   http://www.whitehouse.gov/omb/circulars/

2. New Jersey Department of the Treasury, Office of Management and Budget documents: 

Failure to comply with the laws, rules and regulations shall be grounds for termination of this grant.

III. Bonding and Insurance

NOTE: Proof of Insurance is required. Bonding and insurance of the type described in Attachment A, Part VII, shall be provided by the Sub-Grantee and proof of bonding and insurance must be retained on file by the Sub-Grantee.

IV. Indemnification

The Sub-Grantee shall be solely responsible for and shall keep, save, and hold the County of Passaic harmless from all claims, loss, liability, expense, or damage resulting from all mental or physical injuries or disabilities, including death, to its employees or recipients of the Sub-Grantee's services or to any other persons, or from any damage to any property sustained in connection with the delivery of the Sub-Grantee's services that results from any acts or omissions, including negligence or malpractice, of any of its officers, directors, employees, agents, servants or independent contractors, or from the Sub-Grantee's failure to provide for the safety and protection of its employees, whether or not due to negligence, fault, or default of the Sub-Grantee. The Sub-Grantee's responsibility shall also include all legal fees and costs that may arise from these actions. The Sub-Grantee's liability under this agreement shall continue after the termination of this agreement with respect to any liability, loss, expense or damage resulting from acts occurring prior to termination.

V. Assignability

The Sub-Grantee shall not subcontract any of the work or services covered by this grant, nor shall any interest be assigned or transferred except as may be provided for in this grant or with the express written approval of the County.
VI. Availability of Funds

The Recipient shall recognize and agree that both the initial provision of funding and the continuation of such funding under the Agreement is expressly dependent upon the availability to the County of Passaic of funds appropriated by the State of New Jersey revenue or such other funding sources as may be applicable. A failure of the County to make any payment under this Agreement or to observe and perform any condition on its part to be performed under the Agreement as a result of the failure of the State to appropriate shall not in any manner constitute a breach of the Agreement by the County or an event of default under the Agreement and the County shall not be held liable for any breach of the Agreement because of the absence of available funding appropriations. In addition, future funding shall not be anticipated from the County beyond the duration of the award period set forth in the Grant/Loan Agreement and in no event shall the Agreement be construed as a commitment by the County of Passaic to expend funds beyond the termination date set in the Grant/Loan Agreement.

VII. Special Grant Conditions For "High Risk" Sub-Grantees

A. A Sub-Grantee may be considered "high risk" if the Department determines that a Sub-Grantee:
   1. Has a history of unsatisfactory performance.
   2. Is not financially stable.
   3. Has a financial management system which does not meet the standards set forth in Section VIII.
   4. Has not conformed to terms and conditions of current and previous awards.
   5. Is otherwise not responsible; and the County determines that an award will be made, special conditions and/or restrictions shall correspond to the high risk condition and shall be included in the award.

B. Special conditions or restrictions may include:
   1. Payment on a reimbursement basis.
   2. Withholding authority to proceed to the next phase until receipt or evidence of acceptable performance within a given funding period.
   3. Requiring additional, more detailed financial reports.
   4. Additional project monitoring.
   5. Requiring the Sub-Grantee to obtain technical or management assistance.
   6. Establishing additional prior approvals.

C. If the County decides to impose such conditions, the County official will notify the Sub-Grantee as soon as possible, in writing, of:
   1. The nature of the special conditions/restrictions.
   2. The reason(s) for imposing the special conditions.
   3. The corrective actions that must be taken before the special conditions will be removed by the County and the time allowed for completing the corrective actions.
   4. The method of requesting reconsideration of the conditions/restrictions imposed.

VIII. Financial Management System
A. The Sub-Grantee shall be responsible for maintaining an adequate financial management system and will immediately notify the County when the Sub-Grantee cannot comply with the requirements established in this Section of the grant.

B. The Sub-Grantee's financial management system shall provide for:

1. Financial Reporting: Accurate, current, and complete disclosure of the financial results of each grant in conformity with generally accepted principles of accounting, and reporting in a format that is in accordance with the financial reporting requirements of the grant.

2. Accounting Records: Records that adequately identify the source and application of funds for Department supported activities. These records must contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures and income.

3. Internal Control: Effective internal and accounting controls over all funds, property and other assets. The Sub-Grantee shall adequately safeguard all such assets and assure that they are used solely for authorized purposes.

4. Budget Control: Comparison of actual expenditures or outlays with budgeted amounts for each grant. Also, the relationship of the financial information with performance or productivity data, including the development of unit cost information required by the County.

5. Allowable Cost: Procedures for determining reasonableness, allowability, and allocability of costs generally consistent with the provisions of Federal and State requirements.

6. Source Documentation: Accounting records that are supported by source documentation.

7. Cash Management: Procedures to minimize the time elapsing between the advance of funds from the County and the disbursement by the Sub-Grantee, whenever funds are advanced by the County.

C. The County may require the submission of a "Statement of Adequacy of the Accounting System," as provided in Attachment A, Section II of this grant agreement.

D. The County may review the adequacy of the financial management system of any applicant for financial assistance as part of a pre-award review or at any time subsequent to the award. If the County determines that the Sub-Grantee's accounting system does not meet the standards described in paragraph B above, additional information to monitor the grant may be required by the County upon written notice to the Sub-Grantee, until such time as the system meets with County approval.

IX. Method of Payment

A. Payment will be made to the Sub-Grantee in a manner determined by the County (see Attachment A, Section V), upon receipt by the Department of a properly executed copy of this grant.

X. Allowable Costs

A. Limitation on Use of Funds - Grant funds must be used only for allowable costs. (See also Attachment D)

B. Applicable Cost Principles - For each type of organization, there is a set of Federal principles for determining allowable costs. Allowable costs will be determined in accordance with applicable Federal cost principles specific to the organization incurring the costs (Federal OMB Circular 2 CFR, Part 200) and State requirements.
XI. Period of Availability of Funds

Sub-Grantees may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.

XII. Program Income

Program income shall be defined as gross income earned by the Sub-Grantee from grant-supported activities. Such earnings include, but will not be limited to, income from service fees, sale of commodities, usage or rental fees, and royalties on patents and copyrights.

A. If a Sub-Grantee receives interest earned of $250 or more in a fiscal year on advances of grant funds, see Attachment A, Section VIII (B).

B. Unless the grant provides otherwise, the Sub-Grantee shall have no obligation to the Department with respect to royalties received as a result of copyrights or patents produced under the grant.

C. All other program income earned during the grant period shall be retained by the Sub-Grantee and used in accordance with Attachment A, Section IV of this grant.

XIII. Audit Requirements

NOTE: Audit reports are due within 90 days following Sub-Grantee fiscal year end. This grant is covered by the audit requirements of the Department of the Treasury Circular Letter 15-08-OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.

XIV. Budget Revision and Modification

This Section sets forth criteria and procedures to be followed by the Sub-Grantee in reporting deviations from the approved budget and in requesting approvals for budget revisions and modifications. Revisions and modifications to this grant must be requested by the Sub-Grantee and approved by the County no later than two months after interim report due date via written notice.

A. Sub-Grantee shall request approval for a revision or modification via written request, from the County, when there is reason to believe a revision or modification will be necessary for the following reasons:

1. Changes in the scope, objective, financial assistance, key personnel, timing of the project or program, or deviations from the approved budget.

2. The need for additional funding or to extend the period of availability of funds.

3. Adjustments between cost categories and/ or shifts of funding to direct cost categories that are not part of the approved budget. Salaries can be reduced, not increased, with approved funding.

4. Revisions which involve the transfer of amounts budgeted for indirect costs to absorb increases in direct costs.

5. No cost time extensions to revise the contractual end date to allow for full program implementation. For the purpose of this grant, indirect costs are defined as those incurred for a common or joint purpose benefiting more than one cost objective and not readily assignable to the cost objectives specifically benefited without effort disproportionate to the results achieved.

Direct costs are defined as those which can be identified specifically with a particular cost objective. These costs may be charged directly to grants, contracts, or to other programs against which costs are finally lodged.
B. The County may also, at its option, establish policy to restrict transfers of funds among direct cost categories and must require Sub-Grantees to comply with applicable Federal and State requirements concerning prior approval for certain budget changes.

C. When requesting approval for budget revisions, the Sub-Grantee shall clearly indicate the change in cost categories in writing.

D. The County may request changes in the scope of services of the Sub-Grantee to be performed hereunder. Such changes, which are mutually agreed upon by and between the County and the Sub-Grantee must be incorporated in written amendments to this grant.

E. If the Sub-Grantee is making program expenditures or providing grant services at a rate which, in the judgment of the County, will result in substantial failure to expend the grant amount or provide grant services, the County may so notify the Sub-Grantee. If, after consultation, the Sub-Grantee is unable to develop to the satisfaction of the County a plan to rectify its low level of program expenditures or grant services, the County may upon thirty (30) days notice to the Sub-Grantee, reduce the grant amount by a sum so that the revised grant amount fairly projects program expenditures over the grant period. This reduction shall take into account the Sub-Grantee’s fixed costs and shall establish the committed level of services for each program element of grant services at the reduced grant amount. If such a determination is made by the County subsequent to the awarding of the grant and the funds have already been received by the Sub-Grantee, the reduced amount will be remitted to the County.

XV. Property Management Standards

Property furnished by the County, or whose cost was charged to a project supported by Federal or County funds shall be utilized and disposed of in a manner generally consistent with State and Federal requirements.

XVI. Procurement Standards

Procurement of supplies, equipment, and other services with funds provided by this grant shall be accomplished in a manner generally consistent with Federal and State requirements.

Adherence to the standards contained in the applicable Federal and State laws and regulations does not relieve the Sub-Grantee of the contractual responsibilities arising under its procurements. The Sub-Grantee is the responsible authority, without recourse to the County, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurement entered in support of a grant.

XVII. Monitoring of Program Performance

A. The Sub-Grantee must assure compliance with applicable Federal and State requirements and that performance goals are being achieved. Sub-Grantee monitoring must cover each program, function, or activity to monitor performance under grant supported activities to assure time schedules and objectives are being met, projected work units by time periods are being accomplished, and other performance goals are being achieved as applicable.

B. The Sub-Grantee shall inform the County of the following types of conditions which affect program objectives and performance as soon as they become known:

1. Problems, delays, or adverse conditions which will materially impair the ability to attain program objectives, prevent meeting time schedules and goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accompanied by a statement of the action taken, or contemplated, and any County assistance required to resolve the situation.

2. Favorable developments or events which enable meeting time schedules and goals sooner than anticipated, at a lower than anticipated cost, or produces a greater benefit than originally planned.
C. The County may, at its discretion, make site visits to:

1. Review program accomplishments and management control systems.
2. Provide such technical assistance as may be required.
3. Perform fiscal reviews to ensure grant funds are being properly expended in a timely manner.

XVIII. Financial and Performance Reporting

A. The grant budget as used in this Section means the approved financial plan to carry out the purpose of the grant. This plan is the financial representation of the project or program as approved during the award process. The Approved Budget is contained in Attachment B.

B. The Sub-Grantee is required to submit all financial and programmatic reports as stated in Attachment A, Section V.

C. If reports are not submitted as required, the County may, at its discretion, suspend payments on this grant. The County of Passaic may, at its discretion, take such action to withhold payments to the Sub-Grantee on this or any grant with County agencies until the required reports have been submitted.

D. The Sub-Grantee shall provide the cash/in-kind match as indicated in the grant guidelines.

E. Extensions to reporting due dates may be granted upon request to the County, providing adequate justification which must be received at least one week in advance of the due date by the County. Approval will be provided in writing by the County.

F. If reports are not submitted as required, the County may, at its discretion, suspend payments on this grant. The County of Passaic may, at its discretion, take such action to withhold payments to the Sub-Grantee on this or any grant with other County agencies until the required reports have been submitted.

G. The Sub-Grantee shall provide the cash/in-kind match as indicated in the grant guidelines.

XIX. Access to Records

A. The Sub-Grantee in accepting this grant agrees to make available to the County, any Federal agency whose funds are expended in the course of this grant, or any of their duly authorized representatives, pertinent accounting records, books, documents and papers as may be necessary to monitor and audit Sub-Grantee’s operations.

B. All visitations, inspections and audits, including visits and requests for documentation in discharge of the County’s responsibilities, shall as a general rule provide for prior notice when reasonable and practical to do so. However, the County retains the right to make unannounced visitations, inspections, and audits as deemed necessary.

C. The County reserves the right to have access to records of any Sub-Grantees and requires the Sub-Grantee to provide for County access to such records in any grant with the Sub-Grantee.

D. The County reserves the right to have access to all work papers produced in connection with audits made by the Sub-Grantee or independent certified public accountants, registered municipal accountants or licensed public accountants hired by the Sub-Grantee to perform such audits.

XX. Record Retention

A. Except as otherwise provided, financial and programmatic records, supporting documents, statistical records and all other records pertinent to the grant shall be retained for a period of seven years, unless Federal or State funding Department statutes require longer periods or unless directed to extend the retention by the County.
1. If any litigation, claim, negotiation, action or audit involving the records is started before the expiration of the seven year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular seven year period, whichever is later unless otherwise directed by the County.

2. Records for nonexpendable property acquired with State funds shall be retained for seven years after its final disposition, unless otherwise provided or directed by the County.

B. For Federal and State purposes (unless otherwise provided):

1. General - The retention period starts from the date of submission of the final expenditure report, or for grants that are renewed annually, from the date of submission of the annual financial report.

2. Real Property and Equipment - The retention period for real property and equipment records starts from the date of the disposition, replacement or transfer at the direction of the County.

C. The County may request transfer of certain records to its custody from the Sub-Grantee when it determines that the records possess long-term retention value and will make arrangements with the Sub-Grantee to retain any records that are continuously needed for joint use.

XXI. Enforcement

A. Remedies for Noncompliance - If a Sub-Grantee materially fails to comply with the terms of an award, whether stated in a State or Federal statute or regulation, an assurance, in a State plan or application, a notice of award, or elsewhere, the Department may take one or more of the following actions, as appropriate in the circumstances:

1. Temporarily withhold cash payments pending correction of the deficiency by the Sub-Grantee or take more severe enforcement action.

2. Disallow all or part of the cost of the activity or action not in compliance.

3. Wholly or partly suspend or terminate the current award for the Sub-Grantee's program.

4. Withhold further awards for the program.

5. Request the balance of grant funds to be returned and/or seek reimbursement for funds expended that were not in compliance with the terms and conditions of the grant agreement.

6. Take other remedies that may be legally available.

B. Hearings, Appeals - In taking an enforcement action, the Department may provide the Sub-Grantee an opportunity for such hearing, appeal or other administrative proceeding to which the Sub-Grantee is entitled under any statute or regulation applicable to the action involved.

C. Effects of Suspension and Termination - Costs incurred by the Sub-Grantee, resulting from obligations incurred by the Sub-Grantee during a suspension or after termination of an award, are not allowable to be applied against the grant unless the County expressly authorizes them in the notice of suspension or termination or subsequently. Other Sub-Grantee costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if the costs result from obligations which were properly incurred by the Sub-Grantee before the effective date of suspension or termination, and are non-cancellable.

D. Relationship to Debarment and Suspension - The enforcement remedies identified in this Section, including suspension and termination, do not preclude the Sub-Grantee from being subject to State and Federal debarment and suspension procedures.

XXII. Termination and Suspension
A. The following definitions shall apply for the purposes of this Section:

1. Termination - The termination of a grant means the cancellation of assistance, in whole or in part, under a grant at any time prior to the date of completion.

2. Suspension - The suspension of a grant is an action by the County which temporarily suspends assistance under the grant pending corrective action by the Sub-Grantee or pending a decision to terminate the grant by the County.

3. Disallowed Costs - Disallowed costs are those charges to the grant which the County or its representatives shall determine to be beyond the scope of the purpose of the grant, excessive, or otherwise unallowable.

B. When the Sub-Grantee has failed to comply with grant award stipulations, standards, or conditions, the County may suspend the grant and withhold further payments, prohibit the Sub-Grantee from incurring additional obligations of grant funds pending corrective action by the Sub-Grantee, or decide to terminate the grant in accordance with paragraph C below. The Department shall allow all necessary and proper costs, which the Sub-Grantee could not reasonably avoid during the period of suspension, provided they meet Federal and State requirements.

C. The County may terminate the grant in whole or in part whenever it is determined that the Sub-Grantee has failed to comply with the conditions of the grant. The County shall promptly notify the Sub-Grantee in writing of the determination and the reasons for the termination together with the effective date. Payments made to the Sub-Grantee or recoveries by the County under the grant terminated for cause shall be in accord with the legal right and liability of the parties.

D. The County and the Sub-Grantee may terminate the grant in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and in case of partial terminations, the portion to be terminated. The Sub-Grantee shall not incur new obligations for the terminated portion after the effective date and shall cancel as many outstanding obligations as possible.

E. The Grant Closeout procedures in Section XXII of the grant shall apply in all cases of termination of the grant.

XXIII. Publicity

A. Credit must be given to the Department of State Complete Count Commission (DOSCCC) in all printed materials, releases and announcements of the Sub-Grantee regarding all activities to whichOther funds contribute. This applies to all promotional appearances on television and radio by representatives of the Sub-Grantee organization as well. In the case of electronic media, verbal credit must be given at least once during a broadcast to acknowledge the support the Sub-Grantee has received from Other funds to its overall operation. The only exception to this is by using the State Census logo in printed materials and electronic media.

B. Credit must be given to the DOSCCC in all print advertising and broadcast advertising placed by a Sub-Grantee.

C. The language used when crediting the DOSCCC should read as follows: “The City of Paterson received a grant from the Department of State Complete Count Commission.”

XXIV. Grant Closeout Procedures

A. The following definitions shall apply for the purpose of this Section:
1. Grant Closeout - The closeout of a grant is the process by which the Department determines that all applicable administrative actions and all required work of the grant have been completed by the Sub-Grantee.

2. Date of Completion - The date when all activities under the grant are completed or the expiration date in the award document, or any supplement or amendment thereto.

B. The Sub-Grantee shall submit final expenditure and performance reports as prescribed by the County and in the timeframes set forth in Attachment A, Part VI upon completion of the grant period or termination of the grant. The County may permit extensions when requested in writing by the Sub-Grantee.

C. The Sub-Grantee will, together with the submission of the final report, refund to the County any unexpended funds or unobligated (uncumbered) cash advanced, except such sums that have been otherwise authorized in writing by the County to be retained.

D. In the event a final audit has not been performed prior to the closeout of the grant, the County retains the right to recover any appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

These records must contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures and income.

3. Internal Control: Effective internal and accounting controls over all funds, property and other assets. The Sub-Grantee shall adequately safeguard all such assets and assure that they are used solely for authorized purposes.

4. Budget Control: Comparison of actual expenditures or outlays with budgeted amounts for each grant. Also, the relationship of the financial information with performance or productivity data, including the development of unit cost information required by the County.

D. The County may review the adequacy of the financial management system of any applicant for financial assistance as part of a pre-award review or at any time subsequent to the award. If the County determines that the Sub-Grantee's accounting system does not meet the standards described in paragraph B above, additional information to monitor the grant may be required by the County upon written notice to the Sub-Grantee, until such time as the system meets with County approval.

IX. Method of Payment

A. Payment will be made to the Sub-Grantee in a manner determined by the County (see Attachment A, Section V), upon receipt by the Department of a properly executed copy of this grant.

X. Allowable Costs

A. Limitation on Use of Funds - Grant funds must be used only for allowable costs. (See also Attachment D)

B. Applicable Cost Principles - For each type of organization, there is a set of Federal principles for determining allowable costs. Allowable costs will be determined in accordance with applicable Federal cost principles specific to the organization incurring the costs (Federal OMB Circular 2 CFR, Part 200) and State requirements.
XI. Period of Availability of Funds

Sub-Grantees may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.

XII. Program Income

Program income shall be defined as gross income earned by the Sub-Grantee from grant-supported activities. Such earnings include, but will not be limited to, income from service fees, sale of commodities, usage or rental fees, and royalties on patents and copyrights.

A. If a Sub-Grantee receives interest earned of $250 or more in a fiscal year on advances of grant funds, see Attachment A, Section VIII (B).

B. Unless the grant provides otherwise, the Sub-Grantee shall have no obligation to the Department with respect to royalties received as a result of copyrights or patents produced under the grant.

C. All other program income earned during the grant period shall be retained by the Sub-Grantee and used in accordance with Attachment A, Section IV of this grant.

XIII. Audit Requirements

NOTE: Audit reports are due within 90 days following Sub-Grantee fiscal year end. This grant is covered by the audit requirements of the Department of the Treasury Circular Letter 15-08-OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.

XIV. Budget Revision and Modification

This Section sets forth criteria and procedures to be followed by the Sub-Grantee in reporting deviations from the approved budget and in requesting approvals for budget revisions and modification. Revisions and modifications to this grant must be requested by the Sub-Grantee and approved by the County no later than two months after interim report due date via written notice.

A. Sub-Grantee shall request approval for a revision or modification via written request, from the County, when there is reason to believe a revision or modification will be necessary for the following reasons:

1. Changes in the scope, objective, financial assistance, key personnel, timing of the project or program, or deviations from the approved budget.

2. The need for additional funding or to extend the period of availability of funds.

3. Adjustments between cost categories and/or shifts of funding to direct cost categories that are not part of the approved budget. Salaries can be reduced, not increased, with approved funding.

4. Revisions which involve the transfer of amounts budgeted for indirect costs to absorb increases in direct costs.

5. No cost time extensions to revise the contractual end date to allow for full program implementation. For the purpose of this grant, indirect costs are defined as those incurred for a common or joint purpose benefiting more than one cost objective and not readily assignable to the cost objectives specifically benefited without effort disproportionate to the results achieved.

Direct costs are defined as those which can be identified specifically with a particular cost objective. These costs may be charged directly to grants, contracts, or to other programs against which costs are finally lodged.
B. The County may also, at its option, establish policy to restrict transfers of funds among direct cost categories and must require Sub-Grantees to comply with applicable Federal and State requirements concerning prior approval for certain budget changes.

C. When requesting approval for budget revisions, the Sub-Grantee shall clearly indicate the change in cost categories in writing.

D. The County may request changes in the scope of services of the Sub-Grantee to be performed hereunder. Such changes, which are mutually agreed upon by and between the County and the Sub-Grantee must be incorporated in written amendments to this grant.

E. If the Sub-Grantee is making program expenditures or providing grant services at a rate which, in the judgment of the County, will result in substantial failure to expend the grant amount or provide grant services, the County may so notify the Sub-Grantee. If, after consultation, the Sub-Grantee is unable to develop to the satisfaction of the County a plan to rectify its low level of program expenditures or grant services, the County may upon thirty (30) days notice to the Sub-Grantee, reduce the grant amount by a sum so that the revised grant amount fairly projects program expenditures over the grant period. This reduction shall take into account the Sub-Grantee’s fixed costs and shall establish the committed level of services for each program element of grant services at the reduced grant amount. If such a determination is made by the County subsequent to the awarding of the grant and the funds have already been received by the Sub-Grantee, the reduced amount will be remitted to the County.

XV. Property Management Standards

Property furnished by the County or whose cost was charged to a project supported by Federal or County funds shall be utilized and disposed of in a manner generally consistent with State and Federal requirements.

XVI. Procurement Standards

Procurement of supplies, equipment, and other services with funds provided by this grant shall be accomplished in a manner generally consistent with Federal and State requirements.

Adherence to the standards contained in the applicable Federal and State laws and regulations does not relieve the Sub-Grantee of the contractual responsibilities arising under its procurements. The Sub-Grantee is the responsible authority, without recourse to the County, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurement entered in support of a grant.

XVII. Monitoring of Program Performance

A. The Sub-Grantee must assure compliance with applicable Federal and State requirements and that performance goals are being achieved. Sub-Grantee monitoring must cover each program, function, or activity to monitor performance under grant supported activities to assure time schedules and objectives are being met, projected work units by time periods are being accomplished, and other performance goals are being achieved as applicable.

B. The Sub-Grantee shall inform the County of the following types of conditions which affect program objectives and performance as soon as they become known:

1. Problems, delays, or adverse conditions which will materially impair the ability to attain program objectives, prevent meeting time schedules and goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accompanied by a statement of the action taken, or contemplated, and any County assistance required to resolve the situation.

2. Favorable developments or events which enable meeting time schedules and goals sooner than anticipated, at a lower than anticipated cost, or produces a greater benefit than originally planned.
C. The County may, at its discretion, make site visits to:

1. Review program accomplishments and management control systems.
2. Provide such technical assistance as may be required.
3. Perform fiscal reviews to ensure grant funds are being properly expended in a timely manner.

XVIII. Financial and Performance Reporting

A. The grant budget as used in this Section means the approved financial plan to carry out the purpose of the grant. This plan is the financial representation of the project or program as approved during the award process. The Approved Budget is contained in Attachment B.

B. The Sub-Grantee is required to submit all financial and programmatic reports as stated in Attachment A, Section V.

C. If reports are not submitted as required, the County may, at its discretion, suspend payments on this grant. The County of Passaic may, at its discretion, take such action to withhold payments to the Sub-Grantee on this or any grant with County agencies until the required reports have been submitted.

D. The Sub-Grantee shall provide the cash/in kind match as indicated in the grant guidelines.

E. Extensions to reporting due dates may be granted upon request to the County, providing adequate justification which must be received at least one week in advance of the due date by the County. Approval will be provided in writing by the County.

F. If reports are not submitted as required, the County may, at its discretion, suspend payments on this grant. The County of Passaic may, at its discretion, take such action to withhold payments to the Sub-Grantee on this or any grant with other County agencies until the required reports have been submitted.

G. The Sub-Grantee shall provide the cash/in kind match as indicated in the grant guidelines.

XIX. Access to Records

A. The Sub-Grantee in accepting this grant agrees to make available to the County, any Federal agency whose funds are expended in the course of this grant, or any of their duly authorized representatives, pertinent accounting records, books, documents and papers as may be necessary to monitor and audit Sub-Grantee's operations.

B. All visitations, inspections and audits, including visits and requests for documentation in discharge of the County's responsibilities, shall as a general rule provide for prior notice when reasonable and practical to do so. However, the County retains the right to make unannounced visitations, inspections, and audits as deemed necessary.

C. The County reserves the right to have access to records of any Sub-Grantees and requires the Sub-Grantee to provide for County access to such records in any grant with the Sub-Grantee.

D. The County reserves the right to have access to all work papers produced in connection with audits made by the Sub-Grantee or independent certified public accountants, registered municipal accountants or licensed public accountants hired by the Sub-Grantee to perform such audits.

XX. Record Retention

A. Except as otherwise provided, financial and programmatic records, supporting documents, statistical records and all other records pertinent to the grant shall be retained for a period of seven years, unless Federal or State funding Department statutes require longer periods or unless directed by the County.
1. If any litigation, claim, negotiation, action or audit involving the records is started before the expiration of the seven year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular seven year period, whichever is later unless otherwise directed by the County.

2. Records for nonexpendable property acquired with State funds shall be retained for seven years after its final disposition, unless otherwise provided or directed by the County.

B. For Federal and State purposes (unless otherwise provided):

1. General - The retention period starts from the date of submission of the final expenditure report, or for grants that are renewed annually, from the date of submission of the annual financial report.

2. Real Property and Equipment - The retention period for real property and equipment records starts from the date of the disposition, replacement or transfer at the direction of the County.

C. The County may request transfer of certain records to its custody from the Sub-Grantee when it determines that the records possess long-term retention value and will make arrangements with the Sub-Grantee to retain any records that are continuously needed for joint use.

XXI. Enforcement

A. Remedies for Noncompliance - If a Sub-Grantee materially fails to comply with the terms of an award, whether stated in a State or Federal statute or regulation, an assurance, in a State plan or application, a notice of award, or elsewhere, the Department may take one or more of the following actions, as appropriate in the circumstances:

1. Temporarily withhold cash payments pending correction of the deficiency by the Sub-Grantee or take more severe enforcement action.

2. Disallow all or part of the cost of the activity or action not in compliance.

3. Wholly or partly suspend or terminate the current award for the Sub-Grantee’s program.

4. Withhold further awards for the program.

5. Request the balance of grant funds to be returned and/or seek reimbursement for funds expended that were not in compliance with the terms and conditions of the grant agreement.

6. Take other remedies that may be legally available.

B. Hearings, Appeals - In taking an enforcement action, the Department may provide the Sub-Grantee an opportunity for such hearing, appeal or other administrative proceeding to which the Sub-Grantee is entitled under any statute or regulation applicable to the action involved.

C. Effects of Suspension and Termination - Costs incurred by the Sub-Grantee, resulting from obligations incurred by the Sub-Grantee during a suspension or after termination of an award, are not allowable to be applied against the grant unless the County expressly authorizes them in the notice of suspension or termination or subsequently. Other Sub-Grantee costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if the costs result from obligations which were properly incurred by the Sub-Grantee before the effective date of suspension or termination, and are non-cancellable.

D. Relationship to Debarment and Suspension - The enforcement remedies identified in this Section, including suspension and termination, do not preclude the Sub-Grantee from being subject to State and Federal debarment and suspension procedures.

XXII. Termination and Suspension
A. The following definitions shall apply for the purposes of this Section:

1. Termination - The termination of a grant means the cancellation of assistance, in whole or in part, under a grant at any time prior to the date of completion.

2. Suspension - The suspension of a grant is an action by the County which temporarily suspends assistance under the grant pending corrective action by the Sub-Grantee or pending a decision to terminate the grant by the County.

3. Disallowed Costs - Disallowed costs are those charges to the grant which the County or its representatives shall determine to be beyond the scope of the purpose of the grant, excessive, or otherwise unallowable.

B. When the Sub-Grantee has failed to comply with grant award stipulations, standards, or conditions, the County may suspend the grant and withhold further payments, prohibit the Sub-Grantee from incurring additional obligations of grant funds pending corrective action by the Sub-Grantee; or decide to terminate the grant in accordance with paragraph C below. The Department shall allow all necessary and proper costs, which the Sub-Grantee could not reasonably avoid during the period of suspension, provided they meet Federal and State requirements.

C. The County may terminate the grant in whole or in part whenever it is determined that the Sub-Grantee has failed to comply with the conditions of the grant. The County shall promptly notify the Sub-Grantee in writing of the determination and the reasons for the termination together with the effective date. Payments made to the Sub-Grantee or recoveries by the County under the grant terminated for cause shall be in accord with the legal right and liability of the parties.

D. The County and the Sub-Grantee may terminate the grant in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and in case of partial terminations, the portion to be terminated. The Sub-Grantee shall not incur new obligations for the terminated portion after the effective date and shall cancel as many outstanding obligations as possible.

E. The Grant Closeout procedures in Section XXII of the grant shall apply in all cases of termination of the grant.

XXIII. Publicity

A. Credit must be given to the Department of State Complete Count Commission (DOSCCC) in all printed materials, releases and announcements of the Sub-Grantee regarding all activities to which OFBI funds contribute. This applies to all promotional appearances on television and radio by representatives of the Sub-Grantee organization as well. In the case of electronic media, verbal credit must be given at least once during a broadcast to acknowledge the support the Sub-Grantee has received from OFBI to its overall operation. The only exception to this is by using the State Census logo in printed materials and electronic media.

B. Credit must be given to the DOSCCC in all print advertising and broadcast advertising placed by a Sub-Grantee.

The County may permit extensions when requested in writing by the Sub-Grantee.

C. The Sub-Grantee will, together with the submission of the final report, refund to the County any unexpended funds or unobligated (unencumbered) cash advanced, except such sums that have been otherwise authorized in writing by the County to be retained.

RE: CMAQ Smart Signal Project Update

The Planning Department has coordinated with the engineering department, NJTPA, and NJDOT to modify the scope of work since the grant award in 2018. The NJDOT and NJTPA spent the remainder of 2018 and will into 2019 to determine how such a project would get authorized as it presented a unique set of goals under the CMAQ/TCAM program. It was determined that NJDOT Local Aid would work with the County to authorize the project in order to utilize the federal funds. At that point the County worked to refine the scope of work to address NJDOT comments and concerns and to simplify the project goals in order to move forward. At this point a scope of work has been shared with the NJTPA and the County is looking to move forward with formally accepting the grant award in order to being engineering design. The goal will be to provide signal timing coordination for the Paterson-Hamburg Turnpike, West Broadway, Main Street, and Main Avenue through Wayne, Haledon, Paterson, Clifton and Passaic as shown in the attached map. The analysis for potential smart signals will be included but implementation will occur in later phases in order to address regional coordination first and determine the costs and maintenance agreements that may be needed for later phases as all signals are under the jurisdiction of municipalities and the NJDOT in Passaic County.

Dear Mr. Lysicatos:

The NJTPA has completed its review of Passaic County’s final proposal, Passaic County Smart Corridor Traffic Signal Coordination Project, in application for its Transportation Clean Air Measures (TCAM) program supported by local Congestion Mitigation Mitigation Air Quality (CMAQ) funds.

The proposal was recommended for total funding of $1,600,000 for FFY 2019-2020. The project was recommended for approval by the NJTPA Planning and Economic Development Committee and the NJTPA Board of Trustees on October 20, 2017, Resolution A-738.

I suggest you contact Joseph Birchenough at NJDOT’s Local Aid Office, District 1, who will assist you or refer you to the correct contact person at NJDOT to begin the federal authorization process.

Once again, thank you very much for submitting this proposal. I am available to assist you in any way as we move through the federal authorization process and into the implementation phase. Please do not hesitate to contact me if you have any questions or concerns.

1. Introduction

Passaic County receives funding annually from the U.S. Department of Housing and Urban Development under the Community Development Block Grant (CDBG) Program. The Department of Planning and Economic Development is the County’s designated department responsible for the federal grant program. One of the requirements for receiving these funds is the development of a five-year Consolidated Plan for Housing and Community Development (CP) to provide policy direction for the next five years of funding decisions. In general, the CP is guided by three overarching goals that are applied according to a community’s needs. The goals are:

- To provide decent housing by preserving the affordable housing stock, increasing the availability of affordable housing, reducing discriminatory barriers, increasing the supply of supportive housing for those with special needs and transitioning homeless persons and families into housing.
- To provide a suitable living environment through safer, more livable neighborhoods, greater integration of low- and moderate-income residents throughout the cities, increased housing opportunities and reinvestment in deteriorating neighborhoods.
- To expand economic opportunities through more jobs paying self-sufficient wages, homeownership opportunities, development activities that promote long-term community viability and the empowerment of low- and moderate-income persons to achieve self-sufficiency.

The County prepared a new Five Year Consolidated Plan for FY 2018-2022. This plan is the basis for the allocation of priorities and actions for FY 2020. The federal funding resource for implementation of the plan is the Community Development Block Grant (CDBG) Program. The main objective of this program is to develop viable urban communities by providing decent housing, a suitable living environment, and economic opportunities, principally for persons of low and moderate-income levels. Funds can be used for a wide array of activities, including: housing rehabilitation, construction or rehabilitation of public facilities and infrastructure, removal of architectural barriers, public services, rehabilitation of commercial or industrial buildings and loans or grants to businesses.
2. Summarize the objectives and outcomes identified in the Plan

In 2018, the County prepared a five-year plan for the fiscal years 2018 to 2022. This is the second annual plan that will implement the goals and objectives outlined in that plan.

During FY 2020, the County will use CDBG funds for activities in support of the goals for public facilities, infrastructure, public services and planning and administration.
3. Evaluation of past performance

Passaic County is currently administering the FY 2019 grant program. The current program year runs from September 1, 2019 to August 31, 2020. The Comprehensive Annual Performance and Evaluation Report (CAPER) for this year will be available for public review during December, 2020. The last CAPER, for FY 2018, covered the period through August 31, 2019.

During FY 2018, Passaic County received $849,041 in CDBG funds and spent a total of $748,076. The County allocated the grant funds to 8 public facilities and infrastructure projects, and 2 public services projects. During 2018 there were 9 infrastructure and facilities projects completed that were funded in prior years.

During FY 2019, Passaic County received $860,233 and funded nine municipal and two public service projects. One substantial amendment was undertaken to cancel a FY 2015 project in West Milford and apply the funds to the CDBG FY 2018 elevator project in the recreation center.

The County has been meeting the timeliness standard of no more than 1.5 times its annual allocation at the end of the 10th month of the program year. Municipal projects are often not ready to implement in the first year after funding. This is a situation that the County is seeking to address.

The County's Continuum of Care (Paterson/Passaic County CoC) utilizes McKinney-Vento funds from HUD to support permanent supportive housing, the Homeless Management Information System and a Rapid Re-housing program. The CoC received $4,511,971 in funding for 13 projects including a new Supportive Housing program.

4. Summary of Citizen Participation Process and consultation process

The Passaic County CDBG program includes outreach to municipalities and organizations as described in full in the Annual Plan. Such outreach included:

1. Informing the municipalities and organizations of the availability of funds, application deadline, and first public hearing date. Letters and emails were sent out in early December 2019.

2. The first public meeting was held on February 7, 2020. The hearing was advertised in two local newspapers and a blast email reminded interested parties of the hearing.

3. The Action Plan was disseminated by email to all of the participating jurisdictions as well as organizations that represent low- and moderate-income persons and
those with limited English proficiency. The second public hearing announcement was included in this communication.

4. A second virtual hearing was held on June 30, 2020 at 12:00 pm. The hearing was advertised with the availability of the Action Plan for display and disseminated through agencies that have contact with low- and moderate-income persons and those with limited English proficiency.

AP-10 Consultation – 91.100, 91.200(b), 91.215(l)

1. Introduction
The following information provides an overview of Passaic County’s efforts to consult with relevant agencies during the development of this Annual Action Plan.

Provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

CDBG funds will provide support to a public service agency that delivers services to the elderly. There is an identified need for services to the elderly for assistance with independent living. The County’s CDBG funds will also support the provision of advocacy services to abused youth living in foster care.

The Passaic County Housing Agency does not own or manage public housing in Passaic County. The Passaic County Housing Agency administers Section 8 vouchers only. When CDBG funds are used to provide assistance to persons living in the community, those that participate in the Section 8 program will also benefit.

The Continuum of Care (CoC) is administered by the Passaic County Department of Human Services. Through the CoC, Passaic County links to all mental health, homeless, services and health organizations.

The County will continue to hold a fair housing conference to create a better understanding of compliance with fair housing rules and regulations.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The Passaic County Department of Human Services facilitates the CoC process and was consulted on several occasions for input on the Five-Year plan and FY 2020 Annual Plan. The FY 2018 CoC application and comments from stakeholders in the CoC were referenced extensively throughout the 2018-2022 Consolidated Plan. The CoC was notified of the opportunity to apply for 2020 CDBG funds.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction’s area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS.

Passaic County does not receive ESG funds.
2. Agencies, groups, organizations and others who participated in the process and consultations

Agencies were directly consulted during the Five-Year Consolidated Plan process and provided with an opportunity to comment during the FY 2020 Annual Plan process. Many more received initial invitations to participate in the process and/or attended CoC meetings during which the Consolidated Plan goals and objectives were discussed.

Agencies and groups that participated in the preparation of the goals and objectives and received an invitation to participate in the 2020 Annual Plan process are listed below.

AP-12 Participation – 91.105, 91.200(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation

The Passaic County CDBG program includes outreach to municipalities and organizations as described in full in the Annual Plan. Such outreach included:

1. Informing the municipalities and organizations of the availability of funds, application deadline, and first public hearing date. Letters and emails were sent out in December 2019.

2. The first public meeting was held on February 7, 2020. The hearing was advertised in two local newspapers; was included in the cover letter of the CDBG FY 2020 application; and a blast email reminded interested parties of the hearing.

3. The Hearing notices were disseminated in Spanish as well as English. The blast email requested that agencies share this information with their constituents. The County website also contains program information and can be translated easily.

4. The Action Plan was disseminated by email to all of the participating jurisdictions as well as organizations that represent low- and moderate-income persons and those with limited English proficiency. The second public hearing announcement was included in this communication.

5. A second hearing was held on June 30, 2020 at 12:00 pm virtually. The hearing was advertised in two local newspapers, with the availability of the Action Plan for display and disseminated through agencies that have contact with low- and moderate-income persons and those with limited English proficiency.
Outreach, particularly to municipalities, establishes the local priorities for funding. Each municipality that has an eligible CDBG project is considered for funding.

Expected Resources

AP-15 Expected Resources - 91.220(c) (1, 2)

Introduction
The County became an entitlement community as an Urban County for the receipt of Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development (HUD) in 2008. The County is allocated a CDBG grant each fiscal year. In FY 2019, the amount allocated by HUD to Passaic County is $680,233. The sum is less than prior years since we do not know if HUD will once again distribute the Westchester County funds due to on-going fair housing litigation. The Borough of Ringwood has declined to participate in the Urban County which further impacted the allocation.

Block grant from HUD to address housing, community development and economic development needs in Passaic County.
Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied.

Each municipality will leverage the CDBG funds with community funds to provide engineering services for their projects. The County does not pay for engineering. In addition, the total project costs will require that some of the municipalities bond for the remainder of the funds needed to complete the project budget. In addition, some municipalities may have secured state grants to apply toward construction costs. However, there are no matching fund requirements for CDBG funding.

The projects that improve public facilities and infrastructure also leverage the existing assets of each community such as waterlines, sewer lines, streets, sidewalks, and the public library in Pompton Lakes.

The Passaic County Public Housing Agency expects to receive ongoing Section 8 Rental Assistance Funding from HUD to continue to provide 835 vouchers to low income renters in Passaic County, outside of the entitlement cities.

Passaic County administers the Continuum of Care (CoC) program serving all homeless persons in the County. The CoC expects to apply for funding under the 2020 CoC program later this summer.

The County has a Homeless Trust Fund that is generating support for homeless prevention and rapid re-housing activities.

The County may seek funding from other sources to accomplish its goals. Such funding may include:

- McKinney – Vento Funds under the HEARTH Act
- CDBG Disaster Recovery
- CDBG-CV
- CARES Act
- Low-Income Housing Tax Credits
- New Markets Tax Credits
- Economic Development Initiative
- Environmental Protection Agency
- Department of Transportation
- Department of Veterans Affairs

State funds may also be sought:
- NJHMFA Special Needs Housing Fund
- HOME funds provided through DCA
- Weatherization Assistance Program
• Office of Mental Health
• Office of Alcohol and Substance Abuse Services
• Department of Health
• Department of Welfare (Supportive Services for the Homeless)
• Work First New Jersey
• Department of Transportation

The County is not aware of any Low-Income Housing Tax Credit (LIHTC) projects to be undertaken. However, should the occasion arise, the County would support a LIHTC application with a Certification of Consistency.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The County is exploring the feasibility of utilizing a county-owned site for affordable housing for elderly and veterans. This project would not involve CDBG funds however.

Table 8 – Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

The allocations were selected based on eligibility of the activity, its ability to meet a national objective, and the evidence of need in the community. Further consideration was given to the past history of expenditure of CDBG funds by the community and whether the FY 2020 request was related to previously funded projects. The ability of the community to complete projects in a timely manner was given a high priority.

Passaic County allocated its entitlement funds to provide assistance with activities that meet the underserved needs of the communities participating in the program.

Obstacles identified in the Five Year Plan included:

- Increasing costs to complete projects;
- Fragmented approach to local planning and lack of coordination in addressing infrastructure needs; and
- Limited inter-municipality communication in addressing public facility needs.

In the Five-Year CP, obstacles such as a lack of funding, NIMBYism, a lack of affordable housing, limited infrastructure in the community, Highlands development
restrictions, and escalating costs to provide housing were cited as obstacles to providing affordable housing.

The County will continue to provide resources to assist homeless and low-income persons obtain housing. These programs may not necessarily involve CDBG funding.

The County Housing Agency provides rent vouchers to offset the high cost of rental housing in the County.

The Passaic County Human Services Department offers several programs to combat homelessness and is the administrator of H.O.P.E. in Passaic County, the County’s plan to end chronic homelessness.

AP-50 Geographic Distribution - 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The areas of Passaic County that have a concentration of Non-White and Latino populations are limited but have increased since 2000. Census Block Groups in Haledon, Prospect Park, Wanaque, Pompton Lakes, and Woodland Park have higher concentrations of Non-White and Latino households in addition to concentrations of low- and moderate-income people. Projects were identified in Prospect Park, Pompton Lakes, Wanaque, and Woodland Park.

There were no target areas identified. The County funds projects based on demonstrated need for each activity.

Rationale for the priorities for allocating investments geographically

Assistance is not directed to any specific geographic area in the County.

Area benefit projects in FY 2020 will take place in areas of low- and moderate-income concentration throughout the County.

All the CDBG funding (100%) will benefit LMI clientele either through area benefit or as presumed benefit populations throughout the County.
Affordable Housing

N/A – Not a troubled agency.
**AP-65 Homeless and Other Special Needs Activities – 91.220(I)**

**Introduction**

The Passaic County Continuum of Care (CoC) is supported by the staff of the Department of Human Services and administered by the Passaic County Interagency Council on Homelessness. The Passaic County Consolidated Plan relies on the work of the CoC to set policy and implement programs to prevent homelessness and assist persons who are homeless.

**Describe the jurisdictions’ one-year goals and actions for reducing and ending homelessness including:**

- Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The CoC plans and manages the homeless system’s coordination through an ongoing collaboration of public and non-profit agencies, grantors, advocacy groups and formerly homeless individuals. The CoC has provided grant funding to NJ 2-1-1 to be the single point of entry for the coordinated assessment process. NJ-211 is the virtual Coordinated Assessment access point accessible to the community via telephone availability 24 hours a day 7 days a week. NJ211 strives to make materials and phone conversations accessible to persons with limited English proficiency through translation. NJ 2-1-1 is a key partner in conducting point of entry referrals into shelters, permanent housing, and services.

The CoC’s Coordinated Assessment system covers the entire Passaic County geographic area through strategic outreach from PATH and SSVF partners. Strategic outreach covers the CoC’s geography annually, but also proactively outreaches to the hardest to serve individuals who are not actively seeking services who are identified or staying in known locations. The PATH Program provides regular outreach at known locations. Further, through partnership with the eviction courts, PATH has addressed the needs of those at-risk of losing their housing. When families are removed from the welfare list, outreach is conducted to see if they have short-term places to live and long-term plans for permanent housing. Additional street outreach is conducted by "They Have A Name" to encourage people to move to shelter and services. The SSVF and Community Hope coordinate street outreach to homeless veterans.

As part of the coordinated system, the CoC has created a Housing Prioritization Tool (HPT) to assist the most vulnerable households in the Coordinated Assessment system. Using the tool ensures that people with the greatest needs will be prioritized when housing providers are seeking referrals for permanent supportive housing and rapid re-
housing placements. The CoC tracks the length of time clients remain on the list and where clients are discharged to, ensuring the effectiveness of the CoC and the prioritization process. The CoC can monitor bed availability in real-time for housing projects using Homeless Management Information System.

Addressing the emergency shelter and transitional housing needs of homeless persons

Shelter and transitional housing providers are moving toward rapid re-housing, housing first and limiting stays prior to permanent housing entry. Funds were reallocated from PSH programs to fund rapid re-housing through the CoC. The Passaic County Homeless Trust Fund has also funded rapid re-housing and services in support of rapid re-housing projects. The State DCA funded 500 state-wide rental assistance vouchers for chronically homeless to be matched by services provided by local agencies. NJCDC is administering 50 vouchers and matching with services funded from the County’s Homeless Trust Fund. The CoC is working to shorten the length of time persons are homeless. To this end, transitional housing is being phased out and more rapid-rehousing and permanent supportive housing created. The Hispanic Center Transitional Housing was restructured as a homeless shelter.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

Coordinated referral and an extensive inventory of services provide an opportunity for persons who are homeless to make a successful transition to permanent housing. The CoC Priorities are: (1) ending chronic and veteran homelessness, (2) creating new low-barrier housing first-oriented permanent supportive housing and rapid re-housing projects, and (3) creating a systemic response to homelessness through coordinated entry and assessment.

- To end chronic homelessness, the CoC is utilizing a Housing Prioritization Tool to prioritize chronically homeless persons for permanent housing opportunities systematically and is supporting projects that have low-barrier intake and termination criteria, this includes having had NJCDC sponsor 15 new Housing First vouchers for the chronically homeless utilizing State Rental Assistance from NJ DCA.
- To end homelessness, PCICH members Catholic Family and Community Services and Community Hope provide SSVF outreach, services, and rental
assistance and manage a by-name-list of identified veterans to connect them with veteran-specific and other community resources.

- To create a systemic response to homelessness, the CoC has funded NJ 2-1-1 to cover the full geographic area with Coordinated Assessment access, and is holding monthly case conferencing meetings among outreach, housing providers and emergency shelter providers to prioritize resources for those who are longest time homeless and with the greatest severity of service needs.

Through partnerships with the Children’s Inter-Agency Coordinating Council (CIACC), education system partners, homeless liaisons, the behavioral health care system, child protective services and the homeless services system, homeless students and their families are identified and service plans developed to meet their needs. CIACC offers cross-training on homeless definitions, compliance and requirements, support systems for the homeless and effective community service providers. CIACC has developed a standardized intervention model for use in school settings to effectively determine the service needs of homeless children and connect them to appropriate providers. The homeless liaison serves on the CoC board.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The CoC application to HUD indicated that the most effective way to decrease homelessness is through a single point of entry, assessment, expanded outreach, increased community awareness, coordination of efforts and expansion of housing opportunities and prevention services.

The Ten-Year Plan places a prevention emphasis on discharge planning and access to a safety net of services. The Coalition continues to:

- Work with the State of New Jersey and local public and private entities to establish an effective homelessness prevention program in Passaic County.
- Create a ‘minimum standard’ discharge policy to be adopted county-wide.
- Create affiliation agreements between various discharging agencies and shelters.
- Improve discharge planning policy for prisons and jails.
- Improve discharge planning for youth aging out of the DYFS system.
Partnerships with the school homeless liaisons will be strengthened through coordinated training sessions with providers. The Mainstream Committee of the CoC has incorporated education and early child care issues in their monthly meetings. The CoC works with the Children’s Inter-Agency Coordinating Council (CIACC) to build partnerships with the healthcare system, child protective services and homeless services system to better identify homeless students and coordinate services.

The County has budgeted $20,000 in FY20 CDBG funds for the County Court Appointed Special Advocates (CASA) program which assists foster youth.
Introduction

The County updated the Analysis of Impediments to Fair Housing in 2019. Barriers identified were:

- Limited housing choice results in Housing Choice vouchers concentration in older, lower cost communities
- Lack of public transit limits mobility and housing choice
- Based on housing complaints received by HUD, there is continued evidence of discrimination in housing on the basis of race, disability and familial status which limits housing choice
- Non-White households were less likely to be homeowners and are more likely to have been offered a high-cost loan than white households
- Members of protected classes have lower income and higher unemployment rates which limits housing choice
- Many of the municipal zoning ordinances in the Urban County are outdated, lack certain terms, definitions, and/or regulations, are not in alignment with Federal fair housing law.
- Newspaper advertising on line did not consistently use fair housing logo in Real Estate section

In the Five-Year CP, obstacles such as a lack of funding, NIMBYism, a lack of affordable housing, limited infrastructure in the community, Highlands development restrictions, and escalating costs to providing housing were cited as obstacles to providing affordable housing.

Actions planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The County will continue to conduct fair housing education and outreach. The county does not control land use, zoning, building codes or other actions with direct impact on land use. The County will continue to work in an advisory capacity to the local municipalities on land use issues.
During 2020 Passaic County will continue to promote fair housing. A housing conference was planned for April 2020 but due to the Corona Virus had to be canceled. We will promote the County's fair housing webpage as a place to get information on fair housing and plan a conference for 2021.

The Planning Department is collecting the court determinations for affordable housing to incorporate into a new housing element of the County's Master Plan. The county will promote housing options to expand housing choice.
Introduction

The following information illustrates other actions that Passaic County will take to address its priority needs.

Actions planned to address obstacles to meeting underserved needs

The primary impediment to the County ability to meet underserved needs is the limited amount of CDBG funding to address identified priorities. The County will continue to seek public and private resources to leverage its entitlement funds in assisting with implementation of policies and programs.

The County Housing Agency provides rent vouchers to offset the high cost of rental housing in the County.

The Passaic County Human Services Department offers several programs to combat homelessness and is the administrator of the CoC in Passaic County. The County has a Homeless Trust Fund which will provide resources to address homelessness.

Actions planned to foster and maintain affordable housing

The County will continue to support its goals of maintaining and expanding affordable housing by supporting activities and programs funded by others by certifying these activities as consistent with the five-year plan.

The Passaic County Weatherization and Home Energy Division provides utility subsidies to low income individuals residing in Passaic County to permit them to stay in their homes and have adequate heating and electricity. In addition, the Division rehabilitates the homes of low income individuals to ensure that they are energy efficient. Rehabilitation includes insulation, new windows, new hot water heaters and new boilers.

Additionally, the County will continue to provide resources to help homeless and low-income persons obtain housing. For example, the Passaic County Housing Agency provides rent vouchers to offset the high cost of rental housing in the County.

Actions planned to reduce lead-based paint hazards

The County is a participant in the New Jersey Health Department Lead Abatement Initiative. When children are identified with an elevated blood lead level, the County provides oversight to ensure that the lead-based paint problem is addressed. The State
recently announced its plans to reinstate funding for lead-based paint remediation. The County will once again be able to refer owners to this program.

The U.S. EPA guideline for renovation, paint and repair, effective April 22, 2010, requires that all contractors notify owners of properties constructed prior to 1978 of the potential for lead-based paint hazards and to perform work in a lead safe manner. Contractors must be trained and registered with the U.S. EPA to do work in older homes that disturbs painted surfaces. Local building code offices will be made aware of these requirements.

**Actions planned to reduce the number of poverty-level families**

Through implementation of human services programs offered by or through funding provided by Passaic County, the County works to reduce the number of families with incomes below the poverty level. The County, in conjunction with the public and private agencies and institutions, provides lower-income households with the opportunity to gain the knowledge and skills as well as the motivation to become fully self-sufficient. Economic Development activities are directed toward the creation of new businesses and employment opportunities. The CDBG program provides the potential of generating jobs that may be filled by Section 3 residents or hire Section 3 businesses.

The county Workforce Development Board and Workforce Development Center develop training and provide job placement services for county residents.

**Actions planned to develop institutional structure**

The County Department of Planning and Economic Development is responsible for the administration of the CDBG program. All sub-recipient agreements are monitored on an ongoing basis. The County participates with other groups when appropriate, such as planning for the homeless, to facilitate cooperative problem solving in Passaic County.

**Actions planned to enhance coordination between public and private housing and social service agencies**

The County will continue efforts to enhance coordination between agencies by creating partnerships in the implementation the Section 3 outreach initiative and the Passaic County Interagency Council on Homelessness. The Section 3 outreach effort will partner with the Passaic County Workforce Development Center and the agencies involved in the Human Services Advisory Board to identify Section 3 individuals and businesses and to provide feedback on available job opportunities. The Passaic County CEAS/Continuum of Care is comprised of providers of homeless services and prepares the McKinney application for funding from HUD.
